Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated they have reviewed this fiscal note and found no fiscal impact.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no anticipated cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipated no fiscal impact for the initiative petition 24-113 proposing to amend Chapter 324, RSMo.

Officials from the **Department of Revenue** indicated after a thorough review of IP 24-113, they assume this will not have a fiscal or administrative impact on their department or their operations. Their department also notes no impact is expected to state tax revenue from this IP.

Officials from the **Department of Public Safety** indicated no impact for their department, Director's office.

Officials from the **Missouri Department of the National Guard** indicated no fiscal impact to their department.

Officials from the **Department of Social Services** indicated they assume no impact regarding this petition.

Officials from the **Governor's office** indicated this proposal relating to local votes on transaction taxes for massage therapists and businesses does not financially impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated initiative petition 24-113 will have no fiscal impact on their department.

Officials from the **Department of Transportation** indicated no fiscal impact expected for their department or the Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal relating to local votes on transaction taxes for massage therapists and businesses does not financially impact their office.

Note: Budget & Planning assumes this provision will not impact state revenues. However, if the Department of Revenue is tasked with collecting the tax and is granted a percentage of such collections for costs, then this provision could have an unknown, positive, impact on general revenue.

Officials from the **Office of State Courts Administrator** indicated in reference to Initiative Petition 24-113, a proposed statutory amendment to Chapter 324 (2024-113), there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be \$10 million based on the cost of the 2022 primary and general election reimbursements.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

For the FY22 petitions cycle, their office estimates publication costs at \$70,000 per page. This amount is subject to change based on number of petitions received, length of those petitions and rates charged by newspaper publishers.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated initiative petition 24-113 will have no fiscal impact on their office.

Officials from the **Office of the State Treasurer** indicated no fiscal impact to their office.

Officials from **Clay County** indicated they estimate no fiscal impact from this petition.

Officials from **Greene County** indicated in reviewing initiative petition 24-113 it has been determined there will be an increased cost to their county if voters vote to amend Chapter 324, RSMo due to the election costs.

The language appears to allow the election to be held during the current dates set forth in statute for a public election where tax questions may be presented to voters by a political subdivision. With that understanding the per voters cost to administer an election during an April election when costs are proportionally shared by political subdivisions will be submitted, as well as the costs to host an election when the political subdivision is the only entity to hold an election below:

METHOD 1 – Proportional Costs

The most recent April 2023 election cost **\$361,991.59**. The estimated cost per voter for that election was **\$1.22** where **296,714** voters were eligible to vote. This additional cost would only occur when the political subdivision has no candidates on the ballot and no other issues to present to voters for their vote, other than what is proposed in Chapter 324.

METHOD 2 – One Political Subdivision Costs

The upcoming August 2023 Election has a cost estimate of **\$253,367.47**. The estimated cost per voter for this upcoming election is **\$2.88** where **87,975** voters were eligible to vote. The increase is because there are less total voters eligible for this election.

Officials from **St. Louis County** indicated this initiative should have no fiscal impact on their county.

Officials from the **City of Kansas City** indicated this will have no fiscal impact on their city.

Officials from **Metropolitan Community College** indicated no fiscal impact to their college.

Officials from the **University of Missouri** indicated the University of Missouri Health Care has reviewed the proposed legislation and has determined that as written it should not create expenses in excess of \$100,000.

Officials from the **St. Louis Community College** indicated they have reviewed the initiative petition and do not see any direct impact to the college.

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County, the City of Cape Girardeau, the City of Columbia, the City of Jefferson, the City of Joplin, the City of Kirksville, the City of Mexico, the City of Raymore, the City of St. Joseph, the City of St. Louis, the City of Springfield, the City of Union, the City of Wentzville, the City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, and the State Technical College of Missouri.**

Fiscal Note Summary

State and local governmental entities estimate no costs or savings.

MAY 15 2023

STATE AUDITORS OFFICE

RE: Petition approval request from Mark Pedersen regarding a proposed constitutional amendment to Article XIV (2024-112)

Dear Auditor Fitzpatrick:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Mark Pedersen on May 15, 2023.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

cc: Hon. Andrew Bailey

Be it resolved by the people of the state of Missouri that the Constitution be amended:

This measure amends the Missouri Constitution by amending Article XIV (14), henceforth to be called Missouri Cannabis Restoration. This amendment explicitly repeals, in part and/or in whole, Amending Article XIV (14), Section 1 and Section 2, by deleting all matters within the enclosed brackets and adding all that is underlined as required pursuant to Section 116.050 RSMo.

[XIV Section 1. Right to access medical marijuana. — 1. Purposes.]

XIV Section 1. Missouri Cannabis Restoration.

1. Clarification as a substance.

[This section is intended to permit state-licensed physicians and nurse practitioners to recommend marijuana for medical purposes to patients with serious illnesses and medical conditions. The section allows patients with qualifying medical conditions the right to discuss freely with their physicians and nurse practitioners the possible benefits of medical marijuana use, the right of their physicians and nurse practitioners to provide professional advice concerning the same, and the right to use medical marijuana for treatment under the supervision of a physician or nurse practitioner.

This section is intended to make only those changes to Missouri laws that are necessary to protect patients, their primary caregivers, and their physicians and nurse practitioners from civil and criminal penalties, and to allow for the limited legal production, distribution, sale and purchase of marijuana for medical use. This section is not intended to change current civil and criminal laws governing the use of marijuana for nonmedical purposes. The section does not allow for the public use of marijuana and driving under the influence of marijuana.]

Cannabis shall immediately be removed from the Missouri Revised Statutes list of controlled substances and shall no longer be listed among Missouri's drug schedules. Cannabis shall hence forth be considered a food and not a controlled substance or a drug, by Missouri law, by the passage of this initiative.

[2. Definitions.] 2. Definitions.

(1) "Administer" means the direct application of marijuana to a qualifying patient by way of any of the following methods:

- (a) Ingestion of capsules, teas, oils, and other marijuana-infused products;
- (b) Vaporization or smoking of dried flowers, buds, plant material, extracts, oils, and other marijuana-infused products;
- (c) Application of ointments or balms;
- (d) Transdermal patches and suppositories;
- (e) Consuming marijuana-infused food products; or
- (f) Any other method recommended by a qualifying patient's physician or nurse practitioner.

(2) "Church" means a permanent building primarily and regularly used as a place of religious worship.

(3) "Daycare" means a child-care facility, as defined by section 210.201, RSMo, or successor provisions, that is licensed by the state of Missouri.

(4) "Department" means the department of health and senior services, or its successor agency.

(5) "Entity" means a natural person, corporation, professional corporation, nonprofit corporation, cooperative corporation, unincorporated association, business trust, limited liability company, general or limited partnership, limited liability partnership, joint venture, or any other legal entity.

(6) "Flowering plant" means a marijuana plant from the time it exhibits the first signs of sexual maturity through harvest.

(7) "Infused preroll" means a consumable or smokable marijuana product, generally consisting of: (1) a wrap or paper, (2) dried flower, buds, and/or plant material, and (3) a concentrate, oil or other type of marijuana extract, either within or on the surface of the product. Infused prerolls may or may not include a filter or crutch at the base of the product.

(8) "Marijuana" or "marihuana" means Cannabis indica, Cannabis sativa, and Cannabis ruderalis, hybrids of such species, and any other strains commonly understood within the scientific community to constitute marijuana, as well as resin extracted from the marijuana plant and marijuana-infused products. "Marijuana" or "marihuana" do not include industrial hemp, as defined by Missouri statute, or commodities or products manufactured from industrial hemp.

(9) "Marijuana-infused products" means products that are infused, dipped, coated, sprayed, or mixed with marijuana or an extract thereof, including, but not limited to, products that are able to be vaporized or smoked, edible products, ingestible products, topical products, suppositories, and infused prerolls.

(10) "Medical facility" means any medical marijuana cultivation facility, medical marijuana dispensary facility, or medical marijuana-infused products manufacturing facility, as defined in this section.

(11) "Medical marijuana cultivation facility" means a facility licensed by the department to acquire, cultivate, process, package, store on site or off site, transport to or from, and sell marijuana, marijuana seeds, and marijuana vegetative cuttings (also known as clones) to a medical marijuana dispensary facility, medical marijuana testing facility, medical marijuana cultivation facility, or to a medical marijuana-infused products manufacturing facility. A medical marijuana cultivation facility's authority to process marijuana shall include the production and sale of prerolls, but shall not include the manufacture of marijuana-infused products.

(12) "Medical marijuana dispensary facility" means a facility licensed by the department to acquire, process, package, store on site or off site, sell, transport to or from, and deliver marijuana, marijuana seeds, marijuana vegetative cuttings (also known as clones), marijuana-infused products, and drug paraphernalia used to administer marijuana as provided for in this section to a qualifying patient, a primary caregiver, anywhere on the licensed property or to any address as directed by the patient or primary caregiver, so long as the address is a location allowing for the legal possession of marijuana, another medical marijuana dispensary facility, a marijuana testing facility, a medical marijuana cultivation facility, or a medical marijuana-infused products manufacturing facility. Dispensary facilities may receive transaction orders at the dispensary in person, by phone, or via the internet, including from a third party. A medical marijuana dispensary facility's authority to process marijuana shall include the production and sale of prerolls, but shall not include the manufacture of marijuana-infused products.

(13) "Medical marijuana-infused products manufacturing facility" means a facility licensed by the department to acquire, process, package, store on site or off site, manufacture, transport to or from, and sell marijuana-infused products to a medical marijuana dispensary facility, a marijuana testing facility, a medical marijuana cultivation facility, or to another medical marijuana-infused products manufacturing facility.

(14) "Marijuana testing facility" means a facility certified by the department to acquire, test, certify, and transport marijuana, including those originally licensed as a medical marijuana testing facility.

(15) "Medical use" means the production, possession, delivery, distribution, transportation, or administration of marijuana or a marijuana-infused product, or drug paraphernalia used to administer marijuana or a marijuana-infused product, for the benefit of a qualifying patient to mitigate the symptoms or effects of the patient's qualifying medical condition.

(16) "Nurse practitioner" means an individual who is licensed and in good standing as an advanced practice registered nurse, or successor designation, under Missouri law.

(17) "Owner" means an individual who has a financial (other than security interest, lien, or encumbrance) or voting interest in ten percent or greater of a marijuana facility.

(18) "Physician" means an individual who is licensed and in good standing to practice medicine or osteopathy under Missouri law.

(19) "Physician or nurse practitioner certification" means a document, whether handwritten, electronic or in another commonly used format, signed by a physician or a nurse practitioner and stating that, in the physician's or nurse practitioner's professional opinion, the patient suffers from a qualifying medical condition.

(20) "Preroll" means a consumable or smokable marijuana product, generally consisting of: (1) a wrap or paper and (2) dried flower, buds, and/or plant material. Prerolls may or may not include a filter or crutch at the base of the product.

(21) "Primary caregiver" means an individual twenty-one years of age or older who has significant responsibility for managing the well-being of a qualifying patient and who is designated as such on the primary caregiver's application for an identification card under this section or in other written notification to the department.

(22) "Qualifying medical condition" means the condition of, symptoms related to, or side-effects from the treatment of:

- (a) Cancer;
- (b) Epilepsy;
- (c) Glaucoma;
- (d) Intractable migraines unresponsive to other treatment;
- (e) A chronic medical condition that causes severe, persistent pain or persistent muscle spasms, including but not limited to those associated with multiple sclerosis, seizures, Parkinson's disease, and Tourette's syndrome;
- (f) Debilitating psychiatric disorders, including, but not limited to, posttraumatic stress disorder, if diagnosed by a state licensed psychiatrist;
- (g) Human immunodeficiency virus or acquired immune deficiency syndrome;
- (h) A chronic medical condition that is normally treated with a prescription medication that could lead to physical or psychological dependence, when a physician or nurse practitioner determines that medical use of marijuana could be effective in treating that condition and would serve as a safer alternative to the prescription medication;
- (i) Any terminal illness; or
- (j) In the professional judgment of a physician or nurse practitioner, any other chronic, debilitating or other medical condition, including, but not limited to, hepatitis C, amyotrophic lateral sclerosis, inflammatory bowel disease, Crohn's disease, Huntington's disease, autism, neuropathies, sickle cell anemia, agitation of Alzheimer's disease, cachexia, and wasting syndrome.

(23) "Qualifying patient" means an individual diagnosed with at least one qualifying medical condition.

(24) "Unduly burdensome" (when referring to a facility licensee or certificate holder) means the measures necessary to comply with the rules or ordinances adopted pursuant to this section subject the party to such a high investment or expense of money, time, or any other resource or asset that a reasonably prudent businessperson would not operate the facility; and (when referring to qualifying

patients, primary caregivers, physicians, nurse practitioners, or other party) "unduly burdensome" means the measures necessary to comply with the rules or ordinances adopted pursuant to this section undermine the purpose of this section.]

- (a) "Controlled Substance List", or "CSL," refers to Missouri's list of controlled substances as it pertains to Missouri Statutes.
- (b) "Cannabis" and "Cannabis hemp" refer to Cannabis, marihuana, marijuana, Cannabis sativa, Cannabis sativa L., Cannabis Americana, Cannabis Gigantea, Cannabis indica, Cannabis ruderalis, or any variety of Cannabis including any derivative, concentrate, extract, flower, leaf, particle, preparation, resin, root, salt, seed, stalk, stem, or any product thereof.
- (c) "Medical Cannabis" refers to Cannabis used to prevent or to treat a medical condition.
- (d) "Personal use" refers to the personal use or private, non-commercial use and/or consumption of Cannabis.
- (e) "Cannabis accessories" means any equipment, products, or materials of any kind that are used, intended for use, or designed for use in planting, propagating, cultivating, growing, harvesting, manufacturing, compounding, converting, producing, processing, preparing, testing, analyzing, packaging, repackaging, storing, or containing of Cannabis, and/or ingesting, inhaling, vaporizing, smoking or otherwise introducing of Cannabis into and/or onto the human body.
- (f) "Establishment" refers to a cultivation facility, a testing facility, a product manufacturing facility, or a retail store, or other entity that cultivates, prepares, manufactures, packages, transports or sells Cannabis food products and/or accessories.
- (g) Cannabis community Co-ops refer to private and/or public groups of family, friends, neighbors and/or like-minded individuals who work together to grow medicinal and/or personal use Cannabis, and the production of Cannabis components and/or accessories.
- (h.) An Excise tax is a "sin tax"; a tax imposed on a commodity for which the community, county, state or Federal Government wishes to discourage it's use.

13. Creating Patient Access to Medical Marijuana.] **3. Personal Cannabis Use.**

(1) In carrying out the implementation of this section, the department shall have the authority to:

- (a) Grant or refuse state licenses and certifications for the cultivation, manufacture, dispensing, sale, testing, tracking, and transportation of marijuana and marijuana-infused products for medical use, as provided by this section and general law; suspend, impose an authorized fine, restrict, or revoke such licenses and certifications upon a violation of this section, general law, or a rule promulgated pursuant to this section; and impose any administrative penalty authorized by this section or any general law enacted or rule promulgated pursuant to this section, so long as any procedure related to a suspension or revocation includes a reasonable cure period, not less than thirty days, prior to the suspension or revocation, except in instances where there is a credible and imminent threat to public health or public safety.
- (b) Promulgate rules and emergency rules necessary for the proper regulation and control of the cultivation, manufacture, dispensing, and sale of marijuana for medical use and for the enforcement of this section so long as patient access is not restricted unreasonably and such rules are reasonably necessary for patient safety or to restrict access to only licensees and qualifying patients.
- (c) Develop such forms, certificates, licenses, identification cards, and applications as are necessary for, or reasonably related to, the administration of this section or any of the rules promulgated under this section.
- (d) Require a seed-to-sale tracking system that tracks medical marijuana from either the seed or immature plant stage until the medical marijuana or medical marijuana-infused product is sold to a qualifying patient or primary caregiver to ensure that no medical marijuana grown by a medical marijuana cultivation facility or manufactured by a medical marijuana-infused products manufacturing facility is sold or otherwise transferred except by a medical marijuana dispensary facility. The department shall certify, if possible, at least two commercially available systems to licensees as compliant with its tracking standards and issue standards for the creation or use of other systems by licensees.
- (e) Issue standards for the secure transportation of marijuana and marijuana-infused products. The department shall certify entities which demonstrate compliance with its transportation standards to transport marijuana and marijuana infused products to or from a medical marijuana cultivation facility, a medical marijuana-infused products manufacturing facility, a medical marijuana dispensary facility, a marijuana testing facility, or another entity with a transportation certification. The department shall develop or adopt from any other governmental agency such safety and security standards as are reasonably necessary for the transportation of marijuana and marijuana-infused products. Any entity licensed or certified pursuant to this section shall be allowed to transport and store marijuana, marijuana seeds, marijuana vegetative cuttings (also known as clones) and marijuana-infused products for purposes related to transportation in compliance with department regulations on storage of marijuana and marijuana-infused products.
- (f) The department may charge a fee not to exceed \$5,000 for any certification issued pursuant to this section.
- (g) Prepare and transmit annually a publicly available report accounting to the governor for the efficient discharge of all responsibilities assigned to the department under this section.
- (h) Establish a lottery selection process to select medical marijuana licensee and certificate applicants, only in cases where more applicants apply than the minimum number of licenses or certificates as calculated by this section. To be eligible for the medical marijuana license lottery process, an applicant cannot have an owner who has pleaded or been found guilty of a disqualifying felony. A "disqualifying felony offense" is a violation of, and conviction or guilty plea to, state or federal law that is, or would have been, a felony under Missouri law, regardless of the sentence imposed, unless the department determines that:
 - a. The person's conviction was for a marijuana offense, other than provision of marijuana to a minor; or
 - b. The person's conviction was for a non-violent crime for which he or she was not incarcerated and that is more than five years old; or
 - c. More than five years have passed since the person was released from parole or probation, and he or she has not been convicted of any subsequent felony criminal offenses.

The department may consult with and rely on the records, advice, and recommendations of the attorney general and the department of public safety, or their successor entities, in carrying out the provisions of this subdivision.

In establishing a lottery selection process to select medical marijuana licensee and certificate applicants and awarding licenses and certificates, the department may consult or contract with other public agencies with relevant expertise. The department shall lift or ease any limit on the number of licensees or certificate holders in order to meet the demand for marijuana for medical use by qualifying patients.

- (2) The department shall issue any rules or emergency rules necessary for the implementation and enforcement of this section and to ensure the right to, availability, and safe use of marijuana for medical use by qualifying patients. In developing such rules or emergency rules, the department may consult with other public agencies. In addition to any other rules or emergency rules necessary to carry out the mandates of this section, the department may issue rules or emergency rules relating to the following subjects:
 - (a) Compliance with, enforcement of, or violation of any provision of this section or any rule issued pursuant to this section, including procedures and grounds for denying, suspending, imposing an authorized fine, and restricting, or revoking a state license or certification issued pursuant to this section, so long as any procedure related to a suspension or revocation includes a reasonable cure period, not less than thirty days, prior to the suspension or revocation, except in instances where there is a credible and imminent threat to public health or public safety;
 - (b) Specifications of duties of officers and employees of the department;
 - (c) Instructions or guidance for local authorities and law enforcement officers;
 - (d) Requirements for inspections, investigations, searches, seizures, and such additional enforcement activities as may become necessary from time to time;
 - (e) As otherwise authorized by this section or general law, administrative penalties and policies for use by the department;
 - (f) Prohibition of misrepresentation and unfair practices;
 - (g) Control of informational and product displays on licensed premises provided that the rules may not prevent or unreasonably restrict appropriate signs on the property of the medical marijuana dispensary facility, product display and examination by the qualifying patient and/or primary caregiver, listings in business directories including phone books, listings in marijuana-related or medical publications, or the sponsorship of health or not for profit charity or advocacy events. While the department shall have the general power to regulate the advertising and promotion of marijuana sales, under all circumstances, any such regulation shall be no more stringent than comparable state regulations on the advertising and promotion of alcohol sales;
 - (h) Development of individual identification cards for owners, officers, managers, contractors, employees, and other support staff of entities licensed or certified pursuant to this section, including a fingerprint-based federal and state criminal record check in accordance with U.S. Public Law 92-544, or its successor provisions, as may be required by the department prior to issuing a card and procedures to ensure that cards for new applicants are issued within fourteen days. Applicants licensed pursuant to this section shall submit fingerprints to the Missouri state highway patrol for the purpose of conducting a state and federal fingerprint-based criminal background check. The Missouri state highway patrol, if necessary, shall forward the fingerprints to the Federal Bureau of Investigation (FBI) for the purpose of conducting a fingerprint-based criminal background check. Fingerprints shall be submitted pursuant to section 43.543, RSMo, or its successor provisions, and fees shall be paid pursuant to section 43.530, RSMo, or its successor provisions. Unless otherwise required by law, no individual shall be required to submit fingerprints more than once;
 - (i) Security requirements for any premises licensed or certified pursuant to this section, including, at a minimum, lighting, physical security, video, alarm requirements, and other minimum procedures for internal control as deemed necessary by the department to properly administer and enforce the provisions of this section, including reporting requirements for changes, alterations, or modifications to the premises;
 - (j) Regulation of the storage of, warehouses for, and transportation of marijuana for medical use;
 - (k) Sanitary requirements for, including, but not limited to, the preparation of medical marijuana-infused products;
 - (l) The specification of acceptable forms of picture identification that a medical marijuana dispensary facility may accept when verifying a sale;
 - (m) Labeling and packaging standards;
 - (n) Records to be kept by licensees and the required availability of the records;

- (o) State licensing procedures, including procedures for renewals, reinstatements, initial licenses, and the payment of licensing fees;
 - (p) The reporting and transmittal of tax payments;
 - (q) Authorization for the department of revenue to have access to licensing information to ensure tax payment and the effective administration of this section; and
 - (r) Such other matters as are necessary for the fair, impartial, stringent, and comprehensive administration of this section.
- (3) The department shall issue rules or emergency rules for a medical marijuana and medical marijuana-infused products independent testing and certification program for medical marijuana licensees and requiring licensees to test medical marijuana using one or more impartial, independent laboratories to ensure, at a minimum, that products sold for human consumption do not contain contaminants that are injurious to health, to ensure correct labeling and measure potency. The department shall not require any medical marijuana or medical marijuana-infused products to be tested more than once prior to sale.
- (4) The department shall issue rules or emergency rules to provide for the certification of and standards for marijuana testing facilities, including the requirements for equipment and qualifications for personnel, but shall not require certificate holders to have any federal agency licensing or have any relationship with a federally licensed testing facility. The department shall certify, if possible, at least two entities as marijuana testing facilities. No marijuana testing facility shall be owned by an entity or entities under substantially common control, ownership, or management as a medical marijuana cultivation facility, medical marijuana-infused product manufacturing facility, or medical marijuana dispensary facility.
- (5) Any information released by the department related to patients may only be for a purpose authorized by federal law and this section, including verifying that a person who presented a patient identification card to a state or local law enforcement official is lawfully in possession of such card. Beginning December 8, 2022, all public records produced or retained pursuant to this section are subject to the general provisions of the Missouri Sunshine Law, chapter 610, RSMo, or its successor provisions. Notwithstanding the foregoing, records containing proprietary business information obtained from an applicant or licensee shall be closed. For documents submitted on or after December 8, 2022, the applicant or licensee shall label business information it believes to be proprietary prior to submitting it to the department. For documents submitted prior to December 8, 2022, the applicant or licensee may advise the department, through a department approved process, of any records previously submitted by the applicant or licensee it believes contain proprietary business information. Proprietary business information shall include sales information, financial records, tax returns, credit reports, license applications, cultivation information unrelated to product safety, testing results unrelated to product safety, site security information and plans, and individualized consumer information. The presence of proprietary business information shall not justify the closure of public records:
- (a) Identifying the applicant or licensee;
 - (b) Relating to any citation, notice of violation, tax delinquency, or other enforcement action;
 - (c) Relating to any public official's support or opposition relative to any applicant, licensee, or their proposed or actual operations;
 - (d) Where disclosure is reasonably necessary for the protection of public health or safety; or
 - (e) That are otherwise subject to public inspection under other applicable law.
- (6) Within one hundred eighty days of December 6, 2018, the department shall make available to the public license application forms and application instructions for medical marijuana cultivation facilities, marijuana testing facilities, medical marijuana dispensary facilities, and medical marijuana-infused products manufacturing facilities.
- (7) Within one hundred eighty days of December 6, 2018, the department shall make available to the public application forms and application instructions for qualifying patient, qualifying patient cultivation, and primary caregiver identification cards. Within two hundred ten days of December 6, 2018, the department shall begin accepting applications for such identification cards.
- (8) An entity may apply to the department for and obtain one or more licenses to grow marijuana as a medical marijuana cultivation facility. Each facility in operation shall require a separate license, but multiple licenses may be utilized in a single facility. Each indoor facility utilizing artificial lighting may be limited by the department to thirty thousand square feet of flowering plant canopy space. Each outdoor facility utilizing natural lighting may be limited by the department to two thousand eight hundred flowering plants. Each greenhouse facility using a combination of natural and artificial lighting may be limited by the department, at the election of the licensee, to two thousand eight hundred flowering plants or thirty thousand square feet of flowering plant canopy. The license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a nonrefundable fee of ten thousand dollars per license application or renewal for all applicants filing an application within three years of December 6, 2018, and shall charge each applicant a nonrefundable fee of five thousand dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of twenty-five thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. An entity or entities under substantially common control, ownership, or management may not be an owner of more than ten percent of the total marijuana cultivation facility licenses outstanding under both sections 1 and 2 of this Article at any given time, rounded down to the nearest whole number.
- (9) An entity may apply to the department for and obtain one or more licenses to operate a medical marijuana dispensary facility. Each facility in operation shall require a separate license. A license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a nonrefundable fee of six thousand dollars per license application or renewal for each applicant filing an application within three years of December 6, 2018, and shall charge each applicant a nonrefundable fee of three thousand dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of ten thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. An entity or entities under substantially common control, ownership, or management may not be an owner of more than ten percent of the total marijuana dispensary facility licenses outstanding under both sections 1 and 2 of this Article at any given time, rounded down to the nearest whole number.
- (10) An entity may apply to the department for and obtain one or more licenses to operate a medical marijuana-infused products manufacturing facility. Each facility in operation shall require a separate license. A license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a nonrefundable fee of six thousand dollars per license application or renewal for each applicant filing an application within three years of December 6, 2018, and shall charge each applicant a nonrefundable fee of three thousand dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of ten thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. An entity or entities under substantially common control, ownership, or management may not be an owner of more than ten percent of the total marijuana-infused products manufacturing facility licenses outstanding under both sections 1 and 2 of this Article at any given time, rounded down to the nearest whole number.
- (11) Any applicant for a license authorized by this section may prefile their application fee with the department beginning 30 days after December 6, 2018.
- (12) Except for good cause, a qualifying patient or his or her primary caregiver may obtain an identification card from the department to cultivate up to six flowering marijuana plants, six nonflowering marijuana plants (over fourteen inches tall), and six clones (plants under fourteen inches tall) for the exclusive use of that qualifying patient. The card shall be valid for three years from its date of issuance and shall be renewable with the submittal of a new or updated physician or nurse practitioner certification. The department shall charge a fee for the card of fifty dollars, with such rate to be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency.
- (13) The department may set a limit on the amount of marijuana that may be purchased by or on behalf of a single qualifying patient in a thirty-day period, provided that limit is not less than six ounces of dried, unprocessed marijuana, or its equivalent. Any such limit shall not apply to a qualifying patient with written certification from a physician or nurse practitioner that there are compelling reasons why the qualifying patient needs a greater amount than the limit established by the department.
- (14) The department may set a limit on the amount of marijuana that may be possessed by or on behalf of each qualifying patient, provided that limit is not less than a sixty-day supply of dried, unprocessed marijuana, or its equivalent. A primary caregiver may possess a separate legal limit for each qualifying patient under their care and a separate legal limit for themselves if they are a qualifying patient. Qualifying patients cultivating marijuana for medical use may possess up to a ninety-day supply, so long as the supply remains on property under their control. Any such limit shall not apply to a qualifying patient with written certification from an independent physician or nurse practitioner that there are compelling reasons for additional amounts. Possession of between the legal limit and up to twice the legal limit shall subject the possessor to department sanctions, including an administrative penalty of up to two hundred dollars and loss of their patient identification card for up to a year. Purposefully possessing amounts in excess of twice the legal limit shall be punishable as an infraction under applicable law.
- (15) The department may restrict the aggregate number of licenses granted for medical marijuana cultivation facilities and comprehensive marijuana cultivation facilities authorized by section 2 combined, provided, however, that the number may not be limited to fewer than one license per every one hundred thousand inhabitants, or any portion thereof, of the state of Missouri, according to the most recent census of the United States. A decrease in the number of inhabitants in the state of Missouri shall have no impact.
- (16) The department may restrict the aggregate number of licenses granted for medical marijuana-infused products manufacturing facilities and comprehensive marijuana-infused products manufacturing facilities authorized by section 2 combined, provided, however, that the number may not be limited to fewer than one license per every seventy thousand inhabitants, or any portion thereof, of the state of Missouri, according to the most recent census of the United States. A decrease in the number of inhabitants in the state of Missouri shall have no impact.
- (17) The department may restrict the aggregate number of licenses granted for medical marijuana dispensary facilities and comprehensive marijuana dispensary facilities authorized by section 2 combined, provided, however, that the number may not be limited to fewer than twenty-four licenses in each United States congressional district in the state of Missouri pursuant to the map of each of the eight congressional districts as drawn and effective on December 6, 2018. Future changes to the boundaries of or the number of congressional districts shall have no impact.
- (18) The department shall begin accepting license and certification applications for medical marijuana dispensary facilities, marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana-infused products manufacturing facilities, seed-to-sale tracking systems, and for transportation of marijuana no later than two hundred forty days after December 6, 2018. Applications for licenses and certifications under this section shall be approved or denied by the department no later than one hundred fifty days after their submission. If the department fails to carry out its nondiscretionary duty to approve or deny an application within one hundred fifty days of submission, an applicant may immediately seek a court order compelling the department to approve or deny the application.
- (19) Qualifying patients under this section shall obtain an identification card or cards from the department. The department shall charge a fee of twenty-five dollars per card. Such fee may be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor or

its successor agency. Cards shall be valid for three years and may be renewed with a new physician or nurse practitioner certification. Upon receiving an application for a qualifying patient identification card or qualifying patient cultivation identification card, the department shall, within thirty days, either issue the card or provide a written explanation for its denial. If the department fails to deny and fails to issue a card to an eligible qualifying patient within thirty days, then their physician or nurse practitioner certification shall serve as their qualifying patient identification card or qualifying patient cultivation identification card for up to one year from the date of physician or nurse practitioner certification. All initial applications for or renewals of a qualifying patient identification card or qualifying patient cultivation identification card shall be accompanied by a physician or nurse practitioner certification that is less than thirty days old.

(20) Primary caregivers under this section shall obtain an identification card from the department. Cards shall be valid for three years. The department shall charge a fee of twenty-five dollars per card. Such fee may be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. Upon receiving an application for a primary caregiver identification card, the department shall, within thirty days, either issue the card or provide a written explanation for its denial.

(21) Except as otherwise provided in this Article, all marijuana for medical use sold in Missouri shall be cultivated in a licensed medical marijuana cultivation facility located in Missouri.

(22) Except as otherwise provided in this Article, all marijuana-infused products for medical use sold in the state of Missouri shall be manufactured in a medical marijuana-infused products manufacturing facility.

(23) The denial of a license, license renewal, or identification card by the department shall be appealable to the administrative hearing commission, or its successor entity. Following the exhaustion of administrative review, denial of a license, license renewal, or identification card by the department shall be subject to judicial review as provided by law.

(24) No elected official shall interfere directly or indirectly with the department's obligations and activities under this section.

(25) The department shall not have the authority to apply or enforce any unduly burdensome rule or regulation or administrative penalty upon any one or more licensees or certificate holders, any qualifying patients, or their primary caregivers, or act to undermine the purposes of this section.]

The following acts are not unlawful and shall not be an offense under Missouri law:

(a) Possession and/or consumption of Cannabis for personal, medical and/or adult use.

(b) Cultivating and/or processing Cannabis for personal and/or medical use.

(c) Sharing Cannabis with friends, neighbors, the poor, the homeless and/or the general public, including neighborhood or community gardens and Cannabis community Co-ops.

(f) Leasing or otherwise allowing the use of property owned, occupied or controlled by any person, corporation or other entity for any of the activities conducted lawfully in accordance with paragraphs (a) through (e) of this subsection.

(g) No one shall be denied housing solely based on their use of Cannabis.

(h) No one shall be denied employment solely based on their use of Cannabis.

(i) The use and/or possession of Cannabis shall in no way impede one's legal right to possess a firearm.

(j) The use and/or possession of Cannabis shall in no way impede one's legal right to parental custody, visitation, fostering or adoption of a child.

14. Taxation and Reporting.] 4. Limitations, Parental and/or Guardian Responsibility.

[I(1) A tax is levied upon the retail sale of marijuana for medical use sold at medical marijuana dispensary facilities within the state. The tax shall be at a rate of four percent of the retail price. The tax shall be collected by each licensed medical marijuana dispensary facility and paid to the department of revenue. After retaining no more than two percent for its actual collection costs, amounts generated by the medical marijuana tangible personal property retail sales tax levied in this section shall be deposited by the department of revenue into the Missouri veterans' health and care fund. Licensed entities making retail sales within the state shall be allowed approved credit for returns provided the tax was paid on the returned item and the purchaser was given the refund or credit.

(2) There is hereby created in the state treasury the "Missouri Veterans' Health and Care Fund", which shall consist of taxes and fees collected under this section. The state treasurer shall be custodian of the fund, and he or she shall invest monies in the fund in the same manner as other funds are invested. Any interest and monies earned on such investments shall be credited to the fund. Notwithstanding any other provision of law, any monies remaining in the fund at the end of a biennium shall not revert to the credit of the general revenue fund. The commissioner of administration is authorized to make cash operating transfers to the fund for purposes of meeting the cash requirements of the department in advance of it receiving annual application, licensing, and tax revenue, with any such transfers to be repaid as provided by law. The fund shall be a dedicated fund and shall stand appropriated without further legislative action as follows:

(a) First, to the department, an amount necessary for the department to carry out this section, including repayment of any cash operating transfers, payments made through contract or agreement with other state and public agencies necessary to carry out this section, and a reserve fund to maintain a reasonable working cash balance for the purpose of carrying out this section;

(b) Next, the remainder of such funds shall be transferred to the Missouri veterans commission for health and care services for military veterans, including the following purposes: operations, maintenance and capital improvements of the Missouri veterans homes, the Missouri service officer's program, and other services for veterans approved by the commission, including, but not limited to, health care services, mental health services, drug rehabilitation services, housing assistance, job training, tuition assistance, and housing assistance to prevent homelessness. The Missouri veterans commission shall contract with other public agencies for the delivery of services beyond its expertise.

(c) All monies from the taxes authorized under this subsection shall provide additional dedicated funding for the purposes enumerated above and shall not replace existing dedicated funding.

(3) For all retail sales of marijuana for medical use, a record shall be kept by the seller which identifies, by secure and encrypted patient number issued by the seller to the qualifying patient involved in the sale, all amounts and types of marijuana involved in the sale and the total amount of money involved in the sale, including itemizations, taxes collected and grand total sale amounts. All such records shall be kept on the premises in a readily available format and be made available for review by the department and the department of revenue upon request. Such records shall be retained for five years from the date of the sale.

(4) The tax levied pursuant to this subsection is separate from, and in addition to, any general state and local sales and use taxes that apply to retail sales, which shall continue to be collected and distributed as provided by general law.

(5) Except as authorized in this subsection, no additional taxes shall be imposed on the sale of marijuana for medical use.

(6) The fees and taxes provided for in this Article XIV, Section 1 shall be fully enforceable notwithstanding any other provision in this Constitution purportedly prohibiting or restricting the taxes and fees provided for herein.

(7) The unexpended balance existing in the fund shall be exempt from the provisions of section 33.080, RSMo, or its successor provisions, relating to the transfer of unexpended balances to the general revenue fund.

(8) For taxpayers authorized to do business pursuant to this Article, the amount that would have been deducted in the computation of federal taxable income pursuant to 26 U.S.C. Section 280E of the Internal Revenue Code as in effect on January 1, 2021, or successor provisions, but is disallowed because cannabis is a controlled substance under federal law, shall be subtracted from the taxpayer's federal adjusted gross income, in determining the taxpayer's Missouri adjusted gross income.]

Missouri recognizes and empowers parents and/or legal guardians in their authority and influence over the children for whom they care regarding euphoric substances.

(a.) Parents and/or legal guardians are required by law to educate the children under their direction to abide by rules of proper behavior, both in public and in private.

(b.) Personal and religious views, and their influence on children regarding Cannabis will not be the responsibility of the state of Missouri.

(c.) Parents and/or legal guardians will be directly responsible for the children for whom they are legally bound, to provide support and proper education regarding Cannabis and its use.

(d.) Recognizing that both children and adults can benefit from Cannabis therapies, possession and/or consumption in schools, public and/or private would be permitted in designated areas. Guidance and supervision should be provided when a parent is not available.

(e.) There will be no permits or restrictions required regarding personal Cannabis cultivation beyond that which would be required regarding a personal or community vegetable garden.

(f.) Cannabis coops, where family, friends or neighbors produce for each other and those who cannot physically or economically grow their own Cannabis, will be encouraged wherever personal and/or community vegetable gardens are permitted.

[5. Additional Patient, Physician, Nurse Practitioner, Caregiver and Provider Protections.] 5. Medical Cannabis.

[I(1) Except as provided in this section, the possession of marijuana in quantities less than the limits of this section, or established by the department, and transportation of marijuana by the qualifying patient or primary caregiver shall not subject the possessor to arrest, criminal or civil liability, or sanctions under Missouri law, provided that the possessor produces on demand to the appropriate authority a valid qualifying patient identification card; a valid qualifying patient cultivation identification card; a valid physician or nurse practitioner certification while making application for an identification card; or a valid primary caregiver identification card. Production of the respective substantially equivalent identification card or authorization issued by another state or political subdivision of another state shall also meet the requirements of this subdivision and shall allow for the purchase of medical marijuana for use by a non-resident patient from a medical marijuana dispensary facility as permitted by this section and in compliance with department regulations.

(2) No patient shall be denied access to or priority for an organ transplant or other medical care because they hold a qualifying patient identification card or use marijuana for medical use.

(3) A physician or nurse practitioner shall not be subject to criminal or civil liability or sanctions under Missouri law or discipline by the Missouri state board of registration for the healing arts, the Missouri state board of nursing, or their respective successor agencies, for owning, operating, investing in, being employed by, or contracting with any entity licensed or certified pursuant to this section or issuing a physician or nurse practitioner certification to a patient diagnosed with a qualifying medical condition in a manner consistent with this section and legal standards of professional conduct.

(4) A health care provider shall not be subject to civil or criminal prosecution under Missouri law, denial of any right or privilege, civil or administrative penalty or sanction, or disciplinary action by any accreditation or licensing board or commission for owning, operating, investing in, being employed by, or contracting with any entity licensed or certified pursuant to this section or providing health care services that involve the medical use of marijuana consistent with this section and legal standards of professional conduct.

(5) A marijuana testing facility shall not be subject to civil or criminal prosecution under Missouri law, denial of any right or privilege, civil or administrative penalty or sanction, or disciplinary action by any accreditation or licensing board or commission for providing laboratory testing services that relate to the medical use of marijuana consistent with this section and otherwise meeting legal standards of professional conduct.

- (6) A health care provider shall not be subject to mandatory reporting requirements for the medical use of marijuana by nonemancipated qualifying patients under eighteen years of age in a manner consistent with this section and with consent of a parent or guardian.
- (7) A primary caregiver shall not be subject to criminal or civil liability or sanctions under Missouri law for purchasing, transporting, or administering marijuana for medical use to a qualifying patient or participating in the patient cultivation of up to six flowering marijuana plants, six nonflowering marijuana plants (over fourteen inches tall), and six clones (plants under fourteen inches tall) per patient and no more than twenty-four flowering plants for more than one qualifying patient in a manner consistent with this section and generally established legal standards of personal or professional conduct.
- (8) Notwithstanding any provision of Article V to the contrary, an attorney shall not be subject to disciplinary action by the Supreme Court of Missouri, the office of chief disciplinary counsel, the state bar association, any state agency, or any professional licensing body for any of the following:
- (a) Owning, operating, investing in, being employed by, or contracting with prospective or licensed marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana dispensary facilities, medical marijuana-infused products manufacturing facilities, or transportation certificate holders;
 - (b) Counseling, advising, and/or assisting a client in conduct permitted by Missouri law that may violate or conflict with federal or other law, as long as the attorney advises the client about that federal or other law and its potential consequences;
 - (c) Counseling, advising, and/or assisting a client in connection with applying for, owning, operating, or otherwise having any legal, equitable, or beneficial interest in marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana dispensary facilities, medical marijuana-infused products manufacturing facilities, or transportation certificates; or
 - (d) Counseling, advising or assisting a qualifying patient, primary caregiver, physician, nurse practitioner, health care provider or other client related to activity that is no longer subject to criminal penalties under Missouri law pursuant to this Article.
- (9) Actions and conduct by qualifying patients, primary caregivers, marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana-infused products manufacturing facilities, or medical marijuana dispensary facilities licensed or registered with the department, or their employees or agents, as permitted by this section and in compliance with department regulations and other standards of legal conduct, shall not be subject to criminal or civil liability or sanctions under Missouri law, except as provided for by this section.
- (10) Nothing in this section shall provide immunity for negligence, either common law or statutorily created, nor criminal immunities for operating a vehicle, aircraft, dangerous device, or navigating a boat under the influence of marijuana.
- (11) It is the public policy of the state of Missouri that contracts related to marijuana for medical use that are entered into by qualifying patients, primary caregivers, marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana-infused products manufacturing facilities, or medical marijuana dispensary facilities and those who allow property to be used by those entities, should be enforceable. It is the public policy of the state of Missouri that no contract entered into by qualifying patients, primary caregivers, marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana-infused products manufacturing facilities, or medical marijuana dispensary facilities, or by a person who allows property to be used for activities that are exempt from state criminal penalties by this section, shall be unenforceable on the basis that activities related to medical marijuana may be prohibited by federal law.
- (12) In the process of requesting a search or arrest warrant relating to the production, possession, transportation or storage of marijuana, a state or local law enforcement official shall verify with the department whether the targeted person is a qualifying patient or primary caregiver holding an identification card allowing for cultivation of marijuana plants under subdivision (12) of subsection 3 of this section, and shall inform the issuing authority accordingly when making the warrant request. Evidence of marijuana alone, without specific evidence indicating that the marijuana is outside of what is lawful for medical or adult use, cannot be the basis for a search of a patient or non-patient, including their home, vehicle or other property. Lawful marijuana related activities cannot be the basis for a violation of parole, probation, or any type of supervised release. State and local law enforcement shall only have access to such department information as is necessary to confirm whether the targeted person holds registration card.
- (13) Registered qualifying patients on bond for pre-trial release, on probation, or other form of supervised release shall not be prohibited from legally using a lawful marijuana product as a term or condition of release, probation, or parole. An alternative sentencing drug court program may not prohibit individuals under its jurisdiction from using a lawful marijuana product as long as the individual is a registered qualifying patient.
- (14) A family court participant or party who requires treatment for a qualified medical condition in accordance with this section shall not be required to refrain from using medical marijuana as a term or condition of successful completion of the family court program. The status and conduct of a qualified patient who acts in accordance with this section shall not, by itself, be used to restrict or abridge custodial or parental rights to minor children in any action or proceeding under the jurisdiction of a family court under chapter 487, RSMo, including domestic matters under chapter 452, RSMo, or a juvenile court under chapter 211, RSMo, or successor provisions.
- (15) A person shall not be denied adoption, custody, or visitation rights relative to a minor solely for conduct that is permitted by this section.
- (16) No person shall be denied their rights under Article 1, Section 23 of the Missouri Constitution, or successor provisions, solely for conduct that is permitted by this section.]

Medical Cannabis shall be available to patients without taxation who have a physician's recommendation for its use. Recommendations can be in the form of a card or letter, clearly identifying that the patient requires Cannabis and is under the care of the mentioned physician, listing both the physician and patient's address, email address, phone number, signatures and date of signature.

- (a) All patients engaged in Cannabis therapy shall be afforded the same rights and privileges afforded to any patient treated through conventional therapeutic means, whether or not the patient is under the care of a physician.
- (b) If an employee is a valid Cannabis patient and requires medicating with Cannabis during the course of their work time, the employee will be afforded sufficient time to medicate and a safe place to medicate. Concessions regarding the location should be agreed on by both the employer and the employee without restricting the ability of the employee to properly medicate.
- (c) Licensed physicians shall not be penalized for, nor restricted from recommending and/or providing Cannabis for medical purposes for any person under their care.
- (d) Veterinarians shall not be penalized for, nor restricted from recommending and/or providing Cannabis for medical purposes for any creature under their care.
- (e) Any individual who is a Cannabis patient in another state shall be granted the same rights and privileges as a legal Missouri Cannabis patient.
- (f) Medical care, including organ transplants, shall not be restricted in any way based on a person's use of Cannabis.

16. Legislation.

[Nothing in this section shall limit the general assembly from enacting laws consistent with this section, or otherwise effectuating the patient rights of this section. The legislature shall not enact laws that hinder the right of qualifying patients to access marijuana for medical use as granted by this section.

7. Additional Provisions.1 6. Zoning.

[(1) Nothing in this section permits a person to:

- (a) Consume marijuana for medical use in a jail or correctional facility;
 - (b) Undertake any task under the influence of marijuana when doing so would constitute negligence or professional malpractice; or
 - (c) Operate, navigate, or be in actual physical control of any dangerous device or motor vehicle, aircraft or motorboat while under the influence of marijuana. Notwithstanding the foregoing, an arrest or a conviction of a person who has a valid qualifying patient identification card for any applicable offenses shall require evidence that the person was in fact under the influence of marijuana at the time the person was in actual physical control of the dangerous device or motor vehicle, aircraft or motorboat and not solely on the presence of tetrahydrocannabinol (THC) or THC metabolites, or a combination thereof, in the person's system; or
 - (d) Bring a claim against any employer, former employer, or prospective employer for wrongful discharge, discrimination, or any similar cause of action or remedy, based on the employer, former employer, or prospective employer prohibiting the employee, former employee, or prospective employee from being under the influence of marijuana while at work or disciplining the employee or former employee, up to and including termination from employment, for working or attempting to work while under the influence of marijuana.
- (2) No medical marijuana cultivation facility, marijuana testing facility, medical marijuana dispensary facility, or medical marijuana-infused products manufacturing facility, or entity with a transportation certification shall be owned, in whole or in part, or have as an officer, director, board member, manager, or employee, any individual with a disqualifying felony offense. A "disqualifying felony offense" is a violation of, and conviction or guilty plea to, state or federal law that is, or would have been, a felony under Missouri law, regardless of the sentence imposed, unless the department determines that:
- (a) The person's conviction was for the medical use of marijuana or assisting in the medical use of marijuana; or
 - (b) The person's conviction was for a nonviolent crime for which he or she was not incarcerated and that is more than five years old; or
 - (c) More than five years have passed since the person was released from parole or probation, and he or she has not been convicted of any subsequent criminal offenses.

The department may consult with and rely on the records, advice and recommendations of the attorney general and the department of public safety, or their successor entities, in applying this subdivision.

(3) No medical marijuana cultivation facility, medical marijuana dispensary facility, or medical marijuana-infused products manufacturing facility shall manufacture, package or label marijuana or marijuana-infused products in a false or misleading manner. No person shall sell any product in a manner designed to cause confusion between a marijuana or marijuana-infused product and any product not containing marijuana. A violation of this subdivision shall be punishable by an appropriate and proportional department sanction, up to and including an administrative penalty of five thousand dollars and loss of license.

(4) All edible marijuana-infused products shall be sold in individual, child-resistant containers that are labeled with dosage amounts, instructions for use, and estimated length of effectiveness. All marijuana and marijuana-infused products shall be sold in containers clearly and conspicuously labeled as mandated by the department as containing "Marijuana", or a "Marijuana-Infused roduct". Violation of this prohibition shall subject the violator to department sanctions, including an administrative penalty of five thousand dollars.

- (5) No individual shall serve as the primary caregiver for more than six qualifying patients. No primary caregiver cultivating marijuana for more than one qualifying patient may exceed a total of twenty-four flowering plants.
- (6) A person who smokes medical marijuana in a public place, other than in an area licensed for such activity by the department or by local authorities having jurisdiction over the licensing or permitting of said activity, is subject to a civil penalty not exceeding one hundred dollars.
- (7) No person shall extract resins from marijuana using dangerous materials or combustible gases without a medical marijuana-infused products manufacturing facility license. Violation of this prohibition shall subject the violator to department sanctions, including an administrative penalty of one thousand dollars for a patient or primary caregiver and ten thousand dollars for a facility licensee and, if applicable, loss of their identification card, certificate, or license for up to one year.
- (8) All qualifying patient cultivation shall take place in an enclosed, locked facility that is equipped with security devices that permit access only by the qualifying patient or by such patient's primary caregiver. Two qualifying patients, who both hold valid qualifying patient cultivation identification cards, may share one enclosed, locked facility. Primary caregivers cultivating marijuana for more than one qualifying patient may cultivate each respective qualifying patient's flowering plants in a single, enclosed locked facility subject to the limits of subsection 3, paragraph 12.
- (9) No medical marijuana cultivation facility, medical marijuana dispensary facility, medical marijuana-infused products manufacturing facility, marijuana testing facility, or entity with a transportation certification shall assign, sell, give, lease, sublicense, or otherwise transfer its license or certificate to any other entity without the express consent of the department, not to be unreasonably withheld.
- (10) (a) Unless allowed by the local government, no new medical marijuana cultivation facility, marijuana testing facility, medical marijuana dispensary facility, or medical marijuana-infused products manufacturing facility shall be initially sited within one thousand feet of any then-existing elementary or secondary school, child day-care center, or church. In the case of a freestanding facility, the distance between the facility and the school, daycare, or church shall be measured from the external wall of the facility structure closest in proximity to the school, daycare, or church to the closest point of the property line of the school, daycare, or church. If the school, daycare, or church is part of a larger structure, such as an office building or strip mall, the distance shall be measured to the entrance or exit of the school, daycare, or church closest in proximity to the facility. In the case of a facility that is part of a larger structure, such as an office building or strip mall, the distance between the facility and the school, daycare, or church shall be measured from the property line of the school, daycare, or church to the facility's entrance or exit closest in proximity to the school, daycare, or church. If the school, daycare, or church is part of a larger structure, such as an office building or strip mall, the distance shall be measured to the entrance or exit of the school, daycare, or church closest in proximity to the facility. Measurements shall be made along the shortest path between the demarcation points that can be lawfully traveled by foot. No local government shall prohibit medical marijuana cultivation facilities, marijuana testing facilities, medical marijuana-infused products manufacturing facilities, or medical marijuana dispensary facilities, or entities with a transportation certification either expressly or through the enactment of ordinances or regulations that make their operation unduly burdensome in the jurisdiction. However, local governments may enact ordinances or regulations not in conflict with this section, or with regulations enacted pursuant to this section, governing the time, place, and manner of operation of such facilities in the locality. A local government may establish civil penalties for violation of an ordinance or regulations governing the time, place, and manner of operation of a medical marijuana cultivation facility, marijuana testing facility, medical marijuana-infused products manufacturing facility, medical marijuana dispensary facility, or entity holding a transportation certification that may operate in such locality.
- (b) The only local government ordinances or regulations that are binding on a medical facility are those of the local government where the medical facility is physically located.
- (11) Unless superseded by federal law or an amendment to this Constitution, a physician or nurse practitioner shall not certify a qualifying condition for a patient by any means other than providing a physician or nurse practitioner certification for the patient, whether handwritten, electronic, or in another commonly used format.
- (12) A physician or nurse practitioner shall not issue a certification for the medical use of marijuana for a nonemancipated qualifying patient under the age of eighteen without the written consent of the qualifying patient's parent or legal guardian. The department shall not issue a qualifying patient identification card on behalf of a nonemancipated qualifying patient under the age of eighteen without the written consent of the qualifying patient's parent or legal guardian. Such card shall be issued to one of the parents or guardians and not directly to the patient. Only a parent or guardian may serve as a primary caregiver for a nonemancipated qualifying patient under the age of eighteen. Only the qualifying patient's parent or guardian shall purchase or possess medical marijuana for a nonemancipated qualifying patient under the age of eighteen. A parent or guardian shall supervise the administration of medical marijuana to a nonemancipated qualifying patient under the age of eighteen.
- (13) Nothing in this section shall be construed as mandating health insurance coverage of medical marijuana for qualifying patient use.
- (14) Real and personal property used in the cultivation, manufacture, transport, testing, distribution, sale, and administration of marijuana for medical use or for activities otherwise in compliance with this section shall not be subject to asset forfeiture solely because of that use.
- (15) Unless a failure to do so would cause an employer to lose a monetary or licensing-related benefit under federal law, an employer may not discriminate against a person in hiring, termination or any term or condition of employment or otherwise penalize a person, if the discrimination is based upon either of the following:
- (a) The person's status as a qualifying patient or primary caregiver who has a valid identification card, including the person's legal use of a lawful marijuana product off the employer's premises during nonworking hours, unless the person was under the influence of medical marijuana on the premises of the place of employment or during the hours of employment; or
- (b) A positive drug test for marijuana components or metabolites of a person who has a valid qualifying patient identification card, unless the person used, possessed, or was under the influence of medical marijuana on the premises of the place of employment or during the hours of employment.
- Nothing in this subdivision shall apply to an employee in a position in which legal use of a lawful marijuana product affects in any manner a person's ability to perform job-related employment responsibilities or the safety of others, or conflicts with a bona fide occupational qualification that is reasonably related to the person's employment.
- (16) The enactment of section 2 of this Article and concurrent amendments to section 1 of this Article shall have no effect upon any valid contract, claim, or cause of action instituted prior to the effective date of this section.]

Cannabis farmers, manufacturers, processors, and distributors shall not be subject to any special zoning requirements and/or licensing fee that is excessive, discriminatory, prohibitive, or in any way contrary to that which is relative to any other commercial or agricultural farmer, manufacturer, processor or distributor or the products they produce.

18. Federal Legalization.] 7. Law Enforcement and the Courts.

If federal law, rules, or regulations are amended to allow the interstate commerce of marijuana or marijuana-infused products or the importation or exportation of marijuana or marijuana-infused products into or out of the state of Missouri, the provisions and intent of this section shall, to the extent possible, remain in full effect, unless explicitly preempted by such federal law, rule, or regulation. If federal law, rules, or regulations are amended as provided above, any marijuana or marijuana-infused products imported into this state shall be subject to the same testing standards and seed to sale tracking system required under this section for marijuana and marijuana-infused products produced within the state. Unless federal law, rules, or regulations explicitly require otherwise, no entity shall sell, transport, produce, distribute, deliver, or cultivate marijuana or marijuana-infused products without an applicable license or certificate as required under this section. In addition, any raw biomass of marijuana or marijuana flower imported from out-of-state shall be received only by a licensed cultivation facility, while all batch oil, infused marijuana products and any marijuana product in any other form shall be received only by a licensed manufacturing facility.]

Missouri's law enforcement and its courts shall protect Cannabis consumers and their property without discrimination, and with the same effort afforded to every citizen of Missouri and our nation.

- (a) The use and/or possession of Cannabis shall not be grounds for issuing a "Driving under the influence" (DUI) stop, charge, arrest, or fine(s) when operating or a passenger of a motor vehicle. Stops, charges, fines and arrests shall be the product of visible and/or previously proven non-Cannabis infractions of Missouri law; actual crime, not assumed, coerced, or profiled.
- (b) No Missouri law enforcement personnel or state funds shall be used to assist or aid in the enforcement of Federal Cannabis laws involving acts which are no longer illegal in the State of Missouri under this amendment.
- (c) Asset and/or Civil Forfeiture shall no longer be used in the state of Missouri in association with Cannabis, Cannabis cultivation, it's use, possession, and/or its sale in any way.
- (d) Upon the passage of this Act, all persons incarcerated or under supervision of the Missouri Board of Probation and Parole for non-violent, Cannabis offenses, which are no longer illegal in the State of Missouri under this Act, shall be immediately released.
- (e) Within 60 days of the passage of Act, a legal document shall be developed and made available to the public ordering the immediate destruction of all Cannabis related non-violent civil and criminal records in Missouri and for any offense covered by this amendment which is no longer illegal in the State of Missouri under this Act. This document shall be distributed to all pertinent parties throughout the state.
- (f) Within 60 days, Missouri's Courts shall order the immediate expungement of civil and criminal records pertaining to all non-violent Cannabis offenses which are no longer illegal in the State of Missouri under this Act. NO record of these offenses will be retained anywhere for any reason.

19. Severability.] 8. Regarding Federal Law.

[The provisions of this section are severable, and if any clause, sentence, paragraph or section of this measure, or an application thereof, is adjudged invalid by any court of competent jurisdiction, the other provisions shall continue to be in effect to the fullest extent possible.] Pursuant to the Ninth and Tenth Amendments to the Constitution of the United States, the people of Missouri hereby repudiate and challenge Federal Cannabis prohibitions that conflict with this Act. As well, we refuse any Federal law, mandate or agreement that seeks to impose any restrictions, taxes, or covenants upon Cannabis that present Cannabis as anything other than a nontoxic and nutritious food, as well as a remarkable medicine, and a most necessary commodity for Missouri and our nation.

9. Existing and conflicting Local, State and Federal Law.

- (a) No excise tax ("sin tax") or any other tax shall be imposed on the consumption, purchase or sale of Cannabis other than the sales tax imposed at the time of sale, the same as any other commodity.
- (b) Cannabis, being a nontoxic and highly medicinal organic product, is protected from rules, whether state, county or municipal, that would seek to imply and/or mandate any restriction and/or penalty upon the consumption, possession, production and/or sale of Cannabis, it's byproducts, and/or its accessories.
- (c) Because Cannabis is nontoxic, Missouri's consumers can no longer be expected to be held to personal and/or religious biases regarding its use, possession or sale.
- (d) All provisions of this section shall supersede conflicting city, county, state and Federal statutory, local charter, ordinance, law or resolution.

IXIV Section 2. Marijuana legalization, regulation, and taxation. — 1. Purpose.] XIV Section 2. A fair, healthy and profitable Cannabis community and industry.

1. Purpose.

[The purpose of this section is to make marijuana legal under state and local law for adults twenty-one years of age or older, and to control the commercial production and distribution of marijuana under a system that licenses, regulates, and taxes the businesses involved while protecting public health. The intent is to prevent arrest and penalty for personal possession and cultivation of limited amounts of marijuana by adults twenty-one years of age or older; remove the commercial production and distribution of marijuana from the illicit market; prevent revenue generated from commerce in marijuana from going to criminal enterprises; prevent the distribution of marijuana to persons under twenty-one years of age; prevent the diversion of marijuana to illicit markets; protect public health by ensuring the safety of marijuana and products containing marijuana; and ensure the security of marijuana facilities. To the fullest extent possible, this section shall be interpreted in accordance with the purpose and intent set forth in this section.

This section is not intended to allow for the public use of marijuana, driving while under the influence of marijuana, the use of marijuana in the workplace, or the use of marijuana by persons under twenty-one years of age.]

The purpose of this section is to further address the path Cannabis will take in Missouri as a truly nontoxic source for medicine and food and other essential commodities. By freeing Missouri from the ignorance and bigotries that have precedingly vilified Cannabis in Missouri law, we seek to provide an environment that minimizes government oversight while promoting education, reinforcing personal responsibility and supporting the essential power of parental influence, recognizing that good behavior and personal beliefs cannot be dictated in state law, but must be taught in our homes and our schools.

12. Definitions.

- (1) "Church" means a permanent building primarily and regularly used as a place of religious worship.
- (2) "Comprehensive facility" means a comprehensive marijuana cultivation facility, comprehensive marijuana dispensary facility, or a comprehensive marijuana-infused products manufacturing facility.
- (3) "Comprehensive marijuana cultivation facility" means a facility licensed by the department to acquire, cultivate, process, package, store on site or off site, transport to or from, and sell marijuana, marijuana seeds, marijuana vegetative cuttings (also known as clones) to a medical facility, comprehensive facility, or marijuana testing facility. A comprehensive marijuana cultivation facility need not segregate or account for its marijuana products as either non-medical marijuana or medical marijuana. A comprehensive marijuana cultivation facility's authority to process marijuana shall include the creation of prerolls, but shall not include the manufacture of marijuana-infused products.
- (4) "Comprehensive marijuana dispensary facility" means a facility licensed by the department to acquire, process, package, store on site or off site, sell, transport to or from, and deliver marijuana, marijuana seeds, marijuana vegetative cuttings (also known as clones), marijuana-infused products, and drug paraphernalia used to administer marijuana as provided for in this section to a qualifying patient or primary caregiver, as those terms are defined in section 1 of this Article, or to a consumer, anywhere on the licensed property or to any address as directed by the patient, primary caregiver, or consumer and consistent with the limitations of this Article and as otherwise allowed by law, to a comprehensive facility, a marijuana testing facility, or a medical facility. Comprehensive dispensary facilities may receive transaction orders at the dispensary directly from the consumer in person, by phone, or via the internet, including from a third party. A comprehensive marijuana dispensary facility need not segregate or account for its marijuana products as either non-medical marijuana or medical marijuana, but shall collect all appropriate tangible personal property sales tax for each sale, as set forth in this Article and provided for by general or local law. A comprehensive marijuana dispensary facility's authority to process marijuana shall include the creation of prerolls.
- (5) "Comprehensive marijuana-infused products manufacturing facility" means a facility licensed by the department to acquire, process, package, store, manufacture, transport to or from a medical facility, comprehensive facility, or marijuana testing facility, and sell marijuana-infused products, prerolls, and infused prerolls to a marijuana dispensary facility, a marijuana testing facility, or another marijuana-infused products manufacturing facility. A comprehensive marijuana-infused products manufacturing facility need not segregate or account for its marijuana products as either non-medical marijuana or medical marijuana.
- (6) "Consumer" means a person who is at least twenty-one years of age.
- (7) "Daycare" means a child-care facility, as defined by section 210.201, RSMo, or successor provisions, that is licensed by the state of Missouri.
- (8) "Department" means the department of health and senior services, or its successor agency.
- (9) "Entity" means a natural person, corporation, professional corporation, nonprofit corporation, cooperative corporation, unincorporated association, business trust, limited liability company, general or limited partnership, limited liability partnership, joint venture, or any other legal entity.
- (10) "Flowering plant" means a marijuana plant from the time it exhibits the first signs of sexual maturity through harvest.
- (11) "Infused preroll" means a consumable or smokable marijuana product, generally consisting of: (1) a wrap or paper, (2) dried flower, buds, and/or plant material, and (3) a concentrate, oil or other type of marijuana extract, either within or on the surface of the product. Infused prerolls may or may not include a filter or crutch at the base of the product.
- (12) "Local government" means, in the case of an incorporated area, a village, town, or city and, in the case of an unincorporated area, a county.
- (13) "Marijuana" or "marihuana" means Cannabis indica, Cannabis sativa, and Cannabis ruderalis, hybrids of such species, and any other strains commonly understood within the scientific community to constitute marijuana, as well as resin extracted from the marijuana plant and marijuana-infused products. "Marijuana" or "marihuana" do not include industrial hemp, as defined by Missouri statute, or commodities or products manufactured from industrial hemp.
- (14) "Marijuana accessories" means any equipment, product, material, or combination of equipment, products, or materials, which is specifically designed for use in planting, propagating, cultivating, growing, harvesting, manufacturing, compounding, converting, producing, processing, preparing, testing, analyzing, packaging, repackaging, storing, containing, ingesting, inhaling, or otherwise introducing marijuana into the human body.
- (15) "Marijuana facility" means a comprehensive marijuana cultivation facility, comprehensive marijuana dispensary facility, marijuana testing facility, comprehensive marijuana-infused products manufacturing facility, microbusiness wholesale facility, microbusiness dispensary facility, or any other type of marijuana-related facility or business licensed or certified by the department pursuant to this section, but shall not include a medical facility licensed under section 1 of this Article.
- (16) "Marijuana-infused products" means products that are infused, dipped, coated, sprayed, or mixed with marijuana or an extract thereof, including, but not limited to, products that are able to be vaporized or smoked, edible products, ingestible products, topical products, suppositories, and infused prerolls.
- (17) "Marijuana microbusiness facility" means a facility licensed by the department as a microbusiness dispensary facility or microbusiness wholesale facility, as defined in this section.
- (18) "Microbusiness dispensary facility" means a facility licensed by the department to acquire, process, package, store on site or off site, sell, transport to or from, and deliver marijuana, marijuana seeds, marijuana vegetative cuttings (also known as clones), marijuana-infused products, and drug paraphernalia used to administer marijuana as provided for in this section to a consumer, qualifying patient, as that term is defined in section 1 of this Article, or primary caregiver, as that term is defined in section 1 of this Article, anywhere on the licensed property or to any address as directed by the consumer, qualifying patient, or primary caregiver and, consistent with the limitations of this Article and as otherwise allowed by law, a microbusiness wholesale facility, or a marijuana testing facility. Microbusiness dispensary facilities may receive transaction orders at the dispensary directly from the consumer in person, by phone, or via the internet, including from a third party. A microbusiness dispensary facility's authority to process marijuana shall include the creation of prerolls.
- (19) "Microbusiness wholesale facility" means a facility licensed by the department to acquire, cultivate, process, package, store on site or off site, manufacture, transport to or from, deliver, and sell marijuana, marijuana seeds, marijuana vegetative cuttings (also known as clones), and marijuana-infused products to a microbusiness dispensary facility, other microbusiness wholesale facility, or marijuana testing facility. A microbusiness wholesale facility may cultivate up to 250 flowering marijuana plants at any given time. A microbusiness wholesale facility's authority to process marijuana shall include the creation of prerolls and infused prerolls.
- (20) "Marijuana testing facility" means a facility certified by the department to acquire, test, certify, and transport marijuana, including those originally certified as a medical marijuana testing facility.
- (21) "Owner" means an individual who has a financial (other than a security interest, lien, or encumbrance) or voting interest in ten percent or greater of a marijuana facility.
- (22) "Preroll" means a consumable or smokable marijuana product, generally consisting of: (1) a wrap or paper and (2) dried flower, buds, and/or plant material. Prerolls may or may not include a filter or crutch at the base of the product.
- (23) "Unduly burdensome" means that the measures necessary to comply with the rules or ordinances adopted pursuant to this section subject licensees or potential licensees to such a high investment of money, time, or any other resource or asset that a reasonably prudent businessperson would not operate the marijuana facility.

3. Limitations. 12. Regulation of Cannabis.

- I(1) Except as otherwise provided in this Article, this section does not preclude, limit, or affect laws that assign liability relative to, prohibit, or otherwise regulate:
- (a) Delivery or distribution of marijuana or marijuana accessories, with or without consideration, to a person younger than twenty-one years of age;
 - (b) Purchase, possession, use, or transport of marijuana or marijuana accessories by a person younger than twenty-one years of age;
 - (c) Consumption of marijuana by a person younger than twenty-one years of age;
 - (d) Operating or being in physical control of any motor vehicle, train, aircraft, motorboat, or other motorized form of transport while under the influence of marijuana. Notwithstanding the foregoing, a conviction of a person who is at least twenty-one years of age for any applicable offenses shall require evidence that the person was in fact under the influence of marijuana at the time the person was in physical control of the motorized form of transport and not solely on the presence of tetrahydrocannabinol (THC) or THC metabolites, or a combination thereof, in the person's system;
 - (e) Consumption of marijuana while operating or being in physical control of a motor vehicle, train, aircraft, motorboat, or other motorized form of transport while it is being operated;

- (f) Smoking marijuana within a motor vehicle, train, aircraft, motorboat, or other motorized form of transport while it is being operated;
- (g) Possession or consumption of marijuana or possession of marijuana accessories on the grounds of a public or private preschool, elementary or secondary school, institution of higher education, in a school bus, or on the grounds of any correctional facility;
- (h) Smoking marijuana in a location where smoking tobacco is prohibited;
- (i) Consumption of marijuana in a public place, other than in an area licensed by the authorities having jurisdiction over the licensing and/or permitting of said activity, as set forth in subsection 5 of this section;
- (j) Conduct that endangers others;
- (k) Undertaking any task while under the influence of marijuana, if doing so would constitute negligence, recklessness, or professional malpractice; or
- (l) Performing solvent-based extractions on marijuana using solvents other than water, glycerin, propylene glycol, vegetable oil, or food-grade ethanol, unless licensed for this activity by the department.

(2) This section does not limit any privileges, rights, immunities, or defenses of a person or entity as provided in section 1 of this Article, or any other law of this state allowing for or regulating marijuana for medical use.

(3) This section does not require an employer to permit or accommodate conduct otherwise allowed by this section in any workplace or on the employer's property. This section does not prohibit an employer from disciplining an employee for working while under the influence of marijuana. This section does not prevent an employer from refusing to hire, discharging, disciplining, or otherwise taking an adverse employment action against a person with respect to hire, tenure, terms, conditions, or privileges of employment because that person was working while under the influence of marijuana.

(4) This section allows an entity to prohibit or otherwise limit the consumption, cultivation, distribution, processing, sale, or display of marijuana, marijuana-infused products, and marijuana accessories on private property the entity owns, leases, occupies, or manages, except that a lease agreement executed after the effective date of this section may not prohibit a tenant from lawfully possessing and consuming marijuana by means other than smoking.

(5) The enactment of this section and all concurrent amendments to section 1 of this Article shall have no effect upon any valid contract, claim, or cause of action instituted prior to the effective date of this section.]

- (a.) No part of these Sections authorizes or permits any person to operate a vehicle, motorized or otherwise in any unsafe manner, whether or not Cannabis is involved.
- (b.) No part of these Sections authorizes or permits any person to adversely affect properties, whether public or private while consuming and/or possessing Cannabis.
- (c.) No part of these Sections authorizes or permits any person to operate commercial or industrial equipment in a dangerous manner, while employed or otherwise, whether or not Cannabis is involved.
- (d.) Any activity that would be considered a violation of civil law apart from Cannabis will be considered a violation when Cannabis is incorporated.

14. Regulation of Marijuana.

- (1) In carrying out the implementation of this section and as conditioned herein, the department shall have the authority to:
 - (a) Grant or refuse state licenses for the cultivation, manufacture, dispensing, and sale of marijuana; suspend, restrict, or revoke such licenses upon a violation of this section or a rule promulgated pursuant to this section; and impose any reasonable administrative penalty authorized by this section or any general law enacted or rule promulgated pursuant to this section, so long as any procedure related to a suspension or revocation includes a reasonable cure period, not less than thirty days, prior to the suspension or revocation, except in instances where there is a credible and imminent threat to public health or public safety;
 - (b) Promulgate rules and emergency rules necessary for the proper regulation and control of the cultivation, manufacture, dispensing, and sale of marijuana and for the enforcement of this section so long as such rules are reasonable and not unduly burdensome;
 - (c) Develop such forms, certificates, licenses, identification cards, and applications as are necessary for, or reasonably related to, the administration of this section or any of the rules promulgated under this section;
 - (d) Require a seed-to-sale tracking system that tracks marijuana from either the seed or immature plant stage until the marijuana or marijuana-infused product is sold to a qualified patient, primary caregiver, or consumer to ensure that no marijuana grown by a medical marijuana cultivation facility, comprehensive marijuana cultivation facility, or microbusiness wholesale facility, or manufactured by a medical marijuana-infused products manufacturing facility, a comprehensive marijuana-infused products manufacturing facility, or a microbusiness wholesale facility is sold or otherwise transferred to a consumer, qualified patient, or primary caregiver except by a medical marijuana dispensary facility, a comprehensive dispensary facility, or a microbusiness dispensary facility. The department shall certify all commercially available tracking systems that are compliant with its tracking standards and issue standards for the creation or use of other systems by licensees;
 - (e) Issue standards for the secure transportation of marijuana and marijuana-infused products. The department shall certify entities that demonstrate compliance with its transportation standards to transport marijuana and marijuana-infused products to or from a comprehensive facility, medical facility, microbusiness facility, another entity with a transportation certification, or any entity licensed pursuant to paragraph (g) of this subdivision. The department shall develop or adopt from any other governmental agency such safety and security standards as are reasonably necessary for the transportation and temporary storage of marijuana and marijuana-infused products. Any entity licensed or certified pursuant to this section shall be allowed to transport its own inventory and products in compliance with department transportation rules and store marijuana and marijuana-infused products for the purposes related to transportation in compliance with department regulations on secure storage of marijuana and marijuana-infused products;
 - (f) Promulgate rules and emergency rules specific to the licensing, regulation, and oversight of marijuana microbusiness facilities;
 - (g) Provide for the issuance of additional types or classes of licenses to operate marijuana-related businesses that:
 - a. Allow for only transportation, delivery, or storage of marijuana; or
 - b. Are intended to facilitate scientific research or education.
 - (h) Prepare and transmit annually a publicly available report accounting to the governor, the general assembly, and the public for the efficient discharge of all responsibilities assigned to the department under this section. The report shall provide aggregate data for each type of license (medical, comprehensive, and microbusiness) and facility (dispensary, cultivation, manufacturers, wholesalers). Only non-identifying information shall be provided regarding any marijuana facility owners;
 - (i) Establish a lottery selection process to select comprehensive facility licenses, certificate holders, marijuana microbusiness licensees, but not medical facility licensees that are converting to comprehensive licenses pursuant to this subsection. To become eligible for any license lottery selection process, an owner cannot have pleaded guilty or been found guilty of a disqualifying felony, as that term is defined in subsection 9 of this section.
 - (j) In developing a lottery selection process to award licenses and certificates, the department may consult or contract with other public agencies with relevant expertise.
 - (k) While not required as a prerequisite to participation in a comprehensive license lottery, every comprehensive license applicant shall submit to the department a voluntary plan to promote and encourage participation in the regulated marijuana industry by people from communities that have been disproportionately impacted by marijuana prohibition. The plan may include strategies to address geographical defined communities that have been disproportionately impacted by marijuana prohibition; provide for ownership opportunities for disproportionately impacted communities; and provide for employment, supplier, and vendor opportunities for individuals and businesses in communities that have been disproportionately impacted by marijuana prohibition. If licensed, any voluntary applicant plan shall be enforceable by the department.
 - (l) Notwithstanding other grants of authority herein, neither the department nor any governmental body may restrict the production or use of marijuana and marijuana-infused products based solely upon THC content.
 - (m) Set a limit on the amount of marijuana that may be purchased in a single transaction provided that limit is not less than three ounces of dried, unprocessed marijuana, or its equivalent.
 - (n) Regulate the advertising and promotion of marijuana sales, but any such regulation shall be no more stringent than comparable state regulations on the advertising and promotion of alcohol sales.

(2) The department shall issue, at a minimum, the same number of comprehensive marijuana cultivation facility licenses as were authorized or issued for medical marijuana cultivation facilities under section 1 of this Article as of December 7, 2022, the same number of comprehensive marijuana-infused products manufacturing facility licenses as were authorized or issued for medical marijuana-infused products manufacturing facilities under section 1 of this Article as of December 7, 2022, the same number of comprehensive marijuana dispensary facility licenses with the same congressional distribution requirements as were authorized or issued for medical marijuana dispensary facilities under section 1 of this Article as of December 7, 2022, in addition to the minimum number of marijuana microbusiness licenses as are required under this section. The department may lift or ease any limit on the number of licensees or certificate holders in order to meet the demand for marijuana in the state and to ensure a competitive market while also preventing an over-concentration of marijuana facilities within the boundaries of any particular local government.

(3) If comprehensive facility licenses become available because the number of total issued licenses in any respective category falls below the minimum required under this section or the department determines more comprehensive facility licenses are necessary to meet the requirements of subdivision (2) of this subsection, the department shall award by lottery at least fifty percent of any new licenses available to satisfy the minimum requirement to applicants who are owners of a marijuana microbusiness facility that has been in operation for at least one year and is in good standing with the department and is otherwise qualified for the license.

(4) The department may issue any rules or emergency rules necessary for the implementation and enforcement of this section and to ensure the right to, availability, and safe use of marijuana by consumers. In developing such rules or emergency rules, the department may consult or contract with other public agencies. In addition to any other rules or emergency rules necessary to carry out the mandates of this section, the department shall issue rules or emergency rules relating to the following subjects:

- (a) Procedures for issuing a license and for renewing, suspending, and revoking a license, so long as any procedure related to a suspension or revocation includes a reasonable cure period, not less than thirty days, prior to the suspension or revocation, except in instances where there is a credible and imminent threat to public health or public safety;
- (b) Requirements and standards for safe cultivation, processing, and distribution of marijuana and marijuana-infused products by marijuana facilities, including health standards to ensure the safe preparation of marijuana-infused products;
- (c) Testing, packaging, and labeling standards, procedures, and requirements for marijuana and marijuana-infused products and a requirement that a representative sample of marijuana be tested by a marijuana testing facility to ensure public health;
- (d) Labeling standards that protect public health by requiring the listing of pharmacologically active ingredients, including, but not limited to, tetrahydrocannabinol (THC), cannabidiol (CBD), and other cannabinoid content, the THC and other cannabinoid amount in milligrams per serving, the number of servings per package, and quantity limits per sale to comply with the allowable possession amount;
- (e) Requirements that packaging and labels shall not be made to be attractive to children, required warning labels, and that marijuana and marijuana-infused products be sold in resealable, child-resistant packaging to protect public health;
- (f) Security requirements, including lighting, physical security, and alarm requirements, and requirements for securely transporting marijuana between marijuana facilities;
- (g) Record keeping requirements for marijuana facilities and monitoring requirements to track the transfer of marijuana by licensees;
- (h) A plan to promote and encourage ownership and employment in the marijuana industry by people from political subdivisions and districts that are economically distressed and to positively impact those political subdivisions and districts;
- (i) Administrative penalties as authorized by this section for failure to comply with any rule promulgated pursuant to this section or for any violation of rules and regulations adopted pursuant to this section by a licensee, including authorized administrative fines and suspension, revocation, or restriction of a license. The licensee may choose to challenge any penalties imposed by the department through the administrative hearing commission, or its successor entity. Pursuant to section 536.100, RSMo, or its successor provisions, any licensee who has exhausted all administrative remedies provided by law and who is aggrieved by a final decision in a contested case is entitled to judicial review;
- (j) Reporting and transmittal of tax payments required under this section;
- (k) Authorization for the department of revenue to have access to licensing information to ensure tax payment and the effective administration of this section; and
- (l) Such other matters as are necessary for the fair, impartial, stringent, and comprehensive administration of this section.
- (5) The department shall issue rules or emergency rules for a marijuana and marijuana-infused products independent testing and certification program for marijuana facility licensees and requiring licensees to test marijuana using one or more impartial, independent laboratory or laboratories to ensure, at a minimum, correct labeling, potency measurement, and that products sold for human consumption do not contain contaminants that are potentially injurious to public health.
- (6) The department shall issue rules or emergency rules to provide for the certification of and standards for marijuana testing facilities, including the requirements for equipment and qualifications for personnel, but shall not require certificate holders to have any federal agency licensing or have any relationship with a federally licensed testing facility. No marijuana testing facility shall be owned by an entity or entities under substantially common control, ownership, or management as a marijuana cultivation facility, marijuana-infused products manufacturing facility, marijuana microbusiness facility, or marijuana dispensary facility.
- (7) All public records produced or retained pursuant to this section are subject to the general provisions of the Missouri Sunshine Law, chapter 610, RSMo, or its successor provisions. Notwithstanding the foregoing, public records containing proprietary business information obtained from an applicant or licensee shall be closed. The applicant or licensee shall label business information it believes to be proprietary prior to submitting it to the department. Proprietary business information shall include sales information, financial records, tax returns, credit reports, license applications, cultivation information unrelated to product safety, testing results unrelated to product safety, site security information and plans, and individualized consumer information. The presence of proprietary business information shall not justify the closure of public records:
- Identifying the applicant or licensee;
 - Relating to any citation, notice of violation, tax delinquency, or other enforcement action;
 - Relating to any public official's support or opposition relative to any applicant, licensee, or their proposed or actual operations;
 - Where disclosure is reasonably necessary for the protection of public health or safety; or
 - That are otherwise subject to public inspection under applicable law.
- (8) Within one hundred and eighty days of the effective date of this section, the department shall make available to the public license application forms and application instructions for marijuana microbusiness facilities. Within two hundred and seventy days of the effective date of this section, the department shall start accepting such applications from applicants.
- (9) An entity may apply to the department for and obtain one or more licenses to grow marijuana as a comprehensive marijuana cultivation facility. Each facility in operation shall require a separate license, but multiple licenses may be utilized in a single facility. Each indoor facility utilizing artificial lighting may be limited by the department to thirty thousand square feet of flowering plant canopy space. Each outdoor facility utilizing natural lighting may be limited by the department to two thousand eight hundred flowering plants. Each greenhouse facility using a combination of natural and artificial lighting may be limited by the department, at the election of the licensee, to two thousand eight hundred flowering plants or thirty thousand square feet of flowering plant canopy. The license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a non-refundable fee of twelve thousand dollars per license application or renewal for all applicants filing an application within three years of the effective date of this section and shall charge each applicant a non-refundable fee of five thousand dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of twenty-five thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. An entity may not be an owner of more than ten percent of the total marijuana cultivation facility licenses outstanding under both sections 1 and 2 of this Article at any given time, rounded down to the nearest whole number.
- (10) An entity may apply to the department for and obtain one or more licenses to operate a comprehensive marijuana dispensary facility. Each facility in operation shall require a separate license. A license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a non-refundable fee of seven thousand dollars per license application or renewal for each applicant filing an application within three years of the effective date of this section and shall charge each applicant a non-refundable fee of three thousand dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of ten thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. An entity may not be an owner of more than ten percent of the total marijuana dispensary facility licenses outstanding under both sections 1 and 2 of this Article at any given time, rounded down to the nearest whole number.
- (11) An entity may apply to the department for and obtain one or more licenses to operate a comprehensive marijuana-infused products manufacturing facility. Each facility in operation shall require a separate license. A license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a non-refundable fee of seven thousand dollars per license application or renewal for each applicant filing an application within three years of the effective date of this section and shall charge each applicant a non-refundable fee of three thousand dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of ten thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. An entity may not be an owner of more than ten percent of the total marijuana-infused products manufacturing facility licenses outstanding under both sections 1 and 2 of this Article at any given time, rounded down to the nearest whole number.
- (12) An entity may apply to the department for and obtain only one license to operate a marijuana microbusiness facility, which may be either a microbusiness dispensary facility or a microbusiness wholesale facility. A marijuana microbusiness facility licensee may engage in all of the activities allowed under the license or it may apply for and engage in a subset of the activities allowed if the applicant or licensee holder so chooses. A microbusiness wholesale facility may cultivate, process, manufacture, transport, and sell marijuana and marijuana-infused products to any other marijuana microbusiness facility. A microbusiness dispensary facility licensee may acquire from any other microbusiness facility, process, package, deliver, and sell marijuana and marijuana-infused products to any other marijuana microbusiness facility, or directly to qualified patients, their primary caregiver, or consumers. A marijuana microbusiness license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a fee of one thousand five hundred dollars per license application and for each subsequent license renewal application thereafter. Any applicant that meets the criteria to apply for a marijuana microbusiness facility license but is not chosen by the lottery system may have their application fee refunded. Once granted, the department shall charge each licensee an annual fee of one thousand five hundred dollars per facility license, but there shall be no annual fee assessed for the first year of licensure. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. An entity may not be an owner of more than one marijuana microbusiness facility license. An owner of a marijuana microbusiness facility may apply for a license or licenses for other marijuana or medical marijuana facilities under this Article. If granted one or more of these licenses, the marijuana microbusiness facility owner shall transition to other licensed operations on a reasonably practical timetable established by the department, and surrender its marijuana microbusiness facility license to the department for issuance to an applicant for a marijuana microbusiness facility. In addition to other requirements established by this section, an applicant for a marijuana microbusiness license shall be majority owned by individuals who each meet at least one of the following qualifications:
- Have a net worth of less than \$250,000 and have had an income below two hundred and fifty percent of the federal poverty level, or successor level, as set forth in the applicable calendar year's federal poverty income guidelines published by the U.S. Department of Health and Human Services or its successor agency, for at least three of the ten calendar years prior to applying for a marijuana microbusiness facility license; or
 - Have a valid service-connected disability card issued by the United States Department of Veterans Affairs, or successor agency; or
 - Be a person who has been, or a person whose parent, guardian or spouse has been arrested for, prosecuted for, or convicted of a non-violent marijuana offense, except for a conviction involving provision of marijuana to a minor, or a conviction of driving under the influence of marijuana. The arrest, charge, or conviction must have occurred at least one year prior to the effective date of this section; or
 - Reside in a ZIP code or census tract area where:
 - Thirty percent or more of the population lives below the federal poverty level; or
 - The rate of unemployment is fifty percent higher than the state average rate of unemployment; or

- c. The historic rate of incarceration for marijuana-related offenses is fifty percent higher than the rate for the entire state; or
 - (e) Graduated from a school district that was unaccredited, or had a similar successor designation, at the time of graduation, or has lived in a zip code containing an unaccredited school district, or similar successor designation, for three of the past five years.
- (13) The department may restrict the aggregate number of licenses granted for marijuana microbusiness facilities, provided, however, that the number may not be limited to fewer than the following number of licenses in each United States congressional district in the state of Missouri pursuant to the map of each of the eight congressional districts as drawn and effective on December 6, 2018:
- (a) Six, once the department begins issuing licenses for marijuana microbusiness facilities under this subsection, at least two of which shall be a microbusiness dispensary facility, and at least four of which will be a microbusiness wholesale facility. The department shall issue the first group of microbusiness licenses no later than three hundred days after the effective date of this section;
 - (b) An additional six following the first two hundred and seventy days after the department begins issuing licenses for marijuana microbusiness facilities under this subsection, at least two of which shall be a microbusiness dispensary facility, and at least four of which will be a microbusiness wholesale facility, but only after the chief equity officer, or his or her designee, conducts a review and certifies that previous microbusiness licenses were awarded to and are being operated by eligible applicants in good standing; and
 - (c) An additional six after the first five hundred and forty-eight days after the department begins issuing licenses for marijuana microbusiness facilities under this subsection, at least two of which shall be a microbusiness dispensary facility, and at least four of which will be a microbusiness wholesale facility, but only after the chief equity officer, or his or her designee, conducts a review and certifies that previous microbusiness licenses were awarded to and are being operated in good standing by eligible applicants.
- Future changes to the boundaries or the number of congressional districts shall have no impact on microbusiness license numbers or distribution. The eligibility review set forth in this subdivision shall be conducted by the chief equity officer within sixty days of issuance of the licenses. The chief equity officer shall publish in a manner available to the public the results of the review that contains only aggregate information on licensee eligibility criteria.
- (14) Within 60 days after the effective date of this section, the department shall appoint a chief equity officer. The chief equity officer shall assist with the development and implementation of programs to inform the public of the opportunities available to those people who meet the criteria set forth in paragraph (12) of this subsection. The chief equity officer shall establish public education programming and targeted technical assistance programming dedicated to providing communities that have been impacted by marijuana prohibition with information detailing the licensing process and informing individuals of the support and resources that the office can provide to individuals and entities interested in participating in activity licensed under this Article. The chief equity officer shall provide a report to the department, no later than January 1, 2024, and annually thereafter, of their and the department's activities in ensuring compliance with the applicant criteria set forth in paragraph (12) of this subsection, and the department shall provide such report to the legislature. The chief equity officer may only be removed for cause and the department shall not interfere with the officer's lawful official activities under this section.
- (15) Any medical marijuana cultivation facility, medical marijuana dispensary facility, and medical marijuana-infused products manufacturing facility, holding an active facility license under section 1 of this Article shall have the right to convert their license to a comprehensive marijuana license, and any entity certified by the department to conduct medical marijuana testing, transportation or seed-to-sale tracking, as of the effective date of this section shall be deemed certified to conduct those activities with respect to all marijuana;
- (16) Upon the effective date of this section, any existing medical facility licensee may request its medical facility license convert to that of a comprehensive facility license. Conversion requests not processed within sixty days of department receipt shall be deemed approved.
- (17) With the exception of microbusiness licenses, and consistent with any limitations set forth in this section, for the first five hundred and forty-eight days after the department begins issuing licenses for marijuana facilities under this section, the department may only issue a license:
- (a) For a comprehensive marijuana cultivation facility to an entity holding a medical marijuana cultivation facility license issued pursuant to section 1 of this Article seeking to convert its licensure to that of a comprehensive marijuana cultivation facility at the same location;
 - (b) For a comprehensive marijuana dispensary facility to an entity holding a medical marijuana dispensary facility license issued pursuant to section 1 of this Article seeking to convert its licensure to that of a comprehensive marijuana dispensary facility at the same location; and
 - (c) For a comprehensive marijuana-infused products manufacturing facility to an entity holding a medical marijuana-infused products manufacturing facility license issued pursuant to section 1 of this Article seeking to convert its licensure to that of a comprehensive marijuana-infused products manufacturing facility at the same location.
- (18) The department shall issue a license to each request for a conversion to a comprehensive marijuana facility license pursuant to subdivision (15) of this subsection if the applicant is in good standing with the department.
- (19) Notwithstanding the provisions of section 1 of this Article, if an existing medical marijuana dispensary facility is located in a jurisdiction that prohibits non-medical retail marijuana facilities under this section, or is otherwise prevented from operating a comprehensive marijuana dispensary facility at the same location as the existing medical marijuana dispensary facility, the medical marijuana dispensary facility may apply to the department for a comprehensive marijuana dispensary license pursuant to subdivision (15) of this subsection in a new location within the same congressional district, and such application shall be granted so long as the new location meets all the requirements of this section and department regulations.
- (20) In addition to the foregoing, if the department has reason to believe that the conversion of a medical facility into a comprehensive facility might limit or restrict access to an adequate supply of marijuana and marijuana-infused products at a reasonable cost to qualifying patients, as defined in section 1 of this Article, the department may request a plan from the medical facility licensee which explains how the applicant would serve both the medical and adult-use markets, while maintaining adequate supply at a reasonable cost to qualifying patients.
- (21) Comprehensive marijuana facilities licensed to distribute marijuana, marijuana-infused products, and marijuana accessories directly to consumers pursuant to this section may also distribute marijuana, marijuana-infused products, and marijuana accessories to qualifying patients and primary caregivers consistent with section 1 of this Article and department regulation.
- (22) The department may charge a fee not to exceed two thousand five hundred dollars for any certification issued pursuant to this section. This fee limitation shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency.
- (23) Within thirty days of December 8, 2022, the department shall make available to the public application forms and application instructions for personal cultivation registration cards. Within sixty days of December 8, 2022, the department shall begin accepting applications for such registration cards.
- (24) Except for good cause, a person at least twenty-one years of age may obtain a registration card from the department to cultivate up to six flowering marijuana plants, six nonflowering marijuana plants (over fourteen inches tall), and six clones (plants under fourteen inches tall) for non-commercial use, provided:
- (a) The plants and any marijuana produced by the plants in excess of three ounces are kept at one private residence, are in a locked space, and are not visible by normal, unaided vision from a public place; and
 - (b) Not more than twelve flowering marijuana plants are kept in or on the grounds of a private residence at one time.
- The card shall be valid for twelve months from its date of issuance and shall be renewable. The department shall charge an annual fee for the card of one hundred dollars, with such rate to be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency.
- (25) All marijuana sold in Missouri pursuant to this section shall be cultivated in Missouri.
- (26) All marijuana-infused products sold in Missouri pursuant to this section shall be manufactured in Missouri.
- (27) The denial of a license or license renewal by the department shall be appealable. The applicant may choose to challenge any denial by the department through the administrative hearing commission, or successor entity. Pursuant to section 536.100, RSMo, or its successor provisions, any licensee who has exhausted all administrative remedies provided by law and who is aggrieved by a final decision in a contested case is entitled to judicial review.
- (28) No elected official shall interfere directly or indirectly with the department's obligations and activities under this section.
- (29) To minimize the potential for undue political influence in awarding licenses, the department shall review license applications using reasonable safeguards that ensure the identity of the applicant and its principal owners, officers, and managers are not identified to the application reviewer.
- (30) To ensure the consistent protection of public health and public safety, the department shall have the sole authority within the state of Missouri to issue licenses for marijuana facilities and certifications pursuant to this section.
- (31) The department shall not have the authority to promulgate, apply, or enforce any rule or regulation that is unduly burdensome or act to undermine the purposes of this section.

5. Local Control.

- (1) (a) Except as provided in this subsection, a local government may prohibit the operation of all microbusiness dispensary facilities or comprehensive marijuana dispensary facilities regulated under this section from being located within its jurisdiction either through referral of a ballot question to the voters by the governing body or through citizen petition, provided that citizen petitions are otherwise generally authorized by the laws of the local government. Such a ballot question shall be voted on only during the regularly scheduled general election held on the first Tuesday after the first Monday in November of a presidential election year, starting in 2024, thereby minimizing additional local governmental cost or expense. A citizen petition to put before the voters a ballot question prohibiting microbusiness dispensary facilities or comprehensive marijuana dispensary facilities shall be signed by at least five percent of the qualified voters in the area proposed to be subject to the

prohibition, determined on the basis of the number of votes cast for governor in such locale at the last gubernatorial election held prior to the filing of the petition. The local government shall count the petition signatures and give legal notice of the election as provided by applicable law. Denial of ballot access shall be subject to judicial review.

(b) Whether submitted by the governing body or by citizen's petition, the question shall be submitted in the following form: "Shall (insert name of local government) ban all non-medical microbusiness dispensary facilities and comprehensive marijuana dispensary facilities from being located within (insert name of local government and, where applicable, its "unincorporated areas") and forgo any additional related local tax revenue? () Yes () No." If at least sixty percent of the votes cast on the question by the qualified voters voting thereon are in favor of the question, then the ban shall go into effect as provided by law. If a question receives less than the required sixty percent, then the jurisdiction shall have no power to ban non-medical microbusiness dispensary facilities or comprehensive marijuana facilities regulated under this section, unless voters at a subsequent general election on the first Tuesday after the first Monday in November of a presidential election year approve a ban on non-medical retail marijuana facilities submitted to them by the governing body or by citizen petition.

(2) (a) A local government may repeal an existing ban by its own ordinance or by a vote of the people, either through referral of a ballot question to the voters by the governing body or through citizen petition, provided that citizen petitions are otherwise generally authorized by the laws of the local government. In the case of a referral of a ballot question by the governing body or citizen petition to repeal an existing ban, the question shall be voted on only during the regularly scheduled general election held on the first Tuesday after the first Monday in November of a presidential election year. A citizen petition to put before the voters a ballot question repealing an existing ban shall be signed by at least five percent of the qualified voters in the area subject to the ban, determined on the basis of the number of votes cast for governor in such locale at the last gubernatorial election held prior to the filing of the petition. The local government shall count the petition signatures and give legal notice of the election as provided by applicable law. Denial of ballot access shall be subject to judicial review.

(b) Whether submitted by the governing body or by citizen's petition, the question shall be submitted in the following form: "Shall (insert name of local government) allow non-medical microbusiness dispensary facilities and comprehensive marijuana dispensary facilities to be located within (insert name of local government and where applicable, its "unincorporated areas") as regulated by state law? () Yes () No." If a majority of the votes cast on the question by the qualified voters voting thereon are in favor of the question, then the ban shall be repealed.

(3) The only local government ordinances and regulations that are binding on a marijuana facility are those of the local government where the marijuana facility is located.

(4) Unless allowed by the local government, no new marijuana facility shall be initially sited within one thousand feet of any then-existing elementary or secondary school, child day-care center, or church. In the case of a freestanding facility, the distance between the facility and the school, daycare, or church shall be measured from the external wall of the facility structure closest in proximity to the school, daycare, or church to the closest point of the property line of the school, daycare, or church. If the school, daycare, or church is part of a larger structure, such as an office building or strip mall, the distance shall be measured to the entrance or exit of the school, daycare, or church closest in proximity to the facility. In the case of a facility that is part of a larger structure, such as an office building or strip mall, the distance between the facility and the school, daycare, or church shall be measured from the property line of the school, daycare, or church to the facility's entrance or exit closest in proximity to the school, daycare, or church. If the school, daycare, or church is part of a larger structure, such as an office building or strip mall, the distance shall be measured to the entrance or exit of the school, daycare, or church closest in proximity to the facility. Measurements shall be made along the shortest path between the demarcation points that can be lawfully traveled by foot.

(5) Except as otherwise provided in this subsection, no local government shall prohibit marijuana facilities or entities with a transportation certification either expressly or through the enactment of ordinances or regulations that make their operation unduly burdensome in the jurisdiction. However, local governments may enact ordinances or regulations not in conflict with this section, or with regulations enacted pursuant to this section, governing the time, place, and manner of operation of such facilities in the locality. A local government may establish civil penalties for violation of an ordinance or regulations governing the time, place, and manner of operation of a marijuana facility or entity holding a transportation certification that may operate in such locality.

(6) Local governments may enact ordinances or regulations not in conflict with this section, or with regulations enacted pursuant to this section, governing:

(a) The time and place where marijuana may be smoked in public areas within the locality; and

(b) The consumption of marijuana-infused products within designated areas, including the preparation of culinary dishes or beverages by local restaurants for on-site consumption on the same day it is prepared.

6. Taxation and Reporting.

(1) A tax shall be levied upon the retail sale of non-medical marijuana sold to consumers at marijuana facilities licensed pursuant to this section within the state. The tax shall be at a rate of six percent of the retail price. The tax shall be collected by each licensed retail marijuana facility and paid to the department of revenue. After retaining no more than two percent of the total tax collected or its actual collection costs, whichever is less, amounts generated by the marijuana tangible personal property retail sales tax levied in this section shall be deposited by the department of revenue into the veterans, health, and community reinvestment fund created under this subsection. Licensed entities making non-medical retail sales within the state shall be allowed approved credit for returns provided the tax was paid on the returned item and the purchaser was given the refund or credit. This tax shall not apply to medical marijuana dispensed to a registered qualifying patient or caregiver.

(2) There is hereby created in the state treasury the "Veterans, Health, and Community Reinvestment Fund" which shall consist of taxes and fees collected under this section. The state treasurer shall be custodian of the fund, and he or she shall invest monies in the fund in the same manner as other funds are invested. Any interest and moneys earned on such investments shall be credited to the fund. Notwithstanding any other provision of law, any monies remaining in the fund at the end of a biennium shall not revert to the credit of the general revenue fund. The commissioner of administration is authorized to make cash operating transfers to the fund for purposes of meeting the cash requirements of the department in advance of it receiving application, licensing, and tax revenue, with any such transfers to be repaid as provided by law. The fund shall be a dedicated fund and shall be distributed as follows:

(a) First, as determined by appropriation, to the department an amount necessary for the department to carry out its responsibilities under this section, including repayment of any cash operating transfers, payments made through contract or agreement with other state and public agencies necessary to carry out this section, and a reserve fund to maintain a reasonable working cash balance for the purpose of carrying out this section;

(b) Second, as determined by appropriation, to governmental entities in amounts necessary for carrying out responsibilities in the expungement of criminal history records under this section;

(c) Next, the remaining fund balance shall be distributed in thirds as follows:

a. One-third of the remainder of the fund balance shall be transferred to the Missouri veterans commission and allied state agencies, as determined by appropriation, exclusively for health care and other services for military veterans and their dependent families;

b. One-third of the remainder of the fund balance to the department to provide grants to agencies and not-for-profit organizations, whether government or community-based, to increase access to evidence-based low-barrier drug addiction treatment, prioritizing medically proven treatment and overdose prevention and reversal methods and public or private treatment options with an emphasis on reintegrating recipients into their local communities, to support overdose prevention education, and to support job placement, housing, and counseling for those with substance use disorders. Agencies and organizations serving populations with the highest rates of drug-related overdose shall be prioritized to receive the grants; and

c. One-third of the remainder of the fund balance to the Missouri public defender system. Any moneys credited to the Missouri public defender system shall be used only for legal assistance for low-income Missourians, shall not be diverted to any other purpose.

(d) All monies from the taxes and fees authorized hereunder shall provide new and additional funding for the purposes enumerated above and shall not replace existing funding.

(e) The unexpended balance existing in the fund shall be exempt from the provisions of section 33.080, RSMo, or its successor provisions, relating to the transfer of unexpended balances to the general revenue fund.

(3) For all retail sales of marijuana, a record shall be kept by the seller of all amounts and types of marijuana involved in the sale and the total amount of money involved in the sale, including itemizations, taxes collected, and grand total sale amounts. All such records shall be kept on the premises in a readily available format and be made available for review by the department and the department of revenue upon request. Such records shall be retained for five years from the date of the sale.

(4) The tax levied pursuant to this subsection is separate from and in addition to any general state and local sales and use taxes that apply to retail sales, which shall continue to be collected and distributed as provided by general law.

(5) Pursuant to Article III, Section 49 of this Constitution, the governing body of any local government is authorized to impose, by ordinance or order, an additional sales tax in an amount not to exceed three percent on all tangible personal property retail sales of adult use marijuana sold in such political subdivision. The tax authorized by this paragraph shall be in addition to any and all other tangible personal property retail sales taxes allowed by law, except that no ordinance or order imposing a tangible personal property retail sales tax under the provisions of this paragraph shall be effective unless the governing body of the political subdivision submits to the voters of the political subdivision, at a municipal, county or state general, primary or special election, a proposal to authorize the governing body of the political subdivision to impose a tax. Any additional local retail sales tax shall be collected pursuant to general laws for the collection of local sales taxes.

(6) Except as authorized in this Article, no additional taxes shall be imposed on the sale of marijuana.

(7) The fees and taxes provided for in this section shall be fully enforceable notwithstanding any other provision in this Constitution purportedly prohibiting or restricting the taxes and fees provided for herein.

(8) For taxpayers authorized to do business pursuant to this Article, the amount that would have been deducted in the computation of federal taxable income pursuant to 26 U.S.C. Section 280E of the Internal Revenue Code as in effect on January 1, 2021, or successor provisions, but is disallowed because cannabis is a controlled substance under federal law, shall be subtracted from the taxpayer's federal adjusted gross income, in determining the taxpayer's Missouri adjusted gross income. The provisions of Section 1 and 2 shall supercede all laws and regulations, city, county, state and Federal that pertain to Cannabis in Missouri.

7. Additional Protections.

(1) A marijuana testing facility shall not be subject to civil or criminal prosecution under Missouri law, denial of any right or privilege, civil or administrative penalty or sanction, or disciplinary action by any accreditation or licensing board or commission for providing laboratory testing services that relate to marijuana consistent with this section and otherwise meeting legal standards of professional conduct.

(2) Notwithstanding any provision of Article V to the contrary, an attorney shall not be subject to disciplinary action by the Supreme Court of Missouri, the office of chief disciplinary counsel, the state bar association, any state agency or any professional licensing body for any of the following:

(a) Owning, operating, investing in, being employed by, or contracting with prospective or licensed marijuana testing facilities, marijuana cultivation facilities, marijuana dispensary facilities, marijuana-infused products manufacturing facilities, marijuana microbusiness facilities, or transportation certificate holders;

(b) Counseling, advising, and/or assisting a client in conduct permitted by Missouri law that may violate or conflict with federal or other law, as long as the attorney advises the client about that federal or other law and its potential consequences;

(c) Counseling, advising, and/or assisting a client in connection with applying for, owning, operating, or otherwise having any legal, equitable, or beneficial interest in marijuana testing facilities, marijuana cultivation facilities, marijuana dispensary facilities, marijuana-infused products manufacturing facilities, marijuana microbusiness facilities, or transportation certificates; or

(d) Counseling, advising or assisting a qualifying patient, primary caregiver, physician, nurse practitioner, health care provider, consumer, or other client related to activity that is no longer subject to criminal penalties under Missouri law pursuant to this Article.

(3) Actions and conduct by marijuana facilities licensed or otherwise certified by the department, or their employees or agents, as permitted by this section and in compliance with department regulations and other standards of legal conduct, shall not be subject to criminal or civil liability or sanctions under Missouri law, except as provided for by this section.

(4) The department may not promulgate a rule that requires a consumer to provide a marijuana facility with identifying information other than identification to determine the consumer's age.

(5) It is the public policy of the state of Missouri that contracts related to marijuana that are entered into by marijuana facilities and those who allow property to be used by those entities should be enforceable. It is the public policy of the state of Missouri that no contract entered into by marijuana facilities, or by a person who allows property to be used for activities that are exempt from state criminal penalties by this section, shall be unenforceable on the basis that activities related to marijuana may be prohibited by federal law.

(6) Prior to requesting a search or arrest warrant relating to cultivation of marijuana plants, a state or local law enforcement official shall verify with the department whether the targeted person holds a registration card allowing for cultivation of flowering marijuana plants under this section, and shall inform the issuing authority when making the warrant request. Evidence of marijuana alone, without specific evidence indicating that the marijuana is outside of what is lawful for medical or adult use, cannot be the basis for a search of a patient or non-patient, including their home, vehicle or other property. Lawful marijuana related activities cannot be the basis for a violation of parole, probation, or any type of supervised release. State and local law enforcement shall have access to such department information as is necessary to confirm whether the targeted person holds a registration card. Each time a state or local law enforcement officer executes a search warrant authorizing entry upon premises for an alleged marijuana offense, the officer must first knock or announce their presence or purpose prior to entering the premises.

(7) (a) After executing a search warrant for an alleged marijuana offense, or conducting a warrantless search for an alleged marijuana offense, the officer shall report the following information to the agency that employs the officer:

- a. The reasons for the warrant or, in the case of a warrantless search, a detailed account of either the probable cause or exigent circumstances, if any, which lead to the warrantless search;
- b. Whether any marijuana was discovered during the course of the search;
- c. Whether any marijuana was seized during the search, and if so, the amount seized;
- d. Whether any other contraband was discovered or seized in the course of the search, and if seized, a description of the contraband;
- e. A description of the tactics used by law enforcement to enter the property;
- f. Whether an arrest was made as a result of the search; and
- g. If an arrest was made, the crime suspected.

(b) Each law enforcement agency shall compile the data described in paragraph (a) of this subdivision for the calendar year into a report and shall submit the report to the attorney general no later than March first of the following calendar year. The attorney general shall determine the format that all law enforcement agencies shall use to submit the report.

(c) The attorney general shall submit a summary of the annual reports of law enforcement agencies to the governor, the general assembly, and each law enforcement agency no later than June first of each year. The summary shall include the total number of such warrants executed by each agency in the previous calendar year for alleged marijuana offenses, and a compilation of the information reported by law enforcement agencies pursuant to paragraph (b) of this subdivision.

8. Legislation.

Nothing in this section shall limit the general assembly from enacting laws consistent with the purposes and provisions of this section.

9. Additional Provisions.

(1) No owner of a marijuana facility or entity with a transportation certification shall be an individual with a disqualifying felony offense. A "disqualifying felony offense" is a violation of, and conviction or guilty plea to, state or federal law that is, or would have been, a felony under Missouri law, regardless of the sentence imposed, unless the department determines that:

(a) The person's conviction was for a marijuana offense that has been expunged or is currently eligible for expungement under this section; or

(b) The person's conviction was for a non-violent crime for which he or she was not incarcerated and that is more than five years old; or

(c) More than five years have passed since the person was released from parole or probation, and he or she has not been convicted of any subsequent felony criminal offenses.

The department may consult with and rely on the records, advice, and recommendations of the attorney general and the department of public safety, or their successor entities, in carrying out the provisions of this subdivision.

(2) Owners licensed pursuant to this section shall submit fingerprints to the Missouri state highway patrol for the purpose of conducting a state and federal fingerprint-based criminal record check in accordance with U.S. Public Law 92-544, or its successor provisions. The Missouri state highway patrol, if necessary, shall forward the fingerprints to the Federal Bureau of Investigation (FBI) for the purpose of conducting a fingerprint-based criminal background check. Fingerprints shall be submitted pursuant to section 43.543, RSMo, or its successor provisions, and fees shall be paid pursuant to section 43.530, RSMo, or its successor provisions. Unless otherwise required by law, no individual shall be required to submit fingerprints more than once.

(3) No marijuana facility shall manufacture, package, or label marijuana or marijuana-infused products in a false or misleading manner. No person shall sell any product in a manner designed to cause confusion between marijuana or a marijuana-infused product and any product not containing marijuana. A violation of this subdivision shall be punishable by an appropriate and proportional department sanction, up to and including an administrative penalty of five thousand dollars and loss of license.

(4) No marijuana facility may sell edible marijuana-infused candy in shapes or packages that are attractive to children or that are easily confused with commercially sold candy that does not contain marijuana. A violation of this subdivision shall be punishable by an appropriate and proportional department sanction, up to and including an administrative penalty of five thousand dollars and loss of license.

(5) All marijuana and marijuana-infused products shall be sold in individual, child-resistant containers that are labeled with serving amounts, instructions for use, and estimated length of effectiveness. All marijuana and marijuana-infused products shall be sold in containers clearly and conspicuously labeled, as mandated by the department, as containing "Marijuana" or a "Marijuana-Infused Product". Violation of this subdivision shall subject the violator to department sanctions, including an administrative penalty of five thousand dollars.

(6) A marijuana facility may not allow cultivation, manufacturing, sale, or display of marijuana, marijuana-infused products, or marijuana accessories to be visible from a public place outside of the marijuana facility without the use of binoculars, aircraft, or other optical aids.

(7) A marijuana facility may not cultivate, manufacture, test, sell, or store marijuana at any location other than a physical address approved by the department and within an enclosed area that is secured in a manner that prevents access by persons not permitted by the marijuana facility to access the area.

(8) A marijuana facility shall secure every entrance to the facility so that access to areas containing marijuana is restricted to employees and other persons permitted by the marijuana facility to access the area and to agents of the department or state and local law enforcement officers and emergency personnel and shall secure its inventory and equipment during and after operating hours to deter and prevent theft of marijuana, marijuana-infused products, and marijuana accessories.

(9) No marijuana facility may refuse representatives of the department the right to inspect the licensed premises or to audit the books and records of the marijuana facility. A facility that holds licenses issued under sections 1 and 2 of this Article shall comply with inspection regulations and standards issued pursuant to both sections.

(10) No marijuana facility, or entity with a certification, shall assign, sell, give, lease, sublicense, or otherwise transfer its license or certificate to any other entity without the express consent of the department, not to be unreasonably withheld.

(11) Real and personal property used in the cultivation, manufacture, transport, testing, distribution, sale, and administration of marijuana for activities otherwise in compliance with this section shall not be subject to asset forfeiture solely because of that use.

(12) No person shall extract resins from marijuana using dangerous materials or combustible gases without a medical marijuana-infused products manufacturing facility license, marijuana-infused products manufacturing facility license, or a marijuana microbusiness wholesale facility license. Violation of this prohibition shall subject the violator to department sanctions, including an administrative penalty of one thousand dollars for an individual and ten thousand dollars for a facility licensee and, if applicable, loss of certificate or license for up to one year.

10. Personal Use of Marijuana.

(1) Subject to the limitations in subsection 3 of this section, the following acts by a person at least twenty-one years of age are not unlawful and shall not be an offense under state law or the laws of any local government within the state or be a basis to impose a civil fine, penalty, or sanction, or be a basis to detain, search, or arrest, or otherwise deny any right or privilege, or to seize or forfeit assets under state law or the laws of any local government:

(a) Purchasing, possessing, consuming, using, ingesting, inhaling, processing, transporting, delivering without consideration, or distributing without consideration three ounces or less of dried, unprocessed marijuana, or its equivalent;

(b) Possessing, transporting, planting, cultivating, harvesting, drying, processing, or manufacturing up to six flowering marijuana plants, six nonflowering marijuana plants (over fourteen inches tall), and six clones (plants under fourteen inches tall) provided the person is registered with the department for cultivation of marijuana plants under this section, provided:

- a. The plants and any marijuana produced by the plants in excess of three ounces are kept at one private residence, are in a locked space, and are not visible by normal, unaided vision from a public place; and
- b. Not more than twice the number of allowable plants under paragraph (b) of this subdivision are kept in or on the grounds of a private residence at one time.

(c) Assisting another person who is at least twenty-one years of age in, or allowing property to be used for, any of the acts permitted by this section; and

(d) Purchasing, possessing, using, delivering, distributing, manufacturing, transferring, or selling to persons twenty-one years of age or older marijuana accessories.

(2) A person who, pursuant to this section, cultivates marijuana plants that are visible by normal, unaided vision from a public place is subject to a civil penalty not exceeding two hundred and fifty dollars and forfeiture of the marijuana.

(3) A person who, pursuant to this section, cultivates marijuana plants that are not kept in a locked space is subject to a civil penalty not exceeding two hundred and fifty dollars and forfeiture of the marijuana.

(4) A person who smokes marijuana in a public place, other than in an area licensed for such activity by the authorities having jurisdiction over the licensing and/or permitting of said activity, is subject to a civil penalty not exceeding one hundred dollars.

(5) A person who is under twenty-one years of age who possesses, uses, ingests, inhales, transports, delivers without consideration or distributes without consideration three ounces or less of marijuana, or possesses, delivers without consideration, or distributes without consideration marijuana accessories is subject to a civil penalty not to exceed one hundred dollars and forfeiture of the marijuana. Any such person shall be provided the option of attending up to four hours of drug education or counseling in lieu of the fine.

(6) Subject to the limitations of this section, a person who possesses not more than twice the amount of marijuana allowed pursuant to this subsection, produces not more than twice the amount of marijuana allowed pursuant to this subsection, delivers without receiving any consideration or remuneration to a person who is at least twenty-one years of age not more than twice the amount of marijuana allowed by this subsection, or possesses with intent to deliver not more than twice the amount of marijuana allowed by this subsection:

(a) For a first violation, is subject to a civil infraction punishable by a civil penalty not exceeding two hundred and fifty dollars and forfeiture of the marijuana;

(b) For a second violation, is subject to a civil infraction punishable by a civil penalty not exceeding five hundred dollars and forfeiture of the marijuana;

(c) For a third or subsequent violation, is subject to a misdemeanor punishable by a fine not exceeding one-thousand dollars and forfeiture of the marijuana;

(d) A person under twenty-one years of age is subject to a civil penalty not to exceed two hundred and fifty dollars. Any such person shall be provided the option of attending up to eight hours of drug education or counseling in lieu of the fine; and

(e) In lieu of payment, penalties under this subsection may be satisfied by the performance of community service. The rate of pay-down associated with said service option will be the greater of \$15 or the minimum wage in effect at the time of judgment.

(7) (a) Any person currently incarcerated in a prison, jail or halfway house, whether by trial or open or negotiated plea:

- a. Who would not have been guilty of an adult or juvenile offense, had sections 1 and 2 of this Article been in effect at the time of the offense; or
- b. Who would have been guilty of a lesser adult or juvenile offense had sections 1 and 2 of this Article been in effect at the time of the offense; or
- c. Who is serving a sentence for a marijuana offense which is a misdemeanor, a class E felony, or a class D felony, or successor designations, involving possession of three pounds or less of marijuana, excluding offenses involving distribution or delivery to a minor, any offenses involving violence, or any offense of operating a motor vehicle while under the influence of marijuana; may petition the sentencing court to vacate the sentence, order immediate release from incarceration and other supervision by the department of corrections, and the expungement of all government records of the case. Such expungement from all government records shall be granted for all of the person's applicable marijuana offenses, absent good cause for denial. The effect of such orders shall be to restore such person to the status the person occupied prior to such arrest, plea or conviction and as if such event had never taken place, and the conviction and sentence shall be vacated as legally invalid. No person for whom such order has been entered shall be held thereafter under any provision of any law to be guilty of perjury or otherwise giving a false statement by reason of the person's failure to recite or acknowledge such arrest, plea, trial, conviction, or expungement in response to any inquiry made of the person for any purpose whatsoever, and no such inquiry shall be made for information relating to an expungement. The court shall not assess any filing fee for these filings. The office of the state public defender shall prepare and make readily available and accessible a pleading form that may be filed pro se for this purpose. The circuit courts of the state shall also make readily available and accessible this pleading form. Within ninety days of the effective date of this section, the sentencing court shall complete the adjudication for all cases involving only misdemeanor marijuana offenses. Within one hundred and eighty days of the effective date of this section, the sentencing court shall complete the adjudication for all cases involving class E, or successor designation, felony marijuana offenses and, if applicable, any additional marijuana misdemeanor offenses by such offenders. Within two hundred and seventy days of the effective date of this section, the sentencing court shall complete the adjudication for all class D, or successor designation, felony cases involving three pounds or less of marijuana, as well as any lesser marijuana offenses by such offenders, if applicable. This shall not apply to offenses while operating a commercial motor vehicle as defined in 49 CFR 390.5, or its successor provisions, in interstate or intrastate transportation unless otherwise exempted as found in section 307.400, RSMo, or its successor provisions.

(b) Any person currently on probation or parole for a marijuana law violation, whether by trial or open or negotiated plea:

- a. Who would not have been guilty of an adult or juvenile offense, had sections 1 and 2 of this Article been in effect at the time of the offense; or
- b. Who would have been guilty of a lesser adult or juvenile offense had sections 1 and 2 of this Article been in effect at the time of the offense; or
- c. Who was convicted or plead guilty to a marijuana offense which is a misdemeanor, a class E felony, or a class D felony, or successor designations, involving the possession of three pounds or less of marijuana, excluding distribution or delivery to a minor or any offense of operating a motor vehicle while under the influence of marijuana; shall, upon the effective date of this section, have their sentence automatically vacated by the sentencing court, which shall order the immediate termination of supervision by the department of corrections, and the expungement of all government records of the case. Such expungement from all government records shall be granted for all of the person's applicable marijuana offenses, absent good cause for denial. The effect of such orders shall be to restore such person to the status the person occupied prior to such arrest, plea or conviction and as if such event had never taken place, and the conviction and sentence shall be vacated as legally invalid. No person for whom such order has been entered shall be held thereafter under any provision of any law to be guilty of perjury or otherwise giving a false statement by reason of the person's failure to recite or acknowledge such arrest, plea, trial, conviction, or expungement in response to any inquiry made of the person for any purpose whatsoever, and no such inquiry shall be made for information relating to an expungement. The court shall not assess any filing fee for these cases. This shall not apply to offenses while operating a commercial motor vehicle as defined in 49 CFR 390.5, or its successor provisions, in interstate or intrastate transportation unless otherwise exempted as found in section 307.400, RSMo, or its successor provisions.

(8) (a) Within six months of the effective date of this section, the circuit courts of this state shall order the expungement of the criminal history records of all misdemeanor marijuana offenses for any person who is no longer incarcerated or under the supervision of the department of corrections. Within twelve months of the effective date of this section, the circuit courts of this state shall order the expungement of criminal history records for all persons no longer incarcerated or under the supervision of the department of corrections but who have completed their sentence for any felony marijuana offenses and any marijuana offenses that would no longer be a crime after the effective dates of sections 1 and 2 of this Article, excluding distribution or delivery to a minor, any such offenses involving violence, or any offense of operating a motor vehicle while under the influence of marijuana. For all class A, class B and class C, or successor designations, felony marijuana offenses, and for all class D, or successor designation, felony marijuana offenses for possession of more than three pounds of marijuana, the circuit courts of this state shall order expungement of criminal history records upon the completion of the person's incarceration, including any supervised probation or parole. For the purposes of this subdivision, "criminal history record" means all information documenting an individual's contact with the criminal justice system, including data regarding identification, arrest or citation, arraignment, judicial disposition, custody, and supervision.

(b) An expungement order shall be legally effective immediately and the person whose record is expunged shall be treated in all respects as if he or she had never been arrested, convicted, or sentenced for the offense, and the conviction and sentence shall be vacated as legally invalid. The court shall issue an order to expunge all records and files related to the arrest, citation, investigation, charge, adjudication of guilt, criminal proceedings, and probation related to the sentence. The court shall provide notice of the expungement to the person who is the subject of the record at the person's last known address, the arresting agency, prosecuting attorneys, central state depository of criminal records, and any other entity that may have a record related to the order to expunge. The central state depository of criminal records shall provide notice of the expungement to the Federal Bureau of Investigation's National Crime Information Center, or its successor agency. The court shall issue the person a certificate stating that the offense for which the person was convicted has been expunged and that its effect is to annul the record of arrest, conviction, and sentence.

(c) The effect of such expungement shall be to restore such person to the status the person occupied prior to such arrest, plea, or conviction and as if such event had never taken place. Such person shall not be required to acknowledge the existence of such a criminal history record or answer questions about the record in any application for employment, license, or civil right or privilege or in an appearance as a witness in any proceeding or hearing, and may deny the existence of the record regardless of whether the person has received notice from the court that an expungement order has been issued on the person's behalf.

(d) No person shall be prosecuted again for any offense which has been vacated or expunged.

(e) The court shall keep a special index of cases that have been expunged together with the expungement order and the certificate issued pursuant to this subsection. The index shall list only the name of the person convicted of the offense, his or her date of birth, the docket number, and the criminal offense that was the subject of the expungement. The special index and related documents shall be confidential and shall be physically and electronically segregated in a manner that ensures confidentiality and that limits access to authorized persons. The court may permit special access to the index and the documents for research purposes pursuant to the rules for public access to court records. The index and documents made available by the court may not include any identifying information.

(9) A person currently under parole, probation, or other state supervision, or released awaiting trial or other hearing, may not be punished or otherwise penalized based solely on conduct that is permitted by this section.

(10) No conduct permitted by this section shall constitute the basis for detention, search, or arrest; and except when law enforcement is investigating whether a person is operating a motor vehicle, train, aircraft, motorboat, or other motorized form of transport while under the influence of marijuana, the odor of marijuana or burnt marijuana, the possession or suspicion of possession of marijuana without evidence of a quantity in excess of the lawful amount, or the possession of multiple containers of marijuana without evidence of quantity in excess of the lawful amount shall not individually or in combination with each other constitute reasonably articulable suspicion of a crime. Marijuana and marijuana-infused products as permitted by this section are not contraband nor subject to seizure.

(11) A person shall not be denied eligibility in public assistance programs or public benefits based solely on conduct that is permitted by this Article, unless required by federal law.

(12) No person shall be denied their rights under Article 1, Section 23 of the Missouri Constitution, solely for conduct that is permitted by this section.

(13) No person shall be denied parental rights, custody of, or visitation with a minor child by a state or local government executive agency based solely on conduct that is permitted by this section, unless the person's behavior is such that it creates an unreasonable danger to a minor child that can be established by clear and convincing evidence.

11. Interstate Commerce.] 3. Interstate Commerce.

If federal law, rules, or regulations are amended to allow the interstate commerce of marijuana or marijuana-infused products or the importation or exportation of marijuana or marijuana-infused products into or out of the state of Missouri, the provisions and intent of this section shall, to the extent possible, remain in full effect, unless explicitly preempted by such federal law, rule, or regulation. If federal law, rules, or regulations are amended as provided above, any marijuana or marijuana-infused products imported into this state shall be subject to the same testing standards and seed-to-sale tracking system required under this section for marijuana and marijuana-infused products produced within the state. Unless federal law, rules, or regulations explicitly require otherwise, no entity shall sell, transport, produce, distribute, deliver, or cultivate marijuana or marijuana-infused products without an applicable license or certificate as required under this section. In addition, any raw biomass of marijuana or marijuana flower imported from out-of-state shall be received only by a licensed cultivation facility, while all batch oil, infused marijuana products and any marijuana product in any other form shall be received only by a licensed manufacturing facility.] The Interstate Commerce of Cannabis, Cannabis products and/or Cannabis accessories, from Missouri shall be permitted to those states and nations that have legalized Cannabis in some form. The level of restriction of Cannabis commerce to any state or nation shall be based on the laws of the recipient of Missouri's Cannabis products.

[12. Severability.] 4. Severability.

[The provisions of this section are severable, and if any clause, sentence, paragraph or section of this measure, or an application thereof, is adjudged invalid by any court of competent jurisdiction, the other provisions shall continue to be in effect to the fullest extent possible.] The provisions of this section are severable. If any clause, sentence, paragraph or section of this measure, or an application thereof, is deemed invalid by a majority vote from a General Election, the other provisions shall continue to be in effect to the fullest extent possible.

[13. Effective Date.] 5. Effective Date of Implementation.

[The provisions of this section shall become effective within thirty days following the election, as provided by this Constitution.] The dictates of this Initiative, unless otherwise indicated by this Initiative shall be implemented no later than January 31st, 2025.

**MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (24-112)**

Subject

Initiative petition from Mark Pedersen regarding a proposed constitutional amendment to Article XIV of the Constitution of Missouri. (Received May 15, 2023)

Date

June 2, 2023

Description

This proposal would amend Article XIV of the Constitution of Missouri.

The amendment is to be voted on in November 2024.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office**, the **Department of Agriculture**, the **Department of Economic Development**, the **Department of Elementary and Secondary Education**, the **Department of Higher Education and Workforce Development**, the **Department of Health and Senior Services**, the **Department of Commerce and Insurance**, the **Department of Mental Health**, the **Department of Natural Resources**, the **Department of Corrections**, the **Department of Labor and Industrial Relations**, the **Department of Revenue**, the **Department of Public Safety**, the **Missouri Department of the National Guard**, the **Department of Social Services**, the **Governor's office**, the **Missouri House of Representatives**, the **Department of Conservation**, the **Department of Transportation**, the **Office of Administration**, the **Office of State Courts Administrator**, the **Missouri Senate**, the **Secretary of State's office**, the **Office of the State Public Defender**, the **State Treasurer's office**, **Adair County**, **Boone County**, **Callaway County**, **Cass County**, **Clay County**, **Cole County**, **Greene County**, **Jackson County**, **Jasper County**, **St. Charles County**, **St. Louis County**, **Taney County**, the **City of Cape Girardeau**, the **City of Columbia**, the **City of Jefferson**, the **City of Joplin**, the **City of Kansas City**, the **City of Kirksville**, the **City of Mexico**, the **City of Raymore**, the **City of St. Joseph**, the **City of St. Louis**, the **City of Springfield**, the **City of Union**, the **City of Wentzville**, the **City of West Plains**, **Cape Girardeau 63 School District**, **Hannibal 60 School District**, **Malta Bend R-V School District**, **Mehlville School District**, **Wellsville-Middletown R-1 School District**, **State Technical College of Missouri**, **Metropolitan Community College**, **University of Missouri**, **St. Louis Community College**, **University of Central Missouri**, **Harris-Stowe State University**, **Lincoln University**, **Missouri State University**, **Missouri Southern State University**, **Missouri Western State University**, **Northwest Missouri State University**, **Southeast Missouri State University**, **Truman State University**, **Missouri Veterans Commission**, **Missouri Office of Prosecution**

Services, the Kansas City Board of Police Commissioners, and the Metropolitan Police Department - City of St. Louis.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, their office may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact.

Officials from the **Department of Economic Development** indicated no fiscal impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated they have reviewed initiative petition 24-112 and determined there is no fiscal impact to their agency.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated:

This could reduce new small business opportunities for businesses that currently fall under Section 1 and Section 2 of Article XIV of the Missouri Constitution. The passage of this initiative petition can have an increase of local food safety inspection if cannabis is considered a food.

Article XIV, Constitution of Missouri

Initiative Petition 24-112 places on the ballot in November 2024 a proposed amendment to the Constitution that repeals Section 1, Article XIV, Constitution of Missouri relating to medical marijuana for patients with serious illnesses and medical conditions and Section 2, Article XIV, Constitution of Missouri relating to the legalization under state and local law for adults twenty-one years of age or older and to control the commercial production and distribution of marijuana through licensing and regulations while protecting public health. In addition to the repeal of Section 1 and 2 of Article XIV of the Constitution of Missouri, the initiative petition Cannabis would be considered a food and not a controlled substance or a drug. The initiative petition amends the Article XIV of the Missouri Constitution to be called Missouri Cannabis Restoration. The law is to be implemented no later than January 31, 2025.

It is assumed, as a result of the repeal of Section 1 and Section 2, Article XIV, a portion of the five (5) months of expenses may be avoided in fiscal year (FY) 2025. The Department of Health and Senior Services (DHSS), Division of Cannabis Regulation will require full-

time employee (FTE) past the January 31, 2025 effective date to complete the discontinuation of the program and handle pending issues including processing refunds.

DHSS is not able to estimate the impact the repeal of Section 1 and 2 would have on revenues in FY 2025. The repeal eliminates any revenue collection for identification cards for patients and caregivers, collections from cultivators, dispensaries, manufacturing facilities, and testing facilities. The repeal eliminates any sales tax charged on cannabis, which would also be a decrease in revenue collected. Any remaining balance in the Veterans Health and Care Fund (0606) once all items are closed, will be transferred to the Missouri Veterans Commission. This will result in a \$0 balance in the Missouri Veterans Health and Care Fund. Any remaining balance in the fund, in the Veteran Community, Health, and Reinvestment Fund (0608) once all items are closed, will be transferred to the Missouri Veterans Commission and allied state agencies, Missouri Public Defender System, and for the Substance Use Disorder grants to agencies and not-for-profit organizations. This will result in a \$0 balance in the Veteran Community, Health, and Reinvestment Fund.

Cultivation facilities, testing facilities, product manufacturing facilities, and retail stores or other entities that cultivates, prepares, manufactures, packages, transports, or sells Cannabis food products or accessories, would become food establishments that would require food safety inspections. This would increase the number of DHSS trainers needed to prepare the local jurisdictions to inspect such facilities. The number of staff would be unknown as it would be dependent upon how many establishments remained once Cannabis was considered a food as those cannabis stores could go out of business.

The U.S. Food and Drug Administration (FDA) is DHSS' Division of Community and Public Health (DCPH), Bureau of Environmental Health Services funding source for field operations. These federal grants would be in jeopardy if this initiative petition were to be passed amending cannabis from a controlled substance to be considered a food.

The State Public Health Lab (SPHL) would no longer require the FTE appropriated in the FY 2024 budget with the repeal of Section 1 and 2 of Article XIV. However, SPHL assumes the loss of the FDA Laboratory Flexible Funding Model grant for food testing as a result of Cannabis being considered a food with the passage of the initiative petition.

The language in the initiative petition could put other federal funds in jeopardy as cannabis is still illegal at the federal level, therefore, making the full loss an unknown for DCPH and the State Public Health Lab (SPHL).

The Division of Administration would no longer require the FTE appropriated in the FY 2024 budget. However, due to the increase of workload in DCPH and the SPHL the Division of Administration would require additional General Revenue funded FTE in order to support the increase of staff in those areas.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no anticipated cost or savings to their department.

Officials from the **Department of Mental Health** indicated this petition would modify Article XIV of the Missouri Constitution regarding medical and recreational cannabis use. Provisions of this initiative petition require employers to allow employees to use medical cannabis in the work environment. Their department facilities and community providers may be in conflict with Federal guidelines and the Joint Commission on Accreditation as well as compliance with the Drug-Free Workplace Act.

The initiative petition may jeopardize patient safety. The exact fiscal impact is unknown but could be significant.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated this legislation may cause an increase in workload for Institutional Records Office Staff, as it expands the list of offenses for which an individual can request expungement. Expunging these records through destruction, redacting or removal (electronic) will result in an increase in workload for their Institutional Records Officers, as they are the custodian of records for their offender files. This could also affect records kept at Probation and Parole Offices. While it represents an increase in workload, it is not anticipated that petitions for expungement will occur often enough to significantly impact the Department of Corrections. While their department assumes a \$0 impact, the use of expungement by offenders is unknown. There is some concern for tracking previous medical, mental health, substance use treatment, and education records should the offender return to supervision by their department. If there should be a significant number of additional requests for expungement, it could result in additional costs to their department.

Officials from the **Department of Labor and Industrial Relations (DOLIR)** indicated there are over 171,000 small businesses (less than 50 employees) covered under Missouri's unemployment insurance system. Because Missouri's UI program is certified in conformity with Federal UI laws, most employers never actually pay the total 6.0% in FUTA taxes due to the credits they receive for the payment of state unemployment taxes and for paying reduced rates under an approved experience rating plan. However, this bill could cause Missouri employers to pay the full 6.0%.

DOLIR pointed out significant issues on pages 4 and 5 of the petition. On page 4, it states that no one shall be denied employment solely based on cannabis use, and on page 5, it states that a person formally prescribed cannabis to medicate must be provided a place to do so by their employer.

Marijuana is still a Class 1 controlled substance and illegal at the federal level, which can result in a federal felony conviction. DOLIR operates programs funded by federal dollars and/or federal match funds. As such, permitting marijuana use, regardless of prescription and state law, would jeopardize federal funding and would not conform to federal standards.

Each year, on October 31, the Secretary of Labor certifies the state unemployment insurance programs that conform and comply substantially with federal law. (26 U.S.C. § 3304.) If, and only if, a state's unemployment insurance program is certified to be in conformity with Federal requirements, employers within the state are eligible to receive a credit against their Federal Unemployment Tax Act (FUTA) taxes. (26 U.S.C. § 3302.)

Non-conformity with federal law could jeopardize the certification of Missouri's UI program. If the program fails to be certified, Missouri could lose approximately \$50.3 million in federal funds the state receives each year to administer the UI program. Additionally, Missouri could lose the approximately \$11.3 million in federal funds each year the Department of Higher Education and Workforce Development uses for Wagner-Peyser reemployment services.

The FUTA imposes a 6.0% payroll tax on employers. Most employers never actually pay the total 6.0% due to credits they receive for the payment of state unemployment taxes and for paying reduced rates under an approved experience rating plan. FUTA allows employers tax credits up to a maximum of 5.4% against the FUTA payroll tax if the state UI law is approved by the Secretary of Labor. However, if this bill causes Missouri's program to be out of compliance or out of conformity, Missouri employers would pay the full 6.0%, or approximately an additional \$1.034 billion per year.

The Division of Employment Security (DES) has no way of knowing what rules or regulations may be promulgated by any federal agency. But if such a rule were promulgated and failure to follow it were to result in lack of conformity with federal unemployment program requirements, then federal funding to DES for its administration of Missouri's UI program, Department of Higher Education and Workforce Development Wagner-Peyser funds, and Missouri employer tax credits will be at risk.

If Missouri's unemployment insurance (UI) program is found to be out of compliance or out of conformity, Missouri would lose approximately \$50.3 million in Federal Funds the Department of Labor and Industrial Relations receives to administer the UI program and approximately \$11.3 million the Department of Higher Education and Workforce Development receives to administer Wagner-Peyser services each year. Additionally, Missouri employers would lose approximately \$ 1.0 billion annually in FUTA credits if Missouri's UI program is out of compliance or out of conformity.

The \$1.034 billion figure given is the additional federal unemployment tax employers will have imposed on them by the Federal Unemployment Tax Act. This tax is derived based on the employer's payroll, and is not the State of Missouri's UI tax. As a result, this increase would not directly affect what is deposited into the UI Trust Fund. Indirectly, being forced to pay the full 6% federal unemployment tax would severely affect employers within the state. Employers would be likely to relocate or refuse to open in a state where there was no FUTA tax credit applied. This would, in turn, reduce the amount of UI tax received by the State, and therefore affect the trust fund in an indeterminable amount based on the number of employers who would no longer do business in Missouri. The estimated future impact

to employers is the \$1.034 billion aforementioned figure. Benefit payouts for UI claims are determined by Section 288.038, which utilizes a formula based on the employee's wages during their base period to calculate the benefit amount. The imposition of the full 6% federal UI tax would not directly affect benefit payout.

Officials from the **Department of Revenue (DOR)** indicated they estimated one-time costs of \$14,386 and total estimated lost revenue on all state funds of \$0 in fiscal year 2024, \$24,558,710 to \$42,725,766 in fiscal year 2025, and \$74,882,330 to \$128,177,311 in fiscal year 2026; a total estimated lost revenue on all federal funds of \$0 in fiscal year 2024, \$0 in fiscal year 2025, and \$52,500,000 in fiscal year 2026; and a total estimated lost revenue for all local funds of \$0 in fiscal year 2024, \$13,644,904 to \$19,566,568 in fiscal year 2025, and \$40,934,713 to \$58,699,707 in fiscal year 2026.

IP 24-112

This is an initiative petition that would go to the vote of the people at the November 2024 general election. If this is not adopted by the people, this would not have a fiscal impact.

Should this be adopted at the November 2024 election, by the time certification of the election occurs, it is assumed this constitutional amendment would have a January 1, 2025 effective date. Per the requirements of this proposal, it must be fully implemented by January 31, 2025.

Section 1- MO Cannabis Restoration

Article XIV Section 1 – Currently sets up medical cannabis as legal and allows for a tax of 8.225% to be assessed on all cannabis purchased. The tax has a 4% cannabis tax for veterans and the regular state sales tax of 4.225%. In addition, the local sales tax rate is also collected. They used a weighted average local sales tax rate of 4.07% for calculating fiscal notes. Note the cannabis tax is calculate first and the sales tax is calculated on the purchase price + cannabis tax. The state portion of the tax is distributed to the following state funds:

Missouri Veterans Health Care Fund (4%)

General Revenue (3%)

School Districts Trust Fund (1%)

Conservation Commission (0.125%)

Parks, Soil & Water (0.1%)

This proposed amendment would repeal the current medical & recreational cannabis laws and replaces it with a statement that cannabis is legal and will be considered a food under Missouri law. This proposal says that medical marijuana will not be subject to any taxation.

Therefore, under this proposal the entire 8.225 state tax and 4.07% local tax will no longer be collected on medical cannabis.

In order to calculate the loss to the state and local political subdivisions they used the calendar year 2022 data (the most complete data available). It showed taxable sales of \$369,055,153 of medical cannabis. Therefore, DOR collected the following taxes:

Taxable Sales	\$369,055,153		
	Tax Rate		CY 2022
State Excise Tax medical	0.04		(\$14,762,206)
General Revenue	0.03		(\$11,071,655)
School District Trust	0.01		(\$3,690,552)
Conservation Commission	0.00125		(\$461,319)
Park Soil & Water	0.001		(\$369,055)
Total State Sales Tax			(\$15,592,580)
Local Sales Tax	0.0407		(\$15,020,545)
Local Excise Tax	0.03		(\$11,071,655)
Total Local Tax			(\$26,092,199)

Therefore the repeal of the medical cannabis taxes will result in a loss to the MO Veterans Health & Care Fund of (\$14,762,206) annually. It will also result in a loss to the state sales tax funds of (\$15,592,580) and to the local political subdivision of (\$26,092,199) annually.

Given the removal of all tax from medical cannabis, while recreational will still have some tax, they could see a shift from recreational use to more medical use. Therefore, the repeal of the medical cannabis taxes could exceed the estimates provided.

Current law allows the DOR to retain up to 2% of the medical cannabis tax collected to reimburse their expenses. It should be noted that DOR only retains 1%. Repealing the tax would also result in a loss of that retained fee. Note, the retained fee is transferred to general revenue and not used by DOR.

Section 1 - Subsection 4(8)- Cannabis Deduction

Article XIV, Section 1 allowed cannabis businesses' a subtraction from their federal adjusted gross income in the amount that would have been allowed from the computation of the taxpayer's federal taxable income if the income were not disallowed solely from them being a marijuana business. Under federal law cannabis is a controlled substance and business selling it are not allowed some deductions that other businesses are entitled to. Since cannabis is allowed to be sold in Missouri, this would allow them to adjust their

federal adjusted gross income before calculating their Missouri adjusted gross income. This proposed amendment would eliminate this provision from the constitution.

Their department is unable to calculate the amount of income and deductions that these businesses could possibly be allowed to deduct under this proposal. Since this proposal was legal in November of 2022, their department has not finished processing all the tax returns (2022 tax year) and therefore is not able to determine the extent of the claimed deduction. At the time of the passage of the recreational cannabis laws their department noted this could result in an Unknown that could be significant negative fiscal impact to general revenue and total state revenue from this deduction. So repealing this provision would generate an Unknown positive impact to general revenue.

This would require their department to again change their Forms MO-A and the MO-1120. This could result in some computer programming changes and form changes estimated at \$7,193 in one-time costs.

Article XIV, Section 2 Recreational Cannabis

Current law established a procedure starting January 1, 2023, to allow adults to buy and use recreational cannabis. It also established a 6% tax on the retail sale of cannabis that is distributed to the Veterans, Health & Community Reinvestment Fund. Additionally, recreational cannabis was subject to state and local sales tax. The proposal then allowed local political subdivisions to pass a law to collect a 3% excise tax.

Due to the starting of the recreational cannabis in January of 2023, they do not have enough tax data (1 month) to make an estimate of the impact. This IP will treat cannabis as food and therefore the only state sales tax collected will be 1.225%. The locals will be allowed to collect their 4.07% weighted average sales tax on food but will no longer be allowed to collect the cannabis 3% tax. As of the drafting of this fiscal note, 143 local political subdivisions have passed a law to collect the 3% tax. However, due to how sales tax implementation occurs, they will not start collecting any of the 3% tax until October 1, 2023.

In order to calculate the impact of recreational marijuana the department used information from several national sources. Based on a study completed by Gallup in April 2022, 16% of the nation's adults smoke or use cannabis regularly. Information from the U.S. Census Bureau indicate there are 4,794,095 adults over the age of 18 in Missouri and therefore no more than 767,055 could be using cannabis regularly.

A report published by Headset Inc, a market insights from Seattle-based cannabis intelligence company, believes that the average cannabis consumer spends roughly \$645 on marijuana related products per year. They note that on average a person spends \$33 per trip to the store. LendEDU conducted a survey of student loan holders and found on average they spend \$111 a month on cannabis products for a high price of \$1,332 annually.

It should be noted that the price of the cannabis would have the excise tax added to it and then the sales tax is calculated. While they were able to get estimates of the amount spent on cannabis annually it was not clear if the excise tax and or sales tax is included in those annual prices. So they ran calculations assuming it was include and assuming it wasn't to determine the amount of taxes that could be generated.

If the 16% of adults in Missouri, age 21 and older, spend \$645 each year on cannabis and included in this amount is the excise tax (passed on from seller to purchaser) and assuming the current cannabis rate of tax at 6%, their department estimates that \$29,685,029 would be collected from the excise tax.

$$- (\$645 \times 6\% = \$38.70 \times 767,055) = \$29,685,029$$

If the average amount spent each year on cannabis by adults in Missouri, over the age of 21, is \$645 and the tax is not included in this amount, their department estimates that \$31,571,984 would be collected.

$$- (\$645 / 94\% = \$686 \times 6\% = \$41.16 \times 767,055 = \$31,571,984$$

Based on information provided by LendEDU, the largest pool of individuals surveyed spent \$1,332 or above each year on cannabis and cannabis products.

If the \$1,332 included tax (assumed at 6%), their department estimates that \$61,303,036 would be collected.

If the \$1,332 does not include tax, their department estimates that \$65,215,016 would be collected.

In order to determine the impact from the elimination of the 6% cannabis tax, they will use a range using the amount calculated for the low price with the tax included in the price to the amount calculated for the high price with no tax included in the price. This proposal would result in a loss to the Veterans Health and Community Reinvestment Fund of the excise tax.

Fiscal Year 2025 (4 months)		Fiscal Year 2026	
Loss to Veterans Health & Community Reinvestment Fund		Loss to Veterans Health & Community Reinvestment Fund	
Low	High	Low	High
\$9,895,010	\$21,738,339	\$29,685,029	\$65,215,016

Since the local political subdivisions can assess a 3% cannabis tax if they registered the tax with DOR, this will result in a loss of \$14,842,514 to \$32,607,508 annually for locals from the elimination of this tax. While this tax will not be collected until October of 2023, it will be in effect when this proposal is voted on. They will show the loss as estimated.

Current law additionally allows the State to also collect sales and use tax on cannabis. This proposal is defining cannabis as a food product. Therefore, it would be assessed the sales

tax allowed for food. The general revenue (3%) portion of the state sales tax is not collected on food. The only state sales tax on food is 1.225%. The 1.225% is distributed 1% to the School District Money Fund, 0.125% to the Conservation Commission Fund and 0.1% to the Park, Soil & Water Funds. Additionally, the local sales tax of 4.07% is also collected.

Using the \$645 price at the low end (price included the excise tax) they can estimate the amount of the 3% general revenue sales tax that will no longer be collected. They determine taxable sales by taking the $\$645 \times 767,055 = \$494,750,475$ in taxable sales. Multiplying this by the 3% general revenue portion of the sales tax and it will result in a loss of \$14,842,514 annually. Additionally, on the high end of \$1,417 (41,332 + excise tax not in the price) they can assume a loss of the 3% general portion of \$32,607,508.

Sales tax is remitted to DOR based on the amount of reported sales of a business. Therefore, some file monthly and others file quarterly. Additionally, it is filed in the month after the filing period closes. Therefore the FY 2025 loss will only be for four months. The estimated loss per fiscal year:

This provision will result in a loss to general revenue.

Loss to General Revenue		
Fiscal Year	Low End	High End
2025 (4 months)	(\$4,947,505)	(\$10,869,169)
2026+	(\$14,842,514)	(\$32,607,508)

Due to recreational cannabis still having some taxes collected on it while the medical would not, they would assume some recreational users may become medical users and depending on how many are able to switch, the impact to general revenue could be different than the estimates calculated.

This will require changes to our database and those changes are estimated at \$7,193.

Article XIV, Section 1.8 Expungement of Records

When the current Article XIV language was proposed, the department noted that as written, it would allow eligible individuals with marijuana-related Driving While Intoxicated offenses to expunge those offenses. Allowing marijuana-related driving offenses to be expunged as proposed would, in some instances, compromise the state's enforcement of the provisions of Section 302.060, regarding five-year and ten-year alcohol and drug license denials. In other instances, it would compromise the enhancement provisions of Section 302.525, and the state's ignition interlock programs requiring offenders with multiple offenses to have an interlock device on any vehicle they operate for a minimum period of six months from the date of license reinstatement.

The language in that IP was believed to be inconsistent with the provisions of Sections 577.054 and 610.130, which do not allow a driving while intoxicated (DWI) offense to be expunged until after 10 years from date of conviction, and only if the person has no other

DWI offenses on record or pending. It was unclear if the expungement under that IP would result in non-compliance with federal law.

As written, that IP could potentially allow eligible individuals with marijuana-related Driving While Intoxicated offenses who hold a commercial driver license (CDL) to expunge those offenses, which would violate federal Commercial Driver License (CDL) provisions. The violation would be caused by masking of violations and record keeping requirements for convictions and license actions committed in any type of vehicle under 49 CFR Section 384, specifically, the provisions of §384.225(d), as adopted in Missouri under §302.347, RSMo, for offenses committed by those required to possess a CDL.

DOR noted that failure to comply with federal regulations under 49 CFR Section 384 could result in the loss of Federal-aid highway funds apportioned to the State, as defined in 49 CFR 384.401, with the first year of non-compliance resulting in a 4% reduction of federal funding, and each subsequent year subject to a 8% reduction. That proposal could result in the decertification under 49 CFR 384.405, resulting in Missouri not being able to issue CDL credentials.

DOR notes that this IP with its changes, would place Missouri's CDL program in a state of substantial noncompliance. This IP makes no exception for CDL holders and therefore, DOR would expect a loss of funding as delineated in 49 CFR 384.401:

49 CFR 384.401 Withholding of funds based on noncompliance.

(a) Following the first year of noncompliance. An amount up to 4 percent of the Federal-aid highway funds required to be apportioned to any State under each of sections 104(b)(1) and (2) of title 23 U.S.C. shall be withheld from a State on the first day of the fiscal year following such State's first year of noncompliance under this part.

(b) Following second and subsequent year(s) of noncompliance. An amount up to 8 percent of the Federal-aid highway funds required to be apportioned to any State under each of sections 104(b)(1) and (2) of title 23 U.S.C. shall be withheld from a State on the first day of the fiscal year following such State's second or subsequent year(s) of noncompliance under this part.

Assuming FMSCA CDL noncompliance by the state of Missouri and the amount of funding the state receives from these program, they estimate a loss in Year 1 of approximately \$42.5 million and \$85 million in Year 2 and beyond. As stated in the federal regulation, the withholding for noncompliance is done in the following fiscal year, therefore, FY 2026 will be year 1.

Additionally, that proposal was expected to result in the department violating §302.347, RSMo, which contains Missouri adopting federal record keeping requirements under 49 CFR Section 384 to report to the CDLIS (Commercial Driver's License Information System) all convictions and license actions committed in any type of vehicle for CDL holders or those required to possess a CDL. It should be noted that federal regulations and

state statutes consider a repeat offender to be any person who has been convicted of more than one impaired driving offence in five years. Missouri law denies a driver license for five years when this occurs. In addition, Missouri denies a driver license for 10 years to any person who has three or more impaired driving convictions in a lifetime. If a person is allowed to expunge these offenses these laws will not be enforceable. As such, the state may be ineligible to seek “Impaired Driving” federal grants.

Due to the passage of the IP making marijuana legal, the department is required to honor a court-ordered expungement of any marijuana-related driving offenses currently reflected on the driving record of qualifying individuals. This includes convictions for driving under the influence of drugs (DUID), driving while intoxicated (DWI), Minor in Possession and abuse and Lose suspensions and revocations and chemical related revocations. It excluded offenses committed by a CDL holder that are in violation of 49 CRR 390.5 or its successor provisions, from the expungement provisions.

DOR notes that one FTE can process approximately 50 court-ordered expungements per day. Which would be an increase in the number of expungements received by the department. The department had no current data or systematic way to determine how many of the over one million related actions are marijuana related and may require evaluation for expungement.

This IP (24-112), would require these ongoing expungements to be completed within 30 days of passage of this proposal. The department defers to the courts to determine if they can get any remaining expungements to them within that time frame.

It should be noted that the federal government has full discretion to withhold funding for non-compliance. At this time, DOR notes that additional withholdings for non-compliance with other DOT mode requirements could also happen. As an example, non-compliance with 49 CFR 350.309 regarding the MCSAP program, could result in the withholding of approximately \$10 million annually.

Officials from the **Department of Public Safety - Office of Director** indicated no impact for the Department of Public Safety, Director’s Office, however the Highway Patrol has an impact response.

Missouri State Highway Patrol - Impact and Concerns

3. Personal Cannabis Use. Subsection (h): “No one shall be denied employment solely based on their use of Cannabis.” The Patrol receives federal grants which are preconditioned on being a drug-free workplace. The Patrol must be able to maintain a drug free workplace to receive these federal funds. For example, the Patrol’s Crime Laboratory would lose over one million in federal funds each year if it cannot maintain a drug-free workplace. This is also an issue with the Medical Cannabis (5) subsection (b). Finally, under 3(i), the prohibitions against firearms sales are governed by the federal government and determined by the Federal Bureau of Investigation (FBI), and the National Instant Criminal Background Check System (NICS). Furthermore, the Patrol is not an eligibility provider for firearms sales, as this comes directly from NICS, or a Point of Contact (POC)

state, which Missouri is not. The Brady Act of 1993 established the federal firearm prohibitions.

5. Medical Cannabis. Subsection (b): “If an employee is a valid Cannabis patient ... the employee will be afforded sufficient time to medicate and a safe place to medicate.” This provision would make the Patrol ineligible for all federal grants, which requires the Patrol to maintain a drug-free workplace. Further, this section would create substantial liability in that any employee that also serves as a pilot or any Patrol member who must carry a firearm, operate a motor vehicle, or other machinery would be allowed to perform their official duties under the influence, which could result in substantial risk of harm to themselves and others. In addition, this would conflict with federal law as under the Controlled Substances Act cannabis/marijuana remains a Schedule I controlled substance.

7. Law Enforcement and the Courts. Subsection (b): “No Missouri law enforcement personnel or state funds shall be used to assist or aid in enforcement of Federal Cannabis laws . . .” endangers the Patrol’s relationship with other entities in that it regularly participates in multi-jurisdictional task forces which can involve federal enforcement actions related to cannabis. Due to the fluid nature of enforcement actions, it is always a possibility that cannabis trafficking might be involved in an enforcement action targeted at illegal activity as a result of a task force investigation, the only way for the Patrol to comply with this section is to withdraw from all task forces which involve federal partners. This withdrawal would significantly weaken relations that are necessary in the law enforcement community.

7. Law Enforcement and the Courts. Subsection (c): “Asset and/or Civil Forfeiture shall no longer be used in the state of Missouri in association with Cannabis, Cannabis cultivation, it’s use, possession . . .” would decrease funds to the Patrol that are received through sharing agreements with task force partnerships with other agencies, which always present the potential to involve enforcement actions where cannabis is part of the criminal conduct.

7. Law Enforcement and the Courts. Subsection (d): If passed and enacted, all persons incarcerated or under supervision of the Missouri Board of Probation or Parole for non-violent Cannabis offenses which are no longer illegal per this amendment shall be immediately released. It should be noted that “non-violent” is not defined. This will have an electronic and manual impact as it relates to criminal history reporting and the updating of dispositions within the Criminal History Record System maintained by the Central Repository. Not only will this affect the Patrol but will involve the Department of Corrections as well.

7. Law Enforcement and the Courts. Subsection (e): “Within 60 days . . . a legal document shall be developed and made available to the public ordering the immediate destruction of all Cannabis related non-violent civil and criminal records . . .” This subsection requires the immediate destruction of all cannabis related nonviolent civil and criminal records. Notably, the entity tasked with creation of the document is not named; however, the Patrol as the Central Repository for criminal records would need to process each record

destruction in order to effectuate the order. This will have significant manual research, processing, and administrative impact as it relates to expunging the offenses. There are estimated to be a minimum of 80,000 marijuana-related offense records in the Traffic Arrest System (TAS) alone. In addition, it should be noted that “non-violent” is not defined and destruction of such records would also remove access by law enforcement creating an officer safety concern.

The destruction in lieu of expunging and vacating records would dramatically increase the Patrol’s workload as the Patrol is the Central Repository for criminal records for the state of Missouri. Further, the state of Missouri shares its criminal records with other states, and it is improper according to federal rules and regulations to delete records unless state law permits record destruction. Here, the newly added language creates an inconsistency with the expungement process contained in Article XIV, section 2. While the expungement process in Article XIV, section 2 states that marijuana offenses are to be expunged and vacated, the newly added subsection orders document destruction, which could result in the FBI finding that the Patrol is not complying with its obligations related to the safeguarding and retention of criminal history information. Separately, the immediate destruction of all cannabis related records would create an unending task because records would need to be individually reviewed to determine if it is “cannabis related”, which is subjective question entailing legal analysis. Further, the Criminal Record Repository holds millions of records. Therefore, the Patrol would have to review all criminal history records, which would require information gathering and research into records not kept at the Patrol such as court records to then determine eligibility. The Patrol might then need to appeal orders which do not have a legal basis or perhaps to challenge if an offense involved violence.

1. Fiscal Impact for the Missouri State Highway Patrol

Patrol Records Division:

4 FTE - PRD Program Supervisor - Salary \$241,728 - Fringe \$217,483 - Total \$459,211

42 PTE - Salary \$685,020

Expense and Equipment: \$73,600

Leased Space: \$89,000

Division Total: **\$ 1,306,831**

Criminal Justice Information Services Division:

8 FTE - CJIS Technician III - Salary \$389,952 - Fringe \$350,840 - Total \$740,792

1 CJIS Program Supervisor - Salary \$60,432 - Fringe \$54,371 - Total \$114,803

Expense and Equipment: \$14,400

Division Total: **\$869,995**

Professional Standards Division:

3 FTE - Internal Affairs Investigators - Salary \$323,784 - Fringe \$293,413 - Total \$617,197

Expense and Equipment: \$250,655 (Ongoing: \$65,478)

Division Total: **\$867,852**

Legal Counsel:

2 FTE - Attorney - Salary \$215,856 - Fringe \$194,206 - Total \$410,062

1 FTE - Paralegal - Salary \$87,168 - Fringe \$78,425 - Total \$165,593

Expense and Equipment: \$4,800

Component Total - **\$580,455**

Federal Spending Authority Elimination (Federal to State Fund Switch):

Personal Services (PS): \$13,703,647 (Includes 26 FTE)

Expense and Equipment (EE): \$14,581,482

Total: **\$28,285,129**

Drug Forfeiture Fund Elimination:

Total: **\$416,499**

Total cost for the Missouri State Highway Patrol, to include additional FTE and the switch from Federal to State funds: \$31,910,262. This is an annual amount. This amount would be required yearly as a replacement of the federal funds currently received to fund the Patrol's activities. The Highway Patrol would request the new funding during the budget process. The Legislature would decide if the request would be funded with new funds, existing funds, or not funded at all.

3. Final Concerns and Statistics

In addition to the fiscal impact, the following are some additional concerns, and statistics from other states the Patrol has compiled for information related to this petition:

In 2009, Colorado traffic fatalities involving drivers testing positive for marijuana represented 9% of the total traffic fatalities. Recreational marijuana use was legalized in 2012. By 2019, that number more than doubled to 21%.

Since recreational marijuana was legalized in 2013, Colorado traffic deaths in which drivers tested positive for marijuana increased 135% while all Colorado traffic deaths increased 24%.

Marijuana-related deaths when a driver tested positive for marijuana more than doubled from 55 deaths in 2013 to 129 deaths in 2019.

The yearly number of marijuana related hospitalizations increased 101% after the legalization of marijuana, (2009-2017).

Colorado's youth marijuana use for 2020 was 43% higher than the national average.

The average THC levels in marijuana has increased significantly over the years: 1969-0.8%, 1995-4%, 2013-13%, 2017-20+%, Oil, 1995-13%, 2013-52%, highest plant 38%, highest oil 95%+.

Medical marijuana has been legal in the state of Colorado since 2000. On November 12, 2012, the state of Colorado passed Amendment 64, which legalized private use of marijuana. Per the Colorado State Patrol's driving under the influence statistics, marijuana DUI citations increased 25.5% from 2014 to 2018 and marijuana and alcohol citations increased 112% in the same time range. As marijuana becomes legalized, its use increases.

The three years after Colorado legalized marijuana for recreational use (2013-2015), its use increased in youth ages 12-17, by 12%, in young adults aged 18-25 by 16%, and adults 26 and older by 71%. By removing the recommended acceptable ages of use, zoning regulations, packaging, and advertising of cannabis/marijuana, the risk of use and abuse of marijuana by the youth of Missouri is substantially increased. This category of Missourians, who recent studies have shown significant long-term cognitive impairment when marijuana is ingested during the developmental years, would be affected.

In a 2013-2014 National Highway Traffic Safety Administration (NHTSA) roadside survey, 20% of the nighttime and weekend drivers tested positive for drugs. Interestingly, the number of daytime drugged drivers was approximately the same amount as night and weekend drugged drivers. A roadside study in Colorado and Washington, the first two states to legalize marijuana for recreational use, showed the primary increase of marijuana users happened to their daytime drivers. The percent of drivers that tested positive for marijuana during the day went from 8%, before recreational marijuana sales, to 23%, 6-12 months after marijuana was legalized. There was a 48% increase in weekend nighttime drivers testing positive for THC or 11-OH-THC (an active metabolite of THC) from 2007 to 2014.

Montana legalized medical marijuana in 2004 and from 2007-2010, the presence of marijuana in DUI suspects increased over 100%. Also, the number of DUI suspects who tested positive for alcohol and marijuana increased by over 180%.

This initiative petition will remove cannabis/marijuana from Missouri Revised Statutes and creates conflict with both Federal and State laws, such as the use or possession of a firearm, and would conflict and violate federal law.

The petition process is not defined, and the proposal does not identify the agencies that are to expunge the records. Plus, it does not identify if expunge means to destroy or close the record.

The authority to submit fingerprints to the FBI for a federal fingerprint based criminal record check is not authorized through the Initiative Petition process. Federal fingerprint based criminal record checks authorized under Public Law 92-544 can only be approved under a state statute that has gone through the full legislative process.

As the Patrol has officers assigned to federal task forces that may be involved in a federal drug operation, there are concerns over potential civil litigation resulting from these types of operations, as marijuana is still classified as a Schedule I controlled substance, and illegal under federal law.

The Patrol operates in accordance with the Drug-Free Workplace Act of 1988, which requires a drug testing program. This program tests potential employees as well as random testing for incumbent employees in enforcement, and drug sensitive areas.

If passed, this petition will conflict with Federal and State laws, such as the use or possession of a firearm. Cannabis/marijuana causes impairment and is not a suitable drug to be used in various safety sensitive positions in the workforce, therefore strong language protecting employers is suggested. The workforce which could be affected would include any position where safety is a must, such as operating a motor vehicle, operating heavy machinery, and all aspects of public safety.

There is no language as to where the cannabis/marijuana may remain, such as any cannabis/marijuana purchased or grown in Missouri must remain in Missouri. While this is a federal offense, a lack of this type of language may allow Missouri cannabis/marijuana facilities to distribute cannabis/marijuana outside of the state or allow other states to distribute their cannabis/marijuana in Missouri. A lack of such language could lead to Missouri being a distribution state for states where cannabis/marijuana remains illegal.

For further consideration, as the legalization or decriminalization of cannabis/marijuana has increased in the past several years, so have the crashes and deaths on highways. Blood screenings on drivers in serious injury and fatal crashes have shown a staggering increase in drivers who have cannabis/marijuana within their system at the time of the crash.

Officials from the **Missouri Department of the National Guard** indicated no fiscal impact to their department.

Officials from the **Department of Social Services** indicated no fiscal impact to their department as a result of this petition.

Officials from the **Governor's office** indicated this proposal relating to cannabis does not financially impact their office.

Officials from the **House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated initiative petition 24-112 will have no fiscal impact on their department.

Officials from the **Department of Transportation** indicated:

This fiscal impact of Initiative Petition 24-112 is the same as 24-111. Please see below:

Possible variances exist between the proposed initiative petition language and Federal Motor Carrier Safety Regulations (FMCSR). If a variance between Missouri State law and the FMCSRs were to exist, Federal Motor Carrier Safety Administration Program funds would be placed at risk.

As long as marijuana/cannabis appears on the Federal Schedule I list of controlled substances, Missouri must adhere to Title 49 CFR Parts 391 and 392.

Title 49 CFR Part 391.15 addresses disqualification of drivers (CDL and non-CDL CMV drivers). A driver who is convicted of a disqualifying offense is disqualified for one year from the date of conviction for first offenders and 3 years after the date of conviction if during the previous 3 years preceding the conviction date the driver was convicted of a disqualifying offense.

A CMV driver convicted of possession of marijuana while on duty is a disqualified driver. There is no minimum amount to be disqualified. Possession of any amount of any controlled substance is disqualifying. This is true whether it is legal for recreational use at the State level or legally prescribed medication.

Finally, 49 CFR 392.4 prohibits drivers from possessing and/or being under the influence of a Schedule 1 Substance, this does not exempt medical marijuana or recreational marijuana possessed legally in a state. Erasing prior marijuana possession misdemeanor convictions from CMV drivers could allow disqualified drivers to drive.

Missouri's share of Federal MCSAP Funding for FY 2024 is \$10,468,288 million.

When variances with 391 and 392 exist, MCSAP funding can be withheld as follows:

5 percent - \$523,414 – during the fiscal year that FMCSA notifies the State of non-compliance;

10 percent - \$1,046,828 – during the first full fiscal year of non-compliance;

25 percent - \$2,617,072 – during the second full fiscal year of non-compliance; and

Not more than 50 percent, or \$5,234,144 for the third and any subsequent full fiscal year of noncompliance.

MoDOT's initial fiscal impact response is based on the compliance concerns with MCSAP funding as referenced in DOR's final paragraph, of which Missouri's share is \$10,468,288 million in FY 2024. These MCSAP funds are different from potential withholding of federal-aid highway funds referenced in the first part of DOR's response. The separate amount for MoDOT's federal aid apportionment is explained below.

The risk of a potential variance subject to CFR 49 Part 384 may jeopardize MoDOT's federal aid apportionment. Given the ambiguity related to the enforcement provisions of this IP, however, it is impractical to suggest how this language may be applied to commercial driver's license standards. If a variance is confirmed that puts the Department of Revenue substantially out of compliance with the federal regulation, it is estimated that a first year penalty reduction of \$42.5 million would be assessed. A penalty of \$85 million would follow for year two and any subsequent years for continued non-compliance.

Officials from the **Office of Administration** indicated this proposal relating to cannabis does not financially impact their department.

Officials from the **Office of State Courts Administrator** indicated the initiative petition proposing to amend Article XIV, henceforth to be called Missouri Cannabis Restoration, explicitly repeals, in part and/or in whole, Article XIV (14), Section 1 and Section 2.

The fiscal impact would be between \$4,908,484 and \$12,608,484 million to an unknown amount based on the definition of a "record". Any significant changes will be reflected in future budget requests.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be \$10 million based on the cost of the 2022 primary and general election reimbursements.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions

certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

For the FY22 petitions cycle, their office estimates publication costs at \$70,000 per page. This amount is subject to change based on number of petitions received, length of those petitions and rates charged by newspaper publishers.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated initiative petition 24-112 could have a fiscal impact on State Public Defender (SPD). SPD has received a distribution in the fiscal year (FY) 24 budget for 1.2 million from recreational marijuana tax for the provision of legal services to indigent persons. If medical marijuana is not taxed then the amount of funds collected, and distributed to SPD via Amendment 3, from the recreational marijuana tax could decrease. The amount of this decrease is unknown.

Officials from the **State Treasurer's office** indicated no fiscal impact to their office.

Officials from **Clay County** indicated they estimate no fiscal impact as a result of this initiative.

Officials from **Greene County** indicated that in reviewing initiative petition 24-112 it has been determined there will be an increased cost to their county due to the additional hours required to expunge the cases that are not currently included in the marijuana cases presently being expunged as a result of the passage of Amendment 3 in 2022 if voters vote to again amend Article XIV.

The Office of the Circuit Clerk for their county responded that it will, *“take an additional **34,200 hours** at a cost of **\$860,000** to expunge the additional cases,”* included in this petition based on current 2023 costs. The assessment included *“only hours/dollars spent in the Circuit Clerk's budget.”*

This is due to the following reasons:

*“The Missouri Constitutional Article XIV. does not allow expungement of cases involving 1. driving under the influence 2. distribution to a minor 3. for people who were under the age of 21 when charged. We would have to review all cases to find these additional potentially qualifying cases. That would require manually reviewing about **190,000 cases back to 1971**. We took a small sample that suggested about 7,600 of these would require expungement.”*

Officials from **St. Louis County** indicated that if "9. Existing and conflicting Local, State and Federal Law" on page 6 removes the 3% sales tax on all tangible personal property retail sales of adult use marijuana sold in their county, the fiscal impact is estimated to be at least \$3 million. The fiscal impact on the operations of the Department of Public Health is unknown.

Officials from the **City of Kansas City** indicated the initiative petition could have a negative fiscal impact on their city as a result of lost tax revenue.

Officials from **Metropolitan Community College** indicated no fiscal impact to their college.

Officials from **St. Louis Community College** indicated they have reviewed the proposed initiative and determined that the wording does not result in any cost savings or revenue implications. They did not address any indirect consequences of the proposed initiative.

Officials from **University of Central Missouri** indicated they have reviewed the proposed legislation and have determined that as written it should not create expenses in excess of \$100,000.

Officials from the **Missouri Veterans Commission** indicated the following:

MISSOURI VETERANS COMMISSION

205 Jefferson Street, P.O. Drawer 147, Jefferson City, MO 65102-0147
Telephone: (573) 751-3779 www.mvc.dps.mo.gov Fax: (573) 751-6836

May 22, 2023

The Honorable John R. Ashcroft
Secretary of State
600 W. Main Street
Jefferson City, MO 65101

Dear Secretary of State Ashcroft,

Initiative Petition 2024-112 (hereinafter, the Petition) would have a significant fiscal impact to the Missouri Veterans Commission (MVC). Under the existing medical marijuana program (Article XIV, para. 4 of the Missouri Constitution), we anticipate receiving approximately \$13,000,000 in annual transfer appropriations from the tax revenues generated from the retail sales of medical marijuana. The Petition would eliminate that tax. Further, under the existing non-medical (adult use) marijuana program, MVC anticipates receiving approximately \$1,278,973 in annual transfer appropriations from the tax revenues generated from the retail sales from the adult use program. The Petition would seemingly leave that tax in place, but clearly MVC would suffer a drastic reduction nonetheless.

Furthermore, in paragraphs 8 and 9, the petition essentially requires the state to lift all legal detriments, whether state or federal, upon those who use marijuana products. Annually, MVC receives between \$59 million and \$75 million in per diem payments through the VA State Veterans Homes Per Diem Grant Program. If MVC does not comply with federal regulations, which currently require us to maintain a drug-free workplace, MVC would lose all of its federal funding and may lose its Recognition and Certification as a VA State Skilled Care Home. Moreover, the loss of recognition and certification as a VA State Skilled Care Home would invoke 38 CFR §59.110, the "recapture provisions" of the VA State Veterans Homes Per Diem Grant Program. Under this regulation, the VA may recover federal construction grant funds issued to the state if the facility does not maintain services previously specified in the construction MOU between VA and MVC for a period of 20 years. This would affect most of MVC's facilities. Based on average revenue received from the federal government for construction projects, and accounting for the previous 20 years, we anticipate a potential "recapture of \$260 million.

In closing, Initiative Petition 2022-112 will adversely affect the ability of the Missouri Veterans Commission to serve the veterans of Missouri for the reasons set forth above. If I can be of any further assistance on this issue, please contact me at (573) 522-4224 at your convenience.

Sincerely,

A handwritten signature in cursive script, appearing to read "Scotty L. Allen".

Scotty L. Allen
General Counsel
Missouri Veterans Commission

In response to a question, commission officials indicated legally, it is very clear that the state could lose this funding. Whether or not the VA actually exercised its right to recoup its funding, they indicated would depend upon the administration in power at the time.

Officials from the **Kansas City Board of Police Commissioners** indicated the Board of Police Commissioners (BOPC), Kansas City Police Department (KCPD) has no estimated cost or savings that is affected by this petition initiative.

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County, the City of Cape Girardeau, the City of Columbia, the City of Jefferson, the City of Joplin, the City of Kirksville, the City of Mexico, the City of Raymore, the City of St. Joseph, the City of St. Louis, the City of Springfield, the City of Union, the City of Wentzville, the City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, University of Central Missouri, Harris-Stowe State University, Lincoln University, Missouri State University, Missouri Southern State University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University, Truman State University, Missouri Office of Prosecution Services, and the Metropolitan Police Department - City of St. Louis.**

Fiscal Note Summary

State governmental entities estimate one-time costs of \$260 million and annual lost revenue of at least \$277.3 million. Businesses could annually pay an additional \$1 billion in federal unemployment taxes causing an unknown negative impact on the state's economy. Local governments are estimated to have annual lost revenue of at least \$40.9 million.

STATE AUDITORS OFFICE

RE: Petition approval request from Mark Pedersen regarding a proposed constitutional amendment to Article XIV (2024-111)

Dear Auditor Fitzpatrick:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Mark Pedersen on April 28, 2023.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

It is a class A misdemeanor punishable, notwithstanding the provisions of section 560.021, RSMo, to the contrary, for a term of imprisonment not to exceed one year in the county jail or a fine not to exceed ten thousand dollars or both, for anyone to sign any initiative petition with any name other than his or her own, or knowingly to sign his or her name more than once for the same measure for the same election, or to sign a petition when such person knows he or she is not a registered voter.

INITIATIVE PETITION

To the Honorable John R. Ashcroft, Secretary of State for the state of Missouri:

We, the undersigned, registered voters of the state of Missouri and _____ County (or city of St. Louis), respectfully order that the following proposed amendment to the constitution shall be submitted to the voters of the state of Missouri, for their approval or rejection, at the general election to be held on the 5th day of November, 2024, and each for himself or herself says: I have personally signed this petition; I am a registered voter of the state of Missouri and _____ County (or city of St. Louis); my registered voting address and the name of the city, town or village in which I live are correctly written after my name.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

This measure amends the Missouri Constitution by amending Article XIV (14), henceforth to be called Missouri Cannabis Restoration. This amendment explicitly repeals, in part and/or in whole, Amending Article XIV (14), Section 1 and Section 2, by deleting all matters within the enclosed brackets and adding all that is underlined as required pursuant to Section 116.050 RSMo.

[XIV Section 1. Right to access medical marijuana. — 1. Purposes.]

XIV Section 1. Missouri Cannabis Restoration.

1. Clarification as a substance.

[This section is intended to permit state-licensed physicians and nurse practitioners to recommend marijuana for medical purposes to patients with serious illnesses and medical conditions. The section allows patients with qualifying medical conditions the right to discuss freely with their physicians and nurse practitioners the possible benefits of medical marijuana use, the right of their physicians and nurse practitioners to provide professional advice concerning the same, and the right to use medical marijuana for treatment under the supervision of a physician or nurse practitioner.

This section is intended to make only those changes to Missouri laws that are necessary to protect patients, their primary caregivers, and their physicians and nurse practitioners from civil and criminal penalties, and to allow for the limited legal production, distribution, sale and purchase of marijuana for medical use. This section is not intended to change current civil and criminal laws governing the use of marijuana for nonmedical purposes. The section does not allow for the public use of marijuana and driving under the influence of marijuana.]

Cannabis shall immediately be removed from the Missouri Revised Statutes list of controlled substances and shall no longer be listed among Missouri's drug schedules. Cannabis shall hence forth be considered a food and not a controlled substance or a drug, by Missouri law, by the passage of this initiative.

[2. Definitions.] 2. Definitions.

(1) "Administer" means the direct application of marijuana to a qualifying patient by way of any of the following methods:

- (a) Ingestion of capsules, teas, oils, and other marijuana-infused products;
- (b) Vaporization or smoking of dried flowers, buds, plant material, extracts, oils, and other marijuana-infused products;
- (c) Application of ointments or balms;
- (d) Transdermal patches and suppositories;
- (e) Consuming marijuana-infused food products; or
- (f) Any other method recommended by a qualifying patient's physician or nurse practitioner.

(2) "Church" means a permanent building primarily and regularly used as a place of religious worship.

(3) "Daycare" means a child-care facility, as defined by section 210.201, RSMo, or successor provisions, that is licensed by the state of Missouri.

(4) "Department" means the department of health and senior services, or its successor agency.

(5) "Entity" means a natural person, corporation, professional corporation, nonprofit corporation, cooperative corporation, unincorporated association, business trust, limited liability company, general or limited partnership, limited liability partnership, joint venture, or any other legal entity.

(6) "Flowering plant" means a marijuana plant from the time it exhibits the first signs of sexual maturity through harvest.

(7) "Infused preroll" means a consumable or smokable marijuana product, generally consisting of: (1) a wrap or paper, (2) dried flower, buds, and/or plant material, and (3) a concentrate, oil or other type of marijuana extract, either within or on the surface of the product. Infused prerolls may or may not include a filter or crutch at the base of the product.

(8) "Marijuana" or "marihuana" means Cannabis indica, Cannabis sativa, and Cannabis ruderalis, hybrids of such species, and any other strains commonly understood within the scientific community to constitute marijuana, as well as resin extracted from the marijuana plant and marijuana-infused products. "Marijuana" or "marihuana" do not include industrial hemp, as defined by Missouri statute, or commodities or products manufactured from industrial hemp.

(9) "Marijuana-infused products" means products that are infused, dipped, coated, sprayed, or mixed with marijuana or an extract thereof, including, but not limited to, products that are able to be vaporized or smoked, edible products, ingestible products, topical products, suppositories, and infused prerolls.

(10) "Medical facility" means any medical marijuana cultivation facility, medical marijuana dispensary facility, or medical marijuana-infused products manufacturing facility, as defined in this section.

(11) "Medical marijuana cultivation facility" means a facility licensed by the department to acquire, cultivate, process, package, store on site or off site, transport to or from, and sell marijuana, marijuana seeds, and marijuana vegetative cuttings (also known as clones) to a medical marijuana dispensary facility, medical marijuana testing facility, medical marijuana cultivation facility, or to a medical marijuana-infused products manufacturing facility. A medical marijuana cultivation facility's authority to process marijuana shall include the production and sale of prerolls, but shall not include the manufacture of marijuana-infused products.

(12) "Medical marijuana dispensary facility" means a facility licensed by the department to acquire, process, package, store on site or off site, sell, transport to or from, and deliver marijuana, marijuana seeds, marijuana vegetative cuttings (also known as clones), marijuana-infused products, and drug paraphernalia used to administer marijuana as provided for in this section to a qualifying patient, a primary caregiver, anywhere on the licensed property or to any address as directed by the patient or primary caregiver, so long as the address is a location allowing for the legal possession of marijuana, another medical marijuana dispensary facility, a marijuana testing facility, a medical marijuana cultivation facility, or a medical marijuana-infused products manufacturing facility. Dispensary facilities may receive transaction orders at the dispensary in person, by phone, or via the internet, including from a third party. A medical marijuana dispensary facility's authority to process marijuana shall include the production and sale of prerolls, but shall not include the manufacture of marijuana-infused products.

(13) "Medical marijuana-infused products manufacturing facility" means a facility licensed by the department to acquire, process, package, store on site or off site, manufacture, transport to or from, and sell marijuana-infused products to a medical marijuana dispensary facility, a marijuana testing facility, a medical marijuana cultivation facility, or to another medical marijuana-infused products manufacturing facility.

(14) "Marijuana testing facility" means a facility certified by the department to acquire, test, certify, and transport marijuana, including those originally licensed as a medical marijuana testing facility.

(15) "Medical use" means the production, possession, delivery, distribution, transportation, or administration of marijuana or a marijuana-infused product, or drug paraphernalia used to administer marijuana or a marijuana-infused product, for the benefit of a qualifying patient to mitigate the symptoms or effects of the patient's qualifying medical condition.

(16) "Nurse practitioner" means an individual who is licensed and in good standing as an advanced practice registered nurse, or successor designation, under Missouri law.

(17) "Owner" means an individual who has a financial (other than security interest, lien, or encumbrance) or voting interest in ten percent or greater of a marijuana facility.

(18) "Physician" means an individual who is licensed and in good standing to practice medicine or osteopathy under Missouri law.

(19) "Physician or nurse practitioner certification" means a document, whether handwritten, electronic or in another commonly used format, signed by a physician or a nurse practitioner and stating that, in the physician's or nurse practitioner's professional opinion, the patient suffers from a qualifying medical condition.

(20) "Preroll" means a consumable or smokable marijuana product, generally consisting of: (1) a wrap or paper and (2) dried flower, buds, and/or plant material. Prerolls may or may not include a filter or crutch at the base of the product.

(21) "Primary caregiver" means an individual twenty-one years of age or older who has significant responsibility for managing the well-being of a qualifying patient and who is designated as such on the primary caregiver's application for an identification card under this section or in other written notification to the department.

(22) "Qualifying medical condition" means the condition of, symptoms related to, or side-effects from the treatment of:

- (a) Cancer;
- (b) Epilepsy;
- (c) Glaucoma;
- (d) Intractable migraines unresponsive to other treatment;
- (e) A chronic medical condition that causes severe, persistent pain or persistent muscle spasms, including but not limited to those associated with multiple sclerosis, seizures, Parkinson's disease, and Tourette's syndrome;
- (f) Debilitating psychiatric disorders, including, but not limited to, posttraumatic stress disorder, if diagnosed by a state licensed psychiatrist;
- (g) Human immunodeficiency virus or acquired immune deficiency syndrome;
- (h) A chronic medical condition that is normally treated with a prescription medication that could lead to physical or psychological dependence, when a physician or nurse practitioner determines that medical use of marijuana could be effective in treating that condition and would serve as a safer alternative to the prescription medication;
- (i) Any terminal illness; or
- (j) In the professional judgment of a physician or nurse practitioner, any other chronic, debilitating or other medical condition, including, but not limited to, hepatitis C, amyotrophic lateral sclerosis, inflammatory bowel disease, Crohn's disease, Huntington's disease, autism, neuropathies, sickle cell anemia, agitation of Alzheimer's disease, cachexia, and wasting syndrome.

(23) "Qualifying patient" means an individual diagnosed with at least one qualifying medical condition.

(24) "Unduly burdensome" (when referring to a facility licensee or certificate holder) means the measures necessary to comply with the rules or ordinances adopted pursuant to this section subject the party to such a high investment or expense of money, time, or any other resource or asset that a reasonably prudent businessperson would not operate the facility; and (when referring to qualifying

patients, primary caregivers, physicians, nurse practitioners, or other party) "unduly burdensome" means the measures necessary to comply with the rules or ordinances adopted pursuant to this section undermine the purpose of this section.]

- (a) "Controlled Substance List", or "CSL" refers to Missouri's list of controlled substances as it pertains to Missouri Statutes.
- (b) "Cannabis" and "Cannabis hemp" refer to Cannabis, marihuana, marijuana, Cannabis sativa, Cannabis sativa L., Cannabis Americana, Cannabis Gigantea, Cannabis indica, Cannabis ruderalis, or any variety of Cannabis including any derivative, concentrate, extract, flower, leaf, particle, preparation, resin, root, salt, seed, stalk, stem, or any product thereof.
- (c) "Medical Cannabis" refers to Cannabis used to prevent or to treat a medical condition.
- (d) "Personal use" refers to the personal use or private, non-commercial use and/or consumption of Cannabis.
- (e) "Cannabis accessories" means any equipment, products, or materials of any kind that are used, intended for use, or designed for use in planting, propagating, cultivating, growing, harvesting, manufacturing, compounding, converting, producing, processing, preparing, testing, analyzing, packaging, repackaging, storing, or containing of Cannabis, and/or ingesting, inhaling, vaporizing, smoking or otherwise introducing of Cannabis into and/or onto the human body.
- (f) "Establishment" refers to a cultivation facility, a testing facility, a product manufacturing facility, or a retail store, or other entity that cultivates, prepares, manufactures, packages, transports or sells Cannabis food products and/or accessories.
- (g) Cannabis COOPS refer to private and/or public groups of family, friends or neighbors who work together to grow medicinal and/or personal use Cannabis, and the production of Cannabis components and/or accessories.
- (h.) An Excise tax is a "sin tax"; a tax imposed on a commodity for which the community, county, state or Federal Government wishes to discourage it's use.

13. Creating Patient Access to Medical Marijuana.] **3. Personal Cannabis Use.**

[(1) In carrying out the implementation of this section, the department shall have the authority to:

- (a) Grant or refuse state licenses and certifications for the cultivation, manufacture, dispensing, sale, testing, tracking, and transportation of marijuana and marijuana-infused products for medical use, as provided by this section and general law; suspend, impose an authorized fine, restrict, or revoke such licenses and certifications upon a violation of this section, general law, or a rule promulgated pursuant to this section; and impose any administrative penalty authorized by this section or any general law enacted or rule promulgated pursuant to this section, so long as any procedure related to a suspension or revocation includes a reasonable cure period, not less than thirty days, prior to the suspension or revocation, except in instances where there is a credible and imminent threat to public health or public safety.
- (b) Promulgate rules and emergency rules necessary for the proper regulation and control of the cultivation, manufacture, dispensing, and sale of marijuana for medical use and for the enforcement of this section so long as patient access is not restricted unreasonably and such rules are reasonably necessary for patient safety or to restrict access to only licensees and qualifying patients.
- (c) Develop such forms, certificates, licenses, identification cards, and applications as are necessary for, or reasonably related to, the administration of this section or any of the rules promulgated under this section.
- (d) Require a seed-to-sale tracking system that tracks medical marijuana from either the seed or immature plant stage until the medical marijuana or medical marijuana-infused product is sold to a qualifying patient or primary caregiver to ensure that no medical marijuana grown by a medical marijuana cultivation facility or manufactured by a medical marijuana-infused products manufacturing facility is sold or otherwise transferred except by a medical marijuana dispensary facility. The department shall certify, if possible, at least two commercially available systems to licensees as compliant with its tracking standards and issue standards for the creation or use of other systems by licensees.
- (e) Issue standards for the secure transportation of marijuana and marijuana-infused products. The department shall certify entities which demonstrate compliance with its transportation standards to transport marijuana and marijuana infused products to or from a medical marijuana cultivation facility, a medical marijuana-infused products manufacturing facility, a medical marijuana dispensary facility, a marijuana testing facility, or another entity with a transportation certification. The department shall develop or adopt from any other governmental agency such safety and security standards as are reasonably necessary for the transportation of marijuana and marijuana-infused products. Any entity licensed or certified pursuant to this section shall be allowed to transport and store marijuana, marijuana seeds, marijuana vegetative cuttings (also known as clones) and marijuana-infused products for purposes related to transportation in compliance with department regulations on storage of marijuana and marijuana-infused products.
- (f) The department may charge a fee not to exceed \$5,000 for any certification issued pursuant to this section.
- (g) Prepare and transmit annually a publicly available report accounting to the governor for the efficient discharge of all responsibilities assigned to the department under this section.
- (h) Establish a lottery selection process to select medical marijuana licensee and certificate applicants, only in cases where more applicants apply than the minimum number of licenses or certificates as calculated by this section. To be eligible for the medical marijuana license lottery process, an applicant cannot have an owner who has pleaded or been found guilty of a disqualifying felony. A "disqualifying felony offense" is a violation of, and conviction or guilty plea to, state or federal law that is, or would have been, a felony under Missouri law, regardless of the sentence imposed, unless the department determines that:
 - a. The person's conviction was for a marijuana offense, other than provision of marijuana to a minor; or
 - b. The person's conviction was for a non-violent crime for which he or she was not incarcerated and that is more than five years old; or
 - c. More than five years have passed since the person was released from parole or probation, and he or she has not been convicted of any subsequent felony criminal offenses.

The department may consult with and rely on the records, advice, and recommendations of the attorney general and the department of public safety, or their successor entities, in carrying out the provisions of this subdivision.

In establishing a lottery selection process to select medical marijuana licensee and certificate applicants and awarding licenses and certificates, the department may consult or contract with other public agencies with relevant expertise. The department shall lift or ease any limit on the number of licensees or certificate holders in order to meet the demand for marijuana for medical use by qualifying patients.

(2) The department shall issue any rules or emergency rules necessary for the implementation and enforcement of this section and to ensure the right to, availability, and safe use of marijuana for medical use by qualifying patients. In developing such rules or emergency rules, the department may consult with other public agencies. In addition to any other rules or emergency rules necessary to carry out the mandates of this section, the department may issue rules or emergency rules relating to the following subjects:

- (a) Compliance with, enforcement of, or violation of any provision of this section or any rule issued pursuant to this section, including procedures and grounds for denying, suspending, imposing an authorized fine, and restricting, or revoking a state license or certification issued pursuant to this section, so long as any procedure related to a suspension or revocation includes a reasonable cure period, not less than thirty days, prior to the suspension or revocation, except in instances where there is a credible and imminent threat to public health or public safety;
- (b) Specifications of duties of officers and employees of the department;
- (c) Instructions or guidance for local authorities and law enforcement officers;
- (d) Requirements for inspections, investigations, searches, seizures, and such additional enforcement activities as may become necessary from time to time;
- (e) As otherwise authorized by this section or general law, administrative penalties and policies for use by the department;
- (f) Prohibition of misrepresentation and unfair practices;
- (g) Control of informational and product displays on licensed premises provided that the rules may not prevent or unreasonably restrict appropriate signs on the property of the medical marijuana dispensary facility, product display and examination by the qualifying patient and/or primary caregiver, listings in business directories including phone books, listings in marijuana-related or medical publications, or the sponsorship of health or not for profit charity or advocacy events. While the department shall have the general power to regulate the advertising and promotion of marijuana sales, under all circumstances, any such regulation shall be no more stringent than comparable state regulations on the advertising and promotion of alcohol sales;
- (h) Development of individual identification cards for owners, officers, managers, contractors, employees, and other support staff of entities licensed or certified pursuant to this section, including a fingerprint-based federal and state criminal record check in accordance with U.S. Public Law 92-544, or its successor provisions, as may be required by the department prior to issuing a card and procedures to ensure that cards for new applicants are issued within fourteen days. Applicants licensed pursuant to this section shall submit fingerprints to the Missouri state highway patrol for the purpose of conducting a state and federal fingerprint-based criminal background check. The Missouri state highway patrol, if necessary, shall forward the fingerprints to the Federal Bureau of Investigation (FBI) for the purpose of conducting a fingerprint-based criminal background check. Fingerprints shall be submitted pursuant to section ~~43.543~~, RSMo, or its successor provisions, and fees shall be paid pursuant to section ~~43.530~~, RSMo, or its successor provisions. Unless otherwise required by law, no individual shall be required to submit fingerprints more than once;
- (i) Security requirements for any premises licensed or certified pursuant to this section, including, at a minimum, lighting, physical security, video, alarm requirements, and other minimum procedures for internal control as deemed necessary by the department to properly administer and enforce the provisions of this section, including reporting requirements for changes, alterations, or modifications to the premises;
- (j) Regulation of the storage of, warehouses for, and transportation of marijuana for medical use;
- (k) Sanitary requirements for, including, but not limited to, the preparation of medical marijuana-infused products;
- (l) The specification of acceptable forms of picture identification that a medical marijuana dispensary facility may accept when verifying a sale;
- (m) Labeling and packaging standards;
- (n) Records to be kept by licensees and the required availability of the records;

- (o) State licensing procedures, including procedures for renewals, reinstatements, initial licenses, and the payment of licensing fees;
 - (p) The reporting and transmittal of tax payments;
 - (q) Authorization for the department of revenue to have access to licensing information to ensure tax payment and the effective administration of this section; and
 - (r) Such other matters as are necessary for the fair, impartial, stringent, and comprehensive administration of this section.
- (3) The department shall issue rules or emergency rules for a medical marijuana and medical marijuana-infused products independent testing and certification program for medical marijuana licensees and requiring licensees to test medical marijuana using one or more impartial, independent laboratories to ensure, at a minimum, that products sold for human consumption do not contain contaminants that are injurious to health, to ensure correct labeling and measure potency. The department shall not require any medical marijuana or medical marijuana-infused products to be tested more than once prior to sale.
- (4) The department shall issue rules or emergency rules to provide for the certification of and standards for marijuana testing facilities, including the requirements for equipment and qualifications for personnel, but shall not require certificate holders to have any federal agency licensing or have any relationship with a federally licensed testing facility. The department shall certify, if possible, at least two entities as marijuana testing facilities. No marijuana testing facility shall be owned by an entity or entities under substantially common control, ownership, or management as a medical marijuana cultivation facility, medical marijuana-infused product manufacturing facility, or medical marijuana dispensary facility.
- (5) Any information released by the department related to patients may only be for a purpose authorized by federal law and this section, including verifying that a person who presented a patient identification card to a state or local law enforcement official is lawfully in possession of such card. Beginning December 8, 2022, all public records produced or retained pursuant to this section are subject to the general provisions of the Missouri Sunshine Law, [chapter 610, RSMo](#), or its successor provisions. Notwithstanding the foregoing, records containing proprietary business information obtained from an applicant or licensee shall be closed. For documents submitted on or after December 8, 2022, the applicant or licensee shall label business information it believes to be proprietary prior to submitting it to the department. For documents submitted prior to December 8, 2022, the applicant or licensee may advise the department, through a department approved process, of any records previously submitted by the applicant or licensee it believes contain proprietary business information. Proprietary business information shall include sales information, financial records, tax returns, credit reports, license applications, cultivation information unrelated to product safety, testing results unrelated to product safety, site security information and plans, and individualized consumer information. The presence of proprietary business information shall not justify the closure of public records:
- (a) Identifying the applicant or licensee;
 - (b) Relating to any citation, notice of violation, tax delinquency, or other enforcement action;
 - (c) Relating to any public official's support or opposition relative to any applicant, licensee, or their proposed or actual operations;
 - (d) Where disclosure is reasonably necessary for the protection of public health or safety; or
 - (e) That are otherwise subject to public inspection under other applicable law.
- (6) Within one hundred eighty days of December 6, 2018, the department shall make available to the public license application forms and application instructions for medical marijuana cultivation facilities, marijuana testing facilities, medical marijuana dispensary facilities, and medical marijuana-infused products manufacturing facilities.
- (7) Within one hundred eighty days of December 6, 2018, the department shall make available to the public application forms and application instructions for qualifying patient, qualifying patient cultivation, and primary caregiver identification cards. Within two hundred ten days of December 6, 2018, the department shall begin accepting applications for such identification cards.
- (8) An entity may apply to the department for and obtain one or more licenses to grow marijuana as a medical marijuana cultivation facility. Each facility in operation shall require a separate license, but multiple licenses may be utilized in a single facility. Each indoor facility utilizing artificial lighting may be limited by the department to thirty thousand square feet of flowering plant canopy space. Each outdoor facility utilizing natural lighting may be limited by the department to two thousand eight hundred flowering plants. Each greenhouse facility using a combination of natural and artificial lighting may be limited by the department, at the election of the licensee, to two thousand eight hundred flowering plants or thirty thousand square feet of flowering plant canopy. The license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a nonrefundable fee of ten thousand dollars per license application or renewal for all applicants filing an application within three years of December 6, 2018, and shall charge each applicant a nonrefundable fee of five thousand dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of twenty-five thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. An entity or entities under substantially common control, ownership, or management may not be an owner of more than ten percent of the total marijuana cultivation facility licenses outstanding under both sections 1 and 2 of this Article at any given time, rounded down to the nearest whole number.
- (9) An entity may apply to the department for and obtain one or more licenses to operate a medical marijuana dispensary facility. Each facility in operation shall require a separate license. A license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a nonrefundable fee of six thousand dollars per license application or renewal for each applicant filing an application within three years of December 6, 2018, and shall charge each applicant a nonrefundable fee of three thousand dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of ten thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. An entity or entities under substantially common control, ownership, or management may not be an owner of more than ten percent of the total marijuana dispensary facility licenses outstanding under both sections 1 and 2 of this Article at any given time, rounded down to the nearest whole number.
- (10) An entity may apply to the department for and obtain one or more licenses to operate a medical marijuana-infused products manufacturing facility. Each facility in operation shall require a separate license. A license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a nonrefundable fee of six thousand dollars per license application or renewal for each applicant filing an application within three years of December 6, 2018, and shall charge each applicant a nonrefundable fee of three thousand dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of ten thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. An entity or entities under substantially common control, ownership, or management may not be an owner of more than ten percent of the total marijuana-infused products manufacturing facility licenses outstanding under both sections 1 and 2 of this Article at any given time, rounded down to the nearest whole number.
- (11) Any applicant for a license authorized by this section may prefile their application fee with the department beginning 30 days after December 6, 2018.
- (12) Except for good cause, a qualifying patient or his or her primary caregiver may obtain an identification card from the department to cultivate up to six flowering marijuana plants, six nonflowering marijuana plants (over fourteen inches tall), and six clones (plants under fourteen inches tall) for the exclusive use of that qualifying patient. The card shall be valid for three years from its date of issuance and shall be renewable with the submittal of a new or updated physician or nurse practitioner certification. The department shall charge a fee for the card of fifty dollars, with such rate to be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency.
- (13) The department may set a limit on the amount of marijuana that may be purchased by or on behalf of a single qualifying patient in a thirty-day period, provided that limit is not less than six ounces of dried, unprocessed marijuana, or its equivalent. Any such limit shall not apply to a qualifying patient with written certification from a physician or nurse practitioner that there are compelling reasons why the qualifying patient needs a greater amount than the limit established by the department.
- (14) The department may set a limit on the amount of marijuana that may be possessed by or on behalf of each qualifying patient, provided that limit is not less than a sixty-day supply of dried, unprocessed marijuana, or its equivalent. A primary caregiver may possess a separate legal limit for each qualifying patient under their care and a separate legal limit for themselves if they are a qualifying patient. Qualifying patients cultivating marijuana for medical use may possess up to a ninety-day supply, so long as the supply remains on property under their control. Any such limit shall not apply to a qualifying patient with written certification from an independent physician or nurse practitioner that there are compelling reasons for additional amounts. Possession of between the legal limit and up to twice the legal limit shall subject the possessor to department sanctions, including an administrative penalty of up to two hundred dollars and loss of their patient identification card for up to a year. Purposefully possessing amounts in excess of twice the legal limit shall be punishable as an infraction under applicable law.
- (15) The department may restrict the aggregate number of licenses granted for medical marijuana cultivation facilities and comprehensive marijuana cultivation facilities authorized by section 2 combined, provided, however, that the number may not be limited to fewer than one license per every one hundred thousand inhabitants, or any portion thereof, of the state of Missouri, according to the most recent census of the United States. A decrease in the number of inhabitants in the state of Missouri shall have no impact.
- (16) The department may restrict the aggregate number of licenses granted for medical marijuana-infused products manufacturing facilities and comprehensive marijuana-infused products manufacturing facilities authorized by section 2 combined, provided, however, that the number may not be limited to fewer than one license per every seventy thousand inhabitants, or any portion thereof, of the state of Missouri, according to the most recent census of the United States. A decrease in the number of inhabitants in the state of Missouri shall have no impact.
- (17) The department may restrict the aggregate number of licenses granted for medical marijuana dispensary facilities and comprehensive marijuana dispensary facilities authorized by section 2 combined, provided, however, that the number may not be limited to fewer than twenty-four licenses in each United States congressional district in the state of Missouri pursuant to the map of each of the eight congressional districts as drawn and effective on December 6, 2018. Future changes to the boundaries of or the number of congressional districts shall have no impact.
- (18) The department shall begin accepting license and certification applications for medical marijuana dispensary facilities, marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana-infused products manufacturing facilities, seed-to-sale tracking systems, and for transportation of marijuana no later than two hundred forty days after December 6, 2018. Applications for licenses and certifications under this section shall be approved or denied by the department no later than one hundred fifty days after their submission. If the department fails to carry out its nondiscretionary duty to approve or deny an application within one hundred fifty days of submission, an applicant may immediately seek a court order compelling the department to approve or deny the application.
- (19) Qualifying patients under this section shall obtain an identification card or cards from the department. The department shall charge a fee of twenty-five dollars per card. Such fee may be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor or

its successor agency. Cards shall be valid for three years and may be renewed with a new physician or nurse practitioner certification. Upon receiving an application for a qualifying patient identification card or qualifying patient cultivation identification card, the department shall, within thirty days, either issue the card or provide a written explanation for its denial. If the department fails to deny and fails to issue a card to an eligible qualifying patient within thirty days, then their physician or nurse practitioner certification shall serve as their qualifying patient identification card or qualifying patient cultivation identification card for up to one year from the date of physician or nurse practitioner certification. All initial applications for or renewals of a qualifying patient identification card or qualifying patient cultivation identification card shall be accompanied by a physician or nurse practitioner certification that is less than thirty days old.

(20) Primary caregivers under this section shall obtain an identification card from the department. Cards shall be valid for three years. The department shall charge a fee of twenty-five dollars per card. Such fee may be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. Upon receiving an application for a primary caregiver identification card, the department shall, within thirty days, either issue the card or provide a written explanation for its denial.

(21) Except as otherwise provided in this Article, all marijuana for medical use sold in Missouri shall be cultivated in a licensed medical marijuana cultivation facility located in Missouri.

(22) Except as otherwise provided in this Article, all marijuana-infused products for medical use sold in the state of Missouri shall be manufactured in a medical marijuana-infused products manufacturing facility.

(23) The denial of a license, license renewal, or identification card by the department shall be appealable to the administrative hearing commission, or its successor entity. Following the exhaustion of administrative review, denial of a license, license renewal, or identification card by the department shall be subject to judicial review as provided by law.

(24) No elected official shall interfere directly or indirectly with the department's obligations and activities under this section.

(25) The department shall not have the authority to apply or enforce any unduly burdensome rule or regulation or administrative penalty upon any one or more licensees or certificate holders, any qualifying patients, or their primary caregivers, or act to undermine the purposes of this section.]

The following acts are not unlawful and shall not be an offense under Missouri law:

- (a) Possession and/or consumption of Cannabis for personal, medical and/or adult use.
- (b) Cultivating and/or processing Cannabis for personal and/or medical use.
- (c) Sharing Cannabis with friends, neighbors, the poor, the homeless and/or the general public, including neighborhood or community gardens and Cannabis co-ops.
- (f) Leasing or otherwise allowing the use of property owned, occupied or controlled by any person, corporation or other entity for any of the activities conducted lawfully in accordance with paragraphs (a) through (e) of this subsection.
- (g) No one shall be denied housing solely based on their use of Cannabis.
- (h) No one shall be denied employment solely based on their use of Cannabis.
- (i) The use and/or possession of Cannabis shall in no way impede one's legal right to possess a firearm.
- (j) The use and/or possession of Cannabis shall in no way impede one's legal right to foster or adopt or impede one's right to child custody.

14. Taxation and Reporting.] 4. Limitations, Parental and/or Guardian Responsibility.

[1) A tax is levied upon the retail sale of marijuana for medical use sold at medical marijuana dispensary facilities within the state. The tax shall be at a rate of four percent of the retail price. The tax shall be collected by each licensed medical marijuana dispensary facility and paid to the department of revenue. After retaining no more than two percent for its actual collection costs, amounts generated by the medical marijuana tangible personal property retail sales tax levied in this section shall be deposited by the department of revenue into the Missouri veterans' health and care fund. Licensed entities making retail sales within the state shall be allowed approved credit for returns provided the tax was paid on the returned item and the purchaser was given the refund or credit.

(2) There is hereby created in the state treasury the "Missouri Veterans' Health and Care Fund", which shall consist of taxes and fees collected under this section. The state treasurer shall be custodian of the fund, and he or she shall invest monies in the fund in the same manner as other funds are invested. Any interest and monies earned on such investments shall be credited to the fund. Notwithstanding any other provision of law, any monies remaining in the fund at the end of a biennium shall not revert to the credit of the general revenue fund. The commissioner of administration is authorized to make cash operating transfers to the fund for purposes of meeting the cash requirements of the department in advance of it receiving annual application, licensing, and tax revenue, with any such transfers to be repaid as provided by law. The fund shall be a dedicated fund and shall stand appropriated without further legislative action as follows:

(a) First, to the department, an amount necessary for the department to carry out this section, including repayment of any cash operating transfers, payments made through contract or agreement with other state and public agencies necessary to carry out this section, and a reserve fund to maintain a reasonable working cash balance for the purpose of carrying out this section;

(b) Next, the remainder of such funds shall be transferred to the Missouri veterans commission for health and care services for military veterans, including the following purposes: operations, maintenance and capital improvements of the Missouri veterans homes, the Missouri service officer's program, and other services for veterans approved by the commission, including, but not limited to, health care services, mental health services, drug rehabilitation services, housing assistance, job training, tuition assistance, and housing assistance to prevent homelessness. The Missouri veterans commission shall contract with other public agencies for the delivery of services beyond its expertise.

(c) All monies from the taxes authorized under this subsection shall provide additional dedicated funding for the purposes enumerated above and shall not replace existing dedicated funding.

(3) For all retail sales of marijuana for medical use, a record shall be kept by the seller which identifies, by secure and encrypted patient number issued by the seller to the qualifying patient involved in the sale, all amounts and types of marijuana involved in the sale and the total amount of money involved in the sale, including itemizations, taxes collected and grand total sale amounts. All such records shall be kept on the premises in a readily available format and be made available for review by the department and the department of revenue upon request. Such records shall be retained for five years from the date of the sale.

(4) The tax levied pursuant to this subsection is separate from, and in addition to, any general state and local sales and use taxes that apply to retail sales, which shall continue to be collected and distributed as provided by general law.

(5) Except as authorized in this subsection, no additional taxes shall be imposed on the sale of marijuana for medical use.

(6) The fees and taxes provided for in this Article XIV, Section 1 shall be fully enforceable notwithstanding any other provision in this Constitution purportedly prohibiting or restricting the taxes and fees provided for herein.

(7) The unexpended balance existing in the fund shall be exempt from the provisions of section **33.080, RSMo**, or its successor provisions, relating to the transfer of unexpended balances to the general revenue fund.

(8) For taxpayers authorized to do business pursuant to this Article, the amount that would have been deducted in the computation of federal taxable income pursuant to 26 U.S.C. Section 280E of the Internal Revenue Code as in effect on January 1, 2021, or successor provisions, but is disallowed because cannabis is a controlled substance under federal law, shall be subtracted from the taxpayer's federal adjusted gross income, in determining the taxpayer's Missouri adjusted gross income.]

Missouri recognizes and empowers parents and/or legal guardians in their authority and influence over the children for whom they care regarding euphoric substances.

- (a.) Parents and/or legal guardians are required by law to educate the children under their direction to abide by rules of proper behavior, both in public and in private.
- (b.) Personal and religious views, and their influence on children regarding Cannabis will not be the responsibility of the state of Missouri.
- (c.) Parents and/or legal guardians will be directly responsible for the children for whom they are legally bound, to provide support and proper education regarding Cannabis and its use.
- (d.) Recognizing that both children and adults can benefit from Cannabis therapies, possession and/or consumption in schools, public and/or private would be permitted in designated areas. Guidance and supervision should be provided when a parent is not available.
- (e.) There will be no permits or restrictions required regarding personal Cannabis cultivation beyond that which would be required regarding a personal or community vegetable garden.
- (f.) Cannabis coops, where family, friends or neighbors produce for each other and those who cannot physically or economically grow their own Cannabis, will be encouraged wherever personal and/or community vegetable gardens are permitted.

15. Additional Patient, Physician, Nurse Practitioner, Caregiver and Provider Protections.] 5. Medical Cannabis.

[1) Except as provided in this section, the possession of marijuana in quantities less than the limits of this section, or established by the department, and transportation of marijuana by the qualifying patient or primary caregiver shall not subject the possessor to arrest, criminal or civil liability, or sanctions under Missouri law, provided that the possessor produces on demand to the appropriate authority a valid qualifying patient identification card; a valid qualifying patient cultivation identification card; a valid physician or nurse practitioner certification while making application for an identification card; or a valid primary caregiver identification card. Production of the respective substantially equivalent identification card or authorization issued by another state or political subdivision of another state shall also meet the requirements of this subdivision and shall allow for the purchase of medical marijuana for use by a non-resident patient from a medical marijuana dispensary facility as permitted by this section and in compliance with department regulations.

(2) No patient shall be denied access to or priority for an organ transplant or other medical care because they hold a qualifying patient identification card or use marijuana for medical use.

(3) A physician or nurse practitioner shall not be subject to criminal or civil liability or sanctions under Missouri law or discipline by the Missouri state board of registration for the healing arts, the Missouri state board of nursing, or their respective successor agencies, for owning, operating, investing in, being employed by, or contracting with any entity licensed or certified pursuant to this section or issuing a physician or nurse practitioner certification to a patient diagnosed with a qualifying medical condition in a manner consistent with this section and legal standards of professional conduct.

(4) A health care provider shall not be subject to civil or criminal prosecution under Missouri law, denial of any right or privilege, civil or administrative penalty or sanction, or disciplinary action by any accreditation or licensing board or commission for owning, operating, investing in, being employed by, or contracting with any entity licensed or certified pursuant to this section or providing health care services that involve the medical use of marijuana consistent with this section and legal standards of professional conduct.

(5) A marijuana testing facility shall not be subject to civil or criminal prosecution under Missouri law, denial of any right or privilege, civil or administrative penalty or sanction, or disciplinary action by any accreditation or licensing board or commission for providing laboratory testing services that relate to the medical use of marijuana consistent with this section and otherwise meeting legal standards of professional conduct.

- (6) A health care provider shall not be subject to mandatory reporting requirements for the medical use of marijuana by nonemancipated qualifying patients under eighteen years of age in a manner consistent with this section and with consent of a parent or guardian.
- (7) A primary caregiver shall not be subject to criminal or civil liability or sanctions under Missouri law for purchasing, transporting, or administering marijuana for medical use to a qualifying patient or participating in the patient cultivation of up to six flowering marijuana plants, six nonflowering marijuana plants (over fourteen inches tall), and six clones (plants under fourteen inches tall) per patient and no more than twenty-four flowering plants for more than one qualifying patient in a manner consistent with this section and generally established legal standards of personal or professional conduct.
- (8) Notwithstanding any provision of Article V to the contrary, an attorney shall not be subject to disciplinary action by the Supreme Court of Missouri, the office of chief disciplinary counsel, the state bar association, any state agency, or any professional licensing body for any of the following:
- (a) Owning, operating, investing in, being employed by, or contracting with prospective or licensed marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana dispensary facilities, medical marijuana-infused products manufacturing facilities, or transportation certificate holders;
 - (b) Counseling, advising, and/or assisting a client in conduct permitted by Missouri law that may violate or conflict with federal or other law, as long as the attorney advises the client about that federal or other law and its potential consequences;
 - (c) Counseling, advising, and/or assisting a client in connection with applying for, owning, operating, or otherwise having any legal, equitable, or beneficial interest in marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana dispensary facilities, medical marijuana-infused products manufacturing facilities, or transportation certificates; or
 - (d) Counseling, advising or assisting a qualifying patient, primary caregiver, physician, nurse practitioner, health care provider or other client related to activity that is no longer subject to criminal penalties under Missouri law pursuant to this Article.
- (9) Actions and conduct by qualifying patients, primary caregivers, marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana-infused products manufacturing facilities, or medical marijuana dispensary facilities licensed or registered with the department, or their employees or agents, as permitted by this section and in compliance with department regulations and other standards of legal conduct, shall not be subject to criminal or civil liability or sanctions under Missouri law, except as provided for by this section.
- (10) Nothing in this section shall provide immunity for negligence, either common law or statutorily created, nor criminal immunities for operating a vehicle, aircraft, dangerous device, or navigating a boat under the influence of marijuana.
- (11) It is the public policy of the state of Missouri that contracts related to marijuana for medical use that are entered into by qualifying patients, primary caregivers, marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana-infused products manufacturing facilities, or medical marijuana dispensary facilities and those who allow property to be used by those entities, should be enforceable. It is the public policy of the state of Missouri that no contract entered into by qualifying patients, primary caregivers, marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana-infused products manufacturing facilities, or medical marijuana dispensary facilities, or by a person who allows property to be used for activities that are exempt from state criminal penalties by this section, shall be unenforceable on the basis that activities related to medical marijuana may be prohibited by federal law.
- (12) In the process of requesting a search or arrest warrant relating to the production, possession, transportation or storage of marijuana, a state or local law enforcement official shall verify with the department whether the targeted person is a qualifying patient or primary caregiver holding an identification card allowing for cultivation of marijuana plants under subdivision (12) of subsection 3 of this section, and shall inform the issuing authority accordingly when making the warrant request. Evidence of marijuana alone, without specific evidence indicating that the marijuana is outside of what is lawful for medical or adult use, cannot be the basis for a search of a patient or non-patient, including their home, vehicle or other property. Lawful marijuana related activities cannot be the basis for a violation of parole, probation, or any type of supervised release. State and local law enforcement shall only have access to such department information as is necessary to confirm whether the targeted person holds registration card.
- (13) Registered qualifying patients on bond for pre-trial release, on probation, or other form of supervised release shall not be prohibited from legally using a lawful marijuana product as a term or condition of release, probation, or parole. An alternative sentencing drug court program may not prohibit individuals under its jurisdiction from using a lawful marijuana product as long as the individual is a registered qualifying patient.
- (14) A family court participant or party who requires treatment for a qualified medical condition in accordance with this section shall not be required to refrain from using medical marijuana as a term or condition of successful completion of the family court program. The status and conduct of a qualified patient who acts in accordance with this section shall not, by itself, be used to restrict or abridge custodial or parental rights to minor children in any action or proceeding under the jurisdiction of a family court under chapter 487, RSMo, including domestic matters under chapter 452, RSMo, or a juvenile court under chapter 211, RSMo, or successor provisions.
- (15) A person shall not be denied adoption, custody, or visitation rights relative to a minor solely for conduct that is permitted by this section.
- (16) No person shall be denied their rights under Article 1, Section 23 of the Missouri Constitution, or successor provisions, solely for conduct that is permitted by this section.]

Medical Cannabis shall be available to patients without taxation who have a physician's recommendation for its use. Recommendations can be in the form of a card or letter, clearly identifying that the patient requires Cannabis and is under the care of the mentioned physician, listing both the physician and patient's address, email address, phone number, signatures and date of signature.

- (a) All patients engaged in Cannabis therapy shall be afforded the same rights and privileges afforded to any patient treated through conventional therapeutic means, whether or not the patient is under the care of a physician.
- (b) If an employee is a valid Cannabis patient and requires medicating with Cannabis during the course of their work time, the employee will be afforded sufficient time to medicate and a safe place to medicate. Concessions regarding the location should be agreed on by both the employer and the employee without restricting the ability of the employee to properly medicate.
- (c) Licensed physicians shall not be penalized for, nor restricted from recommending and/or providing Cannabis for medical purposes for any person under their care.
- (d) Veterinarians shall not be penalized for, nor restricted from recommending and/or providing Cannabis for medical purposes for any creature under their care.
- (e) Any individual who is a Cannabis patient in another state shall be granted the same rights and privileges as a legal Missouri Cannabis patient.
- (f) Medical care, including organ transplants, shall not be restricted in any way based on a person's use of Cannabis.

16. Legislation.

[Nothing in this section shall limit the general assembly from enacting laws consistent with this section, or otherwise effectuating the patient rights of this section. The legislature shall not enact laws that hinder the right of qualifying patients to access marijuana for medical use as granted by this section.

7. Additional Provisions.] 6. Zoning.

[1) Nothing in this section permits a person to:

- (a) Consume marijuana for medical use in a jail or correctional facility;
 - (b) Undertake any task under the influence of marijuana when doing so would constitute negligence or professional malpractice; or
 - (c) Operate, navigate, or be in actual physical control of any dangerous device or motor vehicle, aircraft or motorboat while under the influence of marijuana. Notwithstanding the foregoing, an arrest or a conviction of a person who has a valid qualifying patient identification card for any applicable offenses shall require evidence that the person was in fact under the influence of marijuana at the time the person was in actual physical control of the dangerous device or motor vehicle, aircraft or motorboat and not solely on the presence of tetrahydrocannabinol (THC) or THC metabolites, or a combination thereof, in the person's system; or
 - (d) Bring a claim against any employer, former employer, or prospective employer for wrongful discharge, discrimination, or any similar cause of action or remedy, based on the employer, former employer, or prospective employer prohibiting the employee, former employee, or prospective employee from being under the influence of marijuana while at work or disciplining the employee or former employee, up to and including termination from employment, for working or attempting to work while under the influence of marijuana.
- (2) No medical marijuana cultivation facility, marijuana testing facility, medical marijuana dispensary facility, or medical marijuana-infused products manufacturing facility, or entity with a transportation certification shall be owned, in whole or in part, or have as an officer, director, board member, manager, or employee, any individual with a disqualifying felony offense. A "disqualifying felony offense" is a violation of, and conviction or guilty plea to, state or federal law that is, or would have been, a felony under Missouri law, regardless of the sentence imposed, unless the department determines that:
- (a) The person's conviction was for the medical use of marijuana or assisting in the medical use of marijuana; or
 - (b) The person's conviction was for a nonviolent crime for which he or she was not incarcerated and that is more than five years old; or
 - (c) More than five years have passed since the person was released from parole or probation, and he or she has not been convicted of any subsequent criminal offenses.

The department may consult with and rely on the records, advice and recommendations of the attorney general and the department of public safety, or their successor entities, in applying this subdivision.

(3) No medical marijuana cultivation facility, medical marijuana dispensary facility, or medical marijuana-infused products manufacturing facility shall manufacture, package or label marijuana or marijuana-infused products in a false or misleading manner. No person shall sell any product in a manner designed to cause confusion between a marijuana or marijuana-infused product and any product not containing marijuana. A violation of this subdivision shall be punishable by an appropriate and proportional department sanction, up to and including an administrative penalty of five thousand dollars and loss of license.

(4) All edible marijuana-infused products shall be sold in individual, child-resistant containers that are labeled with dosage amounts, instructions for use, and estimated length of effectiveness. All marijuana and marijuana-infused products shall be sold in containers clearly and conspicuously labeled as mandated by the department as containing "Marijuana", or a "Marijuana-Infused roduct". Violation of this prohibition shall subject the violator to department sanctions, including an administrative penalty of five thousand dollars.

- (5) No individual shall serve as the primary caregiver for more than six qualifying patients. No primary caregiver cultivating marijuana for more than one qualifying patient may exceed a total of twenty-four flowering plants.
- (6) A person who smokes medical marijuana in a public place, other than in an area licensed for such activity by the department or by local authorities having jurisdiction over the licensing or permitting of said activity, is subject to a civil penalty not exceeding one hundred dollars.
- (7) No person shall extract resins from marijuana using dangerous materials or combustible gases without a medical marijuana-infused products manufacturing facility license. Violation of this prohibition shall subject the violator to department sanctions, including an administrative penalty of one thousand dollars for a patient or primary caregiver and ten thousand dollars for a facility licensee and, if applicable, loss of their identification card, certificate, or license for up to one year.
- (8) All qualifying patient cultivation shall take place in an enclosed, locked facility that is equipped with security devices that permit access only by the qualifying patient or by such patient's primary caregiver. Two qualifying patients, who both hold valid qualifying patient cultivation identification cards, may share one enclosed, locked facility. Primary caregivers cultivating marijuana for more than one qualifying patient may cultivate each respective qualifying patient's flowering plants in a single, enclosed locked facility subject to the limits of subsection 3, paragraph 12.
- (9) No medical marijuana cultivation facility, medical marijuana dispensary facility, medical marijuana-infused products manufacturing facility, marijuana testing facility, or entity with a transportation certification shall assign, sell, give, lease, sublicense, or otherwise transfer its license or certificate to any other entity without the express consent of the department, not to be unreasonably withheld.
- (10) (a) Unless allowed by the local government, no new medical marijuana cultivation facility, marijuana testing facility, medical marijuana dispensary facility, or medical marijuana-infused products manufacturing facility shall be initially sited within one thousand feet of any then-existing elementary or secondary school, child day-care center, or church. In the case of a freestanding facility, the distance between the facility and the school, daycare, or church shall be measured from the external wall of the facility structure closest in proximity to the school, daycare, or church to the closest point of the property line of the school, daycare, or church. If the school, daycare, or church is part of a larger structure, such as an office building or strip mall, the distance shall be measured to the entrance or exit of the school, daycare, or church closest in proximity to the facility. In the case of a facility that is part of a larger structure, such as an office building or strip mall, the distance between the facility and the school, daycare, or church shall be measured from the property line of the school, daycare, or church to the facility's entrance or exit closest in proximity to the school, daycare, or church. If the school, daycare, or church is part of a larger structure, such as an office building or strip mall, the distance shall be measured to the entrance or exit of the school, daycare, or church closest in proximity to the facility. Measurements shall be made along the shortest path between the demarcation points that can be lawfully traveled by foot. No local government shall prohibit medical marijuana cultivation facilities, marijuana testing facilities, medical marijuana-infused products manufacturing facilities, or medical marijuana dispensary facilities, or entities with a transportation certification either expressly or through the enactment of ordinances or regulations that make their operation unduly burdensome in the jurisdiction. However, local governments may enact ordinances or regulations not in conflict with this section, or with regulations enacted pursuant to this section, governing the time, place, and manner of operation of such facilities in the locality. A local government may establish civil penalties for violation of an ordinance or regulations governing the time, place, and manner of operation of a medical marijuana cultivation facility, marijuana testing facility, medical marijuana-infused products manufacturing facility, medical marijuana dispensary facility, or entity holding a transportation certification that may operate in such locality.
- (b) The only local government ordinances or regulations that are binding on a medical facility are those of the local government where the medical facility is physically located.
- (11) Unless superseded by federal law or an amendment to this Constitution, a physician or nurse practitioner shall not certify a qualifying condition for a patient by any means other than providing a physician or nurse practitioner certification for the patient, whether handwritten, electronic, or in another commonly used format.
- (12) A physician or nurse practitioner shall not issue a certification for the medical use of marijuana for a nonemancipated qualifying patient under the age of eighteen without the written consent of the qualifying patient's parent or legal guardian. The department shall not issue a qualifying patient identification card on behalf of a nonemancipated qualifying patient under the age of eighteen without the written consent of the qualifying patient's parent or legal guardian. Such card shall be issued to one of the parents or guardians and not directly to the patient. Only a parent or guardian may serve as a primary caregiver for a nonemancipated qualifying patient under the age of eighteen. Only the qualifying patient's parent or guardian shall purchase or possess medical marijuana for a nonemancipated qualifying patient under the age of eighteen. A parent or guardian shall supervise the administration of medical marijuana to a nonemancipated qualifying patient under the age of eighteen.
- (13) Nothing in this section shall be construed as mandating health insurance coverage of medical marijuana for qualifying patient use.
- (14) Real and personal property used in the cultivation, manufacture, transport, testing, distribution, sale, and administration of marijuana for medical use or for activities otherwise in compliance with this section shall not be subject to asset forfeiture solely because of that use.
- (15) Unless a failure to do so would cause an employer to lose a monetary or licensing-related benefit under federal law, an employer may not discriminate against a person in hiring, termination or any term or condition of employment or otherwise penalize a person, if the discrimination is based upon either of the following:
- (a) The person's status as a qualifying patient or primary caregiver who has a valid identification card, including the person's legal use of a lawful marijuana product off the employer's premises during nonworking hours, unless the person was under the influence of medical marijuana on the premises of the place of employment or during the hours of employment; or
- (b) A positive drug test for marijuana components or metabolites of a person who has a valid qualifying patient identification card, unless the person used, possessed, or was under the influence of medical marijuana on the premises of the place of employment or during the hours of employment.
- Nothing in this subdivision shall apply to an employee in a position in which legal use of a lawful marijuana product affects in any manner a person's ability to perform job-related employment responsibilities or the safety of others, or conflicts with a bona fide occupational qualification that is reasonably related to the person's employment.
- (16) The enactment of section 2 of this Article and concurrent amendments to section 1 of this Article shall have no effect upon any valid contract, claim, or cause of action instituted prior to the effective date of this section.]

Cannabis farmers, manufacturers, processors, and distributors shall not be subject to any special zoning requirements and/or licensing fee that is excessive, discriminatory, prohibitive, or in any way contrary to that which is relative to any other commercial or agricultural farmer, manufacturer, processor or distributor or the products they produce.

[8. Federal Legalization.] 7. Law Enforcement and the Courts.

If federal law, rules, or regulations are amended to allow the interstate commerce of marijuana or marijuana-infused products or the importation or exportation of marijuana or marijuana-infused products into or out of the state of Missouri, the provisions and intent of this section shall, to the extent possible, remain in full effect, unless explicitly preempted by such federal law, rule, or regulation. If federal law, rules, or regulations are amended as provided above, any marijuana or marijuana-infused products imported into this state shall be subject to the same testing standards and seed to sale tracking system required under this section for marijuana and marijuana-infused products produced within the state. Unless federal law, rules, or regulations explicitly require otherwise, no entity shall sell, transport, produce, distribute, deliver, or cultivate marijuana or marijuana-infused products without an applicable license or certificate as required under this section. In addition, any raw biomass of marijuana or marijuana flower imported from out-of-state shall be received only by a licensed cultivation facility, while all batch oil, infused marijuana products and any marijuana product in any other form shall be received only by a licensed manufacturing facility.]

Missouri's law enforcement and its courts shall protect Cannabis consumers and their property without discrimination, and with the same effort afforded to every citizen of Missouri and our nation.

- (a) The use and/or possession of Cannabis shall not be grounds for issuing a "Driving under the influence" (DUI) stop, charge, arrest, or fine(s) when operating or a passenger of a motor vehicle. Stops, charges, fines and arrests shall be the product of visible and/or previously proven non-Cannabis infractions of Missouri law; actual crime, not assumed, coerced, or profiled.
- (b) No Missouri law enforcement personnel or state funds shall be used to assist or aid in the enforcement of Federal Cannabis laws involving acts which are no longer illegal in the State of Missouri under this amendment.
- (c) Asset and/or Civil Forfeiture shall no longer be used in the state of Missouri in association with Cannabis, Cannabis cultivation, it's use, possession, and/or its sale in any way.
- (d) Upon the passage of this Act, all persons incarcerated or under supervision of the Missouri Board of Probation and Parole for non-violent, Cannabis offenses, which are no longer illegal in the State of Missouri under this Act, shall be immediately released.
- (e) Within 60 days of the passage of Act, a legal document shall be developed and made available to the public ordering the immediate destruction of all Cannabis related non-violent civil and criminal records in Missouri and for any offense covered by this amendment which is no longer illegal in the State of Missouri under this Act. This document shall be distributed to all pertinent parties throughout the state.
- (f) Within 60 days, Missouri's Courts shall order the immediate expungement of civil and criminal records pertaining to all non-violent Cannabis offenses which are no longer illegal in the State of Missouri under this Act. NO record of these offenses will be retained anywhere for any reason.

[9. Severability.] 8. Regarding Federal Law.

[The provisions of this section are severable, and if any clause, sentence, paragraph or section of this measure, or an application thereof, is adjudged invalid by any court of competent jurisdiction, the other provisions shall continue to be in effect to the fullest extent possible.] Pursuant to the Ninth and Tenth Amendments to the Constitution of the United States, the people of Missouri hereby repudiate and challenge Federal Cannabis prohibitions that conflict with this Act. As well, we refuse any Federal law, mandate or agreement that seeks to impose any restrictions, taxes, or covenants upon Cannabis that present Cannabis as anything other than a nontoxic and nutritious food, as well as a remarkable medicine, and a most necessary commodity for Missouri and our nation.

9. Existing and conflicting Local, State and Federal Law.

- (a) No excise tax ("sin tax") or any other tax shall be imposed on the consumption, purchase or sale of Cannabis other than the sales tax imposed at the time of sale, the same as any other commodity.
- (b) Cannabis, being a nontoxic and highly medicinal organic product, is protected from rules, whether state, county or municipal, that would seek to imply and/or mandate any restriction and/or penalty upon the consumption, possession, production and/or sale of Cannabis, it's byproducts, and/or its accessories.
- (c) Because Cannabis is nontoxic, Missouri's consumers can no longer be expected to be held to personal and/or religious biases regarding its use, possession or sale.
- (d) All provisions of this section shall supersede conflicting city, county, state and Federal statutory, local charter, ordinance, law or resolution.

[XIV Section 2. Marijuana legalization, regulation, and taxation. — 1. Purpose.] XIV Section 2. A fair, healthy and profitable Cannabis community and industry.

1. Purpose.

[The purpose of this section is to make marijuana legal under state and local law for adults twenty-one years of age or older, and to control the commercial production and distribution of marijuana under a system that licenses, regulates, and taxes the businesses involved while protecting public health. The intent is to prevent arrest and penalty for personal possession and cultivation of limited amounts of marijuana by adults twenty-one years of age or older; remove the commercial production and distribution of marijuana from the illicit market; prevent revenue generated from commerce in marijuana from going to criminal enterprises; prevent the distribution of marijuana to persons under twenty-one years of age; prevent the diversion of marijuana to illicit markets; protect public health by ensuring the safety of marijuana and products containing marijuana; and ensure the security of marijuana facilities. To the fullest extent possible, this section shall be interpreted in accordance with the purpose and intent set forth in this section.

This section is not intended to allow for the public use of marijuana, driving while under the influence of marijuana, the use of marijuana in the workplace, or the use of marijuana by persons under twenty-one years of age.]

The purpose of this section is to further address the path Cannabis will take in Missouri as a truly nontoxic source for medicine and food and other essential commodities. By freeing Missouri from the ignorance and bigotries that have precedingly vilified Cannabis in Missouri law, we seek to provide an environment that minimizes government oversight while promoting education, reinforcing personal responsibility and supporting the essential power of parental influence, recognizing that good behavior and personal beliefs cannot be dictated in state law, but must be taught in our homes and our schools.

12. Definitions.

- (1) "Church" means a permanent building primarily and regularly used as a place of religious worship.
- (2) "Comprehensive facility" means a comprehensive marijuana cultivation facility, comprehensive marijuana dispensary facility, or a comprehensive marijuana-infused products manufacturing facility.
- (3) "Comprehensive marijuana cultivation facility" means a facility licensed by the department to acquire, cultivate, process, package, store on site or off site, transport to or from, and sell marijuana, marijuana seeds, marijuana vegetative cuttings (also known as clones) to a medical facility, comprehensive facility, or marijuana testing facility. A comprehensive marijuana cultivation facility need not segregate or account for its marijuana products as either non-medical marijuana or medical marijuana. A comprehensive marijuana cultivation facility's authority to process marijuana shall include the creation of prerolls, but shall not include the manufacture of marijuana-infused products.
- (4) "Comprehensive marijuana dispensary facility" means a facility licensed by the department to acquire, process, package, store on site or off site, sell, transport to or from, and deliver marijuana, marijuana seeds, marijuana vegetative cuttings (also known as clones), marijuana-infused products, and drug paraphernalia used to administer marijuana as provided for in this section to a qualifying patient or primary caregiver, as those terms are defined in section 1 of this Article, or to a consumer, anywhere on the licensed property or to any address as directed by the patient, primary caregiver, or consumer and consistent with the limitations of this Article and as otherwise allowed by law, to a comprehensive facility, a marijuana testing facility, or a medical facility. Comprehensive dispensary facilities may receive transaction orders at the dispensary directly from the consumer in person, by phone, or via the internet, including from a third party. A comprehensive marijuana dispensary facility need not segregate or account for its marijuana products as either non-medical marijuana or medical marijuana, but shall collect all appropriate tangible personal property sales tax for each sale, as set forth in this Article and provided for by general or local law. A comprehensive marijuana dispensary facility's authority to process marijuana shall include the creation of prerolls.
- (5) "Comprehensive marijuana-infused products manufacturing facility" means a facility licensed by the department to acquire, process, package, store, manufacture, transport to or from a medical facility, comprehensive facility, or marijuana testing facility, and sell marijuana-infused products, prerolls, and infused prerolls to a marijuana dispensary facility, a marijuana testing facility, or another marijuana-infused products manufacturing facility. A comprehensive marijuana-infused products manufacturing facility need not segregate or account for its marijuana products as either non-medical marijuana or medical marijuana.
- (6) "Consumer" means a person who is at least twenty-one years of age.
- (7) "Daycare" means a child-care facility, as defined by section 210.201, RSMo, or successor provisions, that is licensed by the state of Missouri.
- (8) "Department" means the department of health and senior services, or its successor agency.
- (9) "Entity" means a natural person, corporation, professional corporation, nonprofit corporation, cooperative corporation, unincorporated association, business trust, limited liability company, general or limited partnership, limited liability partnership, joint venture, or any other legal entity.
- (10) "Flowering plant" means a marijuana plant from the time it exhibits the first signs of sexual maturity through harvest.
- (11) "Infused preroll" means a consumable or smokable marijuana product, generally consisting of: (1) a wrap or paper, (2) dried flower, buds, and/or plant material, and (3) a concentrate, oil or other type of marijuana extract, either within or on the surface of the product. Infused prerolls may or may not include a filter or crutch at the base of the product.
- (12) "Local government" means, in the case of an incorporated area, a village, town, or city and, in the case of an unincorporated area, a county.
- (13) "Marijuana" or "marihuana" means Cannabis indica, Cannabis sativa, and Cannabis ruderalis, hybrids of such species, and any other strains commonly understood within the scientific community to constitute marijuana, as well as resin extracted from the marijuana plant and marijuana-infused products. "Marijuana" or "marihuana" do not include industrial hemp, as defined by Missouri statute, or commodities or products manufactured from industrial hemp.
- (14) "Marijuana accessories" means any equipment, product, material, or combination of equipment, products, or materials, which is specifically designed for use in planting, propagating, cultivating, growing, harvesting, manufacturing, compounding, converting, producing, processing, preparing, testing, analyzing, packaging, repackaging, storing, containing, ingesting, inhaling, or otherwise introducing marijuana into the human body.
- (15) "Marijuana facility" means a comprehensive marijuana cultivation facility, comprehensive marijuana dispensary facility, marijuana testing facility, comprehensive marijuana-infused products manufacturing facility, microbusiness wholesale facility, microbusiness dispensary facility, or any other type of marijuana-related facility or business licensed or certified by the department pursuant to this section, but shall not include a medical facility licensed under section 1 of this Article.
- (16) "Marijuana-infused products" means products that are infused, dipped, coated, sprayed, or mixed with marijuana or an extract thereof, including, but not limited to, products that are able to be vaporized or smoked, edible products, ingestible products, topical products, suppositories, and infused prerolls.
- (17) "Marijuana microbusiness facility" means a facility licensed by the department as a microbusiness dispensary facility or microbusiness wholesale facility, as defined in this section.
- (18) "Microbusiness dispensary facility" means a facility licensed by the department to acquire, process, package, store on site or off site, sell, transport to or from, and deliver marijuana, marijuana seeds, marijuana vegetative cuttings (also known as clones), marijuana-infused products, and drug paraphernalia used to administer marijuana as provided for in this section to a consumer, qualifying patient, as that term is defined in section 1 of this Article, or primary caregiver, as that term is defined in section 1 of this Article, anywhere on the licensed property or to any address as directed by the consumer, qualifying patient, or primary caregiver and, consistent with the limitations of this Article and as otherwise allowed by law, a microbusiness wholesale facility, or a marijuana testing facility. Microbusiness dispensary facilities may receive transaction orders at the dispensary directly from the consumer in person, by phone, or via the internet, including from a third party. A microbusiness dispensary facility's authority to process marijuana shall include the creation of prerolls.
- (19) "Microbusiness wholesale facility" means a facility licensed by the department to acquire, cultivate, process, package, store on site or off site, manufacture, transport to or from, deliver, and sell marijuana, marijuana seeds, marijuana vegetative cuttings (also known as clones), and marijuana-infused products to a microbusiness dispensary facility, other microbusiness wholesale facility, or marijuana testing facility. A microbusiness wholesale facility may cultivate up to 250 flowering marijuana plants at any given time. A microbusiness wholesale facility's authority to process marijuana shall include the creation of prerolls and infused prerolls.
- (20) "Marijuana testing facility" means a facility certified by the department to acquire, test, certify, and transport marijuana, including those originally certified as a medical marijuana testing facility.
- (21) "Owner" means an individual who has a financial (other than a security interest, lien, or encumbrance) or voting interest in ten percent or greater of a marijuana facility.
- (22) "Preroll" means a consumable or smokable marijuana product, generally consisting of: (1) a wrap or paper and (2) dried flower, buds, and/or plant material. Prerolls may or may not include a filter or crutch at the base of the product.
- (23) "Unduly burdensome" means that the measures necessary to comply with the rules or ordinances adopted pursuant to this section subject licensees or potential licensees to such a high investment of money, time, or any other resource or asset that a reasonably prudent businessperson would not operate the marijuana facility.

3. Limitations. 12. Regulation of Cannabis.

[1] Except as otherwise provided in this Article, this section does not preclude, limit, or affect laws that assign liability relative to, prohibit, or otherwise regulate:

- (a) Delivery or distribution of marijuana or marijuana accessories, with or without consideration, to a person younger than twenty-one years of age;
- (b) Purchase, possession, use, or transport of marijuana or marijuana accessories by a person younger than twenty-one years of age;
- (c) Consumption of marijuana by a person younger than twenty-one years of age;
- (d) Operating or being in physical control of any motor vehicle, train, aircraft, motorboat, or other motorized form of transport while under the influence of marijuana. Notwithstanding the foregoing, a conviction of a person who is at least twenty-one years of age for any applicable offenses shall require evidence that the person was in fact under the influence of marijuana at the time the person was in physical control of the motorized form of transport and not solely on the presence of tetrahydrocannabinol (THC) or THC metabolites, or a combination thereof, in the person's system;
- (e) Consumption of marijuana while operating or being in physical control of a motor vehicle, train, aircraft, motorboat, or other motorized form of transport while it is being operated;

- (f) Smoking marijuana within a motor vehicle, train, aircraft, motorboat, or other motorized form of transport while it is being operated;
- (g) Possession or consumption of marijuana or possession of marijuana accessories on the grounds of a public or private preschool, elementary or secondary school, institution of higher education, in a school bus, or on the grounds of any correctional facility;
- (h) Smoking marijuana in a location where smoking tobacco is prohibited;
- (i) Consumption of marijuana in a public place, other than in an area licensed by the authorities having jurisdiction over the licensing and/or permitting of said activity, as set forth in subsection 5 of this section;
- (j) Conduct that endangers others;
- (k) Undertaking any task while under the influence of marijuana, if doing so would constitute negligence, recklessness, or professional malpractice; or
- (l) Performing solvent-based extractions on marijuana using solvents other than water, glycerin, propylene glycol, vegetable oil, or food-grade ethanol, unless licensed for this activity by the department.

(2) This section does not limit any privileges, rights, immunities, or defenses of a person or entity as provided in section 1 of this Article, or any other law of this state allowing for or regulating marijuana for medical use.

(3) This section does not require an employer to permit or accommodate conduct otherwise allowed by this section in any workplace or on the employer's property. This section does not prohibit an employer from disciplining an employee for working while under the influence of marijuana. This section does not prevent an employer from refusing to hire, discharging, disciplining, or otherwise taking an adverse employment action against a person with respect to hire, tenure, terms, conditions, or privileges of employment because that person was working while under the influence of marijuana.

(4) This section allows an entity to prohibit or otherwise limit the consumption, cultivation, distribution, processing, sale, or display of marijuana, marijuana-infused products, and marijuana accessories on private property the entity owns, leases, occupies, or manages, except that a lease agreement executed after the effective date of this section may not prohibit a tenant from lawfully possessing and consuming marijuana by means other than smoking.

(5) The enactment of this section and all concurrent amendments to section 1 of this Article shall have no effect upon any valid contract, claim, or cause of action instituted prior to the effective date of this section.]

(a.) No part of these Sections authorizes or permits any person to operate a vehicle, motorized or otherwise in any unsafe manner, whether or not Cannabis is involved.

(b.) No part of these Sections authorizes or permits any person to adversely affect properties, whether public or private while consuming and/or possessing Cannabis.

(c.) No part of these Sections authorizes or permits any person to operate commercial or industrial equipment in a dangerous manner, while employed or otherwise, whether or not Cannabis is involved.

(d.) Any activity that would be considered a violation of civil law apart from Cannabis will be considered a violation when Cannabis is incorporated.

14. Regulation of Marijuana.

(1) In carrying out the implementation of this section and as conditioned herein, the department shall have the authority to:

(a) Grant or refuse state licenses for the cultivation, manufacture, dispensing, and sale of marijuana; suspend, restrict, or revoke such licenses upon a violation of this section or a rule promulgated pursuant to this section; and impose any reasonable administrative penalty authorized by this section or any general law enacted or rule promulgated pursuant to this section, so long as any procedure related to a suspension or revocation includes a reasonable cure period, not less than thirty days, prior to the suspension or revocation, except in instances where there is a credible and imminent threat to public health or public safety;

(b) Promulgate rules and emergency rules necessary for the proper regulation and control of the cultivation, manufacture, dispensing, and sale of marijuana and for the enforcement of this section so long as such rules are reasonable and not unduly burdensome;

(c) Develop such forms, certificates, licenses, identification cards, and applications as are necessary for, or reasonably related to, the administration of this section or any of the rules promulgated under this section;

(d) Require a seed-to-sale tracking system that tracks marijuana from either the seed or immature plant stage until the marijuana or marijuana-infused product is sold to a qualified patient, primary caregiver, or consumer to ensure that no marijuana grown by a medical marijuana cultivation facility, comprehensive marijuana cultivation facility, or microbusiness wholesale facility, or manufactured by a medical marijuana-infused products manufacturing facility, a comprehensive marijuana-infused products manufacturing facility, or a microbusiness wholesale facility is sold or otherwise transferred to a consumer, qualified patient, or primary caregiver except by a medical marijuana dispensary facility, a comprehensive dispensary facility, or a microbusiness dispensary facility. The department shall certify all commercially available tracking systems that are compliant with its tracking standards and issue standards for the creation or use of other systems by licensees;

(e) Issue standards for the secure transportation of marijuana and marijuana-infused products. The department shall certify entities that demonstrate compliance with its transportation standards to transport marijuana and marijuana-infused products to or from a comprehensive facility, medical facility, microbusiness facility, another entity with a transportation certification, or any entity licensed pursuant to paragraph (g) of this subdivision. The department shall develop or adopt from any other governmental agency such safety and security standards as are reasonably necessary for the transportation and temporary storage of marijuana and marijuana-infused products. Any entity licensed or certified pursuant to this section shall be allowed to transport its own inventory and products in compliance with department transportation rules and store marijuana and marijuana-infused products for the purposes related to transportation in compliance with department regulations on secure storage of marijuana and marijuana-infused products;

(f) Promulgate rules and emergency rules specific to the licensing, regulation, and oversight of marijuana microbusiness facilities;

(g) Provide for the issuance of additional types or classes of licenses to operate marijuana-related businesses that:

- a. Allow for only transportation, delivery, or storage of marijuana; or
- b. Are intended to facilitate scientific research or education.

(h) Prepare and transmit annually a publicly available report accounting to the governor, the general assembly, and the public for the efficient discharge of all responsibilities assigned to the department under this section. The report shall provide aggregate data for each type of license (medical, comprehensive, and microbusiness) and facility (dispensary, cultivation, manufacturers, wholesalers). Only non-identifying information shall be provided regarding any marijuana facility owners;

(i) Establish a lottery selection process to select comprehensive facility licenses, certificate holders, marijuana microbusiness licensees, but not medical facility licensees that are converting to comprehensive licenses pursuant to this subsection. To become eligible for any license lottery selection process, an owner cannot have pleaded guilty or been found guilty of a disqualifying felony, as that term is defined in subsection 9 of this section.

(j) In developing a lottery selection process to award licenses and certificates, the department may consult or contract with other public agencies with relevant expertise.

(k) While not required as a prerequisite to participation in a comprehensive license lottery, every comprehensive license applicant shall submit to the department a voluntary plan to promote and encourage participation in the regulated marijuana industry by people from communities that have been disproportionately impacted by marijuana prohibition. The plan may include strategies to address geographical defined communities that have been disproportionately impacted by marijuana prohibition; provide for ownership opportunities for disproportionately impacted communities; and provide for employment, supplier, and vendor opportunities for individuals and businesses in communities that have been disproportionately impacted by marijuana prohibition. If licensed, any voluntary applicant plan shall be enforceable by the department.

(l) Notwithstanding other grants of authority herein, neither the department nor any governmental body may restrict the production or use of marijuana and marijuana-infused products based solely upon THC content.

(m) Set a limit on the amount of marijuana that may be purchased in a single transaction provided that limit is not less than three ounces of dried, unprocessed marijuana, or its equivalent.

(n) Regulate the advertising and promotion of marijuana sales, but any such regulation shall be no more stringent than comparable state regulations on the advertising and promotion of alcohol sales.

(2) The department shall issue, at a minimum, the same number of comprehensive marijuana cultivation facility licenses as were authorized or issued for medical marijuana cultivation facilities under section 1 of this Article as of December 7, 2022, the same number of comprehensive marijuana-infused products manufacturing facility licenses as were authorized or issued for medical marijuana-infused products manufacturing facilities under section 1 of this Article as of December 7, 2022, the same number of comprehensive marijuana dispensary facility licenses with the same congressional distribution requirements as were authorized or issued for medical marijuana dispensary facilities under section 1 of this Article as of December 7, 2022, in addition to the minimum number of marijuana microbusiness licenses as are required under this section. The department may lift or ease any limit on the number of licensees or certificate holders in order to meet the demand for marijuana in the state and to ensure a competitive market while also preventing an over-concentration of marijuana facilities within the boundaries of any particular local government.

(3) If comprehensive facility licenses become available because the number of total issued licenses in any respective category falls below the minimum required under this section or the department determines more comprehensive facility licenses are necessary to meet the requirements of subdivision (2) of this subsection, the department shall award by lottery at least fifty percent of any new licenses available to satisfy the minimum requirement to applicants who are owners of a marijuana microbusiness facility that has been in operation for at least one year and is in good standing with the department and is otherwise qualified for the license.

(4) The department may issue any rules or emergency rules necessary for the implementation and enforcement of this section and to ensure the right to, availability, and safe use of marijuana by consumers. In developing such rules or emergency rules, the department may consult or contract with other public agencies. In addition to any other rules or emergency rules necessary to carry out the mandates of this section, the department shall issue rules or emergency rules relating to the following subjects:

- (a) Procedures for issuing a license and for renewing, suspending, and revoking a license, so long as any procedure related to a suspension or revocation includes a reasonable cure period, not less than thirty days, prior to the suspension or revocation, except in instances where there is a credible and imminent threat to public health or public safety;
- (b) Requirements and standards for safe cultivation, processing, and distribution of marijuana and marijuana-infused products by marijuana facilities, including health standards to ensure the safe preparation of marijuana-infused products;
- (c) Testing, packaging, and labeling standards, procedures, and requirements for marijuana and marijuana-infused products and a requirement that a representative sample of marijuana be tested by a marijuana testing facility to ensure public health;
- (d) Labeling standards that protect public health by requiring the listing of pharmacologically active ingredients, including, but not limited to, tetrahydrocannabinol (THC), cannabidiol (CBD), and other cannabinoid content, the THC and other cannabinoid amount in milligrams per serving, the number of servings per package, and quantity limits per sale to comply with the allowable possession amount;
- (e) Requirements that packaging and labels shall not be made to be attractive to children, required warning labels, and that marijuana and marijuana-infused products be sold in resealable, child-resistant packaging to protect public health;
- (f) Security requirements, including lighting, physical security, and alarm requirements, and requirements for securely transporting marijuana between marijuana facilities;
- (g) Record keeping requirements for marijuana facilities and monitoring requirements to track the transfer of marijuana by licensees;
- (h) A plan to promote and encourage ownership and employment in the marijuana industry by people from political subdivisions and districts that are economically distressed and to positively impact those political subdivisions and districts;
- (i) Administrative penalties as authorized by this section for failure to comply with any rule promulgated pursuant to this section or for any violation of rules and regulations adopted pursuant to this section by a licensee, including authorized administrative fines and suspension, revocation, or restriction of a license. The licensee may choose to challenge any penalties imposed by the department through the administrative hearing commission, or its successor entity. Pursuant to section 536.100, RSMo, or its successor provisions, any licensee who has exhausted all administrative remedies provided by law and who is aggrieved by a final decision in a contested case is entitled to judicial review;
- (j) Reporting and transmittal of tax payments required under this section;
- (k) Authorization for the department of revenue to have access to licensing information to ensure tax payment and the effective administration of this section; and
- (l) Such other matters as are necessary for the fair, impartial, stringent, and comprehensive administration of this section.
- (5) The department shall issue rules or emergency rules for a marijuana and marijuana-infused products independent testing and certification program for marijuana facility licensees and requiring licensees to test marijuana using one or more impartial, independent laboratory or laboratories to ensure, at a minimum, correct labeling, potency measurement, and that products sold for human consumption do not contain contaminants that are potentially injurious to public health.
- (6) The department shall issue rules or emergency rules to provide for the certification of and standards for marijuana testing facilities, including the requirements for equipment and qualifications for personnel, but shall not require certificate holders to have any federal agency licensing or have any relationship with a federally licensed testing facility. No marijuana testing facility shall be owned by an entity or entities under substantially common control, ownership, or management as a marijuana cultivation facility, marijuana-infused products manufacturing facility, marijuana microbusiness facility, or marijuana dispensary facility.
- (7) All public records produced or retained pursuant to this section are subject to the general provisions of the Missouri Sunshine Law, chapter 610, RSMo, or its successor provisions. Notwithstanding the foregoing, public records containing proprietary business information obtained from an applicant or licensee shall be closed. The applicant or licensee shall label business information it believes to be proprietary prior to submitting it to the department. Proprietary business information shall include sales information, financial records, tax returns, credit reports, license applications, cultivation information unrelated to product safety, testing results unrelated to product safety, site security information and plans, and individualized consumer information. The presence of proprietary business information shall not justify the closure of public records:
- Identifying the applicant or licensee;
 - Relating to any citation, notice of violation, tax delinquency, or other enforcement action;
 - Relating to any public official's support or opposition relative to any applicant, licensee, or their proposed or actual operations;
 - Where disclosure is reasonably necessary for the protection of public health or safety; or
 - That are otherwise subject to public inspection under applicable law.
- (8) Within one hundred and eighty days of the effective date of this section, the department shall make available to the public license application forms and application instructions for marijuana microbusiness facilities. Within two hundred and seventy days of the effective date of this section, the department shall start accepting such applications from applicants.
- (9) An entity may apply to the department for and obtain one or more licenses to grow marijuana as a comprehensive marijuana cultivation facility. Each facility in operation shall require a separate license, but multiple licenses may be utilized in a single facility. Each indoor facility utilizing artificial lighting may be limited by the department to thirty thousand square feet of flowering plant canopy space. Each outdoor facility utilizing natural lighting may be limited by the department to two thousand eight hundred flowering plants. Each greenhouse facility using a combination of natural and artificial lighting may be limited by the department, at the election of the licensee, to two thousand eight hundred flowering plants or thirty thousand square feet of flowering plant canopy. The license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a non-refundable fee of twelve thousand dollars per license application or renewal for all applicants filing an application within three years of the effective date of this section and shall charge each applicant a non-refundable fee of five thousand dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of twenty-five thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. An entity may not be an owner of more than ten percent of the total marijuana cultivation facility licenses outstanding under both sections 1 and 2 of this Article at any given time, rounded down to the nearest whole number.
- (10) An entity may apply to the department for and obtain one or more licenses to operate a comprehensive marijuana dispensary facility. Each facility in operation shall require a separate license. A license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a non-refundable fee of seven thousand dollars per license application or renewal for each applicant filing an application within three years of the effective date of this section and shall charge each applicant a non-refundable fee of three thousand dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of ten thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. An entity may not be an owner of more than ten percent of the total marijuana dispensary facility licenses outstanding under both sections 1 and 2 of this Article at any given time, rounded down to the nearest whole number.
- (11) An entity may apply to the department for and obtain one or more licenses to operate a comprehensive marijuana-infused products manufacturing facility. Each facility in operation shall require a separate license. A license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a non-refundable fee of seven thousand dollars per license application or renewal for each applicant filing an application within three years of the effective date of this section and shall charge each applicant a non-refundable fee of three thousand dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of ten thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. An entity may not be an owner of more than ten percent of the total marijuana-infused products manufacturing facility licenses outstanding under both sections 1 and 2 of this Article at any given time, rounded down to the nearest whole number.
- (12) An entity may apply to the department for and obtain only one license to operate a marijuana microbusiness facility, which may be either a microbusiness dispensary facility or a microbusiness wholesale facility. A marijuana microbusiness facility licensee may engage in all of the activities allowed under the license or it may apply for and engage in a subset of the activities allowed if the applicant or license holder so chooses. A microbusiness wholesale facility may cultivate, process, manufacture, transport, and sell marijuana and marijuana-infused products to any other marijuana microbusiness facility. A microbusiness dispensary facility licensee may acquire from any other microbusiness facility, process, package, deliver, and sell marijuana and marijuana-infused products to any other marijuana microbusiness facility, or directly to qualified patients, their primary caregiver, or consumers. A marijuana microbusiness license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a fee of one thousand five hundred dollars per license application and for each subsequent license renewal application thereafter. Any applicant that meets the criteria to apply for a marijuana microbusiness facility license but is not chosen by the lottery system may have their application fee refunded. Once granted, the department shall charge each licensee an annual fee of one thousand five hundred dollars per facility license, but there shall be no annual fee assessed for the first year of licensure. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. An entity may not be an owner of more than one marijuana microbusiness facility license. An owner of a marijuana microbusiness facility may apply for a license or licenses for other marijuana or medical marijuana facilities under this Article. If granted one or more of these licenses, the marijuana microbusiness facility owner shall transition to other licensed operations on a reasonably practical timetable established by the department, and surrender its marijuana microbusiness facility license to the department for issuance to an applicant for a marijuana microbusiness facility. In addition to other requirements established by this section, an applicant for a marijuana microbusiness license shall be majority owned by individuals who each meet at least one of the following qualifications:
- Have a net worth of less than \$250,000 and have had an income below two hundred and fifty percent of the federal poverty level, or successor level, as set forth in the applicable calendar year's federal poverty income guidelines published by the U.S. Department of Health and Human Services or its successor agency, for at least three of the ten calendar years prior to applying for a marijuana microbusiness facility license; or
 - Have a valid service-connected disability card issued by the United States Department of Veterans Affairs, or successor agency; or
 - Be a person who has been, or a person whose parent, guardian or spouse has been arrested for, prosecuted for, or convicted of a non-violent marijuana offense, except for a conviction involving provision of marijuana to a minor, or a conviction of driving under the influence of marijuana. The arrest, charge, or conviction must have occurred at least one year prior to the effective date of this section; or
 - Reside in a ZIP code or census tract area where:
 - Thirty percent or more of the population lives below the federal poverty level; or
 - The rate of unemployment is fifty percent higher than the state average rate of unemployment; or

- c. The historic rate of incarceration for marijuana-related offenses is fifty percent higher than the rate for the entire state; or
 - (e) Graduated from a school district that was unaccredited, or had a similar successor designation, at the time of graduation, or has lived in a zip code containing an unaccredited school district, or similar successor designation, for three of the past five years.
- (13) The department may restrict the aggregate number of licenses granted for marijuana microbusiness facilities, provided, however, that the number may not be limited to fewer than the following number of licenses in each United States congressional district in the state of Missouri pursuant to the map of each of the eight congressional districts as drawn and effective on December 6, 2018:
- (a) Six, once the department begins issuing licenses for marijuana microbusiness facilities under this subsection, at least two of which shall be a microbusiness dispensary facility, and at least four of which will be a microbusiness wholesale facility. The department shall issue the first group of microbusiness licenses no later than three hundred days after the effective date of this section;
 - (b) An additional six following the first two hundred and seventy days after the department begins issuing licenses for marijuana microbusiness facilities under this subsection, at least two of which shall be a microbusiness dispensary facility, and at least four of which will be a microbusiness wholesale facility, but only after the chief equity officer, or his or her designee, conducts a review and certifies that previous microbusiness licenses were awarded to and are being operated by eligible applicants in good standing; and
 - (c) An additional six after the first five hundred and forty-eight days after the department begins issuing licenses for marijuana microbusiness facilities under this subsection, at least two of which shall be a microbusiness dispensary facility, and at least four of which will be a microbusiness wholesale facility, but only after the chief equity officer, or his or her designee, conducts a review and certifies that previous microbusiness licenses were awarded to and are being operated in good standing by eligible applicants.
- Future changes to the boundaries or the number of congressional districts shall have no impact on microbusiness license numbers or distribution. The eligibility review set forth in this subdivision shall be conducted by the chief equity officer within sixty days of issuance of the licenses. The chief equity officer shall publish in a manner available to the public the results of the review that contains only aggregate information on licensee eligibility criteria.
- (14) Within 60 days after the effective date of this section, the department shall appoint a chief equity officer. The chief equity officer shall assist with the development and implementation of programs to inform the public of the opportunities available to those people who meet the criteria set forth in paragraph (12) of this subsection. The chief equity officer shall establish public education programming and targeted technical assistance programming dedicated to providing communities that have been impacted by marijuana prohibition with information detailing the licensing process and informing individuals of the support and resources that the office can provide to individuals and entities interested in participating in activity licensed under this Article. The chief equity officer shall provide a report to the department, no later than January 1, 2024, and annually thereafter, of their and the department's activities in ensuring compliance with the applicant criteria set forth in paragraph (12) of this subsection, and the department shall provide such report to the legislature. The chief equity officer may only be removed for cause and the department shall not interfere with the officer's lawful official activities under this section.
- (15) Any medical marijuana cultivation facility, medical marijuana dispensary facility, and medical marijuana-infused products manufacturing facility, holding an active facility license under section 1 of this Article shall have the right to convert their license to a comprehensive marijuana license, and any entity certified by the department to conduct medical marijuana testing, transportation or seed-to-sale tracking, as of the effective date of this section shall be deemed certified to conduct those activities with respect to all marijuana;
- (16) Upon the effective date of this section, any existing medical facility licensee may request its medical facility license convert to that of a comprehensive facility license. Conversion requests not processed within sixty days of department receipt shall be deemed approved.
- (17) With the exception of microbusiness licenses, and consistent with any limitations set forth in this section, for the first five hundred and forty-eight days after the department begins issuing licenses for marijuana facilities under this section, the department may only issue a license:
- (a) For a comprehensive marijuana cultivation facility to an entity holding a medical marijuana cultivation facility license issued pursuant to section 1 of this Article seeking to convert its licensure to that of a comprehensive marijuana cultivation facility at the same location;
 - (b) For a comprehensive marijuana dispensary facility to an entity holding a medical marijuana dispensary facility license issued pursuant to section 1 of this Article seeking to convert its licensure to that of a comprehensive marijuana dispensary facility at the same location; and
 - (c) For a comprehensive marijuana-infused products manufacturing facility to an entity holding a medical marijuana-infused products manufacturing facility license issued pursuant to section 1 of this Article seeking to convert its licensure to that of a comprehensive marijuana-infused products manufacturing facility at the same location.
- (18) The department shall issue a license to each request for a conversion to a comprehensive marijuana facility license pursuant to subdivision (15) of this subsection if the applicant is in good standing with the department.
- (19) Notwithstanding the provisions of section 1 of this Article, if an existing medical marijuana dispensary facility is located in a jurisdiction that prohibits non-medical retail marijuana facilities under this section, or is otherwise prevented from operating a comprehensive marijuana dispensary facility at the same location as the existing medical marijuana dispensary facility, the medical marijuana dispensary facility may apply to the department for a comprehensive marijuana dispensary license pursuant to subdivision (15) of this subsection in a new location within the same congressional district, and such application shall be granted so long as the new location meets all the requirements of this section and department regulations.
- (20) In addition to the foregoing, if the department has reason to believe that the conversion of a medical facility into a comprehensive facility might limit or restrict access to an adequate supply of marijuana and marijuana-infused products at a reasonable cost to qualifying patients, as defined in section 1 of this Article, the department may request a plan from the medical facility licensee which explains how the applicant would serve both the medical and adult-use markets, while maintaining adequate supply at a reasonable cost to qualifying patients.
- (21) Comprehensive marijuana facilities licensed to distribute marijuana, marijuana-infused products, and marijuana accessories directly to consumers pursuant to this section may also distribute marijuana, marijuana-infused products, and marijuana accessories to qualifying patients and primary caregivers consistent with section 1 of this Article and department regulation.
- (22) The department may charge a fee not to exceed two thousand five hundred dollars for any certification issued pursuant to this section. This fee limitation shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency.
- (23) Within thirty days of December 8, 2022, the department shall make available to the public application forms and application instructions for personal cultivation registration cards. Within sixty days of December 8, 2022, the department shall begin accepting applications for such registration cards.
- (24) Except for good cause, a person at least twenty-one years of age may obtain a registration card from the department to cultivate up to six flowering marijuana plants, six nonflowering marijuana plants (over fourteen inches tall), and six clones (plants under fourteen inches tall) for non-commercial use, provided:
- (a) The plants and any marijuana produced by the plants in excess of three ounces are kept at one private residence, are in a locked space, and are not visible by normal, unaided vision from a public place; and
 - (b) Not more than twelve flowering marijuana plants are kept in or on the grounds of a private residence at one time.
- The card shall be valid for twelve months from its date of issuance and shall be renewable. The department shall charge an annual fee for the card of one hundred dollars, with such rate to be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency.
- (25) All marijuana sold in Missouri pursuant to this section shall be cultivated in Missouri.
- (26) All marijuana-infused products sold in Missouri pursuant to this section shall be manufactured in Missouri.
- (27) The denial of a license or license renewal by the department shall be appealable. The applicant may choose to challenge any denial by the department through the administrative hearing commission, or successor entity. Pursuant to section 536.100, RSMo, or its successor provisions, any licensee who has exhausted all administrative remedies provided by law and who is aggrieved by a final decision in a contested case is entitled to judicial review.
- (28) No elected official shall interfere directly or indirectly with the department's obligations and activities under this section.
- (29) To minimize the potential for undue political influence in awarding licenses, the department shall review license applications using reasonable safeguards that ensure the identity of the applicant and its principal owners, officers, and managers are not identified to the application reviewer.
- (30) To ensure the consistent protection of public health and public safety, the department shall have the sole authority within the state of Missouri to issue licenses for marijuana facilities and certifications pursuant to this section.
- (31) The department shall not have the authority to promulgate, apply, or enforce any rule or regulation that is unduly burdensome or act to undermine the purposes of this section.

5. Local Control.

- (1) (a) Except as provided in this subsection, a local government may prohibit the operation of all microbusiness dispensary facilities or comprehensive marijuana dispensary facilities regulated under this section from being located within its jurisdiction either through referral of a ballot question to the voters by the governing body or through citizen petition, provided that citizen petitions are otherwise generally authorized by the laws of the local government. Such a ballot question shall be voted on only during the regularly scheduled general election held on the first Tuesday after the first Monday in November of a presidential election year, starting in 2024, thereby minimizing additional local governmental cost or expense. A citizen petition to put before the voters a ballot question prohibiting microbusiness dispensary facilities or comprehensive marijuana dispensary facilities shall be signed by at least five percent of the qualified voters in the area proposed to be subject to the

prohibition, determined on the basis of the number of votes cast for governor in such locale at the last gubernatorial election held prior to the filing of the petition. The local government shall count the petition signatures and give legal notice of the election as provided by applicable law. Denial of ballot access shall be subject to judicial review.

(b) Whether submitted by the governing body or by citizen's petition, the question shall be submitted in the following form: "Shall (insert name of local government) ban all non-medical microbusiness dispensary facilities and comprehensive marijuana dispensary facilities from being located within (insert name of local government and, where applicable, its "unincorporated areas") and forgo any additional related local tax revenue? () Yes () No." If at least sixty percent of the votes cast on the question by the qualified voters voting thereon are in favor of the question, then the ban shall go into effect as provided by law. If a question receives less than the required sixty percent, then the jurisdiction shall have no power to ban non-medical microbusiness dispensary facilities or comprehensive marijuana facilities regulated under this section, unless voters at a subsequent general election on the first Tuesday after the first Monday in November of a presidential election year approve a ban on non-medical retail marijuana facilities submitted to them by the governing body or by citizen petition.

(2) (a) A local government may repeal an existing ban by its own ordinance or by a vote of the people, either through referral of a ballot question to the voters by the governing body or through citizen petition, provided that citizen petitions are otherwise generally authorized by the laws of the local government. In the case of a referral of a ballot question by the governing body or citizen petition to repeal an existing ban, the question shall be voted on only during the regularly scheduled general election held on the first Tuesday after the first Monday in November of a presidential election year. A citizen petition to put before the voters a ballot question repealing an existing ban shall be signed by at least five percent of the qualified voters in the area subject to the ban, determined on the basis of the number of votes cast for governor in such locale at the last gubernatorial election held prior to the filing of the petition. The local government shall count the petition signatures and give legal notice of the election as provided by applicable law. Denial of ballot access shall be subject to judicial review.

(b) Whether submitted by the governing body or by citizen's petition, the question shall be submitted in the following form: "Shall (insert name of local government) allow non-medical microbusiness dispensary facilities and comprehensive marijuana dispensary facilities to be located within (insert name of local government and where applicable, its "unincorporated areas") as regulated by state law? () Yes () No." If a majority of the votes cast on the question by the qualified voters voting thereon are in favor of the question, then the ban shall be repealed.

(3) The only local government ordinances and regulations that are binding on a marijuana facility are those of the local government where the marijuana facility is located.

(4) Unless allowed by the local government, no new marijuana facility shall be initially sited within one thousand feet of any then-existing elementary or secondary school, child day-care center, or church. In the case of a freestanding facility, the distance between the facility and the school, daycare, or church shall be measured from the external wall of the facility structure closest in proximity to the school, daycare, or church to the closest point of the property line of the school, daycare, or church. If the school, daycare, or church is part of a larger structure, such as an office building or strip mall, the distance shall be measured to the entrance or exit of the school, daycare, or church closest in proximity to the facility. In the case of a facility that is part of a larger structure, such as an office building or strip mall, the distance between the facility and the school, daycare, or church shall be measured from the property line of the school, daycare, or church to the facility's entrance or exit closest in proximity to the school, daycare, or church. If the school, daycare, or church is part of a larger structure, such as an office building or strip mall, the distance shall be measured to the entrance or exit of the school, daycare, or church closest in proximity to the facility. Measurements shall be made along the shortest path between the demarcation points that can be lawfully traveled by foot.

(5) Except as otherwise provided in this subsection, no local government shall prohibit marijuana facilities or entities with a transportation certification either expressly or through the enactment of ordinances or regulations that make their operation unduly burdensome in the jurisdiction. However, local governments may enact ordinances or regulations not in conflict with this section, or with regulations enacted pursuant to this section, governing the time, place, and manner of operation of such facilities in the locality. A local government may establish civil penalties for violation of an ordinance or regulations governing the time, place, and manner of operation of a marijuana facility or entity holding a transportation certification that may operate in such locality.

(6) Local governments may enact ordinances or regulations not in conflict with this section, or with regulations enacted pursuant to this section, governing:

(a) The time and place where marijuana may be smoked in public areas within the locality; and

(b) The consumption of marijuana-infused products within designated areas, including the preparation of culinary dishes or beverages by local restaurants for on-site consumption on the same day it is prepared.

6. Taxation and Reporting.

(1) A tax shall be levied upon the retail sale of non-medical marijuana sold to consumers at marijuana facilities licensed pursuant to this section within the state. The tax shall be at a rate of six percent of the retail price. The tax shall be collected by each licensed retail marijuana facility and paid to the department of revenue. After retaining no more than two percent of the total tax collected or its actual collection costs, whichever is less, amounts generated by the marijuana tangible personal property retail sales tax levied in this section shall be deposited by the department of revenue into the veterans, health, and community reinvestment fund created under this subsection. Licensed entities making non-medical retail sales within the state shall be allowed approved credit for returns provided the tax was paid on the returned item and the purchaser was given the refund or credit. This tax shall not apply to medical marijuana dispensed to a registered qualifying patient or caregiver.

(2) There is hereby created in the state treasury the "Veterans, Health, and Community Reinvestment Fund" which shall consist of taxes and fees collected under this section. The state treasurer shall be custodian of the fund, and he or she shall invest monies in the fund in the same manner as other funds are invested. Any interest and moneys earned on such investments shall be credited to the fund. Notwithstanding any other provision of law, any monies remaining in the fund at the end of a biennium shall not revert to the credit of the general revenue fund. The commissioner of administration is authorized to make cash operating transfers to the fund for purposes of meeting the cash requirements of the department in advance of it receiving application, licensing, and tax revenue, with any such transfers to be repaid as provided by law. The fund shall be a dedicated fund and shall be distributed as follows:

(a) First, as determined by appropriation, to the department an amount necessary for the department to carry out its responsibilities under this section, including repayment of any cash operating transfers, payments made through contract or agreement with other state and public agencies necessary to carry out this section, and a reserve fund to maintain a reasonable working cash balance for the purpose of carrying out this section;

(b) Second, as determined by appropriation, to governmental entities in amounts necessary for carrying out responsibilities in the expungement of criminal history records under this section;

(c) Next, the remaining fund balance shall be distributed in thirds as follows:

a. One-third of the remainder of the fund balance shall be transferred to the Missouri veterans commission and allied state agencies, as determined by appropriation, exclusively for health care and other services for military veterans and their dependent families;

b. One-third of the remainder of the fund balance to the department to provide grants to agencies and not-for-profit organizations, whether government or community-based, to increase access to evidence-based low-barrier drug addiction treatment, prioritizing medically proven treatment and overdose prevention and reversal methods and public or private treatment options with an emphasis on reintegrating recipients into their local communities, to support overdose prevention education, and to support job placement, housing, and counseling for those with substance use disorders. Agencies and organizations serving populations with the highest rates of drug-related overdose shall be prioritized to receive the grants; and

c. One-third of the remainder of the fund balance to the Missouri public defender system. Any moneys credited to the Missouri public defender system shall be used only for legal assistance for low-income Missourians, shall not be diverted to any other purpose.

(d) All monies from the taxes and fees authorized hereunder shall provide new and additional funding for the purposes enumerated above and shall not replace existing funding.

(e) The unexpended balance existing in the fund shall be exempt from the provisions of section 33.080, RSMo, or its successor provisions, relating to the transfer of unexpended balances to the general revenue fund.

(3) For all retail sales of marijuana, a record shall be kept by the seller of all amounts and types of marijuana involved in the sale and the total amount of money involved in the sale, including itemizations, taxes collected, and grand total sale amounts. All such records shall be kept on the premises in a readily available format and be made available for review by the department and the department of revenue upon request. Such records shall be retained for five years from the date of the sale.

(4) The tax levied pursuant to this subsection is separate from and in addition to any general state and local sales and use taxes that apply to retail sales, which shall continue to be collected and distributed as provided by general law.

(5) Pursuant to Article III, Section 49 of this Constitution, the governing body of any local government is authorized to impose, by ordinance or order, an additional sales tax in an amount not to exceed three percent on all tangible personal property retail sales of adult use marijuana sold in such political subdivision. The tax authorized by this paragraph shall be in addition to any and all other tangible personal property retail sales taxes allowed by law, except that no ordinance or order imposing a tangible personal property retail sales tax under the provisions of this paragraph shall be effective unless the governing body of the political subdivision submits to the voters of the political subdivision, at a municipal, county or state general, primary or special election, a proposal to authorize the governing body of the political subdivision to impose a tax. Any additional local retail sales tax shall be collected pursuant to general laws for the collection of local sales taxes.

(6) Except as authorized in this Article, no additional taxes shall be imposed on the sale of marijuana.

(7) The fees and taxes provided for in this section shall be fully enforceable notwithstanding any other provision in this Constitution purportedly prohibiting or restricting the taxes and fees provided for herein.

(8) For taxpayers authorized to do business pursuant to this Article, the amount that would have been deducted in the computation of federal taxable income pursuant to 26 U.S.C. Section 280E of the Internal Revenue Code as in effect on January 1, 2021, or successor provisions, but is disallowed because cannabis is a controlled substance under federal law, shall be subtracted from the taxpayer's federal adjusted gross income, in determining the taxpayer's Missouri adjusted gross income.] The provisions of Section 1 and 2 shall supercede all laws and regulations, city, county, state and Federal that pertain to Cannabis in Missouri.

7. Additional Protections.

(1) A marijuana testing facility shall not be subject to civil or criminal prosecution under Missouri law, denial of any right or privilege, civil or administrative penalty or sanction, or disciplinary action by any accreditation or licensing board or commission for providing laboratory testing services that relate to marijuana consistent with this section and otherwise meeting legal standards of professional conduct.

(2) Notwithstanding any provision of Article V to the contrary, an attorney shall not be subject to disciplinary action by the Supreme Court of Missouri, the office of chief disciplinary counsel, the state bar association, any state agency or any professional licensing body for any of the following:

- (a) Owning, operating, investing in, being employed by, or contracting with prospective or licensed marijuana testing facilities, marijuana cultivation facilities, marijuana dispensary facilities, marijuana-infused products manufacturing facilities, marijuana microbusiness facilities, or transportation certificate holders;
 - (b) Counseling, advising, and/or assisting a client in conduct permitted by Missouri law that may violate or conflict with federal or other law, as long as the attorney advises the client about that federal or other law and its potential consequences;
 - (c) Counseling, advising, and/or assisting a client in connection with applying for, owning, operating, or otherwise having any legal, equitable, or beneficial interest in marijuana testing facilities, marijuana cultivation facilities, marijuana dispensary facilities, marijuana-infused products manufacturing facilities, marijuana microbusiness facilities, or transportation certificates; or
 - (d) Counseling, advising or assisting a qualifying patient, primary caregiver, physician, nurse practitioner, health care provider, consumer, or other client related to activity that is no longer subject to criminal penalties under Missouri law pursuant to this Article.
- (3) Actions and conduct by marijuana facilities licensed or otherwise certified by the department, or their employees or agents, as permitted by this section and in compliance with department regulations and other standards of legal conduct, shall not be subject to criminal or civil liability or sanctions under Missouri law, except as provided for by this section.
- (4) The department may not promulgate a rule that requires a consumer to provide a marijuana facility with identifying information other than identification to determine the consumer's age.

(5) It is the public policy of the state of Missouri that contracts related to marijuana that are entered into by marijuana facilities and those who allow property to be used by those entities should be enforceable. It is the public policy of the state of Missouri that no contract entered into by marijuana facilities, or by a person who allows property to be used for activities that are exempt from state criminal penalties by this section, shall be unenforceable on the basis that activities related to marijuana may be prohibited by federal law.

(6) Prior to requesting a search or arrest warrant relating to cultivation of marijuana plants, a state or local law enforcement official shall verify with the department whether the targeted person holds a registration card allowing for cultivation of flowering marijuana plants under this section, and shall inform the issuing authority when making the warrant request. Evidence of marijuana alone, without specific evidence indicating that the marijuana is outside of what is lawful for medical or adult use, cannot be the basis for a search of a patient or non-patient, including their home, vehicle or other property. Lawful marijuana related activities cannot be the basis for a violation of parole, probation, or any type of supervised release. State and local law enforcement shall have access to such department information as is necessary to confirm whether the targeted person holds a registration card. Each time a state or local law enforcement officer executes a search warrant authorizing entry upon premises for an alleged marijuana offense, the officer must first knock or announce their presence or purpose prior to entering the premises.

- (7) (a) After executing a search warrant for an alleged marijuana offense, or conducting a warrantless search for an alleged marijuana offense, the officer shall report the following information to the agency that employs the officer:
- a. The reasons for the warrant or, in the case of a warrantless search, a detailed account of either the probable cause or exigent circumstances, if any, which lead to the warrantless search;
 - b. Whether any marijuana was discovered during the course of the search;
 - c. Whether any marijuana was seized during the search, and if so, the amount seized;
 - d. Whether any other contraband was discovered or seized in the course of the search, and if seized, a description of the contraband;
 - e. A description of the tactics used by law enforcement to enter the property;
 - f. Whether an arrest was made as a result of the search; and
 - g. If an arrest was made, the crime suspected.

(b) Each law enforcement agency shall compile the data described in paragraph (a) of this subdivision for the calendar year into a report and shall submit the report to the attorney general no later than March first of the following calendar year. The attorney general shall determine the format that all law enforcement agencies shall use to submit the report.

(c) The attorney general shall submit a summary of the annual reports of law enforcement agencies to the governor, the general assembly, and each law enforcement agency no later than June first of each year. The summary shall include the total number of such warrants executed by each agency in the previous calendar year for alleged marijuana offenses, and a compilation of the information reported by law enforcement agencies pursuant to paragraph (b) of this subdivision.

8. Legislation.

Nothing in this section shall limit the general assembly from enacting laws consistent with the purposes and provisions of this section.

9. Additional Provisions.

(1) No owner of a marijuana facility or entity with a transportation certification shall be an individual with a disqualifying felony offense. A "disqualifying felony offense" is a violation of, and conviction or guilty plea to, state or federal law that is, or would have been, a felony under Missouri law, regardless of the sentence imposed, unless the department determines that:

- (a) The person's conviction was for a marijuana offense that has been expunged or is currently eligible for expungement under this section; or
- (b) The person's conviction was for a non-violent crime for which he or she was not incarcerated and that is more than five years old; or
- (c) More than five years have passed since the person was released from parole or probation, and he or she has not been convicted of any subsequent felony criminal offenses.

The department may consult with and rely on the records, advice, and recommendations of the attorney general and the department of public safety, or their successor entities, in carrying out the provisions of this subdivision.

(2) Owners licensed pursuant to this section shall submit fingerprints to the Missouri state highway patrol for the purpose of conducting a state and federal fingerprint-based criminal record check in accordance with U.S. Public Law 92-544, or its successor provisions. The Missouri state highway patrol, if necessary, shall forward the fingerprints to the Federal Bureau of Investigation (FBI) for the purpose of conducting a fingerprint-based criminal background check. Fingerprints shall be submitted pursuant to section ~~43,543~~, RSMo, or its successor provisions, and fees shall be paid pursuant to section ~~43,530~~, RSMo, or its successor provisions. Unless otherwise required by law, no individual shall be required to submit fingerprints more than once.

(3) No marijuana facility shall manufacture, package, or label marijuana or marijuana-infused products in a false or misleading manner. No person shall sell any product in a manner designed to cause confusion between marijuana or a marijuana-infused product and any product not containing marijuana. A violation of this subdivision shall be punishable by an appropriate and proportional department sanction, up to and including an administrative penalty of five thousand dollars and loss of license.

(4) No marijuana facility may sell edible marijuana-infused candy in shapes or packages that are attractive to children or that are easily confused with commercially sold candy that does not contain marijuana. A violation of this subdivision shall be punishable by an appropriate and proportional department sanction, up to and including an administrative penalty of five thousand dollars and loss of license.

(5) All marijuana and marijuana-infused products shall be sold in individual, child-resistant containers that are labeled with serving amounts, instructions for use, and estimated length of effectiveness. All marijuana and marijuana-infused products shall be sold in containers clearly and conspicuously labeled, as mandated by the department, as containing "Marijuana" or a "Marijuana-Infused Product". Violation of this subdivision shall subject the violator to department sanctions, including an administrative penalty of five thousand dollars.

(6) A marijuana facility may not allow cultivation, manufacturing, sale, or display of marijuana, marijuana-infused products, or marijuana accessories to be visible from a public place outside of the marijuana facility without the use of binoculars, aircraft, or other optical aids.

(7) A marijuana facility may not cultivate, manufacture, test, sell, or store marijuana at any location other than a physical address approved by the department and within an enclosed area that is secured in a manner that prevents access by persons not permitted by the marijuana facility to access the area.

(8) A marijuana facility shall secure every entrance to the facility so that access to areas containing marijuana is restricted to employees and other persons permitted by the marijuana facility to access the area and to agents of the department or state and local law enforcement officers and emergency personnel and shall secure its inventory and equipment during and after operating hours to deter and prevent theft of marijuana, marijuana-infused products, and marijuana accessories.

(9) No marijuana facility may refuse representatives of the department the right to inspect the licensed premises or to audit the books and records of the marijuana facility. A facility that holds licenses issued under sections 1 and 2 of this Article shall comply with inspection regulations and standards issued pursuant to both sections.

(10) No marijuana facility, or entity with a certification, shall assign, sell, give, lease, sublicense, or otherwise transfer its license or certificate to any other entity without the express consent of the department, not to be unreasonably withheld.

(11) Real and personal property used in the cultivation, manufacture, transport, testing, distribution, sale, and administration of marijuana for activities otherwise in compliance with this section shall not be subject to asset forfeiture solely because of that use.

(12) No person shall extract resins from marijuana using dangerous materials or combustible gases without a medical marijuana-infused products manufacturing facility license, marijuana-infused products manufacturing facility license, or a marijuana microbusiness wholesale facility license. Violation of this prohibition shall subject the violator to department sanctions, including an administrative penalty of one thousand dollars for an individual and ten thousand dollars for a facility licensee and, if applicable, loss of certificate or license for up to one year.

10. Personal Use of Marijuana.

(1) Subject to the limitations in subsection 3 of this section, the following acts by a person at least twenty-one years of age are not unlawful and shall not be an offense under state law or the laws of any local government within the state or be a basis to impose a civil fine, penalty, or sanction, or be a basis to detain, search, or arrest, or otherwise deny any right or privilege, or to seize or forfeit assets under state law or the laws of any local government:

(a) Purchasing, possessing, consuming, using, ingesting, inhaling, processing, transporting, delivering without consideration, or distributing without consideration three ounces or less of dried, unprocessed marijuana, or its equivalent;

(b) Possessing, transporting, planting, cultivating, harvesting, drying, processing, or manufacturing up to six flowering marijuana plants, six nonflowering marijuana plants (over fourteen inches tall), and six clones (plants under fourteen inches tall) provided the person is registered with the department for cultivation of marijuana plants under this section, provided:

- a. The plants and any marijuana produced by the plants in excess of three ounces are kept at one private residence, are in a locked space, and are not visible by normal, unaided vision from a public place; and
- b. Not more than twice the number of allowable plants under paragraph (b) of this subdivision are kept in or on the grounds of a private residence at one time.

(c) Assisting another person who is at least twenty-one years of age in, or allowing property to be used for, any of the acts permitted by this section; and

(d) Purchasing, possessing, using, delivering, distributing, manufacturing, transferring, or selling to persons twenty-one years of age or older marijuana accessories.

(2) A person who, pursuant to this section, cultivates marijuana plants that are visible by normal, unaided vision from a public place is subject to a civil penalty not exceeding two hundred and fifty dollars and forfeiture of the marijuana.

(3) A person who, pursuant to this section, cultivates marijuana plants that are not kept in a locked space is subject to a civil penalty not exceeding two hundred and fifty dollars and forfeiture of the marijuana.

(4) A person who smokes marijuana in a public place, other than in an area licensed for such activity by the authorities having jurisdiction over the licensing and/or permitting of said activity, is subject to a civil penalty not exceeding one hundred dollars.

(5) A person who is under twenty-one years of age who possesses, uses, ingests, inhales, transports, delivers without consideration or distributes without consideration three ounces or less of marijuana, or possesses, delivers without consideration, or distributes without consideration marijuana accessories is subject to a civil penalty not to exceed one hundred dollars and forfeiture of the marijuana. Any such person shall be provided the option of attending up to four hours of drug education or counseling in lieu of the fine.

(6) Subject to the limitations of this section, a person who possesses not more than twice the amount of marijuana allowed pursuant to this subsection, produces not more than twice the amount of marijuana allowed pursuant to this subsection, delivers without receiving any consideration or remuneration to a person who is at least twenty-one years of age not more than twice the amount of marijuana allowed by this subsection, or possesses with intent to deliver not more than twice the amount of marijuana allowed by this subsection:

(a) For a first violation, is subject to a civil infraction punishable by a civil penalty not exceeding two hundred and fifty dollars and forfeiture of the marijuana;

(b) For a second violation, is subject to a civil infraction punishable by a civil penalty not exceeding five hundred dollars and forfeiture of the marijuana;

(c) For a third or subsequent violation, is subject to a misdemeanor punishable by a fine not exceeding one-thousand dollars and forfeiture of the marijuana;

(d) A person under twenty-one years of age is subject to a civil penalty not to exceed two hundred and fifty dollars. Any such person shall be provided the option of attending up to eight hours of drug education or counseling in lieu of the fine; and

(e) In lieu of payment, penalties under this subsection may be satisfied by the performance of community service. The rate of pay-down associated with said service option will be the greater of \$15 or the minimum wage in effect at the time of judgment.

(7) (a) Any person currently incarcerated in a prison, jail or halfway house, whether by trial or open or negotiated plea:

- a. Who would not have been guilty of an adult or juvenile offense, had sections 1 and 2 of this Article been in effect at the time of the offense; or
- b. Who would have been guilty of a lesser adult or juvenile offense had sections 1 and 2 of this Article been in effect at the time of the offense; or

c. Who is serving a sentence for a marijuana offense which is a misdemeanor, a class E felony, or a class D felony, or successor designations, involving possession of three pounds or less of marijuana, excluding offenses involving distribution or delivery to a minor, any offenses involving violence, or any offense of operating a motor vehicle while under the influence of marijuana; may petition the sentencing court to vacate the sentence, order immediate release from incarceration and other supervision by the department of corrections, and the expungement of all government records of the case. Such expungement from all government records shall be granted for all of the person's applicable marijuana offenses, absent good cause for denial. The effect of such orders shall be to restore such person to the status the person occupied prior to such arrest, plea or conviction and as if such event had never taken place, and the conviction and sentence shall be vacated as legally invalid. No person for whom such order has been entered shall be held thereafter under any provision of any law to be guilty of perjury or otherwise giving a false statement by reason of the person's failure to recite or acknowledge such arrest, plea, trial, conviction, or expungement in response to any inquiry made of the person for any purpose whatsoever, and no such inquiry shall be made for information relating to an expungement. The court shall not assess any filing fee for these filings. The office of the state public defender shall prepare and make readily available and accessible a pleading form that may be filed pro se for this purpose. The circuit courts of the state shall also make readily available and accessible this pleading form. Within ninety days of the effective date of this section, the sentencing court shall complete the adjudication for all cases involving only misdemeanor marijuana offenses. Within one hundred and eighty days of the effective date of this section, the sentencing court shall complete the adjudication for all cases involving class E, or successor designation, felony marijuana offenses and, if applicable, any additional marijuana misdemeanor offenses by such offenders. Within two hundred and seventy days of the effective date of this section, the sentencing court shall complete the adjudication for all class D, or successor designation, felony cases involving three pounds or less of marijuana, as well as any lesser marijuana offenses by such offenders, if applicable. This shall not apply to offenses while operating a commercial motor vehicle as defined in 49 CFR 390.5, or its successor provisions, in interstate or intrastate transportation unless otherwise exempted as found in section 307.400, RSMo, or its successor provisions.

(b) Any person currently on probation or parole for a marijuana law violation, whether by trial or open or negotiated plea:

- a. Who would not have been guilty of an adult or juvenile offense, had sections 1 and 2 of this Article been in effect at the time of the offense; or
- b. Who would have been guilty of a lesser adult or juvenile offense had sections 1 and 2 of this Article been in effect at the time of the offense; or
- c. Who was convicted or plead guilty to a marijuana offense which is a misdemeanor, a class E felony, or a class D felony, or successor designations, involving the possession of three pounds or less of marijuana, excluding distribution or delivery to a minor or any offense of operating a motor vehicle while under the influence of marijuana; shall, upon the effective date of this section, have their sentence automatically vacated by the sentencing court, which shall order the immediate termination of supervision by the department of corrections, and the expungement of all government records of the case. Such expungement from all government records shall be granted for all of the person's applicable marijuana offenses, absent good cause for denial. The effect of such orders shall be to restore such person to the status the person occupied prior to such arrest, plea or conviction and as if such event had never taken place, and the conviction and sentence shall be vacated as legally invalid. No person for whom such order has been entered shall be held thereafter under any provision of any law to be guilty of perjury or otherwise giving a false statement by reason of the person's failure to recite or acknowledge such arrest, plea, trial, conviction, or expungement in response to any inquiry made of the person for any purpose whatsoever, and no such inquiry shall be made for information relating to an expungement. The court shall not assess any filing fee for these cases. This shall not apply to offenses while operating a commercial motor vehicle as defined in 49 CFR 390.5, or its successor provisions, in interstate or intrastate transportation unless otherwise exempted as found in section 307.400, RSMo, or its successor provisions.

(8) (a) Within six months of the effective date of this section, the circuit courts of this state shall order the expungement of the criminal history records of all misdemeanor marijuana offenses for any person who is no longer incarcerated or under the supervision of the department of corrections. Within twelve months of the effective date of this section, the circuit courts of this state shall order the expungement of criminal history records for all persons no longer incarcerated or under the supervision of the department of corrections but who have completed their sentence for any felony marijuana offenses and any marijuana offenses that would no longer be a crime after the effective dates of sections 1 and 2 of this Article, excluding distribution or delivery to a minor, any such offenses involving violence, or any offense of operating a motor vehicle while under the influence of marijuana. For all class A, class B and class C, or successor designations, felony marijuana offenses, and for all class D, or successor designation, felony marijuana offenses for possession of more than three pounds of marijuana, the circuit courts of this state shall order expungement of criminal history records upon the completion of the person's incarceration, including any supervised probation or parole. For the purposes of this subdivision, "criminal history record" means all information documenting an individual's contact with the criminal justice system, including data regarding identification, arrest or citation, arraignment, judicial disposition, custody, and supervision.

(b) An expungement order shall be legally effective immediately and the person whose record is expunged shall be treated in all respects as if he or she had never been arrested, convicted, or sentenced for the offense, and the conviction and sentence shall be vacated as legally invalid. The court shall issue an order to expunge all records and files related to the arrest, citation, investigation, charge, adjudication of guilt, criminal proceedings, and probation related to the sentence. The court shall provide notice of the expungement to the person who is the subject of the record at the person's last known address, the arresting agency, prosecuting attorneys, central state depository of criminal records, and any other entity that may have a record related to the order to expunge. The central state depository of criminal records shall provide notice of the expungement to the Federal Bureau of Investigation's National Crime Information Center, or its successor agency. The court shall issue the person a certificate stating that the offense for which the person was convicted has been expunged and that its effect is to annul the record of arrest, conviction, and sentence.

(c) The effect of such expungement shall be to restore such person to the status the person occupied prior to such arrest, plea, or conviction and as if such event had never taken place. Such person shall not be required to acknowledge the existence of such a criminal history record or answer questions about the record in any application for employment, license, or civil right or privilege or in an appearance as a witness in any proceeding or hearing, and may deny the existence of the record regardless of whether the person has received notice from the court that an expungement order has been issued on the person's behalf.

(d) No person shall be prosecuted again for any offense which has been vacated or expunged.

(e) The court shall keep a special index of cases that have been expunged together with the expungement order and the certificate issued pursuant to this subsection. The index shall list only the name of the person convicted of the offense, his or her date of birth, the docket number, and the criminal offense that was the subject of the expungement. The special index and related documents shall be confidential and shall be physically and electronically segregated in a manner that ensures confidentiality and that limits access to authorized persons. The court may permit special access to the index and the documents for research purposes pursuant to the rules for public access to court records. The index and documents made available by the court may not include any identifying information.

(9) A person currently under parole, probation, or other state supervision, or released awaiting trial or other hearing, may not be punished or otherwise penalized based solely on conduct that is permitted by this section.

(10) No conduct permitted by this section shall constitute the basis for detention, search, or arrest; and except when law enforcement is investigating whether a person is operating a motor vehicle, train, aircraft, motorboat, or other motorized form of transport while under the influence of marijuana, the odor of marijuana or burnt marijuana, the possession or suspicion of possession of marijuana without evidence of a quantity in excess of the lawful amount, or the possession of multiple containers of marijuana without evidence of quantity in excess of the lawful amount shall not individually or in combination with each other constitute reasonably articulable suspicion of a crime. Marijuana and marijuana-infused products as permitted by this section are not contraband nor subject to seizure.

(11) A person shall not be denied eligibility in public assistance programs or public benefits based solely on conduct that is permitted by this Article, unless required by federal law.

(12) No person shall be denied their rights under Article 1, Section 23 of the Missouri Constitution, solely for conduct that is permitted by this section.

(13) No person shall be denied parental rights, custody of, or visitation with a minor child by a state or local government executive agency based solely on conduct that is permitted by this section, unless the person's behavior is such that it creates an unreasonable danger to a minor child that can be established by clear and convincing evidence.

[11. Interstate Commerce.] 3. Interstate Commerce.

[If federal law, rules, or regulations are amended to allow the interstate commerce of marijuana or marijuana-infused products or the importation or exportation of marijuana or marijuana-infused products into or out of the state of Missouri, the provisions and intent of this section shall, to the extent possible, remain in full effect, unless explicitly preempted by such federal law, rule, or regulation. If federal law, rules, or regulations are amended as provided above, any marijuana or marijuana-infused products imported into this state shall be subject to the same testing standards and seed-to-sale tracking system required under this section for marijuana and marijuana-infused products produced within the state. Unless federal law, rules, or regulations explicitly require otherwise, no entity shall sell, transport, produce, distribute, deliver, or cultivate marijuana or marijuana-infused products without an applicable license or certificate as required under this section. In addition, any raw biomass of marijuana or marijuana flower imported from out-of-state shall be received only by a licensed cultivation facility, while all batch oil, infused marijuana products and any marijuana product in any other form shall be received only by a licensed manufacturing facility.] The Interstate Commerce of Cannabis, Cannabis products and/or Cannabis accessories, from Missouri shall be permitted to those states and nations that have legalized Cannabis in some form. The level of restriction of Cannabis commerce to any state or nation shall be based on the laws of the recipient of Missouri's Cannabis products.

[12. Severability.] 4. Severability.

[The provisions of this section are severable, and if any clause, sentence, paragraph or section of this measure, or an application thereof, is adjudged invalid by any court of competent jurisdiction, the other provisions shall continue to be in effect to the fullest extent possible.] The provisions of this section are severable. If any clause, sentence, paragraph or section of this measure, or an application thereof, is deemed invalid by a majority vote from a General Election, the other provisions shall continue to be in effect to the fullest extent possible.

[13. Effective Date.] 5. Effective Date of Implementation.

[The provisions of this section shall become effective within thirty days following the election, as provided by this Constitution.] The dictates of this Initiative, unless otherwise indicated by this Initiative shall be implemented no later than January 31st, 2025.

JOHN R. ASHCROFT

STATE AUDITORS OFFICE

The Honorable Scott Fitzpatrick
State Auditor
State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from David Brain regarding a proposed constitutional amendment to Article VIII, version 4 (2024-110)

Dear Auditor Fitzpatrick:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by David Brain on April 17, 2023.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

NOTICE: The proposed amendment revises Article VIII of the Constitution by adopting six new Sections to be known as Article VIII, Sections 8, 9, 10, 12, 13, and 14.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article VIII of the Constitution is revised by adopting six new Sections to be known as Article VIII, Sections 8, 9, 10, 12, 13, and 14 to read as follows:

Section 8. Ballot titles for ballot measures, whether proposed by the General Assembly or through citizen initiative or referendum, shall be clear, unbiased, fair, sufficient, and to the extent possible shall only include language found in the proposed measure.

Section 9. 1. Subject to appropriation and upon request by an election authority, the secretary of state shall provide technical assistance and recommended guidelines for the management, administration, and accuracy of voter rolls and registrations maintained and used by any election authority, including but not limited to signature reviews and removing deceased individuals from the voter rolls, and may provide funding assistance to election authorities.

2. Subject to appropriation, election authorities shall update all voter rolls which such election authority has control over, upon the proper notification by a state agency of any voter who is not a qualified registered voter in the jurisdiction of such election authority, including deceased individuals.

Section 10. 1. All established political parties in the state shall have a right to have their designated nominees appear on the general election ballot. For purposes of this Section, "established political party" shall mean a political party which, at either of the last two general elections, has one of its candidates for any statewide office receive more than two percent of the entire vote cast for the office.

2. Any group of persons desiring to form a new political party throughout the state, which shall include being formed for all districts and counties in which the party may have nominations, shall file a petition with the secretary of state which shall be signed by at least ten thousand registered voters of the state obtained at large.

3. All established political parties in the state will retain their established political party status unless such party, at any two consecutive general elections fails to have at least one candidate for any statewide office receive more than two percent of the entire vote cast for the office.

Section 12. 1. In any party primary election, each registered voter shall be entitled to receive the ballot of one and only one political party. Each eligible registered voter who participates in a party primary shall be entitled to vote on all questions and for any nonpartisan candidates submitted by political subdivisions and special districts at the primary election. Each eligible registered voter who does not wish to participate in a party primary may vote on all questions and for any nonpartisan candidates submitted by a political subdivision or special district at the primary election. For purposes of this Section, "nonpartisan candidate" shall mean a candidate who is not a candidate of any political party and who is running for an office for which party candidates may not run.

2. In a contest for nomination for or election to an office of a political subdivision or special district, the requirements of this section shall not apply in any circumstance where it conflicts with a federally mandated voting system or with a law or policy adopted in any election after the year 2014 by a majority of the voters casting votes in such election of the subdivision or district.

3. Nothing in this section shall apply to the election of delegates selected by senate district to a constitutional convention under the provisions of Article XII of this Constitution.

4. Notwithstanding any other provision of this Constitution to the contrary and subject to other provisions of this article relating to primaries, voters shall have the liberty to choose all the candidates they like in each primary, special, and general election race conducted by election authorities in the State of Missouri, including all subdivisions therein, held on or after the enactment of this section.

5. The instructions on every ballot subject to this section shall state, "Choose ALL candidates you like in each race."

6. The candidate who receives the highest number of votes for each office shall be declared the winner of the election for that office. In all elections where multiple candidates are to be elected for the same office or position, the number of candidates receiving the highest number of votes for the respective number of offices or positions appearing on the ballot shall be elected.

7. Nothing in this section shall authorize or allow any voter to assign to a candidate any order, ranking order, or ranking number, indicating a voter's preference for or against any candidate.

Section 13. 1. The chair of the county committee, or the city committee of a city not within a county, of each established political party with a candidate on the ballot shall have the exclusive right to designate an observer for any polling place on any day in which votes are being cast who may be present until all ballots are cast, and an observer for each location at which absentee ballots or ballots cast on election day are counted, who may be present while the ballots are being prepared for counting and counted and may remain until all ballots are counted. No later than four business days

before the election, the chair shall provide signed designation forms with the names of the designated observers to the local election authority for confirmation of eligibility to serve as an observer. The local election authority shall sign off on the designation forms, unless the observer is found not to have the qualifications established by subsection 3 of this section. If the election authority determines that an observer does not meet the qualifications of subsection 3 of this section, the election authority shall notify the designating party chair and such chair may designate a replacement observer and provide the local election authority with the name of the replacement observer before 5:00 p.m. of the Monday preceding the election. The designating chair may substitute observers, who meet the qualifications of subsection 3, at his or her discretion before 5:00 pm on the Monday preceding the election.

2. An independent candidate shall also have the right to designate an observer in the same manner as each political party, except should more than one independent candidate appear on the ballot, the independent candidates shall agree on a single observer per polling place or location referenced in subsection 1 of this section.

3. All persons selected as observers shall only be required to have the same qualifications required by law for election judges.

4. In a nonpartisan election, each nonpartisan candidate on the ballot shall have the right to designate an observer in the same manner as each political party for each polling place or location at which such candidate appears on the ballot, except should more than three nonpartisan candidates appear on the ballot, the nonpartisan candidates shall agree on no more than two observers per polling place or location referenced in subsection 1 of this section. The General Assembly shall enact laws to provide for procedures to carry out this subsection.

5. For purposes of this section, "observer" shall mean a watcher, challenger, or observer of an election as provided by law.

Section 14. If any portion, clause, or phrase of this Amendment is, for any reason, held to be invalid or unconstitutional in a final judgment of a court of competent jurisdiction, the remaining portions, clauses, and phrases shall not be affected, but shall remain in full force and effect.

**MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (24-110)**

Subject

Initiative petition from David Brain regarding a proposed constitutional amendment to Article VIII. (Received April 18, 2023)

Date

May 5, 2023

Description

This proposal would amend Article VIII of the Missouri Constitution.

The amendment is to be voted on in November 2024.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office**, the **Department of Agriculture**, the **Department of Economic Development**, the **Department of Elementary and Secondary Education**, the **Department of Higher Education and Workforce Development**, the **Department of Health and Senior Services**, the **Department of Commerce and Insurance**, the **Department of Mental Health**, the **Department of Natural Resources**, the **Department of Corrections**, the **Department of Labor and Industrial Relations**, the **Department of Revenue**, the **Department of Public Safety**, the **Missouri Department of the National Guard**, the **Department of Social Services**, the **Governor's office**, the **Missouri House of Representatives**, the **Department of Conservation**, the **Department of Transportation**, the **Office of Administration**, the **Office of State Courts Administrator**, the **Missouri Senate**, the **Secretary of State's office**, the **Office of the State Public Defender**, the **State Treasurer's office**, **Adair County**, **Boone County**, **Callaway County**, **Cass County**, **Clay County**, **Cole County**, **Greene County**, **Jackson County**, **Jasper County**, **St. Charles County**, **St. Louis County**, **Taney County**, the **City of Cape Girardeau**, the **City of Columbia**, the **City of Jefferson**, the **City of Joplin**, the **City of Kansas City**, the **City of Kirksville**, the **City of Mexico**, the **City of Raymore**, the **City of St. Joseph**, the **City of St. Louis**, the **City of Springfield**, the **City of Union**, the **City of Wentzville**, the **City of West Plains**, **Cape Girardeau 63 School District**, **Hannibal 60 School District**, **Malta Bend R-V School District**, **Mehlville School District**, **Wellsville-Middletown R-1 School District**, **State Technical College of Missouri**, **Metropolitan Community College**, **University of Missouri**, **St. Louis Community College**, the **St. Charles County Election Authority**, the **St. Louis County Board of Elections**, the **Board of Election Commissioners City of St. Louis**, the **Kansas City Board of Election Commissioners**, the **Platte County Board of Elections**, the **Jackson County Election Board**, **Clay County Board of Election Commissioners**, and the **State Auditor's Office**.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no impact.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated they have reviewed initiative petition 24-110 and determined there is no fiscal impact to their agency.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no anticipated cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipated no fiscal impact for this initiative petition proposing to amend Article VIII.

Officials from the **Department of Revenue** indicated the initiative petition will not have a fiscal impact on their department.

Officials from the **Department of Public Safety** indicated no impact for their department, Director's office.

Officials from the **Missouri Department of the National Guard** indicated no fiscal impact to their department.

Officials from the **Department of Social Services** indicated they do not anticipate any fiscal impact as a result of this petition.

Officials from the **Governor's office** indicated this proposal relating to initiatives and elections does not financially impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated initiative petition 24-110 will have no fiscal impact on their department.

Officials from the **Department of Transportation** indicated no fiscal impact expected for their department or the Missouri Highways and Transportation Commission for this initiative petition.

Officials from the **Office of Administration** indicated this proposal relating to ballot measures and elections does not financially impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be \$10 million based on the cost of the 2022 primary and general election reimbursements.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

For the FY22 petitions cycle, their office estimates publication costs at \$70,000 per page. This amount is subject to change based on number of petitions received, length of those petitions and rates charged by newspaper publishers.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated initiative petition 24-110 will have no fiscal impact on their office.

Officials from the **Office of the State Treasurer** indicated no fiscal impact to their office.

Officials from **Clay County** indicated they estimate no fiscal impact as a result of this initiative.

Officials from **Greene County** indicated there are no estimated costs or savings to report from the County of Greene for initiative petition 24-110 proposing to amend Article VIII.

Officials from **St. Louis County** indicated this initiative petition will have no fiscal impact on their county.

Officials from the **City of Kansas City** indicated this initiative petition would have no fiscal impact on their city.

Officials from **Metropolitan Community College** indicated no fiscal impact to their college.

Officials from the **University of Missouri** indicated this petition has no impact on their system.

Officials from the **St. Louis Community College** indicated they have reviewed the initiative petition and determined that it would not have a direct financial impact upon College finances.

Officials from the **St. Louis County Board of Elections** indicated this initiative petition would have no fiscal impact on their Board of Elections.

Officials from the **Board of Election Commissioners City of St. Louis** indicated no perceived impact on their organization.

Officials from the **Kansas City Board of Election Commissioners** indicated if this petition were to become law, monies for a tabulation software update estimated at \$10,000,

judge and staff training \$35,000 (1,000 election workers times \$35) and public notice of \$50,000 would be needed. This would be a one-time expenditure.

The Board further indicated in response to questions regarding the initial response:

The Board has a different tabulation system than Jackson County. The Board has not checked with the Board's vendor, but think there has got to be a way for the election authority to tabulate these votes. After careful consideration, the Board thinks all voters should understand the new voting process as it will be very confusing for everyone. Public notices, printed literature and TV ads would be needed. The Board does poll worker training most elections depending on the timing between elections. This would ensure that training and the length of time of it. Additional compensation would be add to judges checks, plus staff overtime, training manual updates and rental expense. \$35K is a fair estimate for everything. The Board would run public notices in all the KC area papers, about 6 papers, one to two times. TV ads hopefully would be free or cheap. If the Board mailed out literature to registered voters, the costs would be substantially higher, maybe \$100,000+ for 225,000 voters. This was not included in the estimate. None of this is required to the Board's knowledge, only reasonable steps to be taken when changing the voting process.

Officials from the **Jackson County Election Board** indicated no software exists that would allow a voter to choose all candidates they like in a race without the ranking of those candidates. Software for rank choice voting is approved by the Election Assistance Commission (EAC) for up to three choices, not unlimited.

If voters were to choose all candidates they like in a given race it would count as an overvote and that voter's vote would not count.

Officials from the **State Auditor's office** indicated no fiscal impact.

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County, the City of Cape Girardeau, the City of Columbia, the City of Jefferson, the City of Joplin, the City of Kirksville, the City of Mexico, the City of Raymore, the City of St. Joseph, the City of St. Louis, the City of Springfield, the City of Union, the City of Wentzville, the City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, the St. Charles County Election Authority, the Platte County Board of Elections, and the Clay County Board of Election Commissioners.**

Fiscal Note Summary

State governmental entities estimate no costs or savings. Local governmental entities estimate one-time costs of at least \$95,000.

RE: Petition approval request from David Brain regarding a proposed constitutional amendment to Article VIII, version 3 (2024-109)

Dear Auditor Fitzpatrick:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by David Brain on April 17, 2023.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

NOTICE: The proposed amendment revises Article VIII of the Constitution by adopting six new Sections to be known as Article VIII, Sections 8, 9, 10, 12, 13, and 14.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article VIII of the Constitution is revised by adopting six new Sections to be known as Article VIII, Sections 8, 9, 10, 12, 13, and 14 to read as follows:

Section 8. Ballot titles for ballot measures, whether proposed by the General Assembly or through citizen initiative or referendum, shall be clear, unbiased, fair, sufficient, and to the extent possible shall only include language found in the proposed measure.

Section 9. 1. All established political parties in the state shall have a right to have their designated nominees appear on the general election ballot. For purposes of this Section, "established political party" shall mean a political party which, at either of the last two general elections, has one of its candidates for any statewide office receive more than two percent of the entire vote cast for the office.

2. Any group of persons desiring to form a new political party throughout the state, which shall include being formed for all districts and counties in which the party may have nominations, shall file a petition with the secretary of state which shall be signed by at least ten thousand registered voters of the state obtained at large.

3. All established political parties in the state will retain their established political party status unless such party, at any two consecutive general elections fails to have at least one candidate for any statewide office receive more than two percent of the entire vote cast for the office.

Section 10. 1. In any party primary election, each registered voter shall be entitled to receive the ballot of one and only one political party. Each eligible registered voter who participates in a party primary shall be entitled to vote on all questions and for any nonpartisan candidates submitted by political subdivisions and special districts at the primary election. Each eligible registered voter who does not wish to participate in a party primary may vote on all questions and for any nonpartisan candidates submitted by a political subdivision or special district at the primary election. For purposes of this Section, "nonpartisan candidate" shall mean a candidate who is not a candidate of any political party and who is running for an office for which party candidates may not run.

2. In a contest for nomination for or election to an office of a political subdivision or special district, the requirements of this section shall not apply in any circumstance where it conflicts with a federally mandated voting system or with a law or policy adopted in any election after the year 2014 by a majority of the voters casting votes in such election of the subdivision or district.

3. Nothing in this section shall apply to the election of delegates selected by senate district to a constitutional convention under the provisions of Article XII of this Constitution.

4. Notwithstanding any other provision of this Constitution to the contrary and subject to other provisions of this article relating to primaries, voters shall have the liberty to choose all the candidates they like in each primary, special, and general election race conducted by election authorities in the State of Missouri, including all subdivisions therein, held on or after the enactment of this section.

5. The instructions on every ballot subject to this section shall state, "Choose ALL candidates you like in each race."

6. The candidate who receives the highest number of votes for each office shall be declared the winner of the election for that office. In all elections where multiple candidates are to be elected for the same office or position, the number of candidates receiving the highest number of votes for the respective number of offices or positions appearing on the ballot shall be elected.

7. Nothing in this section shall authorize or allow any voter to assign to a candidate any order, ranking order, or ranking number, indicating a voter's preference for or against any candidate.

Section 12. 1. The chair of the county committee, or the city committee of a city not within a county, of each established political party with a candidate on the ballot shall have the exclusive right to designate an observer for any polling place on any day in which votes are being cast who may be present until all ballots are cast, and an observer for each location at which absentee ballots or ballots cast on election day are counted, who may be present while the ballots are being prepared for counting and counted and may remain until all ballots are counted. No later than four business days before the election, the chair shall provide signed designation forms with the names of the designated observers to the local election authority for confirmation of eligibility to serve as an observer. The local election authority shall sign off on the designation forms, unless the observer is found not to have the qualifications established by subsection 3 of this section. If the election authority determines that an observer does not meet the qualifications of subsection 3 of this section, the election authority shall notify the designating party chair and such chair may designate a replacement observer and provide the local election authority with the name of the replacement observer before 5:00 p.m. of the Monday preceding the election. The designating chair may substitute observers, who meet the qualifications of subsection 3, at his or her discretion before 5:00 pm on the Monday preceding the election.

2. An independent candidate shall also have the right to designate an observer in the same manner as each political party, except should more than one independent candidate appear on the ballot, the independent candidates shall agree on a single observer per polling place or location referenced in subsection 1 of this section.

3. All persons selected as observers shall only be required to have the same qualifications required by law for election judges.

4. In a nonpartisan election, each nonpartisan candidate on the ballot shall have the right to designate an observer in the same manner as each political party for each polling place or location at which such candidate appears on the ballot, except should more than three nonpartisan candidates appear on the ballot, the nonpartisan candidates shall agree on no more than two observers per polling place or location referenced in subsection 1 of this section. The General Assembly shall enact laws to provide for procedures to carry out this subsection.

5. For purposes of this section, "observer" shall mean a watcher, challenger, or observer of an election as provided by law.

Section 13. 1. Prior to the certification of the election results, each election authority shall, at a minimum, undertake a manual audit of randomly selected precincts which shall equal the greater of: 5% of all election precincts within the election authority's jurisdiction, one precinct, or any number required by law. No such audit shall be performed, conducted, or overseen by any non-governmental entity. All ballots cast at such election by qualified registered voters in such precincts shall be subject to the manual audit. The manual audit shall be open to the public, be completed within fourteen (14) days of the conclusion of the election, and document the exact method of random selection to select precincts. Results from the manual audit shall be publicly available within two (2) days after its completion.

2. For the randomly selected precinct(s), the election authority shall manually audit one (1) contested election or ballot issue which shall be randomly selected from each of the following categories, where applicable: (A) Presidential and Vice-Presidential electors, United States senate candidates and state-wide candidates; (B) State-wide ballot issues; (C) United States representative candidates and state general assembly candidates; (D) Partisan circuit and associate circuit judge candidates and all nonpartisan judicial retention candidates; and (E) all remaining candidates or ballot issues for the remaining political subdivisions and special districts, including the county, in the randomly selected precincts. In addition to the randomly selected office or ballot measure above, the election authority shall manually audit all races in which the margin of victory between the two (2) top candidates is equal to or less than one-half of one percent (0.5%) of the number of votes cast for the office.

3. If, based on the manual audit, the election authority finds evidence of errors in the original tabulation that could change the result of any election or would exceed a threshold established by law, the election authority shall immediately notify the candidates in such election of the evidence of errors in the tabulation and such candidates may request a manual recount of all ballots in that election as provided by law.

Section 14. If any portion, clause, or phrase of this Amendment is, for any reason, held to be invalid or unconstitutional in a final judgment of a court of competent jurisdiction, the remaining portions, clauses, and phrases shall not be affected, but shall remain in full force and effect.

**MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (24-109)**

Subject

Initiative petition from David Brain regarding a proposed constitutional amendment to Article VIII. (Received April 18, 2023)

Date

May 5, 2023

Description

This proposal would amend Article VIII of the Missouri Constitution.

The amendment is to be voted on in November 2024.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office**, the **Department of Agriculture**, the **Department of Economic Development**, the **Department of Elementary and Secondary Education**, the **Department of Higher Education and Workforce Development**, the **Department of Health and Senior Services**, the **Department of Commerce and Insurance**, the **Department of Mental Health**, the **Department of Natural Resources**, the **Department of Corrections**, the **Department of Labor and Industrial Relations**, the **Department of Revenue**, the **Department of Public Safety**, the **Missouri Department of the National Guard**, the **Department of Social Services**, the **Governor's office**, the **Missouri House of Representatives**, the **Department of Conservation**, the **Department of Transportation**, the **Office of Administration**, the **Office of State Courts Administrator**, the **Missouri Senate**, the **Secretary of State's office**, the **Office of the State Public Defender**, the **State Treasurer's office**, **Adair County**, **Boone County**, **Callaway County**, **Cass County**, **Clay County**, **Cole County**, **Greene County**, **Jackson County**, **Jasper County**, **St. Charles County**, **St. Louis County**, **Taney County**, the **City of Cape Girardeau**, the **City of Columbia**, the **City of Jefferson**, the **City of Joplin**, the **City of Kansas City**, the **City of Kirksville**, the **City of Mexico**, the **City of Raymore**, the **City of St. Joseph**, the **City of St. Louis**, the **City of Springfield**, the **City of Union**, the **City of Wentzville**, the **City of West Plains**, **Cape Girardeau 63 School District**, **Hannibal 60 School District**, **Malta Bend R-V School District**, **Mehlville School District**, **Wellsville-Middletown R-1 School District**, **State Technical College of Missouri**, **Metropolitan Community College**, **University of Missouri**, **St. Louis Community College**, the **St. Charles County Election Authority**, the **St. Louis County Board of Elections**, the **Board of Election Commissioners City of St. Louis**, the **Kansas City Board of Election Commissioners**, the **Platte County Board of Elections**, the **Jackson County Election Board**, **Clay County Board of Election Commissioners**, and the **State Auditor's Office**.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no impact.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated they have reviewed initiative petition 24-109 and determined there is no fiscal impact.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no anticipated cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipated no fiscal impact for this initiative petition proposing to amend Article VIII.

Officials from the **Department of Revenue** indicated the initiative petition will not have a fiscal impact on their department.

Officials from the **Department of Public Safety** indicated no impact for their department, Director's office.

Officials from the **Missouri Department of the National Guard** indicated no fiscal impact to their department.

Officials from the **Department of Social Services** indicated they do not anticipate any fiscal impact as a result of this petition.

Officials from the **Governor's office** indicated this proposal relating to initiatives and elections does not financially impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated initiative petition 24-109 will have no fiscal impact on their department.

Officials from the **Department of Transportation** indicated no fiscal impact expected for their department or the Missouri Highways and Transportation Commission for this initiative petition.

Officials from the **Office of Administration** indicated this proposal relating to ballot measures and elections does not financially impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be \$10 million based on the cost of the 2022 primary and general election reimbursements.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

For the FY22 petitions cycle, their office estimates publication costs at \$70,000 per page. This amount is subject to change based on number of petitions received, length of those petitions and rates charged by newspaper publishers.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated initiative petition 24-109 will have no fiscal impact on their office.

Officials from the **Office of the State Treasurer** indicated no fiscal impact to their office.

Officials from **Clay County** indicated they estimate no fiscal impact as a result of this initiative.

Officials from **Greene County** indicated there are no estimated costs or savings to report from the County of Greene for initiative petition 24-109 proposing to amend Article VIII.

Officials from **St. Louis County** indicated this initiative petition will have no fiscal impact on their county.

Officials from the **City of Kansas City** indicated this initiative petition would have no fiscal impact on their city.

Officials from **Metropolitan Community College** indicated no fiscal impact to their college.

Officials from the **University of Missouri** indicated this petition has no impact on their system.

Officials from the **St. Louis Community College** indicated they have reviewed the initiative petition and determined that it would not have a direct financial impact upon College finances.

Officials from the **St. Louis County Board of Elections** indicated this initiative petition would have no fiscal impact on their Board of Elections.

Officials from the **Board of Election Commissioners City of St. Louis** indicated no perceived impact on their organization.

Officials from the **Kansas City Board of Election Commissioners** indicated if this petition were to become law, monies for a tabulation software update estimated at \$10,000,

judge and staff training \$35,000 (1,000 election workers times \$35) and public notice of \$50,000 would be needed. This would be a one-time expenditure.

The Board further indicated in response to questions regarding the initial response:

The Board has a different tabulation system than Jackson County. The Board has not checked with the Board's vendor, but think there has got to be a way for the election authority to tabulate these votes. After careful consideration, the Board thinks all voters should understand the new voting process as it will be very confusing for everyone. Public notices, printed literature and TV ads would be needed. The Board does poll worker training most elections depending on the timing between elections. This would ensure that training and the length of time of it. Additional compensation would be add to judges checks, plus staff overtime, training manual updates and rental expense. \$35K is a fair estimate for everything. The Board would run public notices in all the KC area papers, about 6 papers, one to two times. TV ads hopefully would be free or cheap. If the Board mailed out literature to registered voters, the costs would be substantially higher, maybe \$100,000+ for 225,000 voters. This was not included in the estimate. None of this is required to the Board's knowledge, only reasonable steps to be taken when changing the voting process.

Officials from the **Jackson County Election Board** indicated no software exists that would allow a voter to choose all candidates they like in a race without the ranking of those candidates. Software for rank choice voting is approved by the Election Assistance Commission (EAC) for up to three choices, not unlimited.

If voters were to choose all candidates they like in a given race it would count as an overvote and that voter's vote would not count.

Section 12-2

This section would change Missouri State Statute 115.601 where the percentage for a recount for candidates that did not file with the Missouri Secretary of State is currently 1%, not 1/2 of 1 %. This would increase the number of recounts in municipal elections which tend to be close races and are time consuming and costly.

Estimated Cost Yearly to Reduce the Percentage Requirement

\$0.00 - \$10,000.00 (depending on number of recounts)

Officials from the **State Auditor's office** indicated no fiscal impact.

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County, the City of Cape Girardeau, the City of Columbia, the City of Jefferson, the City of Joplin, the City of Kirksville, the City of Mexico, the City of Raymore, the City of St. Joseph, the City of St. Louis, the City of Springfield,**

the City of Union, the City of Wentzville, the City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, the St. Charles County Election Authority, the Platte County Board of Elections, and the Clay County Board of Election Commissioners.

Fiscal Note Summary

State governmental entities estimate no costs or savings. Local governmental entities estimate one-time costs of at least \$95,000.

NOTICE: The proposed amendment revises Article VIII of the Constitution by adopting five new Sections to be known as Article VIII, Sections 8, 9, 10, 12, and 13.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article VIII of the Constitution is revised by adopting five new Sections to be known as Article VIII, Sections 8, 9, 10, 12, and 13 to read as follows:

Section 8. Ballot titles for ballot measures, whether proposed by the General Assembly or through citizen initiative or referendum, shall be clear, unbiased, fair, sufficient, and to the extent possible shall only include language found in the proposed measure.

Section 9. 1. All established political parties in the state shall have a right to have their designated nominees appear on the general election ballot. For purposes of this Section, "established political party" shall mean a political party which, at either of the last two general elections, has one of its candidates for any statewide office receive more than two percent of the entire vote cast for the office.

2. Any group of persons desiring to form a new political party throughout the state, which shall include being formed for all districts and counties in which the party may have nominations, shall file a petition with the secretary of state which shall be signed by at least ten thousand registered voters of the state obtained at large.

3. All established political parties in the state will retain their established political party status unless such party, at any two consecutive general elections fails to have at least one candidate for any statewide office receive more than two percent of the entire vote cast for the office.

Section 10. 1. In any party primary election, each registered voter shall be entitled to receive the ballot of one and only one political party. Each eligible registered voter who participates in a party primary shall be entitled to vote on all questions and for any nonpartisan candidates submitted by political subdivisions and special districts at the primary election. Each eligible registered voter who does not wish to participate in a party primary may vote on all questions and for any nonpartisan candidates submitted by a political subdivision or special district at the primary election. For purposes of this Section, "nonpartisan candidate" shall mean a candidate who is not a candidate of any political party and who is running for an office for which party candidates may not run.

2. In a contest for nomination for or election to an office of a political subdivision or special district, the requirements of this section shall not apply in any circumstance where it conflicts with a federally mandated voting system or with a law or policy adopted in any election after the year 2014 by a majority of the voters casting votes in such election of the subdivision or district.

3. Nothing in this section shall apply to the election of delegates selected by senate district to a constitutional convention under the provisions of Article XII of this Constitution.

4. Notwithstanding any other provision of this Constitution to the contrary and subject to other provisions of this article relating to primaries, voters shall have the liberty to choose all the candidates they like in each primary, special, and general election race conducted by election authorities in the State of Missouri, including all subdivisions therein, held on or after the enactment of this section.

5. The instructions on every ballot subject to this section shall state, "Choose ALL candidates you like in each race."

6. The candidate who receives the highest number of votes for each office shall be declared the winner of the election for that office. In all elections where multiple candidates are to be elected for the same office or position, the number of candidates receiving the highest number of votes for the respective number of offices or positions appearing on the ballot shall be elected.

7. Nothing in this section shall authorize or allow any voter to assign to a candidate any order, ranking order, or ranking number, indicating a voter's preference for or against any candidate.

Section 12. 1. Prior to the certification of the election results, each election authority shall, at a minimum, undertake a manual audit of randomly selected precincts which shall equal the greater of: 5% of all election precincts within the election authority's jurisdiction, one precinct, or any number required by law. No such audit shall be performed, conducted, or overseen by any non-governmental entity. All ballots cast at such election by qualified registered voters in such precincts shall be subject to the manual audit. The manual audit shall be open to the public, be completed within fourteen (14) days of the conclusion of the election, and document the exact method of random selection to select precincts. Results from the manual audit shall be publicly available within two (2) days after its completion.

2. For the randomly selected precinct(s), the election authority shall manually audit one (1) contested election or ballot issue which shall be randomly selected from each of the following categories, where applicable: (A) Presidential and Vice-Presidential electors, United States senate candidates and state-wide candidates; (B) State-wide ballot issues; (C) United States representative candidates and state general assembly candidates; (D) Partisan circuit and associate circuit judge candidates and all nonpartisan judicial retention candidates; and (E) all remaining candidates or ballot issues for the remaining political subdivisions and special districts, including the county, in the randomly selected precincts. In

addition to the randomly selected office or ballot measure above, the election authority shall manually audit all races in which the margin of victory between the two (2) top candidates is equal to or less than one-half of one percent (0.5%) of the number of votes cast for the office.

3. If, based on the manual audit, the election authority finds evidence of errors in the original tabulation that could change the result of any election or would exceed a threshold established by law, the election authority shall immediately notify the candidates in such election of the evidence of errors in the tabulation and such candidates may request a manual recount of all ballots in that election as provided by law.

Section 13. If any portion, clause, or phrase of this Amendment is, for any reason, held to be invalid or unconstitutional in a final judgment of a court of competent jurisdiction, the remaining portions, clauses, and phrases shall not be affected, but shall remain in full force and effect.

**MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (24-108)**

Subject

Initiative petition from David Brain regarding a proposed constitutional amendment to Article VIII. (Received April 18, 2023)

Date

May 5, 2023

Description

This proposal would amend Article VIII of the Missouri Constitution.

The amendment is to be voted on in November 2024.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office**, the **Department of Agriculture**, the **Department of Economic Development**, the **Department of Elementary and Secondary Education**, the **Department of Higher Education and Workforce Development**, the **Department of Health and Senior Services**, the **Department of Commerce and Insurance**, the **Department of Mental Health**, the **Department of Natural Resources**, the **Department of Corrections**, the **Department of Labor and Industrial Relations**, the **Department of Revenue**, the **Department of Public Safety**, the **Missouri Department of the National Guard**, the **Department of Social Services**, the **Governor's office**, the **Missouri House of Representatives**, the **Department of Conservation**, the **Department of Transportation**, the **Office of Administration**, the **Office of State Courts Administrator**, the **Missouri Senate**, the **Secretary of State's office**, the **Office of the State Public Defender**, the **State Treasurer's office**, **Adair County**, **Boone County**, **Callaway County**, **Cass County**, **Clay County**, **Cole County**, **Greene County**, **Jackson County**, **Jasper County**, **St. Charles County**, **St. Louis County**, **Taney County**, the **City of Cape Girardeau**, the **City of Columbia**, the **City of Jefferson**, the **City of Joplin**, the **City of Kansas City**, the **City of Kirksville**, the **City of Mexico**, the **City of Raymore**, the **City of St. Joseph**, the **City of St. Louis**, the **City of Springfield**, the **City of Union**, the **City of Wentzville**, the **City of West Plains**, **Cape Girardeau 63 School District**, **Hannibal 60 School District**, **Malta Bend R-V School District**, **Mehlville School District**, **Wellsville-Middletown R-1 School District**, **State Technical College of Missouri**, **Metropolitan Community College**, **University of Missouri**, **St. Louis Community College**, the **St. Charles County Election Authority**, the **St. Louis County Board of Elections**, the **Board of Election Commissioners City of St. Louis**, the **Kansas City Board of Election Commissioners**, the **Platte County Board of Elections**, the **Jackson County Election Board**, **Clay County Board of Election Commissioners**, and the **State Auditor's Office**.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no impact.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated they have reviewed initiative petition 24-108 and determined there is no fiscal impact.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no anticipated cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipated no fiscal impact for this initiative petition proposing to amend Article VIII.

Officials from the **Department of Revenue** indicated the initiative petition will not have a fiscal impact on their department.

Officials from the **Department of Public Safety** indicated no impact for their department, Director's office.

Officials from the **Missouri Department of the National Guard** indicated no fiscal impact to their department.

Officials from the **Department of Social Services** indicated they do not anticipate any fiscal impact as a result of this petition.

Officials from the **Governor's office** indicated this proposal relating to initiatives and elections does not financially impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated initiative petition 24-108 will have no fiscal impact on their department.

Officials from the **Department of Transportation** indicated no fiscal impact expected for their department or the Missouri Highways and Transportation Commission for this initiative petition.

Officials from the **Office of Administration** indicated this proposal relating to ballot measures and elections does not financially impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be \$10 million based on the cost of the 2022 primary and general election reimbursements.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

For the FY22 petitions cycle, their office estimates publication costs at \$70,000 per page. This amount is subject to change based on number of petitions received, length of those petitions and rates charged by newspaper publishers.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated initiative petition 24-108 will have no fiscal impact on their office.

Officials from the **Office of the State Treasurer** indicated no fiscal impact to their office.

Officials from **Clay County** indicated they estimate no fiscal impact as a result of this initiative.

Officials from **Greene County** indicated there are no estimated costs or savings to report from the County of Greene for initiative petition, 24-108 proposing to amend Article VIII.

Officials from **St. Louis County** indicated this initiative petition will have no fiscal impact on their county.

Officials from the **City of Kansas City** indicated this initiative petition would have no fiscal impact on their city.

Officials from **Metropolitan Community College** indicated no fiscal impact to their college.

Officials from the **University of Missouri** indicated this petition has no impact on their system.

Officials from the **St. Louis Community College** indicated they have reviewed the initiative petition and determined that it would not have a direct financial impact upon College finances.

Officials from the **St. Louis County Board of Elections** indicated this initiative petition would have no fiscal impact on their Board of Elections.

Officials from the **Board of Election Commissioners City of St. Louis** indicated no perceived impact on their organization.

Officials from the **Kansas City Board of Election Commissioners** indicated if this petition were to become law, monies for a tabulation software update estimated at \$10,000,

judge and staff training \$35,000 (1,000 election workers times \$35) and public notice of \$50,000 would be needed. This would be a one-time expenditure.

The Board further indicated in response to questions regarding the initial response:

The Board has a different tabulation system than Jackson County. The Board has not checked with the Board's vendor, but think there has got to be a way for the election authority to tabulate these votes. After careful consideration, the Board thinks all voters should understand the new voting process as it will be very confusing for everyone. Public notices, printed literature and TV ads would be needed. The Board does poll worker training most elections depending on the timing between elections. This would ensure that training and the length of time of it. Additional compensation would be add to judges checks, plus staff overtime, training manual updates and rental expense. \$35K is a fair estimate for everything. The Board would run public notices in all the KC area papers, about 6 papers, one to two times. TV ads hopefully would be free or cheap. If the Board mailed out literature to registered voters, the costs would be substantially higher, maybe \$100,000+ for 225,000 voters. This was not included in the estimate. None of this is required to the Board's knowledge, only reasonable steps to be taken when changing the voting process.

Officials from the **Jackson County Election Board** indicated no software exists that would allow a voter to choose all candidates they like in a race without the ranking of those candidates. Software for rank choice voting is approved by the Election Assistance Commission (EAC) for up to three choices, not unlimited.

If voters were to choose all candidates they like in a given race it would count as an overvote and that voter's vote would not count.

Section 12-2

This section would change Missouri State Statute 115.601 where the percentage for a recount for candidates that did not file with the Missouri Secretary of State is currently 1%, not 1/2 of 1 %. This would increase the number of recounts in municipal elections which tend to be close races and are time consuming and costly.

Estimated Cost Yearly to Reduce the Percentage Requirement

\$.00 - \$10,000.00 (depending on number of recounts)

Officials from the **State Auditor's office** indicated no fiscal impact.

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County, the City of Cape Girardeau, the City of Columbia, the City of Jefferson, the City of Joplin, the City of Kirksville, the City of Mexico, the City of Raymore, the City of St. Joseph, the City of St. Louis, the City of Springfield,**

the City of Union, the City of Wentzville, the City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, the St. Charles County Election Authority, the Platte County Board of Elections, and the Clay County Board of Election Commissioners.

Fiscal Note Summary

State governmental entities estimate no costs or savings. Local governmental entities estimate one-time costs of at least \$95,000.

The Honorable Scott Fitzpatrick
State Auditor
State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from David Brain regarding a proposed constitutional amendment to Article VIII, version 1 (2024-107)

Dear Auditor Fitzpatrick:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by David Brain on April 17, 2023.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

NOTICE: The proposed amendment revises Article VIII of the Constitution by adopting five new Sections to be known as Article VIII, Sections 8, 9, 10, 12, and 13.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article VIII of the Constitution is revised by adopting five new Sections to be known as Article VIII, Sections 8, 9, 10, 12, and 13 to read as follows:

Section 8. Ballot titles for ballot measures, whether proposed by the General Assembly or through citizen initiative or referendum, shall be clear, unbiased, fair, sufficient, and to the extent possible shall only include language found in the proposed measure.

Section 9. 1. All established political parties in the state shall have a right to have their designated nominees appear on the general election ballot. For purposes of this Section, "established political party" shall mean a political party which, at either of the last two general elections, has one of its candidates for any statewide office receive more than two percent of the entire vote cast for the office.

2. Any group of persons desiring to form a new political party throughout the state, which shall include being formed for all districts and counties in which the party may have nominations, shall file a petition with the secretary of state which shall be signed by at least ten thousand registered voters of the state obtained at large.

3. All established political parties in the state will retain their established political party status unless such party, at any two consecutive general elections fails to have at least one candidate for any statewide office receive more than two percent of the entire vote cast for the office.

Section 10. 1. In any party primary election, each registered voter shall be entitled to receive the ballot of one and only one political party. Each eligible registered voter who participates in a party primary shall be entitled to vote on all questions and for any nonpartisan candidates submitted by political subdivisions and special districts at the primary election. Each eligible registered voter who does not wish to participate in a party primary may vote on all questions and for any nonpartisan candidates submitted by a political subdivision or special district at the primary election. For purposes of this Section, "nonpartisan candidate" shall mean a candidate who is not a candidate of any political party and who is running for an office for which party candidates may not run.

2. In a contest for nomination for or election to an office of a political subdivision or special district, the requirements of this section shall not apply in any circumstance where it conflicts with a federally mandated voting system or with a law or policy adopted in any election after the year 2014 by a majority of the voters casting votes in such election of the subdivision or district.

3. Nothing in this section shall apply to the election of delegates selected by senate district to a constitutional convention under the provisions of Article XII of this Constitution.

4. Notwithstanding any other provision of this Constitution to the contrary and subject to other provisions of this article relating to primaries, voters shall have the liberty to choose all the candidates they like in each primary, special, and general election race conducted by election authorities in the State of Missouri, including all subdivisions therein, held on or after the enactment of this section.

5. The instructions on every ballot subject to this section shall state, "Choose ALL candidates you like in each race."

6. The candidate who receives the highest number of votes for each office shall be declared the winner of the election for that office. In all elections where multiple candidates are to be elected for the same office or position, the number of candidates receiving the highest number of votes for the respective number of offices or positions appearing on the ballot shall be elected.

7. Nothing in this section shall authorize or allow any voter to assign to a candidate any order, ranking order, or ranking number, indicating a voter's preference for or against any candidate.

Section 12. 1. The chair of the county committee, or the city committee of a city not within a county, of each established political party with a candidate on the ballot shall have the exclusive right to designate an observer for any polling place on any day in which votes are being cast who may be present until all ballots are cast, and an observer for each location at which absentee ballots or ballots cast on election day are counted, who may be present while the ballots are being prepared for counting and counted and may remain until all ballots are counted. No later than four business days before the election, the chair shall provide signed designation forms with the names of the designated observers to the local election authority for confirmation of eligibility to serve as an observer. The local election authority shall sign off on the designation forms, unless the observer is found not to have the qualifications established by subsection 3 of this section. If the election authority determines that an observer does not meet the qualifications of subsection 3 of this section, the election authority shall notify the designating party chair and such chair may designate a replacement observer and provide the local election authority with the name of the replacement observer before 5:00 p.m. of the Monday preceding the election. The designating chair may substitute observers, who meet the qualifications of subsection 3, at his or her discretion before 5:00 pm on the Monday preceding the election.

2. An independent candidate shall also have the right to designate an observer in the same manner as each political party, except should more than one independent candidate appear on the ballot, the independent candidates shall agree on a single observer per polling place or location referenced in subsection 1 of this section.

3. All persons selected as observers shall only be required to have the same qualifications required by law for election judges.

4. In a nonpartisan election, each nonpartisan candidate on the ballot shall have the right to designate an observer in the same manner as each political party for each polling place or location at which such candidate appears on the ballot, except should more than three nonpartisan candidates appear on the ballot, the nonpartisan candidates shall agree on no more than two observers per polling place or location referenced in subsection 1 of this section. The General Assembly shall enact laws to provide for procedures to carry out this subsection.

5. For purposes of this section, “observer” shall mean a watcher, challenger, or observer of an election as provided by law.

Section 13. If any portion, clause, or phrase of this Amendment is, for any reason, held to be invalid or unconstitutional in a final judgment of a court of competent jurisdiction, the remaining portions, clauses, and phrases shall not be affected, but shall remain in full force and effect.

**MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (24-107)**

Subject

Initiative petition from David Brain regarding a proposed constitutional amendment to Article VIII. (Received April 18, 2023)

Date

May 5, 2023

Description

This proposal would amend Article VIII of the Missouri Constitution.

The amendment is to be voted on in November 2024.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office**, the **Department of Agriculture**, the **Department of Economic Development**, the **Department of Elementary and Secondary Education**, the **Department of Higher Education and Workforce Development**, the **Department of Health and Senior Services**, the **Department of Commerce and Insurance**, the **Department of Mental Health**, the **Department of Natural Resources**, the **Department of Corrections**, the **Department of Labor and Industrial Relations**, the **Department of Revenue**, the **Department of Public Safety**, the **Missouri Department of the National Guard**, the **Department of Social Services**, the **Governor's office**, the **Missouri House of Representatives**, the **Department of Conservation**, the **Department of Transportation**, the **Office of Administration**, the **Office of State Courts Administrator**, the **Missouri Senate**, the **Secretary of State's office**, the **Office of the State Public Defender**, the **State Treasurer's office**, **Adair County**, **Boone County**, **Callaway County**, **Cass County**, **Clay County**, **Cole County**, **Greene County**, **Jackson County**, **Jasper County**, **St. Charles County**, **St. Louis County**, **Taney County**, the **City of Cape Girardeau**, the **City of Columbia**, the **City of Jefferson**, the **City of Joplin**, the **City of Kansas City**, the **City of Kirksville**, the **City of Mexico**, the **City of Raymore**, the **City of St. Joseph**, the **City of St. Louis**, the **City of Springfield**, the **City of Union**, the **City of Wentzville**, the **City of West Plains**, **Cape Girardeau 63 School District**, **Hannibal 60 School District**, **Malta Bend R-V School District**, **Mehlville School District**, **Wellsville-Middletown R-1 School District**, **State Technical College of Missouri**, **Metropolitan Community College**, **University of Missouri**, **St. Louis Community College**, the **St. Charles County Election Authority**, the **St. Louis County Board of Elections**, the **Board of Election Commissioners City of St. Louis**, the **Kansas City Board of Election Commissioners**, the **Platte County Board of Elections**, the **Jackson County Election Board**, **Clay County Board of Election Commissioners**, and the **State Auditor's Office**.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no impact.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated they have reviewed initiative petition 24-107 and determined there is no fiscal impact.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no anticipated cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipated no fiscal impact for this initiative petition proposing to amend Article VIII.

Officials from the **Department of Revenue** indicated the initiative petition will not have a fiscal impact on their department.

Officials from the **Department of Public Safety** indicated no impact for their department, Director's office.

Officials from the **Missouri Department of the National Guard** indicated no fiscal impact to their department.

Officials from the **Department of Social Services** indicated they do not anticipate any fiscal impact as a result of this petition.

Officials from the **Governor's office** indicated this proposal relating to initiatives and elections does not financially impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated initiative petition 24-107 will have no fiscal impact on their department.

Officials from the **Department of Transportation** indicated no fiscal impact expected for their department or the Missouri Highways and Transportation Commission for this initiative petition.

Officials from the **Office of Administration** indicated this proposal relating to initiatives and elections does not financially impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be \$10 million based on the cost of the 2022 primary and general election reimbursements.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

For the FY22 petitions cycle, their office estimates publication costs at \$70,000 per page. This amount is subject to change based on number of petitions received, length of those petitions and rates charged by newspaper publishers.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated initiative petition 24-107 will have no fiscal impact on their office.

Officials from the **Office of the State Treasurer** indicated no fiscal impact to their office.

Officials from **Clay County** indicated they estimate no fiscal impact as a result of this initiative.

Officials from **Greene County** indicated there are no estimated costs or savings to report from the County of Greene for initiative petition, 24-107 proposing to amend Article VIII.

Officials from **St. Louis County** indicated this initiative petition will have no fiscal impact on their county.

Officials from the **City of Kansas City** indicated this initiative petition would have no fiscal impact on their city.

Officials from **Metropolitan Community College** indicated no fiscal impact to their college.

Officials from the **University of Missouri** indicated this petition has no impact on their system.

Officials from the **St. Louis Community College** indicated they have reviewed the initiative petition and determined there is no direct financial impact (positive or negative) to the College.

Officials from the **St. Louis County Board of Elections** indicated this initiative petition would have no fiscal impact on their Board of Elections.

Officials from the **Board of Election Commissioners City of St. Louis** indicated no perceived impact.

Officials from the **Kansas City Board of Election Commissioners** indicated if this petition were to become law, monies for a tabulation software update estimated at \$10,000,

judge and staff training \$35,000 (1,000 election workers times \$35) and public notice of \$50,000 would be needed. This would be a one-time expenditure.

The Board further indicated in response to questions regarding the initial response:

The Board has a different tabulation system than Jackson County. The Board has not checked with the Board's vendor, but think there has got to be a way for the election authority to tabulate these votes. After careful consideration, the Board thinks all voters should understand the new voting process as it will be very confusing for everyone. Public notices, printed literature and TV ads would be needed. The Board does poll worker training most elections depending on the timing between elections. This would ensure that training and the length of time of it. Additional compensation would be add to judges checks, plus staff overtime, training manual updates and rental expense. \$35K is a fair estimate for everything. The Board would run public notices in all the KC area papers, about 6 papers, one to two times. TV ads hopefully would be free or cheap. If the Board mailed out literature to registered voters, the costs would be substantially higher, maybe \$100,000+ for 225,000 voters. This was not included in the estimate. None of this is required to the Board's knowledge, only reasonable steps to be taken when changing the voting process.

Officials from the **Jackson County Election Board** indicated no software exists that would allow a voter to choose all candidates they like in a race without the ranking of those candidates. Software for rank choice voting is approved by the Election Assistance Commission (EAC) for up to three choices, not unlimited.

If voters were to choose all candidates they like in a given race it would count as an overvote and that voter's vote would not count.

Officials from the **State Auditor's office** indicated no fiscal impact.

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County, the City of Cape Girardeau, the City of Columbia, the City of Jefferson, the City of Joplin, the City of Kirksville, the City of Mexico, the City of Raymore, the City of St. Joseph, the City of St. Louis, the City of Springfield, the City of Union, the City of Wentzville, the City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, the St. Charles County Election Authority, the Platte County Board of Elections, and the Clay County Board of Election Commissioners.**

Fiscal Note Summary

State governmental entities estimate no costs or savings. Local governmental entities estimate one-time costs of at least \$95,000.

RE: Petition approval request from Madeline Smith regarding a proposed constitutional amendment to Article I (2024-106)

Dear Auditor Fitzpatrick:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Madeline Smith on April 13, 2023.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Article I of the Constitution is revised by repealing section 33 which reads as follows: [That to be valid and recognized in this state, a marriage shall exist only between a man and a woman.]

**MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (24-106)**

Subject

Initiative petition from Madeline Smith regarding a proposed constitutional amendment to Article I. (Received April 14, 2023)

Date

May 4, 2023

Description

This proposal would amend Article I of the Missouri Constitution.

The amendment is to be voted on in November 2024.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office**, the **Department of Agriculture**, the **Department of Economic Development**, the **Department of Elementary and Secondary Education**, the **Department of Higher Education and Workforce Development**, the **Department of Health and Senior Services**, the **Department of Commerce and Insurance**, the **Department of Mental Health**, the **Department of Natural Resources**, the **Department of Corrections**, the **Department of Labor and Industrial Relations**, the **Department of Revenue**, the **Department of Public Safety**, the **Missouri Department of the National Guard**, the **Department of Social Services**, the **Governor's office**, the **Missouri House of Representatives**, the **Department of Conservation**, the **Department of Transportation**, the **Office of Administration**, the **Office of State Courts Administrator**, the **Missouri Senate**, the **Secretary of State's office**, the **Office of the State Public Defender**, the **State Treasurer's office**, **Adair County**, **Boone County**, **Callaway County**, **Cass County**, **Clay County**, **Cole County**, **Greene County**, **Jackson County**, **Jasper County**, **St. Charles County**, **St. Louis County**, **Taney County**, the **City of Cape Girardeau**, the **City of Columbia**, the **City of Jefferson**, the **City of Joplin**, the **City of Kansas City**, the **City of Kirksville**, the **City of Mexico**, the **City of Raymore**, the **City of St. Joseph**, the **City of St. Louis**, the **City of Springfield**, the **City of Union**, the **City of Wentzville**, the **City of West Plains**, **Cape Girardeau 63 School District**, **Hannibal 60 School District**, **Malta Bend R-V School District**, **Mehlville School District**, **Wellsville-Middletown R-1 School District**, **State Technical College of Missouri**, **Metropolitan Community College**, **University of Missouri**, and **St. Louis Community College**.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no impact.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated they have reviewed initiative petition 24-106 and determined there is no fiscal impact.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no anticipated cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipated no fiscal impact for the initiative petition 24-106 proposing to amend Article I.

Officials from the **Department of Revenue** indicated no impact.

Officials from the **Department of Public Safety** indicated no impact for their department, Director's office.

Officials from the **Missouri Department of the National Guard** indicated no fiscal impact to their department.

Officials from the **Department of Social Services** indicated they do not anticipate fiscal impact.

Officials from the **Governor's office** indicated this proposal relating to marriage does not financially impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated initiative petition 24-106 will have no fiscal impact on their department.

Officials from the **Department of Transportation** indicated no fiscal impact expected for their department or the Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal relating to marriage does not financially impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be \$10 million based on the cost of the 2022 primary and general election reimbursements.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

For the FY22 petitions cycle, their office estimates publication costs at \$70,000 per page. This amount is subject to change based on number of petitions received, length of those petitions and rates charged by newspaper publishers.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated the initiative petition 24-106 will have no fiscal impact on their office.

Officials from **Clay County** indicated they estimate no fiscal impact as a result of this initiative.

Officials from **Greene County** indicated there are no estimated costs or savings to report from the County of Greene for initiative petition, 24-106 proposing to amend Article I.

Officials from **St. Louis County** indicated this has no fiscal impact on their county.

Officials from the **City of Kansas City** indicated the initiative petition has no fiscal impact on their city.

Officials from **Metropolitan Community College** indicated no fiscal impact to their college.

Officials from the **University of Missouri** indicated no significant impact anticipated.

Officials from the **St. Louis Community College** indicated they have reviewed the petition and do not believe the initiative will have a positive or negative impact on revenue or expense of the College.

The State Auditor's office did not receive a response from the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County, the City of Cape Girardeau, the City of Columbia, the City of Jefferson, the City of Joplin, the City of Kirksville, the City of Mexico, the City of Raymore, the City of St. Joseph, the City of St. Louis, the City of Springfield, the City of Union, the City of Wentzville, the City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, and State Technical College of Missouri.**

Fiscal Note Summary

State and local governmental entities estimate no costs or savings for this proposal.

Be it enacted by the people of the state of Missouri:

Chapter 213, RSMo, shall be revised by amending section 213.010 of the Revised Statutes of Missouri to read as follows:

213.010. Definitions. — As used in this chapter, the following terms shall mean:

(1) "Age", an age of forty or more years but less than seventy years, except that it shall not be an unlawful employment practice for an employer to require the compulsory retirement of any person who has attained the age of sixty-five and who, for the two-year period immediately before retirement, is employed in a bona fide executive or high policy-making position, if such person is entitled to an immediate nonforfeitable annual retirement benefit from a pension, profit sharing, savings or deferred compensation plan, or any combination of such plans, of the employer, which equals, in the aggregate, at least forty-four thousand dollars;

(2) "Because" or "because of", as it relates to the adverse decision or action, the protected criterion was the motivating factor;

(3) "Commission", the Missouri commission on human rights;

(4) "Complainant", a person who has filed a complaint with the commission alleging that another person has engaged in a prohibited discriminatory practice;

(5) "Disability", a physical or mental impairment which substantially limits one or more of a person's major life activities, being regarded as having such an impairment, or a record of having such an impairment, which with or without reasonable accommodation does not interfere with performing the job, utilizing the place of public accommodation, or occupying the dwelling in question. For purposes of this chapter, the term "disability" does not include current, illegal use of or addiction to a controlled substance as such term is defined by section 195.010; however, a person may be considered to have a disability if that person:

(a) Has successfully completed a supervised drug rehabilitation program and is no longer engaging in the illegal use of, and is not currently addicted to, a controlled substance or has otherwise been rehabilitated successfully and is no longer engaging in such use and is not currently addicted;

(b) Is participating in a supervised rehabilitation program and is no longer engaging in illegal use of controlled substances; or

(c) Is erroneously regarded as currently illegally using, or being addicted to, a controlled substance;

(6) "Discrimination", conduct proscribed herein, taken because of race, color, religion, national origin, ancestry, sex, or age as it relates to employment, disability, or familial status as it relates to housing;

(7) "Dwelling", any building, structure or portion thereof which is occupied as, or designed or intended for occupancy as, a residence by one or more families, and any vacant land which is offered for sale or lease for the construction or location thereon of any such building, structure or portion thereof;

(8) "Employer", a person engaged in an industry affecting commerce who has six or more employees for each working day in each of twenty or more calendar weeks in the current or preceding calendar year, and shall include the state, or any political or civil subdivision thereof, or any person employing six or more persons within the state but does not include corporations and associations owned or operated by religious or sectarian organizations. "Employer" shall not include:

(a) The United States;

(b) A corporation wholly owned by the government of the United States;

(c) An individual employed by an employer;

(d) An Indian tribe;

(e) Any department or agency of the District of Columbia subject by statute to procedures of the competitive service, as defined in 5 U.S.C. Section 2101; or

(f) A bona fide private membership club, other than a labor organization, that is exempt from taxation under 26 U.S.C. Section 501(c);

(9) "Employment agency" includes any person or agency, public or private, regularly undertaking with or without compensation to procure employees for an employer or to procure for employees opportunities to work for an employer;

(10) "Executive director", the executive director of the Missouri commission on human rights;

(11) "Familial status", one or more individuals who have not attained the age of eighteen years being domiciled with:

(a) A parent or another person having legal custody of such individual; or

(b) The designee of such parent or other person having such custody, with the written permission of such parent or other person. The protections afforded against discrimination because of familial status shall apply to any person who is pregnant or is in the process of securing legal custody of any individual who has not attained the age of eighteen years;

(12) "Human rights fund", a fund established to receive civil penalties as required by federal regulations and as set forth by subdivision (2) of subsection 11 of section 213.075, and which will be disbursed to offset additional expenses related to compliance with the Department of Housing and Urban Development regulations;

(13) "Labor organization" includes any organization which exists for the purpose, in whole or in part, of collective bargaining or of dealing with employers concerning grievances, terms or conditions of employment, or for other mutual aid or protection in relation to employment;

(14) "Local commissions", any commission or agency established prior to August 13, 1986, by an ordinance or order adopted by the governing body of any city, constitutional charter city, town, village, or county;

(15) "Person" includes one or more individuals, corporations, partnerships, associations, organizations, labor organizations, legal representatives, mutual companies, joint stock companies, trusts, trustees, trustees in bankruptcy, receivers, fiduciaries, or other organized groups of persons;

(16) "Places of public accommodation", all places or businesses offering or holding out to the general public, goods, services, privileges, facilities, advantages or accommodations for the peace, comfort, health, welfare and safety of the general public or such public places providing food, shelter, recreation and amusement, including, but not limited to:

(a) Any inn, hotel, motel, or other establishment which provides lodging to transient guests, other than an establishment located within a building which contains not more than five rooms for rent or hire and which is actually occupied by the proprietor of such establishment as his residence;

(b) Any restaurant, cafeteria, lunchroom, lunch counter, soda fountain, or other facility principally engaged in selling food for consumption on the premises, including, but not limited to, any such facility located on the premises of any retail establishment;

(c) Any gasoline station, including all facilities located on the premises of such gasoline station and made available to the patrons thereof;

(d) Any motion picture house, theater, concert hall, sports arena, stadium, or other place of exhibition or entertainment;

(e) Any public facility owned, operated, or managed by or on behalf of this state or any agency or subdivision thereof, or any public corporation; and any such facility supported in whole or in part by public funds;

(f) Any establishment which is physically located within the premises of any establishment otherwise covered by this section or within the premises of which is physically located any such covered establishment, and which holds itself out as serving patrons of such covered establishment;

(17) "Rent" includes to lease, to sublease, to let and otherwise to grant for consideration the right to occupy premises not owned by the occupant;

(18) "Respondent", a person who is alleged to have engaged in a prohibited discriminatory practice in a complaint filed with the commission;

(19) "Sex", shall be defined as sex, sexual orientation, and gender identity.

([19]20) "The motivating factor", the employee's protected classification actually played a role in the adverse action or decision and had a determinative influence on the adverse decision or action;

([20]21) "Unlawful discriminatory practice", any act that is unlawful under this chapter.

**MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (24-105)**

Subject

Initiative petition from Madeline Smith regarding a proposed amendment to Chapter 213 of the Revised Statutes of Missouri. (Received April 14, 2023)

Date

May 4, 2023

Description

This proposal would amend Chapter 213 of the Revised Statutes of Missouri.

The amendment is to be voted on in November 2024.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office**, the **Department of Agriculture**, the **Department of Economic Development**, the **Department of Elementary and Secondary Education**, the **Department of Higher Education and Workforce Development**, the **Department of Health and Senior Services**, the **Department of Commerce and Insurance**, the **Department of Mental Health**, the **Department of Natural Resources**, the **Department of Corrections**, the **Department of Labor and Industrial Relations**, the **Department of Revenue**, the **Department of Public Safety**, the **Missouri Department of the National Guard**, the **Department of Social Services**, the **Governor's office**, the **Missouri House of Representatives**, the **Department of Conservation**, the **Department of Transportation**, the **Office of Administration**, the **Office of State Courts Administrator**, the **Missouri Senate**, the **Secretary of State's office**, the **Office of the State Public Defender**, the **State Treasurer's office**, **Adair County**, **Boone County**, **Callaway County**, **Cass County**, **Clay County**, **Cole County**, **Greene County**, **Jackson County**, **Jasper County**, **St. Charles County**, **St. Louis County**, **Taney County**, the **City of Cape Girardeau**, the **City of Columbia**, the **City of Jefferson**, the **City of Joplin**, the **City of Kansas City**, the **City of Kirksville**, the **City of Mexico**, the **City of Raymore**, the **City of St. Joseph**, the **City of St. Louis**, the **City of Springfield**, the **City of Union**, the **City of Wentzville**, the **City of West Plains**, **Cape Girardeau 63 School District**, **Hannibal 60 School District**, **Malta Bend R-V School District**, **Mehlville School District**, **Wellsville-Middletown R-1 School District**, **State Technical College of Missouri**, **Metropolitan Community College**, **University of Missouri**, and **St. Louis Community College**.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no impact.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated they have reviewed initiative petition 24-105 and determined there is no fiscal impact.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no anticipated cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated this legislation creates additional causes of action related to discrimination. This would possibly result in more Missouri Human Rights Act (MHRA) claims being made against businesses and state agencies and such litigation could result in significant costs.

This legislation creates additional causes of action related to discrimination, by adding the protected categories of sexual orientation and gender identity to the MHRA. As sexual orientation and gender identity are not currently protected categories under the MHRA, adding these protections would increase the Missouri Commission on Human Rights' current workload and as such cause a fiscal impact. Below is the data they have gathered to base their estimate:

Based on statistics of several states that already include sexual orientation and gender identity in protected status including Illinois, Iowa, Colorado, and Minnesota; as well as the Federal Equal Employment Opportunity Commission (EEOC) to gather statistics regarding complaints filed on sexual orientation/gender identity. Based on 2017 data, an average of 6.3% of total complaints of discrimination were due to sexual orientation or gender identity. (They have reached out to gather updated statistical data from these same states)

Using this assumption, the projected number of additional complaints MCHR would have for FY 2022 is estimated at 70. ($\text{FY 2022 1112} \times 6.3\% = 70.056$). That would be an increase of about 70 cases. A Human Rights Officer annually produces 96 cases, so therefore they feel they would need an additional HRO if this legislation were to pass.

The department indicated this proposal would result in one-time costs of \$2,800 and increased personal service costs of \$65,021 for fiscal year 2024, \$75,832 for fiscal year 2025, and \$77,021 for fiscal year 2026.

Officials from the **Department of Revenue** indicated no impact.

Officials from the **Department of Public Safety** indicated no impact for their department, Director's office.

Officials from the **Missouri Department of the National Guard** indicated no fiscal impact to their department.

Officials from the **Department of Social Services** indicated they do not anticipate fiscal impact.

Officials from the **Governor's office** indicated this proposal relating to definitions within Chapter 213/Human Rights does not financially impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated initiative petition 24-105 will have no anticipated fiscal impact on their department.

Officials from the **Department of Transportation** indicated no fiscal impact expected for their department or the Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal relating to definitions within Chapter 213/Human Rights does not financially impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be \$10 million based on the cost of the 2022 primary and general election reimbursements.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

For the FY22 petitions cycle, their office estimates publication costs at \$70,000 per page. This amount is subject to change based on number of petitions received, length of those petitions and rates charged by newspaper publishers.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated the initiative petition 24-105 will have no fiscal impact on their office.

Officials from **Clay County** indicated they estimate no fiscal impact as a result of the initiative.

Officials from **Greene County** indicated there are no estimated costs or savings to report from the County of Greene for initiative petition, 24-105 proposing to amend Chapter 213, RSMo.

Officials from **St. Louis County** indicated this has no fiscal impact on their county.

Officials from the **City of Kansas City** indicated the initiative petition could have a negative fiscal impact on their city if it increases the city's exposure to liability.

Officials from **Metropolitan Community College** indicated no fiscal impact to their college.

Officials from the **University of Missouri** indicated this would create potential additional liabilities for employers, including the University, but it's not possible to determine a significant fiscal impact.

Officials from the **St. Louis Community College** indicated they have reviewed the initiative and do not believe it will have a positive or negative impact on revenues or expenses of the College.

The State Auditor's office did not receive a response from the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County, the City of Cape Girardeau, the City of Columbia, the City of Jefferson, the City of Joplin, the City of Kirksville, the City of Mexico, the City of Raymore, the City of St. Joseph, the City of St. Louis, the City of Springfield, the City of Union, the City of Wentzville, the City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, and State Technical College of Missouri.**

Fiscal Note Summary

State governmental entities estimate one-time costs of \$2,800 and ongoing costs of at least \$65,000 annually. Local governmental entities estimate no costs or savings.

RE: Petition approval request from David Brain regarding a proposed constitutional amendment to Article VIII, version 4 (2024-104)

Dear Auditor Fitzpatrick:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by David Brain on March 28, 2023.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

NOTICE: The proposed amendment revises Article VIII of the Constitution by adopting six new Sections to be known as Article VIII, Sections 8, 9, 10, 12, 13, and 14.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article VIII of the Constitution is revised by adopting six new Sections to be known as Article VIII, Sections 8, 9, 10, 12, 13, and 14 to read as follows:

Section 8. Ballot titles for ballot measures, whether proposed by the General Assembly or through citizen initiative or referendum, shall be clear, unbiased, fair, sufficient, and to the extent possible shall only include language found in the proposed measure.

Section 9. 1. Subject to appropriation and upon request by an election authority, the secretary of state shall provide technical assistance and recommended guidelines for the management, administration, and accuracy of voter rolls and registrations maintained and used by any election authority, including but not limited to signature reviews and removing deceased individuals from the voter rolls, and may provide funding assistance to election authorities.

2. Subject to appropriation and federal law, election authorities shall update all voter rolls which such election authority has control over, upon the proper notification by a state or federal agency of any voter who is not a qualified registered voter in the jurisdiction of such election authority, including deceased individuals.

Section 10. 1. All established political parties in the state shall have a right to have their designated nominees appear on the general election ballot. For purposes of this Section, "established political party" shall mean a political party which, at either of the last two general elections, has one of its candidates for any statewide office receive more than two percent of the entire vote cast for the office.

2. Any group of persons desiring to form a new political party throughout the state, which shall include being formed for all districts and counties in which the party may have nominations, shall file a petition with the secretary of state which shall be signed by at least ten thousand registered voters of the state obtained at large.

3. All established political parties in the state will retain their established political party status unless such party, at any two consecutive general elections fails to have at least one candidate for any statewide office receive more than two percent of the entire vote cast for the office.

Section 12. 1. In any party primary election, each registered voter shall be entitled to receive the ballot of one and only one political party. Each eligible registered voter who participates in a party primary shall be entitled to vote on all questions and for any nonpartisan candidates submitted by political subdivisions and special districts at the primary election. Each eligible registered voter who does not wish to participate in a party primary may vote on all questions and for any nonpartisan candidates submitted by a political subdivision or special district at the primary election. For purposes of this Section, "nonpartisan candidate" shall mean a candidate who is not a candidate of any political party and who is running for an office for which party candidates may not run.

2. In a contest for nomination for or election to an office of a political subdivision or special district, the requirements of this section shall not apply in any circumstance where it conflicts with a federally mandated voting system or with a law or policy adopted in any election after the year 2014 by a majority of the voters casting votes in such election of the subdivision or district.

3. Nothing in this section shall apply to the election of delegates selected by senate district to a constitutional convention under the provisions of Article XII of this Constitution.

4. Notwithstanding any other provision of this Constitution to the contrary and subject to other provisions of this article relating to primaries, voters shall have the freedom to choose all the candidates they like in each primary, special, and general election race conducted by election authorities in the State of Missouri, including all subdivisions therein, held on or after the enactment of this section.

5. The instructions on every ballot subject to this section shall state, "Choose ALL candidates you like in each race."

6. The candidate who receives the highest number of votes for each office shall be declared the winner of the election for that office. In all elections where multiple candidates are to be elected for the same office or position, the number of candidates receiving the highest number of votes for the respective number of offices or positions appearing on the ballot shall be elected.

7. Nothing in this section shall authorize or allow any voter to assign to a candidate any order, ranking order, or ranking number, indicating a voter's preference for or against any candidate.

Section 13. 1. The chair of the county committee, or the city committee of a city not within a county, of each established political party with a candidate on the ballot shall have the exclusive right to designate an observer for any polling place on any day in which votes are being cast who may be present until all ballots are cast, and an observer for each location at which absentee ballots or ballots cast on election day are counted, who may be present while the ballots are being prepared for counting and counted and may remain until all ballots are counted. No later than four business days

before the election, the chair shall provide signed designation forms with the names of the designated observers to the local election authority for confirmation of eligibility to serve as an observer. The local election authority shall sign off on the designation forms, unless the observer is found not to have the qualifications established by subsection 3 of this section. If the election authority determines that an observer does not meet the qualifications of subsection 3 of this section, the election authority shall notify the designating party chair and such chair may designate a replacement observer and provide the local election authority with the name of the replacement observer before 5:00 p.m. of the Monday preceding the election. The designating chair may substitute observers, who meet the qualifications of subsection 3, at his or her discretion before 5:00 pm on the Monday preceding the election.

2. An independent candidate shall also have the right to designate an observer in the same manner as each political party, except should more than one independent candidate appear on the ballot, the independent candidates shall agree on a single observer per polling place or location referenced in subsection 1 of this section.

3. All persons selected as observers shall only be required to have the same qualifications required by law for election judges.

4. In a nonpartisan election, each nonpartisan candidate on the ballot shall have the right to designate an observer in the same manner as each political party for each polling place or location at which such candidate appears on the ballot, except should more than three nonpartisan candidates appear on the ballot, the nonpartisan candidates shall agree on no more than two observers per polling place or location referenced in subsection 1 of this section. The General Assembly shall enact laws to provide for procedures to carry out this subsection.

5. For purposes of this section, "observer" shall mean a watcher, challenger, or observer of an election as provided by law.

Section 14. If any portion, clause, or phrase of this Amendment is, for any reason, held to be invalid or unconstitutional in a final judgment of a court of competent jurisdiction, the remaining portions, clauses, and phrases shall not be affected, but shall remain in full force and effect.

**MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (24-104)**

Subject

Initiative petition from David Brain regarding a proposed constitutional amendment to Article VIII. (Received March 29, 2023)

Date

April 18, 2023

Description

This proposal would amend Article VIII of the Missouri Constitution.

The amendment is to be voted on in November 2024.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office**, the **Department of Agriculture**, the **Department of Economic Development**, the **Department of Elementary and Secondary Education**, the **Department of Higher Education and Workforce Development**, the **Department of Health and Senior Services**, the **Department of Commerce and Insurance**, the **Department of Mental Health**, the **Department of Natural Resources**, the **Department of Corrections**, the **Department of Labor and Industrial Relations**, the **Department of Revenue**, the **Department of Public Safety**, the **Missouri Department of the National Guard**, the **Department of Social Services**, the **Governor's office**, the **Missouri House of Representatives**, the **Department of Conservation**, the **Department of Transportation**, the **Office of Administration**, the **Office of State Courts Administrator**, the **Missouri Senate**, the **Secretary of State's office**, the **Office of the State Public Defender**, the **State Treasurer's office**, **Adair County**, **Boone County**, **Callaway County**, **Cass County**, **Clay County**, **Cole County**, **Greene County**, **Jackson County**, **Jasper County**, **St. Charles County**, **St. Louis County**, **Taney County**, the **City of Cape Girardeau**, the **City of Columbia**, the **City of Jefferson**, the **City of Joplin**, the **City of Kansas City**, the **City of Kirksville**, the **City of Mexico**, the **City of Raymore**, the **City of St. Joseph**, the **City of St. Louis**, the **City of Springfield**, the **City of Union**, the **City of Wentzville**, the **City of West Plains**, **Cape Girardeau 63 School District**, **Hannibal 60 School District**, **Malta Bend R-V School District**, **Mehlville School District**, **Wellsville-Middletown R-1 School District**, **State Technical College of Missouri**, **Metropolitan Community College**, **University of Missouri**, **St. Louis Community College**, the **St. Charles County Election Authority**, the **St. Louis County Board of Elections**, the **Board of Election Commissioners City of St. Louis**, the **Kansas City Board of Election Commissioners**, the **Platte County Board of Elections**, the **Jackson County Election Board**, **Clay County Board of Election Commissioners**, and the **State Auditor's Office**.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no impact.

Officials from the **Department of Economic Development** indicated no fiscal impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated they have reviewed initiative petition 24-104 and determined there is no fiscal impact to their agency.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no anticipated cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipate no fiscal impact for this initiative petition proposing to amend Article VIII.

Officials from the **Department of Revenue** indicated no impact.

Officials from the **Department of Public Safety** indicated no impact for their department, Director's office.

Officials from the **Missouri Department of the National Guard** indicated no fiscal impact to their department.

Officials from the **Department of Social Services** indicated they do not anticipate any fiscal impact as a result of this petition.

Officials from the **Governor's office** indicated this proposal relating to initiatives/referendums and elections does not financially impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated initiative petition 24-104 will have no fiscal impact on their department.

Officials from the **Department of Transportation** indicated no fiscal impact expected for their department or the Missouri Highways and Transportation Commission on this initiative petition.

Officials from the **Office of Administration** indicated this proposal relating to initiatives/referendums and elections does not financially impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be \$10 million based on the cost of the 2022 primary and general election reimbursements.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

For the FY22 petitions cycle, their office estimates publication costs at \$70,000 per page. This amount is subject to change based on number of petitions received, length of those petitions and rates charged by newspaper publishers.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated initiative petition 24-104 will have no fiscal impact on their office.

Officials from the **Office of the State Treasurer** indicated there is no identifiable impact to their office.

Officials from **Clay County** indicated they estimate no fiscal impact as a result of this initiative.

Officials from **Greene County** indicated there are no estimated costs or savings to report from the County of Greene for initiative petition, 24-104 proposing to amend Article VIII.

Officials from **St. Louis County** indicated this initiative petition will have no fiscal impact on their county.

Officials from the **City of Jefferson** indicated there is no fiscal impact to the City of Jefferson as a result of initiative petition 24-104 proposing to amend Article VIII.

Officials from the **City of Kansas City** indicated this initiative petition would have no fiscal impact on their city.

Officials from **Metropolitan Community College** indicated no fiscal impact to their college.

Officials from the **University of Missouri** indicated they will have no fiscal impact from this initiative.

Officials from the **St. Louis Community College** indicated they have reviewed the initiative petition and they do not believe it will increase cost or have a revenue impact on their college.

Officials from the **St. Louis County Board of Elections** indicated this initiative petition will have no fiscal impact on their Board of Elections.

Officials from the **Board of Election Commissioners City of St. Louis** indicated no perceived impact on their organization.

Officials from the **Kansas City Board of Election Commissioners** indicated they will need two additional staff in their Voter Services Department at \$40,000 each, including benefits, to aid with the State's management and review of their voter rolls.

Officials from the **Platte County Board of Elections** indicated no fiscal impact.

Officials from the **Jackson County Election Board** indicated no software exists that would allow a voter to choose all candidates they like in a race without the ranking of those candidates.

If voters were to choose all candidates, they like in a given race it would count as an overvote and that voter's vote would not count.

Officials from the **State Auditor's office** indicated no fiscal impact.

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County, the City of Cape Girardeau, the City of Columbia, the City of Joplin, the City of Kirksville, the City of Mexico, the City of Raymore, the City of St. Joseph, the City of St. Louis, the City of Springfield, the City of Union, the City of Wentzville, the City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, the St. Charles County Election Authority, and the Clay County Board of Election Commissioners.**

Fiscal Note Summary

State and local governmental entities estimate no costs or savings for this proposal.

NOTICE: The proposed amendment revises Article VIII of the Constitution by adopting six new Sections to be known as Article VIII, Sections 8, 9, 10, 12, 13, and 14.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article VIII of the Constitution is revised by adopting six new Sections to be known as Article VIII, Sections 8, 9, 10, 12, 13, and 14 to read as follows:

Section 8. Ballot titles for ballot measures, whether proposed by the General Assembly or through citizen initiative or referendum, shall be clear, unbiased, fair, sufficient, and to the extent possible shall only include language found in the proposed measure.

Section 9. 1. Subject to appropriation and upon request by an election authority, the secretary of state shall provide technical assistance and recommended guidelines for the management, administration, and accuracy of voter rolls and registrations maintained and used by any election authority, including but not limited to signature reviews and removing deceased individuals from the voter rolls, and may provide funding assistance to election authorities.

2. Subject to appropriation and federal law, election authorities shall update all voter rolls which such election authority has control over, upon the proper notification by a state or federal agency of any voter who is not a qualified registered voter in the jurisdiction of such election authority, including deceased individuals.

Section 10. 1. All established political parties in the state shall have a right to have their designated nominees appear on the general election ballot. For purposes of this Section, "established political party" shall mean a political party which, at either of the last two general elections, has one of its candidates for any statewide office receive more than two percent of the entire vote cast for the office.

2. Any group of persons desiring to form a new political party throughout the state, which shall include being formed for all districts and counties in which the party may have nominations, shall file a petition with the secretary of state which shall be signed by at least ten thousand registered voters of the state obtained at large.

3. All established political parties in the state will retain their established political party status unless such party, at any two consecutive general elections fails to have at least one candidate for any statewide office receive more than two percent of the entire vote cast for the office.

Section 12. 1. In any party primary election, each registered voter shall be entitled to receive the ballot of one and only one political party. Each eligible registered voter who participates in a party primary shall be entitled to vote on all questions and for any nonpartisan candidates submitted by political subdivisions and special districts at the primary election. Each eligible registered voter who does not wish to participate in a party primary may vote on all questions and for any nonpartisan candidates submitted by a political subdivision or special district at the primary election. For purposes of this Section, "nonpartisan candidate" shall mean a candidate who is not a candidate of any political party and who is running for an office for which party candidates may not run.

2. In a contest for nomination for or election to an office of a political subdivision or special district, the requirements of this section shall not apply in any circumstance where it conflicts with a federally mandated voting system or with a law or policy adopted in any election after the year 2014 by a majority of the voters casting votes in such election of the subdivision or district.

3. Nothing in this section shall apply to the election of delegates selected by senate district to a constitutional convention under the provisions of Article XII of this Constitution.

4. Notwithstanding any other provision of this Constitution to the contrary and subject to other provisions of this article relating to primaries, voters shall have the freedom to choose all the candidates they like in each primary, special, and general election race conducted by election authorities in the State of Missouri, including all subdivisions therein, held on or after the enactment of this section.

5. The instructions on every ballot subject to this section shall state, "Choose ALL candidates you like in each race."

6. The candidate who receives the highest number of votes for each office shall be declared the winner of the election for that office. In all elections where multiple candidates are to be elected for the same office or position, the number of candidates receiving the highest number of votes for the respective number of offices or positions appearing on the ballot shall be elected.

7. Nothing in this section shall authorize or allow any voter to assign to a candidate any order, ranking order, or ranking number, indicating a voter's preference for or against any candidate.

Section 13. 1. Prior to the certification of the election results, each election authority shall, at a minimum, undertake a manual audit of randomly selected precincts which shall equal the greater of: 5% of all election precincts within the election authority's jurisdiction, one precinct, or any number required by law. No such audit shall be performed, conducted, or overseen by any non-governmental entity. All ballots cast at such election by qualified registered voters in such precincts shall be subject to the manual audit. The manual audit shall be open to the public, be completed

within fourteen (14) days of the conclusion of the election, and document the exact method of random selection to select precincts. Results from the manual audit shall be publicly available within two (2) days after its completion.

2. For the randomly selected precinct(s), the election authority shall manually audit one (1) contested election or ballot issue which shall be randomly selected from each of the following categories, where applicable: (A) Presidential and Vice-Presidential electors, United States senate candidates and state-wide candidates; (B) State-wide ballot issues; (C) United States representative candidates and state general assembly candidates; (D) Partisan circuit and associate circuit judge candidates and all nonpartisan judicial retention candidates; and (E) all remaining candidates or ballot issues for the remaining political subdivisions and special districts, including the county, in the randomly selected precincts. In addition to the randomly selected office or ballot measure above, the election authority shall manually audit all races in which the margin of victory between the two (2) top candidates is equal to or less than one-half of one percent (0.5%) of the number of votes cast for the office.

3. If, based on the manual audit, the election authority finds evidence of errors in the original tabulation that could change the result of any election or would exceed a threshold established by law, the election authority shall immediately notify the candidates in such election of the evidence of errors in the tabulation and such candidates may request a manual recount of all ballots in that election as provided by law.

Section 14. If any portion, clause, or phrase of this Amendment is, for any reason, held to be invalid or unconstitutional in a final judgment of a court of competent jurisdiction, the remaining portions, clauses, and phrases shall not be affected, but shall remain in full force and effect.

**MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (24-103)**

Subject

Initiative petition from David Brain regarding a proposed constitutional amendment to Article VIII. (Received March 29, 2023)

Date

April 18, 2023

Description

This proposal would amend Article VIII of the Missouri Constitution.

The amendment is to be voted on in November 2024.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office**, the **Department of Agriculture**, the **Department of Economic Development**, the **Department of Elementary and Secondary Education**, the **Department of Higher Education and Workforce Development**, the **Department of Health and Senior Services**, the **Department of Commerce and Insurance**, the **Department of Mental Health**, the **Department of Natural Resources**, the **Department of Corrections**, the **Department of Labor and Industrial Relations**, the **Department of Revenue**, the **Department of Public Safety**, the **Missouri Department of the National Guard**, the **Department of Social Services**, the **Governor's office**, the **Missouri House of Representatives**, the **Department of Conservation**, the **Department of Transportation**, the **Office of Administration**, the **Office of State Courts Administrator**, the **Missouri Senate**, the **Secretary of State's office**, the **Office of the State Public Defender**, the **State Treasurer's office**, **Adair County**, **Boone County**, **Callaway County**, **Cass County**, **Clay County**, **Cole County**, **Greene County**, **Jackson County**, **Jasper County**, **St. Charles County**, **St. Louis County**, **Taney County**, the **City of Cape Girardeau**, the **City of Columbia**, the **City of Jefferson**, the **City of Joplin**, the **City of Kansas City**, the **City of Kirksville**, the **City of Mexico**, the **City of Raymore**, the **City of St. Joseph**, the **City of St. Louis**, the **City of Springfield**, the **City of Union**, the **City of Wentzville**, the **City of West Plains**, **Cape Girardeau 63 School District**, **Hannibal 60 School District**, **Malta Bend R-V School District**, **Mehlville School District**, **Wellsville-Middletown R-1 School District**, **State Technical College of Missouri**, **Metropolitan Community College**, **University of Missouri**, **St. Louis Community College**, the **St. Charles County Election Authority**, the **St. Louis County Board of Elections**, the **Board of Election Commissioners City of St. Louis**, the **Kansas City Board of Election Commissioners**, the **Platte County Board of Elections**, the **Jackson County Election Board**, **Clay County Board of Election Commissioners**, and the **State Auditor's Office**.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no impact.

Officials from the **Department of Economic Development** indicated no fiscal impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated they have reviewed initiative petition 24-103 and determined there is no fiscal impact to their agency.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no anticipated cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipate no fiscal impact for this initiative petition proposing to amend Article VIII.

Officials from the **Department of Revenue** indicated no impact.

Officials from the **Department of Public Safety** indicated no impact for their department, Director's office.

Officials from the **Missouri Department of the National Guard** indicated no fiscal impact to their department.

Officials from the **Department of Social Services** indicated they do not anticipate any fiscal impact as a result of this petition.

Officials from the **Governor's office** indicated this proposal relating to initiatives/referendums and elections does not financially impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated initiative petition 24-103 will have no fiscal impact on their department.

Officials from the **Department of Transportation** indicated no fiscal impact expected for their department or the Missouri Highways and Transportation Commission on this initiative petition.

Officials from the **Office of Administration** indicated this proposal relating to initiatives/referendums and elections does not financially impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be \$10 million based on the cost of the 2022 primary and general election reimbursements.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

For the FY22 petitions cycle, their office estimates publication costs at \$70,000 per page. This amount is subject to change based on number of petitions received, length of those petitions and rates charged by newspaper publishers.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated initiative petition 24-103 will have no fiscal impact on their office.

Officials from the **Office of the State Treasurer** indicated there is no identifiable impact to their office.

Officials from **Clay County** indicated they estimate no fiscal impact as a result of this initiative.

Officials from **Greene County** indicated there are no estimated costs or savings to report from the County of Greene for initiative petition, 24-103 proposing to amend Article VIII.

Officials from **St. Louis County** indicated this initiative petition will have no fiscal impact on their county.

Officials from the **City of Jefferson** indicated there is no fiscal impact to the City of Jefferson as a result of initiative petition 24-103 proposing to amend Article VIII.

Officials from the **City of Kansas City** indicated this initiative petition would have no fiscal impact on their city.

Officials from **Metropolitan Community College** indicated no fiscal impact to their college.

Officials from the **University of Missouri** indicated they will have no fiscal impact from this initiative.

Officials from the **St. Louis Community College** indicated they have reviewed the initiative petition and they do not believe it will increase cost or have a revenue impact on their college. However, additional responsibilities established may result in a higher cost of an election.

Officials from the **St. Louis County Board of Elections** indicated this initiative petition will have no fiscal impact on their Board of Elections.

Officials from the **Board of Election Commissioners City of St. Louis** indicated no perceived impact on their organization.

Officials from the **Kansas City Board of Election Commissioners** indicated they will need two additional staff in their Voter Services Department at \$40,000 each, including benefits, to aid with the State's management and review of their voter rolls.

Officials from the **Platte County Board of Elections** indicated no fiscal impact.

Officials from the **Jackson County Election Board** indicated no software exists that would allow a voter to choose all candidates they like in a race without the ranking of those candidates.

If voters were to choose all candidates, they like in a given race it would count as an overvote, and that voter's vote would not count.

Section 13.1 (3)

If an error occurs in tabulation of a race a manual recount would most likely be needed for the entire ballot. While this is unlikely the cost would increase dramatically for that election.

Hand counting is extremely time consuming and would require hiring of additional part-time staff to conduct the count within the two week timeframe for timely certification of the election. Depending on the election (number of races) the fiscal impact could be between \$5,000.00 - \$15,000.00.

Officials from the **State Auditor's office** indicated no fiscal impact.

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County, the City of Cape Girardeau, the City of Columbia, the City of Joplin, the City of Kirksville, the City of Mexico, the City of Raymore, the City of St. Joseph, the City of St. Louis, the City of Springfield, the City of Union, the City of Wentzville, the City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, the St. Charles County Election Authority, and the Clay County Board of Election Commissioners.**

Fiscal Note Summary

State and local governmental entities estimate no costs or savings for this proposal.

NOTICE: The proposed amendment revises Article VIII of the Constitution by adopting five new Sections to be known as Article VIII, Sections 8, 9, 10, 12, and 13.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article VIII of the Constitution is revised by adopting five new Sections to be known as Article VIII, Sections 8, 9, 10, 12, and 13 to read as follows:

Section 8. Ballot titles for ballot measures, whether proposed by the General Assembly or through citizen initiative or referendum, shall be clear, unbiased, fair, sufficient, and to the extent possible shall only include language found in the proposed measure.

Section 9. 1. Subject to appropriation and upon request by an election authority, the secretary of state shall provide technical assistance and recommended guidelines for the management, administration, and accuracy of voter rolls and registrations maintained and used by any election authority, including but not limited to signature reviews and removing deceased individuals from the voter rolls, and may provide funding assistance to election authorities.

2. Subject to appropriation and federal law, election authorities shall update all voter rolls which such election authority has control over, upon the proper notification by a state or federal agency of any voter who is not a qualified registered voter in the jurisdiction of such election authority, including deceased individuals.

Section 10. 1. All established political parties in the state shall have a right to have their designated nominees appear on the general election ballot. For purposes of this Section, "established political party" shall mean a political party which, at either of the last two general elections, has one of its candidates for any statewide office receive more than two percent of the entire vote cast for the office.

2. Any group of persons desiring to form a new political party throughout the state, which shall include being formed for all districts and counties in which the party may have nominations, shall file a petition with the secretary of state which shall be signed by at least ten thousand registered voters of the state obtained at large.

3. All established political parties in the state will retain their established political party status unless such party, at any two consecutive general elections fails to have at least one candidate for any statewide office receive more than two percent of the entire vote cast for the office.

Section 12. 1. In any party primary election, each registered voter shall be entitled to receive the ballot of one and only one political party. Each eligible registered voter who participates in a party primary shall be entitled to vote on all questions and for any nonpartisan candidates submitted by political subdivisions and special districts at the primary election. Each eligible registered voter who does not wish to participate in a party primary may vote on all questions and for any nonpartisan candidates submitted by a political subdivision or special district at the primary election. For purposes of this Section, "nonpartisan candidate" shall mean a candidate who is not a candidate of any political party and who is running for an office for which party candidates may not run.

2. In a contest for nomination for or election to an office of a political subdivision or special district, the requirements of this section shall not apply in any circumstance where it conflicts with a federally mandated voting system or with a law or policy adopted in any election after the year 2014 by a majority of the voters casting votes in such election of the subdivision or district.

3. Nothing in this section shall apply to the election of delegates selected by senate district to a constitutional convention under the provisions of Article XII of this Constitution.

4. Notwithstanding any other provision of this Constitution to the contrary and subject to other provisions of this article relating to primaries, voters shall have the freedom to choose all the candidates they like in each primary, special, and general election race conducted by election authorities in the State of Missouri, including all subdivisions therein, held on or after the enactment of this section.

5. The instructions on every ballot subject to this section shall state, "Choose ALL candidates you like in each race."

6. The candidate who receives the highest number of votes for each office shall be declared the winner of the election for that office. In all elections where multiple candidates are to be elected for the same office or position, the number of candidates receiving the highest number of votes for the respective number of offices or positions appearing on the ballot shall be elected.

7. Nothing in this section shall authorize or allow any voter to assign to a candidate any order, ranking order, or ranking number, indicating a voter's preference for or against any candidate.

Section 13. If any portion, clause, or phrase of this Amendment is, for any reason, held to be invalid or unconstitutional in a final judgment of a court of competent jurisdiction, the remaining portions, clauses, and phrases shall not be affected, but shall remain in full force and effect.

**MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (24-102)**

Subject

Initiative petition from David Brain regarding a proposed constitutional amendment to Article VIII. (Received March 29, 2023)

Date

April 18, 2023

Description

This proposal would amend Article VIII of the Missouri Constitution.

The amendment is to be voted on in November 2024.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office**, the **Department of Agriculture**, the **Department of Economic Development**, the **Department of Elementary and Secondary Education**, the **Department of Higher Education and Workforce Development**, the **Department of Health and Senior Services**, the **Department of Commerce and Insurance**, the **Department of Mental Health**, the **Department of Natural Resources**, the **Department of Corrections**, the **Department of Labor and Industrial Relations**, the **Department of Revenue**, the **Department of Public Safety**, the **Missouri Department of the National Guard**, the **Department of Social Services**, the **Governor's office**, the **Missouri House of Representatives**, the **Department of Conservation**, the **Department of Transportation**, the **Office of Administration**, the **Office of State Courts Administrator**, the **Missouri Senate**, the **Secretary of State's office**, the **Office of the State Public Defender**, the **State Treasurer's office**, **Adair County**, **Boone County**, **Callaway County**, **Cass County**, **Clay County**, **Cole County**, **Greene County**, **Jackson County**, **Jasper County**, **St. Charles County**, **St. Louis County**, **Taney County**, the **City of Cape Girardeau**, the **City of Columbia**, the **City of Jefferson**, the **City of Joplin**, the **City of Kansas City**, the **City of Kirksville**, the **City of Mexico**, the **City of Raymore**, the **City of St. Joseph**, the **City of St. Louis**, the **City of Springfield**, the **City of Union**, the **City of Wentzville**, the **City of West Plains**, **Cape Girardeau 63 School District**, **Hannibal 60 School District**, **Malta Bend R-V School District**, **Mehlville School District**, **Wellsville-Middletown R-1 School District**, **State Technical College of Missouri**, **Metropolitan Community College**, **University of Missouri**, **St. Louis Community College**, the **St. Charles County Election Authority**, the **St. Louis County Board of Elections**, the **Board of Election Commissioners City of St. Louis**, the **Kansas City Board of Election Commissioners**, the **Platte County Board of Elections**, the **Jackson County Election Board**, **Clay County Board of Election Commissioners**, and the **State Auditor's Office**.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no impact.

Officials from the **Department of Economic Development** indicated no fiscal impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated they have reviewed initiative petition 24-102 and determined there is no fiscal impact to their agency.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no anticipated cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipate no fiscal impact for this initiative petition proposing to amend Article VIII.

Officials from the **Department of Revenue** indicated no impact.

Officials from the **Department of Public Safety** indicated no impact for their department, Director's office.

Officials from the **Missouri Department of the National Guard** indicated no fiscal impact to their department.

Officials from the **Department of Social Services** indicated they do not anticipate any fiscal impact as a result of this petition.

Officials from the **Governor's office** indicated this proposal relating to initiatives/referendums and elections does not financially impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated initiative petition 24-102 will have no fiscal impact on their department.

Officials from the **Department of Transportation** indicated no fiscal impact expected for their department or the Missouri Highways and Transportation Commission on this initiative petition.

Officials from the **Office of Administration** indicated this proposal relating to initiatives/referendums and elections does not financially impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be \$10 million based on the cost of the 2022 primary and general election reimbursements.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

For the FY22 petitions cycle, their office estimates publication costs at \$70,000 per page. This amount is subject to change based on number of petitions received, length of those petitions and rates charged by newspaper publishers.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated initiative petition 24-102 has no fiscal impact on their office.

Officials from the **Office of the State Treasurer** indicated there is no identifiable impact to their office.

Officials from **Clay County** indicated they estimate no fiscal impact as a result of this initiative.

Officials from **Greene County** indicated there are no estimated costs or savings to report from the County of Greene for initiative petition, 24-102 proposing to amend Article VIII.

Officials from **St. Louis County** indicated this initiative petition will have no fiscal impact on their county.

Officials from the **City of Jefferson** indicated there is no fiscal impact to the City of Jefferson as a result of initiative petition 24-102 proposing to amend Article VIII.

Officials from the **City of Kansas City** indicated this initiative petition would have no fiscal impact on their city.

Officials from **Metropolitan Community College** indicated no fiscal impact to their college.

Officials from the **University of Missouri** indicated they will have no fiscal impact from this initiative.

Officials from the **St. Louis Community College** indicated they have reviewed the initiative petition and they do not believe it will increase cost or have a revenue impact on their college.

Officials from the **St. Louis County Board of Elections** indicated this initiative petition will have no fiscal impact on their Board of Elections.

Officials from the **Board of Election Commissioners City of St. Louis** indicated no perceived impact on their organization.

Officials from the **Kansas City Board of Election Commissioners** indicated they will need two additional staff in their Voter Services Department at \$40,000 each, including benefits, to aid with the State's management and review of their voter rolls.

Officials from the **Platte County Board of Elections** indicated no fiscal impact.

Officials from the **Jackson County Election Board** indicated no software exists that would allow a voter to choose all candidates they like in a race without the ranking of those candidates.

If voters were to choose all candidates they like in a given race it would count as an overvote and that voter's vote would not count.

Officials from the **State Auditor's office** indicated no fiscal impact.

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County, the City of Cape Girardeau, the City of Columbia, the City of Joplin, the City of Kirksville, the City of Mexico, the City of Raymore, the City of St. Joseph, the City of St. Louis, the City of Springfield, the City of Union, the City of Wentzville, the City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, the St. Charles County Election Authority, and the Clay County Board of Election Commissioners.**

Fiscal Note Summary

State and local governmental entities estimate no costs or savings for this proposal.

NOTICE: The proposed amendment revises Article VIII of the Constitution by adopting four new Sections to be known as Article VIII, Sections 8, 9, 10, and 12.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article VIII of the Constitution is revised by adopting four new Sections to be known as Article VIII, Sections 8, 9, 10, and 12 to read as follows:

Section 8. Ballot titles for ballot measures, whether proposed by the General Assembly or through citizen initiative or referendum, shall be clear, unbiased, fair, sufficient, and to the extent possible shall only include language found in the proposed measure.

Section 9. 1. All established political parties in the state shall have a right to have their designated nominees appear on the general election ballot. For purposes of this Section, "established political party" shall mean a political party which, at either of the last two general elections, has one of its candidates for any statewide office receive more than two percent of the entire vote cast for the office.

2. Any group of persons desiring to form a new political party throughout the state, which shall include being formed for all districts and counties in which the party may have nominations, shall file a petition with the secretary of state which shall be signed by at least ten thousand registered voters of the state obtained at large.

3. All established political parties in the state will retain their established political party status unless such party, at any two consecutive general elections fails to have at least one candidate for any statewide office receive more than two percent of the entire vote cast for the office.

4. Any person desiring to be an independent candidate for any state or federal office to be filled by voters shall file a petition with the secretary of state. Any person desiring to be an independent candidate for any county office shall file a petition with the election authority of the county. If an independent candidate is to be nominated for a statewide office, the petition shall be signed by at least ten thousand registered voters of the state. If the independent candidate is to be nominated for a district or county office, the petition shall be signed by the number of registered voters in the district or county which is equal to at least two percent of the total number of voters who voted at the last general election for candidates for the office being sought or is equal to ten thousand voters, whichever is less.

Section 10. 1. In any party primary election, each registered voter shall be entitled to receive the ballot of one and only one political party. Each eligible registered voter who participates in a party primary shall be entitled to vote on all questions and for any nonpartisan candidates submitted by political subdivisions and special districts at the primary election. Each eligible registered voter who does not wish to participate in a party primary may vote on all questions and for any nonpartisan candidates submitted by a political subdivision or special district at the primary election. For purposes of this Section, "nonpartisan candidate" shall mean a candidate who is not a candidate of any political party and who is running for an office for which party candidates may not run.

2. In a contest for nomination for or election to an office of a political subdivision or special district, the requirements of this section shall not apply in any circumstance where it conflicts with a federally mandated voting system or with a law or policy adopted in any election after the year 2014 by a majority of the voters casting votes in such election of the subdivision or district.

3. Nothing in this section shall apply to the election of delegates selected by senate district to a constitutional convention under the provisions of Article XII of this Constitution.

4. Notwithstanding any other provision of this Constitution to the contrary and subject to other provisions of this article relating to primaries, voters shall have the freedom to choose all the candidates they like in each primary, special, and general election race conducted by election authorities in the State of Missouri, including all subdivisions therein, held on or after the enactment of this section.

5. The instructions on every ballot subject to this section shall state, "Choose ALL candidates you like in each race."

6. The candidate who receives the highest number of votes for each office shall be declared the winner of the election for that office. In all elections where multiple candidates are to be elected for the same office or position, the number of candidates receiving the highest number of votes for the respective number of offices or positions appearing on the ballot shall be elected.

7. Nothing in this section shall authorize or allow any voter to assign to a candidate any order, ranking order, or ranking number, indicating a voter's preference for or against any candidate.

Section 12. If any portion, clause, or phrase of this Amendment is, for any reason, held to be invalid or unconstitutional in a final judgment of a court of competent jurisdiction, the remaining portions, clauses, and phrases shall not be affected, but shall remain in full force and effect.

**MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (24-101)**

Subject

Initiative petition from David Brain regarding a proposed constitutional amendment to Article VIII. (Received March 29, 2023)

Date

April 18, 2023

Description

This proposal would amend Article VIII of the Missouri Constitution.

The amendment is to be voted on in November 2024.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office**, the **Department of Agriculture**, the **Department of Economic Development**, the **Department of Elementary and Secondary Education**, the **Department of Higher Education and Workforce Development**, the **Department of Health and Senior Services**, the **Department of Commerce and Insurance**, the **Department of Mental Health**, the **Department of Natural Resources**, the **Department of Corrections**, the **Department of Labor and Industrial Relations**, the **Department of Revenue**, the **Department of Public Safety**, the **Missouri Department of the National Guard**, the **Department of Social Services**, the **Governor's office**, the **Missouri House of Representatives**, the **Department of Conservation**, the **Department of Transportation**, the **Office of Administration**, the **Office of State Courts Administrator**, the **Missouri Senate**, the **Secretary of State's office**, the **Office of the State Public Defender**, the **State Treasurer's office**, **Adair County**, **Boone County**, **Callaway County**, **Cass County**, **Clay County**, **Cole County**, **Greene County**, **Jackson County**, **Jasper County**, **St. Charles County**, **St. Louis County**, **Taney County**, the **City of Cape Girardeau**, the **City of Columbia**, the **City of Jefferson**, the **City of Joplin**, the **City of Kansas City**, the **City of Kirksville**, the **City of Mexico**, the **City of Raymore**, the **City of St. Joseph**, the **City of St. Louis**, the **City of Springfield**, the **City of Union**, the **City of Wentzville**, the **City of West Plains**, **Cape Girardeau 63 School District**, **Hannibal 60 School District**, **Malta Bend R-V School District**, **Mehlville School District**, **Wellsville-Middletown R-1 School District**, **State Technical College of Missouri**, **Metropolitan Community College**, **University of Missouri**, **St. Louis Community College**, the **St. Charles County Election Authority**, the **St. Louis County Board of Elections**, the **Board of Election Commissioners City of St. Louis**, the **Kansas City Board of Election Commissioners**, the **Platte County Board of Elections**, the **Jackson County Election Board**, **Clay County Board of Election Commissioners**, and the **State Auditor's Office**.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no impact.

Officials from the **Department of Economic Development** indicated no fiscal impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated they have reviewed initiative petition 24-101 and determined there is no fiscal impact to their agency.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no anticipated cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipate no fiscal impact for this initiative petition proposing to amend Article VIII.

Officials from the **Department of Revenue** indicated no impact.

Officials from the **Department of Public Safety** indicated no impact for their department, Director's office.

Officials from the **Missouri Department of the National Guard** indicated no fiscal impact to their department.

Officials from the **Department of Social Services** indicated they do not anticipate any fiscal impact as a result of this petition.

Officials from the **Governor's office** indicated this proposal relating to initiatives/referendums and elections does not financially impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated initiative petition 24-101 will have no fiscal impact on their department.

Officials from the **Department of Transportation** indicated no fiscal impact expected for their department or the Missouri Highways and Transportation Commission on this initiative petition.

Officials from the **Office of Administration** indicated this proposal relating to initiatives/referendums and elections does not financially impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be \$10 million based on the cost of the 2022 primary and general election reimbursements.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

For the FY22 petitions cycle, their office estimates publication costs at \$70,000 per page. This amount is subject to change based on number of petitions received, length of those petitions and rates charged by newspaper publishers.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated initiative petition 24-101 will have no fiscal impact on their office.

Officials from the **Office of the State Treasurer** indicated there is no identifiable or anticipated impact to their office.

Officials from **Clay County** indicated they estimate no fiscal impact as a result of this initiative.

Officials from **Greene County** indicated there are no estimated costs or savings to report from the County of Greene for initiative petition, 24-101 proposing to amend Article VIII.

Officials from **St. Louis County** indicated this initiative petition has no fiscal impact on their county.

Officials from the **City of Jefferson** indicated there is no fiscal impact to the City of Jefferson as a result of initiative petition 24-101 proposing to amend Article VIII.

Officials from the **City of Kansas City** indicated this initiative petition would have no fiscal impact on their city.

Officials from **Metropolitan Community College** indicated no fiscal impact to their college.

Officials from the **University of Missouri** indicated they have no fiscal impact from this initiative.

Officials from the **St. Louis Community College** indicated they have reviewed the initiative petition and they do not believe it will increase cost or have a revenue impact on their college.

Officials from the **St. Louis County Board of Elections** indicated this initiative petition will have no fiscal impact on their Board of Elections.

Officials from the **Board of Election Commissioners City of St. Louis** indicated no perceived impact on their organization.

Officials from the **Kansas City Board of Election Commissioners** indicated they don't see any fiscal impact with this petition.

Officials from the **Platte County Board of Elections** indicated no fiscal impact.

Officials from the **Jackson County Election Board** indicated no software exists that would allow a voter to choose all candidates they like in a race without the ranking of those candidates.

If voters were to choose all candidates they like in a given race it would count as an overvote and that voter's vote would not count.

Officials from the **State Auditor's office** indicated no fiscal impact.

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County, the City of Cape Girardeau, the City of Columbia, the City of Joplin, the City of Kirksville, the City of Mexico, the City of Raymore, the City of St. Joseph, the City of St. Louis, the City of Springfield, the City of Union, the City of Wentzville, the City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, the St. Charles County Election Authority, and the Clay County Board of Election Commissioners.**

Fiscal Note Summary

State and local governmental entities estimate no costs or savings for this proposal.

STATE AUDITORS OFFICE

RE: Petition approval request from Winston Apple regarding a proposed constitutional amendment to Article IV (2024-100)

Dear Auditor Fitzpatrick:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Winston Apple on March 20, 2023.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

cc: Hon. Andrew Bailey

My commission expires: _____

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Article IV of the Constitution is revised by repealing Sections 7, 8, 18, 25, and 26, and amending Sections 1 and 17 to read as follows:

Section 1. The [supreme] executive power shall be vested in a governor.

[Section 7. The governor shall have power to grant reprieves, commutations and pardons, after conviction, for all offenses except treason and cases of impeachment, upon such conditions and with such restrictions and limitations as he may deem proper, subject to provisions of law as to the manner of applying for pardons. The power to pardon shall not include the power to parole.]

[Section 8. Every resolution to which the concurrence of the senate and house of representatives may be necessary, except on questions of adjournment, going into joint session, and of amending this constitution, shall be presented to the governor, and before the same shall take effect, shall be proceeded upon in the same manner as in the case of a bill; provided, that no resolution shall have the effect to repeal, extend, or amend any law.]

Section 17. (a) Upon the expiration of the terms being served by the [The] governor, lieutenant governor, secretary of state, state treasurer, [and] attorney general [shall be elected at the presidential elections for terms of four years each. The] and state auditor at the time this amendment takes effect, the persons holding those offices shall be elected by the General Assembly. [for a term of two years at the general election in the year 1948, and his successors shall be elected for terms of four years.] No person shall be elected governor or treasurer more than twice, and no person who has held the office of governor or treasurer, or acted as governor or treasurer, for more than two years of a term to which some other person was elected to the office of governor or treasurer shall be elected to the office of governor or treasurer more than once.

(b) Elections for governor, lieutenant governor, secretary of state, state treasurer, attorney general, and state auditor may be called separately at any time by a majority vote of the members of either house. Any member of the General Assembly shall be able to nominate candidates for each office. If more than two candidates are nominated for an office the election shall be conducted using ranked choice voting, with each member of the General Assembly being able to rank as many of the candidates for each office as they wish to rank, in order of preference.

(c) Tabulation of the results shall proceed in sequential rounds. In the first round, only first-choice votes are tabulated. If a candidate receives a majority of the first-choice votes that candidate is elected. If no candidate receives a majority of the first-choice votes cast, the candidate with the lowest number of first-choice votes is eliminated and the candidates listed as the second choice on ballots cast for the candidate being eliminated are distributed among the "continuing candidates". In each subsequent round, the candidate who has the fewest "cumulative votes" is eliminated and the highest remaining choice for a continuing candidate on each ballot for the eliminated candidate shall be redistributed, in ranked order, as needed, among the continuing candidates. Ballots that do not rank any continuing candidate will be "exhausted ballots" and will not be counted in that round or subsequent rounds. This process shall be repeated for as many rounds as needed until one candidate wins election by receiving a majority of the total cumulative votes.

(d) A random selection algorithm shall be determined, prior to tabulation, to resolve ties between candidates. If a tie occurs at any point in the tabulation procedure and tabulation cannot proceed until the tie is resolved, then the random selection algorithm shall resolve the tie.

(e) The heads of all the executive departments shall be appointed by the governor, by and with the advice and consent of the General Assembly [senate]. All appointive officers may be removed by the general assembly [governor] and shall possess the qualifications required by this constitution or by law.

[Section 18. The returns of every election for governor, lieutenant governor, secretary of state, state auditor, state treasurer and attorney general shall be sealed and transmitted by the returning officers to the secretary of state, who shall appoint two disinterested judges of a court of record of the state, and the three shall constitute a board of state canvassers. The board shall meet at the state capitol on, or at the call of the secretary of state before, the second Tuesday of December next after the election and forthwith open and canvass the returns of the votes cast and from the face thereof ascertain and proclaim the result of the election. The persons having the highest number of votes for the respective offices shall be declared elected, and if two or more persons have an equal and the highest number of votes for the same office, at its next regular session the general assembly, by joint vote and without delay, shall choose one of such persons for the office.]

[Section 25. Until it acts on all the appropriations recommended in the budget, neither house of the general assembly shall pass any appropriation other than emergency appropriations recommended by the governor.]

[Section 26. The governor may object to one or more items or portions of items of appropriation of money in any bill presented to him, while approving other portions of the bill. On signing it he shall append to the bill a statement of the items or portions of items to which he objects and such items or portions shall not take effect. If the general assembly be in session he shall transmit to the house in which the bill originated a copy of the statement, and the items or portions objected to shall be reconsidered separately. If it be not in session he shall transmit the bill within forty-five days to the office of the secretary of state with his approval or reasons for disapproval. The governor shall not reduce any appropriation for free public schools, or for the payment of principal and interest on the public debt.]

**MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (24-100)**

Subject

Initiative petition from Winston Apple regarding a proposed constitutional amendment to Article IV. (Received March 20, 2023)

Date

April 07, 2023

Description

This proposal would amend Article IV of the Missouri Constitution.

The amendment is to be voted on in November 2024.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office**, the **Department of Agriculture**, the **Department of Economic Development**, the **Department of Elementary and Secondary Education**, the **Department of Higher Education and Workforce Development**, the **Department of Health and Senior Services**, the **Department of Commerce and Insurance**, the **Department of Mental Health**, the **Department of Natural Resources**, the **Department of Corrections**, the **Department of Labor and Industrial Relations**, the **Department of Revenue**, the **Department of Public Safety**, the **Missouri Department of the National Guard**, the **Department of Social Services**, the **Governor's office**, the **Missouri House of Representatives**, the **Department of Conservation**, the **Department of Transportation**, the **Office of Administration**, the **Office of State Courts Administrator**, the **Missouri Senate**, the **Secretary of State's office**, the **Office of the State Public Defender**, the **State Treasurer's office**, **Adair County**, **Boone County**, **Callaway County**, **Cass County**, **Clay County**, **Cole County**, **Greene County**, **Jackson County**, **Jasper County**, **St. Charles County**, **St. Louis County**, **Taney County**, the **City of Cape Girardeau**, the **City of Columbia**, the **City of Jefferson**, the **City of Joplin**, the **City of Kansas City**, the **City of Kirksville**, the **City of Mexico**, the **City of Raymore**, the **City of St. Joseph**, the **City of St. Louis**, the **City of Springfield**, the **City of Union**, the **City of Wentzville**, the **City of West Plains**, **Cape Girardeau 63 School District**, **Hannibal 60 School District**, **Malta Bend R-V School District**, **Mehlville School District**, **Wellsville-Middletown R-1 School District**, **State Technical College of Missouri**, **Metropolitan Community College**, **University of Missouri**, **St. Louis Community College**, the **St. Charles County Election Authority**, the **St. Louis County Board of Elections**, the **Board of Election Commissioners City of St. Louis**, the **Kansas City Board of Election Commissioners**, the **Platte County Board of Elections**, the **Jackson County Election Board**, and the **Clay County Board of Election Commissioners**.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no impact.

Officials from the **Department of Economic Development** indicated no fiscal impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated they have reviewed initiative petition 24-100 and determined there is no fiscal impact to their agency.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no anticipated cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipate no fiscal impact for the Initiative petition 24-100 proposing to amend Article IV.

Officials from the **Department of Revenue** indicated no impact.

Officials from the **Department of Public Safety - Office of the Director** indicated no impact for their department, Director's office.

Officials from the **Missouri Department of the National Guard** indicated no fiscal impact to their department.

Officials from the **Department of Social Services** indicated they do not anticipate any fiscal impact due to this petition.

Officials from the **Governor's office** indicated this proposal relates to executive authority and elections. Their office should not be fiscally impacted by this proposal.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated Initiative Petition 24-100 has no anticipated fiscal impact on their department.

Officials from the **Department of Transportation** indicated no fiscal impact expected from their department or the Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal relates to executive authority and elections. Their office should not be fiscally impacted by this proposal.

Officials from the **Office of State Courts Administrator** indicated in reference to initiative petition 24-100 a proposed constitutional amendment to Article IV, there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be \$10 million based on the cost of the 2022 primary and general election reimbursements.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

For the FY22 petitions cycle, their office estimates publication costs at \$70,000 per page. This amount is subject to change based on number of petitions received, length of those petitions and rates charged by newspaper publishers.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated initiative petition 24-100 will have no fiscal impact on their office.

Officials from **Clay County** indicated they estimate no fiscal impact as a result of this petition.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for initiative petition 24-100 proposing to amend Article IV.

Officials from **St. Louis County** indicated this will have no fiscal impact on their county.

Officials from the **City of Jefferson City** indicated in their opinion, initiative petition 24-100 proposing to amend Article IV, would have no fiscal impact on their city.

Officials from the **City of Kansas City** indicated this proposed amendment would have no fiscal impact on their city.

Officials from **Metropolitan Community College** indicated no fiscal impact to their college.

Officials from the **University of Missouri** indicated they have no fiscal impact from the this petition.

Officials from the **St. Louis Community College** indicated they reviewed initiative petition 24-100 and determined there is no additional cost or revenue that will be incurred or achieved by the initiative.

Officials from the **St. Louis County Board of Elections** indicated this will have no fiscal impact on their board.

Officials from the **City of St. Louis Board of Election Commissioners** indicated this petition would have no fiscal impact on their organization.

Officials from the **Kansas City Board of Election Commissioners** indicated if petition 24-100 were to become law, there would be little to no fiscal impact on their operations. Generally the state has questions and/or amendments that are required to be on the ballot

every even-numbered election year. Therefore the state's costs for participating in the election would remain similar to past years. The only difference would be the size of the legal notice, which could potentially save the state a few thousand dollars per election.

Officials from the **Platte County Board of Elections** indicated no fiscal impact.

Officials from the **Jackson County Election Board** indicated initiative petition 24-100 amending Article IV has no fiscal impact to their board.

The State Auditor's office did not receive a response from the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County, the City of Cape Girardeau, the City of Columbia, the City of Joplin, the City of Kirksville, the City of Mexico, the City of Raymore, the City of St. Joseph, the City of St. Louis, the City of Springfield, the City of Union, the City of Wentzville, the City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, the St. Charles County Election Authority, and the Clay County Board of Election Commissioners.**

Fiscal Note Summary

State and local governmental entities estimate no costs or savings for this proposal.

STATE AUDITORS OFFICE

RE: Petition approval request from Winston Apple regarding a proposed constitutional amendment to Article I (2024-099)

Dear Auditor Fitzpatrick:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Winston Apple on March 20, 2023.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Article I of the Constitution is revised by amending Section 33 to read as follows:

Section 33. That [to be valid and recognized in this state, a marriage shall exist only between a man and a woman.] all people have a natural and infeasible right to determine their gender identity for themselves and the right to free exercise of expression with regard to their sexual orientation, so long as their free exercise of these rights does not infringe upon the rights of others to do the same; that consenting adults have the right to form civil unions and/or join together in the sacred bonds of matrimony; that with the consent of a biological parent or legal guardian, persons not yet of the age of consent have the right to seek gender-affirming care or counselling with regard to gender identification and/or sexual orientation; and that health care providers, ministers and clergy, and educators may, at their own discretion, exercise their right to provide counsel to persons, including those not yet of the age of consent, seeking guidance and/or comfort with regard to matters relating to gender identification and sexual orientation.

**MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (24-099)**

Subject

Initiative petition from Winston Apple regarding a proposed constitutional amendment to Article I. (Received March 20, 2023)

Date

April 07, 2023

Description

This proposal would amend Article I of the Missouri Constitution.

The amendment is to be voted on in November 2024.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office**, the **Department of Agriculture**, the **Department of Economic Development**, the **Department of Elementary and Secondary Education**, the **Department of Higher Education and Workforce Development**, the **Department of Health and Senior Services**, the **Department of Commerce and Insurance**, the **Department of Mental Health**, the **Department of Natural Resources**, the **Department of Corrections**, the **Department of Labor and Industrial Relations**, the **Department of Revenue**, the **Department of Public Safety**, the **Missouri Department of the National Guard**, the **Department of Social Services**, the **Governor's office**, the **Missouri House of Representatives**, the **Department of Conservation**, the **Department of Transportation**, the **Office of Administration**, the **Office of State Courts Administrator**, the **Missouri Senate**, the **Secretary of State's office**, the **Office of the State Public Defender**, the **State Treasurer's office**, **Adair County**, **Boone County**, **Callaway County**, **Cass County**, **Clay County**, **Cole County**, **Greene County**, **Jackson County**, **Jasper County**, **St. Charles County**, **St. Louis County**, **Taney County**, the **City of Cape Girardeau**, the **City of Columbia**, the **City of Jefferson**, the **City of Joplin**, the **City of Kansas City**, the **City of Kirksville**, the **City of Mexico**, the **City of Raymore**, the **City of St. Joseph**, the **City of St. Louis**, the **City of Springfield**, the **City of Union**, the **City of Wentzville**, the **City of West Plains**, **Cape Girardeau 63 School District**, **Hannibal 60 School District**, **Malta Bend R-V School District**, **Mehlville School District**, **Wellsville-Middletown R-1 School District**, **State Technical College of Missouri**, **Metropolitan Community College**, **University of Missouri**, and **St. Louis Community College**.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no impact.

Officials from the **Department of Economic Development** indicated no fiscal impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated they have reviewed initiative petition 24-099 and determined there is no fiscal impact to their agency.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no anticipated cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipate no fiscal impact for initiative petition 24-099 proposing to amend Article I.

Officials from the **Department of Revenue** indicated no impact.

Officials from the **Department of Public Safety** indicated no impact for their department, Director's office.

Officials from the **Missouri Department of the National Guard** indicated no fiscal impact to their department.

Officials from the **Department of Social Services** indicated they do not anticipate any fiscal impact due to this petition.

Officials from the **Governor's office** indicated this proposal relates to gender and marriage. Their office should not be fiscally impacted by this proposal.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated Initiative Petition 24-099 will have no fiscal impact on their department.

Officials from the **Department of Transportation** indicated no fiscal impact expected for their department or the Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal relates to gender and marriage. Their office should not be fiscally impacted by this proposal.

Officials from the **Office of State Courts Administrator** indicated in reference to initiative petition 24-099 a proposed constitutional amendment to Article I, there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be \$10 million based on the cost of the 2022 primary and general election reimbursements.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

For the FY22 petitions cycle, their office estimates publication costs at \$70,000 per page. This amount is subject to change based on number of petitions received, length of those petitions and rates charged by newspaper publishers.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated initiative petition 24-099 has no fiscal impact on their office.

Officials from **Clay County** indicated they estimate no fiscal impact as a result of this initiative.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for initiative petition, 24-099 proposing to amend Article I.

Officials from **St. Louis County** indicated this will have no fiscal impact to their county.

Officials from the **City of Jefferson City** indicated in their opinion, initiative petition 24-099 proposing to amend Article I, would have no fiscal impact on their city.

Officials from the **City of Kansas City** indicated this proposed amendment would have no fiscal impact on their city.

Officials from **Metropolitan Community College** indicated no fiscal impact to their college.

Officials from the **University of Missouri** indicated they have no fiscal impact from the this petition.

Officials from the **St. Louis Community College** indicated they have reviewed initiative petition 24-099 and determined there is no additional cost or revenue that will be incurred or achieved by the initiative.

The State Auditor's office did not receive a response from the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County, the City of Cape Girardeau, the City of Columbia, the City of Joplin, the City of Kirksville, the City of Mexico, the City of Raymore, the City of St. Joseph, the City of St. Louis, the City of Springfield, the City of Union, the City of Wentzville, the City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, and the State Technical College of Missouri.**

Fiscal Note Summary

State and local governmental entities estimate no costs or savings for this proposal.

Be it enacted by the people of the state of Missouri:

Chapter 213, RSMo, shall be revised by amending section 213.010 of the Revised Statutes of Missouri to read as follows:

213.010. Definitions. — As used in this chapter, the following terms shall mean:

(1) "Age", an age of forty or more years but less than seventy years, except that it shall not be an unlawful employment practice for an employer to require the compulsory retirement of any person who has attained the age of sixty-five and who, for the two-year period immediately before retirement, is employed in a bona fide executive or high policy-making position, if such person is entitled to an immediate nonforfeitable annual retirement benefit from a pension, profit sharing, savings or deferred compensation plan, or any combination of such plans, of the employer, which equals, in the aggregate, at least forty-four thousand dollars;

(2) "Because" or "because of", as it relates to the adverse decision or action, the protected criterion was the motivating factor;

(3) "Commission", the Missouri commission on human rights;

(4) "Complainant", a person who has filed a complaint with the commission alleging that another person has engaged in a prohibited discriminatory practice;

(5) "Disability", a physical or mental impairment which substantially limits one or more of a person's major life activities, being regarded as having such an impairment, or a record of having such an impairment, which with or without reasonable accommodation does not interfere with performing the job, utilizing the place of public accommodation, or occupying the dwelling in question. For purposes of this chapter, the term "disability" does not include current, illegal use of or addiction to a controlled substance as such term is defined by section 195.010; however, a person may be considered to have a disability if that person:

(a) Has successfully completed a supervised drug rehabilitation program and is no longer engaging in the illegal use of, and is not currently addicted to, a controlled substance or has otherwise been rehabilitated successfully and is no longer engaging in such use and is not currently addicted;

(b) Is participating in a supervised rehabilitation program and is no longer engaging in illegal use of controlled substances; or

(c) Is erroneously regarded as currently illegally using, or being addicted to, a controlled substance;

(6) "Discrimination", conduct proscribed herein, taken because of race, color, religion, national origin, ancestry, sex, or age as it relates to employment, disability, or familial status as it relates to housing;

(7) "Dwelling", any building, structure or portion thereof which is occupied as, or designed or intended for occupancy as, a residence by one or more families, and any vacant land which is offered for sale or lease for the construction or location thereon of any such building, structure or portion thereof;

(8) "Employer", a person engaged in an industry affecting commerce who has six or more employees for each working day in each of twenty or more calendar weeks in the current or preceding calendar year, and shall include the state, or any political or civil subdivision thereof, or any person employing six or more persons within the state but does not include corporations and associations owned or operated by religious or sectarian organizations. "Employer" shall not include:

(a) The United States;

(b) A corporation wholly owned by the government of the United States;

(c) An individual employed by an employer;

(d) An Indian tribe;

(e) Any department or agency of the District of Columbia subject by statute to procedures of the competitive service, as defined in 5 U.S.C. Section 2101; or

(f) A bona fide private membership club, other than a labor organization, that is exempt from taxation under 26 U.S.C. Section 501(c);

(9) "Employment agency" includes any person or agency, public or private, regularly undertaking with or without compensation to procure employees for an employer or to procure for employees opportunities to work for an employer;

(10) "Executive director", the executive director of the Missouri commission on human rights;

(11) "Familial status", one or more individuals who have not attained the age of eighteen years being domiciled with:

(a) A parent or another person having legal custody of such individual; or

(b) The designee of such parent or other person having such custody, with the written permission of such parent or other person. The protections afforded against discrimination because of familial status shall apply to any person who is pregnant or is in the process of securing legal custody of any individual who has not attained the age of eighteen years;

(12) "Human rights fund", a fund established to receive civil penalties as required by federal regulations and as set forth by subdivision (2) of subsection 11 of section 213.075, and which will be disbursed to offset additional expenses related to compliance with the Department of Housing and Urban Development regulations;

(13) "Labor organization" includes any organization which exists for the purpose, in whole or in part, of collective bargaining or of dealing with employers concerning grievances, terms or conditions of employment, or for other mutual aid or protection in relation to employment;

(14) "Local commissions", any commission or agency established prior to August 13, 1986, by an ordinance or order adopted by the governing body of any city, constitutional charter city, town, village, or county;

(15) "Person" includes one or more individuals, corporations, partnerships, associations, organizations, labor organizations, legal representatives, mutual companies, joint stock companies, trusts, trustees, trustees in bankruptcy, receivers, fiduciaries, or other organized groups of persons;

(16) "Places of public accommodation", all places or businesses offering or holding out to the general public, goods, services, privileges, facilities, advantages or accommodations for the peace, comfort, health, welfare and safety of the general public or such public places providing food, shelter, recreation and amusement, including, but not limited to:

(a) Any inn, hotel, motel, or other establishment which provides lodging to transient guests, other than an establishment located within a building which contains not more than five rooms for rent or hire and which is actually occupied by the proprietor of such establishment as his residence;

(b) Any restaurant, cafeteria, lunchroom, lunch counter, soda fountain, or other facility principally engaged in selling food for consumption on the premises, including, but not limited to, any such facility located on the premises of any retail establishment;

(c) Any gasoline station, including all facilities located on the premises of such gasoline station and made available to the patrons thereof;

(d) Any motion picture house, theater, concert hall, sports arena, stadium, or other place of exhibition or entertainment;

(e) Any public facility owned, operated, or managed by or on behalf of this state or any agency or subdivision thereof, or any public corporation; and any such facility supported in whole or in part by public funds;

(f) Any establishment which is physically located within the premises of any establishment otherwise covered by this section or within the premises of which is physically located any such

establishment;

(17) "Rent" includes to lease, to sublease, to let and otherwise to grant for consideration the right to occupy premises not owned by the occupant;

(18) "Respondent", a person who is alleged to have engaged in a prohibited discriminatory practice in a complaint filed with the commission;

(19) "Sex", shall be defined as sex, sexual orientation, and gender identity.

([19]20) "The motivating factor", the employee's protected classification actually played a role in the adverse action or decision and had a determinative influence on the adverse decision or action;

([20]21) "Unlawful discriminatory practice", any act that is unlawful under this chapter.

NOTICE: The proposed amendment revises Article VIII of the Constitution by adopting six new Sections to be known as Article VIII, Sections 8, 9, 10, 12, 13, and 14.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article VIII of the Constitution is revised by adopting six new Sections to be known as Article VIII, Sections 8, 9, 10, 12, 13, and 14 to read as follows:

Section 8. Ballot titles for ballot measures, whether proposed by the General Assembly or through citizen initiative or referendum, shall be clear, unbiased, fair, sufficient, and to the extent possible shall only include language found in the proposed measure.

Section 9. 1. Subject to appropriation and upon request by an election authority, the secretary of state shall provide technical assistance and recommended guidelines for the management, administration, and accuracy of voter rolls and registrations maintained and used by any election authority, including but not limited to signature reviews and removing deceased individuals from the voter rolls, and may provide funding assistance to election authorities.

2. Subject to appropriation and federal law, election authorities shall update all voter rolls which such election authority has control over, upon the proper notification by a state or federal agency of any voter who is not a qualified registered voter in the jurisdiction of such election authority, including deceased individuals.

Section 10. 1. All established political parties in the state shall have a right to have their designated nominees appear on the general election ballot. For purposes of this Section, "established political party" shall mean a political party which, at either of the last two general elections, has one of its candidates for any statewide office receive more than two percent of the entire vote cast for the office.

2. Any group of persons desiring to form a new political party throughout the state, which shall include being formed for all districts and counties in which the party may have nominations, shall file a petition with the secretary of state which shall be signed by at least ten thousand registered voters of the state obtained at large.

3. All established political parties in the state will retain their established political party status unless such party, at any two consecutive general elections fails to have at least one candidate for any statewide office receive more than two percent of the entire vote cast for the office.

Section 12. 1. In any party primary election, each registered voter shall be entitled to receive the ballot of one and only one political party. Each eligible registered voter who participates in a party primary shall be entitled to vote on all questions and for any nonpartisan candidates submitted by political subdivisions and special districts at the primary election. Each eligible registered voter who does not wish to participate in a party primary may vote on all questions and for any nonpartisan candidates submitted by a political subdivision or special district at the primary election. For purposes of this Section, "nonpartisan candidate" shall mean a candidate who is not a candidate of any political party and who is running for an office for which party candidates may not run.

2. In a contest for nomination for or election to an office of a political subdivision or special district, the requirements of this section shall not apply in any circumstance where it conflicts with a federally mandated voting system or with a law or policy adopted in any election after the year 2014 by a majority of the voters casting votes in such election of the subdivision or district.

3. Nothing in this section shall apply to the election of delegates selected by senate district to a constitutional convention under the provisions of Article XII of this Constitution.

4. Notwithstanding any other provision of this Constitution to the contrary and subject to other provisions of this article relating to primaries, voters shall have the freedom to choose all the candidates they like in each primary, special, and general election race conducted by election authorities in the State of Missouri, including all subdivisions therein, held on or after the enactment of this section.

5. The instructions on every ballot subject to this section shall state, "Choose ALL candidates you like in each race."

6. The candidate who receives the highest number of votes for each office shall be declared the winner of the election for that office. In all elections where multiple candidates are to be elected for the same office or position, the number of candidates receiving the highest number of votes for the respective number of offices or positions appearing on the ballot shall be elected.

7. Nothing in this section shall authorize or allow any voter to assign to a candidate any order, ranking order, or ranking number, indicating a voter's preference for or against any candidate.

Section 13. 1. The chair of the county committee, or the city committee of a city not within a county, of each established political party with a candidate on the ballot shall have the exclusive right to designate an observer for any polling place on any day in which votes are being cast who may be present until all ballots are cast, and an observer for each location at which absentee ballots or ballots cast on election day are counted, who may be present while the ballots are being prepared for counting and counted and may remain until all ballots are counted. No later than four business days

before the election, the chair shall provide signed designation forms with the names of the designated observers to the local election authority for confirmation of eligibility to serve as an observer. The local election authority shall sign off on the designation forms, unless the observer is found not to have the qualifications established by subsection 3 of this section. If the election authority determines that an observer does not meet the qualifications of subsection 3 of this section, the election authority shall notify the designating party chair and such chair may designate a replacement observer and provide the local election authority with the name of the replacement observer before 5:00 p.m. of the Monday preceding the election. The designating chair may substitute observers, who meet the qualifications of subsection 3, at his or her discretion before 5:00 pm on the Monday preceding the election.

2. An independent candidate shall also have the right to designate an observer in the same manner as each political party, except should more than one independent candidate appear on the ballot, the independent candidates shall agree on a single observer per polling place or location referenced in subsection 1 of this section.

3. All persons selected as observers shall only be required to have the same qualifications required by law for election judges.

4. In a nonpartisan election, each nonpartisan candidate on the ballot shall have the right to designate an observer in the same manner as each political party for each polling place or location at which such candidate appears on the ballot, except should more than three nonpartisan candidates appear on the ballot, the nonpartisan candidates shall agree on no more than two observers per polling place or location referenced in subsection 1 of this section. The General Assembly shall enact laws to provide for procedures to carry out this subsection.

5. For purposes of this section, "observer" shall mean a watcher, challenger, or observer of an election as provided by law.

Section 14. If any portion, clause, or phrase of this Amendment is, for any reason, held to be invalid or unconstitutional in a final judgment of a court of competent jurisdiction, the remaining portions, clauses, and phrases shall not be affected, but shall remain in full force and effect.

**MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (24-096)**

Subject

Initiative petition from Frederic Steinbach regarding a proposed constitutional amendment to Article VIII. (Received March 10, 2023)

Date

March 30, 2023

Description

This proposal would amend Article VIII of the Missouri Constitution.

The amendment is to be voted on in November 2024.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office**, the **Department of Agriculture**, the **Department of Economic Development**, the **Department of Elementary and Secondary Education**, the **Department of Higher Education and Workforce Development**, the **Department of Health and Senior Services**, the **Department of Commerce and Insurance**, the **Department of Mental Health**, the **Department of Natural Resources**, the **Department of Corrections**, the **Department of Labor and Industrial Relations**, the **Department of Revenue**, the **Department of Public Safety**, the **Missouri Department of the National Guard**, the **Department of Social Services**, the **Governor's office**, the **Missouri House of Representatives**, the **Department of Conservation**, the **Department of Transportation**, the **Office of Administration**, the **Office of State Courts Administrator**, the **Missouri Senate**, the **Secretary of State's office**, the **Office of the State Public Defender**, the **State Treasurer's office**, **Adair County**, **Boone County**, **Callaway County**, **Cass County**, **Clay County**, **Cole County**, **Greene County**, **Jackson County**, **Jasper County**, **St. Charles County**, **St. Louis County**, **Taney County**, the **City of Cape Girardeau**, the **City of Columbia**, the **City of Jefferson**, the **City of Joplin**, the **City of Kansas City**, the **City of Kirksville**, the **City of Mexico**, the **City of Raymore**, the **City of St. Joseph**, the **City of St. Louis**, the **City of Springfield**, the **City of Union**, the **City of Wentzville**, the **City of West Plains**, **Cape Girardeau 63 School District**, **Hannibal 60 School District**, **Malta Bend R-V School District**, **Mehlville School District**, **Wellsville-Middletown R-1 School District**, **State Technical College of Missouri**, **Metropolitan Community College**, **University of Missouri**, **St. Louis Community College**, the **St. Charles County Election Authority**, the **St. Louis County Board of Elections**, the **Board of Election Commissioners City of St. Louis**, the **Kansas City Board of Election Commissioners**, the **Platte County Board of Elections**, the **Jackson County Election Board**, the **Clay County Board of Election Commissioners**, and the **State Auditor's Office**.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no impact.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated they have reviewed initiative petition 24-096 and determined there is no fiscal impact to their agency.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated this initiative petition is a no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no anticipated cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipate no fiscal impact for this initiative petition proposing to amend Article VIII.

Officials from the **Department of Revenue** indicated no impact.

Officials from the **Department of Public Safety** indicated no impact for their department, Director's office.

Officials from the **Missouri Department of the National Guard** indicated no fiscal impact to their department.

Officials from the **Department of Social Services** indicated they do not anticipate a fiscal impact as a result of this petition.

Officials from the **Governor's office** indicated this proposal relating to initiatives/referendums and elections does not financially impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated initiative petition 24-096 will have no fiscal impact on their department.

Officials from the **Department of Transportation** indicated no fiscal impact expected for their department or the Missouri Highways and Transportation Commission for this initiative petition.

Officials from the **Office of Administration** indicated this proposal relating to initiatives/referendums and elections does not financially impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be \$10 million based on the cost of the 2022 primary and general election reimbursements.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

For the FY22 petitions cycle, their office estimates publication costs at \$70,000 per page. This amount is subject to change based on number of petitions received, length of those petitions and rates charged by newspaper publishers.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition has no fiscal impact on their office.

Officials from **Clay County** estimate no fiscal impact as a result of this initiative.

Officials from **Greene County** indicated there are no estimated costs or savings to report from the County of Greene for initiative petition, 24-096 proposing to amend Article VIII.

Officials from **St. Louis County** indicated this initiative petition has no apparent fiscal impact for their county.

Officials from the **City of Jefferson** indicated there would be no direct fiscal impact to the City of Jefferson by initiative petition 24-096 proposing to amend Article VIII.

Officials from the **City of Kansas City** indicated this proposed amendment would have no fiscal impact on their city.

Officials from **Metropolitan Community College** indicated no fiscal impact.

Officials from the **University of Missouri** indicated they do not anticipate that there will be any fiscal impact.

Officials from the **St. Louis Community College** indicated they have reviewed initiative petition 24-096 and they do not see an additional cost or revenue potential for their college. Understand that personal views on the initiative are not expressed here.

Officials from the **St. Louis County Board of Elections** indicated this initiative petition will have no fiscal impact on their Board of Elections.

Officials from the **Board of Election Commissioners City of St. Louis** indicated this poses no fiscal impact for their organization.

Officials from the **Platte County Board of Elections** indicated no fiscal impact.

Officials from the **Jackson County Election Board** indicated no software exists that would allow a voter to choose all candidates they like in a race without the ranking of those candidates.

If voters were to choose all candidates they like in a given race it would count as an overvote and that voter's vote would not count.

Officials from the **State Auditor's office** indicated no fiscal impact.

The State Auditor's office did not receive a response from the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County, the City of Cape Girardeau, the City of Columbia, the City of Joplin, the City of Kirksville, the City of Mexico, the City of Raymore, the City of St. Joseph, the City of St. Louis, the City of Springfield, the City of Union, the City of Wentzville, the City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, the St. Charles County Election Authority, the Kansas City Board of Election Commissioners, and the Clay County Board of Election Commissioners.**

Fiscal Note Summary

State and local governmental entities estimate no costs or savings for this proposal.

STATE AUDITORS OFFICE

The Honorable Scott Fitzpatrick
State Auditor
State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from Frederic Steinbach regarding a proposed constitutional amendment to Article VIII, version 3 (2024-095)

Dear Auditor Fitzpatrick:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Frederic Steinbach on March 9, 2023.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

NOTICE: The proposed amendment revises Article VIII of the Constitution by adopting six new Sections to be known as Article VIII, Sections 8, 9, 10, 12, 13, and 14.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article VIII of the Constitution is revised by adopting six new Sections to be known as Article VIII, Sections 8, 9, 10, 12, 13, and 14 to read as follows:

Section 8. Ballot titles for ballot measures, whether proposed by the General Assembly or through citizen initiative or referendum, shall be clear, unbiased, fair, sufficient, and to the extent possible shall only include language found in the proposed measure.

Section 9. 1. Subject to appropriation and upon request by an election authority, the secretary of state shall provide technical assistance and recommended guidelines for the management, administration, and accuracy of voter rolls and registrations maintained and used by any election authority, including but not limited to signature reviews and removing deceased individuals from the voter rolls, and may provide funding assistance to election authorities.

2. Subject to appropriation and federal law, election authorities shall update all voter rolls which such election authority has control over, upon the proper notification by a state or federal agency of any voter who is not a qualified registered voter in the jurisdiction of such election authority, including deceased individuals.

Section 10. 1. All established political parties in the state shall have a right to have their designated nominees appear on the general election ballot. For purposes of this Section, "established political party" shall mean a political party which, at either of the last two general elections, has one of its candidates for any statewide office receive more than two percent of the entire vote cast for the office.

2. Any group of persons desiring to form a new political party throughout the state, which shall include being formed for all districts and counties in which the party may have nominations, shall file a petition with the secretary of state which shall be signed by at least ten thousand registered voters of the state obtained at large.

3. All established political parties in the state will retain their established political party status unless such party, at any two consecutive general elections fails to have at least one candidate for any statewide office receive more than two percent of the entire vote cast for the office.

Section 12. 1. In any party primary election, each registered voter shall be entitled to receive the ballot of one and only one political party. Each eligible registered voter who participates in a party primary shall be entitled to vote on all questions and for any nonpartisan candidates submitted by political subdivisions and special districts at the primary election. Each eligible registered voter who does not wish to participate in a party primary may vote on all questions and for any nonpartisan candidates submitted by a political subdivision or special district at the primary election. For purposes of this Section, "nonpartisan candidate" shall mean a candidate who is not a candidate of any political party and who is running for an office for which party candidates may not run.

2. In a contest for nomination for or election to an office of a political subdivision or special district, the requirements of this section shall not apply in any circumstance where it conflicts with a federally mandated voting system or with a law or policy adopted in any election after the year 2014 by a majority of the voters casting votes in such election of the subdivision or district.

3. Nothing in this section shall apply to the election of delegates selected by senate district to a constitutional convention under the provisions of Article XII of this Constitution.

4. Notwithstanding any other provision of this Constitution to the contrary and subject to other provisions of this article relating to primaries, voters shall have the freedom to choose all the candidates they like in each primary, special, and general election race conducted by election authorities in the State of Missouri, including all subdivisions therein, held on or after the enactment of this section.

5. The instructions on every ballot subject to this section shall state, "Choose ALL candidates you like in each race."

6. The candidate who receives the highest number of votes for each office shall be declared the winner of the election for that office. In all elections where multiple candidates are to be elected for the same office or position, the number of candidates receiving the highest number of votes for the respective number of offices or positions appearing on the ballot shall be elected.

7. Nothing in this section shall authorize or allow any voter to assign to a candidate any order, ranking order, or ranking number, indicating a voter's preference for or against any candidate.

Section 13. 1. Prior to the certification of the election results, each election authority shall, at a minimum, undertake a manual audit of randomly selected precincts which shall equal the greater of: 5% of all election precincts within the election authority's jurisdiction, one precinct, or any number required by law. No such audit shall be performed, conducted, or overseen by any non-governmental entity. All ballots cast at such election by qualified registered voters in such precincts shall be subject to the manual audit. The manual audit shall be open to the public, be completed

within fourteen (14) days of the conclusion of the election, and document the exact method of random selection to select precincts. Results from the manual audit shall be publicly available within two (2) days after its completion.

2. For the randomly selected precinct(s), the election authority shall manually audit one (1) contested election or ballot issue which shall be randomly selected from each of the following categories, where applicable: (A) Presidential and Vice-Presidential electors, United States senate candidates and state-wide candidates; (B) State-wide ballot issues; (C) United States representative candidates and state general assembly candidates; (D) Partisan circuit and associate circuit judge candidates and all nonpartisan judicial retention candidates; and (E) all remaining candidates or ballot issues for the remaining political subdivisions and special districts, including the county, in the randomly selected precincts. In addition to the randomly selected office or ballot measure above, the election authority shall manually audit all races in which the margin of victory between the two (2) top candidates is equal to or less than one-half of one percent (0.5%) of the number of votes cast for the office.

3. If, based on the manual audit, the election authority finds evidence of errors in the original tabulation that could change the result of any election or would exceed a threshold established by law, the election authority shall immediately notify the candidates in such election of the evidence of errors in the tabulation and such candidates may request a manual recount of all ballots in that election as provided by law.

Section 14. If any portion, clause, or phrase of this Amendment is, for any reason, held to be invalid or unconstitutional in a final judgment of a court of competent jurisdiction, the remaining portions, clauses, and phrases shall not be affected, but shall remain in full force and effect.

**MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (24-095)**

Subject

Initiative petition from Frederic Steinbach regarding a proposed constitutional amendment to Article VIII. (Received March 10, 2023)

Date

March 30, 2023

Description

This proposal would amend Article VIII of the Missouri Constitution.

The amendment is to be voted on in November 2024.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office**, the **Department of Agriculture**, the **Department of Economic Development**, the **Department of Elementary and Secondary Education**, the **Department of Higher Education and Workforce Development**, the **Department of Health and Senior Services**, the **Department of Commerce and Insurance**, the **Department of Mental Health**, the **Department of Natural Resources**, the **Department of Corrections**, the **Department of Labor and Industrial Relations**, the **Department of Revenue**, the **Department of Public Safety**, the **Missouri Department of the National Guard**, the **Department of Social Services**, the **Governor's office**, the **Missouri House of Representatives**, the **Department of Conservation**, the **Department of Transportation**, the **Office of Administration**, the **Office of State Courts Administrator**, the **Missouri Senate**, the **Secretary of State's office**, the **Office of the State Public Defender**, the **State Treasurer's office**, **Adair County**, **Boone County**, **Callaway County**, **Cass County**, **Clay County**, **Cole County**, **Greene County**, **Jackson County**, **Jasper County**, **St. Charles County**, **St. Louis County**, **Taney County**, the **City of Cape Girardeau**, the **City of Columbia**, the **City of Jefferson**, the **City of Joplin**, the **City of Kansas City**, the **City of Kirksville**, the **City of Mexico**, the **City of Raymore**, the **City of St. Joseph**, the **City of St. Louis**, the **City of Springfield**, the **City of Union**, the **City of Wentzville**, the **City of West Plains**, **Cape Girardeau 63 School District**, **Hannibal 60 School District**, **Malta Bend R-V School District**, **Mehlville School District**, **Wellsville-Middletown R-1 School District**, **State Technical College of Missouri**, **Metropolitan Community College**, **University of Missouri**, **St. Louis Community College**, the **St. Charles County Election Authority**, the **St. Louis County Board of Elections**, the **Board of Election Commissioners City of St. Louis**, the **Kansas City Board of Election Commissioners**, the **Platte County Board of Elections**, the **Jackson County Election Board**, the **Clay County Board of Election Commissioners**, and the **State Auditor's Office**.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no impact.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated they have reviewed initiative petition 24-095 and determined there is no fiscal impact to their agency.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no anticipated cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipate no fiscal impact for this initiative petition proposing to amend Article VIII.

Officials from the **Department of Revenue** indicated no impact.

Officials from the **Department of Public Safety** indicated no impact for their department, Director's office.

Officials from the **Missouri Department of the National Guard** indicated no fiscal impact to their department.

Officials from the **Department of Social Services** indicated they do not anticipate a fiscal impact as a result of this petition.

Officials from the **Governor's office** indicated this proposal relating to initiatives/referendums and elections does not financially impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated initiative petition 24-095 will have no fiscal impact on their department.

Officials from the **Department of Transportation** indicated no fiscal impact expected for their department or the Missouri Highways and Transportation Commission for this initiative petition.

Officials from the **Office of Administration** indicated this proposal relating to initiatives/referendums and elections does not financially impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be \$10 million based on the cost of the 2022 primary and general election reimbursements.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

For the FY22 petitions cycle, their office estimates publication costs at \$70,000 per page. This amount is subject to change based on number of petitions received, length of those petitions and rates charged by newspaper publishers.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition has no fiscal impact on their office.

Officials from **Clay County** estimate no fiscal impact as a result of this initiative.

Officials from **Greene County** indicated there are no estimated costs or savings to report from the County of Greene for initiative petition, 24-095 proposing to amend Article VIII.

Officials from **St. Louis County** indicated this initiative petition has no apparent fiscal impact for their county.

Officials from the **City of Jefferson** indicated there would be no direct fiscal impact to the City of Jefferson by initiative petition 24-095 proposing to amend Article VIII.

Officials from the **City of Kansas City** indicated this proposed amendment would have no fiscal impact on their city.

Officials from **Metropolitan Community College** indicated no fiscal impact.

Officials from the **University of Missouri** indicated they do not anticipate that there will be any fiscal impact.

Officials from the **St. Louis Community College** indicated they have reviewed initiative petition 24-095 and they do not see an additional cost or revenue potential for their college. Understand that personal views on the initiative are not expressed here.

Officials from the **St. Louis County Board of Elections** indicated this initiative petition will have no fiscal impact on their Board of Elections.

Officials from the **Board of Election Commissioners City of St. Louis** indicated this petition has no perceived impact on their organization.

Officials from the **Platte County Board of Elections** indicated no fiscal impact.

Officials from the **Jackson County Election Board** indicated no software exists that would allow a voter to choose all candidates they like in a race without the ranking of those candidates.

If voters were to choose all candidates, they like in a given race it would count as an overvote, and that voter's vote would not count.

Section 13.1 (3)

If an error occurs in tabulation of a race a manual recount would most likely be needed for the entire ballot. While this is unlikely the cost would increase dramatically for that election.

Hand counting is extremely time consuming and would require hiring of additional part-time staff to conduct the count within the two week timeframe for timely certification of the election. Depending on the election (number of races) the fiscal impact could be between \$5,000.00 - \$15,000.00.

Officials from the **State Auditor's office** indicated no fiscal impact.

The State Auditor's office did not receive a response from the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County, the City of Cape Girardeau, the City of Columbia, the City of Joplin, the City of Kirksville, the City of Mexico, the City of Raymore, the City of St. Joseph, the City of St. Louis, the City of Springfield, the City of Union, the City of Wentzville, the City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, the St. Charles County Election Authority, the Kansas City Board of Election Commissioners, and the Clay County Board of Election Commissioners.**

Fiscal Note Summary

State and local governmental entities estimate no costs or savings for this proposal.

NOTICE: The proposed amendment revises Article VIII of the Constitution by adopting five new Sections to be known as Article VIII, Sections 8, 9, 10, 12, and 13.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article VIII of the Constitution is revised by adopting five new Sections to be known as Article VIII, Sections 8, 9, 10, 12, and 13 to read as follows:

Section 8. Ballot titles for ballot measures, whether proposed by the General Assembly or through citizen initiative or referendum, shall be clear, unbiased, fair, sufficient, and to the extent possible shall only include language found in the proposed measure.

Section 9. 1. Subject to appropriation and upon request by an election authority, the secretary of state shall provide technical assistance and recommended guidelines for the management, administration, and accuracy of voter rolls and registrations maintained and used by any election authority, including but not limited to signature reviews and removing deceased individuals from the voter rolls, and may provide funding assistance to election authorities.

2. Subject to appropriation and federal law, election authorities shall update all voter rolls which such election authority has control over, upon the proper notification by a state or federal agency of any voter who is not a qualified registered voter in the jurisdiction of such election authority, including deceased individuals.

Section 10. 1. All established political parties in the state shall have a right to have their designated nominees appear on the general election ballot. For purposes of this Section, "established political party" shall mean a political party which, at either of the last two general elections, has one of its candidates for any statewide office receive more than two percent of the entire vote cast for the office.

2. Any group of persons desiring to form a new political party throughout the state, which shall include being formed for all districts and counties in which the party may have nominations, shall file a petition with the secretary of state which shall be signed by at least ten thousand registered voters of the state obtained at large.

3. All established political parties in the state will retain their established political party status unless such party, at any two consecutive general elections fails to have at least one candidate for any statewide office receive more than two percent of the entire vote cast for the office.

Section 12. 1. In any party primary election, each registered voter shall be entitled to receive the ballot of one and only one political party. Each eligible registered voter who participates in a party primary shall be entitled to vote on all questions and for any nonpartisan candidates submitted by political subdivisions and special districts at the primary election. Each eligible registered voter who does not wish to participate in a party primary may vote on all questions and for any nonpartisan candidates submitted by a political subdivision or special district at the primary election. For purposes of this Section, "nonpartisan candidate" shall mean a candidate who is not a candidate of any political party and who is running for an office for which party candidates may not run.

2. In a contest for nomination for or election to an office of a political subdivision or special district, the requirements of this section shall not apply in any circumstance where it conflicts with a federally mandated voting system or with a law or policy adopted in any election after the year 2014 by a majority of the voters casting votes in such election of the subdivision or district.

3. Nothing in this section shall apply to the election of delegates selected by senate district to a constitutional convention under the provisions of Article XII of this Constitution.

4. Notwithstanding any other provision of this Constitution to the contrary and subject to other provisions of this article relating to primaries, voters shall have the freedom to choose all the candidates they like in each primary, special, and general election race conducted by election authorities in the State of Missouri, including all subdivisions therein, held on or after the enactment of this section.

5. The instructions on every ballot subject to this section shall state, "Choose ALL candidates you like in each race."

6. The candidate who receives the highest number of votes for each office shall be declared the winner of the election for that office. In all elections where multiple candidates are to be elected for the same office or position, the number of candidates receiving the highest number of votes for the respective number of offices or positions appearing on the ballot shall be elected.

7. Nothing in this section shall authorize or allow any voter to assign to a candidate any order, ranking order, or ranking number, indicating a voter's preference for or against any candidate.

Section 13. If any portion, clause, or phrase of this Amendment is, for any reason, held to be invalid or unconstitutional in a final judgment of a court of competent jurisdiction, the remaining portions, clauses, and phrases shall not be affected, but shall remain in full force and effect.

**MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (24-094)**

Subject

Initiative petition from Frederic Steinbach regarding a proposed constitutional amendment to Article VIII. (Received March 10, 2023)

Date

March 30, 2023

Description

This proposal would amend Article VIII of the Missouri Constitution.

The amendment is to be voted on in November 2024.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office**, the **Department of Agriculture**, the **Department of Economic Development**, the **Department of Elementary and Secondary Education**, the **Department of Higher Education and Workforce Development**, the **Department of Health and Senior Services**, the **Department of Commerce and Insurance**, the **Department of Mental Health**, the **Department of Natural Resources**, the **Department of Corrections**, the **Department of Labor and Industrial Relations**, the **Department of Revenue**, the **Department of Public Safety**, the **Missouri Department of the National Guard**, the **Department of Social Services**, the **Governor's office**, the **Missouri House of Representatives**, the **Department of Conservation**, the **Department of Transportation**, the **Office of Administration**, the **Office of State Courts Administrator**, the **Missouri Senate**, the **Secretary of State's office**, the **Office of the State Public Defender**, the **State Treasurer's office**, **Adair County**, **Boone County**, **Callaway County**, **Cass County**, **Clay County**, **Cole County**, **Greene County**, **Jackson County**, **Jasper County**, **St. Charles County**, **St. Louis County**, **Taney County**, the **City of Cape Girardeau**, the **City of Columbia**, the **City of Jefferson**, the **City of Joplin**, the **City of Kansas City**, the **City of Kirksville**, the **City of Mexico**, the **City of Raymore**, the **City of St. Joseph**, the **City of St. Louis**, the **City of Springfield**, the **City of Union**, the **City of Wentzville**, the **City of West Plains**, **Cape Girardeau 63 School District**, **Hannibal 60 School District**, **Malta Bend R-V School District**, **Mehlville School District**, **Wellsville-Middletown R-1 School District**, **State Technical College of Missouri**, **Metropolitan Community College**, **University of Missouri**, **St. Louis Community College**, the **St. Charles County Election Authority**, the **St. Louis County Board of Elections**, the **Board of Election Commissioners City of St. Louis**, the **Kansas City Board of Election Commissioners**, the **Platte County Board of Elections**, the **Jackson County Election Board**, the **Clay County Board of Election Commissioners**, and the **State Auditor's Office**.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no impact.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated they have reviewed initiative petition 24-094 and determined there is no fiscal impact to their agency.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no anticipated cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipate no fiscal impact for this initiative petition proposing to amend Article VIII.

Officials from the **Department of Revenue** indicated no impact.

Officials from the **Department of Public Safety** indicated no impact for their department, Director's office.

Officials from the **Missouri Department of the National Guard** indicated no fiscal impact to their department.

Officials from the **Department of Social Services** indicated they do not anticipate a fiscal impact as a result of this petition.

Officials from the **Governor's office** indicated this proposal relating to initiatives/referendums and elections does not financially impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated initiative petition 24-094 will have no fiscal impact on their department.

Officials from the **Department of Transportation** indicated no fiscal impact expected for their department or the Missouri Highways and Transportation Commission for this initiative petition.

Officials from the **Office of Administration** indicated this proposal relating to initiatives/referendums and elections does not financially impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be \$10 million based on the cost of the 2022 primary and general election reimbursements.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

For the FY22 petitions cycle, their office estimates publication costs at \$70,000 per page. This amount is subject to change based on number of petitions received, length of those petitions and rates charged by newspaper publishers.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition has no fiscal impact on their office.

Officials from **Clay County** estimate no fiscal impact as a result of this initiative.

Officials from **Greene County** indicated there are no estimated costs or savings to report from the County of Greene for initiative petition, 24-094 proposing to amend Article VIII.

Officials from **St. Louis County** indicated this initiative petition has no apparent fiscal impact for their county.

Officials from the **City of Jefferson** indicated there would be no direct fiscal impact to the City of Jefferson by initiative petition 24-094 proposing to amend Article VIII.

Officials from the **City of Kansas City** indicated this proposed amendment would have no fiscal impact on their city.

Officials from **Metropolitan Community College** indicated no fiscal impact.

Officials from the **University of Missouri** indicated they do not anticipate that there will be any fiscal impact.

Officials from the **St. Louis Community College** indicated they have reviewed initiative petition 24-094 and they do not see an additional cost or revenue potential for their college. Understand that personal views on the initiative are not expressed here.

Officials from the **St. Louis County Board of Elections** indicated this initiative petition will have no fiscal impact on their Board of Elections.

Officials from the **Board of Election Commissioners City of St. Louis** indicated this poses no fiscal impact for their organization.

Officials from the **Platte County Board of Elections** indicated no fiscal impact.

Officials from the **Jackson County Election Board** indicated no software exists that would allow a voter to choose all candidates they like in a race without the ranking of those candidates.

If voters were to choose all candidates they like in a given race it would count as an overvote and that voter's vote would not count.

Officials from the **State Auditor's office** indicated no fiscal impact.

The State Auditor's office did not receive a response from the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County, the City of Cape Girardeau, the City of Columbia, the City of Joplin, the City of Kirksville, the City of Mexico, the City of Raymore, the City of St. Joseph, the City of St. Louis, the City of Springfield, the City of Union, the City of Wentzville, the City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, the St. Charles County Election Authority, the Kansas City Board of Election Commissioners, and the Clay County Board of Election Commissioners.**

Fiscal Note Summary

State and local governmental entities estimate no costs or savings for this proposal.

NOTICE: The proposed amendment revises Article VIII of the Constitution by adopting four new Sections to be known as Article VIII, Sections 8, 9, 10, and 12.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article VIII of the Constitution is revised by adopting four new Sections to be known as Article VIII, Sections 8, 9, 10, and 12 to read as follows:

Section 8. Ballot titles for ballot measures, whether proposed by the General Assembly or through citizen initiative or referendum, shall be clear, unbiased, fair, sufficient, and to the extent possible shall only include language found in the proposed measure.

Section 9. 1. All established political parties in the state shall have a right to have their designated nominees appear on the general election ballot. For purposes of this Section, “established political party” shall mean a political party which, at either of the last two general elections, has one of its candidates for any statewide office receive more than two percent of the entire vote cast for the office.

2. Any group of persons desiring to form a new political party throughout the state, which shall include being formed for all districts and counties in which the party may have nominations, shall file a petition with the secretary of state which shall be signed by at least ten thousand registered voters of the state obtained at large.

3. All established political parties in the state will retain their established political party status unless such party, at any two consecutive general elections fails to have at least one candidate for any statewide office receive more than two percent of the entire vote cast for the office.

4. Any person desiring to be an independent candidate for any state or federal office to be filled by voters shall file a petition with the secretary of state. Any person desiring to be an independent candidate for any county office shall file a petition with the election authority of the county. If an independent candidate is to be nominated for a statewide office, the petition shall be signed by at least ten thousand registered voters of the state. If the independent candidate is to be nominated for a district or county office, the petition shall be signed by the number of registered voters in the district or county which is equal to at least two percent of the total number of voters who voted at the last general election for candidates for the office being sought or is equal to ten thousand voters, whichever is less.

Section 10. 1. In any party primary election, each registered voter shall be entitled to receive the ballot of one and only one political party. Each eligible registered voter who participates in a party primary shall be entitled to vote on all questions and for any nonpartisan candidates submitted by political subdivisions and special districts at the primary election. Each eligible registered voter who does not wish to participate in a party primary may vote on all questions and for any nonpartisan candidates submitted by a political subdivision or special district at the primary election. For purposes of this Section, “nonpartisan candidate” shall mean a candidate who is not a candidate of any political party and who is running for an office for which party candidates may not run.

2. In a contest for nomination for or election to an office of a political subdivision or special district, the requirements of this section shall not apply in any circumstance where it conflicts with a federally mandated voting system or with a law or policy adopted in any election after the year 2014 by a majority of the voters casting votes in such election of the subdivision or district.

3. Nothing in this section shall apply to the election of delegates selected by senate district to a constitutional convention under the provisions of Article XII of this Constitution.

4. Notwithstanding any other provision of this Constitution to the contrary and subject to other provisions of this article relating to primaries, voters shall have the freedom to choose all the candidates they like in each primary, special, and general election race conducted by election authorities in the State of Missouri, including all subdivisions therein, held on or after the enactment of this section.

5. The instructions on every ballot subject to this section shall state, “Choose ALL candidates you like in each race.”

6. The candidate who receives the highest number of votes for each office shall be declared the winner of the election for that office. In all elections where multiple candidates are to be elected for the same office or position, the number of candidates receiving the highest number of votes for the respective number of offices or positions appearing on the ballot shall be elected.

7. Nothing in this section shall authorize or allow any voter to assign to a candidate any order, ranking order, or ranking number, indicating a voter’s preference for or against any candidate.

Section 12. If any portion, clause, or phrase of this Amendment is, for any reason, held to be invalid or unconstitutional in a final judgment of a court of competent jurisdiction, the remaining portions, clauses, and phrases shall not be affected, but shall remain in full force and effect.

The amendment is to be voted on in November 2024.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office**, the **Department of Agriculture**, the **Department of Economic Development**, the **Department of Elementary and Secondary Education**, the **Department of Higher Education and Workforce Development**, the **Department of Health and Senior Services**, the **Department of Commerce and Insurance**, the **Department of Mental Health**, the **Department of Natural Resources**, the **Department of Corrections**, the **Department of Labor and Industrial Relations**, the **Department of Revenue**, the **Department of Public Safety**, the **Missouri Department of the National Guard**, the **Department of Social Services**, the **Governor's office**, the **Missouri House of Representatives**, the **Department of Conservation**, the **Department of Transportation**, the **Office of Administration**, the **Office of State Courts Administrator**, the **Missouri Senate**, the **Secretary of State's office**, the **Office of the State Public Defender**, the **State Treasurer's office**, **Adair County**, **Boone County**, **Callaway County**, **Cass County**, **Clay County**, **Cole County**, **Greene County**, **Jackson County**, **Jasper County**, **St. Charles County**, **St. Louis County**, **Taney County**, the **City of Cape Girardeau**, the **City of Columbia**, the **City of Jefferson**, the **City of Joplin**, the **City of Kansas City**, the **City of Kirksville**, the **City of Mexico**, the **City of Raymore**, the **City of St. Joseph**, the **City of St. Louis**, the **City of Springfield**, the **City of Union**, the **City of Wentzville**, the **City of West Plains**, **Cape Girardeau 63 School District**, **Hannibal 60 School District**, **Malta Bend R-V School District**, **Mehlville School District**, **Wellsville-Middletown R-1 School District**, **State Technical College of Missouri**, **Metropolitan Community College**, **University of Missouri**, **St. Louis Community College**, the **St. Charles County Election Authority**, the **St. Louis County Board of Elections**, the **Board of Election Commissioners City of St. Louis**, the **Kansas City Board of Election Commissioners**, the **Platte County Board of Elections**, the **Jackson County Election Board**, the **Clay County Board of Election Commissioners**, and the **State Auditor's Office**.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no impact.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated they have reviewed initiative petition 24-093 and determined there is no fiscal impact to their agency.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no anticipated cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipate no fiscal impact for this initiative petition proposing to amend Article VIII.

Officials from the **Department of Revenue** indicated no impact.

Officials from the **Department of Public Safety** indicated no impact for their department, Director's office.

Officials from the **Missouri Department of the National Guard** indicated no fiscal impact to their department.

Officials from the **Department of Social Services** indicated they do not anticipate a fiscal impact as a result of this petition.

Officials from the **Governor's office** indicated this proposal relating to initiatives/referendums and elections does not financially impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated initiative petition 24-093 will have no fiscal impact on their department.

Officials from the **Department of Transportation** indicated no fiscal impact expected for their department or the Missouri Highways and Transportation Commission for this initiative petition.

Officials from the **Office of Administration** indicated this proposal relating to initiatives/referendums and elections does not financially impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be \$10 million based on the cost of the 2022 primary and general election reimbursements.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

For the FY22 petitions cycle, their office estimates publication costs at \$70,000 per page. This amount is subject to change based on number of petitions received, length of those petitions and rates charged by newspaper publishers.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition has no fiscal impact on their office.

Officials from **Clay County** estimate no fiscal impact as a result of this initiative.

Officials from **Greene County** indicated there are no estimated costs or savings to report from the County of Greene for initiative petition, 24-093 proposing to amend Article VIII.

Officials from **St. Louis County** indicated this initiative petition has no apparent fiscal impact on their county.

Officials from the **City of Jefferson** indicated there would be no direct fiscal impact to the City of Jefferson by initiative petition 24-093 proposing to amend Article VIII.

Officials from the **City of Kansas City** indicated this proposed amendment would have no fiscal impact on their city.

Officials from **Metropolitan Community College** indicated no fiscal impact.

Officials from the **University of Missouri** indicated they do not anticipate a fiscal impact caused by this petition.

Officials from the **St. Louis Community College** indicated they have reviewed initiative petition 24-093 and they do not see an additional cost or revenue potential for their college.

Officials from the **St. Louis County Board of Elections** indicated this initiative petition will have no fiscal impact on their Board of Elections.

Officials from the **Board of Election Commissioners City of St. Louis** indicated this poses no fiscal impact for their organization.

Officials from the **Platte County Board of Elections** indicated no fiscal impact.

Officials from the **Jackson County Election Board** indicated no software exists that would allow a voter to choose all candidates they like in a race without the ranking of those candidates.

If voters were to choose all candidates they like in a given race it would count as an overvote and that voter's vote would not count.

Officials from the **State Auditor's office** indicated no fiscal impact.

The State Auditor's office did not receive a response from the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County, the City of Cape Girardeau, the City of Columbia, the City of Joplin, the City of Kirksville, the City of Mexico, the City of Raymore, the City of St. Joseph, the City of St. Louis, the City of Springfield, the City of Union, the City of Wentzville, the City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, the St. Charles County Election Authority, the Kansas City Board of Election Commissioners, and the Clay County Board of Election Commissioners.**

Fiscal Note Summary

State and local governmental entities estimate no costs or savings for this proposal.

STATE AUDITORS OFFICE

RE: Petition approval request from Frederic Steinbach regarding a proposed constitutional amendment to Article VIII, version 5 (2024-092)

Dear Auditor Fitzpatrick:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Frederic Steinbach on March 8, 2023.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

NOTICE: The proposed amendment revises Article VIII of the Constitution by adopting seven new Sections to be known as Article VIII, Sections 8, 9, 10, 12, 13, 14, and 25.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article VIII of the Constitution is revised by adopting seven new Sections to be known as Article VIII, Sections 8, 9, 10, 12, 13, 14, and 25 to read as follows:

Section 8. Ballot titles for ballot measures, whether proposed by the General Assembly, or through citizen initiative or referendum, shall be clear, unbiased, fair, sufficient, and to the extent possible shall only include language found in the proposed measure.

Section 9. 1. Subject to appropriation and upon request by an election authority, the secretary of state shall provide technical assistance and recommended guidelines for the management, administration, and accuracy of voter rolls and registrations maintained and used by any election authority, including but not limited to signature reviews and removing deceased individuals from the voter rolls, and may provide funding assistance to election authorities.

2. Subject to appropriation and federal law, election authorities shall update all voter rolls which such election authority has control over, upon the proper notification by a state or federal agency of any voter who is not a qualified registered voter in the jurisdiction of such election authority, including deceased individuals.

Section 10. 1. All established political parties in the state shall have a right to have their designated nominees appear on the general election ballot. For purposes of this Section, "established political party" shall mean a political party which, at either of the last two general elections, has one of its candidates for any statewide office receive more than two percent of the entire vote cast for the office.

2. Any group of persons desiring to form a new political party throughout the state, which shall include being formed for all districts and counties in which the party may have nominations, shall file a petition with the secretary of state which shall be signed by at least ten thousand registered voters of the state obtained at large.

3. All established political parties in the state will retain their established political party status unless such party at any two consecutive general elections fails to have at least one candidate for any statewide office receive more than two percent of the entire vote cast for the office.

4. Notwithstanding any other provision of this Constitution to the contrary and subject to the provisions of this section relating to primaries, voters shall have the freedom to choose all the candidates they like in each primary, special, and general election race conducted by election authorities in the State of Missouri, including all subdivisions therein, held on or after the enactment of this section.

Section 12. 1. In any party primary election, each registered voter shall be entitled to receive the ballot of one and only one political party. Each eligible registered voter who participates in a party primary shall be entitled to vote on all questions and for any nonpartisan candidates submitted by political subdivisions and special districts at the primary election. Each eligible registered voter who does not wish to participate in a party primary may vote on all questions and for any nonpartisan candidates submitted by a political subdivision or special district at the primary election. For purposes of this Section "nonpartisan candidate" shall mean a candidate who is not a candidate of any political party and who is running for an office for which party candidates may not run.

2. In a contest for nomination for or election to an office of a political subdivision or special district, the requirements of this section shall not apply in any circumstance where it conflicts with a federally mandated voting system or with a law or policy adopted in any election after the year 2014 by a majority of the voters casting votes in such election of the subdivision or district.

3. Nothing in this section shall apply to the election of delegates selected by senate district to a constitutional convention under the provisions of Article XII of this Constitution.

4. Notwithstanding any other provision of this Constitution to the contrary and subject to the provisions of this section relating to primaries, voters shall have the freedom to choose all the candidates they like in each primary, special, and general election race conducted by election authorities in the State of Missouri, including all subdivisions therein, held on or after the enactment of this section.

5. The instructions on every ballot subject to this section shall state, "Choose ALL candidates you like in each race."

6. The candidate who receives the highest number of votes for each office shall be declared the winner of the election for that office. In all elections where multiple candidates are to be elected for the same office or position, the number of candidates receiving the highest number of votes for the respective number of offices or positions appearing on the ballot shall be elected.

7. Nothing in this section shall authorize or allow any voter to assign to a candidate any order, ranking order, or ranking number, indicating a voter's preference for or against any candidate.

Section 13. 1. The chair of the county committee, or the city committee of a city not within a county, of each established political party with a candidate on the ballot shall have the exclusive right to designate an observer for any polling place on any day in which votes are being cast who may be present until all ballots are cast, and an observer for each location at which absentee ballots or ballots cast on election day are counted, who may be present while the ballots are being prepared for counting and counted and may remain until all ballots are counted. No later than four business days before the election, the chair shall provide signed designation forms with the names of the designated observers to the local election authority for confirmation of eligibility to serve as an observer. The local election authority shall sign off on the designation forms, unless the observer is found not to have the qualifications established by subsection 3 of this section. If the election authority determines that an observer does not meet the qualifications of subsection 3 of this section, the election authority shall notify the designating party chair and such chair may designate a replacement observer and provide the local election authority with the name of the replacement observer before 5:00 p.m. of the Monday preceding the election. The designating chair may substitute observers who meet the qualifications of subsection 3, at his or her discretion before 5:00 pm on the Monday preceding the election.

2. An independent candidate shall also have the right to designate an observer in the same manner as each political party, except should more than one independent candidate appear on the ballot the independent candidates shall agree on a single observer per polling place or location referenced in subsection 1 of this section.

3. All persons selected as observers shall only be required to have the same qualifications required by law for election judges.

4. In a nonpartisan election, each nonpartisan candidate on the ballot shall have the right to designate an observer in the same manner as each political party for each polling place or location at which such candidate appears on the ballot, except should more than three nonpartisan candidates appear on the ballot, the nonpartisan candidates shall agree on no more than two observers per polling place or location referenced in subsection 1 of this section. The General Assembly shall enact laws to provide for procedures to carry out this subsection.

5. For purposes of this section, "observer" shall mean a watcher, challenger, or observer of an election as provided by law.

Section 14. 1. Prior to the certification of the election results, each election authority shall, at a minimum, undertake a manual audit of randomly selected precincts which shall equal the greater of: 5% of all election precincts within the election authority's jurisdiction, one precinct, or any number required by law. No such audit shall be performed, conducted, or overseen by any non-governmental entity. All ballots cast at such election by qualified registered voters in such precincts shall be subject to the manual audit. The manual audit shall be open to the public, be completed within fourteen (14) days of the conclusion of the election and document the exact method of random selection to select precincts. Results from the manual audit shall be publicly available within two (2) days after its completion.

2. For the randomly selected precinct(s), the election authority shall manually audit one (1) contested election or ballot issue which shall be randomly selected from each of the following categories, where applicable: (A) Presidential and Vice-Presidential electors, United States senate candidates and state-wide candidates; (B) State-wide ballot issues; (C) United States representative candidates and state general assembly candidates; (D) Partisan circuit and associate circuit judge candidates and all nonpartisan judicial retention candidates; and (E) all remaining candidates or ballot issues for the remaining all political subdivisions and special districts, including the county, in the randomly selected precincts. In addition to the randomly selected office or ballot measure above, the election authority shall manually audit all races in which the margin of victory between the two (2) top candidates is equal to or less than one-half of one percent (0.5%) of the number of votes cast for the office.

3. If, based on the manual audit, the election authority finds evidence of errors in the original tabulation that could change the result of any election or would exceed a threshold established by law, the election authority shall immediately notify the candidates in such election of the evidence of errors in the tabulation and such candidates may request a manual recount of all ballots in that election as provided by law.

Section 25. If any portion, clause, or phrase of this Amendment is, for any reason, held to be invalid or unconstitutional in a final judgment of a court of competent jurisdiction, the remaining portions, clauses, and phrases shall not be affected, but shall remain in full force and effect.

**MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (24-092)**

Subject

Initiative petition from Frederic Steinbach regarding a proposed constitutional amendment to Article VIII. (Received March 9, 2023)

Date

March 29, 2023

Description

This proposal would amend Article VIII of the Missouri Constitution.

The amendment is to be voted on in November 2024.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office**, the **Department of Agriculture**, the **Department of Economic Development**, the **Department of Elementary and Secondary Education**, the **Department of Higher Education and Workforce Development**, the **Department of Health and Senior Services**, the **Department of Commerce and Insurance**, the **Department of Mental Health**, the **Department of Natural Resources**, the **Department of Corrections**, the **Department of Labor and Industrial Relations**, the **Department of Revenue**, the **Department of Public Safety**, the **Missouri Department of the National Guard**, the **Department of Social Services**, the **Governor's office**, the **Missouri House of Representatives**, the **Department of Conservation**, the **Department of Transportation**, the **Office of Administration**, the **Office of State Courts Administrator**, the **Missouri Senate**, the **Secretary of State's office**, the **Office of the State Public Defender**, the **State Treasurer's office**, **Adair County**, **Boone County**, **Callaway County**, **Cass County**, **Clay County**, **Cole County**, **Greene County**, **Jackson County**, **Jasper County**, **St. Charles County**, **St. Louis County**, **Taney County**, the **City of Cape Girardeau**, the **City of Columbia**, the **City of Jefferson**, the **City of Joplin**, the **City of Kansas City**, the **City of Kirksville**, the **City of Mexico**, the **City of Raymore**, the **City of St. Joseph**, the **City of St. Louis**, the **City of Springfield**, the **City of Union**, the **City of Wentzville**, the **City of West Plains**, **Cape Girardeau 63 School District**, **Hannibal 60 School District**, **Malta Bend R-V School District**, **Mehlville School District**, **Wellsville-Middletown R-1 School District**, **State Technical College of Missouri**, **Metropolitan Community College**, **University of Missouri**, **St. Louis Community College**, the **St. Charles County Election Authority**, the **St. Louis County Board of Elections**, the **Board of Election Commissioners City of St. Louis**, the **Kansas City Board of Election Commissioners**, the **Platte County Board of Elections**, the **Jackson County Election Board**, the **Clay County Board of Election Commissioners**, and the **State Auditor's Office**.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no impact.

Officials from the **Department of Economic Development** indicated no fiscal impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated they have reviewed initiative petition 24-092 and determined there is no fiscal impact to their agency.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no anticipated cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipate no fiscal impact for this initiative petition proposing to amend Article VIII.

Officials from the **Department of Revenue** indicated the initiative petition does not have an impact on their department.

Officials from the **Department of Public Safety - Office of the Director** indicated no impact for their department, Director's Office.

Officials from the **Missouri Department of the National Guard** indicated no impact to their department.

Officials from the **Department of Social Services** indicated they do not anticipate a fiscal impact as a result of this petition.

Officials from the **Governor's office** indicated this proposal relating to initiatives/referendums and elections does not financially impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated initiative petition 24-092 has no anticipated fiscal impact on their department.

Officials from the **Department of Transportation** indicated no fiscal impact expected for their department or the Missouri Highways and Transportation Commission for this initiative petition.

Officials from the **Office of Administration** indicated this proposal relating to initiatives/referendums and elections does not financially impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be \$10 million based on the cost of the 2022 primary and general election reimbursements.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

For the FY22 petitions cycle, their office estimates publication costs at \$70,000 per page. This amount is subject to change based on number of petitions received, length of those petitions and rates charged by newspaper publishers.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition has no fiscal impact on their office.

Officials from the **State Treasurer's office** indicated there will be no fiscal impact to their office.

Officials from **Clay County** indicated they estimate no fiscal impact as a result of this initiative.

Officials from **Greene County** indicated there are no estimated costs or savings to report from the County of Greene for initiative petition 24-092 proposing to amend Article VIII.

Officials from **St. Louis County** indicated this initiative petition has no apparent fiscal impact for their county.

Officials from the **City of Jefferson** indicated they do not think there would be a direct fiscal impact to the City of Jefferson imposed by Initiative Petition 24-092 proposing to amend Article VIII.

Officials from the **City of Kansas City** indicated this proposed amendment would have no fiscal impact on their city.

Officials from **Metropolitan Community College** indicated no fiscal impact.

Officials from the **University of Missouri** indicated they have no fiscal impact from this petition.

Officials from the **St. Louis Community College** indicated they have reviewed the initiative petition and believe the initiative would have no direct cost or revenue impact.

Officials from the **St. Louis County Board of Elections** indicated this initiative petition will have no fiscal impact on their Board of Elections.

Officials from the **Board of Election Commissioners City of St. Louis** indicated this provision has no perceived impact on their organization.

Officials from the **Kansas City Board of Election Commissioners** indicated there is no fiscal impact to their operations with this petition.

Officials from the **Platte County Board of Elections** indicated no fiscal impact.

Officials from the **Jackson County Election Board** indicated no software exists that would allow a voter to choose all candidates they like in a race without the ranking of those candidates.

If voters were to choose all candidates they like in a race it would count as an overvote, and that voter's vote would not count.

Section 14.1 (3)

If an error occurs in tabulation of a race a manual recount would most likely be needed for the entire ballot. While this is unlikely the cost would increase dramatically for that election.

Hand counting is extremely time consuming and would require hiring of additional part-time staff to conduct the count within the two-week timeframe for timely certification of the election. Depending on the election (number of races) the fiscal impact could be between \$5,000.00 - \$15,000.00.

Officials from the **State Auditor's office** indicated no fiscal impact.

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County, the City of Cape Girardeau, the City of Columbia, the City of Joplin, the City of Kirksville, the City of Mexico, the City of Raymore, the City of St. Joseph, the City of St. Louis, the City of Springfield, the City of Union, the City of Wentzville, the City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, the St. Charles County Election Authority, and the Clay County Board of Election Commissioners.**

Fiscal Note Summary

State and local governmental entities estimate no costs or savings for this proposal.

NOTICE: The proposed amendment revises Article VIII of the Constitution by adopting six new Sections to be known as Article VIII, Sections 8, 9, 10, 12, 13, and 14.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article VIII of the Constitution is revised by adopting six new Sections to be known as Article VIII, Sections 8, 9, 10, 12, 13, and 14 to read as follows:

Section 8. Ballot titles for ballot measures, whether proposed by the General Assembly, or through citizen initiative or referendum, shall be clear, unbiased, fair, sufficient, and to the extent possible shall only include language found in the proposed measure.

Section 9. 1. Subject to appropriation and upon request by an election authority, the secretary of state shall provide technical assistance and recommended guidelines for the management, administration, and accuracy of voter rolls and registrations maintained and used by any election authority, including but not limited to signature reviews and removing deceased individuals from the voter rolls, and may provide funding assistance to election authorities.

2. Subject to appropriation and federal law, election authorities shall update all voter rolls which such election authority has control over, upon the proper notification by a state or federal agency of any voter who is not a qualified registered voter in the jurisdiction of such election authority, including deceased individuals.

Section 10. 1. All established political parties in the state shall have a right to have their designated nominees appear on the general election ballot. For purposes of this Section, "established political party" shall mean a political party which, at either of the last two general elections, has one of its candidates for any statewide office receive more than two percent of the entire vote cast for the office.

2. Any group of persons desiring to form a new political party throughout the state, which shall include being formed for all districts and counties in which the party may have nominations, shall file a petition with the secretary of state which shall be signed by at least ten thousand registered voters of the state obtained at large.

3. All established political parties in the state will retain their established political party status unless such party at any two consecutive general elections fails to have at least one candidate for any statewide office receive more than two percent of the entire vote cast for the office.

4. Notwithstanding any other provision of this Constitution to the contrary and subject to the provisions of this section relating to primaries, voters shall have the freedom to choose all the candidates they like in each primary, special, and general election race conducted by election authorities in the State of Missouri, including all subdivisions therein, held on or after the enactment of this section.

Section 12. 1. In any party primary election, each registered voter shall be entitled to receive the ballot of one and only one political party. Each eligible registered voter who participates in a party primary shall be entitled to vote on all questions and for any nonpartisan candidates submitted by political subdivisions and special districts at the primary election. Each eligible registered voter who does not wish to participate in a party primary may vote on all questions and for any nonpartisan candidates submitted by a political subdivision or special district at the primary election. For purposes of this Section "nonpartisan candidate" shall mean a candidate who is not a candidate of any political party and who is running for an office for which party candidates may not run.

2. In a contest for nomination for or election to an office of a political subdivision or special district, the requirements of this section shall not apply in any circumstance where it conflicts with a federally mandated voting system or with a law or policy adopted in any election after the year 2014 by a majority of the voters casting votes in such election of the subdivision or district.

3. Nothing in this section shall apply to the election of delegates selected by senate district to a constitutional convention under the provisions of Article XII of this Constitution.

4. Notwithstanding any other provision of this Constitution to the contrary and subject to the provisions of this section relating to primaries, voters shall have the freedom to choose all the candidates they like in each primary, special, and general election race conducted by election authorities in the State of Missouri, including all subdivisions therein, held on or after the enactment of this section.

5. The instructions on every ballot subject to this section shall state, "Choose ALL candidates you like in each race."

6. The candidate who receives the highest number of votes for each office shall be declared the winner of the election for that office. In all elections where multiple candidates are to be elected for the same office or position, the number of candidates receiving the highest number of votes for the respective number of offices or positions appearing on the ballot shall be elected.

7. Nothing in this section shall authorize or allow any voter to assign to a candidate any order, ranking order, or ranking number, indicating a voter's preference for or against any candidate.

Section 13. 1. The chair of the county committee, or the city committee of a city not within a county, of each established political party with a candidate on the ballot shall have the exclusive right to designate an observer for any polling place on any day in which votes are being cast who may be present until all ballots are cast, and an observer for each location at which absentee ballots or ballots cast on election day are counted, who may be present while the ballots are being prepared for counting and counted and may remain until all ballots are counted. No later than four business days before the election, the chair shall provide signed designation forms with the names of the designated observers to the local election authority for confirmation of eligibility to serve as an observer. The local election authority shall sign off on the designation forms, unless the observer is found not to have the qualifications established by subsection 3 of this section. If the election authority determines that an observer does not meet the qualifications of subsection 3 of this section, the election authority shall notify the designating party chair and such chair may designate a replacement observer and provide the local election authority with the name of the replacement observer before 5:00 p.m. of the Monday preceding the election. The designating chair may substitute observers who meet the qualifications of subsection 3, at his or her discretion before 5:00 pm on the Monday preceding the election.

2. An independent candidate shall also have the right to designate an observer in the same manner as each political party, except should more than one independent candidate appear on the ballot the independent candidates shall agree on a single observer per polling place or location referenced in subsection 1 of this section.

3. All persons selected as observers shall only be required to have the same qualifications required by law for election judges.

4. In a nonpartisan election, each nonpartisan candidate on the ballot shall have the right to designate an observer in the same manner as each political party for each polling place or location at which such candidate appears on the ballot, except should more than three nonpartisan candidates appear on the ballot, the nonpartisan candidates shall agree on no more than two observers per polling place or location referenced in subsection 1 of this section. The General Assembly shall enact laws to provide for procedures to carry out this subsection.

5. For purposes of this section, "observer" shall mean a watcher, challenger, or observer of an election as provided by law.

Section 14. If any portion, clause, or phrase of this Amendment is, for any reason, held to be invalid or unconstitutional in a final judgment of a court of competent jurisdiction, the remaining portions, clauses, and phrases shall not be affected, but shall remain in full force and effect.

**MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (24-091)**

Subject

Initiative petition from Frederic Steinbach regarding a proposed constitutional amendment to Article VIII. (Received March 9, 2023)

Date

March 29, 2023

Description

This proposal would amend Article VIII of the Missouri Constitution.

The amendment is to be voted on in November 2024.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office**, the **Department of Agriculture**, the **Department of Economic Development**, the **Department of Elementary and Secondary Education**, the **Department of Higher Education and Workforce Development**, the **Department of Health and Senior Services**, the **Department of Commerce and Insurance**, the **Department of Mental Health**, the **Department of Natural Resources**, the **Department of Corrections**, the **Department of Labor and Industrial Relations**, the **Department of Revenue**, the **Department of Public Safety**, the **Missouri Department of the National Guard**, the **Department of Social Services**, the **Governor's office**, the **Missouri House of Representatives**, the **Department of Conservation**, the **Department of Transportation**, the **Office of Administration**, the **Office of State Courts Administrator**, the **Missouri Senate**, the **Secretary of State's office**, the **Office of the State Public Defender**, the **State Treasurer's office**, **Adair County**, **Boone County**, **Callaway County**, **Cass County**, **Clay County**, **Cole County**, **Greene County**, **Jackson County**, **Jasper County**, **St. Charles County**, **St. Louis County**, **Taney County**, the **City of Cape Girardeau**, the **City of Columbia**, the **City of Jefferson**, the **City of Joplin**, the **City of Kansas City**, the **City of Kirksville**, the **City of Mexico**, the **City of Raymore**, the **City of St. Joseph**, the **City of St. Louis**, the **City of Springfield**, the **City of Union**, the **City of Wentzville**, the **City of West Plains**, **Cape Girardeau 63 School District**, **Hannibal 60 School District**, **Malta Bend R-V School District**, **Mehlville School District**, **Wellsville-Middletown R-1 School District**, **State Technical College of Missouri**, **Metropolitan Community College**, **University of Missouri**, **St. Louis Community College**, the **St. Charles County Election Authority**, the **St. Louis County Board of Elections**, the **Board of Election Commissioners City of St. Louis**, the **Kansas City Board of Election Commissioners**, the **Platte County Board of Elections**, the **Jackson County Election Board**, the **Clay County Board of Election Commissioners**, and the **State Auditor's Office**.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no impact.

Officials from the **Department of Economic Development** indicated no fiscal impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated they have reviewed initiative petition 24-091 and determined there is no fiscal impact to their agency.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no anticipated cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipate no fiscal impact for this initiative petition proposing to amend Article VIII.

Officials from the **Department of Revenue** indicated the initiative petition does not have an impact on their department.

Officials from the **Department of Public Safety - Office of the Director** indicated no impact for their department, Director's Office.

Officials from the **Missouri Department of the National Guard** indicated no fiscal impact to their department.

Officials from the **Department of Social Services** indicated they do not anticipate a fiscal impact as a result of this petition.

Officials from the **Governor's office** indicated this proposal relating to initiatives/referendums and elections does not financially impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated initiative petition 24-091 has no anticipated fiscal impact on their department.

Officials from the **Department of Transportation** indicated no fiscal impact expected for their department or the Missouri Highways and Transportation Commission for this initiative petition.

Officials from the **Office of Administration** indicated this proposal relating to initiatives/referendums and elections does not financially impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be \$10 million based on the cost of the 2022 primary and general election reimbursements.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

For the FY22 petitions cycle, their office estimates publication costs at \$70,000 per page. This amount is subject to change based on number of petitions received, length of those petitions and rates charged by newspaper publishers.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition has no fiscal impact on their office.

Officials from the **State Treasurer's office** indicated there will be no fiscal impact to their office.

Officials from **Clay County** indicated they estimate no fiscal impact as a result of this initiative.

Officials from **Greene County** indicated there are no estimated costs or savings to report from the County of Greene for initiative petition 24-091 proposing to amend Article VIII.

Officials from **St. Louis County** indicated this initiative petition has no apparent fiscal impact for their county.

Officials from the **City of Jefferson** indicated they do not think there would be a direct fiscal impact to the City of Jefferson imposed by Initiative Petition 24-091 proposing to amend Article VIII.

Officials from the **City of Kansas City** indicated this proposed amendment would have no fiscal impact on their city.

Officials from **Metropolitan Community College** indicated no fiscal impact.

Officials from the **University of Missouri** indicated they have no fiscal impact from this petition.

Officials from the **St. Louis Community College** indicated they have reviewed the initiative petition and believe the initiative would have no direct cost or revenue impact.

Officials from the **St. Louis County Board of Elections** indicated this initiative petition will have no fiscal impact on their Board of Elections.

Officials from the **Board of Election Commissioners City of St. Louis** indicated no perceived fiscal impact.

Officials from the **Kansas City Board of Election Commissioners** indicated there is no fiscal impact to their operations with this petition.

Officials from the **Platte County Board of Elections** indicated no fiscal impact.

Officials from the **Jackson County Election Board** indicated no software exists that would allow a voter to choose all candidates they like in a race without the ranking of those candidates.

If voters were to choose all candidates they like in a race it would count as an overvote, and that voter's vote would not count.

Officials from the **State Auditor's office** indicated no fiscal impact.

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County, the City of Cape Girardeau, the City of Columbia, the City of Joplin, the City of Kirksville, the City of Mexico, the City of Raymore, the City of St. Joseph, the City of St. Louis, the City of Springfield, the City of Union, the City of Wentzville, the City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, the St. Charles County Election Authority, and the Clay County Board of Election Commissioners.**

Fiscal Note Summary

State and local governmental entities estimate no costs or savings for this proposal.

STATE AUDITORS OFFICE

RE: Petition approval request from Frederic Steinbach regarding a proposed constitutional amendment to Article VIII, version 3 (2024-090)

Dear Auditor Fitzpatrick:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Frederic Steinbach on March 8, 2023.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

NOTICE: The proposed amendment revises Article VIII of the Constitution by adopting six new Sections to be known as Article VIII, Sections 8, 9, 10, 12, 13, and 14.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article VIII of the Constitution is revised by adopting six new Sections to be known as Article VIII, Sections 8, 9, 10, 12, 13, and 14 to read as follows:

Section 8. Ballot titles for ballot measures, whether proposed by the General Assembly, or through citizen initiative or referendum, shall be clear, unbiased, fair, sufficient, and to the extent possible shall only include language found in the proposed measure.

Section 9. 1. Subject to appropriation and upon request by an election authority, the secretary of state shall provide technical assistance and recommended guidelines for the management, administration, and accuracy of voter rolls and registrations maintained and used by any election authority, including but not limited to signature reviews and removing deceased individuals from the voter rolls, and may provide funding assistance to election authorities.

2. Subject to appropriation and federal law, election authorities shall update all voter rolls which such election authority has control over, upon the proper notification by a state or federal agency of any voter who is not a qualified registered voter in the jurisdiction of such election authority, including deceased individuals.

Section 10. 1. All established political parties in the state shall have a right to have their designated nominees appear on the general election ballot. For purposes of this Section, "established political party" shall mean a political party which, at either of the last two general elections, has one of its candidates for any statewide office receive more than two percent of the entire vote cast for the office.

2. Any group of persons desiring to form a new political party throughout the state, which shall include being formed for all districts and counties in which the party may have nominations, shall file a petition with the secretary of state which shall be signed by at least ten thousand registered voters of the state obtained at large.

3. All established political parties in the state will retain their established political party status unless such party at any two consecutive general elections fails to have at least one candidate for any statewide office receive more than two percent of the entire vote cast for the office.

4. Notwithstanding any other provision of this Constitution to the contrary and subject to the provisions of this section relating to primaries, voters shall have the freedom to choose all the candidates they like in each primary, special, and general election race conducted by election authorities in the State of Missouri, including all subdivisions therein, held on or after the enactment of this section.

Section 12. 1. In any party primary election, each registered voter shall be entitled to receive the ballot of one and only one political party. Each eligible registered voter who participates in a party primary shall be entitled to vote on all questions and for any nonpartisan candidates submitted by political subdivisions and special districts at the primary election. Each eligible registered voter who does not wish to participate in a party primary may vote on all questions and for any nonpartisan candidates submitted by a political subdivision or special district at the primary election. For purposes of this Section "nonpartisan candidate" shall mean a candidate who is not a candidate of any political party and who is running for an office for which party candidates may not run.

2. In a contest for nomination for or election to an office of a political subdivision or special district, the requirements of this section shall not apply in any circumstance where it conflicts with a federally mandated voting system or with a law or policy adopted in any election after the year 2014 by a majority of the voters casting votes in such election of the subdivision or district.

3. Nothing in this section shall apply to the election of delegates selected by senate district to a constitutional convention under the provisions of Article XII of this Constitution.

4. Notwithstanding any other provision of this Constitution to the contrary and subject to the provisions of this section relating to primaries, voters shall have the freedom to choose all the candidates they like in each primary, special, and general election race conducted by election authorities in the State of Missouri, including all subdivisions therein, held on or after the enactment of this section.

5. The instructions on every ballot subject to this section shall state, "Choose ALL candidates you like in each race."

6. The candidate who receives the highest number of votes for each office shall be declared the winner of the election for that office. In all elections where multiple candidates are to be elected for the same office or position, the number of candidates receiving the highest number of votes for the respective number of offices or positions appearing on the ballot shall be elected.

7. Nothing in this section shall authorize or allow any voter to assign to a candidate any order, ranking order, or ranking number, indicating a voter's preference for or against any candidate.

Section 13. 1. Prior to the certification of the election results, each election authority shall, at a minimum, undertake a manual audit of randomly selected precincts which shall equal the greater of: 5% of all election precincts within the election authority's jurisdiction, one precinct, or any number required by law. No such audit shall be performed, conducted, or overseen by any non-governmental entity. All ballots cast at such election by qualified registered voters in such precincts shall be subject to the manual audit. The manual audit shall be open to the public, be completed within fourteen (14) days of the conclusion of the election and document the exact method of random selection to select precincts. Results from the manual audit shall be publicly available within two (2) days after its completion.

2. For the randomly selected precinct(s), the election authority shall manually audit one (1) contested election or ballot issue which shall be randomly selected from each of the following categories, where applicable: (A) Presidential and Vice-Presidential electors, United States senate candidates and state-wide candidates; (B) State-wide ballot issues; (C) United States representative candidates and state general assembly candidates; (D) Partisan circuit and associate circuit judge candidates and all nonpartisan judicial retention candidates; and (E) all remaining candidates or ballot issues for the remaining all political subdivisions and special districts, including the county, in the randomly selected precincts. In addition to the randomly selected office or ballot measure above, the election authority shall manually audit all races in which the margin of victory between the two (2) top candidates is equal to or less than one-half of one percent (0.5%) of the number of votes cast for the office.

3. If, based on the manual audit, the election authority finds evidence of errors in the original tabulation that could change the result of any election or would exceed a threshold established by law, the election authority shall immediately notify the candidates in such election of the evidence of errors in the tabulation and such candidates may request a manual recount of all ballots in that election as provided by law.

Section 14. If any portion, clause, or phrase of this Amendment is, for any reason, held to be invalid or unconstitutional in a final judgment of a court of competent jurisdiction, the remaining portions, clauses, and phrases shall not be affected, but shall remain in full force and effect.

**MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (24-090)**

Subject

Initiative petition from Frederic Steinbach regarding a proposed constitutional amendment to Article VIII. (Received March 9, 2023)

Date

March 29, 2023

Description

This proposal would amend Article VIII of the Missouri Constitution.

The amendment is to be voted on in November 2024.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office**, the **Department of Agriculture**, the **Department of Economic Development**, the **Department of Elementary and Secondary Education**, the **Department of Higher Education and Workforce Development**, the **Department of Health and Senior Services**, the **Department of Commerce and Insurance**, the **Department of Mental Health**, the **Department of Natural Resources**, the **Department of Corrections**, the **Department of Labor and Industrial Relations**, the **Department of Revenue**, the **Department of Public Safety**, the **Missouri Department of the National Guard**, the **Department of Social Services**, the **Governor's office**, the **Missouri House of Representatives**, the **Department of Conservation**, the **Department of Transportation**, the **Office of Administration**, the **Office of State Courts Administrator**, the **Missouri Senate**, the **Secretary of State's office**, the **Office of the State Public Defender**, the **State Treasurer's office**, **Adair County**, **Boone County**, **Callaway County**, **Cass County**, **Clay County**, **Cole County**, **Greene County**, **Jackson County**, **Jasper County**, **St. Charles County**, **St. Louis County**, **Taney County**, the **City of Cape Girardeau**, the **City of Columbia**, the **City of Jefferson**, the **City of Joplin**, the **City of Kansas City**, the **City of Kirksville**, the **City of Mexico**, the **City of Raymore**, the **City of St. Joseph**, the **City of St. Louis**, the **City of Springfield**, the **City of Union**, the **City of Wentzville**, the **City of West Plains**, **Cape Girardeau 63 School District**, **Hannibal 60 School District**, **Malta Bend R-V School District**, **Mehlville School District**, **Wellsville-Middletown R-1 School District**, **State Technical College of Missouri**, **Metropolitan Community College**, **University of Missouri**, **St. Louis Community College**, the **St. Charles County Election Authority**, the **St. Louis County Board of Elections**, the **Board of Election Commissioners City of St. Louis**, the **Kansas City Board of Election Commissioners**, the **Platte County Board of Elections**, the **Jackson County Election Board**, the **Clay County Board of Election Commissioners**, and the **State Auditor's Office**.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no impact.

Officials from the **Department of Economic Development** indicated no fiscal impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated they have reviewed initiative petition 24-090 and determined there is no fiscal impact to their agency.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no anticipated cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipate no fiscal impact for this initiative petition proposing to amend Article VIII.

Officials from the **Department of Revenue** indicated the initiative petition does not have an impact on their department.

Officials from the **Department of Public Safety - Office of the Director** indicated no impact for their department, Director's Office.

Officials from the **Missouri Department of the National Guard** indicated no fiscal impact to their department.

Officials from the **Department of Social Services** indicated they do not anticipate a fiscal impact as a result of this petition.

Officials from the **Governor's office** indicated this proposal relating to initiatives/referendums and elections does not financially impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated initiative petition 24-090 has no anticipated fiscal impact on their department.

Officials from the **Department of Transportation** indicated no fiscal impact expected for their department or the Missouri Highways and Transportation Commission for this initiative petition.

Officials from the **Office of Administration** indicated this proposal relating to initiatives/referendums and elections does not financially impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be \$10 million based on the cost of the 2022 primary and general election reimbursements.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

For the FY22 petitions cycle, their office estimates publication costs at \$70,000 per page. This amount is subject to change based on number of petitions received, length of those petitions and rates charged by newspaper publishers.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition has no fiscal impact on their office.

Officials from the **State Treasurer's office** indicated no impact to their office is anticipated.

Officials from **Clay County** indicated they estimate no fiscal impact as a result of this initiative.

Officials from **Greene County** indicated there are no estimated costs or savings to report from the County of Greene for initiative petition 24-090 proposing to amend Article VIII.

Officials from **St. Louis County** indicated this initiative petition has no apparent fiscal impact for their county.

Officials from the **City of Jefferson** indicated they do not think there would be a direct fiscal impact to the City of Jefferson imposed by Initiative Petition 24-090 proposing to amend Article VIII.

Officials from the **City of Kansas City** indicated this amendment would have no fiscal impact on their city.

Officials from **Metropolitan Community College** indicated no fiscal impact.

Officials from the **University of Missouri** indicated they have no fiscal impact from this petition.

Officials from the **St. Louis Community College** indicated they have reviewed the initiative petition and believe the initiative would have no direct cost or revenue impact.

Officials from the **St. Louis County Board of Elections** indicated this initiative petition will have no fiscal impact on their Board of Elections.

Officials from the **Board of Election Commissioners City of St. Louis** indicated there is no perceived fiscal impact on their board.

Officials from the **Kansas City Board of Election Commissioners** indicated there is no fiscal impact with this petition to their operations.

Officials from the **Platte County Board of Elections** indicated no fiscal impact.

Officials from the **Jackson County Election Board** indicated no software exists that would allow a voter to choose all candidates they like in a race without the ranking of those candidates.

If voters were to choose all candidates they like in a race it would count as an overvote, and that voter's vote would not count.

Section 13.1 (3)

If an error occurs in tabulation of a race a manual recount would most likely be needed for the entire ballot. While this is unlikely the cost would increase dramatically for that election.

Hand counting is extremely time consuming and would require hiring of additional part-time staff to conduct the count within the two-week timeframe for timely certification of the election. Depending on the election (number of races) the fiscal impact could be between \$5,000.00 - \$15,000.00.

Officials from the **State Auditor's office** indicated no fiscal impact.

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County, the City of Cape Girardeau, the City of Columbia, the City of Joplin, the City of Kirksville, the City of Mexico, the City of Raymore, the City of St. Joseph, the City of St. Louis, the City of Springfield, the City of Union, the City of Wentzville, the City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, the St. Charles County Election Authority, and the Clay County Board of Election Commissioners.**

Fiscal Note Summary

State and local governmental entities estimate no costs or savings for this proposal.

RE: Petition approval request from Frederic Steinbach regarding a proposed constitutional amendment to Article VIII, version 2 (2024-089)

Dear Auditor Fitzpatrick:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Frederic Steinbach on March 8, 2023.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

NOTICE: The proposed amendment revises Article VIII of the Constitution by adopting five new Sections to be known as Article VIII, Sections 8, 9, 10, 12, and 13.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article VIII of the Constitution is revised by adopting five new Sections to be known as Article VIII, Sections 8, 9, 10, 12, and 13 to read as follows:

Section 8. Ballot titles for ballot measures, whether proposed by the General Assembly, or through citizen initiative or referendum, shall be clear, unbiased, fair, sufficient, and to the extent possible shall only include language found in the proposed measure.

Section 9. 1. Subject to appropriation and upon request by an election authority, the secretary of state shall provide technical assistance and recommended guidelines for the management, administration, and accuracy of voter rolls and registrations maintained and used by any election authority, including but not limited to signature reviews and removing deceased individuals from the voter rolls, and may provide funding assistance to election authorities.

2. Subject to appropriation and federal law, election authorities shall update all voter rolls which such election authority has control over, upon the proper notification by a state or federal agency of any voter who is not a qualified registered voter in the jurisdiction of such election authority, including deceased individuals.

Section 10. 1. All established political parties in the state shall have a right to have their designated nominees appear on the general election ballot. For purposes of this Section, "established political party" shall mean a political party which, at either of the last two general elections, has one of its candidates for any statewide office receive more than two percent of the entire vote cast for the office.

2. Any group of persons desiring to form a new political party throughout the state, which shall include being formed for all districts and counties in which the party may have nominations, shall file a petition with the secretary of state which shall be signed by at least ten thousand registered voters of the state obtained at large.

3. All established political parties in the state will retain their established political party status unless such party at any two consecutive general elections fails to have at least one candidate for any statewide office receive more than two percent of the entire vote cast for the office.

4. Notwithstanding any other provision of this Constitution to the contrary and subject to the provisions of this section relating to primaries, voters shall have the freedom to choose all the candidates they like in each primary, special, and general election race conducted by election authorities in the State of Missouri, including all subdivisions therein, held on or after the enactment of this section.

Section 12. 1. In any party primary election, each registered voter shall be entitled to receive the ballot of one and only one political party. Each eligible registered voter who participates in a party primary shall be entitled to vote on all questions and for any nonpartisan candidates submitted by political subdivisions and special districts at the primary election. Each eligible registered voter who does not wish to participate in a party primary may vote on all questions and for any nonpartisan candidates submitted by a political subdivision or special district at the primary election. For purposes of this Section "nonpartisan candidate" shall mean a candidate who is not a candidate of any political party and who is running for an office for which party candidates may not run.

2. In a contest for nomination for or election to an office of a political subdivision or special district, the requirements of this section shall not apply in any circumstance where it conflicts with a federally mandated voting system or with a law or policy adopted in any election after the year 2014 by a majority of the voters casting votes in such election of the subdivision or district.

3. Nothing in this section shall apply to the election of delegates selected by senate district to a constitutional convention under the provisions of Article XII of this Constitution.

4. Notwithstanding any other provision of this Constitution to the contrary and subject to the provisions of this section relating to primaries, voters shall have the freedom to choose all the candidates they like in each primary, special, and general election race conducted by election authorities in the State of Missouri, including all subdivisions therein, held on or after the enactment of this section.

5. The instructions on every ballot subject to this section shall state, "Choose ALL candidates you like in each race."

6. The candidate who receives the highest number of votes for each office shall be declared the winner of the election for that office. In all elections where multiple candidates are to be elected for the same office or position, the number of candidates receiving the highest number of votes for the respective number of offices or positions appearing on the ballot shall be elected.

7. Nothing in this section shall authorize or allow any voter to assign to a candidate any order, ranking order, or ranking number, indicating a voter's preference for or against any candidate.

Section 13. If any portion, clause, or phrase of this Amendment is, for any reason, held to be invalid or unconstitutional in a final judgment of a court of competent jurisdiction, the remaining portions, clauses, and phrases shall not be affected, but shall remain in full force and effect.

**MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (24-089)**

Subject

Initiative petition from Frederic Steinbach regarding a proposed constitutional amendment to Article VIII. (Received March 9, 2023)

Date

March 29, 2023

Description

This proposal would amend Article VIII of the Missouri Constitution.

The amendment is to be voted on in November 2024.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office**, the **Department of Agriculture**, the **Department of Economic Development**, the **Department of Elementary and Secondary Education**, the **Department of Higher Education and Workforce Development**, the **Department of Health and Senior Services**, the **Department of Commerce and Insurance**, the **Department of Mental Health**, the **Department of Natural Resources**, the **Department of Corrections**, the **Department of Labor and Industrial Relations**, the **Department of Revenue**, the **Department of Public Safety**, the **Missouri Department of the National Guard**, the **Department of Social Services**, the **Governor's office**, the **Missouri House of Representatives**, the **Department of Conservation**, the **Department of Transportation**, the **Office of Administration**, the **Office of State Courts Administrator**, the **Missouri Senate**, the **Secretary of State's office**, the **Office of the State Public Defender**, the **State Treasurer's office**, **Adair County**, **Boone County**, **Callaway County**, **Cass County**, **Clay County**, **Cole County**, **Greene County**, **Jackson County**, **Jasper County**, **St. Charles County**, **St. Louis County**, **Taney County**, the **City of Cape Girardeau**, the **City of Columbia**, the **City of Jefferson**, the **City of Joplin**, the **City of Kansas City**, the **City of Kirksville**, the **City of Mexico**, the **City of Raymore**, the **City of St. Joseph**, the **City of St. Louis**, the **City of Springfield**, the **City of Union**, the **City of Wentzville**, the **City of West Plains**, **Cape Girardeau 63 School District**, **Hannibal 60 School District**, **Malta Bend R-V School District**, **Mehlville School District**, **Wellsville-Middletown R-1 School District**, **State Technical College of Missouri**, **Metropolitan Community College**, **University of Missouri**, **St. Louis Community College**, the **St. Charles County Election Authority**, the **St. Louis County Board of Elections**, the **Board of Election Commissioners City of St. Louis**, the **Kansas City Board of Election Commissioners**, the **Platte County Board of Elections**, the **Jackson County Election Board**, the **Clay County Board of Election Commissioners**, and the **State Auditor's Office**.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no impact.

Officials from the **Department of Economic Development** indicated no fiscal impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated they have reviewed initiative petition 24-089 and determined there is no fiscal impact to their agency.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no anticipated cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipate no fiscal impact for this initiative petition proposing to amend Article VIII.

Officials from the **Department of Revenue** indicated the initiative petition does not have an impact on their department.

Officials from the **Department of Public Safety - Office of the Director** indicated no impact for their department, Director's Office.

Officials from the **Missouri Department of the National Guard** indicated no fiscal impact to their department.

Officials from the **Department of Social Services** indicated they do not anticipate a fiscal impact as a result of this petition.

Officials from the **Governor's office** indicated this proposal relating to initiatives/referendums and elections does not financially impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated initiative petition 24-089 has no anticipated fiscal impact on their department.

Officials from the **Department of Transportation** indicated no fiscal impact expected for their department or the Missouri Highways and Transportation Commission for this initiative petition.

Officials from the **Office of Administration** indicated this proposal relating to initiatives/referendums and elections does not financially impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be \$10 million based on the cost of the 2022 primary and general election reimbursements.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

For the FY22 petitions cycle, their office estimates publication costs at \$70,000 per page. This amount is subject to change based on number of petitions received, length of those petitions and rates charged by newspaper publishers.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition has no fiscal impact on their office.

Officials from the **State Treasurer's office** indicated there will be no fiscal impact to their office.

Officials from **Clay County** indicated they estimate no fiscal impact as a result of this initiative.

Officials from **Greene County** indicated there are no estimated costs or savings to report from the County of Greene for initiative petition 24-089 proposing to amend Article VIII.

Officials from **St. Louis County** indicated this initiative petition has no apparent fiscal impact for their county.

Officials from the **City of Jefferson** indicated they do not think there would be a direct fiscal impact to the City of Jefferson imposed by Initiative Petition 24-089 proposing to amend Article VIII.

Officials from the **City of Kansas City** indicated this proposed amendment would have no fiscal impact on their city.

Officials from **Metropolitan Community College** indicated no fiscal impact.

Officials from the **University of Missouri** indicated they have no fiscal impact from this petition.

Officials from the **St. Louis Community College** indicated they have reviewed the initiative petition and believe the initiative would have no direct cost or revenue impact.

Officials from the **St. Louis County Board of Elections** indicated this initiative petition will have no fiscal impact on their Board of Elections.

Officials from the **Board of Election Commissioners City of St. Louis** indicated no perceived fiscal impact.

Officials from the **Kansas City Board of Election Commissioners** indicated they see no fiscal impact with this petition.

Officials from the **Platte County Board of Elections** indicated no fiscal impact.

Officials from the **Jackson County Election Board** indicated no software exists that would allow a voter to choose all candidates they like in a race without the ranking of those candidates.

If voters were to choose all candidates they like in a race it would count as an overvote, and that voter's vote would not count.

Officials from the **State Auditor's office** indicated no fiscal impact.

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County, the City of Cape Girardeau, the City of Columbia, the City of Joplin, the City of Kirksville, the City of Mexico, the City of Raymore, the City of St. Joseph, the City of St. Louis, the City of Springfield, the City of Union, the City of Wentzville, the City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, the St. Charles County Election Authority, and the Clay County Board of Election Commissioners.**

Fiscal Note Summary

State and local governmental entities estimate no costs or savings for this proposal.

NOTICE: The proposed amendment revises Article VIII of the Constitution by adopting four new Sections to be known as Article VIII, Sections 8, 9, 10, and 12.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article VIII of the Constitution is revised by adopting four new Sections to be known as Article VIII, Sections 8, 9, 10, and 12 to read as follows:

Section 8. Ballot titles for ballot measures, whether proposed by the General Assembly, or through citizen initiative or referendum, shall be clear, unbiased, fair, sufficient, and to the extent possible shall only include language found in the proposed measure.

Section 9. 1. All established political parties in the state shall have a right to have their designated nominees appear on the general election ballot. For purposes of this Section, "established political party" shall mean a political party which, at either of the last two general elections, has one of its candidates for any statewide office receive more than two percent of the entire vote cast for the office.

2. Any group of persons desiring to form a new political party throughout the state, which shall include being formed for all districts and counties in which the party may have nominations, shall file a petition with the secretary of state which shall be signed by at least ten thousand registered voters of the state obtained at large.

3. All established political parties in the state will retain their established political party status unless such party at any two consecutive general elections fails to have at least one candidate for any statewide office receive more than two percent of the entire vote cast for the office.

4. Any person desiring to be an independent candidate for any state or federal office to be filled by voters, shall file a petition with the secretary of state. Any person desiring to be an independent candidate for any county office shall file a petition with the election authority of the county. If an independent candidate is to be nominated for a statewide office, the petition shall be signed by at least ten thousand registered voters of the state. If the independent candidate is to be nominated for a district or county office, the petition shall be signed by the number of registered voters in the district or county which is equal to at least two percent of the total number of voters who voted at the last general election for candidates for the office being sought or is equal to ten thousand voters, whichever is less.

Section 10. 1. In any party primary election, each registered voter shall be entitled to receive the ballot of one and only one political party. Each eligible registered voter who participates in a party primary shall be entitled to vote on all questions and for any nonpartisan candidates submitted by political subdivisions and special districts at the primary election. Each eligible registered voter who does not wish to participate in a party primary may vote on all questions and for any nonpartisan candidates submitted by a political subdivision or special district at the primary election. For purposes of this Section "nonpartisan candidate" shall mean a candidate who is not a candidate of any political party and who is running for an office for which party candidates may not run.

2. In a contest for nomination for or election to an office of a political subdivision or special district, the requirements of this section shall not apply in any circumstance where it conflicts with a federally mandated voting system or with a law or policy adopted in any election after the year 2014 by a majority of the voters casting votes in such election of the subdivision or district.

3. Nothing in this section shall apply to the election of delegates selected by senate district to a constitutional convention under the provisions of Article XII of this Constitution.

4. Notwithstanding any other provision of this Constitution to the contrary and subject to the provisions of this section relating to primaries, voters shall have the freedom to choose all the candidates they like in each primary, special, and general election race conducted by election authorities in the State of Missouri, including all subdivisions therein, held on or after the enactment of this section.

5. The instructions on every ballot subject to this section shall state, "Choose ALL candidates you like in each race."

6. The candidate who receives the highest number of votes for each office shall be declared the winner of the election for that office. In all elections where multiple candidates are to be elected for the same office or position, the number of candidates receiving the highest number of votes for the respective number of offices or positions appearing on the ballot shall be elected.

7. Nothing in this section shall authorize or allow any voter to assign to a candidate any order, ranking order, or ranking number, indicating a voter's preference for or against any candidate.

Section 12. If any portion, clause, or phrase of this Amendment is, for any reason, held to be invalid or unconstitutional in a final judgment of a court of competent jurisdiction, the remaining portions, clauses, and phrases shall not be affected, but shall remain in full force and effect.

This proposal would amend Article VIII of the Missouri Constitution.

The amendment is to be voted on in November 2024.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office**, the **Department of Agriculture**, the **Department of Economic Development**, the **Department of Elementary and Secondary Education**, the **Department of Higher Education and Workforce Development**, the **Department of Health and Senior Services**, the **Department of Commerce and Insurance**, the **Department of Mental Health**, the **Department of Natural Resources**, the **Department of Corrections**, the **Department of Labor and Industrial Relations**, the **Department of Revenue**, the **Department of Public Safety**, the **Missouri Department of the National Guard**, the **Department of Social Services**, the **Governor's office**, the **Missouri House of Representatives**, the **Department of Conservation**, the **Department of Transportation**, the **Office of Administration**, the **Office of State Courts Administrator**, the **Missouri Senate**, the **Secretary of State's office**, the **Office of the State Public Defender**, the **State Treasurer's office**, **Adair County**, **Boone County**, **Callaway County**, **Cass County**, **Clay County**, **Cole County**, **Greene County**, **Jackson County**, **Jasper County**, **St. Charles County**, **St. Louis County**, **Taney County**, the **City of Cape Girardeau**, the **City of Columbia**, the **City of Jefferson**, the **City of Joplin**, the **City of Kansas City**, the **City of Kirksville**, the **City of Mexico**, the **City of Raymore**, the **City of St. Joseph**, the **City of St. Louis**, the **City of Springfield**, the **City of Union**, the **City of Wentzville**, the **City of West Plains**, **Cape Girardeau 63 School District**, **Hannibal 60 School District**, **Malta Bend R-V School District**, **Mehlville School District**, **Wellsville-Middletown R-1 School District**, **State Technical College of Missouri**, **Metropolitan Community College**, **University of Missouri**, **St. Louis Community College**, the **St. Charles County Election Authority**, the **St. Louis County Board of Elections**, the **Board of Election Commissioners City of St. Louis**, the **Kansas City Board of Election Commissioners**, the **Platte County Board of Elections**, the **Jackson County Election Board**, the **Clay County Board of Election Commissioners**, and the **State Auditor's Office**.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no impact.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated they have reviewed initiative petition 24-088 and determined there is no fiscal impact to their agency.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no anticipated cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipate no fiscal impact for this initiative petition proposing to amend Article VIII.

Officials from the **Department of Revenue** indicated the initiative petition does not have an impact on their department.

Officials from the **Department of Public Safety - Office of the Director** indicated no impact for their department, Director's Office.

Officials from the **Missouri Department of the National Guard** indicated no fiscal impact to their department.

Officials from the **Department of Social Services** indicated they do not anticipate a fiscal impact as a result of this petition.

Officials from the **Governor's office** indicated this proposal relating to initiatives/referendums and elections does not financially impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated initiative petition 24-088 has no anticipated fiscal impact on their department.

Officials from the **Department of Transportation** indicated no fiscal impact expected for their department or the Missouri Highways and Transportation Commission for this initiative petition.

Officials from the **Office of Administration** indicated this proposal relating to initiatives/referendums and elections does not financially impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be \$10 million based on the cost of the 2022 primary and general election reimbursements.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

For the FY22 petitions cycle, their office estimates publication costs at \$70,000 per page. This amount is subject to change based on number of petitions received, length of those petitions and rates charged by newspaper publishers.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition has no fiscal impact on their office.

Officials from the **State Treasurer's office** indicated there will be no fiscal impact to their office.

Officials from **Clay County** indicated they estimate no fiscal impact as a result of this initiative.

Officials from **Greene County** indicated there are no estimated costs or savings to report from the County of Greene for initiative petition 24-088 proposing to amend Article VIII.

Officials from **St. Louis County** indicated this initiative petition has no apparent fiscal impact for their county.

Officials from the **City of Jefferson** indicated they do not think there would be a direct fiscal impact to the City of Jefferson imposed by Initiative Petition 24-088 proposing to amend Article VIII.

Officials from the **City of Kansas City** indicated this proposed amendment would have no fiscal impact on their city.

Officials from **Metropolitan Community College** indicated no fiscal impact.

Officials from the **St. Louis Community College** indicated they have reviewed the initiative petition and believe the initiative would have no direct cost or revenue impact.

Officials from the **St. Louis County Board of Elections** indicated this initiative petition will have no fiscal impact on their Board of Elections.

Officials from the **Board of Election Commissioners City of St. Louis** indicated no perceived fiscal impact.

Officials from the **Kansas City Board of Election Commissioners** indicated they see no fiscal impact with this petition.

Officials from the **Platte County Board of Elections** indicated no fiscal impact.

Officials from the **Jackson County Election Board** indicated no software exists that would allow a voter to choose all candidates they like in a race without the ranking of those candidates.

If voters were to choose all candidates they like in a given race it would count as an overvote, and that voter's vote would not count.

Officials from the **State Auditor's office** indicated no fiscal impact.

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County, the City of Cape Girardeau, the City of Columbia, the City of Joplin, the City of Kirksville, the City of Mexico, the City of Raymore, the City of St. Joseph, the City of St. Louis, the City of Springfield, the City of Union, the City of Wentzville, the City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, University of Missouri, the St. Charles County Election Authority, and the Clay County Board of Election Commissioners.**

Fiscal Note Summary

State and local governmental entities estimate no costs or savings for this proposal.

STATE AUDITORS OFFICE

RE: Petition approval request from Anna Fitz-James regarding a proposed constitutional amendment to Article I, version 11 (2024-087)

Dear Auditor Fitzpatrick:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Anna Fitz-James on March 8, 2023.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

cc: Hon. Andrew Bailey
Sheri Hoffman
Trish Vincent

It is a class A misdemeanor punishable, notwithstanding the provisions of section 560.021, RSMo, to the contrary, for a term of imprisonment not to exceed one year in the county jail or a fine not to exceed ten thousand dollars or both, for anyone to sign any initiative petition with any name other than his or her own, or knowingly to sign his or her name more than once for the same measure for the same election, or to sign a petition when such person knows he or she is not a registered voter.

County: _____

INITIATIVE PETITION

Page No: _____

To the Honorable John R. Ashcroft, Secretary of State for the state of Missouri:
We, the undersigned, registered voters of the state of Missouri and _____ County (or City of St. Louis), respectfully order that the following proposed amendment to the constitution shall be submitted to the voters of the state of Missouri, for their approval or rejection, at the general election to be held on the 5th day of November, 2024, and each for himself or herself says: I have personally signed this petition; I am a registered voter of the state of Missouri and _____ County (or City of St. Louis); my registered voting address and the name of the city, town or village in which I live are correctly written after my name.

NOTICE: The proposed amendment revises Article I of the Constitution by adopting one new Section to be known as Article I, Section 36.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article I of the Constitution is revised by adopting one new Section to be known as Article I, Section 36 to read as follows:

Section 36. 1. This Section shall be known as “The Right to Reproductive Freedom Initiative.”

2. The Government shall not deny or infringe upon a person’s fundamental right to reproductive freedom, which is the right to make and carry out decisions about all matters relating to reproductive health care, including but not limited to prenatal care, childbirth, postpartum care, birth control, abortion care, miscarriage care, and respectful birthing conditions.

3. The right to reproductive freedom shall not be denied, interfered with, delayed, or otherwise restricted unless the Government demonstrates that such action is justified by a compelling governmental interest achieved by the least restrictive means. Any denial, interference, delay, or restriction of the right to reproductive freedom shall be presumed invalid. For purposes of this Section, a governmental interest is compelling only if it is for the limited purpose and has the limited effect of improving or maintaining the health of a person seeking care, is consistent with widely accepted clinical standards of practice and evidence-based medicine, and does not infringe on that person’s autonomous decision-making.

4. Notwithstanding subsection 3 of this Section, the general assembly may enact laws that regulate the provision of abortion after Fetal Viability provided that under no circumstance shall the Government deny, interfere with, delay, or otherwise restrict an abortion that in the good faith judgment of a treating health care professional is needed to protect the life or physical or mental health of the pregnant person.

5. No person shall be penalized, prosecuted, or otherwise subjected to adverse action based on their actual, potential, perceived, or alleged pregnancy outcomes, including but not limited to miscarriage, stillbirth, or abortion. Nor shall any person assisting a person in exercising their right to reproductive freedom with that person’s consent be penalized, prosecuted, or otherwise subjected to adverse action for doing so.

6. The Government shall not discriminate against persons providing or obtaining reproductive health care or assisting another person in doing so.

7. Nothing in this Section requires government funding of abortion procedures.

8. If any provision of this Section or the application thereof to anyone or to any circumstance is held invalid, the remainder of those provisions and the application of such provisions to others or other circumstances shall not be affected thereby.

9. For purposes of this Section, the following terms mean:

(1) “Fetal Viability”, the point in pregnancy when, in the good faith judgment of a treating health care professional and based on the particular facts of the case, there is a significant likelihood of the fetus’s sustained survival outside the uterus without the application of extraordinary medical measures.

(2) “Government”,

a. the state of Missouri; or

b. any municipality, city, town, village, township, district, authority, public subdivision or public corporation having the power to tax or regulate, or any portion of two or more such entities within the state of Missouri.

**MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (24-087)**

Subject

Initiative petition from Anna Fitz-James regarding a proposed constitutional amendment to Article I. (Received March 9, 2023)

Date

March 29, 2023

Description

This proposal would amend Article I of the Missouri Constitution.

The amendment is to be voted on in November 2024.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office**, the **Department of Agriculture**, the **Department of Economic Development**, the **Department of Elementary and Secondary Education**, the **Department of Higher Education and Workforce Development**, the **Department of Health and Senior Services**, the **Department of Commerce and Insurance**, the **Department of Mental Health**, the **Department of Natural Resources**, the **Department of Corrections**, the **Department of Labor and Industrial Relations**, the **Department of Revenue**, the **Department of Public Safety**, the **Missouri Department of the National Guard**, the **Department of Social Services**, the **Governor's office**, the **Missouri House of Representatives**, the **Department of Conservation**, the **Department of Transportation**, the **Office of Administration**, the **Office of State Courts Administrator**, the **Missouri Senate**, the **Secretary of State's office**, the **Office of the State Public Defender**, the **State Treasurer's office**, **Adair County**, **Boone County**, **Callaway County**, **Cass County**, **Clay County**, **Cole County**, **Greene County**, **Jackson County**, **Jasper County**, **St. Charles County**, **St. Louis County**, **Taney County**, the **City of Cape Girardeau**, the **City of Columbia**, the **City of Jefferson**, the **City of Joplin**, the **City of Kansas City**, the **City of Kirksville**, the **City of Mexico**, the **City of Raymore**, the **City of St. Joseph**, the **City of St. Louis**, the **City of Springfield**, the **City of Union**, the **City of Wentzville**, the **City of West Plains**, **Cape Girardeau 63 School District**, **Hannibal 60 School District**, **Malta Bend R-V School District**, **Mehlville School District**, **Wellsville-Middletown R-1 School District**, **State Technical College of Missouri**, **Metropolitan Community College**, **University of Missouri**, and **St. Louis Community College**.

Susan Klein, Executive Director, Missouri Right to Life provided information to the State Auditor's office.

Samuel H. Lee, Campaign Life Missouri provided information to the State Auditor's office.

David C. Drury, Attorney at Law provided information to the State Auditor's office.

Rachel U. Greszler, Senior Research Fellow in Economics, Budgets and Entitlements, The Heritage Foundation provided information to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no impact.

Officials from the **Department of Economic Development** indicated no fiscal impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated they have reviewed initiative petition 24-087 and determined there is no fiscal impact to their agency.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated changes to the bill are as follows:

Initiative petition 24-087 is identical to 24-077 with the following exceptions:

Adds new Section 36.4, which states "Notwithstanding subsection 3 of this Section, the general assembly may enact laws that regulate the provision of abortion after Fetal Viability provided that under no circumstance shall the Government deny, burden, or otherwise restrict an abortion that in the good faith judgement of a treating health care professional is needed to protect the life or physical or mental health of the pregnant person."

Removes "other than as required by federal law" from Section 36.7 (Section 36.6 in 24-077)

Adds definition for Fetal Viability in Section 36.9(1), "'Fetal Viability,' the point in pregnancy when, in the good faith judgement of a treating health care professional and based on the particular facts of the case, there is a significant likelihood of the .fetus's sustained survival outside the uterus without the application of extraordinary medical measures."

Comments:

The fiscal impact for 24-087 is the same as the fiscal impact for 24-077 and is as follows:

- FY 2024 General Revenue: (\$0 to Unknown)
- FY 2025 General Revenue: (\$0 to Unknown)
- FY 2026 General Revenue: (\$0 to Unknown)

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no anticipated cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipate no fiscal impact for this initiative petition proposing to amend Article I.

Officials from the **Department of Revenue** indicated the initiative petition does not have an impact on their department.

Officials from the **Department of Public Safety** indicated no impact for their department, Director's office.

Officials from the **Missouri Department of the National Guard** indicated no fiscal impact to their department.

Officials from the **Department of Social Services** indicated they do not anticipate a fiscal impact.

Officials from the **Governor's office** indicated this proposal relating to reproductive issues does not financially impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated Initiative Petition 24-087 has no anticipated fiscal impact on their department.

Officials from the **Department of Transportation** indicated no fiscal impact expected for their department or the Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal relating to reproductive issues will not financially impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be \$10 million based on the cost of the 2022 primary and general election reimbursements.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

For the FY22 petitions cycle, their office estimates publication costs at \$70,000 per page. This amount is subject to change based on number of petitions received, length of those petitions and rates charged by newspaper publishers.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition has no fiscal impact on their office.

Officials from the **State Treasurer's office** indicated no fiscal impact to their office is anticipated.

Officials from **Clay County** indicated they estimate no fiscal impact as a result of this initiative.

Officials from **Greene County** indicated in reviewing initiative petition 24-087 it has been determined there will be an increased cost to the County of Greene due to loss of tax revenue if voters vote to amend Article I.

The Missouri Department of Health & Senior Services recorded 135 "resident abortions" for Greene County in 2020 and 118 in 2021. The population of Greene County per the 2020 United States census was 298,915. (<https://www.census.gov/quickfacts/fact/table/greenecountymissouri/PST045221>)

In terms of economic impact, Greene County received \$112,673,249 in sales and property taxes for calendar year 2022 (**\$376.94** per capita based on **2020** census data). Accordingly, calculations from these figures indicate an annual loss in population of **135** represents a cost to the County of **\$50,886.90**; an increase in abortion statistics could reasonably be extrapolated to illustrate less tax collections and revenues over the years of potential working lifetimes.

Please see the attached table demonstrating the anticipated yearly on per capita basis and the overall fiscal impact on Greene County tax collections and revenues based on the recorded abortions in 2020 by Missouri Department of Health and Senior Services.

Additional research regarding the broader fiscal impact of lower fertility rates on local and state communities and government budgets may be found here:

- <https://www.pewtrusts.org/en/research-and-analysis/issue-briefs/2022/12/the-long-term-decline-in-fertility-and-what-it-means-for-state-budgets>

Greene County Collections in 2022	
2020 Population	298,915

Real Estate Tax	12,222,341.99
Personal Property Tax	2,846,022.58
Property Tax SubTotal	15,068,364.57
Total Taxes	112,673,249.02
Per Capita	376.94
Annual lost population	135
Annual Cost	50,886.90

Officials from **St. Louis County** indicated this has no fiscal impact on their county.

Officials from the **City of Jefferson City** indicated they do not think there would be a direct fiscal impact to the City of Jefferson imposed by Initiative Petition 24-087 proposing to amend Article I. There could be an indirect fiscal impact resulting from increased lawsuits related to violations of the act.

Officials from the **City of Kansas City** indicated this proposed amendment would have no fiscal impact on their city.

Officials from **Metropolitan Community College** indicated no fiscal impact.

Officials from the **St. Louis Community College** indicated they have reviewed the initiative petition and believe the initiative would have no direct cost or revenue impact.

Susan Klein, Executive Director, Missouri Right to Life provided the following information:

PO Box 651
Jefferson City, MO 65102

www.missourilife.org

March 15, 2023

Office of the Missouri State Auditor
The Honorable Scott Fitzpatrick
301 West High Street, Room 880
Jefferson City, MO 65102

Dear Auditor Fitzpatrick,

On behalf of the Members, Board and Staff of Missouri Right to Life, I submit to you our comments for consideration and inclusion in the fiscal note you will be preparing regarding the effects to the State of Missouri and its Local Governments of Initiative Petition(s) 2024-077 through 2024-087.

The Petitions Would Create Devastating Impacts for Missouri's Budget:

On March 8, 2023, 11 proposed initiative petitions (2024-077 through 2024-087) were filed with the Missouri Secretary of State's Office by Anna Fitz-James for a campaign committee called "Missourians for Constitutional Freedom." While each initiative petition has some slight variations, they are all identical in their purpose and their fiscal effects to General Revenue, Federal Funds, and Other Funds received by the State of Missouri and the impact to local governments.

The fiscal effects of some of the impacts of the petition(s) follow:

- **Abortion Injuries, Sanctions, Litigation and Loss of Federal Funding:** The petition will allow for abortions to be performed up until the moment of birth and possibly beyond. In addition to the loss of the life of the unborn child and the ending of his or her priceless contributions to our state and society, surgical and chemical abortions have risks and complications to the health of the mother. The cost impacts of surgical and medical abortion physical injuries would result in a devastating impact to Missouri's balanced budget due to an expansion of costs for Missouri's state and Federally-funded healthcare programs. In addition, women endure emotional trauma after an abortion. A massive increase in funding for mental health services would be required. Under current Federal law, states are barred from using Federal funds to pay for abortions except in limited cases (the Hyde Amendment). Federal funding could be in jeopardy and Missouri could be subject to the risk of litigation and sanctions, including the possibility of deferral or disallowance of federal financial participation in Missouri's Medicaid program. In 2019, more than \$7.2 billion in Federal funds were budgeted for Mo HealthNet services (Department of Social Services, Department of Mental Health, and Department of Health and Senior Services). The loss of these funds would be devastating to Missouri.

- **Loss of Licensing Fee Revenues/Penalties:** The petition will allow for anyone to perform an abortion with no penalty, prosecution or adverse action for performing the abortion. An abortion provider would no longer have a reason to maintain his or her license with the State of Missouri (and anyone who chose to perform an abortion would be protected under the Constitution to do so without any regulations or consequences). Missouri laws and regulations would be nullified, and licensing fees normally collected would decline.
- **Rural Hospitals Impacted:** Rural hospitals are already struggling. The petition will allow anyone to perform an abortion with no penalty, prosecution or regulation, and will result in a skyrocketing number of women injured by abortion who will need emergency services, flooding Emergency Rooms and health clinics and limiting or delaying access to emergency healthcare services needed by other individuals. This will result in a fiscal impact to the state. The state will also experience a fiscal impact through staff shortages as abortion-injured state employees seek medical care, surgery and recovery time off work to manage complications of abortion.
- **Missouri Could Face a Budgetary Crisis Due to Loss of Federal Funding from Violating Federal Conscience Laws:** The petition will force Missouri to be out of compliance with Federal conscience laws. This could result in the loss of billions of dollars of Federal funding, litigation and sanctions. If the Federal Government sanctions Missouri due to these violations, this will be devastating and create a budgetary crisis in Missouri. The state will also experience a fiscal impact through staff shortages as state employees flee state jobs where they feel their conscience is violated due to being forced to assist with an abortion.
- **Abortions Funded With Public Tax Dollars:** The petition will allow for the funding of abortions with public tax dollars. The language does not prohibit government funding of abortion procedures or of abortion providers. This would result in a massive fiscal impact to Missouri's balanced budget.
- **Constitutional Protections for Human Traffickers:** The petition will allow for anyone to perform, or assist with, an abortion with no penalty, prosecution or adverse action for performing the abortion. This would result in Constitutional protections for child sex traffickers who impregnate their victims and coerce them into an abortion and would render ineffective Missouri law enforcement, prosecution and justice efforts tasked with upholding our Constitution and laws. The petition could hamper the Federal Government's efforts under The Trafficking Victims Protection Act of 2000 and other Federal laws and could result in sanctions from any Federal funding that Missouri would otherwise be eligible to receive.
- **Sex Changes, et. al, Funded With Public Tax Dollars:** The petition, under the guise of "The Right to Reproductive Freedom," will allow the funding of sex change surgeries, puberty blockers, hormone therapy and other "reproductive services" with public tax dollars. This would result in a massive fiscal impact to Missouri's balanced budget.

In summary, any fiscal note of the petition(s) should contain the following language and should also include the estimated fiscal net effects to the State of Missouri and its local government:

This initiative petition (a) will allow for abortions to be performed up until the moment of birth and possibly beyond, which would put Missouri in jeopardy of losing billions of dollars of Federal funding and create an unplanned strain on the state's General Revenue, Other and Local Funds as a result of abortion injuries, sanctions, litigation, loss of licensing fee/penalty revenues, and overloaded emergency rooms and healthcare facilities, (b) will put Missouri in violation of Federal conscience laws, which could result in a loss of billions of dollars of Federal funding and an increase of state and local government employee vacancies and litigation due to exercising their rights of conscience, (c) will allow for anyone to perform, or assist with, an abortion with no penalty, prosecution or adverse action for performing the abortion, thereby creating Constitutional protections for Human Traffickers which could result in a loss of Federal funding, and (d) will allow for the funding of abortions, sex change surgeries, puberty blockers, hormone therapy and other "reproductive services" with public tax dollars which would result in a massive fiscal impact to the State of Missouri and its local government budgets.

Sincerely,

A handwritten signature in black ink that reads "Susan Klein". The signature is written in a cursive, flowing style.

Susan Klein
Executive Director
Missouri Right to Life

Samuel H. Lee, Campaign Life Missouri provided the following information:

Samuel Lee
Director

March 16, 2023

State Auditor's Office
State Capitol
201 West Capitol Ave.
Jefferson City, MO 65101

Dear Auditor Fitzpatrick,

In accordance with the provisions of [section 116.175](#), this is a proposed statement of the fiscal impact of the 11 initiative petitions numbered 24-077 through 24-087, which your office received on March 9, 2023.

To summarize, the proposed ballot measures – all of which would amend the Missouri Constitution – could result in:

- A decrease in federal Medicaid revenues by an unknown amount, up to \$12.5 billion annually.
- Increased costs to taxpayers of unknown amounts, because of medical treatment of, or other services for, children or adults injured by abortions, sex-change operations, genital mutilation or other unspecified “reproductive health care” performed by unlicensed or untrained persons.
- Increased costs of an unknown amount to the Department of Health and Senior Services for the inspection and licensing of thousands of abortion facilities.
- Loss of revenue of unknown amounts to the state and its political subdivisions, because of boycotts of businesses, shopping, tourism or other revenue-generating activities, as a result of Missouri becoming the Midwest’s “abortion destination” state.
- Long-term loss of revenues of unknown amounts to the state and its political subdivisions, because of a decrease in the workforce due to the number of children who are aborted before birth. Also, because of individuals who can no longer work after they become disabled as a result of unsafe abortions, sex-change operations, genital mutilation or other unspecified, unsafe “reproductive health care.” But more important than fiscal costs, the human cost to Missouri’s citizens is unimaginable.

Former-Auditor Galloway made a comparable analysis of the fiscal impacts when she issued her fiscal note and fiscal note summary on [HB 126 \(20-R001 on June 19, 2019\)](#) – the subject of a

referendum that year. Her fiscal note summary became part of the [official ballot title certified by Secretary of State on August 14, 2019](#), for the referendum on HB 126.

Supporting Information on Fiscal Impact of the 11 Initiative Petitions:

- The loss of federal Medicaid matching dollars, which in the proposed fiscal year 2024 budget **would be a loss of nearly \$12.5 billion**.
 - In FY 2023, Missouri lawmakers appropriated about \$16.9 billion for Medicaid (MO HealthNet) across state agencies. [The majority of Medicaid financing in 2023 – \\$10.6 billion – came from federal matching funds](#). The governor’s proposed budget for MO HealthNet for FY 2024 is nearly \$19.3 billion – [almost \\$12.5 billion which would come from federal funds](#).
 - The loss of federal Medicaid matching funds could occur if Missouri is out of compliance with federal Medicaid requirements, for example:
 - If the state cuts off Medicaid reimbursements to Catholic hospitals. This could be a result of the requirement in the initiative petitions that the “Government shall not deny or infringe upon a person’s fundamental right to reproductive freedom.” This might include the state requiring Medicaid providers to sterilize patients, dispense puberty blockers or remove sex organs during sex-change operations.
 - This might also include the state requiring hospitals to participate in the horrendous practice of genital mutilation, currently prohibited by state law under [section 568.065](#), and for which no defense is allowed for “a matter of custom, ritual or standard practice, or [by] consent to the conduct by the child.”
 - But because of the broad-based definition of “reproductive health care” in the 11 initiative petitions (“including but not limited to”), state courts could easily find that genital mutilation is constitutionally protected activity, and strike down existing law.
 - However, for the state government to require Catholic health care providers (or others) to provide these procedures, it would be a violation of their conscience rights – for which the federal government could withhold from the state, Medicaid matching dollars.
 - For example, in California in 2020, [HHS disallowed \\$200 million in federal Medicaid matching funds per quarter due to the state’s unlawful abortion insurance mandate](#), which forced a Catholic order of religious sisters and a non-profit Christian Church to provide abortion health insurance coverage. See also:
 - [“The Fight Over California’s Abortion Coverage Mandate,” Regulatory Review](#), February 3, 2021 (“Can a state require that all health plans offered to its residents cover elective abortions? The federal government thinks not, and the state of California is poised to lose at least \$200 million in Medicaid dollars because it insists that health plans in its state cover abortion services.”)

- [“Federal agency says UVM Med Center forced nurse to assist in abortion,” VT Digger](#), August 28, 2019 (“The U.S. Department of Health and Human Services has accused the University of Vermont Medical Center of forcing a nurse to assist in an abortion procedure despite the nurse’s religious objections. ... The [letter from Roger Severino](#), the director of HHS’ Office for Civil Rights, asks the hospital to adjust its policies or face losing the federal funding it receives from HHS.”)
- There might be additional circumstances where state compliance with at least some of the proposed constitutional amendments would force the state to be out of compliance with federal Medicaid law, such as the state paying for abortions (or other procedures) with federal funds that are not permitted to be reimbursed under federal law. For example, the state might be compelled by the terms of some of the initiative petitions to pay for all abortions for all Medicaid-eligible females, because failing to do so might “discriminate against persons” if the state is paying for the labor and delivery of children for all Medicaid-eligible females. In other words, under the state constitution, Missouri might no longer be [“permitted to enact persuasive measures which favor childbirth over abortion”](#) (*Planned Parenthood v. Casey*, 505 U.S. 833, 886 (1992)). Such non-compliance with federal Medicaid law might also apply to other broad-based, undefined “reproductive health care,” which the state might also be compelled to pay for.
- Under the initiative petitions, the “Government shall not discriminate against persons providing or obtaining reproductive health care or assisting another person in doing so.” “Nor shall any person assisting a person in exercising their right to reproductive freedom with that person’s consent be penalized, prosecuted, or otherwise subjected to adverse action for doing so.” Thus, ANY person of ANY age could legally provide, or assist another person in obtaining, an abortion, a sex-change operation, genital mutilation or other unspecified “reproductive health care.” **This could result in numerous, life-altering medical complications to the child or adult who underwent the “reproductive health care.”** Especially with abortion – particularly for abortions performed later in pregnancy – this could result in huge medical costs for her and her child **that are ultimately paid for by taxpayers.**
 - Regarding abortion, in Missouri, the [cost of inpatient medical procedures and emergency department services for treating “issues before childbirth with complications”](#) is a **median charge per person of \$11,977** – with a minimum charges of \$4,140 and a **maximum charge of \$35,345.**
 - And the cost could be even higher for an abortion-related ER visit. [One recent study](#) found that a “[p]atient concealment and/or physician failure to identify a prior abortion during an ER visit is a significant risk factor for a subsequent hospital admission.” In fact, “[c]hemical abortion patients whose abortions are misclassified

- as miscarriages during an ER visit subsequently experience on average 3.2 hospital admissions within 30 days. 86% of the patients ultimately have surgical removal of retained products of conception (RPOC).”
- According to the CDC, in 2020, nearly 10,000 Missouri residents obtained abortions ([9,980 total, but only 167 within the state](#)). Having unlicensed, non-medical personnel permitted to perform or induce abortions within the state on even a fraction of these 10,000 girls or women could result in untold harm to them now – and harm to their future health and fertility.
 - And there might be additional costs to the state or political subdivisions beyond treating the complications to girls or women from being provided abortions by non-physicians or even non-medical personnel. Any low-birthweight infant born alive after a late-term abortion could need long-term NICU care and possibly permanent assistance throughout childhood and during his or her adult life.
 - According to a [2020 New York Times story](#): “The March of Dimes estimates that the average societal cost of each preterm birth, which includes medical care, early intervention services and lost productivity, is \$65,000.”
 - That same story reported on a cost of \$4 million in NICU costs for triplets who were born prematurely.
 - [Preterm birth lifetime costs in the United States](#) (as of 2016) were “estimated to be \$25.2 billion: \$17.1 billion for medical care of persons born preterm, \$2.0 billion for delivery care, \$1.3 billion for early intervention and special education, and \$4.8 billion in lost productivity due to associated disabilities in adults.”
- **Other costs could be the licensing and inspection of multiple locations (potentially thousands of sites) as “abortion facilities,” as required under Missouri law.** This is because [section 197.205](#) requires that no person or governmental unit shall establish, conduct or maintain an abortion facility in the state without a license issued by the Missouri Department of Health and Senior Services (DHSS).
 - [Section 188.015](#) defines an “abortion facility” as “a clinic, physician’s office, or any other place or facility in which abortions are performed or induced other than a hospital”.
 - [Section 197.230](#) states that “[i]n the case of any abortion facility, the department [of health and senior services (DHSS)] shall make or cause to be made an unannounced on-site inspection and investigation at least annually.” Such on-site inspections and investigations must include a variety of areas relating to staffing and equipment to respond to medical emergencies, compliance with Missouri’s abortion laws and the requirement that continuous physician services or registered professional nursing services are to be provided whenever a patient is in the facility.
 - There are [more than 7,000 licensed pharmacists in Missouri](#), and under the proposed constitutional amendment, any pharmacy (or other place) where a pharmacist provides abortion pills, DHSS would be required to inspect and license. **This would**

be an enormous cost to the department and to taxpayers. And any other place where abortion pills would be provided (homes, schools, vending machines, doctor's offices, clinics, etc.) would also have to be inspected at least once a year and licensed.

- **Economic boycotts of Missouri and its businesses could result if the “Show-Me” state becomes the “Abort-Me” state, once it is transformed into the Midwest’s “abortion destination” – a distinct possibility since Missouri is “within a day’s reach of half of U.S. households”.**
 - Just as some pro-abortion advocates in other states are promoting boycotts of states like Missouri that currently protect unborn children from abortion, pro-life advocates in other states might boycott by no longer purchasing from Missouri businesses, or engaging in travel, tourism or shopping in Missouri. How tragic that would be for Missouri, which has been described as one of the top pro-life states in the country.
 - Some “red” states have been prohibiting or attempting to prohibit their governmental entities from doing business with financial firms in other states that take environmental, social and corporate governance (ESG) into consideration, and those same states and additional ones might extend that to any “abortion destination” state – which is what Missouri could become if any one of the 11 initiative petitions is enacted into law.
 - “Missouri tourism provides a \$13.5 billion economic impact that creates more than 257,000 jobs in the state,” according to the Missouri Division of Tourism. It could be a devastating loss to the state and its residents if Missouri became the abortion capital of the Midwest.
- By some estimates, the economic cost to the U.S. of abortion in 2019 – due to the loss of nearly 630,000 unborn lives – was at least \$6.9 trillion, or 32 percent of GDP. **Missouri could experience increased economic loss if the number of abortions increases in the state.** And unsafe, legal abortions in the state could result in the disability of countless women who – perhaps permanently – would be unable to enter or remain in the workforce.
 - According to a June 15, 2022 report of the Joint Economic Committee – Congressional Republicans *The Economic Cost of Abortion* – the economic cost of an abortion due to the loss of unborn lives is 425 times larger than the earnings loss mothers could be expected to incur when having a child.”
 - According to a key finding in the report: “In the long run, abortion shrinks the labor force, stunts innovation, and limits economic growth. It also weakens the solvency of social insurance programs like Social Security and Medicare that rely on workers to support a growing elderly population.”
 - And as the International Planned Parenthood Federation has noted: “**Unsafe abortions** are performed by un- or under-trained providers ... It is possible to have an unsafe, legal abortion.” (underlining added)

- Under the initiative petitions, “any person assisting a person in exercising their right to reproductive freedom” shall not “be penalized, prosecuted, or otherwise subjected to adverse action for doing so.” Thus, unlicensed, untrained persons of ANY age could perform unsafe, legal abortions or other “reproductive health care,” and the “Government shall not discriminate against persons ... in doing so.” While the economic cost of this policy is incalculable, more important and horrifying, the human cost to Missouri’s citizens is unimaginable.

Auditor Fitzpatrick, if we can be of further assistance, please do not hesitate to contact us.

David C. Drury, Attorney at Law provided the following information:

Dear Auditor Fitzpatrick:

I am a licensed attorney in the St. Louis Metropolitan area who has practiced law here for the last fifty years.

Eleven similar proposals to destroy major Missouri laws which have existed for decades are being suggested by petition numbers 2024-077 to 2024-087.

As you are aware, section 116.175 et al requires that a fiscal note and fiscal note summary state a measure's estimated cost or savings to any state or local governmental entity. In general, a strong fiscal outlook is an essential foundation for a growing, thriving economy. The gap between income and spending is subsequently closed by government borrowing, something to ideally be avoided. Moreover, voters, especially in this conservative state, should be informed and educated of the costs of measures so radical they reverse and erase in one fell swoop the studied product of elected representatives. Indeed, the cost of a proposal may be the reason a voter decides against it.

As commented, the above proposals, although different in some respects, all contain much identical language. For example, the Preamble and first three numbered paragraphs (except 077 uses the word "entails" in line 2 or paragraph 2) are the same. All contain a "discrimination" paragraph, a "severability clause, and the definitions of "Government" are copied throughout. Other deletions or additions to the submissions do not detract from the fact that multiple unfavorable fiscal consequences will result if passage of any happens. So, I feel it is fair to say that these comments relate to each and every variation, rather than to repeat the same points one by one, over and over.

Another observation about which no one can reasonably disagree is that these are extremely broad, and being so broad are vague and ambiguous. Applications can be to an expansive variety of situations, all at costs to the state and local governmental agencies. This is especially the case in light of the present political structure of the federal government, and of course many federal monies flow to the State of Missouri. Another way of saying this, although a somewhat different point, is the potential, actually a likelihood, that direction of funding can be "weaponized", so state laws conform to federal ones. Thus, the state of Missouri is "fiscally" affected. The federal government and the states do not exist as if there is a wall in between. Money flows back and forth, and thus a state can easily be targeted and penalized by federal legislative and executive actions.

Most recently as this week President Biden proclaimed that it was "cruel" and "close to sinful" for Florida to ban subjecting children to sex-change procedures. (Not to subject the children, but to ban subjecting the children)! The aforesaid ballot proposals insist that the "right to reproductive freedom" shall not be denied, interfered with, delayed, or otherwise restricted, and governmental action should be deemed invalid. The ballot also uses language in paragraph 2 of all versions the clause "not limited to". It would thus appear that the subject of sex-change procedures, is included. Similarly, some of the

suggested versions require no parental or guardian consent whatsoever, and others only superficially address the subject with a sure-fire exception that a health care professional (not even a treating physician) can approve an abortion without consent if he/she thinks that getting consent may lead to emotional harm to the minor. All of the proposals do not even require that a physician is necessary to provide medical care. In fact you don't even need any license. Medical malpractice will automatically result. The harm to patients for this poor care, and the cost to the State for care of these patients will be an adverse fiscal result.

All of the above circumstances, would lead responsible hospitals and medical care providers to practice their profession with higher and different standards. And so they would refuse to abide by the above random, and harmful, provisions. Next, we come to the subject of "who is going to pay the bill"? Medicaid, as we know, pays an enormous amount of medical charges. Hospitals and doctors get reimbursed by the State, but the State must comply with federal law. If a State fails to follow the law, for the federal portion, which is over half, it may not get reimbursed. The State suffers fiscally. My numbers are that the State of Missouri receives 12.5 billion in federal Medicaid money.

What if, for example, Cardinal Glennon Hospital in St. Louis refused to perform sex change surgery on a minor, with or without parental consent, in its hospital? It is against its religious beliefs, among many other reasons. Can the hospital be denied Medicaid funds? The text of the proposals require such. The President has just declared that refusing to perform this is "cruel". If the State foots the bill and does not get reimbursed from the federal government, this is a fiscal loss.

Is medical insurance required to pay for "reproductive health care"? If so, these are expensive fiscal consequences of the proposals.

The proposals also yield enormous costs to the State in situations where persons or institutions refuse care against their medical "standard of care" but do not even require a license (creating a breeding ground for malpractice, and all of the expenses that come with it). With Medicaid, the state pays part of the bill, but may not get reimbursed the rest if the proposed bill is not followed. What about the "religious beliefs" of medical care providers. If, for example, Catholic hospitals are penalized, the State of Missouri could also be "fiscally" penalized.

What about the issue of prescribing pills to induce abortion---chemical abortion? Do these proposals mean that all care providers must not deny, restrict, or delay this form of abortion? Is the "government" discriminating against patients by not requiring care providers including pharmacists to dispense the pills? Can they be penalized by withholding of Medicaid payments?

The issue of federal Medicaid funds being disallowed has come up before. In December 2020 HHS and OCR announced that \$200 million in federal Medicaid funds going to California in the upcoming quarter were being denied. This was due to the state illegally mandating that all health care plans subject to regulation by the California Department

of Managed Health Care cover abortion without exclusion or limitation. Furthermore, if California did not come into compliance, additional disallowances would be imposed at a rate of \$200 million per quarter. In a Vermont case, receipt of federal funds because of discrimination against an employee who refused to participate in abortions was threatened. I mention this because of the potential fiscal effect on the State of Missouri if one of these proposals was passed.

So as not to overlook the obvious, the proposals if passed would surely make abortions easier in this state, depriving the state of countless future taxpaying citizens. These persons, if allowed to live, would work, create and staff businesses, produce products, and in general contribute to the economy. A growing population encourages others to move here which in turn results in additional fiscal activity. And, although much of the above addresses Medicaid costs, since fewer workers will be around to contribute to the Medicare system, this system will be under fiscal stress also.

These are only some of the immediate, short-term, and permanent unfortunate fiscal consequences to State and local government if any of the proposals pass.

Thank you for considering this information.

**Rachel U. Greszler, Senior Research Fellow in Economics, Budgets, and Entitlements,
The Heritage Foundation** provided the following information:

Date: March 17, 2023

State Auditor's Office
State Capitol
201 West Capitol Ave.
Jefferson City, MO 65101

Dear Auditor Fitzpatrick,

Per Missouri's [fiscal impact](#) provisions, I have prepared the below fiscal note comments on the proposed ballot initiative "A Constitutional Amendment Concerning the Regulation of Abortion" as submitted to your office on March 9, 2023 as initiative petitions 24-077 through 24-087. My comments are my own and should not be construed as representing any official position of the Heritage Foundation.

Missouri is considering laws that would make abortion legal and easily accessible. The State should not take that step, simply because it would result in the death of thousands of innocent human beings. I offer this fiscal note to provide additional reasons that might persuade those who wrongly doubt that unborn human babies are persons.

By significantly reducing the number of births in the state, these laws would reduce the state's population growth and generate short- and long-term impacts on the state's output and its government finances. Abortion laws could also impact individuals' and families' personal finances, health, and wellbeing in ways that affect states revenues and expenses.

Population growth and economic growth go hand in hand so long as the necessary resources and infrastructure are in place to support that growth. Those resources and infrastructure are in place and the U.S. faces an unprecedented labor shortage. Recent declines in fertility rates threaten to reduce population growth and current and future economic growth. Moreover, government debt has created a situation in which the future wellbeing of current residents is dependent upon a growing population and workforce to pay for current debts and for unfunded obligations promised to retirees.

Since 2007, the [total fertility rate](#) in the U.S. declined from 2.11 births per woman (right at replacement rate) to just 1.66 births per woman in 2021. Missouri's total fertility rate declined from 2.08 in 2007 to 1.60 in 2021.

Compared to current law (in which abortion is illegal in Missouri except in instances in which the woman's life is in danger or her health is severely compromised), the proposed laws could

lead to an additional [2,000 to 9,000 abortions per year](#) in Missouri, depending on how expansive abortion access would become.¹ Based on population projections from the Census Bureau, and assuming a one-for-one correlation between increased abortions and reduced population, the proposed abortion laws could reduce Missouri's projected population by 0.3 percent to 1.4 percent over the next 10 years and by 0.6 percent to 2.7 percent over the next 20 years.

The state needs to consider the following potential effects of abortion-induced population decline in its impact analysis:

A reduced labor force. Fewer births and a smaller population means a smaller future labor force. While proponents of abortion make the economic case that abortion enables women to work and earn more, the additional measurable work and earnings of women as a result of having an abortion is miniscule compared to the potential lifetime work and earnings of another human being. Moreover, while having a child can reduce mothers' work and earnings, it tends to increase fathers' work and earnings—a factor that is ignored in abortion advocates economic claims.

Healthcare strain. Already, the U.S. faces [serious shortages](#) of healthcare workers and the population is continuing to age. Young people (those who would be aborted over the coming decades as a result of the proposed laws) consume very little healthcare, and as they reach working age, they are net providers of healthcare. This means the proposed laws could exacerbate healthcare worker shortages, limit Missourians' [access to healthcare](#), and potentially drive up the state's [healthcare costs](#) as shortages lead to higher prices. With Medicaid being Missouri's largest budgetary item (in FY 2022, Missouri's Medicaid spending was 74 percent greater than its K-12 education spending), and the state being limited by the federal government in its ability to reduce Medicaid spending, higher healthcare costs could impose significant budget constraints.

Reduced tax revenues. In the immediate future, fewer children born in Missouri could reduce sales and real estate tax revenues because households with children spend more and tend to live in higher-value housing. While the income tax revenues of women who have children could be lower if they work less after having children, the work and [earnings of men](#) tend to rise after they have children. In the decades following increased abortions, the absence of potentially tens of thousands of workers would lead to reduced income tax revenues. Although some state expenses are proportional to the number of residents and would decline over time, many expenses are not, and declining revenues would necessitate higher taxes or spending cuts.

Exacerbated unfunded pensions and other post-employment benefits. Depending on different assumptions and risk levels, Missouri has between [\\$36 billion](#) and [\\$171 billion](#) in unfunded pension and [other post-employment benefits](#). That is money that has already been promised to public sector workers and retirees, but which has not been set aside to provide those benefits. The American Legislative Exchange Council estimates that Missouri's unfunded pension liabilities alone amount to [\\$26,965 per capita](#) in 2021, and these unfunded liabilities are

¹ Estimated increase based on the number of abortions in Missouri, as reported by the [Missouri Department of Health and Senior Services](#) and the [Guttmacher Institute](#), reporting roughly 9,000 abortions around 2000-2001 and about 2,000 abortions around 2020-2021.

continuing to grow. The fewer people Missouri has, the larger the per-capita liabilities become, and the harder it will be to raise taxes on workers and employers without them moving to other states. Among many consequences, [economic analysis](#) shows that unfunded pension obligations lead to lower real estate values, which would reduce property tax revenues.

Conclusion

It is an unquestionable fact that the U.S. Constitution requires all state and local governments to uphold Americans' most fundamental natural rights, including that of the right to life. Not counting unborn humans as living beings and treating abortion as an exercise in economic eugenics is an assault on these rights and values.

Even then, the fiscal and economic perspectives of abortion advocates are lacking sufficient economic rigor. I offer this fiscal analysis that provides good reasons to reject the proposed amendments on premises that abortion advocates may be able to accept.

The proposed laws to legalize and expand abortion access in Missouri warrant a properly conducted fiscal analysis. As a part of the debate, policymakers must consider how increased abortions will affect Missouri's population, workforce, fundamental services such as healthcare, the states tax revenues and expenditures, and Missouri's ability to make good on its unfunded pension and other post-employment benefit obligations.

RE: Petition approval request from Anna Fitz-James regarding a proposed constitutional amendment to Article I, version 10 (2024-086)

Dear Auditor Fitzpatrick:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Anna Fitz-James on March 8, 2023.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

NOTICE: The proposed amendment revises Article I of the Constitution by adopting one new Section to be known as Article I, Section 36.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article I of the Constitution is revised by adopting one new Section to be known as Article I, Section 36 to read as follows:

Section 36. 1. This Section shall be known as “The Right to Reproductive Freedom Initiative.”

2. The Government shall not deny or infringe upon a person’s fundamental right to reproductive freedom, which is the right to make and carry out decisions about all matters relating to reproductive health care, including but not limited to prenatal care, childbirth, postpartum care, birth control, abortion care, miscarriage care, and respectful birthing conditions.

3. The right to reproductive freedom shall not be denied, interfered with, delayed, or otherwise restricted unless the Government demonstrates that such action is justified by a compelling governmental interest achieved by the least restrictive means. Any denial, interference, delay, or restriction of the right to reproductive freedom shall be presumed invalid. For purposes of this Section, a governmental interest is compelling only if it is for the limited purpose and has the limited effect of improving or maintaining the health of a person seeking care, is consistent with widely accepted clinical standards of practice and evidence-based medicine, and does not infringe on that person’s autonomous decision-making.

4. Notwithstanding subsection 3 of this Section, the general assembly may enact laws that regulate the provision of abortion after Fetal Viability provided that under no circumstance shall the Government deny, interfere with, delay, or otherwise restrict an abortion that in the good faith judgment of a treating health care professional is needed to protect the life or physical or mental health of the pregnant person.

5. No person shall be penalized, prosecuted, or otherwise subjected to adverse action based on their actual, potential, perceived, or alleged pregnancy outcomes, including but not limited to miscarriage, stillbirth, or abortion. Nor shall any person assisting a person in exercising their right to reproductive freedom with that person’s consent be penalized, prosecuted, or otherwise subjected to adverse action for doing so.

6. The Government shall not discriminate against persons providing or obtaining reproductive health care or assisting another person in doing so.

7. If any provision of this Section or the application thereof to anyone or to any circumstance is held invalid, the remainder of those provisions and the application of such provisions to others or other circumstances shall not be affected thereby.

8. For purposes of this Section, the following terms mean:

(1) “Fetal Viability”, the point in pregnancy when, in the good faith judgment of a treating health care professional and based on the particular facts of the case, there is a significant likelihood of the fetus’s sustained survival outside the uterus without the application of extraordinary medical measures.

(2) “Government”,

a. the state of Missouri; or

b. any municipality, city, town, village, township, district, authority, public subdivision or public corporation having the power to tax or regulate, or any portion of two or more such entities within the state of Missouri.

**MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (24-086)**

Subject

Initiative petition from Anna Fitz-James regarding a proposed constitutional amendment to Article I. (Received March 9, 2023)

Date

March 29, 2023

Description

This proposal would amend Article I of the Missouri Constitution.

The amendment is to be voted on in November 2024.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office**, the **Department of Agriculture**, the **Department of Economic Development**, the **Department of Elementary and Secondary Education**, the **Department of Higher Education and Workforce Development**, the **Department of Health and Senior Services**, the **Department of Commerce and Insurance**, the **Department of Mental Health**, the **Department of Natural Resources**, the **Department of Corrections**, the **Department of Labor and Industrial Relations**, the **Department of Revenue**, the **Department of Public Safety**, the **Missouri Department of the National Guard**, the **Department of Social Services**, the **Governor's office**, the **Missouri House of Representatives**, the **Department of Conservation**, the **Department of Transportation**, the **Office of Administration**, the **Office of State Courts Administrator**, the **Missouri Senate**, the **Secretary of State's office**, the **Office of the State Public Defender**, the **State Treasurer's office**, **Adair County**, **Boone County**, **Callaway County**, **Cass County**, **Clay County**, **Cole County**, **Greene County**, **Jackson County**, **Jasper County**, **St. Charles County**, **St. Louis County**, **Taney County**, the **City of Cape Girardeau**, the **City of Columbia**, the **City of Jefferson**, the **City of Joplin**, the **City of Kansas City**, the **City of Kirksville**, the **City of Mexico**, the **City of Raymore**, the **City of St. Joseph**, the **City of St. Louis**, the **City of Springfield**, the **City of Union**, the **City of Wentzville**, the **City of West Plains**, **Cape Girardeau 63 School District**, **Hannibal 60 School District**, **Malta Bend R-V School District**, **Mehlville School District**, **Wellsville-Middletown R-1 School District**, **State Technical College of Missouri**, **Metropolitan Community College**, **University of Missouri**, and **St. Louis Community College**.

Susan Klein, Executive Director, Missouri Right to Life provided information to the State Auditor's office.

Samuel H. Lee, Campaign Life Missouri provided information to the State Auditor's office.

David C. Drury, Attorney at Law provided information to the State Auditor's office.

Rachel U. Greszler, Senior Research Fellow in Economics, Budgets and Entitlements, The Heritage Foundation provided information to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no impact.

Officials from the **Department of Economic Development** indicated no fiscal impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated they have reviewed initiative petition 24-086 and determined there is no fiscal impact to their agency.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated changes to the bill are as follows:

Initiative petition 24-086 is identical to 24-077 with the following exceptions:

Adds new Section 36.4, which states "Notwithstanding subsection 3 of this Section, the general assembly may enact laws that regulate the provision of abortion after Fetal Viability provided that under no circumstance shall the Government deny, burden, or otherwise restrict an abortion that in the good faith judgement of a treating health care professional is needed to protect the life or physical or mental health of the pregnant person."

Removes Section 36.6 "Nothing in this Section requires government funding of abortion other than as required by federal law"

Adds definition for Fetal Viability in Section 36.8(1), "'Fetal Viability,' the point in pregnancy when, in the good faith judgement of a treating health care professional and based on the particular facts of the case, there is a significant likelihood of the fetus's sustained survival outside the uterus without the application of extraordinary medical measures."

Comments:

The fiscal impact for 24-086 is the same as the fiscal impact for 24-077 and is as follows:

- FY 2024 General Revenue: (\$0 to Unknown)
- FY 2025 General Revenue: (\$0 to Unknown)
- FY 2026 General Revenue: (\$0 to Unknown)

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no anticipated cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipate no fiscal impact for this initiative petition proposing to amend Article I.

Officials from the **Department of Revenue** indicated the initiative petition does not have an impact on their department.

Officials from the **Department of Public Safety** indicated no impact for their department, Director's office.

Officials from the **Missouri Department of the National Guard** indicated no fiscal impact to their department.

Officials from the **Department of Social Services** indicated they do not anticipate a fiscal impact as a result of this petition.

Officials from the **Governor's office** indicated this proposal relating to reproductive issues does not financially impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated Initiative Petition 24-086 has no fiscal impact on their department.

Officials from the **Department of Transportation** indicated no fiscal impact expected for their department or the Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal relating to reproductive issues does not financially impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be \$10 million based on the cost of the 2022 primary and general election reimbursements.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

For the FY22 petitions cycle, their office estimates publication costs at \$70,000 per page. This amount is subject to change based on number of petitions received, length of those petitions and rates charged by newspaper publishers.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition has no fiscal impact on their office.

Officials from the **State Treasurer's office** indicated no fiscal impact to their office is anticipated.

Officials from **Clay County** indicated they estimate no fiscal impact as a result of this initiative.

Officials from **Greene County** indicated in reviewing initiative petition 24-086 it has been determined there will be an increased cost to the County of Greene due to loss of tax revenue if voters vote to amend Article I.

The Missouri Department of Health & Senior Services recorded 135 "resident abortions" for Greene County in 2020 and 118 in 2021. The population of Greene County per the 2020 United States census was 298,915. (<https://www.census.gov/quickfacts/fact/table/greene-county-missouri/PST045221>)

In terms of economic impact, Greene County received \$112,673,249 in sales and property taxes for calendar year 2022 (**\$376.94** per capita based on **2020** census data). Accordingly, calculations from these figures indicate an annual loss in population of **135** represents a cost to the County of **\$50,886.90**; an increase in abortion statistics could reasonably be extrapolated to illustrate less tax collections and revenues over the years of potential working lifetimes.

Please see the attached table demonstrating the anticipated yearly on per capita basis and the overall fiscal impact on Greene County tax collections and revenues based on the recorded abortions in 2020 by Missouri Department of Health and Senior Services.

Additional research regarding the broader fiscal impact of lower fertility rates on local and state communities and government budgets may be found here:

- <https://www.pewtrusts.org/en/research-and-analysis/issue-briefs/2022/12/the-long-term-decline-in-fertility-and-what-it-means-for-state-budgets>

Greene County Collections in 2022	
2020 Population	298,915
Total Sales Tax Collected	126,986,094.91
Parks I	(8,226,052.01)
Parks II	(8,773,337.47)
Dan Kinney Bond from Parks I	(551,342.50)
LEST	(11,631,863.21)
Strafford TIF	(24,374.44)
Springfield Plaza TIF	(174,240.83)
Sales Tax Subtotal	97,604,884.45
Real Estate Tax	12,222,341.99
Personal Property Tax	2,846,022.58
Property Tax SubTotal	15,068,364.57
Total Taxes	112,673,249.02
Per Capita	376.94
Annual lost population	135
Annual Cost	50,886.90

Officials from **St. Louis County** indicated this has no fiscal impact on their county.

Officials from the **City of Jefferson City** indicated they do not think there would be a direct fiscal impact to the City of Jefferson imposed by Initiative Petition 24-086 proposing to amend Article I. There could be an indirect fiscal impact resulting from increased lawsuits related to violations of the act.

Officials from the **City of Kansas City** indicated this proposed amendment would have no fiscal impact on their city.

Officials from **Metropolitan Community College** indicated no fiscal impact.

Officials from the **St. Louis Community College** indicated they have reviewed the initiative ballot and believe the initiative would have no direct cost or revenue impact.

March 15, 2023

Office of the Missouri State Auditor
The Honorable Scott Fitzpatrick
301 West High Street, Room 880
Jefferson City, MO 65102

Dear Auditor Fitzpatrick,

On behalf of the Members, Board and Staff of Missouri Right to Life, I submit to you our comments for consideration and inclusion in the fiscal note you will be preparing regarding the effects to the State of Missouri and its Local Governments of Initiative Petition(s) 2024-077 through 2024-087.

The Petitions Would Create Devastating Impacts for Missouri's Budget:

On March 8, 2023, 11 proposed initiative petitions (2024-077 through 2024-087) were filed with the Missouri Secretary of State's Office by Anna Fitz-James for a campaign committee called "Missourians for Constitutional Freedom." While each initiative petition has some slight variations, they are all identical in their purpose and their fiscal effects to General Revenue, Federal Funds, and Other Funds received by the State of Missouri and the impact to local governments.

The fiscal effects of some of the impacts of the petition(s) follow:

- **Abortion Injuries, Sanctions, Litigation and Loss of Federal Funding:** The petition will allow for abortions to be performed up until the moment of birth and possibly beyond. In addition to the loss of the life of the unborn child and the ending of his or her priceless contributions to our state and society, surgical and chemical abortions have risks and complications to the health of the mother. The cost impacts of surgical and medical abortion physical injuries would result in a devastating impact to Missouri's balanced budget due to an expansion of costs for Missouri's state and Federally-funded healthcare programs. In addition, women endure emotional trauma after an abortion. A massive increase in funding for mental health services would be required. Under current Federal law, states are barred from using Federal funds to pay for abortions except in limited cases (the Hyde Amendment). Federal funding could be in jeopardy and Missouri could be subject to the risk of litigation and sanctions, including the possibility of deferral or disallowance of federal financial participation in Missouri's Medicaid program. In 2019, more than \$7.2 billion in Federal funds were budgeted for Mo HealthNet services (Department of Social Services, Department of Mental Health, and Department of Health and Senior Services). The loss of these funds would be devastating to Missouri.

- **Loss of Licensing Fee Revenues/Penalties:** The petition will allow for anyone to perform an abortion with no penalty, prosecution or adverse action for performing the abortion. An abortion provider would no longer have a reason to maintain his or her license with the State of Missouri (and anyone who chose to perform an abortion would be protected under the Constitution to do so without any regulations or consequences). Missouri laws and regulations would be nullified, and licensing fees normally collected would decline.
- **Rural Hospitals Impacted:** Rural hospitals are already struggling. The petition will allow anyone to perform an abortion with no penalty, prosecution or regulation, and will result in a skyrocketing number of women injured by abortion who will need emergency services, flooding Emergency Rooms and health clinics and limiting or delaying access to emergency healthcare services needed by other individuals. This will result in a fiscal impact to the state. The state will also experience a fiscal impact through staff shortages as abortion-injured state employees seek medical care, surgery and recovery time off work to manage complications of abortion.
- **Missouri Could Face a Budgetary Crisis Due to Loss of Federal Funding from Violating Federal Conscience Laws:** The petition will force Missouri to be out of compliance with Federal conscience laws. This could result in the loss of billions of dollars of Federal funding, litigation and sanctions. If the Federal Government sanctions Missouri due to these violations, this will be devastating and create a budgetary crisis in Missouri. The state will also experience a fiscal impact through staff shortages as state employees flee state jobs where they feel their conscience is violated due to being forced to assist with an abortion.
- **Abortions Funded With Public Tax Dollars:** The petition will allow for the funding of abortions with public tax dollars. The language does not prohibit government funding of abortion procedures or of abortion providers. This would result in a massive fiscal impact to Missouri's balanced budget.
- **Constitutional Protections for Human Traffickers:** The petition will allow for anyone to perform, or assist with, an abortion with no penalty, prosecution or adverse action for performing the abortion. This would result in Constitutional protections for child sex traffickers who impregnate their victims and coerce them into an abortion and would render ineffective Missouri law enforcement, prosecution and justice efforts tasked with upholding our Constitution and laws. The petition could hamper the Federal Government's efforts under The Trafficking Victims Protection Act of 2000 and other Federal laws and could result in sanctions from any Federal funding that Missouri would otherwise be eligible to receive.
- **Sex Changes, et. al, Funded With Public Tax Dollars:** The petition, under the guise of "The Right to Reproductive Freedom," will allow the funding of sex change surgeries, puberty blockers, hormone therapy and other "reproductive services" with public tax dollars. This would result in a massive fiscal impact to Missouri's balanced budget.

In summary, any fiscal note of the petition(s) should contain the following language and should also include the estimated fiscal net effects to the State of Missouri and its local government:

This initiative petition (a) will allow for abortions to be performed up until the moment of birth and possibly beyond, which would put Missouri in jeopardy of losing billions of dollars of Federal funding and create an unplanned strain on the state's General Revenue, Other and Local Funds as a result of abortion injuries, sanctions, litigation, loss of licensing fee/penalty revenues, and overloaded emergency rooms and healthcare facilities, (b) will put Missouri in violation of Federal conscience laws, which could result in a loss of billions of dollars of Federal funding and an increase of state and local government employee vacancies and litigation due to exercising their rights of conscience, (c) will allow for anyone to perform, or assist with, an abortion with no penalty, prosecution or adverse action for performing the abortion, thereby creating Constitutional protections for Human Traffickers which could result in a loss of Federal funding, and (d) will allow for the funding of abortions, sex change surgeries, puberty blockers, hormone therapy and other "reproductive services" with public tax dollars which would result in a massive fiscal impact to the State of Missouri and its local government budgets.

Sincerely,

A handwritten signature in cursive script that reads "Susan Klein". The signature is written in dark ink and is positioned above the printed name and title.

Susan Klein

Samuel Lee
Director

March 16, 2023

State Auditor's Office
State Capitol
201 West Capitol Ave.
Jefferson City, MO 65101

Dear Auditor Fitzpatrick,

In accordance with the provisions of [section 116.175](#), this is a proposed statement of the fiscal impact of the 11 initiative petitions numbered 24-077 through 24-087, which your office received on March 9, 2023.

To summarize, the proposed ballot measures – all of which would amend the Missouri Constitution – could result in:

- A decrease in federal Medicaid revenues by an unknown amount, up to \$12.5 billion annually.
- Increased costs to taxpayers of unknown amounts, because of medical treatment of, or other services for, children or adults injured by abortions, sex-change operations, genital mutilation or other unspecified “reproductive health care” performed by unlicensed or untrained persons.
- Increased costs of an unknown amount to the Department of Health and Senior Services for the inspection and licensing of thousands of abortion facilities.
- Loss of revenue of unknown amounts to the state and its political subdivisions, because of boycotts of businesses, shopping, tourism or other revenue-generating activities, as a result of Missouri becoming the Midwest’s “abortion destination” state.
- Long-term loss of revenues of unknown amounts to the state and its political subdivisions, because of a decrease in the workforce due to the number of children who are aborted before birth. Also, because of individuals who can no longer work after they become disabled as a result of unsafe abortions, sex-change operations, genital mutilation or other unspecified, unsafe “reproductive health care.” But more important than fiscal costs, the human cost to Missouri’s citizens is unimaginable.

Former-Auditor Galloway made a comparable analysis of the fiscal impacts when she issued her fiscal note and fiscal note summary on [HB 126 \(20-R001 on June 19, 2019\)](#) – the subject of a

referendum that year. Her fiscal note summary became part of the [official ballot title certified by Secretary of State on August 14, 2019](#), for the referendum on HB 126.

Supporting Information on Fiscal Impact of the 11 Initiative Petitions:

- The loss of federal Medicaid matching dollars, which in the proposed fiscal year 2024 budget **would be a loss of nearly \$12.5 billion**.
 - In FY 2023, Missouri lawmakers appropriated about \$16.9 billion for Medicaid (MO HealthNet) across state agencies. [The majority of Medicaid financing in 2023 – \\$10.6 billion – came from federal matching funds](#). The governor’s proposed budget for MO HealthNet for FY 2024 is nearly \$19.3 billion – [almost \\$12.5 billion which would come from federal funds](#).
 - The loss of federal Medicaid matching funds could occur if Missouri is out of compliance with federal Medicaid requirements, for example:
 - If the state cuts off Medicaid reimbursements to Catholic hospitals. This could be a result of the requirement in the initiative petitions that the “Government shall not deny or infringe upon a person’s fundamental right to reproductive freedom.” This might include the state requiring Medicaid providers to sterilize patients, dispense puberty blockers or remove sex organs during sex-change operations.
 - This might also include the state requiring hospitals to participate in the horrendous practice of genital mutilation, currently prohibited by state law under [section 568.065](#), and for which no defense is allowed for “a matter of custom, ritual or standard practice, or [by] consent to the conduct by the child.”
 - But because of the broad-based definition of “reproductive health care” in the 11 initiative petitions (“including but not limited to”), state courts could easily find that genital mutilation is constitutionally protected activity, and strike down existing law.
 - However, for the state government to require Catholic health care providers (or others) to provide these procedures, it would be a violation of their conscience rights – for which the federal government could withhold from the state, Medicaid matching dollars.
 - For example, in California in 2020, [HHS disallowed \\$200 million in federal Medicaid matching funds per quarter due to the state’s unlawful abortion insurance mandate](#), which forced a Catholic order of religious sisters and a non-profit Christian Church to provide abortion health insurance coverage. See also:
 - [“The Fight Over California’s Abortion Coverage Mandate,” Regulatory Review](#), February 3, 2021 (“Can a state require that all health plans offered to its residents cover elective abortions? The federal government thinks not, and the state of California is poised to lose at least \$200 million in Medicaid dollars because it insists that health plans in its state cover abortion services.”)

- [“Federal agency says UVM Med Center forced nurse to assist in abortion,” VT Digger](#), August 28, 2019 (“The U.S. Department of Health and Human Services has accused the University of Vermont Medical Center of forcing a nurse to assist in an abortion procedure despite the nurse’s religious objections. ... The [letter from Roger Severino](#), the director of HHS’ Office for Civil Rights, asks the hospital to adjust its policies or face losing the federal funding it receives from HHS.”)
- There might be additional circumstances where state compliance with at least some of the proposed constitutional amendments would force the state to be out of compliance with federal Medicaid law, such as the state paying for abortions (or other procedures) with federal funds that are not permitted to be reimbursed under federal law. For example, the state might be compelled by the terms of some of the initiative petitions to pay for all abortions for all Medicaid-eligible females, because failing to do so might “discriminate against persons” if the state is paying for the labor and delivery of children for all Medicaid-eligible females. In other words, under the state constitution, Missouri might no longer be [“permitted to enact persuasive measures which favor childbirth over abortion”](#) (*Planned Parenthood v. Casey*, 505 U.S. 833, 886 (1992)). Such non-compliance with federal Medicaid law might also apply to other broad-based, undefined “reproductive health care,” which the state might also be compelled to pay for.
- Under the initiative petitions, the “Government shall not discriminate against persons providing or obtaining reproductive health care or assisting another person in doing so.” “Nor shall any person assisting a person in exercising their right to reproductive freedom with that person’s consent be penalized, prosecuted, or otherwise subjected to adverse action for doing so.” Thus, ANY person of ANY age could legally provide, or assist another person in obtaining, an abortion, a sex-change operation, genital mutilation or other unspecified “reproductive health care.” **This could result in numerous, life-altering medical complications to the child or adult who underwent the “reproductive health care.”** Especially with abortion – particularly for abortions performed later in pregnancy – this could result in huge medical costs for her and her child **that are ultimately paid for by taxpayers.**
 - Regarding abortion, in Missouri, the [cost of inpatient medical procedures and emergency department services for treating “issues before childbirth with complications”](#) is a **median charge per person of \$11,977** – with a minimum charges of \$4,140 and a **maximum charge of \$35,345.**
 - And the cost could be even higher for an abortion-related ER visit. [One recent study](#) found that a “[p]atient concealment and/or physician failure to identify a prior abortion during an ER visit is a significant risk factor for a subsequent hospital admission.” In fact, “[c]hemical abortion patients whose abortions are misclassified

- as miscarriages during an ER visit subsequently experience on average 3.2 hospital admissions within 30 days. 86% of the patients ultimately have surgical removal of retained products of conception (RPOC).”
- According to the CDC, in 2020, nearly 10,000 Missouri residents obtained abortions ([9,980 total, but only 167 within the state](#)). Having unlicensed, non-medical personnel permitted to perform or induce abortions within the state on even a fraction of these 10,000 girls or women could result in untold harm to them now – and harm to their future health and fertility.
 - And there might be additional costs to the state or political subdivisions beyond treating the complications to girls or women from being provided abortions by non-physicians or even non-medical personnel. Any low-birthweight infant born alive after a late-term abortion could need long-term NICU care and possibly permanent assistance throughout childhood and during his or her adult life.
 - According to a [2020 New York Times story](#): “The March of Dimes estimates that the average societal cost of each preterm birth, which includes medical care, early intervention services and lost productivity, is \$65,000.”
 - That same story reported on a cost of \$4 million in NICU costs for triplets who were born prematurely.
 - [Preterm birth lifetime costs in the United States](#) (as of 2016) were “estimated to be \$25.2 billion: \$17.1 billion for medical care of persons born preterm, \$2.0 billion for delivery care, \$1.3 billion for early intervention and special education, and \$4.8 billion in lost productivity due to associated disabilities in adults.”
- **Other costs could be the licensing and inspection of multiple locations (potentially thousands of sites) as “abortion facilities,” as required under Missouri law.** This is because [section 197.205](#) requires that no person or governmental unit shall establish, conduct or maintain an abortion facility in the state without a license issued by the Missouri Department of Health and Senior Services (DHSS).
 - [Section 188.015](#) defines an “abortion facility” as “a clinic, physician’s office, or any other place or facility in which abortions are performed or induced other than a hospital”.
 - [Section 197.230](#) states that “[i]n the case of any abortion facility, the department [of health and senior services (DHSS)] shall make or cause to be made an unannounced on-site inspection and investigation at least annually.” Such on-site inspections and investigations must include a variety of areas relating to staffing and equipment to respond to medical emergencies, compliance with Missouri’s abortion laws and the requirement that continuous physician services or registered professional nursing services are to be provided whenever a patient is in the facility.
 - There are [more than 7,000 licensed pharmacists in Missouri](#), and under the proposed constitutional amendment, any pharmacy (or other place) where a pharmacist provides abortion pills, DHSS would be required to inspect and license. **This would**

be an enormous cost to the department and to taxpayers. And any other place where abortion pills would be provided (homes, schools, vending machines, doctor's offices, clinics, etc.) would also have to be inspected at least once a year and licensed.

- **Economic boycotts of Missouri and its businesses could result if the “Show-Me” state becomes the “Abort-Me” state, once it is transformed into the Midwest’s “abortion destination” – a distinct possibility since Missouri is “within a day’s reach of half of U.S. households”.**
 - Just as some pro-abortion advocates in other states are promoting boycotts of states like Missouri that currently protect unborn children from abortion, pro-life advocates in other states might boycott by no longer purchasing from Missouri businesses, or engaging in travel, tourism or shopping in Missouri. How tragic that would be for Missouri, which has been described as one of the top pro-life states in the country.
 - Some “red” states have been prohibiting or attempting to prohibit their governmental entities from doing business with financial firms in other states that take environmental, social and corporate governance (ESG) into consideration, and those same states and additional ones might extend that to any “abortion destination” state – which is what Missouri could become if any one of the 11 initiative petitions is enacted into law.
 - “Missouri tourism provides a \$13.5 billion economic impact that creates more than 257,000 jobs in the state,” according to the Missouri Division of Tourism. It could be a devastating loss to the state and its residents if Missouri became the abortion capital of the Midwest.
- By some estimates, the economic cost to the U.S. of abortion in 2019 – due to the loss of nearly 630,000 unborn lives – was at least \$6.9 trillion, or 32 percent of GDP. **Missouri could experience increased economic loss if the number of abortions increases in the state.** And unsafe, legal abortions in the state could result in the disability of countless women who – perhaps permanently – would be unable to enter or remain in the workforce.
 - According to a June 15, 2022 report of the Joint Economic Committee – Congressional Republicans’ The Economic Cost of Abortion – the economic cost of an abortion due to the loss of unborn lives is 425 times larger than the earnings loss mothers could be expected to incur when having a child.”
 - According to a key finding in the report: “In the long run, abortion shrinks the labor force, stunts innovation, and limits economic growth. It also weakens the solvency of social insurance programs like Social Security and Medicare that rely on workers to support a growing elderly population.”
 - And as the International Planned Parenthood Federation has noted: “**Unsafe abortions** are performed by un- or under-trained providers ... It is possible to have an unsafe, legal abortion.” (underlining added)

- Under the initiative petitions, “any person assisting a person in exercising their right to reproductive freedom” shall not “be penalized, prosecuted, or otherwise subjected to adverse action for doing so.” Thus, unlicensed, untrained persons of ANY age could perform unsafe, legal abortions or other “reproductive health care,” and the “Government shall not discriminate against persons ... in doing so.” While the economic cost of this policy is incalculable, more important and horrifying, the human cost to Missouri’s citizens is unimaginable.

Auditor Fitzpatrick, if we can be of further assistance, please do not hesitate to contact us.

David C. Drury, Attorney at Law provided the following information:

Dear Auditor Fitzpatrick:

I am a licensed attorney in the St. Louis Metropolitan area who has practiced law here for the last fifty years.

Eleven similar proposals to destroy major Missouri laws which have existed for decades are being suggested by petition numbers 2024-077 to 2024-087.

As you are aware, section 116.175 et al requires that a fiscal note and fiscal note summary state a measure's estimated cost or savings to any state or local governmental entity. In general, a strong fiscal outlook is an essential foundation for a growing, thriving economy. The gap between income and spending is subsequently closed by government borrowing, something to ideally be avoided. Moreover, voters, especially in this conservative state, should be informed and educated of the costs of measures so radical they reverse and erase in one fell swoop the studied product of elected representatives. Indeed, the cost of a proposal may be the reason a voter decides against it.

As commented, the above proposals, although different in some respects, all contain much identical language. For example, the Preamble and first three numbered paragraphs (except 077 uses the word "entails" in line 2 or paragraph 2) are the same. All contain a "discrimination" paragraph, a "severability clause, and the definitions of "Government" are copied throughout. Other deletions or additions to the submissions do not detract from the fact that multiple unfavorable fiscal consequences will result if passage of any happens. So, I feel it is fair to say that these comments relate to each and every variation, rather than to repeat the same points one by one, over and over.

Another observation about which no one can reasonably disagree is that these are extremely broad, and being so broad are vague and ambiguous. Applications can be to an expansive variety of situations, all at costs to the state and local governmental agencies. This is especially the case in light of the present political structure of the federal government, and of course many federal monies flow to the State of Missouri. Another way of saying this, although a somewhat different point, is the potential, actually a likelihood, that direction of funding can be "weaponized", so state laws conform to federal ones. Thus, the state of Missouri is "fiscally" affected. The federal government and the states do not exist as if there is a wall in between. Money flows back and forth, and thus a state can easily be targeted and penalized by federal legislative and executive actions.

Most recently as this week President Biden proclaimed that it was "cruel" and "close to sinful" for Florida to ban subjecting children to sex-change procedures. (Not to subject the children, but to ban subjecting the children)! The aforesaid ballot proposals insist that the "right to reproductive freedom" shall not be denied, interfered with, delayed, or otherwise restricted, and governmental action should be deemed invalid. The ballot also uses language in paragraph 2 of all versions the clause "not limited to". It would thus appear that the subject of sex-change procedures, is included. Similarly, some of the

suggested versions require no parental or guardian consent whatsoever, and others only superficially address the subject with a sure-fire exception that a health care professional (not even a treating physician) can approve an abortion without consent if he/she thinks that getting consent may lead to emotional harm to the minor. All of the proposals do not even require that a physician is necessary to provide medical care. In fact you don't even need any license. Medical malpractice will automatically result. The harm to patients for this poor care, and the cost to the State for care of these patients will be an adverse fiscal result.

All of the above circumstances, would lead responsible hospitals and medical care providers to practice their profession with higher and different standards. And so they would refuse to abide by the above random, and harmful, provisions. Next, we come to the subject of "who is going to pay the bill"? Medicaid, as we know, pays an enormous amount of medical charges. Hospitals and doctors get reimbursed by the State, but the State must comply with federal law. If a State fails to follow the law, for the federal portion, which is over half, it may not get reimbursed. The State suffers fiscally. My numbers are that the State of Missouri receives 12.5 billion in federal Medicaid money.

What if, for example, Cardinal Glennon Hospital in St. Louis refused to perform sex change surgery on a minor, with or without parental consent, in its hospital? It is against its religious beliefs, among many other reasons. Can the hospital be denied Medicaid funds? The text of the proposals require such. The President has just declared that refusing to perform this is "cruel". If the State foots the bill and does not get reimbursed from the federal government, this is a fiscal loss.

Is medical insurance required to pay for "reproductive health care"? If so, these are expensive fiscal consequences of the proposals.

The proposals also yield enormous costs to the State in situations where persons or institutions refuse care against their medical "standard of care" but do not even require a license (creating a breeding ground for malpractice, and all of the expenses that come with it). With Medicaid, the state pays part of the bill, but may not get reimbursed the rest if the proposed bill is not followed. What about the "religious beliefs" of medical care providers. If, for example, Catholic hospitals are penalized, the State of Missouri could also be "fiscally" penalized.

What about the issue of prescribing pills to induce abortion---chemical abortion? Do these proposals mean that all care providers must not deny, restrict, or delay this form of abortion? Is the "government" discriminating against patients by not requiring care providers including pharmacists to dispense the pills? Can they be penalized by withholding of Medicaid payments?

The issue of federal Medicaid funds being disallowed has come up before. In December 2020 HHS and OCR announced that \$200 million in federal Medicaid funds going to California in the upcoming quarter were being denied. This was due to the state illegally mandating that all health care plans subject to regulation by the California Department

of Managed Health Care cover abortion without exclusion or limitation. Furthermore, if California did not come into compliance, additional disallowances would be imposed at a rate of \$200 million per quarter. In a Vermont case, receipt of federal funds because of discrimination against an employee who refused to participate in abortions was threatened. I mention this because of the potential fiscal effect on the State of Missouri if one of these proposals was passed.

So as not to overlook the obvious, the proposals if passed would surely make abortions easier in this state, depriving the state of countless future taxpaying citizens. These persons, if allowed to live, would work, create and staff businesses, produce products, and in general contribute to the economy. A growing population encourages others to move here which in turn results in additional fiscal activity. And, although much of the above addresses Medicaid costs, since fewer workers will be around to contribute to the Medicare system, this system will be under fiscal stress also.

These are only some of the immediate, short-term, and permanent unfortunate fiscal consequences to State and local government if any of the proposals pass.

Thank you for considering this information.

**Rachel U. Greszler, Senior Research Fellow in Economics, Budgets, and Entitlements,
The Heritage Foundation** provided the following information:

Date: March 17, 2023

State Auditor's Office
State Capitol
201 West Capitol Ave.
Jefferson City, MO 65101

Dear Auditor Fitzpatrick,

Per Missouri's [fiscal impact](#) provisions, I have prepared the below fiscal note comments on the proposed ballot initiative "A Constitutional Amendment Concerning the Regulation of Abortion" as submitted to your office on March 9, 2023 as initiative petitions 24-077 through 24-087. My comments are my own and should not be construed as representing any official position of the Heritage Foundation.

Missouri is considering laws that would make abortion legal and easily accessible. The State should not take that step, simply because it would result in the death of thousands of innocent human beings. I offer this fiscal note to provide additional reasons that might persuade those who wrongly doubt that unborn human babies are persons.

By significantly reducing the number of births in the state, these laws would reduce the state's population growth and generate short- and long-term impacts on the state's output and its government finances. Abortion laws could also impact individuals' and families' personal finances, health, and wellbeing in ways that affect states revenues and expenses.

Population growth and economic growth go hand in hand so long as the necessary resources and infrastructure are in place to support that growth. Those resources and infrastructure are in place and the U.S. faces an unprecedented labor shortage. Recent declines in fertility rates threaten to reduce population growth and current and future economic growth. Moreover, government debt has created a situation in which the future wellbeing of current residents is dependent upon a growing population and workforce to pay for current debts and for unfunded obligations promised to retirees.

Since 2007, the [total fertility rate](#) in the U.S. declined from 2.11 births per woman (right at replacement rate) to just 1.66 births per woman in 2021. Missouri's total fertility rate declined from 2.08 in 2007 to 1.60 in 2021.

Compared to current law (in which abortion is illegal in Missouri except in instances in which the woman's life is in danger or her health is severely compromised), the proposed laws could

lead to an additional [2,000 to 9,000 abortions per year](#) in Missouri, depending on how expansive abortion access would become.¹ Based on population projections from the Census Bureau, and assuming a one-for-one correlation between increased abortions and reduced population, the proposed abortion laws could reduce Missouri's projected population by 0.3 percent to 1.4 percent over the next 10 years and by 0.6 percent to 2.7 percent over the next 20 years.

The state needs to consider the following potential effects of abortion-induced population decline in its impact analysis:

A reduced labor force. Fewer births and a smaller population means a smaller future labor force. While proponents of abortion make the economic case that abortion enables women to work and earn more, the additional measurable work and earnings of women as a result of having an abortion is miniscule compared to the potential lifetime work and earnings of another human being. Moreover, while having a child can reduce mothers' work and earnings, it tends to increase fathers' work and earnings—a factor that is ignored in abortion advocates economic claims.

Healthcare strain. Already, the U.S. faces [serious shortages](#) of healthcare workers and the population is continuing to age. Young people (those who would be aborted over the coming decades as a result of the proposed laws) consume very little healthcare, and as they reach working age, they are net providers of healthcare. This means the proposed laws could exacerbate healthcare worker shortages, limit Missourians' [access to healthcare](#), and potentially drive up the state's [healthcare costs](#) as shortages lead to higher prices. With Medicaid being Missouri's largest budgetary item (in FY 2022, Missouri's Medicaid spending was 74 percent greater than its K-12 education spending), and the state being limited by the federal government in its ability to reduce Medicaid spending, higher healthcare costs could impose significant budget constraints.

Reduced tax revenues. In the immediate future, fewer children born in Missouri could reduce sales and real estate tax revenues because households with children spend more and tend to live in higher-value housing. While the income tax revenues of women who have children could be lower if they work less after having children, the work and [earnings of men](#) tend to rise after they have children. In the decades following increased abortions, the absence of potentially tens of thousands of workers would lead to reduced income tax revenues. Although some state expenses are proportional to the number of residents and would decline over time, many expenses are not, and declining revenues would necessitate higher taxes or spending cuts.

Exacerbated unfunded pensions and other post-employment benefits. Depending on different assumptions and risk levels, Missouri has between [\\$36 billion](#) and [\\$171 billion](#) in unfunded pension and [other post-employment benefits](#). That is money that has already been promised to public sector workers and retirees, but which has not been set aside to provide those benefits. The American Legislative Exchange Council estimates that Missouri's unfunded pension liabilities alone amount to [\\$26,965 per capita](#) in 2021, and these unfunded liabilities are

¹ Estimated increase based on the number of abortions in Missouri, as reported by the [Missouri Department of Health and Senior Services](#) and the [Guttmacher Institute](#), reporting roughly 9,000 abortions around 2000-2001 and about 2,000 abortions around 2020-2021.

continuing to grow. The fewer people Missouri has, the larger the per-capita liabilities become, and the harder it will be to raise taxes on workers and employers without them moving to other states. Among many consequences, [economic analysis](#) shows that unfunded pension obligations lead to lower real estate values, which would reduce property tax revenues.

Conclusion

It is an unquestionable fact that the U.S. Constitution requires all state and local governments to uphold Americans' most fundamental natural rights, including that of the right to life. Not counting unborn humans as living beings and treating abortion as an exercise in economic eugenics is an assault on these rights and values.

Even then, the fiscal and economic perspectives of abortion advocates are lacking sufficient economic rigor. I offer this fiscal analysis that provides good reasons to reject the proposed amendments on premises that abortion advocates may be able to accept.

The proposed laws to legalize and expand abortion access in Missouri warrant a properly conducted fiscal analysis. As a part of the debate, policymakers must consider how increased abortions will affect Missouri's population, workforce, fundamental services such as healthcare, the states tax revenues and expenditures, and Missouri's ability to make good on its unfunded pension and other post-employment benefit obligations.

**The Heritage Foundation is a public policy, research, and educational organization recognized as exempt under section 501(c)(3) of the Internal Revenue Code. It is privately supported and receives no funds from any government at any level, nor does it perform any government or other contract work.

The Heritage Foundation is the most broadly supported think tank in the United States. During 2020, it had hundreds of thousands of individual, foundation, and corporate supporters representing every state in the U.S. Its 2020 operating income came from the following sources:

Individuals 66%

Foundations 18%

Corporations 2%

Program revenue and other income 14%

The top five corporate givers provided The Heritage Foundation with **1% of its 2020 income**. The Heritage Foundation's books are audited annually by the national accounting firm of RSM US, LLP.

Members of The Heritage Foundation staff testify and comment as individuals discussing their own independent research. The views expressed are their own and do not reflect an institutional position of The Heritage Foundation or its board of trustees.

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County, the City of Cape Girardeau, the City of Columbia, the City of Joplin, the City of Kirksville, the City of Mexico, the City of Raymore, the City of St. Joseph, the City of St. Louis, the City of Springfield, the City of Union, the City of Wentzville, the City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, and the University of Missouri.**

Fiscal Note Summary

State governmental entities estimate no costs or savings, but unknown impact. Local governmental entities estimate costs of at least \$51,000 annually in reduced tax revenues. Opponents estimate a potentially significant loss to state revenue.

RE: Petition approval request from Anna Fitz-James regarding a proposed constitutional amendment to Article I, version 9 (2024-085)

Dear Auditor Fitzpatrick:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Anna Fitz-James on March 8, 2023.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

NOTICE: The proposed amendment revises Article I of the Constitution by adopting one new Section to be known as Article I, Section 36.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article I of the Constitution is revised by adopting one new Section to be known as Article I, Section 36 to read as follows:

Section 36. 1. This Section shall be known as “The Right to Reproductive Freedom Initiative.”

2. The Government shall not deny or infringe upon a person's fundamental right to reproductive freedom, which is the right to make and carry out decisions about all matters relating to reproductive health care, including but not limited to prenatal care, childbirth, postpartum care, birth control, abortion care, miscarriage care, and respectful birthing conditions.

3. The right to reproductive freedom shall not be denied, interfered with, delayed, or otherwise restricted unless the Government demonstrates that such action is justified by a compelling governmental interest achieved by the least restrictive means. Any denial, interference, delay, or restriction of the right to reproductive freedom shall be presumed invalid. For purposes of this Section, a governmental interest is compelling only if it is for the limited purpose and has the limited effect of improving or maintaining the health of a person seeking care, is consistent with widely accepted clinical standards of practice and evidence-based medicine, and does not infringe on that person's autonomous decision-making.

4. Notwithstanding subsection 3 of this Section, the general assembly may enact laws that regulate the provision of abortion after Fetal Viability provided that under no circumstance shall the Government deny, burden, or restrict an abortion that in the good faith judgment of a treating health care professional is needed to protect the life or physical or mental health of the pregnant person.

5. No person shall be penalized, prosecuted, or otherwise subjected to adverse action based on their actual, potential, perceived, or alleged pregnancy outcomes, including but not limited to miscarriage, stillbirth, or abortion. Nor shall any person assisting a person in exercising their right to reproductive freedom with that person's consent be penalized, prosecuted, or otherwise subjected to adverse action for doing so.

6. Notwithstanding this Section, the general assembly may enact laws that require a health care professional, before providing an abortion to a minor, obtain consent from a parent or guardian of the minor, provided that such law shall permit the health care professional to provide the abortion without such consent if, in the good faith judgment of a health care professional:

(1) obtaining consent may lead to physical or emotional harm to the minor;

(2) the minor is mature and capable of consenting to an abortion; or

(3) obtaining consent would not be in the best interest of the minor.

7. The Government shall not discriminate against persons providing or obtaining reproductive health care or assisting another person in doing so.

8. Nothing in this Section requires government funding of abortion procedures.

9. If any provision of this Section or the application thereof to anyone or to any circumstance is held invalid, the remainder of those provisions and the application of such provisions to others or other circumstances shall not be affected thereby.

10. For purposes of this Section, the following terms mean:

(1) “Fetal Viability”, the point in pregnancy when, in the good faith judgment of a treating health care professional and based on the particular facts of the case, there is a significant likelihood of the fetus's sustained survival outside the uterus without the application of extraordinary medical measures.

(2) “Government”,

a. the state of Missouri; or

b. any municipality, city, town, village, township, district, authority, public subdivision or public corporation having the power to tax or regulate, or any portion of two or more such entities within the state of Missouri.

**MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (24-085)**

Subject

Initiative petition from Anna Fitz-James regarding a proposed constitutional amendment to Article I. (Received March 9, 2023)

Date

March 29, 2023

Description

This proposal would amend Article I of the Missouri Constitution.

The amendment is to be voted on in November 2024.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office**, the **Department of Agriculture**, the **Department of Economic Development**, the **Department of Elementary and Secondary Education**, the **Department of Higher Education and Workforce Development**, the **Department of Health and Senior Services**, the **Department of Commerce and Insurance**, the **Department of Mental Health**, the **Department of Natural Resources**, the **Department of Corrections**, the **Department of Labor and Industrial Relations**, the **Department of Revenue**, the **Department of Public Safety**, the **Missouri Department of the National Guard**, the **Department of Social Services**, the **Governor's office**, the **Missouri House of Representatives**, the **Department of Conservation**, the **Department of Transportation**, the **Office of Administration**, the **Office of State Courts Administrator**, the **Missouri Senate**, the **Secretary of State's office**, the **Office of the State Public Defender**, the **State Treasurer's office**, **Adair County**, **Boone County**, **Callaway County**, **Cass County**, **Clay County**, **Cole County**, **Greene County**, **Jackson County**, **Jasper County**, **St. Charles County**, **St. Louis County**, **Taney County**, the **City of Cape Girardeau**, the **City of Columbia**, the **City of Jefferson**, the **City of Joplin**, the **City of Kansas City**, the **City of Kirksville**, the **City of Mexico**, the **City of Raymore**, the **City of St. Joseph**, the **City of St. Louis**, the **City of Springfield**, the **City of Union**, the **City of Wentzville**, the **City of West Plains**, **Cape Girardeau 63 School District**, **Hannibal 60 School District**, **Malta Bend R-V School District**, **Mehlville School District**, **Wellsville-Middletown R-1 School District**, **State Technical College of Missouri**, **Metropolitan Community College**, **University of Missouri**, and **St. Louis Community College**.

Susan Klein, Executive Director, Missouri Right to Life provided information to the State Auditor's office.

Samuel H. Lee, Campaign Life Missouri provided information to the State Auditor's office.

David C. Drury, Attorney at Law provided information to the State Auditor's office.

Rachel U. Greszler, Senior Research Fellow in Economics, Budgets and Entitlements, The Heritage Foundation provided information to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no impact.

Officials from the **Department of Economic Development** indicated no fiscal impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated they have reviewed initiative petition 24-085 and determined there is no fiscal impact to their agency.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated changes to the bill are as follows:

Initiative petition 24-085 is identical to 24-077 with the following exceptions:

Adds new Section 36.4, which states "Notwithstanding subsection 3 of this Section, the general assembly may enact laws that regulate the provision of abortion after Fetal Viability provided that under no circumstance shall the Government deny, burden, or otherwise restrict an abortion that in the good faith judgement of a treating health care professional is needed to protect the life or physical or mental health of the pregnant person."

Adds new Section 36.6, which states "Notwithstanding this Section, the general assembly may enact laws that require a health care professional, before providing an abortion to a minor, obtain consent from a parent or guardian of the minor, provided that such law shall permit the health care professional to provide the abortion without consent if, in the good

faith judgement of a health care professional: (1) obtaining consent may lead to physical or emotional harm to the minor, (2) the minor is mature and capable of consenting to an abortion; or (3) obtaining consent would not be in the best interest of the minor."

Removes "other than as required by federal law" from Section 36.8 (Section 36.6 in 24-077)

Adds definition for Fetal Viability in Section 36.10(1), "'Fetal Viability,' the point in pregnancy when, in the good faith judgement of a treating health care professional and based on the particular facts of the case, there is a significant likelihood of the fetus's sustained survival outside the uterus without the application of extraordinary medical measures."

Comments:

The fiscal impact for 24-085 is the same as the fiscal impact for 24-077 and is as follows:

- FY 2024 General Revenue: (\$0 to Unknown)
- FY 2025 General Revenue: (\$0 to Unknown)
- FY 2026 General Revenue: (\$0 to Unknown)

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no anticipated cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipate no fiscal impact for this initiative petition proposing to amend Article I.

Officials from the **Department of Revenue** indicated the initiative petition does not have an impact on their department.

Officials from the **Department of Public Safety** indicated no impact for their department, Director's office.

Officials from the **Missouri Department of the National Guard** indicated no fiscal impact to their department.

Officials from the **Department of Social Services** indicated they do not anticipate a fiscal impact as a result of this petition.

Officials from the **Governor's office** indicated this proposal relating to reproductive issues does not financially impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated Initiative Petition 24-085 has no anticipated fiscal impact on their department.

Officials from the **Department of Transportation** indicated no fiscal impact expected for their department or the Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal relating to reproductive issues does not financially impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be \$10 million based on the cost of the 2022 primary and general election reimbursements.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

For the FY22 petitions cycle, their office estimates publication costs at \$70,000 per page. This amount is subject to change based on number of petitions received, length of those petitions and rates charged by newspaper publishers.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition has no fiscal impact on their office.

Officials from the **State Treasurer's office** indicated no fiscal impact to their office is anticipated.

Officials from **Clay County** indicated they estimate no fiscal impact as a result of this initiative.

Officials from **Greene County** indicated in reviewing initiative petition 24-085 it has been determined there will be an increased cost to the County of Greene due to loss of tax revenue if voters vote to amend Article I.

The Missouri Department of Health & Senior Services recorded 135 "resident abortions" for Greene County in 2020 and 118 in 2021. The population of Greene County per the 2020 United States census was 298,915. (<https://www.census.gov/quickfacts/fact/table/greene-county-missouri/PST045221>)

In terms of economic impact, Greene County received \$112,673,249 in sales and property taxes for calendar year 2022 (\$376.94 per capita based on 2020 census data). Accordingly, calculations from these figures indicate an annual loss in population of **135** represents a cost to the County of **\$50,886.90**; an increase in abortion statistics could reasonably be extrapolated to illustrate less tax collections and revenues over the years of potential working lifetimes.

Please see the attached table demonstrating the anticipated yearly on per capita basis and the overall fiscal impact on Greene County tax collections and revenues based on the recorded abortions in 2020 by Missouri Department of Health and Senior Services.

Additional research regarding the broader fiscal impact of lower fertility rates on local and state communities and government budgets may be found here:

Officials from **St. Louis County** indicated this has no fiscal impact on their county.

Officials from the **City of Jefferson City** indicated they do not think there would be a direct fiscal impact to the City of Jefferson imposed by Initiative Petition 24-085 proposing to amend Article I. There could be an indirect fiscal impact resulting from increased lawsuits related to violations of the act.

Officials from the **City of Kansas City** indicated this proposed amendment would have no fiscal impact on their city.

Officials from **Metropolitan Community College** indicated no fiscal impact.

Officials from the **St. Louis Community College** indicated they have reviewed the initiative petition and believe the initiative would have no direct cost or revenue impact.

March 15, 2023

Office of the Missouri State Auditor
The Honorable Scott Fitzpatrick
301 West High Street, Room 880
Jefferson City, MO 65102

Dear Auditor Fitzpatrick,

On behalf of the Members, Board and Staff of Missouri Right to Life, I submit to you our comments for consideration and inclusion in the fiscal note you will be preparing regarding the effects to the State of Missouri and its Local Governments of Initiative Petition(s) 2024-077 through 2024-087.

The Petitions Would Create Devastating Impacts for Missouri's Budget:

On March 8, 2023, 11 proposed initiative petitions (2024-077 through 2024-087) were filed with the Missouri Secretary of State's Office by Anna Fitz-James for a campaign committee called "Missourians for Constitutional Freedom." While each initiative petition has some slight variations, they are all identical in their purpose and their fiscal effects to General Revenue, Federal Funds, and Other Funds received by the State of Missouri and the impact to local governments.

The fiscal effects of some of the impacts of the petition(s) follow:

- **Abortion Injuries, Sanctions, Litigation and Loss of Federal Funding:** The petition will allow for abortions to be performed up until the moment of birth and possibly beyond. In addition to the loss of the life of the unborn child and the ending of his or her priceless contributions to our state and society, surgical and chemical abortions have risks and complications to the health of the mother. The cost impacts of surgical and medical abortion physical injuries would result in a devastating impact to Missouri's balanced budget due to an expansion of costs for Missouri's state and Federally-funded healthcare programs. In addition, women endure emotional trauma after an abortion. A massive increase in funding for mental health services would be required. Under current Federal law, states are barred from using Federal funds to pay for abortions except in limited cases (the Hyde Amendment). Federal funding could be in jeopardy and Missouri could be subject to the risk of litigation and sanctions, including the possibility of deferral or disallowance of federal financial participation in Missouri's Medicaid program. In 2019, more than \$7.2 billion in Federal funds were budgeted for Mo HealthNet services (Department of Social Services, Department of Mental Health, and Department of Health and Senior Services). The loss of these funds would be devastating to Missouri.

- **Loss of Licensing Fee Revenues/Penalties:** The petition will allow for anyone to perform an abortion with no penalty, prosecution or adverse action for performing the abortion. An abortion provider would no longer have a reason to maintain his or her license with the State of Missouri (and anyone who chose to perform an abortion would be protected under the Constitution to do so without any regulations or consequences). Missouri laws and regulations would be nullified, and licensing fees normally collected would decline.
- **Rural Hospitals Impacted:** Rural hospitals are already struggling. The petition will allow anyone to perform an abortion with no penalty, prosecution or regulation, and will result in a skyrocketing number of women injured by abortion who will need emergency services, flooding Emergency Rooms and health clinics and limiting or delaying access to emergency healthcare services needed by other individuals. This will result in a fiscal impact to the state. The state will also experience a fiscal impact through staff shortages as abortion-injured state employees seek medical care, surgery and recovery time off work to manage complications of abortion.
- **Missouri Could Face a Budgetary Crisis Due to Loss of Federal Funding from Violating Federal Conscience Laws:** The petition will force Missouri to be out of compliance with Federal conscience laws. This could result in the loss of billions of dollars of Federal funding, litigation and sanctions. If the Federal Government sanctions Missouri due to these violations, this will be devastating and create a budgetary crisis in Missouri. The state will also experience a fiscal impact through staff shortages as state employees flee state jobs where they feel their conscience is violated due to being forced to assist with an abortion.
- **Abortions Funded With Public Tax Dollars:** The petition will allow for the funding of abortions with public tax dollars. The language does not prohibit government funding of abortion procedures or of abortion providers. This would result in a massive fiscal impact to Missouri's balanced budget.
- **Constitutional Protections for Human Traffickers:** The petition will allow for anyone to perform, or assist with, an abortion with no penalty, prosecution or adverse action for performing the abortion. This would result in Constitutional protections for child sex traffickers who impregnate their victims and coerce them into an abortion and would render ineffective Missouri law enforcement, prosecution and justice efforts tasked with upholding our Constitution and laws. The petition could hamper the Federal Government's efforts under The Trafficking Victims Protection Act of 2000 and other Federal laws and could result in sanctions from any Federal funding that Missouri would otherwise be eligible to receive.
- **Sex Changes, et. al, Funded With Public Tax Dollars:** The petition, under the guise of "The Right to Reproductive Freedom," will allow the funding of sex change surgeries, puberty blockers, hormone therapy and other "reproductive services" with public tax dollars. This would result in a massive fiscal impact to Missouri's balanced budget.

In summary, any fiscal note of the petition(s) should contain the following language and should also include the estimated fiscal net effects to the State of Missouri and its local government:

This initiative petition (a) will allow for abortions to be performed up until the moment of birth and possibly beyond, which would put Missouri in jeopardy of losing billions of dollars of Federal funding and create an unplanned strain on the state's General Revenue, Other and Local Funds as a result of abortion injuries, sanctions, litigation, loss of licensing fee/penalty revenues, and overloaded emergency rooms and healthcare facilities, (b) will put Missouri in violation of Federal conscience laws, which could result in a loss of billions of dollars of Federal funding and an increase of state and local government employee vacancies and litigation due to exercising their rights of conscience, (c) will allow for anyone to perform, or assist with, an abortion with no penalty, prosecution or adverse action for performing the abortion, thereby creating Constitutional protections for Human Traffickers which could result in a loss of Federal funding, and (d) will allow for the funding of abortions, sex change surgeries, puberty blockers, hormone therapy and other "reproductive services" with public tax dollars which would result in a massive fiscal impact to the State of Missouri and its local government budgets.

Sincerely,

A handwritten signature in cursive script that reads "Susan Klein". The signature is written in dark ink and is positioned above the printed name and title.

State Auditor's Office
State Capitol
201 West Capitol Ave.
Jefferson City, MO 65101

Dear Auditor Fitzpatrick,

In accordance with the provisions of [section 116.175](#), this is a proposed statement of the fiscal impact of the 11 initiative petitions numbered 24-077 through 24-087, which your office received on March 9, 2023.

To summarize, the proposed ballot measures – all of which would amend the Missouri Constitution – could result in:

- A decrease in federal Medicaid revenues by an unknown amount, up to \$12.5 billion annually.
- Increased costs to taxpayers of unknown amounts, because of medical treatment of, or other services for, children or adults injured by abortions, sex-change operations, genital mutilation or other unspecified “reproductive health care” performed by unlicensed or untrained persons.
- Increased costs of an unknown amount to the Department of Health and Senior Services for the inspection and licensing of thousands of abortion facilities.
- Loss of revenue of unknown amounts to the state and its political subdivisions, because of boycotts of businesses, shopping, tourism or other revenue-generating activities, as a result of Missouri becoming the Midwest’s “abortion destination” state.
- Long-term loss of revenues of unknown amounts to the state and its political subdivisions, because of a decrease in the workforce due to the number of children who are aborted before birth. Also, because of individuals who can no longer work after they become disabled as a result of unsafe abortions, sex-change operations, genital mutilation or other unspecified, unsafe “reproductive health care.” But more important than fiscal costs, the human cost to Missouri’s citizens is unimaginable.

Former-Auditor Galloway made a comparable analysis of the fiscal impacts when she issued her fiscal note and fiscal note summary on [HB 126 \(20-R001 on June 19, 2019\)](#) – the subject of a

referendum that year. Her fiscal note summary became part of the [official ballot title certified by Secretary of State on August 14, 2019](#), for the referendum on HB 126.

Supporting Information on Fiscal Impact of the 11 Initiative Petitions:

- The loss of federal Medicaid matching dollars, which in the proposed fiscal year 2024 budget **would be a loss of nearly \$12.5 billion**.
 - In FY 2023, Missouri lawmakers appropriated about \$16.9 billion for Medicaid (MO HealthNet) across state agencies. [The majority of Medicaid financing in 2023 – \\$10.6 billion – came from federal matching funds](#). The governor’s proposed budget for MO HealthNet for FY 2024 is nearly \$19.3 billion – [almost \\$12.5 billion which would come from federal funds](#).
 - The loss of federal Medicaid matching funds could occur if Missouri is out of compliance with federal Medicaid requirements, for example:
 - If the state cuts off Medicaid reimbursements to Catholic hospitals. This could be a result of the requirement in the initiative petitions that the “Government shall not deny or infringe upon a person’s fundamental right to reproductive freedom.” This might include the state requiring Medicaid providers to sterilize patients, dispense puberty blockers or remove sex organs during sex-change operations.
 - This might also include the state requiring hospitals to participate in the horrendous practice of genital mutilation, currently prohibited by state law under [section 568.065](#), and for which no defense is allowed for “a matter of custom, ritual or standard practice, or [by] consent to the conduct by the child.”
 - But because of the broad-based definition of “reproductive health care” in the 11 initiative petitions (“including but not limited to”), state courts could easily find that genital mutilation is constitutionally protected activity, and strike down existing law.
 - However, for the state government to require Catholic health care providers (or others) to provide these procedures, it would be a violation of their conscience rights – for which the federal government could withhold from the state, Medicaid matching dollars.
 - For example, in California in 2020, [HHS disallowed \\$200 million in federal Medicaid matching funds per quarter due to the state’s unlawful abortion insurance mandate](#), which forced a Catholic order of religious sisters and a non-profit Christian Church to provide abortion health insurance coverage. See also:
 - [“The Fight Over California’s Abortion Coverage Mandate,” Regulatory Review](#), February 3, 2021 (“Can a state require that all health plans offered to its residents cover elective abortions? The federal government thinks not, and the state of California is poised to lose at least \$200 million in Medicaid dollars because it insists that health plans in its state cover abortion services.”)

- [“Federal agency says UVM Med Center forced nurse to assist in abortion,” VT Digger](#), August 28, 2019 (“The U.S. Department of Health and Human Services has accused the University of Vermont Medical Center of forcing a nurse to assist in an abortion procedure despite the nurse’s religious objections. ... The [letter from Roger Severino](#), the director of HHS’ Office for Civil Rights, asks the hospital to adjust its policies or face losing the federal funding it receives from HHS.”)
- There might be additional circumstances where state compliance with at least some of the proposed constitutional amendments would force the state to be out of compliance with federal Medicaid law, such as the state paying for abortions (or other procedures) with federal funds that are not permitted to be reimbursed under federal law. For example, the state might be compelled by the terms of some of the initiative petitions to pay for all abortions for all Medicaid-eligible females, because failing to do so might “discriminate against persons” if the state is paying for the labor and delivery of children for all Medicaid-eligible females. In other words, under the state constitution, Missouri might no longer be [“permitted to enact persuasive measures which favor childbirth over abortion”](#) (*Planned Parenthood v. Casey*, 505 U.S. 833, 886 (1992)). Such non-compliance with federal Medicaid law might also apply to other broad-based, undefined “reproductive health care,” which the state might also be compelled to pay for.
- Under the initiative petitions, the “Government shall not discriminate against persons providing or obtaining reproductive health care or assisting another person in doing so.” “Nor shall any person assisting a person in exercising their right to reproductive freedom with that person’s consent be penalized, prosecuted, or otherwise subjected to adverse action for doing so.” Thus, ANY person of ANY age could legally provide, or assist another person in obtaining, an abortion, a sex-change operation, genital mutilation or other unspecified “reproductive health care.” **This could result in numerous, life-altering medical complications to the child or adult who underwent the “reproductive health care.”** Especially with abortion – particularly for abortions performed later in pregnancy – this could result in huge medical costs for her and her child **that are ultimately paid for by taxpayers.**
 - Regarding abortion, in Missouri, the [cost of inpatient medical procedures and emergency department services for treating “issues before childbirth with complications”](#) is a **median charge per person of \$11,977** – with a minimum charges of \$4,140 and a **maximum charge of \$35,345.**
 - And the cost could be even higher for an abortion-related ER visit. [One recent study](#) found that a “[p]atient concealment and/or physician failure to identify a prior abortion during an ER visit is a significant risk factor for a subsequent hospital admission.” In fact, “[c]hemical abortion patients whose abortions are misclassified

- as miscarriages during an ER visit subsequently experience on average 3.2 hospital admissions within 30 days. 86% of the patients ultimately have surgical removal of retained products of conception (RPOC).”
- According to the CDC, in 2020, nearly 10,000 Missouri residents obtained abortions ([9,980 total, but only 167 within the state](#)). Having unlicensed, non-medical personnel permitted to perform or induce abortions within the state on even a fraction of these 10,000 girls or women could result in untold harm to them now – and harm to their future health and fertility.
 - And there might be additional costs to the state or political subdivisions beyond treating the complications to girls or women from being provided abortions by non-physicians or even non-medical personnel. Any low-birthweight infant born alive after a late-term abortion could need long-term NICU care and possibly permanent assistance throughout childhood and during his or her adult life.
 - According to a [2020 New York Times story](#): “The March of Dimes estimates that the average societal cost of each preterm birth, which includes medical care, early intervention services and lost productivity, is \$65,000.”
 - That same story reported on a cost of \$4 million in NICU costs for triplets who were born prematurely.
 - [Preterm birth lifetime costs in the United States](#) (as of 2016) were “estimated to be \$25.2 billion: \$17.1 billion for medical care of persons born preterm, \$2.0 billion for delivery care, \$1.3 billion for early intervention and special education, and \$4.8 billion in lost productivity due to associated disabilities in adults.”
- **Other costs could be the licensing and inspection of multiple locations (potentially thousands of sites) as “abortion facilities,” as required under Missouri law.** This is because [section 197.205](#) requires that no person or governmental unit shall establish, conduct or maintain an abortion facility in the state without a license issued by the Missouri Department of Health and Senior Services (DHSS).
 - [Section 188.015](#) defines an “abortion facility” as “a clinic, physician’s office, or any other place or facility in which abortions are performed or induced other than a hospital”.
 - [Section 197.230](#) states that “[i]n the case of any abortion facility, the department [of health and senior services (DHSS)] shall make or cause to be made an unannounced on-site inspection and investigation at least annually.” Such on-site inspections and investigations must include a variety of areas relating to staffing and equipment to respond to medical emergencies, compliance with Missouri’s abortion laws and the requirement that continuous physician services or registered professional nursing services are to be provided whenever a patient is in the facility.
 - There are [more than 7,000 licensed pharmacists in Missouri](#), and under the proposed constitutional amendment, any pharmacy (or other place) where a pharmacist provides abortion pills, DHSS would be required to inspect and license. **This would**

be an enormous cost to the department and to taxpayers. And any other place where abortion pills would be provided (homes, schools, vending machines, doctor's offices, clinics, etc.) would also have to be inspected at least once a year and licensed.

- **Economic boycotts of Missouri and its businesses could result if the “Show-Me” state becomes the “Abort-Me” state, once it is transformed into the Midwest’s “abortion destination” – a distinct possibility since Missouri is “within a day’s reach of half of U.S. households”.**
 - Just as some pro-abortion advocates in other states are promoting boycotts of states like Missouri that currently protect unborn children from abortion, pro-life advocates in other states might boycott by no longer purchasing from Missouri businesses, or engaging in travel, tourism or shopping in Missouri. How tragic that would be for Missouri, which has been described as one of the top pro-life states in the country.
 - Some “red” states have been prohibiting or attempting to prohibit their governmental entities from doing business with financial firms in other states that take environmental, social and corporate governance (ESG) into consideration, and those same states and additional ones might extend that to any “abortion destination” state – which is what Missouri could become if any one of the 11 initiative petitions is enacted into law.
 - “Missouri tourism provides a \$13.5 billion economic impact that creates more than 257,000 jobs in the state,” according to the Missouri Division of Tourism. It could be a devastating loss to the state and its residents if Missouri became the abortion capital of the Midwest.
- By some estimates, the economic cost to the U.S. of abortion in 2019 – due to the loss of nearly 630,000 unborn lives – was at least \$6.9 trillion, or 32 percent of GDP. **Missouri could experience increased economic loss if the number of abortions increases in the state.** And unsafe, legal abortions in the state could result in the disability of countless women who – perhaps permanently – would be unable to enter or remain in the workforce.
 - According to a June 15, 2022 report of the Joint Economic Committee – Congressional Republicans *The Economic Cost of Abortion* – the economic cost of an abortion due to the loss of unborn lives is 425 times larger than the earnings loss mothers could be expected to incur when having a child.”
 - According to a key finding in the report: “In the long run, abortion shrinks the labor force, stunts innovation, and limits economic growth. It also weakens the solvency of social insurance programs like Social Security and Medicare that rely on workers to support a growing elderly population.”
 - And as the International Planned Parenthood Federation has noted: “**Unsafe abortions** are performed by un- or under-trained providers ... It is possible to have an unsafe, legal abortion.” (underlining added)

- Under the initiative petitions, “any person assisting a person in exercising their right to reproductive freedom” shall not “be penalized, prosecuted, or otherwise subjected to adverse action for doing so.” Thus, unlicensed, untrained persons of ANY age could perform unsafe, legal abortions or other “reproductive health care,” and the “Government shall not discriminate against persons ... in doing so.” While the economic cost of this policy is incalculable, more important and horrifying, the human cost to Missouri’s citizens is unimaginable.

Auditor Fitzpatrick, if we can be of further assistance, please do not hesitate to contact us.

David C. Drury, Attorney at Law provided the following information:

Dear Auditor Fitzpatrick:

I am a licensed attorney in the St. Louis Metropolitan area who has practiced law here for the last fifty years.

Eleven similar proposals to destroy major Missouri laws which have existed for decades are being suggested by petition numbers 2024-077 to 2024-087.

As you are aware, section 116.175 et al requires that a fiscal note and fiscal note summary state a measure's estimated cost or savings to any state or local governmental entity. In general, a strong fiscal outlook is an essential foundation for a growing, thriving economy. The gap between income and spending is subsequently closed by government borrowing, something to ideally be avoided. Moreover, voters, especially in this conservative state, should be informed and educated of the costs of measures so radical they reverse and erase in one fell swoop the studied product of elected representatives. Indeed, the cost of a proposal may be the reason a voter decides against it.

As commented, the above proposals, although different in some respects, all contain much identical language. For example, the Preamble and first three numbered paragraphs (except 077 uses the word "entails" in line 2 or paragraph 2) are the same. All contain a "discrimination" paragraph, a "severability clause, and the definitions of "Government" are copied throughout. Other deletions or additions to the submissions do not detract from the fact that multiple unfavorable fiscal consequences will result if passage of any happens. So, I feel it is fair to say that these comments relate to each and every variation, rather than to repeat the same points one by one, over and over.

Another observation about which no one can reasonably disagree is that these are extremely broad, and being so broad are vague and ambiguous. Applications can be to an expansive variety of situations, all at costs to the state and local governmental agencies. This is especially the case in light of the present political structure of the federal government, and of course many federal monies flow to the State of Missouri. Another way of saying this, although a somewhat different point, is the potential, actually a likelihood, that direction of funding can be "weaponized", so state laws conform to federal ones. Thus, the state of Missouri is "fiscally" affected. The federal government and the states do not exist as if there is a wall in between. Money flows back and forth, and thus a state can easily be targeted and penalized by federal legislative and executive actions.

Most recently as this week President Biden proclaimed that it was "cruel" and "close to sinful" for Florida to ban subjecting children to sex-change procedures. (Not to subject the children, but to ban subjecting the children)! The aforesaid ballot proposals insist that the "right to reproductive freedom" shall not be denied, interfered with, delayed, or otherwise restricted, and governmental action should be deemed invalid. The ballot also uses language in paragraph 2 of all versions the clause "not limited to". It would thus appear that the subject of sex-change procedures, is included. Similarly, some of the

suggested versions require no parental or guardian consent whatsoever, and others only superficially address the subject with a sure-fire exception that a health care professional (not even a treating physician) can approve an abortion without consent if he/she thinks that getting consent may lead to emotional harm to the minor. All of the proposals do not even require that a physician is necessary to provide medical care. In fact you don't even need any license. Medical malpractice will automatically result. The harm to patients for this poor care, and the cost to the State for care of these patients will be an adverse fiscal result.

All of the above circumstances, would lead responsible hospitals and medical care providers to practice their profession with higher and different standards. And so they would refuse to abide by the above random, and harmful, provisions. Next, we come to the subject of "who is going to pay the bill"? Medicaid, as we know, pays an enormous amount of medical charges. Hospitals and doctors get reimbursed by the State, but the State must comply with federal law. If a State fails to follow the law, for the federal portion, which is over half, it may not get reimbursed. The State suffers fiscally. My numbers are that the State of Missouri receives 12.5 billion in federal Medicaid money.

What if, for example, Cardinal Glennon Hospital in St. Louis refused to perform sex change surgery on a minor, with or without parental consent, in its hospital? It is against its religious beliefs, among many other reasons. Can the hospital be denied Medicaid funds? The text of the proposals require such. The President has just declared that refusing to perform this is "cruel". If the State foots the bill and does not get reimbursed from the federal government, this is a fiscal loss.

Is medical insurance required to pay for "reproductive health care"? If so, these are expensive fiscal consequences of the proposals.

The proposals also yield enormous costs to the State in situations where persons or institutions refuse care against their medical "standard of care" but do not even require a license (creating a breeding ground for malpractice, and all of the expenses that come with it). With Medicaid, the state pays part of the bill, but may not get reimbursed the rest if the proposed bill is not followed. What about the "religious beliefs" of medical care providers. If, for example, Catholic hospitals are penalized, the State of Missouri could also be "fiscally" penalized.

What about the issue of prescribing pills to induce abortion---chemical abortion? Do these proposals mean that all care providers must not deny, restrict, or delay this form of abortion? Is the "government" discriminating against patients by not requiring care providers including pharmacists to dispense the pills? Can they be penalized by withholding of Medicaid payments?

The issue of federal Medicaid funds being disallowed has come up before. In December 2020 HHS and OCR announced that \$200 million in federal Medicaid funds going to California in the upcoming quarter were being denied. This was due to the state illegally mandating that all health care plans subject to regulation by the California Department

of Managed Health Care cover abortion without exclusion or limitation. Furthermore, if California did not come into compliance, additional disallowances would be imposed at a rate of \$200 million per quarter. In a Vermont case, receipt of federal funds because of discrimination against an employee who refused to participate in abortions was threatened. I mention this because of the potential fiscal effect on the State of Missouri if one of these proposals was passed.

So as not to overlook the obvious, the proposals if passed would surely make abortions easier in this state, depriving the state of countless future taxpaying citizens. These persons, if allowed to live, would work, create and staff businesses, produce products, and in general contribute to the economy. A growing population encourages others to move here which in turn results in additional fiscal activity. And, although much of the above addresses Medicaid costs, since fewer workers will be around to contribute to the Medicare system, this system will be under fiscal stress also.

These are only some of the immediate, short-term, and permanent unfortunate fiscal consequences to State and local government if any of the proposals pass.

Thank you for considering this information.

**Rachel U. Greszler, Senior Research Fellow in Economics, Budgets, and Entitlements,
The Heritage Foundation** provided the following information:

Date: March 17, 2023

State Auditor's Office
State Capitol
201 West Capitol Ave.
Jefferson City, MO 65101

Dear Auditor Fitzpatrick,

Per Missouri's [fiscal impact](#) provisions, I have prepared the below fiscal note comments on the proposed ballot initiative "A Constitutional Amendment Concerning the Regulation of Abortion" as submitted to your office on March 9, 2023 as initiative petitions 24-077 through 24-087. My comments are my own and should not be construed as representing any official position of the Heritage Foundation.

Missouri is considering laws that would make abortion legal and easily accessible. The State should not take that step, simply because it would result in the death of thousands of innocent human beings. I offer this fiscal note to provide additional reasons that might persuade those who wrongly doubt that unborn human babies are persons.

By significantly reducing the number of births in the state, these laws would reduce the state's population growth and generate short- and long-term impacts on the state's output and its government finances. Abortion laws could also impact individuals' and families' personal finances, health, and wellbeing in ways that affect states revenues and expenses.

Population growth and economic growth go hand in hand so long as the necessary resources and infrastructure are in place to support that growth. Those resources and infrastructure are in place and the U.S. faces an unprecedented labor shortage. Recent declines in fertility rates threaten to reduce population growth and current and future economic growth. Moreover, government debt has created a situation in which the future wellbeing of current residents is dependent upon a growing population and workforce to pay for current debts and for unfunded obligations promised to retirees.

Since 2007, the [total fertility rate](#) in the U.S. declined from 2.11 births per woman (right at replacement rate) to just 1.66 births per woman in 2021. Missouri's total fertility rate declined from 2.08 in 2007 to 1.60 in 2021.

Compared to current law (in which abortion is illegal in Missouri except in instances in which the woman's life is in danger or her health is severely compromised), the proposed laws could

lead to an additional [2,000 to 9,000 abortions per year](#) in Missouri, depending on how expansive abortion access would become.¹ Based on population projections from the Census Bureau, and assuming a one-for-one correlation between increased abortions and reduced population, the proposed abortion laws could reduce Missouri's projected population by 0.3 percent to 1.4 percent over the next 10 years and by 0.6 percent to 2.7 percent over the next 20 years.

The state needs to consider the following potential effects of abortion-induced population decline in its impact analysis:

A reduced labor force. Fewer births and a smaller population means a smaller future labor force. While proponents of abortion make the economic case that abortion enables women to work and earn more, the additional measurable work and earnings of women as a result of having an abortion is miniscule compared to the potential lifetime work and earnings of another human being. Moreover, while having a child can reduce mothers' work and earnings, it tends to increase fathers' work and earnings—a factor that is ignored in abortion advocates economic claims.

Healthcare strain. Already, the U.S. faces [serious shortages](#) of healthcare workers and the population is continuing to age. Young people (those who would be aborted over the coming decades as a result of the proposed laws) consume very little healthcare, and as they reach working age, they are net providers of healthcare. This means the proposed laws could exacerbate healthcare worker shortages, limit Missourians' [access to healthcare](#), and potentially drive up the state's [healthcare costs](#) as shortages lead to higher prices. With Medicaid being Missouri's largest budgetary item (in FY 2022, Missouri's Medicaid spending was 74 percent greater than its K-12 education spending), and the state being limited by the federal government in its ability to reduce Medicaid spending, higher healthcare costs could impose significant budget constraints.

Reduced tax revenues. In the immediate future, fewer children born in Missouri could reduce sales and real estate tax revenues because households with children spend more and tend to live in higher-value housing. While the income tax revenues of women who have children could be lower if they work less after having children, the work and [earnings of men](#) tend to rise after they have children. In the decades following increased abortions, the absence of potentially tens of thousands of workers would lead to reduced income tax revenues. Although some state expenses are proportional to the number of residents and would decline over time, many expenses are not, and declining revenues would necessitate higher taxes or spending cuts.

Exacerbated unfunded pensions and other post-employment benefits. Depending on different assumptions and risk levels, Missouri has between [\\$36 billion](#) and [\\$171 billion](#) in unfunded pension and [other post-employment benefits](#). That is money that has already been promised to public sector workers and retirees, but which has not been set aside to provide those benefits. The American Legislative Exchange Council estimates that Missouri's unfunded pension liabilities alone amount to [\\$26,965 per capita](#) in 2021, and these unfunded liabilities are

¹ Estimated increase based on the number of abortions in Missouri, as reported by the [Missouri Department of Health and Senior Services](#) and the [Guttmacher Institute](#), reporting roughly 9,000 abortions around 2000-2001 and about 2,000 abortions around 2020-2021.

continuing to grow. The fewer people Missouri has, the larger the per-capita liabilities become, and the harder it will be to raise taxes on workers and employers without them moving to other states. Among many consequences, [economic analysis](#) shows that unfunded pension obligations lead to lower real estate values, which would reduce property tax revenues.

Conclusion

It is an unquestionable fact that the U.S. Constitution requires all state and local governments to uphold Americans' most fundamental natural rights, including that of the right to life. Not counting unborn humans as living beings and treating abortion as an exercise in economic eugenics is an assault on these rights and values.

Even then, the fiscal and economic perspectives of abortion advocates are lacking sufficient economic rigor. I offer this fiscal analysis that provides good reasons to reject the proposed amendments on premises that abortion advocates may be able to accept.

The proposed laws to legalize and expand abortion access in Missouri warrant a properly conducted fiscal analysis. As a part of the debate, policymakers must consider how increased abortions will affect Missouri's population, workforce, fundamental services such as healthcare, the states tax revenues and expenditures, and Missouri's ability to make good on its unfunded pension and other post-employment benefit obligations.

STATE AUDITORS OFFICE

RE: Petition approval request from Anna Fitz-James regarding a proposed constitutional amendment to Article I, version 8 (2024-084)

Dear Auditor Fitzpatrick:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Anna Fitz-James on March 8, 2023.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

NOTICE: The proposed amendment revises Article I of the Constitution by adopting one new Section to be known as Article I, Section 36.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article I of the Constitution is revised by adopting one new Section to be known as Article I, Section 36 to read as follows:

Section 36. 1. This Section shall be known as “The Right to Reproductive Freedom Initiative.”

2. The Government shall not deny or infringe upon a person’s fundamental right to reproductive freedom, which is the right to make and carry out decisions about all matters relating to reproductive health care, including but not limited to prenatal care, childbirth, postpartum care, birth control, abortion care, miscarriage care, and respectful birthing conditions.

3. The right to reproductive freedom shall not be denied, interfered with, delayed, or otherwise restricted unless the Government demonstrates that such action is justified by a compelling governmental interest achieved by the least restrictive means. Any denial, interference, delay, or restriction of the right to reproductive freedom shall be presumed invalid. For purposes of this Section, a governmental interest is compelling only if it is for the limited purpose and has the limited effect of improving or maintaining the health of a person seeking care, is consistent with widely accepted clinical standards of practice and evidence-based medicine, and does not infringe on that person’s autonomous decision-making.

4. Notwithstanding subsection 3 of this Section, the general assembly may enact laws that regulate the provision of abortion after 24 weeks of gestation, as measured from the first day of the patient’s last menstrual period consistent with accepted clinical standards, provided that under no circumstance shall the Government deny, interfere with, delay, or otherwise restrict an abortion that, in the good faith judgment of a treating health care professional, is needed to protect the life or physical or mental health of the pregnant person or is of a nonviable pregnancy.

5. No person shall be penalized, prosecuted, or otherwise subjected to adverse action based on their actual, potential, perceived, or alleged pregnancy outcomes, including but not limited to miscarriage, stillbirth, or abortion. Nor shall any person assisting a person in exercising their right to reproductive freedom with that person’s consent be penalized, prosecuted, or otherwise subjected to adverse action for doing so.

6. The Government shall not discriminate against persons providing or obtaining reproductive health care or assisting another person in doing so.

7. Nothing in this Section requires government funding of abortion procedures.

8. If any provision of this Section or the application thereof to anyone or to any circumstance is held invalid, the remainder of those provisions and the application of such provisions to others or other circumstances shall not be affected thereby.

9. For purposes of this Section, the term “Government” means:

(1) the state of Missouri; or

(2) any municipality, city, town, village, township, district, authority, public subdivision or public corporation having the power to tax or regulate, or any portion of two or more such entities within the state of Missouri.

**MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (24-084)**

Subject

Initiative petition from Anna Fitz-James regarding a proposed constitutional amendment to Article I. (Received March 9, 2023)

Date

March 29, 2023

Description

This proposal would amend Article I of the Missouri Constitution.

The amendment is to be voted on in November 2024.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office**, the **Department of Agriculture**, the **Department of Economic Development**, the **Department of Elementary and Secondary Education**, the **Department of Higher Education and Workforce Development**, the **Department of Health and Senior Services**, the **Department of Commerce and Insurance**, the **Department of Mental Health**, the **Department of Natural Resources**, the **Department of Corrections**, the **Department of Labor and Industrial Relations**, the **Department of Revenue**, the **Department of Public Safety**, the **Missouri Department of the National Guard**, the **Department of Social Services**, the **Governor's office**, the **Missouri House of Representatives**, the **Department of Conservation**, the **Department of Transportation**, the **Office of Administration**, the **Office of State Courts Administrator**, the **Missouri Senate**, the **Secretary of State's office**, the **Office of the State Public Defender**, the **State Treasurer's office**, **Adair County**, **Boone County**, **Callaway County**, **Cass County**, **Clay County**, **Cole County**, **Greene County**, **Jackson County**, **Jasper County**, **St. Charles County**, **St. Louis County**, **Taney County**, the **City of Cape Girardeau**, the **City of Columbia**, the **City of Jefferson**, the **City of Joplin**, the **City of Kansas City**, the **City of Kirksville**, the **City of Mexico**, the **City of Raymore**, the **City of St. Joseph**, the **City of St. Louis**, the **City of Springfield**, the **City of Union**, the **City of Wentzville**, the **City of West Plains**, **Cape Girardeau 63 School District**, **Hannibal 60 School District**, **Malta Bend R-V School District**, **Mehlville School District**, **Wellsville-Middletown R-1 School District**, **State Technical College of Missouri**, **Metropolitan Community College**, **University of Missouri**, and **St. Louis Community College**.

Susan Klein, Executive Director, Missouri Right to Life provided information to the State Auditor's office.

Samuel H. Lee, Campaign Life Missouri provided information to the State Auditor's office.

David C. Drury, Attorney at Law provided information to the State Auditor's office.

Rachel U. Greszler, Senior Research Fellow in Economics, Budgets and Entitlements, The Heritage Foundation provided information to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no impact.

Officials from the **Department of Economic Development** indicated no fiscal impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated they have reviewed initiative petition 24-084 and determined there is no fiscal impact to their agency.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated changes to the bill are as follows:

Initiative petition 24-084 is identical to 24-077 with the following exceptions:

Adds new Section 36.4, which states "Notwithstanding subsection 3 of this Section, the general assembly may enact laws that regulate the provision of abortion after 24 weeks of gestation, as measured from the first day of the patient's last menstrual period consistent with accepted clinical standards, provided that under no circumstance shall the Government deny, interfere with, delay, or otherwise restrict an abortion that, in the good faith judgement of a treating health care professional, is needed to protect the life or physical or mental health of the pregnant person or is of a nonviable pregnancy."

Removes "other than as required by federal law" from Section 36.7 (Section 36.6 in 24-077).

Comments:

The fiscal impact for 24-084 is the same as the fiscal impact for 24-077 and is as follows:

- FY 2024 General Revenue: (\$0 to Unknown)
- FY 2025 General Revenue: (\$0 to Unknown)
- FY 2026 General Revenue: (\$0 to Unknown)

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no anticipated cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipate no fiscal impact for this initiative petition proposing to amend Article I.

Officials from the **Department of Revenue** indicated the initiative petition does not have an impact on their department.

Officials from the **Department of Public Safety** indicated no impact for their department, Director's office.

Officials from the **Missouri Department of the National Guard** indicated no fiscal impact to their department.

Officials from the **Department of Social Services** indicated they do not anticipate a fiscal impact as a result of this petition.

Officials from the **Governor's office** indicated this proposal relating to reproductive issues does not financially impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated Initiative Petition 24-084 has no anticipated fiscal impact on their department.

Officials from the **Department of Transportation** indicated no fiscal impact expected for their department or the Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal relating to reproductive issues does not financially impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be \$10 million based on the cost of the 2022 primary and general election reimbursements.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

For the FY22 petitions cycle, their office estimates publication costs at \$70,000 per page. This amount is subject to change based on number of petitions received, length of those petitions and rates charged by newspaper publishers.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition has no fiscal impact on their office.

Officials from the **State Treasurer's office** indicated no fiscal impact to their office is anticipated.

Officials from **Clay County** indicated they estimate no fiscal impact as a result of this initiative.

Officials from **Greene County** indicated in reviewing initiative petition 24-084 it has been determined there will be an increased cost to the County of Greene due to loss of tax revenue if voters vote to amend Article I.

The Missouri Department of Health & Senior Services recorded 135 "resident abortions" for Greene County in 2020 and 118 in 2021. The population of Greene County per the 2020 United States census was 298,915. (<https://www.census.gov/quickfacts/fact/table/greene-county-missouri/PST045221>)

In terms of economic impact, Greene County received \$112,673,249 in sales and property taxes for calendar year 2022 (**\$376.94** per capita based on **2020** census data). Accordingly, calculations from these figures indicate an annual loss in population of **135** represents a cost to the County of **\$50,886.90**; an increase in abortion statistics could reasonably be extrapolated to illustrate less tax collections and revenues over the years of potential working lifetimes.

Please see the attached table demonstrating the anticipated yearly on per capita basis and the overall fiscal impact on Greene County tax collections and revenues based on the recorded abortions in 2020 by Missouri Department of Health and Senior Services.

Additional research regarding the broader fiscal impact of lower fertility rates on local and state communities and government budgets may be found here:

- <https://www.pewtrusts.org/en/research-and-analysis/issue-briefs/2022/12/the-long-term-decline-in-fertility-and-what-it-means-for-state-budgets>

Greene County Collections in 2022	
2020 Population	298,915
Total Sales Tax Collected	126,986,094.91

Personal Property Tax	2,846,022.58
Property Tax SubTotal	15,068,364.57
Total Taxes	112,673,249.02
Per Capita	376.94
Annual lost population	135
Annual Cost	50,886.90

Officials from **St. Louis County** indicated this has no fiscal impact on their county.

Officials from the **City of Jefferson City** indicated they do not think there would be a direct fiscal impact to the City of Jefferson imposed by Initiative Petition 24-084 proposing to amend Article I. There could be an indirect fiscal impact resulting from increased lawsuits related to violations of the act.

Officials from the **City of Kansas City** indicated this proposed amendment would have has no fiscal impact on their city.

Officials from **Metropolitan Community College** indicated no fiscal impact.

Officials from the **St. Louis Community College** indicated they have reviewed the initiative petition and believe the initiative would have no direct cost or revenue impact.

Susan Klein, Executive Director, Missouri Right to Life provided the following information:

PO Box 651
Jefferson City, MO 65102

www.missourilife.org

March 15, 2023

Office of the Missouri State Auditor
The Honorable Scott Fitzpatrick
301 West High Street, Room 880
Jefferson City, MO 65102

Dear Auditor Fitzpatrick,

On behalf of the Members, Board and Staff of Missouri Right to Life, I submit to you our comments for consideration and inclusion in the fiscal note you will be preparing regarding the effects to the State of Missouri and its Local Governments of Initiative Petition(s) 2024-077 through 2024-087.

The Petitions Would Create Devastating Impacts for Missouri's Budget:

On March 8, 2023, 11 proposed initiative petitions (2024-077 through 2024-087) were filed with the Missouri Secretary of State's Office by Anna Fitz-James for a campaign committee called "Missourians for Constitutional Freedom." While each initiative petition has some slight variations, they are all identical in their purpose and their fiscal effects to General Revenue, Federal Funds, and Other Funds received by the State of Missouri and the impact to local governments.

The fiscal effects of some of the impacts of the petition(s) follow:

- **Abortion Injuries, Sanctions, Litigation and Loss of Federal Funding:** The petition will allow for abortions to be performed up until the moment of birth and possibly beyond. In addition to the loss of the life of the unborn child and the ending of his or her priceless contributions to our state and society, surgical and chemical abortions have risks and complications to the health of the mother. The cost impacts of surgical and medical abortion physical injuries would result in a devastating impact to Missouri's balanced budget due to an expansion of costs for Missouri's state and Federally-funded healthcare programs. In addition, women endure emotional trauma after an abortion. A massive increase in funding for mental health services would be required. Under current Federal law, states are barred from using Federal funds to pay for abortions except in limited cases (the Hyde Amendment). Federal funding could be in jeopardy and Missouri could be subject to the risk of litigation and sanctions, including the possibility of deferral or disallowance of federal financial participation in Missouri's Medicaid program. In 2019, more than \$7.2 billion in Federal funds were budgeted for Mo HealthNet services (Department of Social Services, Department of Mental Health, and Department of Health and Senior Services). The loss of these funds would be devastating to Missouri.

- **Loss of Licensing Fee Revenues/Penalties:** The petition will allow for anyone to perform an abortion with no penalty, prosecution or adverse action for performing the abortion. An abortion provider would no longer have a reason to maintain his or her license with the State of Missouri (and anyone who chose to perform an abortion would be protected under the Constitution to do so without any regulations or consequences). Missouri laws and regulations would be nullified, and licensing fees normally collected would decline.
- **Rural Hospitals Impacted:** Rural hospitals are already struggling. The petition will allow anyone to perform an abortion with no penalty, prosecution or regulation, and will result in a skyrocketing number of women injured by abortion who will need emergency services, flooding Emergency Rooms and health clinics and limiting or delaying access to emergency healthcare services needed by other individuals. This will result in a fiscal impact to the state. The state will also experience a fiscal impact through staff shortages as abortion-injured state employees seek medical care, surgery and recovery time off work to manage complications of abortion.
- **Missouri Could Face a Budgetary Crisis Due to Loss of Federal Funding from Violating Federal Conscience Laws:** The petition will force Missouri to be out of compliance with Federal conscience laws. This could result in the loss of billions of dollars of Federal funding, litigation and sanctions. If the Federal Government sanctions Missouri due to these violations, this will be devastating and create a budgetary crisis in Missouri. The state will also experience a fiscal impact through staff shortages as state employees flee state jobs where they feel their conscience is violated due to being forced to assist with an abortion.
- **Abortions Funded With Public Tax Dollars:** The petition will allow for the funding of abortions with public tax dollars. The language does not prohibit government funding of abortion procedures or of abortion providers. This would result in a massive fiscal impact to Missouri's balanced budget.
- **Constitutional Protections for Human Traffickers:** The petition will allow for anyone to perform, or assist with, an abortion with no penalty, prosecution or adverse action for performing the abortion. This would result in Constitutional protections for child sex traffickers who impregnate their victims and coerce them into an abortion and would render ineffective Missouri law enforcement, prosecution and justice efforts tasked with upholding our Constitution and laws. The petition could hamper the Federal Government's efforts under The Trafficking Victims Protection Act of 2000 and other Federal laws and could result in sanctions from any Federal funding that Missouri would otherwise be eligible to receive.
- **Sex Changes, et. al, Funded With Public Tax Dollars:** The petition, under the guise of "The Right to Reproductive Freedom," will allow the funding of sex change surgeries, puberty blockers, hormone therapy and other "reproductive services" with public tax dollars. This would result in a massive fiscal impact to Missouri's balanced budget.

In summary, any fiscal note of the petition(s) should contain the following language and should also include the estimated fiscal net effects to the State of Missouri and its local government:

This initiative petition (a) will allow for abortions to be performed up until the moment of birth and possibly beyond, which would put Missouri in jeopardy of losing billions of dollars of Federal funding and create an unplanned strain on the state's General Revenue, Other and Local Funds as a result of abortion injuries, sanctions, litigation, loss of licensing fee/penalty revenues, and overloaded emergency rooms and healthcare facilities, (b) will put Missouri in violation of Federal conscience laws, which could result in a loss of billions of dollars of Federal funding and an increase of state and local government employee vacancies and litigation due to exercising their rights of conscience, (c) will allow for anyone to perform, or assist with, an abortion with no penalty, prosecution or adverse action for performing the abortion, thereby creating Constitutional protections for Human Traffickers which could result in a loss of Federal funding, and (d) will allow for the funding of abortions, sex change surgeries, puberty blockers, hormone therapy and other "reproductive services" with public tax dollars which would result in a massive fiscal impact to the State of Missouri and its local government budgets.

Sincerely,

A handwritten signature in cursive script that reads "Susan Klein". The signature is written in dark ink and is positioned above the printed name and title.

Susan Klein
Executive Director
Missouri Right to Life

Samuel H. Lee, Campaign Life Missouri provided the following information:

Samuel Lee
Director

March 16, 2023

State Auditor's Office
State Capitol
201 West Capitol Ave.
Jefferson City, MO 65101

Dear Auditor Fitzpatrick,

In accordance with the provisions of [section 116.175](#), this is a proposed statement of the fiscal impact of the 11 initiative petitions numbered 24-077 through 24-087, which your office received on March 9, 2023.

To summarize, the proposed ballot measures – all of which would amend the Missouri Constitution – could result in:

- A decrease in federal Medicaid revenues by an unknown amount, up to \$12.5 billion annually.
- Increased costs to taxpayers of unknown amounts, because of medical treatment of, or other services for, children or adults injured by abortions, sex-change operations, genital mutilation or other unspecified “reproductive health care” performed by unlicensed or untrained persons.
- Increased costs of an unknown amount to the Department of Health and Senior Services for the inspection and licensing of thousands of abortion facilities.
- Loss of revenue of unknown amounts to the state and its political subdivisions, because of boycotts of businesses, shopping, tourism or other revenue-generating activities, as a result of Missouri becoming the Midwest’s “abortion destination” state.
- Long-term loss of revenues of unknown amounts to the state and its political subdivisions, because of a decrease in the workforce due to the number of children who are aborted before birth. Also, because of individuals who can no longer work after they become disabled as a result of unsafe abortions, sex-change operations, genital mutilation or other unspecified, unsafe “reproductive health care.” But more important than fiscal costs, the human cost to Missouri’s citizens is unimaginable.

Former-Auditor Galloway made a comparable analysis of the fiscal impacts when she issued her fiscal note and fiscal note summary on [HB 126 \(20-R001 on June 19, 2019\)](#) – the subject of a

referendum that year. Her fiscal note summary became part of the [official ballot title certified by Secretary of State on August 14, 2019](#), for the referendum on HB 126.

Supporting Information on Fiscal Impact of the 11 Initiative Petitions:

- The loss of federal Medicaid matching dollars, which in the proposed fiscal year 2024 budget **would be a loss of nearly \$12.5 billion**.
 - In FY 2023, Missouri lawmakers appropriated about \$16.9 billion for Medicaid (MO HealthNet) across state agencies. [The majority of Medicaid financing in 2023 – \\$10.6 billion – came from federal matching funds](#). The governor’s proposed budget for MO HealthNet for FY 2024 is nearly \$19.3 billion – [almost \\$12.5 billion which would come from federal funds](#).
 - The loss of federal Medicaid matching funds could occur if Missouri is out of compliance with federal Medicaid requirements, for example:
 - If the state cuts off Medicaid reimbursements to Catholic hospitals. This could be a result of the requirement in the initiative petitions that the “Government shall not deny or infringe upon a person’s fundamental right to reproductive freedom.” This might include the state requiring Medicaid providers to sterilize patients, dispense puberty blockers or remove sex organs during sex-change operations.
 - This might also include the state requiring hospitals to participate in the horrendous practice of genital mutilation, currently prohibited by state law under [section 568.065](#), and for which no defense is allowed for “a matter of custom, ritual or standard practice, or [by] consent to the conduct by the child.”
 - But because of the broad-based definition of “reproductive health care” in the 11 initiative petitions (“including but not limited to”), state courts could easily find that genital mutilation is constitutionally protected activity, and strike down existing law.
 - However, for the state government to require Catholic health care providers (or others) to provide these procedures, it would be a violation of their conscience rights – for which the federal government could withhold from the state, Medicaid matching dollars.
 - For example, in California in 2020, [HHS disallowed \\$200 million in federal Medicaid matching funds per quarter due to the state’s unlawful abortion insurance mandate](#), which forced a Catholic order of religious sisters and a non-profit Christian Church to provide abortion health insurance coverage. See also:
 - [“The Fight Over California’s Abortion Coverage Mandate,” Regulatory Review](#), February 3, 2021 (“Can a state require that all health plans offered to its residents cover elective abortions? The federal government thinks not, and the state of California is poised to lose at least \$200 million in Medicaid dollars because it insists that health plans in its state cover abortion services.”)

- [“Federal agency says UVM Med Center forced nurse to assist in abortion,” VT Digger](#), August 28, 2019 (“The U.S. Department of Health and Human Services has accused the University of Vermont Medical Center of forcing a nurse to assist in an abortion procedure despite the nurse’s religious objections. ... The [letter from Roger Severino](#), the director of HHS’ Office for Civil Rights, asks the hospital to adjust its policies or face losing the federal funding it receives from HHS.”)
- There might be additional circumstances where state compliance with at least some of the proposed constitutional amendments would force the state to be out of compliance with federal Medicaid law, such as the state paying for abortions (or other procedures) with federal funds that are not permitted to be reimbursed under federal law. For example, the state might be compelled by the terms of some of the initiative petitions to pay for all abortions for all Medicaid-eligible females, because failing to do so might “discriminate against persons” if the state is paying for the labor and delivery of children for all Medicaid-eligible females. In other words, under the state constitution, Missouri might no longer be [“permitted to enact persuasive measures which favor childbirth over abortion”](#) (*Planned Parenthood v. Casey*, 505 U.S. 833, 886 (1992)). Such non-compliance with federal Medicaid law might also apply to other broad-based, undefined “reproductive health care,” which the state might also be compelled to pay for.
- Under the initiative petitions, the “Government shall not discriminate against persons providing or obtaining reproductive health care or assisting another person in doing so.” “Nor shall any person assisting a person in exercising their right to reproductive freedom with that person’s consent be penalized, prosecuted, or otherwise subjected to adverse action for doing so.” Thus, ANY person of ANY age could legally provide, or assist another person in obtaining, an abortion, a sex-change operation, genital mutilation or other unspecified “reproductive health care.” **This could result in numerous, life-altering medical complications to the child or adult who underwent the “reproductive health care.”** Especially with abortion – particularly for abortions performed later in pregnancy – this could result in huge medical costs for her and her child **that are ultimately paid for by taxpayers.**
 - Regarding abortion, in Missouri, the [cost of inpatient medical procedures and emergency department services for treating “issues before childbirth with complications”](#) is a **median charge per person of \$11,977** – with a minimum charges of \$4,140 and a **maximum charge of \$35,345.**
 - And the cost could be even higher for an abortion-related ER visit. [One recent study](#) found that a “[p]atient concealment and/or physician failure to identify a prior abortion during an ER visit is a significant risk factor for a subsequent hospital admission.” In fact, “[c]hemical abortion patients whose abortions are misclassified

- as miscarriages during an ER visit subsequently experience on average 3.2 hospital admissions within 30 days. 86% of the patients ultimately have surgical removal of retained products of conception (RPOC).”
- According to the CDC, in 2020, nearly 10,000 Missouri residents obtained abortions ([9,980 total, but only 167 within the state](#)). Having unlicensed, non-medical personnel permitted to perform or induce abortions within the state on even a fraction of these 10,000 girls or women could result in untold harm to them now – and harm to their future health and fertility.
 - And there might be additional costs to the state or political subdivisions beyond treating the complications to girls or women from being provided abortions by non-physicians or even non-medical personnel. Any low-birthweight infant born alive after a late-term abortion could need long-term NICU care and possibly permanent assistance throughout childhood and during his or her adult life.
 - According to a [2020 New York Times story](#): “The March of Dimes estimates that the average societal cost of each preterm birth, which includes medical care, early intervention services and lost productivity, is \$65,000.”
 - That same story reported on a cost of \$4 million in NICU costs for triplets who were born prematurely.
 - [Preterm birth lifetime costs in the United States](#) (as of 2016) were “estimated to be \$25.2 billion: \$17.1 billion for medical care of persons born preterm, \$2.0 billion for delivery care, \$1.3 billion for early intervention and special education, and \$4.8 billion in lost productivity due to associated disabilities in adults.”
- **Other costs could be the licensing and inspection of multiple locations (potentially thousands of sites) as “abortion facilities,” as required under Missouri law.** This is because [section 197.205](#) requires that no person or governmental unit shall establish, conduct or maintain an abortion facility in the state without a license issued by the Missouri Department of Health and Senior Services (DHSS).
 - [Section 188.015](#) defines an “abortion facility” as “a clinic, physician’s office, or any other place or facility in which abortions are performed or induced other than a hospital”.
 - [Section 197.230](#) states that “[i]n the case of any abortion facility, the department [of health and senior services (DHSS)] shall make or cause to be made an unannounced on-site inspection and investigation at least annually.” Such on-site inspections and investigations must include a variety of areas relating to staffing and equipment to respond to medical emergencies, compliance with Missouri’s abortion laws and the requirement that continuous physician services or registered professional nursing services are to be provided whenever a patient is in the facility.
 - There are [more than 7,000 licensed pharmacists in Missouri](#), and under the proposed constitutional amendment, any pharmacy (or other place) where a pharmacist provides abortion pills, DHSS would be required to inspect and license. **This would**

be an enormous cost to the department and to taxpayers. And any other place where abortion pills would be provided (homes, schools, vending machines, doctor's offices, clinics, etc.) would also have to be inspected at least once a year and licensed.

- **Economic boycotts of Missouri and its businesses could result if the “Show-Me” state becomes the “Abort-Me” state, once it is transformed into the Midwest’s “abortion destination” – a distinct possibility since Missouri is “within a day’s reach of half of U.S. households”.**
 - Just as some pro-abortion advocates in other states are promoting boycotts of states like Missouri that currently protect unborn children from abortion, pro-life advocates in other states might boycott by no longer purchasing from Missouri businesses, or engaging in travel, tourism or shopping in Missouri. How tragic that would be for Missouri, which has been described as one of the top pro-life states in the country.
 - Some “red” states have been prohibiting or attempting to prohibit their governmental entities from doing business with financial firms in other states that take environmental, social and corporate governance (ESG) into consideration, and those same states and additional ones might extend that to any “abortion destination” state – which is what Missouri could become if any one of the 11 initiative petitions is enacted into law.
 - “Missouri tourism provides a \$13.5 billion economic impact that creates more than 257,000 jobs in the state,” according to the Missouri Division of Tourism. It could be a devastating loss to the state and its residents if Missouri became the abortion capital of the Midwest.
- By some estimates, the economic cost to the U.S. of abortion in 2019 – due to the loss of nearly 630,000 unborn lives – was at least \$6.9 trillion, or 32 percent of GDP. **Missouri could experience increased economic loss if the number of abortions increases in the state.** And unsafe, legal abortions in the state could result in the disability of countless women who – perhaps permanently – would be unable to enter or remain in the workforce.
 - According to a June 15, 2022 report of the Joint Economic Committee – Congressional Republicans’ The Economic Cost of Abortion – the economic cost of an abortion due to the loss of unborn lives is 425 times larger than the earnings loss mothers could be expected to incur when having a child.”
 - According to a key finding in the report: “In the long run, abortion shrinks the labor force, stunts innovation, and limits economic growth. It also weakens the solvency of social insurance programs like Social Security and Medicare that rely on workers to support a growing elderly population.”
 - And as the International Planned Parenthood Federation has noted: “**Unsafe abortions** are performed by un- or under-trained providers ... It is possible to have an unsafe, legal abortion.” (underlining added)

- Under the initiative petitions, “any person assisting a person in exercising their right to reproductive freedom” shall not “be penalized, prosecuted, or otherwise subjected to adverse action for doing so.” Thus, unlicensed, untrained persons of ANY age could perform unsafe, legal abortions or other “reproductive health care,” and the “Government shall not discriminate against persons ... in doing so.” While the economic cost of this policy is incalculable, more important and horrifying, the human cost to Missouri’s citizens is unimaginable.

Auditor Fitzpatrick, if we can be of further assistance, please do not hesitate to contact us.

David C. Drury, Attorney at Law provided the following information:

Dear Auditor Fitzpatrick:

I am a licensed attorney in the St. Louis Metropolitan area who has practiced law here for the last fifty years.

Eleven similar proposals to destroy major Missouri laws which have existed for decades are being suggested by petition numbers 2024-077 to 2024-087.

As you are aware, section 116.175 et al requires that a fiscal note and fiscal note summary state a measure's estimated cost or savings to any state or local governmental entity. In general, a strong fiscal outlook is an essential foundation for a growing, thriving economy. The gap between income and spending is subsequently closed by government borrowing, something to ideally be avoided. Moreover, voters, especially in this conservative state, should be informed and educated of the costs of measures so radical they reverse and erase in one fell swoop the studied product of elected representatives. Indeed, the cost of a proposal may be the reason a voter decides against it.

As commented, the above proposals, although different in some respects, all contain much identical language. For example, the Preamble and first three numbered paragraphs (except 077 uses the word "entails" in line 2 or paragraph 2) are the same. All contain a "discrimination" paragraph, a "severability clause, and the definitions of "Government" are copied throughout. Other deletions or additions to the submissions do not detract from the fact that multiple unfavorable fiscal consequences will result if passage of any happens. So, I feel it is fair to say that these comments relate to each and every variation, rather than to repeat the same points one by one, over and over.

Another observation about which no one can reasonably disagree is that these are extremely broad, and being so broad are vague and ambiguous. Applications can be to an expansive variety of situations, all at costs to the state and local governmental agencies. This is especially the case in light of the present political structure of the federal government, and of course many federal monies flow to the State of Missouri. Another way of saying this, although a somewhat different point, is the potential, actually a likelihood, that direction of funding can be "weaponized", so state laws conform to federal ones. Thus, the state of Missouri is "fiscally" affected. The federal government and the states do not exist as if there is a wall in between. Money flows back and forth, and thus a state can easily be targeted and penalized by federal legislative and executive actions.

Most recently as this week President Biden proclaimed that it was "cruel" and "close to sinful" for Florida to ban subjecting children to sex-change procedures. (Not to subject the children, but to ban subjecting the children)! The aforesaid ballot proposals insist that the "right to reproductive freedom" shall not be denied, interfered with, delayed, or otherwise restricted, and governmental action should be deemed invalid. The ballot also uses language in paragraph 2 of all versions the clause "not limited to". It would thus appear that the subject of sex-change procedures, is included. Similarly, some of the

suggested versions require no parental or guardian consent whatsoever, and others only superficially address the subject with a sure-fire exception that a health care professional (not even a treating physician) can approve an abortion without consent if he/she thinks that getting consent may lead to emotional harm to the minor. All of the proposals do not even require that a physician is necessary to provide medical care. In fact you don't even need any license. Medical malpractice will automatically result. The harm to patients for this poor care, and the cost to the State for care of these patients will be an adverse fiscal result.

All of the above circumstances, would lead responsible hospitals and medical care providers to practice their profession with higher and different standards. And so they would refuse to abide by the above random, and harmful, provisions. Next, we come to the subject of "who is going to pay the bill"? Medicaid, as we know, pays an enormous amount of medical charges. Hospitals and doctors get reimbursed by the State, but the State must comply with federal law. If a State fails to follow the law, for the federal portion, which is over half, it may not get reimbursed. The State suffers fiscally. My numbers are that the State of Missouri receives 12.5 billion in federal Medicaid money.

What if, for example, Cardinal Glennon Hospital in St. Louis refused to perform sex change surgery on a minor, with or without parental consent, in its hospital? It is against its religious beliefs, among many other reasons. Can the hospital be denied Medicaid funds? The text of the proposals require such. The President has just declared that refusing to perform this is "cruel". If the State foots the bill and does not get reimbursed from the federal government, this is a fiscal loss.

Is medical insurance required to pay for "reproductive health care"? If so, these are expensive fiscal consequences of the proposals.

The proposals also yield enormous costs to the State in situations where persons or institutions refuse care against their medical "standard of care" but do not even require a license (creating a breeding ground for malpractice, and all of the expenses that come with it). With Medicaid, the state pays part of the bill, but may not get reimbursed the rest if the proposed bill is not followed. What about the "religious beliefs" of medical care providers. If, for example, Catholic hospitals are penalized, the State of Missouri could also be "fiscally" penalized.

What about the issue of prescribing pills to induce abortion---chemical abortion? Do these proposals mean that all care providers must not deny, restrict, or delay this form of abortion? Is the "government" discriminating against patients by not requiring care providers including pharmacists to dispense the pills? Can they be penalized by withholding of Medicaid payments?

The issue of federal Medicaid funds being disallowed has come up before. In December 2020 HHS and OCR announced that \$200 million in federal Medicaid funds going to California in the upcoming quarter were being denied. This was due to the state illegally mandating that all health care plans subject to regulation by the California Department

of Managed Health Care cover abortion without exclusion or limitation. Furthermore, if California did not come into compliance, additional disallowances would be imposed at a rate of \$200 million per quarter. In a Vermont case, receipt of federal funds because of discrimination against an employee who refused to participate in abortions was threatened. I mention this because of the potential fiscal effect on the State of Missouri if one of these proposals was passed.

So as not to overlook the obvious, the proposals if passed would surely make abortions easier in this state, depriving the state of countless future taxpaying citizens. These persons, if allowed to live, would work, create and staff businesses, produce products, and in general contribute to the economy. A growing population encourages others to move here which in turn results in additional fiscal activity. And, although much of the above addresses Medicaid costs, since fewer workers will be around to contribute to the Medicare system, this system will be under fiscal stress also.

These are only some of the immediate, short-term, and permanent unfortunate fiscal consequences to State and local government if any of the proposals pass.

Thank you for considering this information.

**Rachel U. Greszler, Senior Research Fellow in Economics, Budgets, and Entitlements,
The Heritage Foundation** provided the following information:

Date: March 17, 2023

State Auditor's Office
State Capitol
201 West Capitol Ave.
Jefferson City, MO 65101

Dear Auditor Fitzpatrick,

Per Missouri's [fiscal impact](#) provisions, I have prepared the below fiscal note comments on the proposed ballot initiative "A Constitutional Amendment Concerning the Regulation of Abortion" as submitted to your office on March 9, 2023 as initiative petitions 24-077 through 24-087. My comments are my own and should not be construed as representing any official position of the Heritage Foundation.

Missouri is considering laws that would make abortion legal and easily accessible. The State should not take that step, simply because it would result in the death of thousands of innocent human beings. I offer this fiscal note to provide additional reasons that might persuade those who wrongly doubt that unborn human babies are persons.

By significantly reducing the number of births in the state, these laws would reduce the state's population growth and generate short- and long-term impacts on the state's output and its government finances. Abortion laws could also impact individuals' and families' personal finances, health, and wellbeing in ways that affect states revenues and expenses.

Population growth and economic growth go hand in hand so long as the necessary resources and infrastructure are in place to support that growth. Those resources and infrastructure are in place and the U.S. faces an unprecedented labor shortage. Recent declines in fertility rates threaten to reduce population growth and current and future economic growth. Moreover, government debt has created a situation in which the future wellbeing of current residents is dependent upon a growing population and workforce to pay for current debts and for unfunded obligations promised to retirees.

Since 2007, the [total fertility rate](#) in the U.S. declined from 2.11 births per woman (right at replacement rate) to just 1.66 births per woman in 2021. Missouri's total fertility rate declined from 2.08 in 2007 to 1.60 in 2021.

Compared to current law (in which abortion is illegal in Missouri except in instances in which the woman's life is in danger or her health is severely compromised), the proposed laws could

lead to an additional [2,000 to 9,000 abortions per year](#) in Missouri, depending on how expansive abortion access would become.¹ Based on population projections from the Census Bureau, and assuming a one-for-one correlation between increased abortions and reduced population, the proposed abortion laws could reduce Missouri's projected population by 0.3 percent to 1.4 percent over the next 10 years and by 0.6 percent to 2.7 percent over the next 20 years.

The state needs to consider the following potential effects of abortion-induced population decline in its impact analysis:

A reduced labor force. Fewer births and a smaller population means a smaller future labor force. While proponents of abortion make the economic case that abortion enables women to work and earn more, the additional measurable work and earnings of women as a result of having an abortion is miniscule compared to the potential lifetime work and earnings of another human being. Moreover, while having a child can reduce mothers' work and earnings, it tends to increase fathers' work and earnings—a factor that is ignored in abortion advocates economic claims.

Healthcare strain. Already, the U.S. faces [serious shortages](#) of healthcare workers and the population is continuing to age. Young people (those who would be aborted over the coming decades as a result of the proposed laws) consume very little healthcare, and as they reach working age, they are net providers of healthcare. This means the proposed laws could exacerbate healthcare worker shortages, limit Missourians' [access to healthcare](#), and potentially drive up the state's [healthcare costs](#) as shortages lead to higher prices. With Medicaid being Missouri's largest budgetary item (in FY 2022, Missouri's Medicaid spending was 74 percent greater than its K-12 education spending), and the state being limited by the federal government in its ability to reduce Medicaid spending, higher healthcare costs could impose significant budget constraints.

Reduced tax revenues. In the immediate future, fewer children born in Missouri could reduce sales and real estate tax revenues because households with children spend more and tend to live in higher-value housing. While the income tax revenues of women who have children could be lower if they work less after having children, the work and [earnings of men](#) tend to rise after they have children. In the decades following increased abortions, the absence of potentially tens of thousands of workers would lead to reduced income tax revenues. Although some state expenses are proportional to the number of residents and would decline over time, many expenses are not, and declining revenues would necessitate higher taxes or spending cuts.

Exacerbated unfunded pensions and other post-employment benefits. Depending on different assumptions and risk levels, Missouri has between [\\$36 billion](#) and [\\$171 billion](#) in unfunded pension and [other post-employment benefits](#). That is money that has already been promised to public sector workers and retirees, but which has not been set aside to provide those benefits. The American Legislative Exchange Council estimates that Missouri's unfunded pension liabilities alone amount to [\\$26,965 per capita](#) in 2021, and these unfunded liabilities are

¹ Estimated increase based on the number of abortions in Missouri, as reported by the [Missouri Department of Health and Senior Services](#) and the [Guttmacher Institute](#), reporting roughly 9,000 abortions around 2000-2001 and about 2,000 abortions around 2020-2021.

continuing to grow. The fewer people Missouri has, the larger the per-capita liabilities become, and the harder it will be to raise taxes on workers and employers without them moving to other states. Among many consequences, [economic analysis](#) shows that unfunded pension obligations lead to lower real estate values, which would reduce property tax revenues.

Conclusion

It is an unquestionable fact that the U.S. Constitution requires all state and local governments to uphold Americans' most fundamental natural rights, including that of the right to life. Not counting unborn humans as living beings and treating abortion as an exercise in economic eugenics is an assault on these rights and values.

Even then, the fiscal and economic perspectives of abortion advocates are lacking sufficient economic rigor. I offer this fiscal analysis that provides good reasons to reject the proposed amendments on premises that abortion advocates may be able to accept.

The proposed laws to legalize and expand abortion access in Missouri warrant a properly conducted fiscal analysis. As a part of the debate, policymakers must consider how increased abortions will affect Missouri's population, workforce, fundamental services such as healthcare, the states tax revenues and expenditures, and Missouri's ability to make good on its unfunded pension and other post-employment benefit obligations.

RE: Petition approval request from Anna Fitz-James regarding a proposed constitutional amendment to Article I, version 7 (2024-083)

Dear Auditor Fitzpatrick:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Anna Fitz-James on March 8, 2023.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

NOTICE: The proposed amendment revises Article I of the Constitution by adopting one new Section to be known as Article I, Section 36.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article I of the Constitution is revised by adopting one new Section to be known as Article I, Section 36 to read as follows:

Section 36. 1. This Section shall be known as “The Right to Reproductive Freedom Initiative.”

2. The Government shall not deny or infringe upon a person’s fundamental right to reproductive freedom, which is the right to make and carry out decisions about all matters relating to reproductive health care, including but not limited to prenatal care, childbirth, postpartum care, birth control, abortion care, miscarriage care, and respectful birthing conditions.

3. The right to reproductive freedom shall not be denied, interfered with, delayed, or otherwise restricted unless the Government demonstrates that such action is justified by a compelling governmental interest achieved by the least restrictive means. Any denial, interference, delay, or restriction of the right to reproductive freedom shall be presumed invalid. For purposes of this Section, a governmental interest is compelling only if it is for the limited purpose and has the limited effect of improving or maintaining the health of a person seeking care, is consistent with widely accepted clinical standards of practice and evidence-based medicine, and does not infringe on that person’s autonomous decision-making.

4. Notwithstanding subsection 3 of this Section, the general assembly may enact laws that regulate the provision of abortion after Fetal Viability provided that under no circumstance shall the Government deny, burden, or otherwise restrict an abortion that in the good faith judgment of a treating health care professional is needed to protect the life or physical or mental health of the pregnant person.

5. No person shall be penalized, prosecuted, or otherwise subjected to adverse action based on their actual, potential, perceived, or alleged pregnancy outcomes, including but not limited to miscarriage, stillbirth, or abortion. Nor shall any person assisting a person in exercising their right to reproductive freedom with that person’s consent be penalized, prosecuted, or otherwise subjected to adverse action for doing so.

6. Notwithstanding this Section, the general assembly may enact laws that require a health care professional, before providing an abortion to a minor, obtain consent from a parent or guardian of the minor, provided that such law shall permit the health care professional to provide the abortion without such consent if, in the good faith judgment of a health care professional:

(1) obtaining consent may lead to physical or emotional harm to the minor;

(2) the minor is mature and capable of consenting to an abortion; or

(3) obtaining consent would not be in the best interest of the minor.

7. The Government shall not discriminate against persons providing or obtaining reproductive health care or assisting another person in doing so.

8. If any provision of this Section or the application thereof to anyone or to any circumstance is held invalid, the remainder of those provisions and the application of such provisions to others or other circumstances shall not be affected thereby.

9. For purposes of this Section, the following terms mean:

(1) “Fetal Viability”, the point in pregnancy when, in the good faith judgment of a treating health care professional and based on the particular facts of the case, there is a significant likelihood of the fetus’s sustained survival outside the uterus without the application of extraordinary medical measures.

(2) “Government”,

a. the state of Missouri; or

b. any municipality, city, town, village, township, district, authority, public subdivision or public corporation having the power to tax or regulate, or any portion of two or more such entities within the state of Missouri.

**MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (24-083)**

Subject

Initiative petition from Anna Fitz-James regarding a proposed constitutional amendment to Article I. (Received March 9, 2023)

Date

March 29, 2023

Description

This proposal would amend Article I of the Missouri Constitution.

The amendment is to be voted on in November 2024.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office**, the **Department of Agriculture**, the **Department of Economic Development**, the **Department of Elementary and Secondary Education**, the **Department of Higher Education and Workforce Development**, the **Department of Health and Senior Services**, the **Department of Commerce and Insurance**, the **Department of Mental Health**, the **Department of Natural Resources**, the **Department of Corrections**, the **Department of Labor and Industrial Relations**, the **Department of Revenue**, the **Department of Public Safety**, the **Missouri Department of the National Guard**, the **Department of Social Services**, the **Governor's office**, the **Missouri House of Representatives**, the **Department of Conservation**, the **Department of Transportation**, the **Office of Administration**, the **Office of State Courts Administrator**, the **Missouri Senate**, the **Secretary of State's office**, the **Office of the State Public Defender**, the **State Treasurer's office**, **Adair County**, **Boone County**, **Callaway County**, **Cass County**, **Clay County**, **Cole County**, **Greene County**, **Jackson County**, **Jasper County**, **St. Charles County**, **St. Louis County**, **Taney County**, the **City of Cape Girardeau**, the **City of Columbia**, the **City of Jefferson**, the **City of Joplin**, the **City of Kansas City**, the **City of Kirksville**, the **City of Mexico**, the **City of Raymore**, the **City of St. Joseph**, the **City of St. Louis**, the **City of Springfield**, the **City of Union**, the **City of Wentzville**, the **City of West Plains**, **Cape Girardeau 63 School District**, **Hannibal 60 School District**, **Malta Bend R-V School District**, **Mehlville School District**, **Wellsville-Middletown R-1 School District**, **State Technical College of Missouri**, **Metropolitan Community College**, **University of Missouri**, and **St. Louis Community College**.

Susan Klein, Executive Director, Missouri Right to Life provided information to the State Auditor's office.

Samuel H. Lee, Campaign Life Missouri provided information to the State Auditor's office.

David C. Drury, Attorney at Law provided information to the State Auditor's office.

Rachel U. Greszler, Senior Research Fellow in Economics, Budgets and Entitlements, The Heritage Foundation provided information to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no impact.

Officials from the **Department of Economic Development** indicated no fiscal impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated they have reviewed initiative petition 24-083 and determined there is no fiscal impact to their agency.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated changes to the bill are as follows:

Initiative petition 24-083 is identical to 24-077 with the following exceptions:

Adds new Section 36.4, which states "Notwithstanding subsection 3 of this Section, the general assembly may enact laws that regulate the provision of abortion after Fetal Viability provided that under no circumstance shall the Government deny, burden, or otherwise restrict an abortion that in the good faith judgement of a treating health care professional is needed to protect the life or physical or mental health of the pregnant person.:

Adds new Section 36.6, which states "Notwithstanding this Section, the general assembly may enact laws that require a health care professional, before providing an abortion to a minor, obtain consent from a parent or guardian of the minor, provided that such law shall permit the health care professional to provide the abortion without consent if, in the good

faith judgement of a health care professional: (1) obtaining consent may lead to physical or emotional harm to the minor, (2) the minor is mature and capable of consenting to an abortion; or (3) obtaining consent would not be in the best interest of the minor."

Removes Section 36.6, which states "Nothing in this Section requires government funding of abortion procedures other than as required by federal law."

Adds definition for Fetal Viability in Section 36.9(1), "Fetal Viability,' the point in pregnancy when, in the good faith judgement of a treating health care professional and based on the particular facts of the case, there is a significant likelihood of the fetus's sustained survival outside the uterus without the application of extraordinary medical measures."

Comments:

The fiscal impact for 24-083 is the same as the fiscal impact for 24-077 and is as follows:

- FY 2024 General Revenue: (\$0 to Unknown)
- FY 2025 General Revenue: (\$0 to Unknown)
- FY 2026 General Revenue: (\$0 to Unknown)

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no anticipated cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipate no fiscal impact for this initiative petition proposing to amend Article I.

Officials from the **Department of Revenue** indicated the initiative petition does not have an impact on their department.

Officials from the **Department of Public Safety** indicated no impact for their department, Director's office.

Officials from the **Missouri Department of the National Guard** indicated no fiscal impact to their department.

Officials from the **Department of Social Services** indicated they do not anticipate a fiscal impact as a result of this petition.

Officials from the **Governor's office** indicated this proposal relating to reproductive issues does not financially impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated Initiative Petition 24-083 has no anticipated fiscal impact on their department.

Officials from the **Department of Transportation** indicated no fiscal impact expected for their department or the Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal relating to reproductive issues does not financially impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be \$10 million based on the cost of the 2022 primary and general election reimbursements.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

For the FY22 petitions cycle, their office estimates publication costs at \$70,000 per page. This amount is subject to change based on number of petitions received, length of those petitions and rates charged by newspaper publishers.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition has no fiscal impact on their office.

Officials from the **State Treasurer's office** indicated no fiscal impact to their office is anticipated.

Officials from **Clay County** indicated they estimate no fiscal impact as a result of this initiative.

Officials from **Greene County** indicated in reviewing initiative petition 24-083 it has been determined there will be an increased cost to the County of Greene due to loss of tax revenue if voters vote to amend Article I.

The Missouri Department of Health & Senior Services recorded 135 "resident abortions" for Greene County in 2020 and 118 in 2021. The population of Greene County per the 2020 United States census was 298,915. (<https://www.census.gov/quickfacts/fact/table/greene-county-missouri/PST045221>)

In terms of economic impact, Greene County received \$112,673,249 in sales and property taxes for calendar year 2022 (\$**376.94** per capita based on **2020** census data). Accordingly, calculations from these figures indicate an annual loss in population of **135** represents a cost to the County of **\$50,886.90**; an increase in abortion statistics could reasonably be extrapolated to illustrate less tax collections and revenues over the years of potential working lifetimes.

Please see the attached table demonstrating the anticipated yearly on per capita basis and the overall fiscal impact on Greene County tax collections and revenues based on the recorded abortions in 2020 by Missouri Department of Health and Senior Services.

Additional research regarding the broader fiscal impact of lower fertility rates on local and state communities and government budgets may be found here:

- <https://www.pewtrusts.org/en/research-and-analysis/issue-briefs/2022/12/the-long-term-decline-in-fertility-and-what-it-means-for-state-budgets>

Greene County Collections in 2022	
2020 Population	298,915
Total Sales Tax Collected	126,986,094.91
Parks I	(8,226,052.01)
Parks II	(8,773,337.47)
Dan Kinney Bond from Parks I	(551,342.50)
LEST	(11,631,863.21)
Strafford TIF	(24,374.44)
Springfield Plaza TIF	(174,240.83)
Sales Tax Subtotal	97,604,884.45
Real Estate Tax	12,222,341.99
Personal Property Tax	2,846,022.58
Property Tax SubTotal	15,068,364.57
Total Taxes	112,673,249.02
Per Capita	376.94
Annual lost population	135
Annual Cost	50,886.90

Officials from **St. Louis County** indicated this has no fiscal impact on their county.

Officials from the **City of Jefferson City** indicated they do not think there would be a direct fiscal impact to the City of Jefferson imposed by Initiative Petition 24-083 proposing to amend Article I. There could be an indirect fiscal impact resulting from increased lawsuits related to violations of the act.

Officials from the **City of Kansas City** indicated this proposed amendment would have no fiscal impact on their city.

Officials from **Metropolitan Community College** indicated no fiscal impact.

Officials from the **St. Louis Community College** indicated they have reviewed the initiative petition and believe the initiative would have no direct cost or revenue impact.

Susan Klein, Executive Director, Missouri Right to Life provided the following information:

www.missourilife.org

March 15, 2023

Office of the Missouri State Auditor
The Honorable Scott Fitzpatrick
301 West High Street, Room 880
Jefferson City, MO 65102

Dear Auditor Fitzpatrick,

On behalf of the Members, Board and Staff of Missouri Right to Life, I submit to you our comments for consideration and inclusion in the fiscal note you will be preparing regarding the effects to the State of Missouri and its Local Governments of Initiative Petition(s) 2024-077 through 2024-087.

The Petitions Would Create Devastating Impacts for Missouri's Budget:

On March 8, 2023, 11 proposed initiative petitions (2024-077 through 2024-087) were filed with the Missouri Secretary of State's Office by Anna Fitz-James for a campaign committee called "Missourians for Constitutional Freedom." While each initiative petition has some slight variations, they are all identical in their purpose and their fiscal effects to General Revenue, Federal Funds, and Other Funds received by the State of Missouri and the impact to local governments.

The fiscal effects of some of the impacts of the petition(s) follow:

- **Abortion Injuries, Sanctions, Litigation and Loss of Federal Funding:** The petition will allow for abortions to be performed up until the moment of birth and possibly beyond. In addition to the loss of the life of the unborn child and the ending of his or her priceless contributions to our state and society, surgical and chemical abortions have risks and complications to the health of the mother. The cost impacts of surgical and medical abortion physical injuries would result in a devastating impact to Missouri's balanced budget due to an expansion of costs for Missouri's state and Federally-funded healthcare programs. In addition, women endure emotional trauma after an abortion. A massive increase in funding for mental health services would be required. Under current Federal law, states are barred from using Federal funds to pay for abortions except in limited cases (the Hyde Amendment). Federal funding could be in jeopardy and Missouri could be subject to the risk of litigation and sanctions, including the possibility of deferral or disallowance of federal financial participation in Missouri's Medicaid program. In 2019, more than \$7.2 billion in Federal funds were budgeted for Mo HealthNet services (Department of Social Services, Department of Mental Health, and Department of Health and Senior Services). The loss of these funds would be devastating to Missouri.

- **Loss of Licensing Fee Revenues/Penalties:** The petition will allow for anyone to perform an abortion with no penalty, prosecution or adverse action for performing the abortion. An abortion provider would no longer have a reason to maintain his or her license with the State of Missouri (and anyone who chose to perform an abortion would be protected under the Constitution to do so without any regulations or consequences). Missouri laws and regulations would be nullified, and licensing fees normally collected would decline.
- **Rural Hospitals Impacted:** Rural hospitals are already struggling. The petition will allow anyone to perform an abortion with no penalty, prosecution or regulation, and will result in a skyrocketing number of women injured by abortion who will need emergency services, flooding Emergency Rooms and health clinics and limiting or delaying access to emergency healthcare services needed by other individuals. This will result in a fiscal impact to the state. The state will also experience a fiscal impact through staff shortages as abortion-injured state employees seek medical care, surgery and recovery time off work to manage complications of abortion.
- **Missouri Could Face a Budgetary Crisis Due to Loss of Federal Funding from Violating Federal Conscience Laws:** The petition will force Missouri to be out of compliance with Federal conscience laws. This could result in the loss of billions of dollars of Federal funding, litigation and sanctions. If the Federal Government sanctions Missouri due to these violations, this will be devastating and create a budgetary crisis in Missouri. The state will also experience a fiscal impact through staff shortages as state employees flee state jobs where they feel their conscience is violated due to being forced to assist with an abortion.
- **Abortions Funded With Public Tax Dollars:** The petition will allow for the funding of abortions with public tax dollars. The language does not prohibit government funding of abortion procedures or of abortion providers. This would result in a massive fiscal impact to Missouri's balanced budget.
- **Constitutional Protections for Human Traffickers:** The petition will allow for anyone to perform, or assist with, an abortion with no penalty, prosecution or adverse action for performing the abortion. This would result in Constitutional protections for child sex traffickers who impregnate their victims and coerce them into an abortion and would render ineffective Missouri law enforcement, prosecution and justice efforts tasked with upholding our Constitution and laws. The petition could hamper the Federal Government's efforts under The Trafficking Victims Protection Act of 2000 and other Federal laws and could result in sanctions from any Federal funding that Missouri would otherwise be eligible to receive.
- **Sex Changes, et. al, Funded With Public Tax Dollars:** The petition, under the guise of "The Right to Reproductive Freedom," will allow the funding of sex change surgeries, puberty blockers, hormone therapy and other "reproductive services" with public tax dollars. This would result in a massive fiscal impact to Missouri's balanced budget.

In summary, any fiscal note of the petition(s) should contain the following language and should also include the estimated fiscal net effects to the State of Missouri and its local government:

This initiative petition (a) will allow for abortions to be performed up until the moment of birth and possibly beyond, which would put Missouri in jeopardy of losing billions of dollars of Federal funding and create an unplanned strain on the state's General Revenue, Other and Local Funds as a result of abortion injuries, sanctions, litigation, loss of licensing fee/penalty revenues, and overloaded emergency rooms and healthcare facilities, (b) will put Missouri in violation of Federal conscience laws, which could result in a loss of billions of dollars of Federal funding and an increase of state and local government employee vacancies and litigation due to exercising their rights of conscience, (c) will allow for anyone to perform, or assist with, an abortion with no penalty, prosecution or adverse action for performing the abortion, thereby creating Constitutional protections for Human Traffickers which could result in a loss of Federal funding, and (d) will allow for the funding of abortions, sex change surgeries, puberty blockers, hormone therapy and other "reproductive services" with public tax dollars which would result in a massive fiscal impact to the State of Missouri and its local government budgets.

Sincerely,

A handwritten signature in black ink, appearing to read "Susan Klein". The signature is fluid and cursive, with the first name "Susan" and last name "Klein" clearly distinguishable.

Susan Klein
Executive Director
Missouri Right to Life

Samuel H. Lee, Campaign Life Missouri provided the following information:

Samuel Lee
Director

March 16, 2023

State Auditor's Office
State Capitol
201 West Capitol Ave.
Jefferson City, MO 65101

Dear Auditor Fitzpatrick,

In accordance with the provisions of [section 116.175](#), this is a proposed statement of the fiscal impact of the 11 initiative petitions numbered 24-077 through 24-087, which your office received on March 9, 2023.

To summarize, the proposed ballot measures – all of which would amend the Missouri Constitution – could result in:

- A decrease in federal Medicaid revenues by an unknown amount, up to \$12.5 billion annually.
- Increased costs to taxpayers of unknown amounts, because of medical treatment of, or other services for, children or adults injured by abortions, sex-change operations, genital mutilation or other unspecified “reproductive health care” performed by unlicensed or untrained persons.
- Increased costs of an unknown amount to the Department of Health and Senior Services for the inspection and licensing of thousands of abortion facilities.
- Loss of revenue of unknown amounts to the state and its political subdivisions, because of boycotts of businesses, shopping, tourism or other revenue-generating activities, as a result of Missouri becoming the Midwest’s “abortion destination” state.
- Long-term loss of revenues of unknown amounts to the state and its political subdivisions, because of a decrease in the workforce due to the number of children who are aborted before birth. Also, because of individuals who can no longer work after they become disabled as a result of unsafe abortions, sex-change operations, genital mutilation or other unspecified, unsafe “reproductive health care.” But more important than fiscal costs, the human cost to Missouri’s citizens is unimaginable.

Former-Auditor Galloway made a comparable analysis of the fiscal impacts when she issued her fiscal note and fiscal note summary on [HB 126 \(20-R001 on June 19, 2019\)](#) – the subject of a

referendum that year. Her fiscal note summary became part of the [official ballot title certified by Secretary of State on August 14, 2019](#), for the referendum on HB 126.

Supporting Information on Fiscal Impact of the 11 Initiative Petitions:

- The loss of federal Medicaid matching dollars, which in the proposed fiscal year 2024 budget **would be a loss of nearly \$12.5 billion**.
 - In FY 2023, Missouri lawmakers appropriated about \$16.9 billion for Medicaid (MO HealthNet) across state agencies. [The majority of Medicaid financing in 2023 – \\$10.6 billion – came from federal matching funds](#). The governor’s proposed budget for MO HealthNet for FY 2024 is nearly \$19.3 billion – [almost \\$12.5 billion which would come from federal funds](#).
 - The loss of federal Medicaid matching funds could occur if Missouri is out of compliance with federal Medicaid requirements, for example:
 - If the state cuts off Medicaid reimbursements to Catholic hospitals. This could be a result of the requirement in the initiative petitions that the “Government shall not deny or infringe upon a person’s fundamental right to reproductive freedom.” This might include the state requiring Medicaid providers to sterilize patients, dispense puberty blockers or remove sex organs during sex-change operations.
 - This might also include the state requiring hospitals to participate in the horrendous practice of genital mutilation, currently prohibited by state law under [section 568.065](#), and for which no defense is allowed for “a matter of custom, ritual or standard practice, or [by] consent to the conduct by the child.”
 - But because of the broad-based definition of “reproductive health care” in the 11 initiative petitions (“including but not limited to”), state courts could easily find that genital mutilation is constitutionally protected activity, and strike down existing law.
 - However, for the state government to require Catholic health care providers (or others) to provide these procedures, it would be a violation of their conscience rights – for which the federal government could withhold from the state, Medicaid matching dollars.
 - For example, in California in 2020, [HHS disallowed \\$200 million in federal Medicaid matching funds per quarter due to the state’s unlawful abortion insurance mandate](#), which forced a Catholic order of religious sisters and a non-profit Christian Church to provide abortion health insurance coverage. See also:
 - [“The Fight Over California’s Abortion Coverage Mandate,” Regulatory Review](#), February 3, 2021 (“Can a state require that all health plans offered to its residents cover elective abortions? The federal government thinks not, and the state of California is poised to lose at least \$200 million in Medicaid dollars because it insists that health plans in its state cover abortion services.”)

- [“Federal agency says UVM Med Center forced nurse to assist in abortion,” VT Digger](#), August 28, 2019 (“The U.S. Department of Health and Human Services has accused the University of Vermont Medical Center of forcing a nurse to assist in an abortion procedure despite the nurse’s religious objections. ... The [letter from Roger Severino](#), the director of HHS’ Office for Civil Rights, asks the hospital to adjust its policies or face losing the federal funding it receives from HHS.”)
- There might be additional circumstances where state compliance with at least some of the proposed constitutional amendments would force the state to be out of compliance with federal Medicaid law, such as the state paying for abortions (or other procedures) with federal funds that are not permitted to be reimbursed under federal law. For example, the state might be compelled by the terms of some of the initiative petitions to pay for all abortions for all Medicaid-eligible females, because failing to do so might “discriminate against persons” if the state is paying for the labor and delivery of children for all Medicaid-eligible females. In other words, under the state constitution, Missouri might no longer be [“permitted to enact persuasive measures which favor childbirth over abortion”](#) (*Planned Parenthood v. Casey*, 505 U.S. 833, 886 (1992)). Such non-compliance with federal Medicaid law might also apply to other broad-based, undefined “reproductive health care,” which the state might also be compelled to pay for.
- Under the initiative petitions, the “Government shall not discriminate against persons providing or obtaining reproductive health care or assisting another person in doing so.” “Nor shall any person assisting a person in exercising their right to reproductive freedom with that person’s consent be penalized, prosecuted, or otherwise subjected to adverse action for doing so.” Thus, ANY person of ANY age could legally provide, or assist another person in obtaining, an abortion, a sex-change operation, genital mutilation or other unspecified “reproductive health care.” **This could result in numerous, life-altering medical complications to the child or adult who underwent the “reproductive health care.”** Especially with abortion – particularly for abortions performed later in pregnancy – this could result in huge medical costs for her and her child **that are ultimately paid for by taxpayers.**
 - Regarding abortion, in Missouri, the [cost of inpatient medical procedures and emergency department services for treating “issues before childbirth with complications”](#) is a **median charge per person of \$11,977** – with a minimum charges of \$4,140 and a **maximum charge of \$35,345.**
 - And the cost could be even higher for an abortion-related ER visit. [One recent study](#) found that a “[p]atient concealment and/or physician failure to identify a prior abortion during an ER visit is a significant risk factor for a subsequent hospital admission.” In fact, “[c]hemical abortion patients whose abortions are misclassified

- as miscarriages during an ER visit subsequently experience on average 3.2 hospital admissions within 30 days. 86% of the patients ultimately have surgical removal of retained products of conception (RPOC).”
- According to the CDC, in 2020, nearly 10,000 Missouri residents obtained abortions ([9,980 total, but only 167 within the state](#)). Having unlicensed, non-medical personnel permitted to perform or induce abortions within the state on even a fraction of these 10,000 girls or women could result in untold harm to them now – and harm to their future health and fertility.
 - And there might be additional costs to the state or political subdivisions beyond treating the complications to girls or women from being provided abortions by non-physicians or even non-medical personnel. Any low-birthweight infant born alive after a late-term abortion could need long-term NICU care and possibly permanent assistance throughout childhood and during his or her adult life.
 - According to a [2020 New York Times story](#): “The March of Dimes estimates that the average societal cost of each preterm birth, which includes medical care, early intervention services and lost productivity, is \$65,000.”
 - That same story reported on a cost of \$4 million in NICU costs for triplets who were born prematurely.
 - [Preterm birth lifetime costs in the United States](#) (as of 2016) were “estimated to be \$25.2 billion: \$17.1 billion for medical care of persons born preterm, \$2.0 billion for delivery care, \$1.3 billion for early intervention and special education, and \$4.8 billion in lost productivity due to associated disabilities in adults.”
- **Other costs could be the licensing and inspection of multiple locations (potentially thousands of sites) as “abortion facilities,” as required under Missouri law.** This is because [section 197.205](#) requires that no person or governmental unit shall establish, conduct or maintain an abortion facility in the state without a license issued by the Missouri Department of Health and Senior Services (DHSS).
 - [Section 188.015](#) defines an “abortion facility” as “a clinic, physician’s office, or any other place or facility in which abortions are performed or induced other than a hospital”.
 - [Section 197.230](#) states that “[i]n the case of any abortion facility, the department [of health and senior services (DHSS)] shall make or cause to be made an unannounced on-site inspection and investigation at least annually.” Such on-site inspections and investigations must include a variety of areas relating to staffing and equipment to respond to medical emergencies, compliance with Missouri’s abortion laws and the requirement that continuous physician services or registered professional nursing services are to be provided whenever a patient is in the facility.
 - There are [more than 7,000 licensed pharmacists in Missouri](#), and under the proposed constitutional amendment, any pharmacy (or other place) where a pharmacist provides abortion pills, DHSS would be required to inspect and license. **This would**

be an enormous cost to the department and to taxpayers. And any other place where abortion pills would be provided (homes, schools, vending machines, doctor's offices, clinics, etc.) would also have to be inspected at least once a year and licensed.

- **Economic boycotts of Missouri and its businesses could result if the “Show-Me” state becomes the “Abort-Me” state, once it is transformed into the Midwest’s “abortion destination” – a distinct possibility since Missouri is “within a day’s reach of half of U.S. households”.**
 - Just as some pro-abortion advocates in other states are promoting boycotts of states like Missouri that currently protect unborn children from abortion, pro-life advocates in other states might boycott by no longer purchasing from Missouri businesses, or engaging in travel, tourism or shopping in Missouri. How tragic that would be for Missouri, which has been described as one of the top pro-life states in the country.
 - Some “red” states have been prohibiting or attempting to prohibit their governmental entities from doing business with financial firms in other states that take environmental, social and corporate governance (ESG) into consideration, and those same states and additional ones might extend that to any “abortion destination” state – which is what Missouri could become if any one of the 11 initiative petitions is enacted into law.
 - “Missouri tourism provides a \$13.5 billion economic impact that creates more than 257,000 jobs in the state,” according to the Missouri Division of Tourism. It could be a devastating loss to the state and its residents if Missouri became the abortion capital of the Midwest.
- By some estimates, the economic cost to the U.S. of abortion in 2019 – due to the loss of nearly 630,000 unborn lives – was at least \$6.9 trillion, or 32 percent of GDP. **Missouri could experience increased economic loss if the number of abortions increases in the state.** And unsafe, legal abortions in the state could result in the disability of countless women who – perhaps permanently – would be unable to enter or remain in the workforce.
 - According to a June 15, 2022 report of the Joint Economic Committee – Congressional Republicans *The Economic Cost of Abortion* – the economic cost of an abortion due to the loss of unborn lives is 425 times larger than the earnings loss mothers could be expected to incur when having a child.”
 - According to a key finding in the report: “In the long run, abortion shrinks the labor force, stunts innovation, and limits economic growth. It also weakens the solvency of social insurance programs like Social Security and Medicare that rely on workers to support a growing elderly population.”
 - And as the International Planned Parenthood Federation has noted: “**Unsafe abortions** are performed by un- or under-trained providers ... It is possible to have an unsafe, legal abortion.” (underlining added)

- Under the initiative petitions, “any person assisting a person in exercising their right to reproductive freedom” shall not “be penalized, prosecuted, or otherwise subjected to adverse action for doing so.” Thus, unlicensed, untrained persons of ANY age could perform unsafe, legal abortions or other “reproductive health care,” and the “Government shall not discriminate against persons ... in doing so.” While the economic cost of this policy is incalculable, more important and horrifying, the human cost to Missouri’s citizens is unimaginable.

Auditor Fitzpatrick, if we can be of further assistance, please do not hesitate to contact us.

David C. Drury, Attorney at Law provided the following information:

Dear Auditor Fitzpatrick:

I am a licensed attorney in the St. Louis Metropolitan area who has practiced law here for the last fifty years.

Eleven similar proposals to destroy major Missouri laws which have existed for decades are being suggested by petition numbers 2024-077 to 2024-087.

As you are aware, section 116.175 et al requires that a fiscal note and fiscal note summary state a measure's estimated cost or savings to any state or local governmental entity. In general, a strong fiscal outlook is an essential foundation for a growing, thriving economy. The gap between income and spending is subsequently closed by government borrowing, something to ideally be avoided. Moreover, voters, especially in this conservative state, should be informed and educated of the costs of measures so radical they reverse and erase in one fell swoop the studied product of elected representatives. Indeed, the cost of a proposal may be the reason a voter decides against it.

As commented, the above proposals, although different in some respects, all contain much identical language. For example, the Preamble and first three numbered paragraphs (except 077 uses the word "entails" in line 2 or paragraph 2) are the same. All contain a "discrimination" paragraph, a "severability clause, and the definitions of "Government" are copied throughout. Other deletions or additions to the submissions do not detract from the fact that multiple unfavorable fiscal consequences will result if passage of any happens. So, I feel it is fair to say that these comments relate to each and every variation, rather than to repeat the same points one by one, over and over.

Another observation about which no one can reasonably disagree is that these are extremely broad, and being so broad are vague and ambiguous. Applications can be to an expansive variety of situations, all at costs to the state and local governmental agencies. This is especially the case in light of the present political structure of the federal government, and of course many federal monies flow to the State of Missouri. Another way of saying this, although a somewhat different point, is the potential, actually a likelihood, that direction of funding can be "weaponized", so state laws conform to federal ones. Thus, the state of Missouri is "fiscally" affected. The federal government and the states do not exist as if there is a wall in between. Money flows back and forth, and thus a state can easily be targeted and penalized by federal legislative and executive actions.

Most recently as this week President Biden proclaimed that it was "cruel" and "close to sinful" for Florida to ban subjecting children to sex-change procedures. (Not to subject the children, but to ban subjecting the children)! The aforesaid ballot proposals insist that the "right to reproductive freedom" shall not be denied, interfered with, delayed, or otherwise restricted, and governmental action should be deemed invalid. The ballot also uses language in paragraph 2 of all versions the clause "not limited to". It would thus appear that the subject of sex-change procedures, is included. Similarly, some of the

suggested versions require no parental or guardian consent whatsoever, and others only superficially address the subject with a sure-fire exception that a health care professional (not even a treating physician) can approve an abortion without consent if he/she thinks that getting consent may lead to emotional harm to the minor. All of the proposals do not even require that a physician is necessary to provide medical care. In fact you don't even need any license. Medical malpractice will automatically result. The harm to patients for this poor care, and the cost to the State for care of these patients will be an adverse fiscal result.

All of the above circumstances, would lead responsible hospitals and medical care providers to practice their profession with higher and different standards. And so they would refuse to abide by the above random, and harmful, provisions. Next, we come to the subject of "who is going to pay the bill"? Medicaid, as we know, pays an enormous amount of medical charges. Hospitals and doctors get reimbursed by the State, but the State must comply with federal law. If a State fails to follow the law, for the federal portion, which is over half, it may not get reimbursed. The State suffers fiscally. My numbers are that the State of Missouri receives 12.5 billion in federal Medicaid money.

What if, for example, Cardinal Glennon Hospital in St. Louis refused to perform sex change surgery on a minor, with or without parental consent, in its hospital? It is against its religious beliefs, among many other reasons. Can the hospital be denied Medicaid funds? The text of the proposals require such. The President has just declared that refusing to perform this is "cruel". If the State foots the bill and does not get reimbursed from the federal government, this is a fiscal loss.

Is medical insurance required to pay for "reproductive health care"? If so, these are expensive fiscal consequences of the proposals.

The proposals also yield enormous costs to the State in situations where persons or institutions refuse care against their medical "standard of care" but do not even require a license (creating a breeding ground for malpractice, and all of the expenses that come with it). With Medicaid, the state pays part of the bill, but may not get reimbursed the rest if the proposed bill is not followed. What about the "religious beliefs" of medical care providers. If, for example, Catholic hospitals are penalized, the State of Missouri could also be "fiscally" penalized.

What about the issue of prescribing pills to induce abortion---chemical abortion? Do these proposals mean that all care providers must not deny, restrict, or delay this form of abortion? Is the "government" discriminating against patients by not requiring care providers including pharmacists to dispense the pills? Can they be penalized by withholding of Medicaid payments?

The issue of federal Medicaid funds being disallowed has come up before. In December 2020 HHS and OCR announced that \$200 million in federal Medicaid funds going to California in the upcoming quarter were being denied. This was due to the state illegally mandating that all health care plans subject to regulation by the California Department

of Managed Health Care cover abortion without exclusion or limitation. Furthermore, if California did not come into compliance, additional disallowances would be imposed at a rate of \$200 million per quarter. In a Vermont case, receipt of federal funds because of discrimination against an employee who refused to participate in abortions was threatened. I mention this because of the potential fiscal effect on the State of Missouri if one of these proposals was passed.

So as not to overlook the obvious, the proposals if passed would surely make abortions easier in this state, depriving the state of countless future taxpaying citizens. These persons, if allowed to live, would work, create and staff businesses, produce products, and in general contribute to the economy. A growing population encourages others to move here which in turn results in additional fiscal activity. And, although much of the above addresses Medicaid costs, since fewer workers will be around to contribute to the Medicare system, this system will be under fiscal stress also.

These are only some of the immediate, short-term, and permanent unfortunate fiscal consequences to State and local government if any of the proposals pass.

Thank you for considering this information.

**Rachel U. Greszler, Senior Research Fellow in Economics, Budgets, and Entitlements,
The Heritage Foundation** provided the following information:

Date: March 17, 2023

State Auditor's Office
State Capitol
201 West Capitol Ave.
Jefferson City, MO 65101

Dear Auditor Fitzpatrick,

Per Missouri's [fiscal impact](#) provisions, I have prepared the below fiscal note comments on the proposed ballot initiative "A Constitutional Amendment Concerning the Regulation of Abortion" as submitted to your office on March 9, 2023 as initiative petitions 24-077 through 24-087. My comments are my own and should not be construed as representing any official position of the Heritage Foundation.

Missouri is considering laws that would make abortion legal and easily accessible. The State should not take that step, simply because it would result in the death of thousands of innocent human beings. I offer this fiscal note to provide additional reasons that might persuade those who wrongly doubt that unborn human babies are persons.

By significantly reducing the number of births in the state, these laws would reduce the state's population growth and generate short- and long-term impacts on the state's output and its government finances. Abortion laws could also impact individuals' and families' personal finances, health, and wellbeing in ways that affect states revenues and expenses.

Population growth and economic growth go hand in hand so long as the necessary resources and infrastructure are in place to support that growth. Those resources and infrastructure are in place and the U.S. faces an unprecedented labor shortage. Recent declines in fertility rates threaten to reduce population growth and current and future economic growth. Moreover, government debt has created a situation in which the future wellbeing of current residents is dependent upon a growing population and workforce to pay for current debts and for unfunded obligations promised to retirees.

Since 2007, the [total fertility rate](#) in the U.S. declined from 2.11 births per woman (right at replacement rate) to just 1.66 births per woman in 2021. Missouri's total fertility rate declined from 2.08 in 2007 to 1.60 in 2021.

Compared to current law (in which abortion is illegal in Missouri except in instances in which the woman's life is in danger or her health is severely compromised), the proposed laws could

lead to an additional [2,000 to 9,000 abortions per year](#) in Missouri, depending on how expansive abortion access would become.¹ Based on population projections from the Census Bureau, and assuming a one-for-one correlation between increased abortions and reduced population, the proposed abortion laws could reduce Missouri's projected population by 0.3 percent to 1.4 percent over the next 10 years and by 0.6 percent to 2.7 percent over the next 20 years.

The state needs to consider the following potential effects of abortion-induced population decline in its impact analysis:

A reduced labor force. Fewer births and a smaller population means a smaller future labor force. While proponents of abortion make the economic case that abortion enables women to work and earn more, the additional measurable work and earnings of women as a result of having an abortion is miniscule compared to the potential lifetime work and earnings of another human being. Moreover, while having a child can reduce mothers' work and earnings, it tends to increase fathers' work and earnings—a factor that is ignored in abortion advocates economic claims.

Healthcare strain. Already, the U.S. faces [serious shortages](#) of healthcare workers and the population is continuing to age. Young people (those who would be aborted over the coming decades as a result of the proposed laws) consume very little healthcare, and as they reach working age, they are net providers of healthcare. This means the proposed laws could exacerbate healthcare worker shortages, limit Missourians' [access to healthcare](#), and potentially drive up the state's [healthcare costs](#) as shortages lead to higher prices. With Medicaid being Missouri's largest budgetary item (in FY 2022, Missouri's Medicaid spending was 74 percent greater than its K-12 education spending), and the state being limited by the federal government in its ability to reduce Medicaid spending, higher healthcare costs could impose significant budget constraints.

Reduced tax revenues. In the immediate future, fewer children born in Missouri could reduce sales and real estate tax revenues because households with children spend more and tend to live in higher-value housing. While the income tax revenues of women who have children could be lower if they work less after having children, the work and [earnings of men](#) tend to rise after they have children. In the decades following increased abortions, the absence of potentially tens of thousands of workers would lead to reduced income tax revenues. Although some state expenses are proportional to the number of residents and would decline over time, many expenses are not, and declining revenues would necessitate higher taxes or spending cuts.

Exacerbated unfunded pensions and other post-employment benefits. Depending on different assumptions and risk levels, Missouri has between [\\$36 billion](#) and [\\$171 billion](#) in unfunded pension and [other post-employment benefits](#). That is money that has already been promised to public sector workers and retirees, but which has not been set aside to provide those benefits. The American Legislative Exchange Council estimates that Missouri's unfunded pension liabilities alone amount to [\\$26,965 per capita](#) in 2021, and these unfunded liabilities are

¹ Estimated increase based on the number of abortions in Missouri, as reported by the [Missouri Department of Health and Senior Services](#) and the [Guttmacher Institute](#), reporting roughly 9,000 abortions around 2000-2001 and about 2,000 abortions around 2020-2021.

continuing to grow. The fewer people Missouri has, the larger the per-capita liabilities become, and the harder it will be to raise taxes on workers and employers without them moving to other states. Among many consequences, [economic analysis](#) shows that unfunded pension obligations lead to lower real estate values, which would reduce property tax revenues.

Conclusion

It is an unquestionable fact that the U.S. Constitution requires all state and local governments to uphold Americans' most fundamental natural rights, including that of the right to life. Not counting unborn humans as living beings and treating abortion as an exercise in economic eugenics is an assault on these rights and values.

Even then, the fiscal and economic perspectives of abortion advocates are lacking sufficient economic rigor. I offer this fiscal analysis that provides good reasons to reject the proposed amendments on premises that abortion advocates may be able to accept.

The proposed laws to legalize and expand abortion access in Missouri warrant a properly conducted fiscal analysis. As a part of the debate, policymakers must consider how increased abortions will affect Missouri's population, workforce, fundamental services such as healthcare, the states tax revenues and expenditures, and Missouri's ability to make good on its unfunded pension and other post-employment benefit obligations.

Respectfully,

Rachel U. Greszler
Senior Research Fellow in Economics, Budgets, and Entitlements
The Heritage Foundation

**The Heritage Foundation is a public policy, research, and educational organization recognized as exempt under section 501(c)(3) of the Internal Revenue Code. It is privately supported and receives no funds from any government at any level, nor does it perform any government or other contract work.

The Heritage Foundation is the most broadly supported think tank in the United States. During 2020, it had hundreds of thousands of individual, foundation, and corporate supporters representing every state in the U.S. Its 2020 operating income came from the following sources:

Individuals 66%

Foundations 18%

Corporations 2%

Program revenue and other income 14%

The top five corporate givers provided The Heritage Foundation with **1% of its 2020 income**. The Heritage Foundation's books are audited annually by the national accounting firm of RSM US, LLP.

Members of The Heritage Foundation staff testify and comment as individuals discussing their own independent research. The views expressed are their own and do not reflect an institutional position of The Heritage Foundation or its board of trustees.

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County, the City of Cape Girardeau, the City of Columbia, , the City of Joplin, the City of Kirksville, the City of Mexico, the City of Raymore, the City of St. Joseph, the City of St. Louis, the City of Springfield, the City of Union, the City of Wentzville, the City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, and the University of Missouri.**

Fiscal Note Summary

State governmental entities estimate no costs or savings, but unknown impact. Local governmental entities estimate costs of at least \$51,000 annually in reduced tax revenues. Opponents estimate a potentially significant loss to state revenue.

RE: Petition approval request from Anna Fitz-James regarding a proposed constitutional amendment to Article I, version 6 (2024-082)

Dear Auditor Fitzpatrick:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Anna Fitz-James on March 8, 2023.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

NOTICE: The proposed amendment revises Article I of the Constitution by adopting one new Section to be known as Article I, Section 36.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article I of the Constitution is revised by adopting one new Section to be known as Article I, Section 36 to read as follows:

Section 36. 1. This Section shall be known as “The Right to Reproductive Freedom Initiative.”

2. The Government shall not deny or infringe upon a person’s fundamental right to reproductive freedom, which is the right to make and carry out decisions about all matters relating to reproductive health care, including but not limited to prenatal care, childbirth, postpartum care, birth control, abortion care, miscarriage care, and respectful birthing conditions.

3. The right to reproductive freedom shall not be denied, interfered with, delayed, or otherwise restricted unless the Government demonstrates that such action is justified by a compelling governmental interest achieved by the least restrictive means. Any denial, interference, delay, or restriction of the right to reproductive freedom shall be presumed invalid. For purposes of this Section, a governmental interest is compelling only if it is for the limited purpose and has the limited effect of improving or maintaining the health of a person seeking care, is consistent with widely accepted clinical standards of practice and evidence-based medicine, and does not infringe on that person’s autonomous decision-making.

4. Notwithstanding subsection 3 of this Section, the general assembly may enact laws that regulate the provision of abortion after 24 weeks of gestation, as measured from the first day of the patient’s last menstrual period consistent with accepted clinical standards, provided that under no circumstance shall the Government deny, interfere with, delay, or otherwise restrict an abortion that, in the good faith judgment of a treating health care professional, is needed to protect the life or physical or mental health of the pregnant person or is of a nonviable pregnancy.

5. No person shall be penalized, prosecuted, or otherwise subjected to adverse action based on their actual, potential, perceived, or alleged pregnancy outcomes, including but not limited to miscarriage, stillbirth, or abortion. Nor shall any person assisting a person in exercising their right to reproductive freedom with that person’s consent be penalized, prosecuted, or otherwise subjected to adverse action for doing so.

6. The Government shall not discriminate against persons providing or obtaining reproductive health care or assisting another person in doing so.

7. If any provision of this Section or the application thereof to anyone or to any circumstance is held invalid, the remainder of those provisions and the application of such provisions to others or other circumstances shall not be affected thereby.

8. For purposes of this Section, the term “Government” means:

(1) the state of Missouri; or

(2) any municipality, city, town, village, township, district, authority, public subdivision or public corporation having the power to tax or regulate, or any portion of two or more such entities within the state of Missouri.

**MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (24-082)**

Subject

Initiative petition from Anna Fitz-James regarding a proposed constitutional amendment to Article I. (Received March 9, 2023)

Date

March 29, 2023

Description

This proposal would amend Article I of the Missouri Constitution.

The amendment is to be voted on in November 2024.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office**, the **Department of Agriculture**, the **Department of Economic Development**, the **Department of Elementary and Secondary Education**, the **Department of Higher Education and Workforce Development**, the **Department of Health and Senior Services**, the **Department of Commerce and Insurance**, the **Department of Mental Health**, the **Department of Natural Resources**, the **Department of Corrections**, the **Department of Labor and Industrial Relations**, the **Department of Revenue**, the **Department of Public Safety**, the **Missouri Department of the National Guard**, the **Department of Social Services**, the **Governor's office**, the **Missouri House of Representatives**, the **Department of Conservation**, the **Department of Transportation**, the **Office of Administration**, the **Office of State Courts Administrator**, the **Missouri Senate**, the **Secretary of State's office**, the **Office of the State Public Defender**, the **State Treasurer's office**, **Adair County**, **Boone County**, **Callaway County**, **Cass County**, **Clay County**, **Cole County**, **Greene County**, **Jackson County**, **Jasper County**, **St. Charles County**, **St. Louis County**, **Taney County**, the **City of Cape Girardeau**, the **City of Columbia**, the **City of Jefferson**, the **City of Joplin**, the **City of Kansas City**, the **City of Kirksville**, the **City of Mexico**, the **City of Raymore**, the **City of St. Joseph**, the **City of St. Louis**, the **City of Springfield**, the **City of Union**, the **City of Wentzville**, the **City of West Plains**, **Cape Girardeau 63 School District**, **Hannibal 60 School District**, **Malta Bend R-V School District**, **Mehlville School District**, **Wellsville-Middletown R-1 School District**, **State Technical College of Missouri**, **Metropolitan Community College**, **University of Missouri**, and **St. Louis Community College**.

Susan Klein, Executive Director, Missouri Right to Life provided information to the State Auditor's office.

Samuel H. Lee, Campaign Life Missouri provided information to the State Auditor's office.

David C. Drury, Attorney at Law provided information to the State Auditor's office.

Rachel U. Greszler, Senior Research Fellow in Economics, Budgets and Entitlements, The Heritage Foundation provided information to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no impact.

Officials from the **Department of Economic Development** indicated no fiscal impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated they have reviewed initiative petition 24-082 and determined there is no fiscal impact to their agency.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated changes to the bill are as follows:

Initiative petition 24-082 is identical to 24-077 with the following exceptions:

Adds new Section 36.4, which states "Notwithstanding subsection 3 of this Section, the general assembly may enact laws that regulate the provision of abortion after 24 weeks of gestation, as measured from the first day of the patient's last menstrual period consistent with accepted clinical standards, provided that under no circumstance shall the Government deny, burden, or otherwise restrict an abortion that, in the good faith judgement of a treating health care professional, is needed to protect the life or physical or mental health of the pregnant person or is of a nonviable pregnancy."

Removes Section 36.6, which states "Nothing in this Section requires government funding of abortion procedures other than as required by federal law."

Comments:

The fiscal impact for 24-082 is the same as the fiscal impact for 24-077 and is as follows:

- FY 2024 General Revenue: (\$0 to Unknown)
- FY 2025 General Revenue: (\$0 to Unknown)
- FY 2026 General Revenue: (\$0 to Unknown)

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no anticipated cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipate no fiscal impact for this initiative petition proposing to amend Article I.

Officials from the **Department of Revenue** indicated the initiative petition does not have an impact on their department.

Officials from the **Department of Public Safety** indicated no impact for their department, Director's office.

Officials from the **Missouri Department of the National Guard** indicated no fiscal impact to their department.

Officials from the **Department of Social Services** indicated they do not anticipate a fiscal impact.

Officials from the **Governor's office** indicated this proposal relating to reproductive issues does not financially impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated Initiative Petition 24-082 has no anticipated fiscal impact on their department.

Officials from the **Department of Transportation** indicated no fiscal impact expected for their department or the Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal relating to reproductive issues will not financially impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be \$10 million based on the cost of the 2022 primary and general election reimbursements.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

For the FY22 petitions cycle, their office estimates publication costs at \$70,000 per page. This amount is subject to change based on number of petitions received, length of those petitions and rates charged by newspaper publishers.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition has no fiscal impact on their office.

Officials from the **State Treasurer's office** indicated no fiscal impact to their office is anticipated.

Officials from **Clay County** indicated they estimate no fiscal impact as a result of this initiative.

Officials from **Greene County** indicated in reviewing initiative petition 24-082 it has been determined there will be an increased cost to the County of Greene due to loss of tax revenue if voters vote to amend Article I.

The Missouri Department of Health & Senior Services recorded 135 "resident abortions" for Greene County in 2020 and 118 in 2021. The population of Greene County per the 2020 United States census was 298,915. (<https://www.census.gov/quickfacts/fact/table/greene-county-missouri/PST045221>)

In terms of economic impact, Greene County received \$112,673,249 in sales and property taxes for calendar year 2022 (**\$376.94** per capita based on **2020** census data). Accordingly, calculations from these figures indicate an annual loss in population of **135** represents a cost to the County of **\$50,886.90**; an increase in abortion statistics could reasonably be extrapolated to illustrate less tax collections and revenues over the years of potential working lifetimes.

Please see the attached table demonstrating the anticipated yearly on per capita basis and the overall fiscal impact on Greene County tax collections and revenues based on the recorded abortions in 2020 by Missouri Department of Health and Senior Services.

Additional research regarding the broader fiscal impact of lower fertility rates on local and state communities and government budgets may be found here:

Annual Cost	50,886.90

Officials from **St. Louis County** indicated this has no fiscal impact on their county.

Officials from the **City of Jefferson City** indicated they do not think there would be a direct fiscal impact to the City of Jefferson imposed by Initiative Petition 24-082 proposing to amend Article I. There could be an indirect fiscal impact resulting from increased lawsuits related to violations of the act.

Officials from the **City of Kansas City** indicated this proposed amendment would have no fiscal impact on their city.

Officials from **Metropolitan Community College** indicated no fiscal impact.

Officials from the **St. Louis Community College** indicated they have reviewed the initiative petition and believe the initiative would have no direct cost or revenue impact.

March 15, 2023

Office of the Missouri State Auditor
The Honorable Scott Fitzpatrick
301 West High Street, Room 880
Jefferson City, MO 65102

Dear Auditor Fitzpatrick,

On behalf of the Members, Board and Staff of Missouri Right to Life, I submit to you our comments for consideration and inclusion in the fiscal note you will be preparing regarding the effects to the State of Missouri and its Local Governments of Initiative Petition(s) 2024-077 through 2024-087.

The Petitions Would Create Devastating Impacts for Missouri's Budget:

On March 8, 2023, 11 proposed initiative petitions (2024-077 through 2024-087) were filed with the Missouri Secretary of State's Office by Anna Fitz-James for a campaign committee called "Missourians for Constitutional Freedom." While each initiative petition has some slight variations, they are all identical in their purpose and their fiscal effects to General Revenue, Federal Funds, and Other Funds received by the State of Missouri and the impact to local governments.

The fiscal effects of some of the impacts of the petition(s) follow:

- **Abortion Injuries, Sanctions, Litigation and Loss of Federal Funding:** The petition will allow for abortions to be performed up until the moment of birth and possibly beyond. In addition to the loss of the life of the unborn child and the ending of his or her priceless contributions to our state and society, surgical and chemical abortions have risks and complications to the health of the mother. The cost impacts of surgical and medical abortion physical injuries would result in a devastating impact to Missouri's balanced budget due to an expansion of costs for Missouri's state and Federally-funded healthcare programs. In addition, women endure emotional trauma after an abortion. A massive increase in funding for mental health services would be required. Under current Federal law, states are barred from using Federal funds to pay for abortions except in limited cases (the Hyde Amendment). Federal funding could be in jeopardy and Missouri could be subject to the risk of litigation and sanctions, including the possibility of deferral or disallowance of federal financial participation in Missouri's Medicaid program. In 2019, more than \$7.2 billion in Federal funds were budgeted for Mo HealthNet services (Department of Social Services, Department of Mental Health, and Department of Health and Senior Services). The loss of these funds would be devastating to Missouri.

- **Loss of Licensing Fee Revenues/Penalties:** The petition will allow for anyone to perform an abortion with no penalty, prosecution or adverse action for performing the abortion. An abortion provider would no longer have a reason to maintain his or her license with the State of Missouri (and anyone who chose to perform an abortion would be protected under the Constitution to do so without any regulations or consequences). Missouri laws and regulations would be nullified, and licensing fees normally collected would decline.
- **Rural Hospitals Impacted:** Rural hospitals are already struggling. The petition will allow anyone to perform an abortion with no penalty, prosecution or regulation, and will result in a skyrocketing number of women injured by abortion who will need emergency services, flooding Emergency Rooms and health clinics and limiting or delaying access to emergency healthcare services needed by other individuals. This will result in a fiscal impact to the state. The state will also experience a fiscal impact through staff shortages as abortion-injured state employees seek medical care, surgery and recovery time off work to manage complications of abortion.
- **Missouri Could Face a Budgetary Crisis Due to Loss of Federal Funding from Violating Federal Conscience Laws:** The petition will force Missouri to be out of compliance with Federal conscience laws. This could result in the loss of billions of dollars of Federal funding, litigation and sanctions. If the Federal Government sanctions Missouri due to these violations, this will be devastating and create a budgetary crisis in Missouri. The state will also experience a fiscal impact through staff shortages as state employees flee state jobs where they feel their conscience is violated due to being forced to assist with an abortion.
- **Abortions Funded With Public Tax Dollars:** The petition will allow for the funding of abortions with public tax dollars. The language does not prohibit government funding of abortion procedures or of abortion providers. This would result in a massive fiscal impact to Missouri's balanced budget.
- **Constitutional Protections for Human Traffickers:** The petition will allow for anyone to perform, or assist with, an abortion with no penalty, prosecution or adverse action for performing the abortion. This would result in Constitutional protections for child sex traffickers who impregnate their victims and coerce them into an abortion and would render ineffective Missouri law enforcement, prosecution and justice efforts tasked with upholding our Constitution and laws. The petition could hamper the Federal Government's efforts under The Trafficking Victims Protection Act of 2000 and other Federal laws and could result in sanctions from any Federal funding that Missouri would otherwise be eligible to receive.
- **Sex Changes, et. al, Funded With Public Tax Dollars:** The petition, under the guise of "The Right to Reproductive Freedom," will allow the funding of sex change surgeries, puberty blockers, hormone therapy and other "reproductive services" with public tax dollars. This would result in a massive fiscal impact to Missouri's balanced budget.

In summary, any fiscal note of the petition(s) should contain the following language and should also include the estimated fiscal net effects to the State of Missouri and its local government:

This initiative petition (a) will allow for abortions to be performed up until the moment of birth and possibly beyond, which would put Missouri in jeopardy of losing billions of dollars of Federal funding and create an unplanned strain on the state's General Revenue, Other and Local Funds as a result of abortion injuries, sanctions, litigation, loss of licensing fee/penalty revenues, and overloaded emergency rooms and healthcare facilities, (b) will put Missouri in violation of Federal conscience laws, which could result in a loss of billions of dollars of Federal funding and an increase of state and local government employee vacancies and litigation due to exercising their rights of conscience, (c) will allow for anyone to perform, or assist with, an abortion with no penalty, prosecution or adverse action for performing the abortion, thereby creating Constitutional protections for Human Traffickers which could result in a loss of Federal funding, and (d) will allow for the funding of abortions, sex change surgeries, puberty blockers, hormone therapy and other "reproductive services" with public tax dollars which would result in a massive fiscal impact to the State of Missouri and its local government budgets.

Sincerely,

A handwritten signature in cursive script that reads "Susan Klein". The signature is written in dark ink and is positioned above the printed name and title.

State Auditor's Office
State Capitol
201 West Capitol Ave.
Jefferson City, MO 65101

Dear Auditor Fitzpatrick,

In accordance with the provisions of [section 116.175](#), this is a proposed statement of the fiscal impact of the 11 initiative petitions numbered 24-077 through 24-087, which your office received on March 9, 2023.

To summarize, the proposed ballot measures – all of which would amend the Missouri Constitution – could result in:

- A decrease in federal Medicaid revenues by an unknown amount, up to \$12.5 billion annually.
- Increased costs to taxpayers of unknown amounts, because of medical treatment of, or other services for, children or adults injured by abortions, sex-change operations, genital mutilation or other unspecified “reproductive health care” performed by unlicensed or untrained persons.
- Increased costs of an unknown amount to the Department of Health and Senior Services for the inspection and licensing of thousands of abortion facilities.
- Loss of revenue of unknown amounts to the state and its political subdivisions, because of boycotts of businesses, shopping, tourism or other revenue-generating activities, as a result of Missouri becoming the Midwest’s “abortion destination” state.
- Long-term loss of revenues of unknown amounts to the state and its political subdivisions, because of a decrease in the workforce due to the number of children who are aborted before birth. Also, because of individuals who can no longer work after they become disabled as a result of unsafe abortions, sex-change operations, genital mutilation or other unspecified, unsafe “reproductive health care.” But more important than fiscal costs, the human cost to Missouri’s citizens is unimaginable.

Former-Auditor Galloway made a comparable analysis of the fiscal impacts when she issued her fiscal note and fiscal note summary on [HB 126 \(20-R001 on June 19, 2019\)](#) – the subject of a

referendum that year. Her fiscal note summary became part of the [official ballot title certified by Secretary of State on August 14, 2019](#), for the referendum on HB 126.

Supporting Information on Fiscal Impact of the 11 Initiative Petitions:

- The loss of federal Medicaid matching dollars, which in the proposed fiscal year 2024 budget **would be a loss of nearly \$12.5 billion**.
 - In FY 2023, Missouri lawmakers appropriated about \$16.9 billion for Medicaid (MO HealthNet) across state agencies. [The majority of Medicaid financing in 2023 – \\$10.6 billion – came from federal matching funds](#). The governor’s proposed budget for MO HealthNet for FY 2024 is nearly \$19.3 billion – [almost \\$12.5 billion which would come from federal funds](#).
 - The loss of federal Medicaid matching funds could occur if Missouri is out of compliance with federal Medicaid requirements, for example:
 - If the state cuts off Medicaid reimbursements to Catholic hospitals. This could be a result of the requirement in the initiative petitions that the “Government shall not deny or infringe upon a person’s fundamental right to reproductive freedom.” This might include the state requiring Medicaid providers to sterilize patients, dispense puberty blockers or remove sex organs during sex-change operations.
 - This might also include the state requiring hospitals to participate in the horrendous practice of genital mutilation, currently prohibited by state law under [section 568.065](#), and for which no defense is allowed for “a matter of custom, ritual or standard practice, or [by] consent to the conduct by the child.”
 - But because of the broad-based definition of “reproductive health care” in the 11 initiative petitions (“including but not limited to”), state courts could easily find that genital mutilation is constitutionally protected activity, and strike down existing law.
 - However, for the state government to require Catholic health care providers (or others) to provide these procedures, it would be a violation of their conscience rights – for which the federal government could withhold from the state, Medicaid matching dollars.
 - For example, in California in 2020, [HHS disallowed \\$200 million in federal Medicaid matching funds per quarter due to the state’s unlawful abortion insurance mandate](#), which forced a Catholic order of religious sisters and a non-profit Christian Church to provide abortion health insurance coverage. See also:
 - [“The Fight Over California’s Abortion Coverage Mandate,” Regulatory Review](#), February 3, 2021 (“Can a state require that all health plans offered to its residents cover elective abortions? The federal government thinks not, and the state of California is poised to lose at least \$200 million in Medicaid dollars because it insists that health plans in its state cover abortion services.”)

- [“Federal agency says UVM Med Center forced nurse to assist in abortion,” VT Digger](#), August 28, 2019 (“The U.S. Department of Health and Human Services has accused the University of Vermont Medical Center of forcing a nurse to assist in an abortion procedure despite the nurse’s religious objections. ... The [letter from Roger Severino](#), the director of HHS’ Office for Civil Rights, asks the hospital to adjust its policies or face losing the federal funding it receives from HHS.”)
- There might be additional circumstances where state compliance with at least some of the proposed constitutional amendments would force the state to be out of compliance with federal Medicaid law, such as the state paying for abortions (or other procedures) with federal funds that are not permitted to be reimbursed under federal law. For example, the state might be compelled by the terms of some of the initiative petitions to pay for all abortions for all Medicaid-eligible females, because failing to do so might “discriminate against persons” if the state is paying for the labor and delivery of children for all Medicaid-eligible females. In other words, under the state constitution, Missouri might no longer be [“permitted to enact persuasive measures which favor childbirth over abortion”](#) (*Planned Parenthood v. Casey*, 505 U.S. 833, 886 (1992)). Such non-compliance with federal Medicaid law might also apply to other broad-based, undefined “reproductive health care,” which the state might also be compelled to pay for.
- Under the initiative petitions, the “Government shall not discriminate against persons providing or obtaining reproductive health care or assisting another person in doing so.” “Nor shall any person assisting a person in exercising their right to reproductive freedom with that person’s consent be penalized, prosecuted, or otherwise subjected to adverse action for doing so.” Thus, ANY person of ANY age could legally provide, or assist another person in obtaining, an abortion, a sex-change operation, genital mutilation or other unspecified “reproductive health care.” **This could result in numerous, life-altering medical complications to the child or adult who underwent the “reproductive health care.”** Especially with abortion – particularly for abortions performed later in pregnancy – this could result in huge medical costs for her and her child **that are ultimately paid for by taxpayers.**
 - Regarding abortion, in Missouri, the [cost of inpatient medical procedures and emergency department services for treating “issues before childbirth with complications”](#) is a **median charge per person of \$11,977** – with a minimum charges of \$4,140 and a **maximum charge of \$35,345.**
 - And the cost could be even higher for an abortion-related ER visit. [One recent study](#) found that a “[p]atient concealment and/or physician failure to identify a prior abortion during an ER visit is a significant risk factor for a subsequent hospital admission.” In fact, “[c]hemical abortion patients whose abortions are misclassified

- as miscarriages during an ER visit subsequently experience on average 3.2 hospital admissions within 30 days. 86% of the patients ultimately have surgical removal of retained products of conception (RPOC).”
- According to the CDC, in 2020, nearly 10,000 Missouri residents obtained abortions ([9,980 total, but only 167 within the state](#)). Having unlicensed, non-medical personnel permitted to perform or induce abortions within the state on even a fraction of these 10,000 girls or women could result in untold harm to them now – and harm to their future health and fertility.
 - And there might be additional costs to the state or political subdivisions beyond treating the complications to girls or women from being provided abortions by non-physicians or even non-medical personnel. Any low-birthweight infant born alive after a late-term abortion could need long-term NICU care and possibly permanent assistance throughout childhood and during his or her adult life.
 - According to a [2020 New York Times story](#): “The March of Dimes estimates that the average societal cost of each preterm birth, which includes medical care, early intervention services and lost productivity, is \$65,000.”
 - That same story reported on a cost of \$4 million in NICU costs for triplets who were born prematurely.
 - [Preterm birth lifetime costs in the United States](#) (as of 2016) were “estimated to be \$25.2 billion: \$17.1 billion for medical care of persons born preterm, \$2.0 billion for delivery care, \$1.3 billion for early intervention and special education, and \$4.8 billion in lost productivity due to associated disabilities in adults.”
- **Other costs could be the licensing and inspection of multiple locations (potentially thousands of sites) as “abortion facilities,” as required under Missouri law.** This is because [section 197.205](#) requires that no person or governmental unit shall establish, conduct or maintain an abortion facility in the state without a license issued by the Missouri Department of Health and Senior Services (DHSS).
 - [Section 188.015](#) defines an “abortion facility” as “a clinic, physician’s office, or any other place or facility in which abortions are performed or induced other than a hospital”.
 - [Section 197.230](#) states that “[i]n the case of any abortion facility, the department [of health and senior services (DHSS)] shall make or cause to be made an unannounced on-site inspection and investigation at least annually.” Such on-site inspections and investigations must include a variety of areas relating to staffing and equipment to respond to medical emergencies, compliance with Missouri’s abortion laws and the requirement that continuous physician services or registered professional nursing services are to be provided whenever a patient is in the facility.
 - There are [more than 7,000 licensed pharmacists in Missouri](#), and under the proposed constitutional amendment, any pharmacy (or other place) where a pharmacist provides abortion pills, DHSS would be required to inspect and license. **This would**

be an enormous cost to the department and to taxpayers. And any other place where abortion pills would be provided (homes, schools, vending machines, doctor's offices, clinics, etc.) would also have to be inspected at least once a year and licensed.

- **Economic boycotts of Missouri and its businesses could result if the “Show-Me” state becomes the “Abort-Me” state, once it is transformed into the Midwest’s “abortion destination” – a distinct possibility since Missouri is “within a day’s reach of half of U.S. households”.**
 - Just as some pro-abortion advocates in other states are promoting boycotts of states like Missouri that currently protect unborn children from abortion, pro-life advocates in other states might boycott by no longer purchasing from Missouri businesses, or engaging in travel, tourism or shopping in Missouri. How tragic that would be for Missouri, which has been described as one of the top pro-life states in the country.
 - Some “red” states have been prohibiting or attempting to prohibit their governmental entities from doing business with financial firms in other states that take environmental, social and corporate governance (ESG) into consideration, and those same states and additional ones might extend that to any “abortion destination” state – which is what Missouri could become if any one of the 11 initiative petitions is enacted into law.
 - “Missouri tourism provides a \$13.5 billion economic impact that creates more than 257,000 jobs in the state,” according to the Missouri Division of Tourism. It could be a devastating loss to the state and its residents if Missouri became the abortion capital of the Midwest.
- By some estimates, the economic cost to the U.S. of abortion in 2019 – due to the loss of nearly 630,000 unborn lives – was at least \$6.9 trillion, or 32 percent of GDP. **Missouri could experience increased economic loss if the number of abortions increases in the state.** And unsafe, legal abortions in the state could result in the disability of countless women who – perhaps permanently – would be unable to enter or remain in the workforce.
 - According to a June 15, 2022 report of the Joint Economic Committee – Congressional Republicans *The Economic Cost of Abortion* – the economic cost of an abortion due to the loss of unborn lives is 425 times larger than the earnings loss mothers could be expected to incur when having a child.”
 - According to a key finding in the report: “In the long run, abortion shrinks the labor force, stunts innovation, and limits economic growth. It also weakens the solvency of social insurance programs like Social Security and Medicare that rely on workers to support a growing elderly population.”
 - And as the International Planned Parenthood Federation has noted: “**Unsafe abortions** are performed by un- or under-trained providers ... It is possible to have an unsafe, legal abortion.” (underlining added)

- Under the initiative petitions, “any person assisting a person in exercising their right to reproductive freedom” shall not “be penalized, prosecuted, or otherwise subjected to adverse action for doing so.” Thus, unlicensed, untrained persons of ANY age could perform unsafe, legal abortions or other “reproductive health care,” and the “Government shall not discriminate against persons ... in doing so.” While the economic cost of this policy is incalculable, more important and horrifying, the human cost to Missouri’s citizens is unimaginable.

Auditor Fitzpatrick, if we can be of further assistance, please do not hesitate to contact us.

David C. Drury, Attorney at Law provided the following information:

Dear Auditor Fitzpatrick:

I am a licensed attorney in the St. Louis Metropolitan area who has practiced law here for the last fifty years.

Eleven similar proposals to destroy major Missouri laws which have existed for decades are being suggested by petition numbers 2024-077 to 2024-087.

As you are aware, section 116.175 et al requires that a fiscal note and fiscal note summary state a measure's estimated cost or savings to any state or local governmental entity. In general, a strong fiscal outlook is an essential foundation for a growing, thriving economy. The gap between income and spending is subsequently closed by government borrowing, something to ideally be avoided. Moreover, voters, especially in this conservative state, should be informed and educated of the costs of measures so radical they reverse and erase in one fell swoop the studied product of elected representatives. Indeed, the cost of a proposal may be the reason a voter decides against it.

As commented, the above proposals, although different in some respects, all contain much identical language. For example, the Preamble and first three numbered paragraphs (except 077 uses the word "entails" in line 2 or paragraph 2) are the same. All contain a "discrimination" paragraph, a "severability clause, and the definitions of "Government" are copied throughout. Other deletions or additions to the submissions do not detract from the fact that multiple unfavorable fiscal consequences will result if passage of any happens. So, I feel it is fair to say that these comments relate to each and every variation, rather than to repeat the same points one by one, over and over.

Another observation about which no one can reasonably disagree is that these are extremely broad, and being so broad are vague and ambiguous. Applications can be to an expansive variety of situations, all at costs to the state and local governmental agencies. This is especially the case in light of the present political structure of the federal government, and of course many federal monies flow to the State of Missouri. Another way of saying this, although a somewhat different point, is the potential, actually a likelihood, that direction of funding can be "weaponized", so state laws conform to federal ones. Thus, the state of Missouri is "fiscally" affected. The federal government and the states do not exist as if there is a wall in between. Money flows back and forth, and thus a state can easily be targeted and penalized by federal legislative and executive actions.

Most recently as this week President Biden proclaimed that it was "cruel" and "close to sinful" for Florida to ban subjecting children to sex-change procedures. (Not to subject the children, but to ban subjecting the children)! The aforesaid ballot proposals insist that the "right to reproductive freedom" shall not be denied, interfered with, delayed, or otherwise restricted, and governmental action should be deemed invalid. The ballot also uses language in paragraph 2 of all versions the clause "not limited to". It would thus appear that the subject of sex-change procedures, is included. Similarly, some of the

suggested versions require no parental or guardian consent whatsoever, and others only superficially address the subject with a sure-fire exception that a health care professional (not even a treating physician) can approve an abortion without consent if he/she thinks that getting consent may lead to emotional harm to the minor. All of the proposals do not even require that a physician is necessary to provide medical care. In fact you don't even need any license. Medical malpractice will automatically result. The harm to patients for this poor care, and the cost to the State for care of these patients will be an adverse fiscal result.

All of the above circumstances, would lead responsible hospitals and medical care providers to practice their profession with higher and different standards. And so they would refuse to abide by the above random, and harmful, provisions. Next, we come to the subject of "who is going to pay the bill"? Medicaid, as we know, pays an enormous amount of medical charges. Hospitals and doctors get reimbursed by the State, but the State must comply with federal law. If a State fails to follow the law, for the federal portion, which is over half, it may not get reimbursed. The State suffers fiscally. My numbers are that the State of Missouri receives 12.5 billion in federal Medicaid money.

What if, for example, Cardinal Glennon Hospital in St. Louis refused to perform sex change surgery on a minor, with or without parental consent, in its hospital? It is against its religious beliefs, among many other reasons. Can the hospital be denied Medicaid funds? The text of the proposals require such. The President has just declared that refusing to perform this is "cruel". If the State foots the bill and does not get reimbursed from the federal government, this is a fiscal loss.

Is medical insurance required to pay for "reproductive health care"? If so, these are expensive fiscal consequences of the proposals.

The proposals also yield enormous costs to the State in situations where persons or institutions refuse care against their medical "standard of care" but do not even require a license (creating a breeding ground for malpractice, and all of the expenses that come with it). With Medicaid, the state pays part of the bill, but may not get reimbursed the rest if the proposed bill is not followed. What about the "religious beliefs" of medical care providers. If, for example, Catholic hospitals are penalized, the State of Missouri could also be "fiscally" penalized.

What about the issue of prescribing pills to induce abortion---chemical abortion? Do these proposals mean that all care providers must not deny, restrict, or delay this form of abortion? Is the "government" discriminating against patients by not requiring care providers including pharmacists to dispense the pills? Can they be penalized by withholding of Medicaid payments?

The issue of federal Medicaid funds being disallowed has come up before. In December 2020 HHS and OCR announced that \$200 million in federal Medicaid funds going to California in the upcoming quarter were being denied. This was due to the state illegally mandating that all health care plans subject to regulation by the California Department

of Managed Health Care cover abortion without exclusion or limitation. Furthermore, if California did not come into compliance, additional disallowances would be imposed at a rate of \$200 million per quarter. In a Vermont case, receipt of federal funds because of discrimination against an employee who refused to participate in abortions was threatened. I mention this because of the potential fiscal effect on the State of Missouri if one of these proposals was passed.

So as not to overlook the obvious, the proposals if passed would surely make abortions easier in this state, depriving the state of countless future taxpaying citizens. These persons, if allowed to live, would work, create and staff businesses, produce products, and in general contribute to the economy. A growing population encourages others to move here which in turn results in additional fiscal activity. And, although much of the above addresses Medicaid costs, since fewer workers will be around to contribute to the Medicare system, this system will be under fiscal stress also.

These are only some of the immediate, short-term, and permanent unfortunate fiscal consequences to State and local government if any of the proposals pass.

Thank you for considering this information.

**Rachel U. Greszler, Senior Research Fellow in Economics, Budgets, and Entitlements,
The Heritage Foundation** provided the following information:

Date: March 17, 2023

State Auditor's Office
State Capitol
201 West Capitol Ave.
Jefferson City, MO 65101

Dear Auditor Fitzpatrick,

Per Missouri's [fiscal impact](#) provisions, I have prepared the below fiscal note comments on the proposed ballot initiative "A Constitutional Amendment Concerning the Regulation of Abortion" as submitted to your office on March 9, 2023 as initiative petitions 24-077 through 24-087. My comments are my own and should not be construed as representing any official position of the Heritage Foundation.

Missouri is considering laws that would make abortion legal and easily accessible. The State should not take that step, simply because it would result in the death of thousands of innocent human beings. I offer this fiscal note to provide additional reasons that might persuade those who wrongly doubt that unborn human babies are persons.

By significantly reducing the number of births in the state, these laws would reduce the state's population growth and generate short- and long-term impacts on the state's output and its government finances. Abortion laws could also impact individuals' and families' personal finances, health, and wellbeing in ways that affect states revenues and expenses.

Population growth and economic growth go hand in hand so long as the necessary resources and infrastructure are in place to support that growth. Those resources and infrastructure are in place and the U.S. faces an unprecedented labor shortage. Recent declines in fertility rates threaten to reduce population growth and current and future economic growth. Moreover, government debt has created a situation in which the future wellbeing of current residents is dependent upon a growing population and workforce to pay for current debts and for unfunded obligations promised to retirees.

Since 2007, the [total fertility rate](#) in the U.S. declined from 2.11 births per woman (right at replacement rate) to just 1.66 births per woman in 2021. Missouri's total fertility rate declined from 2.08 in 2007 to 1.60 in 2021.

Compared to current law (in which abortion is illegal in Missouri except in instances in which the woman's life is in danger or her health is severely compromised), the proposed laws could

lead to an additional [2,000 to 9,000 abortions per year](#) in Missouri, depending on how expansive abortion access would become.¹ Based on population projections from the Census Bureau, and assuming a one-for-one correlation between increased abortions and reduced population, the proposed abortion laws could reduce Missouri's projected population by 0.3 percent to 1.4 percent over the next 10 years and by 0.6 percent to 2.7 percent over the next 20 years.

The state needs to consider the following potential effects of abortion-induced population decline in its impact analysis:

A reduced labor force. Fewer births and a smaller population means a smaller future labor force. While proponents of abortion make the economic case that abortion enables women to work and earn more, the additional measurable work and earnings of women as a result of having an abortion is miniscule compared to the potential lifetime work and earnings of another human being. Moreover, while having a child can reduce mothers' work and earnings, it tends to increase fathers' work and earnings—a factor that is ignored in abortion advocates economic claims.

Healthcare strain. Already, the U.S. faces [serious shortages](#) of healthcare workers and the population is continuing to age. Young people (those who would be aborted over the coming decades as a result of the proposed laws) consume very little healthcare, and as they reach working age, they are net providers of healthcare. This means the proposed laws could exacerbate healthcare worker shortages, limit Missourians' [access to healthcare](#), and potentially drive up the state's [healthcare costs](#) as shortages lead to higher prices. With Medicaid being Missouri's largest budgetary item (in FY 2022, Missouri's Medicaid spending was 74 percent greater than its K-12 education spending), and the state being limited by the federal government in its ability to reduce Medicaid spending, higher healthcare costs could impose significant budget constraints.

Reduced tax revenues. In the immediate future, fewer children born in Missouri could reduce sales and real estate tax revenues because households with children spend more and tend to live in higher-value housing. While the income tax revenues of women who have children could be lower if they work less after having children, the work and [earnings of men](#) tend to rise after they have children. In the decades following increased abortions, the absence of potentially tens of thousands of workers would lead to reduced income tax revenues. Although some state expenses are proportional to the number of residents and would decline over time, many expenses are not, and declining revenues would necessitate higher taxes or spending cuts.

Exacerbated unfunded pensions and other post-employment benefits. Depending on different assumptions and risk levels, Missouri has between [\\$36 billion](#) and [\\$171 billion](#) in unfunded pension and [other post-employment benefits](#). That is money that has already been promised to public sector workers and retirees, but which has not been set aside to provide those benefits. The American Legislative Exchange Council estimates that Missouri's unfunded pension liabilities alone amount to [\\$26,965 per capita](#) in 2021, and these unfunded liabilities are

¹ Estimated increase based on the number of abortions in Missouri, as reported by the [Missouri Department of Health and Senior Services](#) and the [Guttmacher Institute](#), reporting roughly 9,000 abortions around 2000-2001 and about 2,000 abortions around 2020-2021.

continuing to grow. The fewer people Missouri has, the larger the per-capita liabilities become, and the harder it will be to raise taxes on workers and employers without them moving to other states. Among many consequences, [economic analysis](#) shows that unfunded pension obligations lead to lower real estate values, which would reduce property tax revenues.

Conclusion

It is an unquestionable fact that the U.S. Constitution requires all state and local governments to uphold Americans' most fundamental natural rights, including that of the right to life. Not counting unborn humans as living beings and treating abortion as an exercise in economic eugenics is an assault on these rights and values.

Even then, the fiscal and economic perspectives of abortion advocates are lacking sufficient economic rigor. I offer this fiscal analysis that provides good reasons to reject the proposed amendments on premises that abortion advocates may be able to accept.

The proposed laws to legalize and expand abortion access in Missouri warrant a properly conducted fiscal analysis. As a part of the debate, policymakers must consider how increased abortions will affect Missouri's population, workforce, fundamental services such as healthcare, the states tax revenues and expenditures, and Missouri's ability to make good on its unfunded pension and other post-employment benefit obligations.

Respectfully,

Rachel U. Greszler

RE: Petition approval request from Anna Fitz-James regarding a proposed constitutional amendment to Article I, version 5 (2024-081)

Dear Auditor Fitzpatrick:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Anna Fitz-James on March 8, 2023.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

NOTICE: The proposed amendment revises Article I of the Constitution by adopting one new Section to be known as Article I, Section 36.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article I of the Constitution is revised by adopting one new Section to be known as Article I, Section 36 to read as follows:

Section 36. 1. This Section shall be known as “The Right to Reproductive Freedom Initiative.”

2. The Government shall not deny or infringe upon a person’s fundamental right to reproductive freedom, which is the right to make and carry out decisions about all matters relating to reproductive health care, including but not limited to prenatal care, childbirth, postpartum care, birth control, abortion care, miscarriage care, and respectful birthing conditions.

3. The right to reproductive freedom shall not be denied, interfered with, delayed, or otherwise restricted unless the Government demonstrates that such action is justified by a compelling governmental interest achieved by the least restrictive means. Any denial, interference, delay, or restriction of the right to reproductive freedom shall be presumed invalid. For purposes of this Section, a governmental interest is compelling only if it is for the limited purpose and has the limited effect of improving or maintaining the health of a person seeking care, is consistent with widely accepted clinical standards of practice and evidence-based medicine, and does not infringe on that person’s autonomous decision-making.

4. Notwithstanding subsection 3 of this Section, the general assembly may enact laws that regulate the provision of abortion after 24 weeks of gestation, as measured from the first day of the patient’s last menstrual period consistent with accepted clinical standards, provided that under no circumstance shall the Government deny, burden, or otherwise restrict an abortion that, in the good faith judgment of a treating health care professional, is needed to protect the life or physical or mental health of the pregnant person or is of a nonviable pregnancy.

5. No person shall be penalized, prosecuted, or otherwise subjected to adverse action based on their actual, potential, perceived, or alleged pregnancy outcomes, including but not limited to miscarriage, stillbirth, or abortion. Nor shall any person assisting any individual in exercising their right to reproductive freedom with that person’s consent be penalized, prosecuted, otherwise subjected to adverse action for doing so.

6. Notwithstanding this Section, the general assembly may enact laws that require a health care professional, before providing an abortion to a minor, obtain consent from a parent or guardian of the minor, provided that such law shall permit the health care professional to provide the abortion without such consent if, in the good faith judgment of a health care professional:

(1) obtaining consent may lead to physical or emotional harm to the minor;

(2) the minor is mature and capable of consenting to an abortion; or

(3) obtaining consent would not be in the best interest of the minor.

7. The Government shall not discriminate against persons providing or obtaining reproductive health care or assisting another person in doing so.

8. Nothing in this Section requires government funding of abortion procedures.

9. If any provision of this Section or the application thereof to anyone or to any circumstance is held invalid, the remainder of those provisions and the application of such provisions to others or other circumstances shall not be affected thereby.

10. For purposes of this Section, the term “Government” means:

(1) the state of Missouri; or

(2) any municipality, city, town, village, township, district, authority, public subdivision or public corporation having the power to tax or regulate, or any portion of two or more such entities within the state of Missouri.

**MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (24-081)**

Subject

Initiative petition from Anna Fitz-James regarding a proposed constitutional amendment to Article I. (Received March 9, 2023)

Date

March 29, 2023

Description

This proposal would amend Article I of the Missouri Constitution.

The amendment is to be voted on in November 2024.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office**, the **Department of Agriculture**, the **Department of Economic Development**, the **Department of Elementary and Secondary Education**, the **Department of Higher Education and Workforce Development**, the **Department of Health and Senior Services**, the **Department of Commerce and Insurance**, the **Department of Mental Health**, the **Department of Natural Resources**, the **Department of Corrections**, the **Department of Labor and Industrial Relations**, the **Department of Revenue**, the **Department of Public Safety**, the **Missouri Department of the National Guard**, the **Department of Social Services**, the **Governor's office**, the **Missouri House of Representatives**, the **Department of Conservation**, the **Department of Transportation**, the **Office of Administration**, the **Office of State Courts Administrator**, the **Missouri Senate**, the **Secretary of State's office**, the **Office of the State Public Defender**, the **State Treasurer's office**, **Adair County**, **Boone County**, **Callaway County**, **Cass County**, **Clay County**, **Cole County**, **Greene County**, **Jackson County**, **Jasper County**, **St. Charles County**, **St. Louis County**, **Taney County**, the **City of Cape Girardeau**, the **City of Columbia**, the **City of Jefferson**, the **City of Joplin**, the **City of Kansas City**, the **City of Kirksville**, the **City of Mexico**, the **City of Raymore**, the **City of St. Joseph**, the **City of St. Louis**, the **City of Springfield**, the **City of Union**, the **City of Wentzville**, the **City of West Plains**, **Cape Girardeau 63 School District**, **Hannibal 60 School District**, **Malta Bend R-V School District**, **Mehlville School District**, **Wellsville-Middletown R-1 School District**, **State Technical College of Missouri**, **Metropolitan Community College**, **University of Missouri**, and **St. Louis Community College**.

Susan Klein, Executive Director, Missouri Right to Life provided information to the State Auditor's office.

Samuel H. Lee, Campaign Life Missouri provided information to the State Auditor's office.

David C. Drury, Attorney at Law provided information to the State Auditor's office.

Rachel U. Greszler, Senior Research Fellow in Economics, Budgets and Entitlements, The Heritage Foundation provided information to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no impact.

Officials from the **Department of Economic Development** indicated no fiscal impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated they have reviewed initiative petition 24-081 and determined there is no fiscal impact to their agency.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated changes to the bill are as follows:

Initiative petition 24-081 is identical to 24-077 with the following exceptions:

Adds new Section 36.4, which states "Notwithstanding subsection 3 of this Section, the general assembly may enact laws that regulate the provision of abortion after 24 weeks of gestation, as measured from the first day of the patient's last menstrual period consistent with accepted clinical standards, provided that under no circumstance shall the Government deny, burden, or otherwise restrict an abortion that, in the good faith judgement of a treating health care professional, is needed to protect the life or physical or mental health of the pregnant person or is of a nonviable pregnancy."

Adds new Section 36.6, which states "Notwithstanding this Section, the general assembly may enact laws that require a health care professional, before providing an abortion to a minor, obtain consent from a parent or guardian of the minor, provided that such law shall

permit the health care professional to provide the abortion without consent if, in the good faith judgement of a health care professional: (1) obtaining consent may lead to physical or emotional harm to the minor, (2) the minor is mature and capable of consenting to an abortion; or (3) obtaining consent would not be in the best interest of the minor."

Removes "other than as required by federal law" from Section 36.8 (Section 36.6 in 24-077)

Comments:

The fiscal impact for 24-081 is the same as the fiscal impact for 24-077 and is as follows:

- FY 2024 General Revenue: (\$0 to Unknown)
- FY 2025 General Revenue: (\$0 to Unknown)
- FY 2026 General Revenue: (\$0 to Unknown)

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no anticipated cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipate no fiscal impact for this initiative petition proposing to amend Article I.

Officials from the **Department of Revenue** indicated the initiative petition does not have an impact on their department.

Officials from the **Department of Public Safety** indicated no impact for their department, Director's office.

Officials from the **Missouri Department of the National Guard** indicated no fiscal impact to their department.

Officials from the **Department of Social Services** indicated they do not anticipate a fiscal impact as a result of this petition.

Officials from the **Governor's office** indicated this proposal relating to reproductive issues does not financially impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated Initiative Petition 24-081 has no anticipated fiscal impact on their department.

Officials from the **Department of Transportation** indicated no fiscal impact expected for their department or the Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal relating to reproductive issues does not financially impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be \$10 million based on the cost of the 2022 primary and general election reimbursements.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

For the FY22 petitions cycle, their office estimates publication costs at \$70,000 per page. This amount is subject to change based on number of petitions received, length of those petitions and rates charged by newspaper publishers.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition has no fiscal impact on their office.

Officials from the **State Treasurer's office** indicated no fiscal impact to their office is anticipated.

Officials from **Clay County** indicated they estimate no fiscal impact as a result of this initiative.

Officials from **Greene County** indicated in reviewing initiative petition 24-081 it has been determined there will be an increased cost to the County of Greene due to loss of tax revenue if voters vote to amend Article I.

The Missouri Department of Health & Senior Services recorded 135 "resident abortions" for Greene County in 2020 and 118 in 2021. The population of Greene County per the 2020 United States census was 298,915. (<https://www.census.gov/quickfacts/fact/table/greene-county-missouri/PST045221>)

In terms of economic impact, Greene County received \$112,673,249 in sales and property taxes for calendar year 2022 (**\$376.94** per capita based on **2020** census data). Accordingly, calculations from these figures indicate an annual loss in population of **135** represents a cost to the County of **\$50,886.90**; an increase in abortion statistics could reasonably be extrapolated to illustrate less tax collections and revenues over the years of potential working lifetimes.

Please see the attached table demonstrating the anticipated yearly on per capita basis and the overall fiscal impact on Greene County tax collections and revenues based on the recorded abortions in 2020 by Missouri Department of Health and Senior Services.

Additional research regarding the broader fiscal impact of lower fertility rates on local and state communities and government budgets may be found here:

- <https://www.pewtrusts.org/en/research-and-analysis/issue-briefs/2022/12/the-long-term-decline-in-fertility-and-what-it-means-for-state-budgets>

Greene County Collections in 2022	
2020 Population	298,915
Total Sales Tax Collected	126,986,094.91
Parks I	(8,226,052.01)
Parks II	(8,773,337.47)

Property Tax SubTotal	15,068,364.57
Total Taxes	112,673,249.02
Per Capita	376.94
Annual lost population	135
Annual Cost	50,886.90

Officials from **St. Louis County** indicated this has no fiscal impact on their county.

Officials from the **City of Jefferson City** indicated they do not think there would be a direct fiscal impact to the City of Jefferson imposed by Initiative Petition 24-081 proposing to amend Article I. There could be an indirect fiscal impact resulting from increased lawsuits related to violations of the act.

Officials from the **City of Kansas City** indicated this proposed amendment would have no fiscal impact on their city.

Officials from **Metropolitan Community College** indicated no fiscal impact.

Officials from the **St. Louis Community College** indicated they have reviewed the initiative petition and believe the initiative would have no direct cost or revenue impact.

Susan Klein, Executive Director, Missouri Right to Life provided the following information:

PO Box 651
Jefferson City, MO 65102
573-635-5110
www.missourilife.org

March 15, 2023

Office of the Missouri State Auditor
The Honorable Scott Fitzpatrick
301 West High Street, Room 880
Jefferson City, MO 65102

Dear Auditor Fitzpatrick,

On behalf of the Members, Board and Staff of Missouri Right to Life, I submit to you our comments for consideration and inclusion in the fiscal note you will be preparing regarding the effects to the State of Missouri and its Local Governments of Initiative Petition(s) 2024-077 through 2024-087.

The Petitions Would Create Devastating Impacts for Missouri's Budget:

On March 8, 2023, 11 proposed initiative petitions (2024-077 through 2024-087) were filed with the Missouri Secretary of State's Office by Anna Fitz-James for a campaign committee called "Missourians for Constitutional Freedom." While each initiative petition has some slight variations, they are all identical in their purpose and their fiscal effects to General Revenue, Federal Funds, and Other Funds received by the State of Missouri and the impact to local governments.

The fiscal effects of some of the impacts of the petition(s) follow:

- **Abortion Injuries, Sanctions, Litigation and Loss of Federal Funding:** The petition will allow for abortions to be performed up until the moment of birth and possibly beyond. In addition to the loss of the life of the unborn child and the ending of his or her priceless contributions to our state and society, surgical and chemical abortions have risks and complications to the health of the mother. The cost impacts of surgical and medical abortion physical injuries would result in a devastating impact to Missouri's balanced budget due to an expansion of costs for Missouri's state and Federally-funded healthcare programs. In addition, women endure emotional trauma after an abortion. A massive increase in funding for mental health services would be required. Under current Federal law, states are barred from using Federal funds to pay for abortions except in limited cases (the Hyde Amendment). Federal funding could be in jeopardy and Missouri could be subject to the risk of litigation and sanctions, including the possibility of deferral or disallowance of federal financial participation in Missouri's Medicaid program. In 2019, more than \$7.2 billion in Federal funds were budgeted for Mo HealthNet services (Department of Social Services, Department of Mental Health, and Department of Health and Senior Services). The loss of these funds would be devastating to Missouri.

- **Loss of Licensing Fee Revenues/Penalties:** The petition will allow for anyone to perform an abortion with no penalty, prosecution or adverse action for performing the abortion. An abortion provider would no longer have a reason to maintain his or her license with the State of Missouri (and anyone who chose to perform an abortion would be protected under the Constitution to do so without any regulations or consequences). Missouri laws and regulations would be nullified, and licensing fees normally collected would decline.
- **Rural Hospitals Impacted:** Rural hospitals are already struggling. The petition will allow anyone to perform an abortion with no penalty, prosecution or regulation, and will result in a skyrocketing number of women injured by abortion who will need emergency services, flooding Emergency Rooms and health clinics and limiting or delaying access to emergency healthcare services needed by other individuals. This will result in a fiscal impact to the state. The state will also experience a fiscal impact through staff shortages as abortion-injured state employees seek medical care, surgery and recovery time off work to manage complications of abortion.
- **Missouri Could Face a Budgetary Crisis Due to Loss of Federal Funding from Violating Federal Conscience Laws:** The petition will force Missouri to be out of compliance with Federal conscience laws. This could result in the loss of billions of dollars of Federal funding, litigation and sanctions. If the Federal Government sanctions Missouri due to these violations, this will be devastating and create a budgetary crisis in Missouri. The state will also experience a fiscal impact through staff shortages as state employees flee state jobs where they feel their conscience is violated due to being forced to assist with an abortion.
- **Abortions Funded With Public Tax Dollars:** The petition will allow for the funding of abortions with public tax dollars. The language does not prohibit government funding of abortion procedures or of abortion providers. This would result in a massive fiscal impact to Missouri's balanced budget.
- **Constitutional Protections for Human Traffickers:** The petition will allow for anyone to perform, or assist with, an abortion with no penalty, prosecution or adverse action for performing the abortion. This would result in Constitutional protections for child sex traffickers who impregnate their victims and coerce them into an abortion and would render ineffective Missouri law enforcement, prosecution and justice efforts tasked with upholding our Constitution and laws. The petition could hamper the Federal Government's efforts under The Trafficking Victims Protection Act of 2000 and other Federal laws and could result in sanctions from any Federal funding that Missouri would otherwise be eligible to receive.
- **Sex Changes, et. al, Funded With Public Tax Dollars:** The petition, under the guise of "The Right to Reproductive Freedom," will allow the funding of sex change surgeries, puberty blockers, hormone therapy and other "reproductive services" with public tax dollars. This would result in a massive fiscal impact to Missouri's balanced budget.

In summary, any fiscal note of the petition(s) should contain the following language and should also include the estimated fiscal net effects to the State of Missouri and its local government:

This initiative petition (a) will allow for abortions to be performed up until the moment of birth and possibly beyond, which would put Missouri in jeopardy of losing billions of dollars of Federal funding and create an unplanned strain on the state's General Revenue, Other and Local Funds as a result of abortion injuries, sanctions, litigation, loss of licensing fee/penalty revenues, and overloaded emergency rooms and healthcare facilities, (b) will put Missouri in violation of Federal conscience laws, which could result in a loss of billions of dollars of Federal funding and an increase of state and local government employee vacancies and litigation due to exercising their rights of conscience, (c) will allow for anyone to perform, or assist with, an abortion with no penalty, prosecution or adverse action for performing the abortion, thereby creating Constitutional protections for Human Traffickers which could result in a loss of Federal funding, and (d) will allow for the funding of abortions, sex change surgeries, puberty blockers, hormone therapy and other "reproductive services" with public tax dollars which would result in a massive fiscal impact to the State of Missouri and its local government budgets.

Sincerely,

A handwritten signature in black ink that reads "Susan Klein". The signature is fluid and cursive, with the first name "Susan" and last name "Klein" clearly legible.

Susan Klein
Executive Director
Missouri Right to Life

Samuel H. Lee, Campaign Life Missouri provided the following information:

Samuel Lee
Director

March 16, 2023

State Auditor's Office
State Capitol
201 West Capitol Ave.
Jefferson City, MO 65101

Dear Auditor Fitzpatrick,

In accordance with the provisions of [section 116.175](#), this is a proposed statement of the fiscal impact of the 11 initiative petitions numbered 24-077 through 24-087, which your office received on March 9, 2023.

To summarize, the proposed ballot measures – all of which would amend the Missouri Constitution – could result in:

- A decrease in federal Medicaid revenues by an unknown amount, up to \$12.5 billion annually.
- Increased costs to taxpayers of unknown amounts, because of medical treatment of, or other services for, children or adults injured by abortions, sex-change operations, genital mutilation or other unspecified “reproductive health care” performed by unlicensed or untrained persons.
- Increased costs of an unknown amount to the Department of Health and Senior Services for the inspection and licensing of thousands of abortion facilities.
- Loss of revenue of unknown amounts to the state and its political subdivisions, because of boycotts of businesses, shopping, tourism or other revenue-generating activities, as a result of Missouri becoming the Midwest’s “abortion destination” state.
- Long-term loss of revenues of unknown amounts to the state and its political subdivisions, because of a decrease in the workforce due to the number of children who are aborted before birth. Also, because of individuals who can no longer work after they become disabled as a result of unsafe abortions, sex-change operations, genital mutilation or other unspecified, unsafe “reproductive health care.” But more important than fiscal costs, the human cost to Missouri’s citizens is unimaginable.

Former-Auditor Galloway made a comparable analysis of the fiscal impacts when she issued her fiscal note and fiscal note summary on [HB 126 \(20-R001 on June 19, 2019\)](#) – the subject of a

referendum that year. Her fiscal note summary became part of the [official ballot title certified by Secretary of State on August 14, 2019](#), for the referendum on HB 126.

Supporting Information on Fiscal Impact of the 11 Initiative Petitions:

- The loss of federal Medicaid matching dollars, which in the proposed fiscal year 2024 budget **would be a loss of nearly \$12.5 billion**.
 - In FY 2023, Missouri lawmakers appropriated about \$16.9 billion for Medicaid (MO HealthNet) across state agencies. [The majority of Medicaid financing in 2023 – \\$10.6 billion – came from federal matching funds](#). The governor’s proposed budget for MO HealthNet for FY 2024 is nearly \$19.3 billion – [almost \\$12.5 billion which would come from federal funds](#).
 - The loss of federal Medicaid matching funds could occur if Missouri is out of compliance with federal Medicaid requirements, for example:
 - If the state cuts off Medicaid reimbursements to Catholic hospitals. This could be a result of the requirement in the initiative petitions that the “Government shall not deny or infringe upon a person’s fundamental right to reproductive freedom.” This might include the state requiring Medicaid providers to sterilize patients, dispense puberty blockers or remove sex organs during sex-change operations.
 - This might also include the state requiring hospitals to participate in the horrendous practice of genital mutilation, currently prohibited by state law under [section 568.065](#), and for which no defense is allowed for “a matter of custom, ritual or standard practice, or [by] consent to the conduct by the child.”
 - But because of the broad-based definition of “reproductive health care” in the 11 initiative petitions (“including but not limited to”), state courts could easily find that genital mutilation is constitutionally protected activity, and strike down existing law.
 - However, for the state government to require Catholic health care providers (or others) to provide these procedures, it would be a violation of their conscience rights – for which the federal government could withhold from the state, Medicaid matching dollars.
 - For example, in California in 2020, [HHS disallowed \\$200 million in federal Medicaid matching funds per quarter due to the state’s unlawful abortion insurance mandate](#), which forced a Catholic order of religious sisters and a non-profit Christian Church to provide abortion health insurance coverage. See also:
 - [“The Fight Over California’s Abortion Coverage Mandate,” Regulatory Review](#), February 3, 2021 (“Can a state require that all health plans offered to its residents cover elective abortions? The federal government thinks not, and the state of California is poised to lose at least \$200 million in Medicaid dollars because it insists that health plans in its state cover abortion services.”)

- [“Federal agency says UVM Med Center forced nurse to assist in abortion,” VT Digger](#), August 28, 2019 (“The U.S. Department of Health and Human Services has accused the University of Vermont Medical Center of forcing a nurse to assist in an abortion procedure despite the nurse’s religious objections. ... The [letter from Roger Severino](#), the director of HHS’ Office for Civil Rights, asks the hospital to adjust its policies or face losing the federal funding it receives from HHS.”)
- There might be additional circumstances where state compliance with at least some of the proposed constitutional amendments would force the state to be out of compliance with federal Medicaid law, such as the state paying for abortions (or other procedures) with federal funds that are not permitted to be reimbursed under federal law. For example, the state might be compelled by the terms of some of the initiative petitions to pay for all abortions for all Medicaid-eligible females, because failing to do so might “discriminate against persons” if the state is paying for the labor and delivery of children for all Medicaid-eligible females. In other words, under the state constitution, Missouri might no longer be [“permitted to enact persuasive measures which favor childbirth over abortion”](#) (*Planned Parenthood v. Casey*, 505 U.S. 833, 886 (1992)). Such non-compliance with federal Medicaid law might also apply to other broad-based, undefined “reproductive health care,” which the state might also be compelled to pay for.
- Under the initiative petitions, the “Government shall not discriminate against persons providing or obtaining reproductive health care or assisting another person in doing so.” “Nor shall any person assisting a person in exercising their right to reproductive freedom with that person’s consent be penalized, prosecuted, or otherwise subjected to adverse action for doing so.” Thus, ANY person of ANY age could legally provide, or assist another person in obtaining, an abortion, a sex-change operation, genital mutilation or other unspecified “reproductive health care.” **This could result in numerous, life-altering medical complications to the child or adult who underwent the “reproductive health care.”** Especially with abortion – particularly for abortions performed later in pregnancy – this could result in huge medical costs for her and her child **that are ultimately paid for by taxpayers.**
 - Regarding abortion, in Missouri, the [cost of inpatient medical procedures and emergency department services for treating “issues before childbirth with complications”](#) is a **median charge per person of \$11,977** – with a minimum charges of \$4,140 and a **maximum charge of \$35,345.**
 - And the cost could be even higher for an abortion-related ER visit. [One recent study](#) found that a “[p]atient concealment and/or physician failure to identify a prior abortion during an ER visit is a significant risk factor for a subsequent hospital admission.” In fact, “[c]hemical abortion patients whose abortions are misclassified

- as miscarriages during an ER visit subsequently experience on average 3.2 hospital admissions within 30 days. 86% of the patients ultimately have surgical removal of retained products of conception (RPOC).”
- According to the CDC, in 2020, nearly 10,000 Missouri residents obtained abortions ([9,980 total, but only 167 within the state](#)). Having unlicensed, non-medical personnel permitted to perform or induce abortions within the state on even a fraction of these 10,000 girls or women could result in untold harm to them now – and harm to their future health and fertility.
 - And there might be additional costs to the state or political subdivisions beyond treating the complications to girls or women from being provided abortions by non-physicians or even non-medical personnel. Any low-birthweight infant born alive after a late-term abortion could need long-term NICU care and possibly permanent assistance throughout childhood and during his or her adult life.
 - According to a [2020 New York Times story](#): “The March of Dimes estimates that the average societal cost of each preterm birth, which includes medical care, early intervention services and lost productivity, is \$65,000.”
 - That same story reported on a cost of \$4 million in NICU costs for triplets who were born prematurely.
 - [Preterm birth lifetime costs in the United States](#) (as of 2016) were “estimated to be \$25.2 billion: \$17.1 billion for medical care of persons born preterm, \$2.0 billion for delivery care, \$1.3 billion for early intervention and special education, and \$4.8 billion in lost productivity due to associated disabilities in adults.”
- **Other costs could be the licensing and inspection of multiple locations (potentially thousands of sites) as “abortion facilities,” as required under Missouri law.** This is because [section 197.205](#) requires that no person or governmental unit shall establish, conduct or maintain an abortion facility in the state without a license issued by the Missouri Department of Health and Senior Services (DHSS).
 - [Section 188.015](#) defines an “abortion facility” as “a clinic, physician’s office, or any other place or facility in which abortions are performed or induced other than a hospital”.
 - [Section 197.230](#) states that “[i]n the case of any abortion facility, the department [of health and senior services (DHSS)] shall make or cause to be made an unannounced on-site inspection and investigation at least annually.” Such on-site inspections and investigations must include a variety of areas relating to staffing and equipment to respond to medical emergencies, compliance with Missouri’s abortion laws and the requirement that continuous physician services or registered professional nursing services are to be provided whenever a patient is in the facility.
 - There are [more than 7,000 licensed pharmacists in Missouri](#), and under the proposed constitutional amendment, any pharmacy (or other place) where a pharmacist provides abortion pills, DHSS would be required to inspect and license. **This would**

be an enormous cost to the department and to taxpayers. And any other place where abortion pills would be provided (homes, schools, vending machines, doctor's offices, clinics, etc.) would also have to be inspected at least once a year and licensed.

- **Economic boycotts of Missouri and its businesses could result if the “Show-Me” state becomes the “Abort-Me” state, once it is transformed into the Midwest’s “abortion destination” – a distinct possibility since Missouri is “within a day’s reach of half of U.S. households”.**
 - Just as some pro-abortion advocates in other states are promoting boycotts of states like Missouri that currently protect unborn children from abortion, pro-life advocates in other states might boycott by no longer purchasing from Missouri businesses, or engaging in travel, tourism or shopping in Missouri. How tragic that would be for Missouri, which has been described as one of the top pro-life states in the country.
 - Some “red” states have been prohibiting or attempting to prohibit their governmental entities from doing business with financial firms in other states that take environmental, social and corporate governance (ESG) into consideration, and those same states and additional ones might extend that to any “abortion destination” state – which is what Missouri could become if any one of the 11 initiative petitions is enacted into law.
 - “Missouri tourism provides a \$13.5 billion economic impact that creates more than 257,000 jobs in the state,” according to the Missouri Division of Tourism. It could be a devastating loss to the state and its residents if Missouri became the abortion capital of the Midwest.
- By some estimates, the economic cost to the U.S. of abortion in 2019 – due to the loss of nearly 630,000 unborn lives – was at least \$6.9 trillion, or 32 percent of GDP. **Missouri could experience increased economic loss if the number of abortions increases in the state.** And unsafe, legal abortions in the state could result in the disability of countless women who – perhaps permanently – would be unable to enter or remain in the workforce.
 - According to a June 15, 2022 report of the Joint Economic Committee – Congressional Republicans *The Economic Cost of Abortion* – the economic cost of an abortion due to the loss of unborn lives is 425 times larger than the earnings loss mothers could be expected to incur when having a child.”
 - According to a key finding in the report: “In the long run, abortion shrinks the labor force, stunts innovation, and limits economic growth. It also weakens the solvency of social insurance programs like Social Security and Medicare that rely on workers to support a growing elderly population.”
 - And as the International Planned Parenthood Federation has noted: “**Unsafe abortions** are performed by un- or under-trained providers ... It is possible to have an unsafe, legal abortion.” (underlining added)

- Under the initiative petitions, “any person assisting a person in exercising their right to reproductive freedom” shall not “be penalized, prosecuted, or otherwise subjected to adverse action for doing so.” Thus, unlicensed, untrained persons of ANY age could perform unsafe, legal abortions or other “reproductive health care,” and the “Government shall not discriminate against persons ... in doing so.” While the economic cost of this policy is incalculable, more important and horrifying, the human cost to Missouri’s citizens is unimaginable.

Auditor Fitzpatrick, if we can be of further assistance, please do not hesitate to contact us.

David C. Drury, Attorney at Law provided the following information:

Dear Auditor Fitzpatrick:

I am a licensed attorney in the St. Louis Metropolitan area who has practiced law here for the last fifty years.

Eleven similar proposals to destroy major Missouri laws which have existed for decades are being suggested by petition numbers 2024-077 to 2024-087.

As you are aware, section 116.175 et al requires that a fiscal note and fiscal note summary state a measure's estimated cost or savings to any state or local governmental entity. In general, a strong fiscal outlook is an essential foundation for a growing, thriving economy. The gap between income and spending is subsequently closed by government borrowing, something to ideally be avoided. Moreover, voters, especially in this conservative state, should be informed and educated of the costs of measures so radical they reverse and erase in one fell swoop the studied product of elected representatives. Indeed, the cost of a proposal may be the reason a voter decides against it.

As commented, the above proposals, although different in some respects, all contain much identical language. For example, the Preamble and first three numbered paragraphs (except 077 uses the word "entails" in line 2 or paragraph 2) are the same. All contain a "discrimination" paragraph, a "severability clause, and the definitions of "Government" are copied throughout. Other deletions or additions to the submissions do not detract from the fact that multiple unfavorable fiscal consequences will result if passage of any happens. So, I feel it is fair to say that these comments relate to each and every variation, rather than to repeat the same points one by one, over and over.

Another observation about which no one can reasonably disagree is that these are extremely broad, and being so broad are vague and ambiguous. Applications can be to an expansive variety of situations, all at costs to the state and local governmental agencies. This is especially the case in light of the present political structure of the federal government, and of course many federal monies flow to the State of Missouri. Another way of saying this, although a somewhat different point, is the potential, actually a likelihood, that direction of funding can be "weaponized", so state laws conform to federal ones. Thus, the state of Missouri is "fiscally" affected. The federal government and the states do not exist as if there is a wall in between. Money flows back and forth, and thus a state can easily be targeted and penalized by federal legislative and executive actions.

Most recently as this week President Biden proclaimed that it was "cruel" and "close to sinful" for Florida to ban subjecting children to sex-change procedures. (Not to subject the children, but to ban subjecting the children)! The aforesaid ballot proposals insist that the "right to reproductive freedom" shall not be denied, interfered with, delayed, or otherwise restricted, and governmental action should be deemed invalid. The ballot also uses language in paragraph 2 of all versions the clause "not limited to". It would thus appear that the subject of sex-change procedures, is included. Similarly, some of the

suggested versions require no parental or guardian consent whatsoever, and others only superficially address the subject with a sure-fire exception that a health care professional (not even a treating physician) can approve an abortion without consent if he/she thinks that getting consent may lead to emotional harm to the minor. All of the proposals do not even require that a physician is necessary to provide medical care. In fact you don't even need any license. Medical malpractice will automatically result. The harm to patients for this poor care, and the cost to the State for care of these patients will be an adverse fiscal result.

All of the above circumstances, would lead responsible hospitals and medical care providers to practice their profession with higher and different standards. And so they would refuse to abide by the above random, and harmful, provisions. Next, we come to the subject of "who is going to pay the bill"? Medicaid, as we know, pays an enormous amount of medical charges. Hospitals and doctors get reimbursed by the State, but the State must comply with federal law. If a State fails to follow the law, for the federal portion, which is over half, it may not get reimbursed. The State suffers fiscally. My numbers are that the State of Missouri receives 12.5 billion in federal Medicaid money.

What if, for example, Cardinal Glennon Hospital in St. Louis refused to perform sex change surgery on a minor, with or without parental consent, in its hospital? It is against its religious beliefs, among many other reasons. Can the hospital be denied Medicaid funds? The text of the proposals require such. The President has just declared that refusing to perform this is "cruel". If the State foots the bill and does not get reimbursed from the federal government, this is a fiscal loss.

Is medical insurance required to pay for "reproductive health care"? If so, these are expensive fiscal consequences of the proposals.

The proposals also yield enormous costs to the State in situations where persons or institutions refuse care against their medical "standard of care" but do not even require a license (creating a breeding ground for malpractice, and all of the expenses that come with it). With Medicaid, the state pays part of the bill, but may not get reimbursed the rest if the proposed bill is not followed. What about the "religious beliefs" of medical care providers. If, for example, Catholic hospitals are penalized, the State of Missouri could also be "fiscally" penalized.

What about the issue of prescribing pills to induce abortion---chemical abortion? Do these proposals mean that all care providers must not deny, restrict, or delay this form of abortion? Is the "government" discriminating against patients by not requiring care providers including pharmacists to dispense the pills? Can they be penalized by withholding of Medicaid payments?

The issue of federal Medicaid funds being disallowed has come up before. In December 2020 HHS and OCR announced that \$200 million in federal Medicaid funds going to California in the upcoming quarter were being denied. This was due to the state illegally mandating that all health care plans subject to regulation by the California Department

of Managed Health Care cover abortion without exclusion or limitation. Furthermore, if California did not come into compliance, additional disallowances would be imposed at a rate of \$200 million per quarter. In a Vermont case, receipt of federal funds because of discrimination against an employee who refused to participate in abortions was threatened. I mention this because of the potential fiscal effect on the State of Missouri if one of these proposals was passed.

So as not to overlook the obvious, the proposals if passed would surely make abortions easier in this state, depriving the state of countless future taxpaying citizens. These persons, if allowed to live, would work, create and staff businesses, produce products, and in general contribute to the economy. A growing population encourages others to move here which in turn results in additional fiscal activity. And, although much of the above addresses Medicaid costs, since fewer workers will be around to contribute to the Medicare system, this system will be under fiscal stress also.

These are only some of the immediate, short-term, and permanent unfortunate fiscal consequences to State and local government if any of the proposals pass.

Thank you for considering this information.

**Rachel U. Greszler, Senior Research Fellow in Economics, Budgets, and Entitlements,
The Heritage Foundation** provided the following information:

Date: March 17, 2023

State Auditor's Office
State Capitol
201 West Capitol Ave.
Jefferson City, MO 65101

Dear Auditor Fitzpatrick,

Per Missouri's [fiscal impact](#) provisions, I have prepared the below fiscal note comments on the proposed ballot initiative "A Constitutional Amendment Concerning the Regulation of Abortion" as submitted to your office on March 9, 2023 as initiative petitions 24-077 through 24-087. My comments are my own and should not be construed as representing any official position of the Heritage Foundation.

Missouri is considering laws that would make abortion legal and easily accessible. The State should not take that step, simply because it would result in the death of thousands of innocent human beings. I offer this fiscal note to provide additional reasons that might persuade those who wrongly doubt that unborn human babies are persons.

By significantly reducing the number of births in the state, these laws would reduce the state's population growth and generate short- and long-term impacts on the state's output and its government finances. Abortion laws could also impact individuals' and families' personal finances, health, and wellbeing in ways that affect states revenues and expenses.

Population growth and economic growth go hand in hand so long as the necessary resources and infrastructure are in place to support that growth. Those resources and infrastructure are in place and the U.S. faces an unprecedented labor shortage. Recent declines in fertility rates threaten to reduce population growth and current and future economic growth. Moreover, government debt has created a situation in which the future wellbeing of current residents is dependent upon a growing population and workforce to pay for current debts and for unfunded obligations promised to retirees.

Since 2007, the [total fertility rate](#) in the U.S. declined from 2.11 births per woman (right at replacement rate) to just 1.66 births per woman in 2021. Missouri's total fertility rate declined from 2.08 in 2007 to 1.60 in 2021.

Compared to current law (in which abortion is illegal in Missouri except in instances in which the woman's life is in danger or her health is severely compromised), the proposed laws could

lead to an additional [2,000 to 9,000 abortions per year](#) in Missouri, depending on how expansive abortion access would become.¹ Based on population projections from the Census Bureau, and assuming a one-for-one correlation between increased abortions and reduced population, the proposed abortion laws could reduce Missouri's projected population by 0.3 percent to 1.4 percent over the next 10 years and by 0.6 percent to 2.7 percent over the next 20 years.

The state needs to consider the following potential effects of abortion-induced population decline in its impact analysis:

A reduced labor force. Fewer births and a smaller population means a smaller future labor force. While proponents of abortion make the economic case that abortion enables women to work and earn more, the additional measurable work and earnings of women as a result of having an abortion is miniscule compared to the potential lifetime work and earnings of another human being. Moreover, while having a child can reduce mothers' work and earnings, it tends to increase fathers' work and earnings—a factor that is ignored in abortion advocates economic claims.

Healthcare strain. Already, the U.S. faces [serious shortages](#) of healthcare workers and the population is continuing to age. Young people (those who would be aborted over the coming decades as a result of the proposed laws) consume very little healthcare, and as they reach working age, they are net providers of healthcare. This means the proposed laws could exacerbate healthcare worker shortages, limit Missourians' [access to healthcare](#), and potentially drive up the state's [healthcare costs](#) as shortages lead to higher prices. With Medicaid being Missouri's largest budgetary item (in FY 2022, Missouri's Medicaid spending was 74 percent greater than its K-12 education spending), and the state being limited by the federal government in its ability to reduce Medicaid spending, higher healthcare costs could impose significant budget constraints.

Reduced tax revenues. In the immediate future, fewer children born in Missouri could reduce sales and real estate tax revenues because households with children spend more and tend to live in higher-value housing. While the income tax revenues of women who have children could be lower if they work less after having children, the work and [earnings of men](#) tend to rise after they have children. In the decades following increased abortions, the absence of potentially tens of thousands of workers would lead to reduced income tax revenues. Although some state expenses are proportional to the number of residents and would decline over time, many expenses are not, and declining revenues would necessitate higher taxes or spending cuts.

Exacerbated unfunded pensions and other post-employment benefits. Depending on different assumptions and risk levels, Missouri has between [\\$36 billion](#) and [\\$171 billion](#) in unfunded pension and [other post-employment benefits](#). That is money that has already been promised to public sector workers and retirees, but which has not been set aside to provide those benefits. The American Legislative Exchange Council estimates that Missouri's unfunded pension liabilities alone amount to [\\$26,965 per capita](#) in 2021, and these unfunded liabilities are

¹ Estimated increase based on the number of abortions in Missouri, as reported by the [Missouri Department of Health and Senior Services](#) and the [Guttmacher Institute](#), reporting roughly 9,000 abortions around 2000-2001 and about 2,000 abortions around 2020-2021.

continuing to grow. The fewer people Missouri has, the larger the per-capita liabilities become, and the harder it will be to raise taxes on workers and employers without them moving to other states. Among many consequences, [economic analysis](#) shows that unfunded pension obligations lead to lower real estate values, which would reduce property tax revenues.

Conclusion

It is an unquestionable fact that the U.S. Constitution requires all state and local governments to uphold Americans' most fundamental natural rights, including that of the right to life. Not counting unborn humans as living beings and treating abortion as an exercise in economic eugenics is an assault on these rights and values.

Even then, the fiscal and economic perspectives of abortion advocates are lacking sufficient economic rigor. I offer this fiscal analysis that provides good reasons to reject the proposed amendments on premises that abortion advocates may be able to accept.

The proposed laws to legalize and expand abortion access in Missouri warrant a properly conducted fiscal analysis. As a part of the debate, policymakers must consider how increased abortions will affect Missouri's population, workforce, fundamental services such as healthcare, the states tax revenues and expenditures, and Missouri's ability to make good on its unfunded pension and other post-employment benefit obligations.

STATE AUDITORS OFFICE

RE: Petition approval request from Anna Fitz-James regarding a proposed constitutional amendment to Article I, version 4 (2024-080)

Dear Auditor Fitzpatrick:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Anna Fitz-James on March 8, 2023.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

NOTICE: The proposed amendment revises Article I of the Constitution by adopting one new Section to be known as Article I, Section 36.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article I of the Constitution is revised by adopting one new Section to be known as Article I, Section 36 to read as follows:

Section 36. 1. This Section shall be known as “The Right to Reproductive Freedom Initiative.”

2. The Government shall not deny or infringe upon a person’s fundamental right to reproductive freedom, which is the right to make and carry out decisions about all matters relating to reproductive health care, including but not limited to prenatal care, childbirth, postpartum care, birth control, abortion care, miscarriage care, and respectful birthing conditions.

3. The right to reproductive freedom shall not be denied, interfered with, delayed, or otherwise restricted unless the Government demonstrates that such action is justified by a compelling governmental interest achieved by the least restrictive means. Any denial, interference, delay, or restriction of the right to reproductive freedom shall be presumed invalid. For purposes of this Section, a governmental interest is compelling only if it is for the limited purpose and has the limited effect of improving or maintaining the health of a person seeking care, is consistent with widely accepted clinical standards of practice and evidence-based medicine, and does not infringe on that person’s autonomous decision-making.

4. Notwithstanding subsection 3 of this Section, the general assembly may enact laws that regulate the provision of abortion after 24 weeks of gestation, as measured from the first day of the patient’s last menstrual period consistent with accepted clinical standards, provided that under no circumstance shall the Government deny, burden, or otherwise restrict an abortion that, in the good faith judgment of a treating health care professional, is needed to protect the life or physical or mental health of the pregnant person or is of a nonviable pregnancy.

5. No person shall be penalized, prosecuted, or otherwise subjected to adverse action based on their actual, potential, perceived, or alleged pregnancy outcomes, including but not limited to miscarriage, stillbirth, or abortion. Nor shall any person assisting a person in exercising their right to reproductive freedom with that person’s consent be penalized, prosecuted, or otherwise subjected to adverse action for doing so.

6. Notwithstanding this Section, the general assembly may enact laws that require a health care professional, before providing an abortion to a minor, obtain consent from a parent or guardian of the minor, provided that such law shall permit the health care professional to provide the abortion without such consent if, in the good faith judgment of a health care professional:

(1) obtaining consent may lead to physical or emotional harm to the minor;

(2) the minor is mature and capable of consenting to an abortion; or

(3) obtaining consent would not be in the best interest of the minor.

7. The Government shall not discriminate against persons providing or obtaining reproductive health care or assisting another person in doing so.

8. If any provision of this Section or the application thereof to anyone or to any circumstance is held invalid, the remainder of those provisions and the application of such provisions to others or other circumstances shall not be affected thereby.

9. For purposes of this Section, the term “Government” means:

(1) the state of Missouri; or

(2) any municipality, city, town, village, township, district, authority, public subdivision or public corporation having the power to tax or regulate, or any portion of two or more such entities within the state of Missouri.

**MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (24-080)**

Subject

Initiative petition from Anna Fitz-James regarding a proposed constitutional amendment to Article I. (Received March 9, 2023)

Date

March 29, 2023

Description

This proposal would amend Article I of the Missouri Constitution.

The amendment is to be voted on in November 2024.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office**, the **Department of Agriculture**, the **Department of Economic Development**, the **Department of Elementary and Secondary Education**, the **Department of Higher Education and Workforce Development**, the **Department of Health and Senior Services**, the **Department of Commerce and Insurance**, the **Department of Mental Health**, the **Department of Natural Resources**, the **Department of Corrections**, the **Department of Labor and Industrial Relations**, the **Department of Revenue**, the **Department of Public Safety**, the **Missouri Department of the National Guard**, the **Department of Social Services**, the **Governor's office**, the **Missouri House of Representatives**, the **Department of Conservation**, the **Department of Transportation**, the **Office of Administration**, the **Office of State Courts Administrator**, the **Missouri Senate**, the **Secretary of State's office**, the **Office of the State Public Defender**, the **State Treasurer's office**, **Adair County**, **Boone County**, **Callaway County**, **Cass County**, **Clay County**, **Cole County**, **Greene County**, **Jackson County**, **Jasper County**, **St. Charles County**, **St. Louis County**, **Taney County**, the **City of Cape Girardeau**, the **City of Columbia**, the **City of Jefferson**, the **City of Joplin**, the **City of Kansas City**, the **City of Kirksville**, the **City of Mexico**, the **City of Raymore**, the **City of St. Joseph**, the **City of St. Louis**, the **City of Springfield**, the **City of Union**, the **City of Wentzville**, the **City of West Plains**, **Cape Girardeau 63 School District**, **Hannibal 60 School District**, **Malta Bend R-V School District**, **Mehlville School District**, **Wellsville-Middletown R-1 School District**, **State Technical College of Missouri**, **Metropolitan Community College**, **University of Missouri**, and **St. Louis Community College**.

Susan Klein, Executive Director, Missouri Right to Life provided information to the State Auditor's office.

Samuel H. Lee, Campaign Life Missouri provided information to the State Auditor's office.

David C. Drury, Attorney at Law provided information to the State Auditor's office.

Rachel U. Greszler, Senior Research Fellow in Economics, Budgets and Entitlements, The Heritage Foundation provided information to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no impact.

Officials from the **Department of Economic Development** indicated no fiscal impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated they have reviewed initiative petition 24-080 and determined there is no fiscal impact to their agency.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated changes to the bill are as follows:

Initiative petition 24-080 is identical to 24-077 with the following exceptions:

Adds new Section 36.4, which states "Notwithstanding subsection 3 of this Section, the general assembly may enact laws that regulate the provision of abortion after 24 weeks of gestation, as measured from the first day of the patient's last menstrual period consistent with accepted clinical standards, provided that under no circumstance shall the Government deny, burden, or otherwise restrict an abortion that, in the good faith judgement of a treating health care professional, is needed to protect the life or physical or mental health of the pregnant person or is of a nonviable pregnancy."

Removes Section 36.6, which states "Nothing in this Section requires government funding of abortion procedures other than as required by federal law."

Adds new Section 36.6, which states "Notwithstanding this Section, the general assembly may enact laws that require a health care professional, before providing an abortion to a minor, obtain consent from a parent or guardian of the minor, provided that such law shall permit the health care professional to provide the abortion without consent if, in the good faith judgement of a health care professional: (1) obtaining consent may lead to physical or emotional harm to the minor, (2) the minor is mature and capable of consenting to an abortion; or (3) obtaining consent would not be in the best interest of the minor."

Comments:

The fiscal impact for 24-080 is the same as the fiscal impact for 24-077 and is as follows:

- FY 2024 General Revenue: (\$0 to Unknown)
- FY 2025 General Revenue: (\$0 to Unknown)
- FY 2026 General Revenue: (\$0 to Unknown)

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no anticipated cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipate no fiscal impact for this initiative petition proposing to amend Article I.

Officials from the **Department of Revenue** indicated the initiative petition does not have an impact on their department.

Officials from the **Department of Public Safety** indicated no impact for their department, Director's office.

Officials from the **Missouri Department of the National Guard** indicated no fiscal impact to their department.

Officials from the **Department of Social Services** indicated they do not anticipate a fiscal impact as a result of this petition.

Officials from the **Governor's office** indicated this proposal relating to reproductive issues does not financially impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated Initiative Petition 24-080 has no anticipated fiscal impact on their department.

Officials from the **Department of Transportation** indicated no fiscal impact expected for their department or the Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal relating to reproductive issues will not financially impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be \$10 million based on the cost of the 2022 primary and general election reimbursements.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

For the FY22 petitions cycle, their office estimates publication costs at \$70,000 per page. This amount is subject to change based on number of petitions received, length of those petitions and rates charged by newspaper publishers.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition has no fiscal impact on their office.

Officials from the **State Treasurer's office** indicated no fiscal impact to their office is anticipated.

Officials from **Clay County** indicated they estimate no fiscal impact as a result of this initiative.

Officials from **Greene County** indicated in reviewing initiative petition 24-080 it has been determined there will be an increased cost to the County of Greene due to loss of tax revenue if voters vote to amend Article I.

The Missouri Department of Health & Senior Services recorded 135 "resident abortions" for Greene County in 2020 and 118 in 2021. The population of Greene County per the 2020 United States census was 298,915. (<https://www.census.gov/quickfacts/fact/table/greenecountymissouri/PST045221>)

In terms of economic impact, Greene County received \$112,673,249 in sales and property taxes for calendar year 2022 (**\$376.94** per capita based on **2020** census data). Accordingly, calculations from these figures indicate an annual loss in population of **135** represents a cost to the County of **\$50,886.90**; an increase in abortion statistics could reasonably be extrapolated to illustrate less tax collections and revenues over the years of potential working lifetimes.

Please see the attached table demonstrating the anticipated yearly on per capita basis and the overall fiscal impact on Greene County tax collections and revenues based on the recorded abortions in 2020 by Missouri Department of Health and Senior Services.

Additional research regarding the broader fiscal impact of lower fertility rates on local and state communities and government budgets may be found here:

- <https://www.pewtrusts.org/en/research-and-analysis/issue-briefs/2022/12/the-long-term-decline-in-fertility-and-what-it-means-for-state-budgets>

Greene County Collections in 2022	
2020 Population	298,915
Total Sales Tax Collected	126,986,094.91
Parks I	(8,226,052.01)
Parks II	(8,773,337.47)
Dan Kinney Bond from Parks I	(551,342.50)
LEST	(11,631,863.21)
Strafford TIF	(24,374.44)
Springfield Plaza TIF	(174,240.83)
Sales Tax Subtotal	97,604,884.45
Real Estate Tax	12,222,341.99
Personal Property Tax	2,846,022.58
Property Tax SubTotal	15,068,364.57
Total Taxes	112,673,249.02
Per Capita	376.94
Annual lost population	135
Annual Cost	50,886.90

Officials from **St. Louis County** indicated this has no fiscal impact on their county.

Officials from the **City of Jefferson City** indicated they do not think there would be a direct fiscal impact to the City of Jefferson imposed by Initiative Petition 24-080 proposing to amend Article I. There could be an indirect fiscal impact resulting from increased lawsuits related to violations of the act.

Officials from the **City of Kansas City** indicated this proposed amendment would have no fiscal impact on their city.

Officials from **Metropolitan Community College** indicated no fiscal impact.

Officials from the **St. Louis Community College** indicated they have reviewed the initiative petition and believe the initiative would have no direct cost or revenue impact.

March 15, 2023

Office of the Missouri State Auditor
The Honorable Scott Fitzpatrick
301 West High Street, Room 880
Jefferson City, MO 65102

Dear Auditor Fitzpatrick,

On behalf of the Members, Board and Staff of Missouri Right to Life, I submit to you our comments for consideration and inclusion in the fiscal note you will be preparing regarding the effects to the State of Missouri and its Local Governments of Initiative Petition(s) 2024-077 through 2024-087.

The Petitions Would Create Devastating Impacts for Missouri's Budget:

On March 8, 2023, 11 proposed initiative petitions (2024-077 through 2024-087) were filed with the Missouri Secretary of State's Office by Anna Fitz-James for a campaign committee called "Missourians for Constitutional Freedom." While each initiative petition has some slight variations, they are all identical in their purpose and their fiscal effects to General Revenue, Federal Funds, and Other Funds received by the State of Missouri and the impact to local governments.

The fiscal effects of some of the impacts of the petition(s) follow:

- **Abortion Injuries, Sanctions, Litigation and Loss of Federal Funding:** The petition will allow for abortions to be performed up until the moment of birth and possibly beyond. In addition to the loss of the life of the unborn child and the ending of his or her priceless contributions to our state and society, surgical and chemical abortions have risks and complications to the health of the mother. The cost impacts of surgical and medical abortion physical injuries would result in a devastating impact to Missouri's balanced budget due to an expansion of costs for Missouri's state and Federally-funded healthcare programs. In addition, women endure emotional trauma after an abortion. A massive increase in funding for mental health services would be required. Under current Federal law, states are barred from using Federal funds to pay for abortions except in limited cases (the Hyde Amendment). Federal funding could be in jeopardy and Missouri could be subject to the risk of litigation and sanctions, including the possibility of deferral or disallowance of federal financial participation in Missouri's Medicaid program. In 2019, more than \$7.2 billion in Federal funds were budgeted for Mo HealthNet services (Department of Social Services, Department of Mental Health, and Department of Health and Senior Services). The loss of these funds would be devastating to Missouri.

- **Loss of Licensing Fee Revenues/Penalties:** The petition will allow for anyone to perform an abortion with no penalty, prosecution or adverse action for performing the abortion. An abortion provider would no longer have a reason to maintain his or her license with the State of Missouri (and anyone who chose to perform an abortion would be protected under the Constitution to do so without any regulations or consequences). Missouri laws and regulations would be nullified, and licensing fees normally collected would decline.
- **Rural Hospitals Impacted:** Rural hospitals are already struggling. The petition will allow anyone to perform an abortion with no penalty, prosecution or regulation, and will result in a skyrocketing number of women injured by abortion who will need emergency services, flooding Emergency Rooms and health clinics and limiting or delaying access to emergency healthcare services needed by other individuals. This will result in a fiscal impact to the state. The state will also experience a fiscal impact through staff shortages as abortion-injured state employees seek medical care, surgery and recovery time off work to manage complications of abortion.
- **Missouri Could Face a Budgetary Crisis Due to Loss of Federal Funding from Violating Federal Conscience Laws:** The petition will force Missouri to be out of compliance with Federal conscience laws. This could result in the loss of billions of dollars of Federal funding, litigation and sanctions. If the Federal Government sanctions Missouri due to these violations, this will be devastating and create a budgetary crisis in Missouri. The state will also experience a fiscal impact through staff shortages as state employees flee state jobs where they feel their conscience is violated due to being forced to assist with an abortion.
- **Abortions Funded With Public Tax Dollars:** The petition will allow for the funding of abortions with public tax dollars. The language does not prohibit government funding of abortion procedures or of abortion providers. This would result in a massive fiscal impact to Missouri's balanced budget.
- **Constitutional Protections for Human Traffickers:** The petition will allow for anyone to perform, or assist with, an abortion with no penalty, prosecution or adverse action for performing the abortion. This would result in Constitutional protections for child sex traffickers who impregnate their victims and coerce them into an abortion and would render ineffective Missouri law enforcement, prosecution and justice efforts tasked with upholding our Constitution and laws. The petition could hamper the Federal Government's efforts under The Trafficking Victims Protection Act of 2000 and other Federal laws and could result in sanctions from any Federal funding that Missouri would otherwise be eligible to receive.
- **Sex Changes, et. al, Funded With Public Tax Dollars:** The petition, under the guise of "The Right to Reproductive Freedom," will allow the funding of sex change surgeries, puberty blockers, hormone therapy and other "reproductive services" with public tax dollars. This would result in a massive fiscal impact to Missouri's balanced budget.

In summary, any fiscal note of the petition(s) should contain the following language and should also include the estimated fiscal net effects to the State of Missouri and its local government:

This initiative petition (a) will allow for abortions to be performed up until the moment of birth and possibly beyond, which would put Missouri in jeopardy of losing billions of dollars of Federal funding and create an unplanned strain on the state's General Revenue, Other and Local Funds as a result of abortion injuries, sanctions, litigation, loss of licensing fee/penalty revenues, and overloaded emergency rooms and healthcare facilities, (b) will put Missouri in violation of Federal conscience laws, which could result in a loss of billions of dollars of Federal funding and an increase of state and local government employee vacancies and litigation due to exercising their rights of conscience, (c) will allow for anyone to perform, or assist with, an abortion with no penalty, prosecution or adverse action for performing the abortion, thereby creating Constitutional protections for Human Traffickers which could result in a loss of Federal funding, and (d) will allow for the funding of abortions, sex change surgeries, puberty blockers, hormone therapy and other "reproductive services" with public tax dollars which would result in a massive fiscal impact to the State of Missouri and its local government budgets.

Sincerely,

A handwritten signature in black ink that reads "Susan Klein". The signature is fluid and cursive, with the first name "Susan" and last name "Klein" clearly legible.

Susan Klein
Executive Director
Missouri Right to Life

Samuel H. Lee, Campaign Life Missouri provided the following information:

Samuel Lee
Director

March 16, 2023

State Auditor's Office
State Capitol
201 West Capitol Ave.
Jefferson City, MO 65101

Dear Auditor Fitzpatrick,

In accordance with the provisions of [section 116.175](#), this is a proposed statement of the fiscal impact of the 11 initiative petitions numbered 24-077 through 24-087, which your office received on March 9, 2023.

To summarize, the proposed ballot measures – all of which would amend the Missouri Constitution – could result in:

- A decrease in federal Medicaid revenues by an unknown amount, up to \$12.5 billion annually.
- Increased costs to taxpayers of unknown amounts, because of medical treatment of, or other services for, children or adults injured by abortions, sex-change operations, genital mutilation or other unspecified “reproductive health care” performed by unlicensed or untrained persons.
- Increased costs of an unknown amount to the Department of Health and Senior Services for the inspection and licensing of thousands of abortion facilities.
- Loss of revenue of unknown amounts to the state and its political subdivisions, because of boycotts of businesses, shopping, tourism or other revenue-generating activities, as a result of Missouri becoming the Midwest’s “abortion destination” state.
- Long-term loss of revenues of unknown amounts to the state and its political subdivisions, because of a decrease in the workforce due to the number of children who are aborted before birth. Also, because of individuals who can no longer work after they become disabled as a result of unsafe abortions, sex-change operations, genital mutilation or other unspecified, unsafe “reproductive health care.” But more important than fiscal costs, the human cost to Missouri’s citizens is unimaginable.

Former-Auditor Galloway made a comparable analysis of the fiscal impacts when she issued her fiscal note and fiscal note summary on [HB 126 \(20-R001 on June 19, 2019\)](#) – the subject of a

referendum that year. Her fiscal note summary became part of the [official ballot title certified by Secretary of State on August 14, 2019](#), for the referendum on HB 126.

Supporting Information on Fiscal Impact of the 11 Initiative Petitions:

- The loss of federal Medicaid matching dollars, which in the proposed fiscal year 2024 budget **would be a loss of nearly \$12.5 billion**.
 - In FY 2023, Missouri lawmakers appropriated about \$16.9 billion for Medicaid (MO HealthNet) across state agencies. [The majority of Medicaid financing in 2023 – \\$10.6 billion – came from federal matching funds](#). The governor’s proposed budget for MO HealthNet for FY 2024 is nearly \$19.3 billion – [almost \\$12.5 billion which would come from federal funds](#).
 - The loss of federal Medicaid matching funds could occur if Missouri is out of compliance with federal Medicaid requirements, for example:
 - If the state cuts off Medicaid reimbursements to Catholic hospitals. This could be a result of the requirement in the initiative petitions that the “Government shall not deny or infringe upon a person’s fundamental right to reproductive freedom.” This might include the state requiring Medicaid providers to sterilize patients, dispense puberty blockers or remove sex organs during sex-change operations.
 - This might also include the state requiring hospitals to participate in the horrendous practice of genital mutilation, currently prohibited by state law under [section 568.065](#), and for which no defense is allowed for “a matter of custom, ritual or standard practice, or [by] consent to the conduct by the child.”
 - But because of the broad-based definition of “reproductive health care” in the 11 initiative petitions (“including but not limited to”), state courts could easily find that genital mutilation is constitutionally protected activity, and strike down existing law.
 - However, for the state government to require Catholic health care providers (or others) to provide these procedures, it would be a violation of their conscience rights – for which the federal government could withhold from the state, Medicaid matching dollars.
 - For example, in California in 2020, [HHS disallowed \\$200 million in federal Medicaid matching funds per quarter due to the state’s unlawful abortion insurance mandate](#), which forced a Catholic order of religious sisters and a non-profit Christian Church to provide abortion health insurance coverage. See also:
 - [“The Fight Over California’s Abortion Coverage Mandate,” Regulatory Review](#), February 3, 2021 (“Can a state require that all health plans offered to its residents cover elective abortions? The federal government thinks not, and the state of California is poised to lose at least \$200 million in Medicaid dollars because it insists that health plans in its state cover abortion services.”)

- [“Federal agency says UVM Med Center forced nurse to assist in abortion,” VT Digger](#), August 28, 2019 (“The U.S. Department of Health and Human Services has accused the University of Vermont Medical Center of forcing a nurse to assist in an abortion procedure despite the nurse’s religious objections. ... The [letter from Roger Severino](#), the director of HHS’ Office for Civil Rights, asks the hospital to adjust its policies or face losing the federal funding it receives from HHS.”)
- There might be additional circumstances where state compliance with at least some of the proposed constitutional amendments would force the state to be out of compliance with federal Medicaid law, such as the state paying for abortions (or other procedures) with federal funds that are not permitted to be reimbursed under federal law. For example, the state might be compelled by the terms of some of the initiative petitions to pay for all abortions for all Medicaid-eligible females, because failing to do so might “discriminate against persons” if the state is paying for the labor and delivery of children for all Medicaid-eligible females. In other words, under the state constitution, Missouri might no longer be [“permitted to enact persuasive measures which favor childbirth over abortion”](#) (*Planned Parenthood v. Casey*, 505 U.S. 833, 886 (1992)). Such non-compliance with federal Medicaid law might also apply to other broad-based, undefined “reproductive health care,” which the state might also be compelled to pay for.
- Under the initiative petitions, the “Government shall not discriminate against persons providing or obtaining reproductive health care or assisting another person in doing so.” “Nor shall any person assisting a person in exercising their right to reproductive freedom with that person’s consent be penalized, prosecuted, or otherwise subjected to adverse action for doing so.” Thus, ANY person of ANY age could legally provide, or assist another person in obtaining, an abortion, a sex-change operation, genital mutilation or other unspecified “reproductive health care.” **This could result in numerous, life-altering medical complications to the child or adult who underwent the “reproductive health care.”** Especially with abortion – particularly for abortions performed later in pregnancy – this could result in huge medical costs for her and her child **that are ultimately paid for by taxpayers.**
 - Regarding abortion, in Missouri, the [cost of inpatient medical procedures and emergency department services for treating “issues before childbirth with complications”](#) is a **median charge per person of \$11,977** – with a minimum charges of \$4,140 and a **maximum charge of \$35,345.**
 - And the cost could be even higher for an abortion-related ER visit. [One recent study](#) found that a “[p]atient concealment and/or physician failure to identify a prior abortion during an ER visit is a significant risk factor for a subsequent hospital admission.” In fact, “[c]hemical abortion patients whose abortions are misclassified

- as miscarriages during an ER visit subsequently experience on average 3.2 hospital admissions within 30 days. 86% of the patients ultimately have surgical removal of retained products of conception (RPOC).”
- According to the CDC, in 2020, nearly 10,000 Missouri residents obtained abortions ([9,980 total, but only 167 within the state](#)). Having unlicensed, non-medical personnel permitted to perform or induce abortions within the state on even a fraction of these 10,000 girls or women could result in untold harm to them now – and harm to their future health and fertility.
 - And there might be additional costs to the state or political subdivisions beyond treating the complications to girls or women from being provided abortions by non-physicians or even non-medical personnel. Any low-birthweight infant born alive after a late-term abortion could need long-term NICU care and possibly permanent assistance throughout childhood and during his or her adult life.
 - According to a [2020 New York Times story](#): “The March of Dimes estimates that the average societal cost of each preterm birth, which includes medical care, early intervention services and lost productivity, is \$65,000.”
 - That same story reported on a cost of \$4 million in NICU costs for triplets who were born prematurely.
 - [Preterm birth lifetime costs in the United States](#) (as of 2016) were “estimated to be \$25.2 billion: \$17.1 billion for medical care of persons born preterm, \$2.0 billion for delivery care, \$1.3 billion for early intervention and special education, and \$4.8 billion in lost productivity due to associated disabilities in adults.”
- **Other costs could be the licensing and inspection of multiple locations (potentially thousands of sites) as “abortion facilities,” as required under Missouri law.** This is because [section 197.205](#) requires that no person or governmental unit shall establish, conduct or maintain an abortion facility in the state without a license issued by the Missouri Department of Health and Senior Services (DHSS).
 - [Section 188.015](#) defines an “abortion facility” as “a clinic, physician’s office, or any other place or facility in which abortions are performed or induced other than a hospital”.
 - [Section 197.230](#) states that “[i]n the case of any abortion facility, the department [of health and senior services (DHSS)] shall make or cause to be made an unannounced on-site inspection and investigation at least annually.” Such on-site inspections and investigations must include a variety of areas relating to staffing and equipment to respond to medical emergencies, compliance with Missouri’s abortion laws and the requirement that continuous physician services or registered professional nursing services are to be provided whenever a patient is in the facility.
 - There are [more than 7,000 licensed pharmacists in Missouri](#), and under the proposed constitutional amendment, any pharmacy (or other place) where a pharmacist provides abortion pills, DHSS would be required to inspect and license. **This would**

be an enormous cost to the department and to taxpayers. And any other place where abortion pills would be provided (homes, schools, vending machines, doctor's offices, clinics, etc.) would also have to be inspected at least once a year and licensed.

- **Economic boycotts of Missouri and its businesses could result if the “Show-Me” state becomes the “Abort-Me” state, once it is transformed into the Midwest’s “abortion destination” – a distinct possibility since Missouri is “within a day’s reach of half of U.S. households”.**
 - Just as some pro-abortion advocates in other states are promoting boycotts of states like Missouri that currently protect unborn children from abortion, pro-life advocates in other states might boycott by no longer purchasing from Missouri businesses, or engaging in travel, tourism or shopping in Missouri. How tragic that would be for Missouri, which has been described as one of the top pro-life states in the country.
 - Some “red” states have been prohibiting or attempting to prohibit their governmental entities from doing business with financial firms in other states that take environmental, social and corporate governance (ESG) into consideration, and those same states and additional ones might extend that to any “abortion destination” state – which is what Missouri could become if any one of the 11 initiative petitions is enacted into law.
 - “Missouri tourism provides a \$13.5 billion economic impact that creates more than 257,000 jobs in the state,” according to the Missouri Division of Tourism. It could be a devastating loss to the state and its residents if Missouri became the abortion capital of the Midwest.
- By some estimates, the economic cost to the U.S. of abortion in 2019 – due to the loss of nearly 630,000 unborn lives – was at least \$6.9 trillion, or 32 percent of GDP. **Missouri could experience increased economic loss if the number of abortions increases in the state.** And unsafe, legal abortions in the state could result in the disability of countless women who – perhaps permanently – would be unable to enter or remain in the workforce.
 - According to a June 15, 2022 report of the Joint Economic Committee – Congressional Republicans’ *The Economic Cost of Abortion* – the economic cost of an abortion due to the loss of unborn lives is 425 times larger than the earnings loss mothers could be expected to incur when having a child.”
 - According to a key finding in the report: “In the long run, abortion shrinks the labor force, stunts innovation, and limits economic growth. It also weakens the solvency of social insurance programs like Social Security and Medicare that rely on workers to support a growing elderly population.”
 - And as the International Planned Parenthood Federation has noted: “**Unsafe abortions** are performed by un- or under-trained providers ... It is possible to have an unsafe, legal abortion.” (underlining added)

- Under the initiative petitions, “any person assisting a person in exercising their right to reproductive freedom” shall not “be penalized, prosecuted, or otherwise subjected to adverse action for doing so.” Thus, unlicensed, untrained persons of ANY age could perform unsafe, legal abortions or other “reproductive health care,” and the “Government shall not discriminate against persons ... in doing so.” While the economic cost of this policy is incalculable, more important and horrifying, the human cost to Missouri’s citizens is unimaginable.

Auditor Fitzpatrick, if we can be of further assistance, please do not hesitate to contact us.

David C. Drury, Attorney at Law provided the following information:

Dear Auditor Fitzpatrick:

I am a licensed attorney in the St. Louis Metropolitan area who has practiced law here for the last fifty years.

Eleven similar proposals to destroy major Missouri laws which have existed for decades are being suggested by petition numbers 2024-077 to 2024-087.

As you are aware, section 116.175 et al requires that a fiscal note and fiscal note summary state a measure's estimated cost or savings to any state or local governmental entity. In general, a strong fiscal outlook is an essential foundation for a growing, thriving economy. The gap between income and spending is subsequently closed by government borrowing, something to ideally be avoided. Moreover, voters, especially in this conservative state, should be informed and educated of the costs of measures so radical they reverse and erase in one fell swoop the studied product of elected representatives. Indeed, the cost of a proposal may be the reason a voter decides against it.

As commented, the above proposals, although different in some respects, all contain much identical language. For example, the Preamble and first three numbered paragraphs (except 077 uses the word "entails" in line 2 or paragraph 2) are the same. All contain a "discrimination" paragraph, a "severability clause, and the definitions of "Government" are copied throughout. Other deletions or additions to the submissions do not detract from the fact that multiple unfavorable fiscal consequences will result if passage of any happens. So, I feel it is fair to say that these comments relate to each and every variation, rather than to repeat the same points one by one, over and over.

Another observation about which no one can reasonably disagree is that these are extremely broad, and being so broad are vague and ambiguous. Applications can be to an expansive variety of situations, all at costs to the state and local governmental agencies. This is especially the case in light of the present political structure of the federal government, and of course many federal monies flow to the State of Missouri. Another way of saying this, although a somewhat different point, is the potential, actually a likelihood, that direction of funding can be "weaponized", so state laws conform to federal ones. Thus, the state of Missouri is "fiscally" affected. The federal government and the states do not exist as if there is a wall in between. Money flows back and forth, and thus a state can easily be targeted and penalized by federal legislative and executive actions.

Most recently as this week President Biden proclaimed that it was "cruel" and "close to sinful" for Florida to ban subjecting children to sex-change procedures. (Not to subject the children, but to ban subjecting the children)! The aforesaid ballot proposals insist that the "right to reproductive freedom" shall not be denied, interfered with, delayed, or otherwise restricted, and governmental action should be deemed invalid. The ballot also uses language in paragraph 2 of all versions the clause "not limited to". It would thus appear that the subject of sex-change procedures, is included. Similarly, some of the

suggested versions require no parental or guardian consent whatsoever, and others only superficially address the subject with a sure-fire exception that a health care professional (not even a treating physician) can approve an abortion without consent if he/she thinks that getting consent may lead to emotional harm to the minor. All of the proposals do not even require that a physician is necessary to provide medical care. In fact you don't even need any license. Medical malpractice will automatically result. The harm to patients for this poor care, and the cost to the State for care of these patients will be an adverse fiscal result.

All of the above circumstances, would lead responsible hospitals and medical care providers to practice their profession with higher and different standards. And so they would refuse to abide by the above random, and harmful, provisions. Next, we come to the subject of "who is going to pay the bill"? Medicaid, as we know, pays an enormous amount of medical charges. Hospitals and doctors get reimbursed by the State, but the State must comply with federal law. If a State fails to follow the law, for the federal portion, which is over half, it may not get reimbursed. The State suffers fiscally. My numbers are that the State of Missouri receives 12.5 billion in federal Medicaid money.

What if, for example, Cardinal Glennon Hospital in St. Louis refused to perform sex change surgery on a minor, with or without parental consent, in its hospital? It is against its religious beliefs, among many other reasons. Can the hospital be denied Medicaid funds? The text of the proposals require such. The President has just declared that refusing to perform this is "cruel". If the State foots the bill and does not get reimbursed from the federal government, this is a fiscal loss.

Is medical insurance required to pay for "reproductive health care"? If so, these are expensive fiscal consequences of the proposals.

The proposals also yield enormous costs to the State in situations where persons or institutions refuse care against their medical "standard of care" but do not even require a license (creating a breeding ground for malpractice, and all of the expenses that come with it). With Medicaid, the state pays part of the bill, but may not get reimbursed the rest if the proposed bill is not followed. What about the "religious beliefs" of medical care providers. If, for example, Catholic hospitals are penalized, the State of Missouri could also be "fiscally" penalized.

What about the issue of prescribing pills to induce abortion---chemical abortion? Do these proposals mean that all care providers must not deny, restrict, or delay this form of abortion? Is the "government" discriminating against patients by not requiring care providers including pharmacists to dispense the pills? Can they be penalized by withholding of Medicaid payments?

The issue of federal Medicaid funds being disallowed has come up before. In December 2020 HHS and OCR announced that \$200 million in federal Medicaid funds going to California in the upcoming quarter were being denied. This was due to the state illegally mandating that all health care plans subject to regulation by the California Department

of Managed Health Care cover abortion without exclusion or limitation. Furthermore, if California did not come into compliance, additional disallowances would be imposed at a rate of \$200 million per quarter. In a Vermont case, receipt of federal funds because of discrimination against an employee who refused to participate in abortions was threatened. I mention this because of the potential fiscal effect on the State of Missouri if one of these proposals was passed.

So as not to overlook the obvious, the proposals if passed would surely make abortions easier in this state, depriving the state of countless future taxpaying citizens. These persons, if allowed to live, would work, create and staff businesses, produce products, and in general contribute to the economy. A growing population encourages others to move here which in turn results in additional fiscal activity. And, although much of the above addresses Medicaid costs, since fewer workers will be around to contribute to the Medicare system, this system will be under fiscal stress also.

These are only some of the immediate, short-term, and permanent unfortunate fiscal consequences to State and local government if any of the proposals pass.

Thank you for considering this information.

**Rachel U. Greszler, Senior Research Fellow in Economics, Budgets, and Entitlements,
The Heritage Foundation** provided the following information:

Date: March 17, 2023

State Auditor's Office
State Capitol
201 West Capitol Ave.
Jefferson City, MO 65101

Dear Auditor Fitzpatrick,

Per Missouri's [fiscal impact](#) provisions, I have prepared the below fiscal note comments on the proposed ballot initiative "A Constitutional Amendment Concerning the Regulation of Abortion" as submitted to your office on March 9, 2023 as initiative petitions 24-077 through 24-087. My comments are my own and should not be construed as representing any official position of the Heritage Foundation.

Missouri is considering laws that would make abortion legal and easily accessible. The State should not take that step, simply because it would result in the death of thousands of innocent human beings. I offer this fiscal note to provide additional reasons that might persuade those who wrongly doubt that unborn human babies are persons.

By significantly reducing the number of births in the state, these laws would reduce the state's population growth and generate short- and long-term impacts on the state's output and its government finances. Abortion laws could also impact individuals' and families' personal finances, health, and wellbeing in ways that affect states revenues and expenses.

Population growth and economic growth go hand in hand so long as the necessary resources and infrastructure are in place to support that growth. Those resources and infrastructure are in place and the U.S. faces an unprecedented labor shortage. Recent declines in fertility rates threaten to reduce population growth and current and future economic growth. Moreover, government debt has created a situation in which the future wellbeing of current residents is dependent upon a growing population and workforce to pay for current debts and for unfunded obligations promised to retirees.

Since 2007, the [total fertility rate](#) in the U.S. declined from 2.11 births per woman (right at replacement rate) to just 1.66 births per woman in 2021. Missouri's total fertility rate declined from 2.08 in 2007 to 1.60 in 2021.

Compared to current law (in which abortion is illegal in Missouri except in instances in which the woman's life is in danger or her health is severely compromised), the proposed laws could

lead to an additional [2,000 to 9,000 abortions per year](#) in Missouri, depending on how expansive abortion access would become.¹ Based on population projections from the Census Bureau, and assuming a one-for-one correlation between increased abortions and reduced population, the proposed abortion laws could reduce Missouri's projected population by 0.3 percent to 1.4 percent over the next 10 years and by 0.6 percent to 2.7 percent over the next 20 years.

The state needs to consider the following potential effects of abortion-induced population decline in its impact analysis:

A reduced labor force. Fewer births and a smaller population means a smaller future labor force. While proponents of abortion make the economic case that abortion enables women to work and earn more, the additional measurable work and earnings of women as a result of having an abortion is miniscule compared to the potential lifetime work and earnings of another human being. Moreover, while having a child can reduce mothers' work and earnings, it tends to increase fathers' work and earnings—a factor that is ignored in abortion advocates economic claims.

Healthcare strain. Already, the U.S. faces [serious shortages](#) of healthcare workers and the population is continuing to age. Young people (those who would be aborted over the coming decades as a result of the proposed laws) consume very little healthcare, and as they reach working age, they are net providers of healthcare. This means the proposed laws could exacerbate healthcare worker shortages, limit Missourians' [access to healthcare](#), and potentially drive up the state's [healthcare costs](#) as shortages lead to higher prices. With Medicaid being Missouri's largest budgetary item (in FY 2022, Missouri's Medicaid spending was 74 percent greater than its K-12 education spending), and the state being limited by the federal government in its ability to reduce Medicaid spending, higher healthcare costs could impose significant budget constraints.

Reduced tax revenues. In the immediate future, fewer children born in Missouri could reduce sales and real estate tax revenues because households with children spend more and tend to live in higher-value housing. While the income tax revenues of women who have children could be lower if they work less after having children, the work and [earnings of men](#) tend to rise after they have children. In the decades following increased abortions, the absence of potentially tens of thousands of workers would lead to reduced income tax revenues. Although some state expenses are proportional to the number of residents and would decline over time, many expenses are not, and declining revenues would necessitate higher taxes or spending cuts.

Exacerbated unfunded pensions and other post-employment benefits. Depending on different assumptions and risk levels, Missouri has between [\\$36 billion](#) and [\\$171 billion](#) in unfunded pension and [other post-employment benefits](#). That is money that has already been promised to public sector workers and retirees, but which has not been set aside to provide those benefits. The American Legislative Exchange Council estimates that Missouri's unfunded pension liabilities alone amount to [\\$26,965 per capita](#) in 2021, and these unfunded liabilities are

¹ Estimated increase based on the number of abortions in Missouri, as reported by the [Missouri Department of Health and Senior Services](#) and the [Guttmacher Institute](#), reporting roughly 9,000 abortions around 2000-2001 and about 2,000 abortions around 2020-2021.

continuing to grow. The fewer people Missouri has, the larger the per-capita liabilities become, and the harder it will be to raise taxes on workers and employers without them moving to other states. Among many consequences, [economic analysis](#) shows that unfunded pension obligations lead to lower real estate values, which would reduce property tax revenues.

Conclusion

It is an unquestionable fact that the U.S. Constitution requires all state and local governments to uphold Americans' most fundamental natural rights, including that of the right to life. Not counting unborn humans as living beings and treating abortion as an exercise in economic eugenics is an assault on these rights and values.

Even then, the fiscal and economic perspectives of abortion advocates are lacking sufficient economic rigor. I offer this fiscal analysis that provides good reasons to reject the proposed amendments on premises that abortion advocates may be able to accept.

The proposed laws to legalize and expand abortion access in Missouri warrant a properly conducted fiscal analysis. As a part of the debate, policymakers must consider how increased abortions will affect Missouri's population, workforce, fundamental services such as healthcare, the states tax revenues and expenditures, and Missouri's ability to make good on its unfunded pension and other post-employment benefit obligations.

Respectfully,

Rachel U. Greszler
Senior Research Fellow in Economics, Budgets, and Entitlements
The Heritage Foundation

**The Heritage Foundation is a public policy, research, and educational organization recognized as exempt under section 501(c)(3) of the Internal Revenue Code. It is privately supported and receives no funds from any government at any level, nor does it perform any government or other contract work.

The Heritage Foundation is the most broadly supported think tank in the United States. During 2020, it had hundreds of thousands of individual, foundation, and corporate supporters representing every state in the U.S. Its 2020 operating income came from the following sources:

Individuals 66%

Foundations 18%

Corporations 2%

Program revenue and other income 14%

The top five corporate givers provided The Heritage Foundation with **1% of its 2020 income**. The Heritage Foundation's books are audited annually by the national accounting firm of RSM US, LLP.

Members of The Heritage Foundation staff testify and comment as individuals discussing their own independent research. The views expressed are their own and do not reflect an institutional position of The Heritage Foundation or its board of trustees.

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County, the City of Cape Girardeau, the City of Columbia, the City of Joplin, the City of Kirksville, the City of Mexico, the City of Raymore, the City of St. Joseph, the City of St. Louis, the City of Springfield, the City of Union, the City of Wentzville, the City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, and the University of Missouri.**

Fiscal Note Summary

State governmental entities estimate no costs or savings, but unknown impact. Local governmental entities estimate costs of at least \$51,000 annually in reduced tax revenues. Opponents estimate a potentially significant loss to state revenue.

STATE AUDITORS OFFICE

RE: Petition approval request from Anna Fitz-James regarding a proposed constitutional amendment to Article I, version 3 (2024-079)

Dear Auditor Fitzpatrick:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Anna Fitz-James on March 8, 2023.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

cc: Hon. Andrew Bailey

NOTICE: The proposed amendment revises Article I of the Constitution by adopting one new Section to be known as Article I, Section 36.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article I of the Constitution is revised by adopting one new Section to be known as Article I, Section 36 to read as follows:

Section 36. 1. This Section shall be known as “The Right to Reproductive Freedom Initiative.”

2. The Government shall not deny or infringe upon a person’s fundamental right to reproductive freedom, which is the right to make and carry out decisions about all matters relating to reproductive health care, including but not limited to prenatal care, childbirth, postpartum care, birth control, abortion care, miscarriage care, and respectful birthing conditions.

3. The right to reproductive freedom shall not be denied, interfered with, delayed, or otherwise restricted unless the Government demonstrates that such action is justified by a compelling governmental interest achieved by the least restrictive means. Any denial, interference, delay, or restriction of the right to reproductive freedom shall be presumed invalid. For purposes of this Section, a governmental interest is compelling only if it is for the limited purpose and has the limited effect of improving or maintaining the health of a person seeking care, is consistent with widely accepted clinical standards of practice and evidence-based medicine, and does not infringe on that person’s autonomous decision-making.

4. No person shall be penalized, prosecuted, or otherwise subjected to adverse action based on their actual, potential, perceived, or alleged pregnancy outcomes, including but not limited to miscarriage, stillbirth, or abortion. Nor shall any person assisting a person in exercising their right to reproductive freedom with that person’s consent be penalized, prosecuted, or otherwise subjected to adverse action for doing so.

5. The Government shall not discriminate against persons providing or obtaining reproductive health care or assisting another person in doing so.

6. Nothing in this Section requires government funding of abortion procedures.

7. If any provision of this Section or the application thereof to anyone or to any circumstance is held invalid, the remainder of those provisions and the application of such provisions to others or other circumstances shall not be affected thereby.

8. For purposes of this Section, the term “Government” means:

(1) the state of Missouri; or

(2) any municipality, city, town, village, township, district, authority, public subdivision or public corporation having the power to tax or regulate, or any portion of two or more such entities within the state of Missouri.

**MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (24-079)**

Subject

Initiative petition from Anna Fitz-James regarding a proposed constitutional amendment to Article I. (Received March 9, 2023)

Date

March 29, 2023

Description

This proposal would amend Article I of the Missouri Constitution.

The amendment is to be voted on in November 2024.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office**, the **Department of Agriculture**, the **Department of Economic Development**, the **Department of Elementary and Secondary Education**, the **Department of Higher Education and Workforce Development**, the **Department of Health and Senior Services**, the **Department of Commerce and Insurance**, the **Department of Mental Health**, the **Department of Natural Resources**, the **Department of Corrections**, the **Department of Labor and Industrial Relations**, the **Department of Revenue**, the **Department of Public Safety**, the **Missouri Department of the National Guard**, the **Department of Social Services**, the **Governor's office**, the **Missouri House of Representatives**, the **Department of Conservation**, the **Department of Transportation**, the **Office of Administration**, the **Office of State Courts Administrator**, the **Missouri Senate**, the **Secretary of State's office**, the **Office of the State Public Defender**, the **State Treasurer's office**, **Adair County**, **Boone County**, **Callaway County**, **Cass County**, **Clay County**, **Cole County**, **Greene County**, **Jackson County**, **Jasper County**, **St. Charles County**, **St. Louis County**, **Taney County**, the **City of Cape Girardeau**, the **City of Columbia**, the **City of Jefferson**, the **City of Joplin**, the **City of Kansas City**, the **City of Kirksville**, the **City of Mexico**, the **City of Raymore**, the **City of St. Joseph**, the **City of St. Louis**, the **City of Springfield**, the **City of Union**, the **City of Wentzville**, the **City of West Plains**, **Cape Girardeau 63 School District**, **Hannibal 60 School District**, **Malta Bend R-V School District**, **Mehlville School District**, **Wellsville-Middletown R-1 School District**, **State Technical College of Missouri**, **Metropolitan Community College**, **University of Missouri**, and **St. Louis Community College**.

Susan Klein, Executive Director, Missouri Right to Life provided information to the State Auditor's office.

Samuel H. Lee, Campaign Life Missouri provided information to the State Auditor's office.

David C. Drury, Attorney at Law provided information to the State Auditor's office.

Rachel U. Greszler, Senior Research Fellow in Economics, Budgets and Entitlements, The Heritage Foundation provided information to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no impact.

Officials from the **Department of Economic Development** indicated no fiscal impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated there is no fiscal impact to their agency.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated changes to the bill are as follows:

Initiative petition 24-079 is identical to 24-077 with the following exception:

Removes "other than as required by federal law" from Section 36.6.

Comments:

The fiscal impact for 24-079 is the same as the fiscal impact for 24-077 and is as follows:

- FY 2024 General Revenue: (\$0 to Unknown)
- FY 2025 General Revenue: (\$0 to Unknown)
- FY 2026 General Revenue: (\$0 to Unknown)

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no anticipated cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipate no fiscal impact for this initiative petition proposing to amend Article I.

Officials from the **Department of Revenue** indicated the initiative petition does not have an impact on their department.

Officials from the **Department of Public Safety** indicated no impact for their department, Director's office.

Officials from the **Missouri Department of the National Guard** indicated no fiscal impact to their department.

Officials from the **Department of Social Services** indicated they do not anticipate a fiscal impact as a result of this petition.

Officials from the **Governor's office** indicated this proposal relating to reproductive issues does not financially impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated Initiative Petition 24-079 has no anticipated fiscal impact on their department.

Officials from the **Department of Transportation** indicated no fiscal impact expected for their department or the Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal relating to reproductive issues will not financially impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be \$10 million based on the cost of the 2022 primary and general election reimbursements.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

For the FY22 petitions cycle, their office estimates publication costs at \$70,000 per page. This amount is subject to change based on number of petitions received, length of those petitions and rates charged by newspaper publishers.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition has no fiscal impact on their office.

Officials from the **State Treasurer's office** indicated no fiscal impact to their office is anticipated.

Officials from **Clay County** indicated they estimate no fiscal impact as a result of this initiative.

Officials from **Greene County** indicated in reviewing initiative petition 24-079 it has been determined there will be an increased cost to the County of Greene due to loss of tax revenue if voters vote to amend Article I version 3.

The Missouri Department of Health & Senior Services recorded 135 "resident abortions" for Greene County in 2020 and 118 in 2021. The population of Greene County per the 2020 United States census was 298,915. (<https://www.census.gov/quickfacts/fact/table/greene-county-missouri/PST045221>)

In terms of economic impact, Greene County received \$112,673,249 in sales and property taxes for calendar year 2022 (**\$376.94** per capita based on **2020** census data). Accordingly, calculations from these figures indicate an annual loss in population of **135** represents a cost to the County of **\$50,886.90**; an increase in abortion statistics could reasonably be extrapolated to illustrate less tax collections and revenues over the years of potential working lifetimes.

Please see the attached table demonstrating the anticipated yearly on per capita basis and the overall fiscal impact on Greene County tax collections and revenues based on the recorded abortions in 2020 by Missouri Department of Health and Senior Services.

Additional research regarding the broader fiscal impact of lower fertility rates on local and state communities and government budgets may be found here:

- <https://www.pewtrusts.org/en/research-and-analysis/issue-briefs/2022/12/the-long-term-decline-in-fertility-and-what-it-means-for-state-budgets>

Greene County Collections in 2022	
2020 Population	298,915
Total Sales Tax Collected	126,986,094.91

Strafford TIF	(24,374.44)
Springfield Plaza TIF	(174,240.83)
Sales Tax Subtotal	97,604,884.45
Real Estate Tax	12,222,341.99
Personal Property Tax	2,846,022.58
Property Tax SubTotal	15,068,364.57
Total Taxes	112,673,249.02
Per Capita	376.94
Annual lost population	135
Annual Cost	50,886.90

Officials from **St. Louis County** indicated this has no fiscal impact on their county.

Officials from the **City of Jefferson City** indicated they do not think there would be a direct fiscal impact to the City of Jefferson imposed by Initiative Petition 24-079 proposing to amend Article I. There could be an indirect fiscal impact resulting from increased lawsuits related to violations of the act.

Officials from the **City of Kansas City** indicated this proposed amendment would have no fiscal impact on their city.

Officials from **Metropolitan Community College** indicated no fiscal impact.

Officials from the **St. Louis Community College** indicated they have reviewed the initiative petition and believe the initiative would have no direct cost or revenue impact.

March 15, 2023

Office of the Missouri State Auditor
The Honorable Scott Fitzpatrick
301 West High Street, Room 880
Jefferson City, MO 65102

Dear Auditor Fitzpatrick,

On behalf of the Members, Board and Staff of Missouri Right to Life, I submit to you our comments for consideration and inclusion in the fiscal note you will be preparing regarding the effects to the State of Missouri and its Local Governments of Initiative Petition(s) 2024-077 through 2024-087.

The Petitions Would Create Devastating Impacts for Missouri's Budget:

On March 8, 2023, 11 proposed initiative petitions (2024-077 through 2024-087) were filed with the Missouri Secretary of State's Office by Anna Fitz-James for a campaign committee called "Missourians for Constitutional Freedom." While each initiative petition has some slight variations, they are all identical in their purpose and their fiscal effects to General Revenue, Federal Funds, and Other Funds received by the State of Missouri and the impact to local governments.

The fiscal effects of some of the impacts of the petition(s) follow:

- **Abortion Injuries, Sanctions, Litigation and Loss of Federal Funding:** The petition will allow for abortions to be performed up until the moment of birth and possibly beyond. In addition to the loss of the life of the unborn child and the ending of his or her priceless contributions to our state and society, surgical and chemical abortions have risks and complications to the health of the mother. The cost impacts of surgical and medical abortion physical injuries would result in a devastating impact to Missouri's balanced budget due to an expansion of costs for Missouri's state and Federally-funded healthcare programs. In addition, women endure emotional trauma after an abortion. A massive increase in funding for mental health services would be required. Under current Federal law, states are barred from using Federal funds to pay for abortions except in limited cases (the Hyde Amendment). Federal funding could be in jeopardy and Missouri could be subject to the risk of litigation and sanctions, including the possibility of deferral or disallowance of federal financial participation in Missouri's Medicaid program. In 2019, more than \$7.2 billion in Federal funds were budgeted for Mo HealthNet services (Department of Social Services, Department of Mental Health, and Department of Health and Senior Services). The loss of these funds would be devastating to Missouri.

- **Loss of Licensing Fee Revenues/Penalties:** The petition will allow for anyone to perform an abortion with no penalty, prosecution or adverse action for performing the abortion. An abortion provider would no longer have a reason to maintain his or her license with the State of Missouri (and anyone who chose to perform an abortion would be protected under the Constitution to do so without any regulations or consequences). Missouri laws and regulations would be nullified, and licensing fees normally collected would decline.
- **Rural Hospitals Impacted:** Rural hospitals are already struggling. The petition will allow anyone to perform an abortion with no penalty, prosecution or regulation, and will result in a skyrocketing number of women injured by abortion who will need emergency services, flooding Emergency Rooms and health clinics and limiting or delaying access to emergency healthcare services needed by other individuals. This will result in a fiscal impact to the state. The state will also experience a fiscal impact through staff shortages as abortion-injured state employees seek medical care, surgery and recovery time off work to manage complications of abortion.
- **Missouri Could Face a Budgetary Crisis Due to Loss of Federal Funding from Violating Federal Conscience Laws:** The petition will force Missouri to be out of compliance with Federal conscience laws. This could result in the loss of billions of dollars of Federal funding, litigation and sanctions. If the Federal Government sanctions Missouri due to these violations, this will be devastating and create a budgetary crisis in Missouri. The state will also experience a fiscal impact through staff shortages as state employees flee state jobs where they feel their conscience is violated due to being forced to assist with an abortion.
- **Abortions Funded With Public Tax Dollars:** The petition will allow for the funding of abortions with public tax dollars. The language does not prohibit government funding of abortion procedures or of abortion providers. This would result in a massive fiscal impact to Missouri's balanced budget.
- **Constitutional Protections for Human Traffickers:** The petition will allow for anyone to perform, or assist with, an abortion with no penalty, prosecution or adverse action for performing the abortion. This would result in Constitutional protections for child sex traffickers who impregnate their victims and coerce them into an abortion and would render ineffective Missouri law enforcement, prosecution and justice efforts tasked with upholding our Constitution and laws. The petition could hamper the Federal Government's efforts under The Trafficking Victims Protection Act of 2000 and other Federal laws and could result in sanctions from any Federal funding that Missouri would otherwise be eligible to receive.
- **Sex Changes, et. al, Funded With Public Tax Dollars:** The petition, under the guise of "The Right to Reproductive Freedom," will allow the funding of sex change surgeries, puberty blockers, hormone therapy and other "reproductive services" with public tax dollars. This would result in a massive fiscal impact to Missouri's balanced budget.

In summary, any fiscal note of the petition(s) should contain the following language and should also include the estimated fiscal net effects to the State of Missouri and its local government:

This initiative petition (a) will allow for abortions to be performed up until the moment of birth and possibly beyond, which would put Missouri in jeopardy of losing billions of dollars of Federal funding and create an unplanned strain on the state's General Revenue, Other and Local Funds as a result of abortion injuries, sanctions, litigation, loss of licensing fee/penalty revenues, and overloaded emergency rooms and healthcare facilities, (b) will put Missouri in violation of Federal conscience laws, which could result in a loss of billions of dollars of Federal funding and an increase of state and local government employee vacancies and litigation due to exercising their rights of conscience, (c) will allow for anyone to perform, or assist with, an abortion with no penalty, prosecution or adverse action for performing the abortion, thereby creating Constitutional protections for Human Traffickers which could result in a loss of Federal funding, and (d) will allow for the funding of abortions, sex change surgeries, puberty blockers, hormone therapy and other "reproductive services" with public tax dollars which would result in a massive fiscal impact to the State of Missouri and its local government budgets.

Sincerely,

A handwritten signature in cursive script that reads "Susan Klein". The signature is written in dark ink and is positioned above the printed name and title.

March 16, 2023

State Auditor's Office
State Capitol
201 West Capitol Ave.
Jefferson City, MO 65101

Dear Auditor Fitzpatrick,

In accordance with the provisions of [section 116.175](#), this is a proposed statement of the fiscal impact of the 11 initiative petitions numbered 24-077 through 24-087, which your office received on March 9, 2023.

To summarize, the proposed ballot measures – all of which would amend the Missouri Constitution – could result in:

- A decrease in federal Medicaid revenues by an unknown amount, up to \$12.5 billion annually.
- Increased costs to taxpayers of unknown amounts, because of medical treatment of, or other services for, children or adults injured by abortions, sex-change operations, genital mutilation or other unspecified “reproductive health care” performed by unlicensed or untrained persons.
- Increased costs of an unknown amount to the Department of Health and Senior Services for the inspection and licensing of thousands of abortion facilities.
- Loss of revenue of unknown amounts to the state and its political subdivisions, because of boycotts of businesses, shopping, tourism or other revenue-generating activities, as a result of Missouri becoming the Midwest’s “abortion destination” state.
- Long-term loss of revenues of unknown amounts to the state and its political subdivisions, because of a decrease in the workforce due to the number of children who are aborted before birth. Also, because of individuals who can no longer work after they become disabled as a result of unsafe abortions, sex-change operations, genital mutilation or other unspecified, unsafe “reproductive health care.” But more important than fiscal costs, the human cost to Missouri’s citizens is unimaginable.

Former-Auditor Galloway made a comparable analysis of the fiscal impacts when she issued her fiscal note and fiscal note summary on [HB 126 \(20-R001 on June 19, 2019\)](#) – the subject of a

referendum that year. Her fiscal note summary became part of the [official ballot title certified by Secretary of State on August 14, 2019](#), for the referendum on HB 126.

Supporting Information on Fiscal Impact of the 11 Initiative Petitions:

- The loss of federal Medicaid matching dollars, which in the proposed fiscal year 2024 budget **would be a loss of nearly \$12.5 billion**.
 - In FY 2023, Missouri lawmakers appropriated about \$16.9 billion for Medicaid (MO HealthNet) across state agencies. [The majority of Medicaid financing in 2023 – \\$10.6 billion – came from federal matching funds](#). The governor’s proposed budget for MO HealthNet for FY 2024 is nearly \$19.3 billion – [almost \\$12.5 billion which would come from federal funds](#).
 - The loss of federal Medicaid matching funds could occur if Missouri is out of compliance with federal Medicaid requirements, for example:
 - If the state cuts off Medicaid reimbursements to Catholic hospitals. This could be a result of the requirement in the initiative petitions that the “Government shall not deny or infringe upon a person’s fundamental right to reproductive freedom.” This might include the state requiring Medicaid providers to sterilize patients, dispense puberty blockers or remove sex organs during sex-change operations.
 - This might also include the state requiring hospitals to participate in the horrendous practice of genital mutilation, currently prohibited by state law under [section 568.065](#), and for which no defense is allowed for “a matter of custom, ritual or standard practice, or [by] consent to the conduct by the child.”
 - But because of the broad-based definition of “reproductive health care” in the 11 initiative petitions (“including but not limited to”), state courts could easily find that genital mutilation is constitutionally protected activity, and strike down existing law.
 - However, for the state government to require Catholic health care providers (or others) to provide these procedures, it would be a violation of their conscience rights – for which the federal government could withhold from the state, Medicaid matching dollars.
 - For example, in California in 2020, [HHS disallowed \\$200 million in federal Medicaid matching funds per quarter due to the state’s unlawful abortion insurance mandate](#), which forced a Catholic order of religious sisters and a non-profit Christian Church to provide abortion health insurance coverage. See also:
 - [“The Fight Over California’s Abortion Coverage Mandate,” Regulatory Review](#), February 3, 2021 (“Can a state require that all health plans offered to its residents cover elective abortions? The federal government thinks not, and the state of California is poised to lose at least \$200 million in Medicaid dollars because it insists that health plans in its state cover abortion services.”)

- [“Federal agency says UVM Med Center forced nurse to assist in abortion,” VT Digger](#), August 28, 2019 (“The U.S. Department of Health and Human Services has accused the University of Vermont Medical Center of forcing a nurse to assist in an abortion procedure despite the nurse’s religious objections. ... The [letter from Roger Severino](#), the director of HHS’ Office for Civil Rights, asks the hospital to adjust its policies or face losing the federal funding it receives from HHS.”)
- There might be additional circumstances where state compliance with at least some of the proposed constitutional amendments would force the state to be out of compliance with federal Medicaid law, such as the state paying for abortions (or other procedures) with federal funds that are not permitted to be reimbursed under federal law. For example, the state might be compelled by the terms of some of the initiative petitions to pay for all abortions for all Medicaid-eligible females, because failing to do so might “discriminate against persons” if the state is paying for the labor and delivery of children for all Medicaid-eligible females. In other words, under the state constitution, Missouri might no longer be [“permitted to enact persuasive measures which favor childbirth over abortion”](#) (*Planned Parenthood v. Casey*, 505 U.S. 833, 886 (1992)). Such non-compliance with federal Medicaid law might also apply to other broad-based, undefined “reproductive health care,” which the state might also be compelled to pay for.
- Under the initiative petitions, the “Government shall not discriminate against persons providing or obtaining reproductive health care or assisting another person in doing so.” “Nor shall any person assisting a person in exercising their right to reproductive freedom with that person’s consent be penalized, prosecuted, or otherwise subjected to adverse action for doing so.” Thus, ANY person of ANY age could legally provide, or assist another person in obtaining, an abortion, a sex-change operation, genital mutilation or other unspecified “reproductive health care.” **This could result in numerous, life-altering medical complications to the child or adult who underwent the “reproductive health care.”** Especially with abortion – particularly for abortions performed later in pregnancy – this could result in huge medical costs for her and her child **that are ultimately paid for by taxpayers.**
 - Regarding abortion, in Missouri, the [cost of inpatient medical procedures and emergency department services for treating “issues before childbirth with complications”](#) is a **median charge per person of \$11,977** – with a minimum charges of \$4,140 and a **maximum charge of \$35,345.**
 - And the cost could be even higher for an abortion-related ER visit. [One recent study](#) found that a “[p]atient concealment and/or physician failure to identify a prior abortion during an ER visit is a significant risk factor for a subsequent hospital admission.” In fact, “[c]hemical abortion patients whose abortions are misclassified

- as miscarriages during an ER visit subsequently experience on average 3.2 hospital admissions within 30 days. 86% of the patients ultimately have surgical removal of retained products of conception (RPOC).”
- According to the CDC, in 2020, nearly 10,000 Missouri residents obtained abortions ([9,980 total, but only 167 within the state](#)). Having unlicensed, non-medical personnel permitted to perform or induce abortions within the state on even a fraction of these 10,000 girls or women could result in untold harm to them now – and harm to their future health and fertility.
 - And there might be additional costs to the state or political subdivisions beyond treating the complications to girls or women from being provided abortions by non-physicians or even non-medical personnel. Any low-birthweight infant born alive after a late-term abortion could need long-term NICU care and possibly permanent assistance throughout childhood and during his or her adult life.
 - According to a [2020 New York Times story](#): “The March of Dimes estimates that the average societal cost of each preterm birth, which includes medical care, early intervention services and lost productivity, is \$65,000.”
 - That same story reported on a cost of \$4 million in NICU costs for triplets who were born prematurely.
 - [Preterm birth lifetime costs in the United States](#) (as of 2016) were “estimated to be \$25.2 billion: \$17.1 billion for medical care of persons born preterm, \$2.0 billion for delivery care, \$1.3 billion for early intervention and special education, and \$4.8 billion in lost productivity due to associated disabilities in adults.”
- **Other costs could be the licensing and inspection of multiple locations (potentially thousands of sites) as “abortion facilities,” as required under Missouri law.** This is because [section 197.205](#) requires that no person or governmental unit shall establish, conduct or maintain an abortion facility in the state without a license issued by the Missouri Department of Health and Senior Services (DHSS).
 - [Section 188.015](#) defines an “abortion facility” as “a clinic, physician’s office, or any other place or facility in which abortions are performed or induced other than a hospital”.
 - [Section 197.230](#) states that “[i]n the case of any abortion facility, the department [of health and senior services (DHSS)] shall make or cause to be made an unannounced on-site inspection and investigation at least annually.” Such on-site inspections and investigations must include a variety of areas relating to staffing and equipment to respond to medical emergencies, compliance with Missouri’s abortion laws and the requirement that continuous physician services or registered professional nursing services are to be provided whenever a patient is in the facility.
 - There are [more than 7,000 licensed pharmacists in Missouri](#), and under the proposed constitutional amendment, any pharmacy (or other place) where a pharmacist provides abortion pills, DHSS would be required to inspect and license. **This would**

be an enormous cost to the department and to taxpayers. And any other place where abortion pills would be provided (homes, schools, vending machines, doctor's offices, clinics, etc.) would also have to be inspected at least once a year and licensed.

- **Economic boycotts of Missouri and its businesses could result if the “Show-Me” state becomes the “Abort-Me” state, once it is transformed into the Midwest’s “abortion destination” – a distinct possibility since Missouri is “within a day’s reach of half of U.S. households”.**
 - Just as some pro-abortion advocates in other states are promoting boycotts of states like Missouri that currently protect unborn children from abortion, pro-life advocates in other states might boycott by no longer purchasing from Missouri businesses, or engaging in travel, tourism or shopping in Missouri. How tragic that would be for Missouri, which has been described as one of the top pro-life states in the country.
 - Some “red” states have been prohibiting or attempting to prohibit their governmental entities from doing business with financial firms in other states that take environmental, social and corporate governance (ESG) into consideration, and those same states and additional ones might extend that to any “abortion destination” state – which is what Missouri could become if any one of the 11 initiative petitions is enacted into law.
 - “Missouri tourism provides a \$13.5 billion economic impact that creates more than 257,000 jobs in the state,” according to the Missouri Division of Tourism. It could be a devastating loss to the state and its residents if Missouri became the abortion capital of the Midwest.
- By some estimates, the economic cost to the U.S. of abortion in 2019 – due to the loss of nearly 630,000 unborn lives – was at least \$6.9 trillion, or 32 percent of GDP. **Missouri could experience increased economic loss if the number of abortions increases in the state.** And unsafe, legal abortions in the state could result in the disability of countless women who – perhaps permanently – would be unable to enter or remain in the workforce.
 - According to a June 15, 2022 report of the Joint Economic Committee – Congressional Republicans *The Economic Cost of Abortion* – the economic cost of an abortion due to the loss of unborn lives is 425 times larger than the earnings loss mothers could be expected to incur when having a child.”
 - According to a key finding in the report: “In the long run, abortion shrinks the labor force, stunts innovation, and limits economic growth. It also weakens the solvency of social insurance programs like Social Security and Medicare that rely on workers to support a growing elderly population.”
 - And as the International Planned Parenthood Federation has noted: “**Unsafe abortions** are performed by un- or under-trained providers ... It is possible to have an unsafe, legal abortion.” (underlining added)

- Under the initiative petitions, “any person assisting a person in exercising their right to reproductive freedom” shall not “be penalized, prosecuted, or otherwise subjected to adverse action for doing so.” Thus, unlicensed, untrained persons of ANY age could perform unsafe, legal abortions or other “reproductive health care,” and the “Government shall not discriminate against persons ... in doing so.” While the economic cost of this policy is incalculable, more important and horrifying, the human cost to Missouri’s citizens is unimaginable.

Auditor Fitzpatrick, if we can be of further assistance, please do not hesitate to contact us.

David C. Drury, Attorney at Law provided the following information:

Dear Auditor Fitzpatrick:

I am a licensed attorney in the St. Louis Metropolitan area who has practiced law here for the last fifty years.

Eleven similar proposals to destroy major Missouri laws which have existed for decades are being suggested by petition numbers 2024-077 to 2024-087.

As you are aware, section 116.175 et al requires that a fiscal note and fiscal note summary state a measure's estimated cost or savings to any state or local governmental entity. In general, a strong fiscal outlook is an essential foundation for a growing, thriving economy. The gap between income and spending is subsequently closed by government borrowing, something to ideally be avoided. Moreover, voters, especially in this conservative state, should be informed and educated of the costs of measures so radical they reverse and erase in one fell swoop the studied product of elected representatives. Indeed, the cost of a proposal may be the reason a voter decides against it.

As commented, the above proposals, although different in some respects, all contain much identical language. For example, the Preamble and first three numbered paragraphs (except 077 uses the word "entails" in line 2 or paragraph 2) are the same. All contain a "discrimination" paragraph, a "severability clause, and the definitions of "Government" are copied throughout. Other deletions or additions to the submissions do not detract from the fact that multiple unfavorable fiscal consequences will result if passage of any happens. So, I feel it is fair to say that these comments relate to each and every variation, rather than to repeat the same points one by one, over and over.

Another observation about which no one can reasonably disagree is that these are extremely broad, and being so broad are vague and ambiguous. Applications can be to an expansive variety of situations, all at costs to the state and local governmental agencies. This is especially the case in light of the present political structure of the federal government, and of course many federal monies flow to the State of Missouri. Another way of saying this, although a somewhat different point, is the potential, actually a likelihood, that direction of funding can be "weaponized", so state laws conform to federal ones. Thus, the state of Missouri is "fiscally" affected. The federal government and the states do not exist as if there is a wall in between. Money flows back and forth, and thus a state can easily be targeted and penalized by federal legislative and executive actions.

Most recently as this week President Biden proclaimed that it was "cruel" and "close to sinful" for Florida to ban subjecting children to sex-change procedures. (Not to subject the children, but to ban subjecting the children)! The aforesaid ballot proposals insist that the "right to reproductive freedom" shall not be denied, interfered with, delayed, or otherwise restricted, and governmental action should be deemed invalid. The ballot also uses language in paragraph 2 of all versions the clause "not limited to". It would thus appear that the subject of sex-change procedures, is included. Similarly, some of the

suggested versions require no parental or guardian consent whatsoever, and others only superficially address the subject with a sure-fire exception that a health care professional (not even a treating physician) can approve an abortion without consent if he/she thinks that getting consent may lead to emotional harm to the minor. All of the proposals do not even require that a physician is necessary to provide medical care. In fact you don't even need any license. Medical malpractice will automatically result. The harm to patients for this poor care, and the cost to the State for care of these patients will be an adverse fiscal result.

All of the above circumstances, would lead responsible hospitals and medical care providers to practice their profession with higher and different standards. And so they would refuse to abide by the above random, and harmful, provisions. Next, we come to the subject of "who is going to pay the bill"? Medicaid, as we know, pays an enormous amount of medical charges. Hospitals and doctors get reimbursed by the State, but the State must comply with federal law. If a State fails to follow the law, for the federal portion, which is over half, it may not get reimbursed. The State suffers fiscally. My numbers are that the State of Missouri receives 12.5 billion in federal Medicaid money.

What if, for example, Cardinal Glennon Hospital in St. Louis refused to perform sex change surgery on a minor, with or without parental consent, in its hospital? It is against its religious beliefs, among many other reasons. Can the hospital be denied Medicaid funds? The text of the proposals require such. The President has just declared that refusing to perform this is "cruel". If the State foots the bill and does not get reimbursed from the federal government, this is a fiscal loss.

Is medical insurance required to pay for "reproductive health care"? If so, these are expensive fiscal consequences of the proposals.

The proposals also yield enormous costs to the State in situations where persons or institutions refuse care against their medical "standard of care" but do not even require a license (creating a breeding ground for malpractice, and all of the expenses that come with it). With Medicaid, the state pays part of the bill, but may not get reimbursed the rest if the proposed bill is not followed. What about the "religious beliefs" of medical care providers. If, for example, Catholic hospitals are penalized, the State of Missouri could also be "fiscally" penalized.

What about the issue of prescribing pills to induce abortion---chemical abortion? Do these proposals mean that all care providers must not deny, restrict, or delay this form of abortion? Is the "government" discriminating against patients by not requiring care providers including pharmacists to dispense the pills? Can they be penalized by withholding of Medicaid payments?

The issue of federal Medicaid funds being disallowed has come up before. In December 2020 HHS and OCR announced that \$200 million in federal Medicaid funds going to California in the upcoming quarter were being denied. This was due to the state illegally mandating that all health care plans subject to regulation by the California Department

of Managed Health Care cover abortion without exclusion or limitation. Furthermore, if California did not come into compliance, additional disallowances would be imposed at a rate of \$200 million per quarter. In a Vermont case, receipt of federal funds because of discrimination against an employee who refused to participate in abortions was threatened. I mention this because of the potential fiscal effect on the State of Missouri if one of these proposals was passed.

So as not to overlook the obvious, the proposals if passed would surely make abortions easier in this state, depriving the state of countless future taxpaying citizens. These persons, if allowed to live, would work, create and staff businesses, produce products, and in general contribute to the economy. A growing population encourages others to move here which in turn results in additional fiscal activity. And, although much of the above addresses Medicaid costs, since fewer workers will be around to contribute to the Medicare system, this system will be under fiscal stress also.

These are only some of the immediate, short-term, and permanent unfortunate fiscal consequences to State and local government if any of the proposals pass.

Thank you for considering this information.

**Rachel U. Greszler, Senior Research Fellow in Economics, Budgets, and Entitlements,
The Heritage Foundation** provided the following information:

Date: March 17, 2023

State Auditor's Office
State Capitol
201 West Capitol Ave.
Jefferson City, MO 65101

Dear Auditor Fitzpatrick,

Per Missouri's [fiscal impact](#) provisions, I have prepared the below fiscal note comments on the proposed ballot initiative "A Constitutional Amendment Concerning the Regulation of Abortion" as submitted to your office on March 9, 2023 as initiative petitions 24-077 through 24-087. My comments are my own and should not be construed as representing any official position of the Heritage Foundation.

Missouri is considering laws that would make abortion legal and easily accessible. The State should not take that step, simply because it would result in the death of thousands of innocent human beings. I offer this fiscal note to provide additional reasons that might persuade those who wrongly doubt that unborn human babies are persons.

By significantly reducing the number of births in the state, these laws would reduce the state's population growth and generate short- and long-term impacts on the state's output and its government finances. Abortion laws could also impact individuals' and families' personal finances, health, and wellbeing in ways that affect states revenues and expenses.

Population growth and economic growth go hand in hand so long as the necessary resources and infrastructure are in place to support that growth. Those resources and infrastructure are in place and the U.S. faces an unprecedented labor shortage. Recent declines in fertility rates threaten to reduce population growth and current and future economic growth. Moreover, government debt has created a situation in which the future wellbeing of current residents is dependent upon a growing population and workforce to pay for current debts and for unfunded obligations promised to retirees.

Since 2007, the [total fertility rate](#) in the U.S. declined from 2.11 births per woman (right at replacement rate) to just 1.66 births per woman in 2021. Missouri's total fertility rate declined from 2.08 in 2007 to 1.60 in 2021.

Compared to current law (in which abortion is illegal in Missouri except in instances in which the woman's life is in danger or her health is severely compromised), the proposed laws could

lead to an additional [2,000 to 9,000 abortions per year](#) in Missouri, depending on how expansive abortion access would become.¹ Based on population projections from the Census Bureau, and assuming a one-for-one correlation between increased abortions and reduced population, the proposed abortion laws could reduce Missouri's projected population by 0.3 percent to 1.4 percent over the next 10 years and by 0.6 percent to 2.7 percent over the next 20 years.

The state needs to consider the following potential effects of abortion-induced population decline in its impact analysis:

A reduced labor force. Fewer births and a smaller population means a smaller future labor force. While proponents of abortion make the economic case that abortion enables women to work and earn more, the additional measurable work and earnings of women as a result of having an abortion is miniscule compared to the potential lifetime work and earnings of another human being. Moreover, while having a child can reduce mothers' work and earnings, it tends to increase fathers' work and earnings—a factor that is ignored in abortion advocates economic claims.

Healthcare strain. Already, the U.S. faces [serious shortages](#) of healthcare workers and the population is continuing to age. Young people (those who would be aborted over the coming decades as a result of the proposed laws) consume very little healthcare, and as they reach working age, they are net providers of healthcare. This means the proposed laws could exacerbate healthcare worker shortages, limit Missourians' [access to healthcare](#), and potentially drive up the state's [healthcare costs](#) as shortages lead to higher prices. With Medicaid being Missouri's largest budgetary item (in FY 2022, Missouri's Medicaid spending was 74 percent greater than its K-12 education spending), and the state being limited by the federal government in its ability to reduce Medicaid spending, higher healthcare costs could impose significant budget constraints.

Reduced tax revenues. In the immediate future, fewer children born in Missouri could reduce sales and real estate tax revenues because households with children spend more and tend to live in higher-value housing. While the income tax revenues of women who have children could be lower if they work less after having children, the work and [earnings of men](#) tend to rise after they have children. In the decades following increased abortions, the absence of potentially tens of thousands of workers would lead to reduced income tax revenues. Although some state expenses are proportional to the number of residents and would decline over time, many expenses are not, and declining revenues would necessitate higher taxes or spending cuts.

Exacerbated unfunded pensions and other post-employment benefits. Depending on different assumptions and risk levels, Missouri has between [\\$36 billion](#) and [\\$171 billion](#) in unfunded pension and [other post-employment benefits](#). That is money that has already been promised to public sector workers and retirees, but which has not been set aside to provide those benefits. The American Legislative Exchange Council estimates that Missouri's unfunded pension liabilities alone amount to [\\$26,965 per capita](#) in 2021, and these unfunded liabilities are

¹ Estimated increase based on the number of abortions in Missouri, as reported by the [Missouri Department of Health and Senior Services](#) and the [Guttmacher Institute](#), reporting roughly 9,000 abortions around 2000-2001 and about 2,000 abortions around 2020-2021.

continuing to grow. The fewer people Missouri has, the larger the per-capita liabilities become, and the harder it will be to raise taxes on workers and employers without them moving to other states. Among many consequences, [economic analysis](#) shows that unfunded pension obligations lead to lower real estate values, which would reduce property tax revenues.

Conclusion

It is an unquestionable fact that the U.S. Constitution requires all state and local governments to uphold Americans' most fundamental natural rights, including that of the right to life. Not counting unborn humans as living beings and treating abortion as an exercise in economic eugenics is an assault on these rights and values.

Even then, the fiscal and economic perspectives of abortion advocates are lacking sufficient economic rigor. I offer this fiscal analysis that provides good reasons to reject the proposed amendments on premises that abortion advocates may be able to accept.

The proposed laws to legalize and expand abortion access in Missouri warrant a properly conducted fiscal analysis. As a part of the debate, policymakers must consider how increased abortions will affect Missouri's population, workforce, fundamental services such as healthcare, the states tax revenues and expenditures, and Missouri's ability to make good on its unfunded pension and other post-employment benefit obligations.

Respectfully,

Rachel U. Greszler
Senior Research Fellow in Economics, Budgets, and Entitlements
The Heritage Foundation

STATE AUDITORS OFFICE

RE: Petition approval request from Anna Fitz-James regarding a proposed constitutional amendment to Article I, version 2 (2024-078)

Dear Auditor Fitzpatrick:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Anna Fitz-James on March 8, 2023.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

NOTICE: The proposed amendment revises Article I of the Constitution by adopting one new Section to be known as Article I, Section 36.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article I of the Constitution is revised by adopting one new Section to be known as Article I, Section 36 to read as follows:

Section 36. 1. This Section shall be known as “The Right to Reproductive Freedom Initiative.”

2. The Government shall not deny or infringe upon a person’s fundamental right to reproductive freedom, which is the right to make and carry out decisions about all matters relating to reproductive health care, including but not limited to prenatal care, childbirth, postpartum care, birth control, abortion care, miscarriage care, and respectful birthing conditions.

3. The right to reproductive freedom shall not be denied, interfered with, delayed, or otherwise restricted unless the Government demonstrates that such action is justified by a compelling governmental interest achieved by the least restrictive means. Any denial, interference, delay, or restriction of the right to reproductive freedom shall be presumed invalid. For purposes of this Section, a governmental interest is compelling only if it is for the limited purpose and has the limited effect of improving or maintaining the health of a person seeking care, is consistent with widely accepted clinical standards of practice and evidence-based medicine, and does not infringe on that person’s autonomous decision-making.

4. No person shall be penalized, prosecuted, or otherwise be subject to adverse action based on their actual, potential, perceived, or alleged pregnancy outcomes, including but not limited to miscarriage, stillbirth, or abortion. Nor shall any person assisting a person in exercising their right to reproductive freedom with that person’s consent be penalized, prosecuted, or otherwise subjected to adverse action for doing so.

5. The Government shall not discriminate against persons providing or obtaining reproductive health care or assisting another person in doing so.

6. If any provision of this Section or the application thereof to anyone or to any circumstance is held invalid, the remainder of those provisions and the application of such provisions to others or other circumstances shall not be affected thereby.

7. For purposes of this Section, the term “Government” means:

(1) the state of Missouri; or

(2) any municipality, city, town, village, township, district, authority, public subdivision or public corporation having the power to tax or regulate, or any portion of two or more such entities within the state of Missouri.

**MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (24-078)**

Subject

Initiative petition from Anna Fitz-James regarding a proposed constitutional amendment to Article I. (Received March 9, 2023)

Date

March 29, 2023

Description

This proposal would amend Article I of the Missouri Constitution.

The amendment is to be voted on in November 2024.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office**, the **Department of Agriculture**, the **Department of Economic Development**, the **Department of Elementary and Secondary Education**, the **Department of Higher Education and Workforce Development**, the **Department of Health and Senior Services**, the **Department of Commerce and Insurance**, the **Department of Mental Health**, the **Department of Natural Resources**, the **Department of Corrections**, the **Department of Labor and Industrial Relations**, the **Department of Revenue**, the **Department of Public Safety**, the **Missouri Department of the National Guard**, the **Department of Social Services**, the **Governor's office**, the **Missouri House of Representatives**, the **Department of Conservation**, the **Department of Transportation**, the **Office of Administration**, the **Office of State Courts Administrator**, the **Missouri Senate**, the **Secretary of State's office**, the **Office of the State Public Defender**, the **State Treasurer's office**, **Adair County**, **Boone County**, **Callaway County**, **Cass County**, **Clay County**, **Cole County**, **Greene County**, **Jackson County**, **Jasper County**, **St. Charles County**, **St. Louis County**, **Taney County**, the **City of Cape Girardeau**, the **City of Columbia**, the **City of Jefferson**, the **City of Joplin**, the **City of Kansas City**, the **City of Kirksville**, the **City of Mexico**, the **City of Raymore**, the **City of St. Joseph**, the **City of St. Louis**, the **City of Springfield**, the **City of Union**, the **City of Wentzville**, the **City of West Plains**, **Cape Girardeau 63 School District**, **Hannibal 60 School District**, **Malta Bend R-V School District**, **Mehlville School District**, **Wellsville-Middletown R-1 School District**, **State Technical College of Missouri**, **Metropolitan Community College**, **University of Missouri**, and **St. Louis Community College**.

Susan Klein, Executive Director, Missouri Right to Life provided information to the State Auditor's office.

Samuel H. Lee, Campaign Life Missouri provided information to the State Auditor's office.

David C. Drury, Attorney at Law provided information to the State Auditor's office.

Rachel U. Greszler, Senior Research Fellow in Economics, Budgets and Entitlements, The Heritage Foundation provided information to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no impact.

Officials from the **Department of Economic Development** indicated no fiscal impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated they have reviewed initiative petition 24-078 and determined there is no fiscal impact to their agency.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated initiative petition 24-078 is identical to 24-077 with the following exception:

Removes Section 36.6, which states "Nothing in this Section requires government funding of abortion procedures other than as required by federal law."

Comments:

The fiscal impact for 24-078 is the same as the fiscal impact for 24-077 and is as follows:

- FY 2024 General Revenue: (\$0 to Unknown)
- FY 2025 General Revenue: (\$0 to Unknown)
- FY 2026 General Revenue: (\$0 to Unknown)

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no anticipated cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipate no fiscal impact for this initiative petition proposing to amend Article I.

Officials from the **Department of Revenue** indicated the initiative petition does not have an impact on their department.

Officials from the **Department of Public Safety** indicated no impact for their department, Director's office.

Officials from the **Missouri Department of the National Guard** indicated no fiscal impact to their department.

Officials from the **Department of Social Services** indicated they do not anticipate a fiscal impact as a result of this petition.

Officials from the **Governor's office** indicated this proposal relating to reproductive issues does not financially impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated Initiative Petition 24-078 has no anticipated fiscal impact on their department.

Officials from the **Department of Transportation** indicated no fiscal impact expected for their department or the Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal relating to reproductive issues will not financially impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be \$10 million based on the cost of the 2022 primary and general election reimbursements.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

For the FY22 petitions cycle, their office estimates publication costs at \$70,000 per page. This amount is subject to change based on number of petitions received, length of those petitions and rates charged by newspaper publishers.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition has no fiscal impact on their office.

Officials from the **State Treasurer's office** indicated no fiscal impact is anticipated to their office.

Officials from **Clay County** indicated they estimate no fiscal impact as a result of this initiative.

Officials from **Greene County** indicated in reviewing initiative petition 24-078 it has been determined there will be an increased cost to the County of Greene due to loss of tax revenue if voters vote to amend Article I.

The Missouri Department of Health & Senior Services recorded 135 "resident abortions" for Greene County in 2020 and 118 in 2021. The population of Greene County per the 2020 United States census was 298,915. (<https://www.census.gov/quickfacts/fact/table/greene-county-missouri/PST045221>)

In terms of economic impact, Greene County received \$112,673,249 in sales and property taxes for calendar year 2022 (**\$376.94** per capita based on **2020** census data). Accordingly, calculations from these figures indicate an annual loss in population of **135** represents a cost to the County of **\$50,886.90**; an increase in abortion statistics could reasonably be extrapolated to illustrate less tax collections and revenues over the years of potential working lifetimes.

Please see the attached table demonstrating the anticipated yearly on per capita basis and the overall fiscal impact on Greene County tax collections and revenues based on the recorded abortions in 2020 by Missouri Department of Health and Senior Services.

Additional research regarding the broader fiscal impact of lower fertility rates on local and state communities and government budgets may be found here:

- <https://www.pewtrusts.org/en/research-and-analysis/issue-briefs/2022/12/the-long-term-decline-in-fertility-and-what-it-means-for-state-budgets>

Greene County Collections in 2022	
2020 Population	298,915
Total Sales Tax Collected	126,986,094.91
Parks I	(8,226,052.01)
Parks II	(8,773,337.47)
Dan Kinney Bond from Parks I	(551,342.50)

Strafford TIF	(24,374.44)
Springfield Plaza TIF	(174,240.83)
Sales Tax Subtotal	97,604,884.45
Real Estate Tax	12,222,341.99
Personal Property Tax	2,846,022.58
Property Tax SubTotal	15,068,364.57
Total Taxes	112,673,249.02
Per Capita	376.94
Annual lost population	135
Annual Cost	50,886.90

Officials from **St. Louis County** indicated this has no fiscal impact on their county.

Officials from the **City of Jefferson City** indicated they do not think there would be a direct fiscal impact to the City of Jefferson imposed by Initiative Petition 24-078 proposing to amend Article I. There could be an indirect fiscal impact resulting from increased lawsuits related to violations of the act.

Officials from the **City of Kansas City** indicated this proposed amendment would have no fiscal impact on their city.

Officials from **Metropolitan Community College** indicated no fiscal impact.

Officials from the **St. Louis Community College** indicated they have reviewed the initiative petition and believe the initiative would have no direct cost or revenue impact.

Susan Klein, Executive Director, Missouri Right to Life provided the following information:

March 15, 2023

Office of the Missouri State Auditor
The Honorable Scott Fitzpatrick
301 West High Street, Room 880
Jefferson City, MO 65102

Dear Auditor Fitzpatrick,

On behalf of the Members, Board and Staff of Missouri Right to Life, I submit to you our comments for consideration and inclusion in the fiscal note you will be preparing regarding the effects to the State of Missouri and its Local Governments of Initiative Petition(s) 2024-077 through 2024-087.

The Petitions Would Create Devastating Impacts for Missouri's Budget:

On March 8, 2023, 11 proposed initiative petitions (2024-077 through 2024-087) were filed with the Missouri Secretary of State's Office by Anna Fitz-James for a campaign committee called "Missourians for Constitutional Freedom." While each initiative petition has some slight variations, they are all identical in their purpose and their fiscal effects to General Revenue, Federal Funds, and Other Funds received by the State of Missouri and the impact to local governments.

The fiscal effects of some of the impacts of the petition(s) follow:

- **Abortion Injuries, Sanctions, Litigation and Loss of Federal Funding:** The petition will allow for abortions to be performed up until the moment of birth and possibly beyond. In addition to the loss of the life of the unborn child and the ending of his or her priceless contributions to our state and society, surgical and chemical abortions have risks and complications to the health of the mother. The cost impacts of surgical and medical abortion physical injuries would result in a devastating impact to Missouri's balanced budget due to an expansion of costs for Missouri's state and Federally-funded healthcare programs. In addition, women endure emotional trauma after an abortion. A massive increase in funding for mental health services would be required. Under current Federal law, states are barred from using Federal funds to pay for abortions except in limited cases (the Hyde Amendment). Federal funding could be in jeopardy and Missouri could be subject to the risk of litigation and sanctions, including the possibility of deferral or disallowance of federal financial participation in Missouri's Medicaid program. In 2019, more than \$7.2 billion in Federal funds were budgeted for Mo HealthNet services (Department of Social Services, Department of Mental Health, and Department of Health and Senior Services). The loss of these funds would be devastating to Missouri.

- **Loss of Licensing Fee Revenues/Penalties:** The petition will allow for anyone to perform an abortion with no penalty, prosecution or adverse action for performing the abortion. An abortion provider would no longer have a reason to maintain his or her license with the State of Missouri (and anyone who chose to perform an abortion would be protected under the Constitution to do so without any regulations or consequences). Missouri laws and regulations would be nullified, and licensing fees normally collected would decline.
- **Rural Hospitals Impacted:** Rural hospitals are already struggling. The petition will allow anyone to perform an abortion with no penalty, prosecution or regulation, and will result in a skyrocketing number of women injured by abortion who will need emergency services, flooding Emergency Rooms and health clinics and limiting or delaying access to emergency healthcare services needed by other individuals. This will result in a fiscal impact to the state. The state will also experience a fiscal impact through staff shortages as abortion-injured state employees seek medical care, surgery and recovery time off work to manage complications of abortion.
- **Missouri Could Face a Budgetary Crisis Due to Loss of Federal Funding from Violating Federal Conscience Laws:** The petition will force Missouri to be out of compliance with Federal conscience laws. This could result in the loss of billions of dollars of Federal funding, litigation and sanctions. If the Federal Government sanctions Missouri due to these violations, this will be devastating and create a budgetary crisis in Missouri. The state will also experience a fiscal impact through staff shortages as state employees flee state jobs where they feel their conscience is violated due to being forced to assist with an abortion.
- **Abortions Funded With Public Tax Dollars:** The petition will allow for the funding of abortions with public tax dollars. The language does not prohibit government funding of abortion procedures or of abortion providers. This would result in a massive fiscal impact to Missouri's balanced budget.
- **Constitutional Protections for Human Traffickers:** The petition will allow for anyone to perform, or assist with, an abortion with no penalty, prosecution or adverse action for performing the abortion. This would result in Constitutional protections for child sex traffickers who impregnate their victims and coerce them into an abortion and would render ineffective Missouri law enforcement, prosecution and justice efforts tasked with upholding our Constitution and laws. The petition could hamper the Federal Government's efforts under The Trafficking Victims Protection Act of 2000 and other Federal laws and could result in sanctions from any Federal funding that Missouri would otherwise be eligible to receive.
- **Sex Changes, et. al, Funded With Public Tax Dollars:** The petition, under the guise of "The Right to Reproductive Freedom," will allow the funding of sex change surgeries, puberty blockers, hormone therapy and other "reproductive services" with public tax dollars. This would result in a massive fiscal impact to Missouri's balanced budget.

In summary, any fiscal note of the petition(s) should contain the following language and should also include the estimated fiscal net effects to the State of Missouri and its local government:

This initiative petition (a) will allow for abortions to be performed up until the moment of birth and possibly beyond, which would put Missouri in jeopardy of losing billions of dollars of Federal funding and create an unplanned strain on the state's General Revenue, Other and Local Funds as a result of abortion injuries, sanctions, litigation, loss of licensing fee/penalty revenues, and overloaded emergency rooms and healthcare facilities, (b) will put Missouri in violation of Federal conscience laws, which could result in a loss of billions of dollars of Federal funding and an increase of state and local government employee vacancies and litigation due to exercising their rights of conscience, (c) will allow for anyone to perform, or assist with, an abortion with no penalty, prosecution or adverse action for performing the abortion, thereby creating Constitutional protections for Human Traffickers which could result in a loss of Federal funding, and (d) will allow for the funding of abortions, sex change surgeries, puberty blockers, hormone therapy and other "reproductive services" with public tax dollars which would result in a massive fiscal impact to the State of Missouri and its local government budgets.

Sincerely,

A handwritten signature in black ink that reads "Susan Klein". The signature is written in a cursive, flowing style.

Susan Klein
Executive Director
Missouri Right to Life

Samuel H. Lee, Campaign Life Missouri provided the following information:

Samuel Lee
Director

March 16, 2023

State Auditor's Office
State Capitol
201 West Capitol Ave.
Jefferson City, MO 65101

Dear Auditor Fitzpatrick,

In accordance with the provisions of [section 116.175](#), this is a proposed statement of the fiscal impact of the 11 initiative petitions numbered 24-077 through 24-087, which your office received on March 9, 2023.

To summarize, the proposed ballot measures – all of which would amend the Missouri Constitution – could result in:

- A decrease in federal Medicaid revenues by an unknown amount, up to \$12.5 billion annually.
- Increased costs to taxpayers of unknown amounts, because of medical treatment of, or other services for, children or adults injured by abortions, sex-change operations, genital mutilation or other unspecified “reproductive health care” performed by unlicensed or untrained persons.
- Increased costs of an unknown amount to the Department of Health and Senior Services for the inspection and licensing of thousands of abortion facilities.
- Loss of revenue of unknown amounts to the state and its political subdivisions, because of boycotts of businesses, shopping, tourism or other revenue-generating activities, as a result of Missouri becoming the Midwest’s “abortion destination” state.
- Long-term loss of revenues of unknown amounts to the state and its political subdivisions, because of a decrease in the workforce due to the number of children who are aborted before birth. Also, because of individuals who can no longer work after they become disabled as a result of unsafe abortions, sex-change operations, genital mutilation or other unspecified, unsafe “reproductive health care.” But more important than fiscal costs, the human cost to Missouri’s citizens is unimaginable.

Former-Auditor Galloway made a comparable analysis of the fiscal impacts when she issued her fiscal note and fiscal note summary on [HB 126 \(20-R001 on June 19, 2019\)](#) – the subject of a

referendum that year. Her fiscal note summary became part of the [official ballot title certified by Secretary of State on August 14, 2019](#), for the referendum on HB 126.

Supporting Information on Fiscal Impact of the 11 Initiative Petitions:

- The loss of federal Medicaid matching dollars, which in the proposed fiscal year 2024 budget **would be a loss of nearly \$12.5 billion**.
 - In FY 2023, Missouri lawmakers appropriated about \$16.9 billion for Medicaid (MO HealthNet) across state agencies. [The majority of Medicaid financing in 2023 – \\$10.6 billion – came from federal matching funds](#). The governor’s proposed budget for MO HealthNet for FY 2024 is nearly \$19.3 billion – [almost \\$12.5 billion which would come from federal funds](#).
 - The loss of federal Medicaid matching funds could occur if Missouri is out of compliance with federal Medicaid requirements, for example:
 - If the state cuts off Medicaid reimbursements to Catholic hospitals. This could be a result of the requirement in the initiative petitions that the “Government shall not deny or infringe upon a person’s fundamental right to reproductive freedom.” This might include the state requiring Medicaid providers to sterilize patients, dispense puberty blockers or remove sex organs during sex-change operations.
 - This might also include the state requiring hospitals to participate in the horrendous practice of genital mutilation, currently prohibited by state law under [section 568.065](#), and for which no defense is allowed for “a matter of custom, ritual or standard practice, or [by] consent to the conduct by the child.”
 - But because of the broad-based definition of “reproductive health care” in the 11 initiative petitions (“including but not limited to”), state courts could easily find that genital mutilation is constitutionally protected activity, and strike down existing law.
 - However, for the state government to require Catholic health care providers (or others) to provide these procedures, it would be a violation of their conscience rights – for which the federal government could withhold from the state, Medicaid matching dollars.
 - For example, in California in 2020, [HHS disallowed \\$200 million in federal Medicaid matching funds per quarter due to the state’s unlawful abortion insurance mandate](#), which forced a Catholic order of religious sisters and a non-profit Christian Church to provide abortion health insurance coverage. See also:
 - [“The Fight Over California’s Abortion Coverage Mandate,” Regulatory Review](#), February 3, 2021 (“Can a state require that all health plans offered to its residents cover elective abortions? The federal government thinks not, and the state of California is poised to lose at least \$200 million in Medicaid dollars because it insists that health plans in its state cover abortion services.”)

- [“Federal agency says UVM Med Center forced nurse to assist in abortion,” VT Digger](#), August 28, 2019 (“The U.S. Department of Health and Human Services has accused the University of Vermont Medical Center of forcing a nurse to assist in an abortion procedure despite the nurse’s religious objections. ... The [letter from Roger Severino](#), the director of HHS’ Office for Civil Rights, asks the hospital to adjust its policies or face losing the federal funding it receives from HHS.”)
- There might be additional circumstances where state compliance with at least some of the proposed constitutional amendments would force the state to be out of compliance with federal Medicaid law, such as the state paying for abortions (or other procedures) with federal funds that are not permitted to be reimbursed under federal law. For example, the state might be compelled by the terms of some of the initiative petitions to pay for all abortions for all Medicaid-eligible females, because failing to do so might “discriminate against persons” if the state is paying for the labor and delivery of children for all Medicaid-eligible females. In other words, under the state constitution, Missouri might no longer be [“permitted to enact persuasive measures which favor childbirth over abortion”](#) (*Planned Parenthood v. Casey*, 505 U.S. 833, 886 (1992)). Such non-compliance with federal Medicaid law might also apply to other broad-based, undefined “reproductive health care,” which the state might also be compelled to pay for.
- Under the initiative petitions, the “Government shall not discriminate against persons providing or obtaining reproductive health care or assisting another person in doing so.” “Nor shall any person assisting a person in exercising their right to reproductive freedom with that person’s consent be penalized, prosecuted, or otherwise subjected to adverse action for doing so.” Thus, ANY person of ANY age could legally provide, or assist another person in obtaining, an abortion, a sex-change operation, genital mutilation or other unspecified “reproductive health care.” **This could result in numerous, life-altering medical complications to the child or adult who underwent the “reproductive health care.”** Especially with abortion – particularly for abortions performed later in pregnancy – this could result in huge medical costs for her and her child **that are ultimately paid for by taxpayers.**
 - Regarding abortion, in Missouri, the [cost of inpatient medical procedures and emergency department services for treating “issues before childbirth with complications”](#) is a **median charge per person of \$11,977** – with a minimum charges of \$4,140 and a **maximum charge of \$35,345.**
 - And the cost could be even higher for an abortion-related ER visit. [One recent study](#) found that a “[p]atient concealment and/or physician failure to identify a prior abortion during an ER visit is a significant risk factor for a subsequent hospital admission.” In fact, “[c]hemical abortion patients whose abortions are misclassified

- as miscarriages during an ER visit subsequently experience on average 3.2 hospital admissions within 30 days. 86% of the patients ultimately have surgical removal of retained products of conception (RPOC).”
- According to the CDC, in 2020, nearly 10,000 Missouri residents obtained abortions ([9,980 total, but only 167 within the state](#)). Having unlicensed, non-medical personnel permitted to perform or induce abortions within the state on even a fraction of these 10,000 girls or women could result in untold harm to them now – and harm to their future health and fertility.
 - And there might be additional costs to the state or political subdivisions beyond treating the complications to girls or women from being provided abortions by non-physicians or even non-medical personnel. Any low-birthweight infant born alive after a late-term abortion could need long-term NICU care and possibly permanent assistance throughout childhood and during his or her adult life.
 - According to a [2020 New York Times story](#): “The March of Dimes estimates that the average societal cost of each preterm birth, which includes medical care, early intervention services and lost productivity, is \$65,000.”
 - That same story reported on a cost of \$4 million in NICU costs for triplets who were born prematurely.
 - [Preterm birth lifetime costs in the United States](#) (as of 2016) were “estimated to be \$25.2 billion: \$17.1 billion for medical care of persons born preterm, \$2.0 billion for delivery care, \$1.3 billion for early intervention and special education, and \$4.8 billion in lost productivity due to associated disabilities in adults.”
- **Other costs could be the licensing and inspection of multiple locations (potentially thousands of sites) as “abortion facilities,” as required under Missouri law.** This is because [section 197.205](#) requires that no person or governmental unit shall establish, conduct or maintain an abortion facility in the state without a license issued by the Missouri Department of Health and Senior Services (DHSS).
 - [Section 188.015](#) defines an “abortion facility” as “a clinic, physician’s office, or any other place or facility in which abortions are performed or induced other than a hospital”.
 - [Section 197.230](#) states that “[i]n the case of any abortion facility, the department [of health and senior services (DHSS)] shall make or cause to be made an unannounced on-site inspection and investigation at least annually.” Such on-site inspections and investigations must include a variety of areas relating to staffing and equipment to respond to medical emergencies, compliance with Missouri’s abortion laws and the requirement that continuous physician services or registered professional nursing services are to be provided whenever a patient is in the facility.
 - There are [more than 7,000 licensed pharmacists in Missouri](#), and under the proposed constitutional amendment, any pharmacy (or other place) where a pharmacist provides abortion pills, DHSS would be required to inspect and license. **This would**

be an enormous cost to the department and to taxpayers. And any other place where abortion pills would be provided (homes, schools, vending machines, doctor's offices, clinics, etc.) would also have to be inspected at least once a year and licensed.

- **Economic boycotts of Missouri and its businesses could result if the “Show-Me” state becomes the “Abort-Me” state, once it is transformed into the Midwest’s “abortion destination” – a distinct possibility since Missouri is “within a day’s reach of half of U.S. households”.**
 - Just as some pro-abortion advocates in other states are promoting boycotts of states like Missouri that currently protect unborn children from abortion, pro-life advocates in other states might boycott by no longer purchasing from Missouri businesses, or engaging in travel, tourism or shopping in Missouri. How tragic that would be for Missouri, which has been described as one of the top pro-life states in the country.
 - Some “red” states have been prohibiting or attempting to prohibit their governmental entities from doing business with financial firms in other states that take environmental, social and corporate governance (ESG) into consideration, and those same states and additional ones might extend that to any “abortion destination” state – which is what Missouri could become if any one of the 11 initiative petitions is enacted into law.
 - “Missouri tourism provides a \$13.5 billion economic impact that creates more than 257,000 jobs in the state,” according to the Missouri Division of Tourism. It could be a devastating loss to the state and its residents if Missouri became the abortion capital of the Midwest.
- By some estimates, the economic cost to the U.S. of abortion in 2019 – due to the loss of nearly 630,000 unborn lives – was at least \$6.9 trillion, or 32 percent of GDP. **Missouri could experience increased economic loss if the number of abortions increases in the state.** And unsafe, legal abortions in the state could result in the disability of countless women who – perhaps permanently – would be unable to enter or remain in the workforce.
 - According to a June 15, 2022 report of the Joint Economic Committee – Congressional Republicans’ The Economic Cost of Abortion – the economic cost of an abortion due to the loss of unborn lives is 425 times larger than the earnings loss mothers could be expected to incur when having a child.”
 - According to a key finding in the report: “In the long run, abortion shrinks the labor force, stunts innovation, and limits economic growth. It also weakens the solvency of social insurance programs like Social Security and Medicare that rely on workers to support a growing elderly population.”
 - And as the International Planned Parenthood Federation has noted: “**Unsafe abortions** are performed by un- or under-trained providers ... It is possible to have an unsafe, legal abortion.” (underlining added)

- Under the initiative petitions, “any person assisting a person in exercising their right to reproductive freedom” shall not “be penalized, prosecuted, or otherwise subjected to adverse action for doing so.” Thus, unlicensed, untrained persons of ANY age could perform unsafe, legal abortions or other “reproductive health care,” and the “Government shall not discriminate against persons ... in doing so.” While the economic cost of this policy is incalculable, more important and horrifying, the human cost to Missouri’s citizens is unimaginable.

Auditor Fitzpatrick, if we can be of further assistance, please do not hesitate to contact us.

David C. Drury, Attorney at Law provided the following information:

Dear Auditor Fitzpatrick:

I am a licensed attorney in the St. Louis Metropolitan area who has practiced law here for the last fifty years.

Eleven similar proposals to destroy major Missouri laws which have existed for decades are being suggested by petition numbers 2024-077 to 2024-087.

As you are aware, section 116.175 et al requires that a fiscal note and fiscal note summary state a measure's estimated cost or savings to any state or local governmental entity. In general, a strong fiscal outlook is an essential foundation for a growing, thriving economy. The gap between income and spending is subsequently closed by government borrowing, something to ideally be avoided. Moreover, voters, especially in this conservative state, should be informed and educated of the costs of measures so radical they reverse and erase in one fell swoop the studied product of elected representatives. Indeed, the cost of a proposal may be the reason a voter decides against it.

As commented, the above proposals, although different in some respects, all contain much identical language. For example, the Preamble and first three numbered paragraphs (except 077 uses the word "entails" in line 2 or paragraph 2) are the same. All contain a "discrimination" paragraph, a "severability clause, and the definitions of "Government" are copied throughout. Other deletions or additions to the submissions do not detract from the fact that multiple unfavorable fiscal consequences will result if passage of any happens. So, I feel it is fair to say that these comments relate to each and every variation, rather than to repeat the same points one by one, over and over.

Another observation about which no one can reasonably disagree is that these are extremely broad, and being so broad are vague and ambiguous. Applications can be to an expansive variety of situations, all at costs to the state and local governmental agencies. This is especially the case in light of the present political structure of the federal government, and of course many federal monies flow to the State of Missouri. Another way of saying this, although a somewhat different point, is the potential, actually a likelihood, that direction of funding can be "weaponized", so state laws conform to federal ones. Thus, the state of Missouri is "fiscally" affected. The federal government and the states do not exist as if there is a wall in between. Money flows back and forth, and thus a state can easily be targeted and penalized by federal legislative and executive actions.

Most recently as this week President Biden proclaimed that it was "cruel" and "close to sinful" for Florida to ban subjecting children to sex-change procedures. (Not to subject the children, but to ban subjecting the children)! The aforesaid ballot proposals insist that the "right to reproductive freedom" shall not be denied, interfered with, delayed, or otherwise restricted, and governmental action should be deemed invalid. The ballot also uses language in paragraph 2 of all versions the clause "not limited to". It would thus appear that the subject of sex-change procedures, is included. Similarly, some of the

suggested versions require no parental or guardian consent whatsoever, and others only superficially address the subject with a sure-fire exception that a health care professional (not even a treating physician) can approve an abortion without consent if he/she thinks that getting consent may lead to emotional harm to the minor. All of the proposals do not even require that a physician is necessary to provide medical care. In fact you don't even need any license. Medical malpractice will automatically result. The harm to patients for this poor care, and the cost to the State for care of these patients will be an adverse fiscal result.

All of the above circumstances, would lead responsible hospitals and medical care providers to practice their profession with higher and different standards. And so they would refuse to abide by the above random, and harmful, provisions. Next, we come to the subject of "who is going to pay the bill"? Medicaid, as we know, pays an enormous amount of medical charges. Hospitals and doctors get reimbursed by the State, but the State must comply with federal law. If a State fails to follow the law, for the federal portion, which is over half, it may not get reimbursed. The State suffers fiscally. My numbers are that the State of Missouri receives 12.5 billion in federal Medicaid money.

What if, for example, Cardinal Glennon Hospital in St. Louis refused to perform sex change surgery on a minor, with or without parental consent, in its hospital? It is against its religious beliefs, among many other reasons. Can the hospital be denied Medicaid funds? The text of the proposals require such. The President has just declared that refusing to perform this is "cruel". If the State foots the bill and does not get reimbursed from the federal government, this is a fiscal loss.

Is medical insurance required to pay for "reproductive health care"? If so, these are expensive fiscal consequences of the proposals.

The proposals also yield enormous costs to the State in situations where persons or institutions refuse care against their medical "standard of care" but do not even require a license (creating a breeding ground for malpractice, and all of the expenses that come with it). With Medicaid, the state pays part of the bill, but may not get reimbursed the rest if the proposed bill is not followed. What about the "religious beliefs" of medical care providers. If, for example, Catholic hospitals are penalized, the State of Missouri could also be "fiscally" penalized.

What about the issue of prescribing pills to induce abortion---chemical abortion? Do these proposals mean that all care providers must not deny, restrict, or delay this form of abortion? Is the "government" discriminating against patients by not requiring care providers including pharmacists to dispense the pills? Can they be penalized by withholding of Medicaid payments?

The issue of federal Medicaid funds being disallowed has come up before. In December 2020 HHS and OCR announced that \$200 million in federal Medicaid funds going to California in the upcoming quarter were being denied. This was due to the state illegally mandating that all health care plans subject to regulation by the California Department

of Managed Health Care cover abortion without exclusion or limitation. Furthermore, if California did not come into compliance, additional disallowances would be imposed at a rate of \$200 million per quarter. In a Vermont case, receipt of federal funds because of discrimination against an employee who refused to participate in abortions was threatened. I mention this because of the potential fiscal effect on the State of Missouri if one of these proposals was passed.

So as not to overlook the obvious, the proposals if passed would surely make abortions easier in this state, depriving the state of countless future taxpaying citizens. These persons, if allowed to live, would work, create and staff businesses, produce products, and in general contribute to the economy. A growing population encourages others to move here which in turn results in additional fiscal activity. And, although much of the above addresses Medicaid costs, since fewer workers will be around to contribute to the Medicare system, this system will be under fiscal stress also.

These are only some of the immediate, short-term, and permanent unfortunate fiscal consequences to State and local government if any of the proposals pass.

Thank you for considering this information.

**Rachel U. Greszler, Senior Research Fellow in Economics, Budgets, and Entitlements,
The Heritage Foundation** provided the following information:

Date: March 17, 2023

State Auditor's Office
State Capitol
201 West Capitol Ave.
Jefferson City, MO 65101

Dear Auditor Fitzpatrick,

Per Missouri's [fiscal impact](#) provisions, I have prepared the below fiscal note comments on the proposed ballot initiative "A Constitutional Amendment Concerning the Regulation of Abortion" as submitted to your office on March 9, 2023 as initiative petitions 24-077 through 24-087. My comments are my own and should not be construed as representing any official position of the Heritage Foundation.

Missouri is considering laws that would make abortion legal and easily accessible. The State should not take that step, simply because it would result in the death of thousands of innocent human beings. I offer this fiscal note to provide additional reasons that might persuade those who wrongly doubt that unborn human babies are persons.

By significantly reducing the number of births in the state, these laws would reduce the state's population growth and generate short- and long-term impacts on the state's output and its government finances. Abortion laws could also impact individuals' and families' personal finances, health, and wellbeing in ways that affect states revenues and expenses.

Population growth and economic growth go hand in hand so long as the necessary resources and infrastructure are in place to support that growth. Those resources and infrastructure are in place and the U.S. faces an unprecedented labor shortage. Recent declines in fertility rates threaten to reduce population growth and current and future economic growth. Moreover, government debt has created a situation in which the future wellbeing of current residents is dependent upon a growing population and workforce to pay for current debts and for unfunded obligations promised to retirees.

Since 2007, the [total fertility rate](#) in the U.S. declined from 2.11 births per woman (right at replacement rate) to just 1.66 births per woman in 2021. Missouri's total fertility rate declined from 2.08 in 2007 to 1.60 in 2021.

Compared to current law (in which abortion is illegal in Missouri except in instances in which the woman's life is in danger or her health is severely compromised), the proposed laws could

lead to an additional [2,000 to 9,000 abortions per year](#) in Missouri, depending on how expansive abortion access would become.¹ Based on population projections from the Census Bureau, and assuming a one-for-one correlation between increased abortions and reduced population, the proposed abortion laws could reduce Missouri's projected population by 0.3 percent to 1.4 percent over the next 10 years and by 0.6 percent to 2.7 percent over the next 20 years.

The state needs to consider the following potential effects of abortion-induced population decline in its impact analysis:

A reduced labor force. Fewer births and a smaller population means a smaller future labor force. While proponents of abortion make the economic case that abortion enables women to work and earn more, the additional measurable work and earnings of women as a result of having an abortion is miniscule compared to the potential lifetime work and earnings of another human being. Moreover, while having a child can reduce mothers' work and earnings, it tends to increase fathers' work and earnings—a factor that is ignored in abortion advocates economic claims.

Healthcare strain. Already, the U.S. faces [serious shortages](#) of healthcare workers and the population is continuing to age. Young people (those who would be aborted over the coming decades as a result of the proposed laws) consume very little healthcare, and as they reach working age, they are net providers of healthcare. This means the proposed laws could exacerbate healthcare worker shortages, limit Missourians' [access to healthcare](#), and potentially drive up the state's [healthcare costs](#) as shortages lead to higher prices. With Medicaid being Missouri's largest budgetary item (in FY 2022, Missouri's Medicaid spending was 74 percent greater than its K-12 education spending), and the state being limited by the federal government in its ability to reduce Medicaid spending, higher healthcare costs could impose significant budget constraints.

Reduced tax revenues. In the immediate future, fewer children born in Missouri could reduce sales and real estate tax revenues because households with children spend more and tend to live in higher-value housing. While the income tax revenues of women who have children could be lower if they work less after having children, the work and [earnings of men](#) tend to rise after they have children. In the decades following increased abortions, the absence of potentially tens of thousands of workers would lead to reduced income tax revenues. Although some state expenses are proportional to the number of residents and would decline over time, many expenses are not, and declining revenues would necessitate higher taxes or spending cuts.

Exacerbated unfunded pensions and other post-employment benefits. Depending on different assumptions and risk levels, Missouri has between [\\$36 billion](#) and [\\$171 billion](#) in unfunded pension and [other post-employment benefits](#). That is money that has already been promised to public sector workers and retirees, but which has not been set aside to provide those benefits. The American Legislative Exchange Council estimates that Missouri's unfunded pension liabilities alone amount to [\\$26,965 per capita](#) in 2021, and these unfunded liabilities are

¹ Estimated increase based on the number of abortions in Missouri, as reported by the [Missouri Department of Health and Senior Services](#) and the [Guttmacher Institute](#), reporting roughly 9,000 abortions around 2000-2001 and about 2,000 abortions around 2020-2021.

continuing to grow. The fewer people Missouri has, the larger the per-capita liabilities become, and the harder it will be to raise taxes on workers and employers without them moving to other states. Among many consequences, [economic analysis](#) shows that unfunded pension obligations lead to lower real estate values, which would reduce property tax revenues.

Conclusion

It is an unquestionable fact that the U.S. Constitution requires all state and local governments to uphold Americans' most fundamental natural rights, including that of the right to life. Not counting unborn humans as living beings and treating abortion as an exercise in economic eugenics is an assault on these rights and values.

Even then, the fiscal and economic perspectives of abortion advocates are lacking sufficient economic rigor. I offer this fiscal analysis that provides good reasons to reject the proposed amendments on premises that abortion advocates may be able to accept.

The proposed laws to legalize and expand abortion access in Missouri warrant a properly conducted fiscal analysis. As a part of the debate, policymakers must consider how increased abortions will affect Missouri's population, workforce, fundamental services such as healthcare, the states tax revenues and expenditures, and Missouri's ability to make good on its unfunded pension and other post-employment benefit obligations.

RE: Petition approval request from Anna Fitz-James regarding a proposed constitutional amendment to Article I, version 1 (2024-077)

Dear Auditor Fitzpatrick:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Anna Fitz-James on March 8, 2023.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

NOTICE: The proposed amendment revises Article I of the Constitution by adopting one new Section to be known as Article I, Section 36.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article I of the Constitution is revised by adopting one new Section to be known as Article I, Section 36 to read as follows:

Section 36. 1. This Section shall be known as “The Right to Reproductive Freedom Initiative.”

2. The Government shall not deny or infringe upon a person’s fundamental right to reproductive freedom, which entails the right to make and carry out decisions about all matters relating to reproductive health care, including but not limited to prenatal care, childbirth, postpartum care, birth control, abortion care, miscarriage care, and respectful birthing conditions.

3. The right to reproductive freedom shall not be denied, interfered with, delayed, or otherwise restricted unless the Government demonstrates that such action is justified by a compelling governmental interest achieved by the least restrictive means. Any denial, interference, delay, or restriction of the right to reproductive freedom shall be presumed invalid. For purposes of this Section, a governmental interest is compelling only if it is for the limited purpose and has the limited effect of improving or maintaining the health of a person seeking care, is consistent with widely accepted clinical standards of practice and evidence-based medicine, and does not infringe on that person’s autonomous decision-making.

4. No person shall be penalized, prosecuted, or otherwise subjected to adverse action based on their actual, potential, perceived, or alleged pregnancy outcomes, including but not limited to miscarriage, stillbirth, or abortion. Nor shall any person assisting a person in exercising their right to reproductive freedom with that person’s consent be penalized, prosecuted, or otherwise subjected to adverse action for doing so.

5. The Government shall not discriminate against persons providing or obtaining reproductive health care or assisting another person in doing so.

6. Nothing in this Section requires government funding of abortion procedures other than as required by federal law.

7. If any provision of this Section or the application thereof to anyone or to any circumstance is held invalid, the remainder of those provisions and the application of such provisions to others or other circumstances shall not be affected thereby.

8. For purposes of this Section, the term “Government” means:

(1) the state of Missouri; or

(2) any municipality, city, town, village, township, district, authority, public subdivision or public corporation having the power to tax or regulate, or any portion of two or more such entities within the state of Missouri.

**MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (24-077)**

Subject

Initiative petition from Anna Fitz-James regarding a proposed constitutional amendment to Article I. (Received March 9, 2023)

Date

March 29, 2023

Description

This proposal would amend Article I of the Missouri Constitution.

The amendment is to be voted on in November 2024.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office**, the **Department of Agriculture**, the **Department of Economic Development**, the **Department of Elementary and Secondary Education**, the **Department of Higher Education and Workforce Development**, the **Department of Health and Senior Services**, the **Department of Commerce and Insurance**, the **Department of Mental Health**, the **Department of Natural Resources**, the **Department of Corrections**, the **Department of Labor and Industrial Relations**, the **Department of Revenue**, the **Department of Public Safety**, the **Missouri Department of the National Guard**, the **Department of Social Services**, the **Governor's office**, the **Missouri House of Representatives**, the **Department of Conservation**, the **Department of Transportation**, the **Office of Administration**, the **Office of State Courts Administrator**, the **Missouri Senate**, the **Secretary of State's office**, the **Office of the State Public Defender**, the **State Treasurer's office**, **Adair County**, **Boone County**, **Callaway County**, **Cass County**, **Clay County**, **Cole County**, **Greene County**, **Jackson County**, **Jasper County**, **St. Charles County**, **St. Louis County**, **Taney County**, the **City of Cape Girardeau**, the **City of Columbia**, the **City of Jefferson**, the **City of Joplin**, the **City of Kansas City**, the **City of Kirksville**, the **City of Mexico**, the **City of Raymore**, the **City of St. Joseph**, the **City of St. Louis**, the **City of Springfield**, the **City of Union**, the **City of Wentzville**, the **City of West Plains**, **Cape Girardeau 63 School District**, **Hannibal 60 School District**, **Malta Bend R-V School District**, **Mehlville School District**, **Wellsville-Middletown R-1 School District**, **State Technical College of Missouri**, **Metropolitan Community College**, **University of Missouri**, and **St. Louis Community College**.

Susan Klein, Executive Director, Missouri Right to Life provided information to the State Auditor's office.

Samuel H. Lee, Campaign Life Missouri provided information to the State Auditor's office.

David C. Drury, Attorney at Law provided information to the State Auditor's office.

Rachel U. Greszler, Senior Research Fellow in Economics, Budgets and Entitlements, The Heritage Foundation provided information to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no impact.

Officials from the **Department of Economic Development** indicated no fiscal impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated they have reviewed initiative petition 24-077 and determined there is no fiscal impact to their agency.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated initiative petition 24-077IP proposes a constitutional amendment to Article I of the Missouri Constitution. The amendment would create "The Right to Reproductive Freedom Initiative," which entails the "right to make and carry out decisions about all matters relating to reproductive health care, including but not limited to prenatal care, childbirth, postpartum care, birth control, abortion care, miscarriage care, and respectful birthing conditions."

Section 36.3 states "the right to reproductive freedom shall not be denied, interfered with, delayed, or otherwise restricted unless the Government demonstrates that such action is justified by a compelling government interest achieved by the least restrictive means. For purposes of this Section, a governmental interest is compelling only if it is for the limited purpose and has the limited effect of improving or maintaining the health of a person seeking care, is consistent with widely accepted clinical standards of practice and evidence-based medicine, and does not infringe on that person's autonomous decision-making."

The amendment would also provide protections from penalization, prosecution, or adverse action based on pregnancy outcomes, including but not limited to miscarriage, stillbirth, or abortion. Protections would also be in place for healthcare providers who assist a consenting person in exercising their right to reproductive freedom.

The amendment limits the state government's authority to restrict reproductive health, including abortion care. The impact on the Department of Health and Senior Services will largely depend on the court's interpretation of the constitutional language and the extent the court determines that licensing and regulation of abortion facilities is overly restrictive to reproductive freedom. The court's interpretation has the potential to:

- Void all or most of the current statutes outlined in Chapter 188 that regulate abortion;
- Remove the Department's authority to license abortion facilities;
- Remove the Department's authority to regulate abortion facilities;
- Negate promulgated rules surrounding abortion; and/or
- Expand the practice of abortion and number of abortion facilities in Missouri; however, by how far is unpredictable.

The General Assembly will have the ability to enact laws that regulate abortion; however, there will be restrictions based on the amendment, as well as the court's interpretation of the restrictive nature of licensure and regulation.

Due to the various factors stated above, the proposed constitutional amendment has an unknown impact on their department.

- FY 2024 General Revenue: (\$0 to Unknown)
- FY 2025 General Revenue: (\$0 to Unknown)
- FY 2026 General Revenue: (\$0 to Unknown)

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no anticipated cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipate no fiscal impact for this initiative petition proposing to amend Article I version 1.

Officials from the **Department of Revenue** indicated the initiative petition does not have an impact on their department.

Officials from the **Department of Public Safety** indicated no impact for their department, Director's office.

Officials from the **Missouri Department of the National Guard** indicated no fiscal impact to their department.

Officials from the **Department of Social Services** indicated they do not anticipate a fiscal impact as a result of this petition.

Officials from the **Governor's office** indicated this proposal relating to reproductive issues does not financially impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated Initiative Petition 24-077 has no anticipated fiscal impact on their department.

Officials from the **Department of Transportation** indicated no fiscal impact expected for their department or the Missouri Highways and Transportation Commission on this initiative petition.

Officials from the **Office of Administration** indicated this proposal relating to reproductive issues will not financially impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be \$10 million based on the cost of the 2022 primary and general election reimbursements.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered

fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

For the FY22 petitions cycle, their office estimates publication costs at \$70,000 per page. This amount is subject to change based on number of petitions received, length of those petitions and rates charged by newspaper publishers.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition has no fiscal impact on their office.

Officials from the **State Treasurer's office** indicated no fiscal impact to their office is anticipated.

Officials from **Clay County** indicated they estimate no fiscal impact as a result of this initiative.

Officials from **Greene County** indicated in reviewing initiative petition 24-077 it has been determined there will be an increased cost to the County of Greene due to loss of tax revenue if voters vote to amend Article I version 1.

The Missouri Department of Health & Senior Services recorded 135 "resident abortions" for Greene County in 2020 and 118 in 2021. The population of Greene County per the 2020 United States census was 298,915. (<https://www.census.gov/quickfacts/fact/table/greenecountymissouri/PST045221>)

In terms of economic impact, Greene County received \$112,673,249 in sales and property taxes for calendar year 2022 (**\$376.94** per capita based on **2020** census data). Accordingly, calculations from these figures indicate an annual loss in population of **135** represents a cost to the County of **\$50,886.90**; an increase in abortion statistics could reasonably be extrapolated to illustrate less tax collections and revenues over the years of potential working lifetimes.

Please see the attached table demonstrating the anticipated yearly on per capita basis and the overall fiscal impact on Greene County tax collections and revenues based on the recorded abortions in 2020 by Missouri Department of Health and Senior Services.

Additional research regarding the broader fiscal impact of lower fertility rates on local and state communities and government budgets may be found here:

- <https://www.pewtrusts.org/en/research-and-analysis/issue-briefs/2022/12/the-long-term-decline-in-fertility-and-what-it-means-for-state-budgets>

Greene County Collections in 2022	
2020 Population	298,915
Total Sales Tax Collected	126,986,094.91
Parks I	(8,226,052.01)
Parks II	(8,773,337.47)
Dan Kinney Bond from Parks I	(551,342.50)
LEST	(11,631,863.21)
Strafford TIF	(24,374.44)
Springfield Plaza TIF	(174,240.83)
Sales Tax Subtotal	97,604,884.45

Personal Property Tax	2,846,022.58
Property Tax SubTotal	15,068,364.57
Total Taxes	112,673,249.02
Per Capita	376.94
Annual lost population	135
Annual Cost	50,886.90

Officials from **St. Louis County** indicated this has no fiscal impact on their county.

Officials from the **City of Jefferson City** indicated they do not think there would be a direct fiscal impact to the City of Jefferson imposed by Initiative Petition 24-077 proposing to amend Article I version 1. There could be an indirect fiscal impact resulting from increased lawsuits related to violations of the act.

Officials from the **City of Kansas City** indicated this proposed amendment would have no fiscal impact on their city.

Officials from **Metropolitan Community College** indicated no fiscal impact.

Officials from the **St. Louis Community College** indicated they have reviewed the initiative ballot and believe the initiative would have no direct cost or revenue impact.

March 15, 2023

Office of the Missouri State Auditor
The Honorable Scott Fitzpatrick
301 West High Street, Room 880
Jefferson City, MO 65102

Dear Auditor Fitzpatrick,

On behalf of the Members, Board and Staff of Missouri Right to Life, I submit to you our comments for consideration and inclusion in the fiscal note you will be preparing regarding the effects to the State of Missouri and its Local Governments of Initiative Petition(s) 2024-077 through 2024-087.

The Petitions Would Create Devastating Impacts for Missouri's Budget:

On March 8, 2023, 11 proposed initiative petitions (2024-077 through 2024-087) were filed with the Missouri Secretary of State's Office by Anna Fitz-James for a campaign committee called "Missourians for Constitutional Freedom." While each initiative petition has some slight variations, they are all identical in their purpose and their fiscal effects to General Revenue, Federal Funds, and Other Funds received by the State of Missouri and the impact to local governments.

The fiscal effects of some of the impacts of the petition(s) follow:

- **Abortion Injuries, Sanctions, Litigation and Loss of Federal Funding:** The petition will allow for abortions to be performed up until the moment of birth and possibly beyond. In addition to the loss of the life of the unborn child and the ending of his or her priceless contributions to our state and society, surgical and chemical abortions have risks and complications to the health of the mother. The cost impacts of surgical and medical abortion physical injuries would result in a devastating impact to Missouri's balanced budget due to an expansion of costs for Missouri's state and Federally-funded healthcare programs. In addition, women endure emotional trauma after an abortion. A massive increase in funding for mental health services would be required. Under current Federal law, states are barred from using Federal funds to pay for abortions except in limited cases (the Hyde Amendment). Federal funding could be in jeopardy and Missouri could be subject to the risk of litigation and sanctions, including the possibility of deferral or disallowance of federal financial participation in Missouri's Medicaid program. In 2019, more than \$7.2 billion in Federal funds were budgeted for Mo HealthNet services (Department of Social Services, Department of Mental Health, and Department of Health and Senior Services). The loss of these funds would be devastating to Missouri.

- **Loss of Licensing Fee Revenues/Penalties:** The petition will allow for anyone to perform an abortion with no penalty, prosecution or adverse action for performing the abortion. An abortion provider would no longer have a reason to maintain his or her license with the State of Missouri (and anyone who chose to perform an abortion would be protected under the Constitution to do so without any regulations or consequences). Missouri laws and regulations would be nullified, and licensing fees normally collected would decline.
- **Rural Hospitals Impacted:** Rural hospitals are already struggling. The petition will allow anyone to perform an abortion with no penalty, prosecution or regulation, and will result in a skyrocketing number of women injured by abortion who will need emergency services, flooding Emergency Rooms and health clinics and limiting or delaying access to emergency healthcare services needed by other individuals. This will result in a fiscal impact to the state. The state will also experience a fiscal impact through staff shortages as abortion-injured state employees seek medical care, surgery and recovery time off work to manage complications of abortion.
- **Missouri Could Face a Budgetary Crisis Due to Loss of Federal Funding from Violating Federal Conscience Laws:** The petition will force Missouri to be out of compliance with Federal conscience laws. This could result in the loss of billions of dollars of Federal funding, litigation and sanctions. If the Federal Government sanctions Missouri due to these violations, this will be devastating and create a budgetary crisis in Missouri. The state will also experience a fiscal impact through staff shortages as state employees flee state jobs where they feel their conscience is violated due to being forced to assist with an abortion.
- **Abortions Funded With Public Tax Dollars:** The petition will allow for the funding of abortions with public tax dollars. The language does not prohibit government funding of abortion procedures or of abortion providers. This would result in a massive fiscal impact to Missouri's balanced budget.
- **Constitutional Protections for Human Traffickers:** The petition will allow for anyone to perform, or assist with, an abortion with no penalty, prosecution or adverse action for performing the abortion. This would result in Constitutional protections for child sex traffickers who impregnate their victims and coerce them into an abortion and would render ineffective Missouri law enforcement, prosecution and justice efforts tasked with upholding our Constitution and laws. The petition could hamper the Federal Government's efforts under The Trafficking Victims Protection Act of 2000 and other Federal laws and could result in sanctions from any Federal funding that Missouri would otherwise be eligible to receive.
- **Sex Changes, et. al, Funded With Public Tax Dollars:** The petition, under the guise of "The Right to Reproductive Freedom," will allow the funding of sex change surgeries, puberty blockers, hormone therapy and other "reproductive services" with public tax dollars. This would result in a massive fiscal impact to Missouri's balanced budget.

In summary, any fiscal note of the petition(s) should contain the following language and should also include the estimated fiscal net effects to the State of Missouri and its local government:

This initiative petition (a) will allow for abortions to be performed up until the moment of birth and possibly beyond, which would put Missouri in jeopardy of losing billions of dollars of Federal funding and create an unplanned strain on the state's General Revenue, Other and Local Funds as a result of abortion injuries, sanctions, litigation, loss of licensing fee/penalty revenues, and overloaded emergency rooms and healthcare facilities, (b) will put Missouri in violation of Federal conscience laws, which could result in a loss of billions of dollars of Federal funding and an increase of state and local government employee vacancies and litigation due to exercising their rights of conscience, (c) will allow for anyone to perform, or assist with, an abortion with no penalty, prosecution or adverse action for performing the abortion, thereby creating Constitutional protections for Human Traffickers which could result in a loss of Federal funding, and (d) will allow for the funding of abortions, sex change surgeries, puberty blockers, hormone therapy and other "reproductive services" with public tax dollars which would result in a massive fiscal impact to the State of Missouri and its local government budgets.

Sincerely,

A handwritten signature in cursive script that reads "Susan Klein". The signature is written in black ink and is positioned above the printed name and title.

Susan Klein

Missouri Right to Life

Samuel H. Lee, Campaign Life Missouri provided the following information:

Samuel Lee
Director

March 16, 2023

State Auditor's Office
State Capitol
201 West Capitol Ave.
Jefferson City, MO 65101

Dear Auditor Fitzpatrick,

In accordance with the provisions of [section 116.175](#), this is a proposed statement of the fiscal impact of the 11 initiative petitions numbered 24-077 through 24-087, which your office received on March 9, 2023.

To summarize, the proposed ballot measures – all of which would amend the Missouri Constitution – could result in:

- A decrease in federal Medicaid revenues by an unknown amount, up to \$12.5 billion annually.
- Increased costs to taxpayers of unknown amounts, because of medical treatment of, or other services for, children or adults injured by abortions, sex-change operations, genital mutilation or other unspecified “reproductive health care” performed by unlicensed or untrained persons.
- Increased costs of an unknown amount to the Department of Health and Senior Services for the inspection and licensing of thousands of abortion facilities.
- Loss of revenue of unknown amounts to the state and its political subdivisions, because of boycotts of businesses, shopping, tourism or other revenue-generating activities, as a result of Missouri becoming the Midwest’s “abortion destination” state.
- Long-term loss of revenues of unknown amounts to the state and its political subdivisions, because of a decrease in the workforce due to the number of children who are aborted before birth. Also, because of individuals who can no longer work after they become disabled as a result of unsafe abortions, sex-change operations, genital mutilation or other unspecified, unsafe “reproductive health care.” But more important than fiscal costs, the human cost to Missouri’s citizens is unimaginable.

Former-Auditor Galloway made a comparable analysis of the fiscal impacts when she issued her fiscal note and fiscal note summary on [HB 126 \(20-R001 on June 19, 2019\)](#) – the subject of a

referendum that year. Her fiscal note summary became part of the [official ballot title certified by Secretary of State on August 14, 2019](#), for the referendum on HB 126.

Supporting Information on Fiscal Impact of the 11 Initiative Petitions:

- The loss of federal Medicaid matching dollars, which in the proposed fiscal year 2024 budget **would be a loss of nearly \$12.5 billion**.
 - In FY 2023, Missouri lawmakers appropriated about \$16.9 billion for Medicaid (MO HealthNet) across state agencies. [The majority of Medicaid financing in 2023 – \\$10.6 billion – came from federal matching funds](#). The governor’s proposed budget for MO HealthNet for FY 2024 is nearly \$19.3 billion – [almost \\$12.5 billion which would come from federal funds](#).
 - The loss of federal Medicaid matching funds could occur if Missouri is out of compliance with federal Medicaid requirements, for example:
 - If the state cuts off Medicaid reimbursements to Catholic hospitals. This could be a result of the requirement in the initiative petitions that the “Government shall not deny or infringe upon a person’s fundamental right to reproductive freedom.” This might include the state requiring Medicaid providers to sterilize patients, dispense puberty blockers or remove sex organs during sex-change operations.
 - This might also include the state requiring hospitals to participate in the horrendous practice of genital mutilation, currently prohibited by state law under [section 568.065](#), and for which no defense is allowed for “a matter of custom, ritual or standard practice, or [by] consent to the conduct by the child.”
 - But because of the broad-based definition of “reproductive health care” in the 11 initiative petitions (“including but not limited to”), state courts could easily find that genital mutilation is constitutionally protected activity, and strike down existing law.
 - However, for the state government to require Catholic health care providers (or others) to provide these procedures, it would be a violation of their conscience rights – for which the federal government could withhold from the state, Medicaid matching dollars.
 - For example, in California in 2020, [HHS disallowed \\$200 million in federal Medicaid matching funds per quarter due to the state’s unlawful abortion insurance mandate](#), which forced a Catholic order of religious sisters and a non-profit Christian Church to provide abortion health insurance coverage. See also:
 - [“The Fight Over California’s Abortion Coverage Mandate,” Regulatory Review](#), February 3, 2021 (“Can a state require that all health plans offered to its residents cover elective abortions? The federal government thinks not, and the state of California is poised to lose at least \$200 million in Medicaid dollars because it insists that health plans in its state cover abortion services.”)

- [“Federal agency says UVM Med Center forced nurse to assist in abortion,” VT Digger](#), August 28, 2019 (“The U.S. Department of Health and Human Services has accused the University of Vermont Medical Center of forcing a nurse to assist in an abortion procedure despite the nurse’s religious objections. ... The [letter from Roger Severino](#), the director of HHS’ Office for Civil Rights, asks the hospital to adjust its policies or face losing the federal funding it receives from HHS.”)
- There might be additional circumstances where state compliance with at least some of the proposed constitutional amendments would force the state to be out of compliance with federal Medicaid law, such as the state paying for abortions (or other procedures) with federal funds that are not permitted to be reimbursed under federal law. For example, the state might be compelled by the terms of some of the initiative petitions to pay for all abortions for all Medicaid-eligible females, because failing to do so might “discriminate against persons” if the state is paying for the labor and delivery of children for all Medicaid-eligible females. In other words, under the state constitution, Missouri might no longer be [“permitted to enact persuasive measures which favor childbirth over abortion”](#) (*Planned Parenthood v. Casey*, 505 U.S. 833, 886 (1992)). Such non-compliance with federal Medicaid law might also apply to other broad-based, undefined “reproductive health care,” which the state might also be compelled to pay for.
- Under the initiative petitions, the “Government shall not discriminate against persons providing or obtaining reproductive health care or assisting another person in doing so.” “Nor shall any person assisting a person in exercising their right to reproductive freedom with that person’s consent be penalized, prosecuted, or otherwise subjected to adverse action for doing so.” Thus, ANY person of ANY age could legally provide, or assist another person in obtaining, an abortion, a sex-change operation, genital mutilation or other unspecified “reproductive health care.” **This could result in numerous, life-altering medical complications to the child or adult who underwent the “reproductive health care.”** Especially with abortion – particularly for abortions performed later in pregnancy – this could result in huge medical costs for her and her child **that are ultimately paid for by taxpayers.**
 - Regarding abortion, in Missouri, the [cost of inpatient medical procedures and emergency department services for treating “issues before childbirth with complications”](#) is a **median charge per person of \$11,977** – with a minimum charges of \$4,140 and a **maximum charge of \$35,345.**
 - And the cost could be even higher for an abortion-related ER visit. [One recent study](#) found that a “[p]atient concealment and/or physician failure to identify a prior abortion during an ER visit is a significant risk factor for a subsequent hospital admission.” In fact, “[c]hemical abortion patients whose abortions are misclassified

- as miscarriages during an ER visit subsequently experience on average 3.2 hospital admissions within 30 days. 86% of the patients ultimately have surgical removal of retained products of conception (RPOC).”
- According to the CDC, in 2020, nearly 10,000 Missouri residents obtained abortions ([9,980 total, but only 167 within the state](#)). Having unlicensed, non-medical personnel permitted to perform or induce abortions within the state on even a fraction of these 10,000 girls or women could result in untold harm to them now – and harm to their future health and fertility.
 - And there might be additional costs to the state or political subdivisions beyond treating the complications to girls or women from being provided abortions by non-physicians or even non-medical personnel. Any low-birthweight infant born alive after a late-term abortion could need long-term NICU care and possibly permanent assistance throughout childhood and during his or her adult life.
 - According to a [2020 New York Times story](#): “The March of Dimes estimates that the average societal cost of each preterm birth, which includes medical care, early intervention services and lost productivity, is \$65,000.”
 - That same story reported on a cost of \$4 million in NICU costs for triplets who were born prematurely.
 - [Preterm birth lifetime costs in the United States](#) (as of 2016) were “estimated to be \$25.2 billion: \$17.1 billion for medical care of persons born preterm, \$2.0 billion for delivery care, \$1.3 billion for early intervention and special education, and \$4.8 billion in lost productivity due to associated disabilities in adults.”
- **Other costs could be the licensing and inspection of multiple locations (potentially thousands of sites) as “abortion facilities,” as required under Missouri law.** This is because [section 197.205](#) requires that no person or governmental unit shall establish, conduct or maintain an abortion facility in the state without a license issued by the Missouri Department of Health and Senior Services (DHSS).
 - [Section 188.015](#) defines an “abortion facility” as “a clinic, physician’s office, or any other place or facility in which abortions are performed or induced other than a hospital”.
 - [Section 197.230](#) states that “[i]n the case of any abortion facility, the department [of health and senior services (DHSS)] shall make or cause to be made an unannounced on-site inspection and investigation at least annually.” Such on-site inspections and investigations must include a variety of areas relating to staffing and equipment to respond to medical emergencies, compliance with Missouri’s abortion laws and the requirement that continuous physician services or registered professional nursing services are to be provided whenever a patient is in the facility.
 - There are [more than 7,000 licensed pharmacists in Missouri](#), and under the proposed constitutional amendment, any pharmacy (or other place) where a pharmacist provides abortion pills, DHSS would be required to inspect and license. **This would**

be an enormous cost to the department and to taxpayers. And any other place where abortion pills would be provided (homes, schools, vending machines, doctor's offices, clinics, etc.) would also have to be inspected at least once a year and licensed.

- **Economic boycotts of Missouri and its businesses could result if the “Show-Me” state becomes the “Abort-Me” state, once it is transformed into the Midwest’s “abortion destination” – a distinct possibility since Missouri is “within a day’s reach of half of U.S. households”.**
 - Just as some pro-abortion advocates in other states are promoting boycotts of states like Missouri that currently protect unborn children from abortion, pro-life advocates in other states might boycott by no longer purchasing from Missouri businesses, or engaging in travel, tourism or shopping in Missouri. How tragic that would be for Missouri, which has been described as one of the top pro-life states in the country.
 - Some “red” states have been prohibiting or attempting to prohibit their governmental entities from doing business with financial firms in other states that take environmental, social and corporate governance (ESG) into consideration, and those same states and additional ones might extend that to any “abortion destination” state – which is what Missouri could become if any one of the 11 initiative petitions is enacted into law.
 - “Missouri tourism provides a \$13.5 billion economic impact that creates more than 257,000 jobs in the state,” according to the Missouri Division of Tourism. It could be a devastating loss to the state and its residents if Missouri became the abortion capital of the Midwest.
- By some estimates, the economic cost to the U.S. of abortion in 2019 – due to the loss of nearly 630,000 unborn lives – was at least \$6.9 trillion, or 32 percent of GDP. **Missouri could experience increased economic loss if the number of abortions increases in the state.** And unsafe, legal abortions in the state could result in the disability of countless women who – perhaps permanently – would be unable to enter or remain in the workforce.
 - According to a June 15, 2022 report of the Joint Economic Committee – Congressional Republicans’ The Economic Cost of Abortion – the economic cost of an abortion due to the loss of unborn lives is 425 times larger than the earnings loss mothers could be expected to incur when having a child.”
 - According to a key finding in the report: “In the long run, abortion shrinks the labor force, stunts innovation, and limits economic growth. It also weakens the solvency of social insurance programs like Social Security and Medicare that rely on workers to support a growing elderly population.”
 - And as the International Planned Parenthood Federation has noted: “**Unsafe abortions** are performed by un- or under-trained providers ... It is possible to have an unsafe, legal abortion.” (underlining added)

- Under the initiative petitions, “any person assisting a person in exercising their right to reproductive freedom” shall not “be penalized, prosecuted, or otherwise subjected to adverse action for doing so.” Thus, unlicensed, untrained persons of ANY age could perform unsafe, legal abortions or other “reproductive health care,” and the “Government shall not discriminate against persons ... in doing so.” While the economic cost of this policy is incalculable, more important and horrifying, the human cost to Missouri’s citizens is unimaginable.

Auditor Fitzpatrick, if we can be of further assistance, please do not hesitate to contact us.

David C. Drury, Attorney at Law provided the following information:

Dear Auditor Fitzpatrick:

I am a licensed attorney in the St. Louis Metropolitan area who has practiced law here for the last fifty years.

Eleven similar proposals to destroy major Missouri laws which have existed for decades are being suggested by petition numbers 2024-077 to 2024-087.

As you are aware, section 116.175 et al requires that a fiscal note and fiscal note summary state a measure's estimated cost or savings to any state or local governmental entity. In general, a strong fiscal outlook is an essential foundation for a growing, thriving economy. The gap between income and spending is subsequently closed by government borrowing, something to ideally be avoided. Moreover, voters, especially in this conservative state, should be informed and educated of the costs of measures so radical they reverse and erase in one fell swoop the studied product of elected representatives. Indeed, the cost of a proposal may be the reason a voter decides against it.

As commented, the above proposals, although different in some respects, all contain much identical language. For example, the Preamble and first three numbered paragraphs (except 077 uses the word "entails" in line 2 or paragraph 2) are the same. All contain a "discrimination" paragraph, a "severability clause, and the definitions of "Government" are copied throughout. Other deletions or additions to the submissions do not detract from the fact that multiple unfavorable fiscal consequences will result if passage of any happens. So, I feel it is fair to say that these comments relate to each and every variation, rather than to repeat the same points one by one, over and over.

Another observation about which no one can reasonably disagree is that these are extremely broad, and being so broad are vague and ambiguous. Applications can be to an expansive variety of situations, all at costs to the state and local governmental agencies. This is especially the case in light of the present political structure of the federal government, and of course many federal monies flow to the State of Missouri. Another way of saying this, although a somewhat different point, is the potential, actually a likelihood, that direction of funding can be "weaponized", so state laws conform to federal ones. Thus, the state of Missouri is "fiscally" affected. The federal government and the states do not exist as if there is a wall in between. Money flows back and forth, and thus a state can easily be targeted and penalized by federal legislative and executive actions.

Most recently as this week President Biden proclaimed that it was "cruel" and "close to sinful" for Florida to ban subjecting children to sex-change procedures. (Not to subject the children, but to ban subjecting the children)! The aforesaid ballot proposals insist that the "right to reproductive freedom" shall not be denied, interfered with, delayed, or otherwise restricted, and governmental action should be deemed invalid. The ballot also uses language in paragraph 2 of all versions the clause "not limited to". It would thus appear that the subject of sex-change procedures, is included. Similarly, some of the

suggested versions require no parental or guardian consent whatsoever, and others only superficially address the subject with a sure-fire exception that a health care professional (not even a treating physician) can approve an abortion without consent if he/she thinks that getting consent may lead to emotional harm to the minor. All of the proposals do not even require that a physician is necessary to provide medical care. In fact you don't even need any license. Medical malpractice will automatically result. The harm to patients for this poor care, and the cost to the State for care of these patients will be an adverse fiscal result.

All of the above circumstances, would lead responsible hospitals and medical care providers to practice their profession with higher and different standards. And so they would refuse to abide by the above random, and harmful, provisions. Next, we come to the subject of "who is going to pay the bill"? Medicaid, as we know, pays an enormous amount of medical charges. Hospitals and doctors get reimbursed by the State, but the State must comply with federal law. If a State fails to follow the law, for the federal portion, which is over half, it may not get reimbursed. The State suffers fiscally. My numbers are that the State of Missouri receives 12.5 billion in federal Medicaid money.

What if, for example, Cardinal Glennon Hospital in St. Louis refused to perform sex change surgery on a minor, with or without parental consent, in its hospital? It is against its religious beliefs, among many other reasons. Can the hospital be denied Medicaid funds? The text of the proposals require such. The President has just declared that refusing to perform this is "cruel". If the State foots the bill and does not get reimbursed from the federal government, this is a fiscal loss.

Is medical insurance required to pay for "reproductive health care"? If so, these are expensive fiscal consequences of the proposals.

The proposals also yield enormous costs to the State in situations where persons or institutions refuse care against their medical "standard of care" but do not even require a license (creating a breeding ground for malpractice, and all of the expenses that come with it). With Medicaid, the state pays part of the bill, but may not get reimbursed the rest if the proposed bill is not followed. What about the "religious beliefs" of medical care providers. If, for example, Catholic hospitals are penalized, the State of Missouri could also be "fiscally" penalized.

What about the issue of prescribing pills to induce abortion---chemical abortion? Do these proposals mean that all care providers must not deny, restrict, or delay this form of abortion? Is the "government" discriminating against patients by not requiring care providers including pharmacists to dispense the pills? Can they be penalized by withholding of Medicaid payments?

The issue of federal Medicaid funds being disallowed has come up before. In December 2020 HHS and OCR announced that \$200 million in federal Medicaid funds going to California in the upcoming quarter were being denied. This was due to the state illegally mandating that all health care plans subject to regulation by the California Department

of Managed Health Care cover abortion without exclusion or limitation. Furthermore, if California did not come into compliance, additional disallowances would be imposed at a rate of \$200 million per quarter. In a Vermont case, receipt of federal funds because of discrimination against an employee who refused to participate in abortions was threatened. I mention this because of the potential fiscal effect on the State of Missouri if one of these proposals was passed.

So as not to overlook the obvious, the proposals if passed would surely make abortions easier in this state, depriving the state of countless future taxpaying citizens. These persons, if allowed to live, would work, create and staff businesses, produce products, and in general contribute to the economy. A growing population encourages others to move here which in turn results in additional fiscal activity. And, although much of the above addresses Medicaid costs, since fewer workers will be around to contribute to the Medicare system, this system will be under fiscal stress also.

These are only some of the immediate, short-term, and permanent unfortunate fiscal consequences to State and local government if any of the proposals pass.

Thank you for considering this information.

**Rachel U. Greszler, Senior Research Fellow in Economics, Budgets, and Entitlements,
The Heritage Foundation** provided the following information:

Date: March 17, 2023

State Auditor's Office
State Capitol
201 West Capitol Ave.
Jefferson City, MO 65101

Dear Auditor Fitzpatrick,

Per Missouri's [fiscal impact](#) provisions, I have prepared the below fiscal note comments on the proposed ballot initiative "A Constitutional Amendment Concerning the Regulation of Abortion" as submitted to your office on March 9, 2023 as initiative petitions 24-077 through 24-087. My comments are my own and should not be construed as representing any official position of the Heritage Foundation.

Missouri is considering laws that would make abortion legal and easily accessible. The State should not take that step, simply because it would result in the death of thousands of innocent human beings. I offer this fiscal note to provide additional reasons that might persuade those who wrongly doubt that unborn human babies are persons.

By significantly reducing the number of births in the state, these laws would reduce the state's population growth and generate short- and long-term impacts on the state's output and its government finances. Abortion laws could also impact individuals' and families' personal finances, health, and wellbeing in ways that affect states revenues and expenses.

Population growth and economic growth go hand in hand so long as the necessary resources and infrastructure are in place to support that growth. Those resources and infrastructure are in place and the U.S. faces an unprecedented labor shortage. Recent declines in fertility rates threaten to reduce population growth and current and future economic growth. Moreover, government debt has created a situation in which the future wellbeing of current residents is dependent upon a growing population and workforce to pay for current debts and for unfunded obligations promised to retirees.

Since 2007, the [total fertility rate](#) in the U.S. declined from 2.11 births per woman (right at replacement rate) to just 1.66 births per woman in 2021. Missouri's total fertility rate declined from 2.08 in 2007 to 1.60 in 2021.

Compared to current law (in which abortion is illegal in Missouri except in instances in which the woman's life is in danger or her health is severely compromised), the proposed laws could

lead to an additional [2,000 to 9,000 abortions per year](#) in Missouri, depending on how expansive abortion access would become.¹ Based on population projections from the Census Bureau, and assuming a one-for-one correlation between increased abortions and reduced population, the proposed abortion laws could reduce Missouri's projected population by 0.3 percent to 1.4 percent over the next 10 years and by 0.6 percent to 2.7 percent over the next 20 years.

The state needs to consider the following potential effects of abortion-induced population decline in its impact analysis:

A reduced labor force. Fewer births and a smaller population means a smaller future labor force. While proponents of abortion make the economic case that abortion enables women to work and earn more, the additional measurable work and earnings of women as a result of having an abortion is miniscule compared to the potential lifetime work and earnings of another human being. Moreover, while having a child can reduce mothers' work and earnings, it tends to increase fathers' work and earnings—a factor that is ignored in abortion advocates economic claims.

Healthcare strain. Already, the U.S. faces [serious shortages](#) of healthcare workers and the population is continuing to age. Young people (those who would be aborted over the coming decades as a result of the proposed laws) consume very little healthcare, and as they reach working age, they are net providers of healthcare. This means the proposed laws could exacerbate healthcare worker shortages, limit Missourians' [access to healthcare](#), and potentially drive up the state's [healthcare costs](#) as shortages lead to higher prices. With Medicaid being Missouri's largest budgetary item (in FY 2022, Missouri's Medicaid spending was 74 percent greater than its K-12 education spending), and the state being limited by the federal government in its ability to reduce Medicaid spending, higher healthcare costs could impose significant budget constraints.

Reduced tax revenues. In the immediate future, fewer children born in Missouri could reduce sales and real estate tax revenues because households with children spend more and tend to live in higher-value housing. While the income tax revenues of women who have children could be lower if they work less after having children, the work and [earnings of men](#) tend to rise after they have children. In the decades following increased abortions, the absence of potentially tens of thousands of workers would lead to reduced income tax revenues. Although some state expenses are proportional to the number of residents and would decline over time, many expenses are not, and declining revenues would necessitate higher taxes or spending cuts.

Exacerbated unfunded pensions and other post-employment benefits. Depending on different assumptions and risk levels, Missouri has between [\\$36 billion](#) and [\\$171 billion](#) in unfunded pension and [other post-employment benefits](#). That is money that has already been promised to public sector workers and retirees, but which has not been set aside to provide those benefits. The American Legislative Exchange Council estimates that Missouri's unfunded pension liabilities alone amount to [\\$26,965 per capita](#) in 2021, and these unfunded liabilities are

¹ Estimated increase based on the number of abortions in Missouri, as reported by the [Missouri Department of Health and Senior Services](#) and the [Guttmacher Institute](#), reporting roughly 9,000 abortions around 2000-2001 and about 2,000 abortions around 2020-2021.

continuing to grow. The fewer people Missouri has, the larger the per-capita liabilities become, and the harder it will be to raise taxes on workers and employers without them moving to other states. Among many consequences, [economic analysis](#) shows that unfunded pension obligations lead to lower real estate values, which would reduce property tax revenues.

Conclusion

It is an unquestionable fact that the U.S. Constitution requires all state and local governments to uphold Americans' most fundamental natural rights, including that of the right to life. Not counting unborn humans as living beings and treating abortion as an exercise in economic eugenics is an assault on these rights and values.

Even then, the fiscal and economic perspectives of abortion advocates are lacking sufficient economic rigor. I offer this fiscal analysis that provides good reasons to reject the proposed amendments on premises that abortion advocates may be able to accept.

The proposed laws to legalize and expand abortion access in Missouri warrant a properly conducted fiscal analysis. As a part of the debate, policymakers must consider how increased abortions will affect Missouri's population, workforce, fundamental services such as healthcare, the states tax revenues and expenditures, and Missouri's ability to make good on its unfunded pension and other post-employment benefit obligations.

Respectfully,

Rachel U. Greszler
Senior Research Fellow in Economics, Budgets, and Entitlements
The Heritage Foundation

**The Heritage Foundation is a public policy, research, and educational organization recognized as exempt under section 501(c)(3) of the Internal Revenue Code. It is privately supported and receives no funds from any government at any level, nor does it perform any government or other contract work.

The Heritage Foundation is the most broadly supported think tank in the United States. During 2020, it had hundreds of thousands of individual, foundation, and corporate supporters representing every state in the U.S. Its 2020 operating income came from the following sources:

Individuals 66%

Foundations 18%

Corporations 2%

Program revenue and other income 14%

The top five corporate givers provided The Heritage Foundation with **1% of its 2020 income**. The Heritage Foundation's books are audited annually by the national accounting firm of RSM US, LLP.

Members of The Heritage Foundation staff testify and comment as individuals discussing their own independent research. The views expressed are their own and do not reflect an institutional position of The Heritage Foundation or its board of trustees.

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County, the City of Cape Girardeau, the City of Columbia, the City of Joplin, the City of Kirksville, the City of Mexico, the City of Raymore, the City of St. Joseph, the City of St. Louis, the City of Springfield, the City of Union, the City of Wentzville, the City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, and the University of Missouri.**

Fiscal Note Summary

State governmental entities estimate no costs or savings, but unknown impact. Local governmental entities estimate costs of at least \$51,000 annually in reduced tax revenues. Opponents estimate a potentially significant loss to state revenue.

STATE AUDITORS OFFICE

RE: Petition approval request from Winston Apple regarding a proposed constitutional amendment to Article III (2024-076)

Dear Auditor Fitzpatrick:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Winston Apple on March 3, 2023.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

cc: Hon. Andrew Bailey

My commission expires: _____

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Article III of the Constitution is revised by amending Sections 50, 52(a), and 52(b) to read as follows:

Section 50(a). Initiative petitions proposing amendments to the constitution shall [be] have paper copies signed by and/or electronic statements of support submitted by eight percent of the legal voters in each of two-thirds of the congressional districts in the state, or have paper copies signed by one-third of the members of either house of the general assembly, and petitions proposing laws shall [be] have paper copies signed by and/or electronic statements of support submitted by five percent of such voters, or have paper copies signed by one-third of the members of either house of the general assembly.

Section 50(b). Every such petition shall have paper copies [be] filed with the secretary of state or statements of support submitted electronically not less than six months before they are to be voted on at the next general state election. Every such petition signed by members of the general assembly shall be filed with the secretary of state not less than sixty days before the next general election or a special election if one is ordered. A special election may be ordered by a resolution signed by one-third or more of the members of either house of the general assembly and submitted to the secretary of state at the same time petitions for a proposed law or constitutional amendment are submitted to the secretary of state.

Section 50(c). Every such petition and/or electronic statement of support shall contain an enacting clause and the full text of the measure. Petitions for constitutional amendments shall not contain more than one amended and revised article of this constitution, or one new article which shall not contain more than one subject and matters properly connected therewith, and the enacting clause thereof shall be "Be it resolved by the people of the state of Missouri that the Constitution be amended:". Petitions for laws shall contain not more than one subject which shall be expressed clearly in the title, and the enacting clause thereof shall be "Be it enacted by the people of the state of Missouri:".

Section 50(d). The governor shall facilitate electronic filing of statements of support by establishing and maintaining a system of Online Accounts for Politically Active Citizens. The governor shall be responsible for ensuring the security of that system and protecting the privacy of citizens utilizing that system.

Section 50(e). The secretary of state shall create a suitable form for electronic statements of support and make them available to citizens.

Section 52(a). A referendum may be ordered (except as to laws necessary for the immediate preservation of the public peace, health or safety, and laws making appropriations for the current expenses of the state government, for the maintenance of state institutions and for the support of public schools) either by petitions signed by five percent of the legal voters in each of two-thirds of the congressional districts in the state, or by petitions signed by one-third or more of the members of either house of the general assembly[, as other bills are enacted]. Referendum petitions shall be filed with the secretary of state not more than ninety days after the final adjournment of the session of the general assembly which passed the bill on which the referendum is demanded.

Section 52(b). The veto power of the governor shall not extend to measures referred to the people. All elections on measures referred to the people shall be had at the next general state election[s], except when one-third or more of the members of either house of the general assembly submit a resolution to the secretary of state [shall order] ordering a special election. Any such special election shall be held on the date specified in the resolution. The date of the special election shall be not less than sixty days after petitions for a referendum have been filed with the secretary of state, nor later than sixty days before the next general state election. Any measure referred to the people shall take effect when approved by a majority of the votes cast thereon, and not otherwise. This section shall not be construed to deprive any member of the general assembly of the right to introduce any measure.

**MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (24-076)**

Subject

Initiative petition from Winston Apple regarding a proposed constitutional amendment to Article III. (Received March 3, 2023)

Date

March 23, 2023

Description

This proposal would amend Article III of the Missouri Constitution.

The amendment is to be voted on in November 2024.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office**, the **Department of Agriculture**, the **Department of Economic Development**, the **Department of Elementary and Secondary Education**, the **Department of Higher Education and Workforce Development**, the **Department of Health and Senior Services**, the **Department of Commerce and Insurance**, the **Department of Mental Health**, the **Department of Natural Resources**, the **Department of Corrections**, the **Department of Labor and Industrial Relations**, the **Department of Revenue**, the **Department of Public Safety**, the **Missouri Department of the National Guard**, the **Department of Social Services**, the **Governor's office**, the **Missouri House of Representatives**, the **Department of Conservation**, the **Department of Transportation**, the **Office of Administration**, the **Office of State Courts Administrator**, the **Missouri Senate**, the **Secretary of State's office**, the **Office of the State Public Defender**, the **State Treasurer's office**, **Adair County**, **Boone County**, **Callaway County**, **Cass County**, **Clay County**, **Cole County**, **Greene County**, **Jackson County**, **Jasper County**, **St. Charles County**, **St. Louis County**, **Taney County**, the **City of Cape Girardeau**, the **City of Columbia**, the **City of Jefferson**, the **City of Joplin**, the **City of Kansas City**, the **City of Kirksville**, the **City of Mexico**, the **City of Raymore**, the **City of St. Joseph**, the **City of St. Louis**, the **City of Springfield**, the **City of Union**, the **City of Wentzville**, the **City of West Plains**, **Cape Girardeau 63 School District**, **Hannibal 60 School District**, **Malta Bend R-V School District**, **Mehlville School District**, **Wellsville-Middletown R-1 School District**, **State Technical College of Missouri**, **Metropolitan Community College**, **University of Missouri**, **St. Louis Community College**, the **St. Charles County Election Authority**, the **St. Louis County Board of Elections**, the **Board of Election Commissioners City of St. Louis**, the **Kansas City Board of Election Commissioners**, the **Platte County Board of Elections**, the **Jackson County Election Board**, and the **Clay County Board of Election Commissioners**.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no impact.

Officials from the **Department of Economic Development** indicated no fiscal impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated they have reviewed initiative petition 24-076 and determined there is no fiscal impact to their agency.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated this initiative petition will have no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no anticipated cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipated no fiscal impact for this initiative petition proposing to amend Article III.

Officials from the **Department of Revenue** indicated no impact.

Officials from the **Department of Public Safety** indicated no impact for their department, Director's Office.

Officials from the **Missouri Department of the National Guard** indicated no fiscal impact to their department.

Officials from the **Department of Social Services** indicated they do not anticipate any fiscal impact as a result of the petition.

Officials from the **Governor's office** indicated this proposal relates to initiatives and referendums and requires the governor to be responsible for establishing, maintaining and ensuring security of a system of Online Accounts for Politically Active Citizens. Presumably this system will be funded through the Office of Administration Information Technology Services Division which will also oversee day to day operations. The governor's specific duties can likely be absorbed through current Office of the Governor resources.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated this initiative petition has no fiscal impact on their department.

Officials from the **Department of Transportation** indicated no fiscal impact expected for their department or the Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal relates to initiatives and referendums and requires the governor to be responsible for establishing, maintaining and ensuring security of a system of Online Accounts for Politically Active Citizens. Presumably this system will be funded through the Office of Administration/Information Technology Services Division (ITSD) which will also oversee day-to-day operations. While there will likely be a fiscal impact to ITSD, ITSD cannot estimate that impact without more information regarding system specifications.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated this petition would create a method for citizens to provide electronic statements of support for ballot initiatives in lieu of signing a paper petition. The governor's office will create and maintain the electronic support system, but the Secretary of State (SOS) retains responsibility for processing the statements of support and applying them towards the sufficiency of the petition in question. Currently, the SOS uses an internal petition management system and so any modifications required to interface the two systems would be expected to use existing Information Technology resources. However, depending on the volume of electronic support statements submitted, it is possible that a new Elections Specialist FTE may be required to handle the additional workload beginning in FY25.

Each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be \$10 million based on the cost of the 2022 primary and general election reimbursements.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

For the FY22 petitions cycle, they estimate publication costs at \$70,000 per page. This amount is subject to change based on number of petitions received, length of those petitions and rates charged by newspaper publishers.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will have no fiscal impact on their office.

Officials from the **State Treasurer's office** indicated no fiscal impact to their office.

Officials from **Clay County** indicated they estimate no impact from this petition.

Officials from **Greene County** indicated there may be an increased cost to their county if voters vote to amend Article III. The language in the initiative petition amends Article III to allow the members of the General Assembly to sign a petition calling for a referendum and states they may order a special election. In Section 52 (b) it also allows the General Assembly to set the date of the election and if the date of the election is set outside of a statutory election date then there may be costs to the county if no funds are appropriated to hold the election.

The cost to fund wholly an election for the County of Greene if no state funds are appropriated is estimated to be **\$342,002.07**.

Officials from **St. Louis County** indicated this has no apparent fiscal impact on their county.

Officials from the **City of Kansas City** indicated this proposed amendment has no fiscal impact on their city.

Officials from **Metropolitan Community College** indicated no fiscal impact.

Officials from the **University of Missouri** indicated no fiscal impact from this mentioned petition.

Officials from **St. Louis Community College** indicated there is no cost or revenue to their college.

Officials from the **St. Louis County Board of Elections** indicated this would have no fiscal impact on their Board.

Officials from the **Kansas City Board of Election Commissioners** indicated if a Special election is called the State would be responsible for pro-rata share based on voter registration. The cost to conduct an election in the Kansas City portion of Jackson County is roughly \$650,000.

Officials from **Platte County Board of Elections** indicated no fiscal impact.

Officials from the **Clay County Board of Election Commissioners** indicated if they would have a Special Election, the cost would be approximately \$250,000.

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County, the City of Cape Girardeau, the City of Columbia, the City of Jefferson, the City of Joplin, the City of Kirksville, the City of Mexico, the City of Raymore, the City of St. Joseph, the City of St. Louis, the City of Springfield, the City of Union, the City of Wentzville, the City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, the St. Charles County Election Authority, the Board of Election Commissioners City of St. Louis, and the Jackson County Election Board.**

Fiscal Note Summary

State costs could increase if this petition results in more special elections, by an estimated \$10 million each special election. The state estimates additional costs of an unknown amount for its responsibilities related to a system of Online Accounts for Politically Active Citizens. Local entities estimate no costs or savings from this proposal.

JOHN R. ASHCROFT

STATE AUDITORS OFFICE

RE: Petition approval request from Winston Apple regarding a proposed constitutional amendment to Article III (2024-075)

Dear Auditor Fitzpatrick:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Winston Apple on March 2, 2023.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

My commission expires: _____

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Article III of the Constitution is revised by amending Sections 50, 52(a), and 52(b) to read as follows:

Section 50(a). Initiative petitions proposing amendments to the constitution shall [be] have paper copies signed by and/or electronic statements of support submitted by eight percent of the legal voters in each of two-thirds of the congressional districts in the state, or have paper copies signed by one-third of the members of either house of the general assembly, and petitions proposing laws shall [be] have paper copies signed by and/or electronic statements of support submitted by five percent of such voters, or have paper copies signed by one-third of the members of either house of the general assembly.

Section 50(b). Every such petition shall have paper copies [be] filed with the secretary of state or statements of support submitted electronically not less than six months before they are to be voted on at the next general state election. Every such petition signed by members of the general assembly shall be filed with the secretary of state not less than sixty days before the next general election or a special election if one is ordered. A special election may be ordered by a resolution signed by one-third or more of the members of either house of the general assembly and submitted to the secretary of state at the same time petitions for a proposed law or constitutional amendment are submitted to the secretary of state.

Section 50(c). Every such petition and/or electronic statement of support shall contain an enacting clause and the full text of the measure. Every signature affixed to paper copies of petitions shall be presumed to be valid unless formal proof that a signature is not valid is offered and, if such proof is contested, confirmed by the appropriate court of law. Petitions for constitutional amendments shall not contain more than one amended and revised article of this constitution, or one new article which shall not contain more than one subject and matters properly connected therewith, and the enacting clause thereof shall be "Be it resolved by the people of the state of Missouri that the Constitution be amended:". Petitions for laws shall contain not more than one subject which shall be expressed clearly in the title, and the enacting clause thereof shall be "Be it enacted by the people of the state of Missouri:".

Section 50(d). The governor shall facilitate electronic filing of statements of support by establishing and maintaining a system of Online Accounts for Politically Active Citizens. The governor shall be responsible for ensuring the security of that system and protecting the privacy of citizens utilizing that system.

Section 50(e). The secretary of state shall create a suitable form for electronic statements of support and make them available to citizens.

Section 52(a). A referendum may be ordered (except as to laws necessary for the immediate preservation of the public peace, health or safety, and laws making appropriations for the current expenses of the state government, for the maintenance of state institutions and for the support of public schools) either by petitions signed by five percent of the legal voters in each of two-thirds of the congressional districts in the state, or by petitions signed by one-third or more of the members of either house of the general assembly[, as other bills are enacted]. Referendum petitions shall be filed with the secretary of state not more than ninety days after the final adjournment of the session of the general assembly which passed the bill on which the referendum is demanded.

Section 52(b). The veto power of the governor shall not extend to measures referred to the people. All elections on measures referred to the people shall be had at the next general state election[s], except when one-third or more of the members of either house of the general assembly submit a resolution to the secretary of state [shall order] ordering a special election. Any such special election shall be held on the date specified in the resolution. The date of the special election shall be not less than sixty days after petitions for a referendum have been filed with the secretary of state, nor later than sixty days before the next general state election. Any measure referred to the people shall take effect when approved by a majority of the votes cast thereon, and not otherwise. This section shall not be construed to deprive any member of the general assembly of the right to introduce any measure.

**MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (24-075)**

Subject

Initiative petition from Winston Apple regarding a proposed constitutional amendment to Article III. (Received March 2, 2023)

Date

March 22, 2023

Description

This proposal would amend Article III of the Missouri Constitution.

The amendment is to be voted on in November 2024.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office**, the **Department of Agriculture**, the **Department of Economic Development**, the **Department of Elementary and Secondary Education**, the **Department of Higher Education and Workforce Development**, the **Department of Health and Senior Services**, the **Department of Commerce and Insurance**, the **Department of Mental Health**, the **Department of Natural Resources**, the **Department of Corrections**, the **Department of Labor and Industrial Relations**, the **Department of Revenue**, the **Department of Public Safety**, the **Missouri Department of the National Guard**, the **Department of Social Services**, the **Governor's office**, the **Missouri House of Representatives**, the **Department of Conservation**, the **Department of Transportation**, the **Office of Administration**, the **Office of State Courts Administrator**, the **Missouri Senate**, the **Secretary of State's office**, the **Office of the State Public Defender**, the **State Treasurer's office**, **Adair County**, **Boone County**, **Callaway County**, **Cass County**, **Clay County**, **Cole County**, **Greene County**, **Jackson County**, **Jasper County**, **St. Charles County**, **St. Louis County**, **Taney County**, the **City of Cape Girardeau**, the **City of Columbia**, the **City of Jefferson**, the **City of Joplin**, the **City of Kansas City**, the **City of Kirksville**, the **City of Mexico**, the **City of Raymore**, the **City of St. Joseph**, the **City of St. Louis**, the **City of Springfield**, the **City of Union**, the **City of Wentzville**, the **City of West Plains**, **Cape Girardeau 63 School District**, **Hannibal 60 School District**, **Malta Bend R-V School District**, **Mehlville School District**, **Wellsville-Middletown R-1 School District**, **State Technical College of Missouri**, **Metropolitan Community College**, **University of Missouri**, **St. Louis Community College**, the **St. Charles County Election Authority**, the **St. Louis County Board of Elections**, the **Board of Election Commissioners City of St. Louis**, the **Kansas City Board of Election Commissioners**, the **Platte County Board of Elections**, the **Jackson County Election Board**, and the **Clay County Board of Election Commissioners**.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no impact.

Officials from the **Department of Economic Development** indicated no fiscal impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated they have reviewed initiative petition 24-075 and determined there is no impact to their agency.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no anticipated cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipate no fiscal impact for this initiative petition proposing to amend Article III.

Officials from the **Department of Revenue** indicated no impact.

Officials from the **Department of Public Safety** indicated no impact for their department, Director's Office.

Officials from the **Missouri Department of the National Guard** indicated no fiscal impact to their department.

Officials from the **Department of Social Services** indicated they do not anticipate any fiscal impact as a result of the petition.

Officials from the **Governor's office** indicated this proposal relates to initiatives and referendums and requires the governor to be responsible for establishing, maintaining and ensuring security of a system of Online Accounts for Politically Active Citizens. Presumably this system will be funded through the Office of Administration Information Technology Services Division which will also oversee day to day operations. The governor's specific duties can likely be absorbed through current Office of the Governor resources.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated this initiative petition will have no fiscal impact on their department.

Officials from the **Department of Transportation** indicated no fiscal impact expected for their department or the Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal relates to initiatives and referendums and requires the governor to be responsible for establishing, maintaining and ensuring security of a system of Online Accounts for Politically Active Citizens. Presumably this system will be funded through the Office of Administration/Information Technology Services Division which will also oversee day to day operations.

The development of a new system would have a cost but the impact is unknown until the scope of system requirements is determined.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated this petition would create a method for citizens to provide electronic statements of support for ballot initiatives in lieu of signing a paper petition. The governor's office will create and maintain the electronic support system, but the Secretary of State (SOS) retains responsibility for processing the statements of support and applying them towards the sufficiency of the petition in question. Currently, the SOS uses an internal petition management system and so any modifications required to interface the two systems would be expected to use existing Information Technology resources. However, depending on the volume of electronic support statements submitted, it is possible that a new Elections Specialist FTE may be required to handle the additional workload beginning in FY25.

Each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes

the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be \$10 million based on the cost of the 2022 primary and general election reimbursements.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

For the FY22 petitions cycle, they estimate publication costs at \$70,000 per page. This amount is subject to change based on number of petitions received, length of those petitions and rates charged by newspaper publishers.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition has no fiscal impact on their office.

Officials from the **State Treasurer's office** indicated no fiscal impact to their office.

Officials from **Clay County** indicated they estimate no impact from this petition.

Officials from **Greene County** indicated there may be an increased cost to their county if voters vote to amend Article III. The language in the initiative petition amends Article III to allow the members of the General Assembly to vote for a referendum and states they may order a special election. In Section 52(b) it also allows the General Assembly to set the date of the election and if the date of the election is set outside of a statutory election date then there may be costs to the county if no funds are appropriated to hold the election.

The cost to wholly fund an election for the County of Greene if no state funds are appropriated is estimated to be **\$342,002.07**.

Officials from **St. Louis County** indicated this has no apparent fiscal impact to their county.

Officials from the **City of Kansas City** indicated the proposed amendment has no fiscal impact on their city.

Officials from **Metropolitan Community College** indicated no fiscal impact to their college.

Officials from **St. Louis Community College** indicated they do not believe it will cost the college or have a positive impact on revenues.

Officials from the **St. Louis County Board of Elections** indicated this would have no fiscal impact on their Board.

Officials from the **Kansas City Board of Election Commissioners** indicated if a Special election is called the State would be responsible for pro-rata share based on voter registration. The cost to conduct an election in the Kansas City portion of Jackson County is roughly \$650,000.

Officials from **Platte County Board of Elections** indicated no fiscal impact.

Officials from the **Jackson County Election Board** indicated there is no fiscal impact to their Board.

Officials from the **Clay County Board of Election Commissioners** indicated a Special Election would cost around \$250,000.

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County, the City of Cape Girardeau, the City of Columbia, the City of Jefferson, the City of Joplin, the City of Kirksville, the City of Mexico, the City of Raymore, the City of St. Joseph, the City of St. Louis, the City of Springfield, the City of Union, the City of Wentzville, the City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, University of Missouri, the St. Charles County Election Authority, and the Board of Election Commissioners City of St. Louis.**

Fiscal Note Summary

State costs could increase if this petition results in more special elections, by an estimated \$10 million each special election. The state estimates additional costs of an unknown amount for its responsibilities related to a system of Online Accounts for Politically Active Citizens. Local entities estimate no costs or savings from this proposal.

RE: Petition approval request from Winston Apple regarding a proposed constitutional amendment to Article IV (2024-074)

Dear Auditor Fitzpatrick:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Winston Apple on February 22, 2023.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Article III of the Constitution is revised by amending Section 52 (a) to read as follows:

Section 52(a). A referendum may be ordered (except as to laws necessary for the immediate preservation of the public peace, health or safety, and laws making appropriations for the current expenses of the state government, for the maintenance of state institutions and for the support of public schools) either by petitions signed by five percent of the legal voters in each of two-thirds of the congressional districts in the state, or by a one-third vote of the members of either house of the general assembly, who may order a special election by a one-third vote in either house in a separate resolution related to the proposed amendment. [as other bills are enacted.] Referendum petitions shall be filed with the secretary of state not more than ninety days after the final adjournment of the session of the general assembly which passed the bill on which the referendum is demanded.

**MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (24-074)**

Subject

Initiative petition from Winston Apple regarding a proposed constitutional amendment to Article III. (Received February 22, 2023)

Date

March 14, 2023

Description

This proposal would amend Article III of the Missouri Constitution.

The amendment is to be voted on in November 2024.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office**, the **Department of Agriculture**, the **Department of Economic Development**, the **Department of Elementary and Secondary Education**, the **Department of Higher Education and Workforce Development**, the **Department of Health and Senior Services**, the **Department of Commerce and Insurance**, the **Department of Mental Health**, the **Department of Natural Resources**, the **Department of Corrections**, the **Department of Labor and Industrial Relations**, the **Department of Revenue**, the **Department of Public Safety**, the **Missouri Department of the National Guard**, the **Department of Social Services**, the **Governor's office**, the **Missouri House of Representatives**, the **Department of Conservation**, the **Department of Transportation**, the **Office of Administration**, the **Office of State Courts Administrator**, the **Missouri Senate**, the **Secretary of State's office**, the **Office of the State Public Defender**, the **State Treasurer's office**, **Adair County**, **Boone County**, **Callaway County**, **Cass County**, **Clay County**, **Cole County**, **Greene County**, **Jackson County**, **Jasper County**, **St. Charles County**, **St. Louis County**, **Taney County**, the **City of Cape Girardeau**, the **City of Columbia**, the **City of Jefferson**, the **City of Joplin**, the **City of Kansas City**, the **City of Kirksville**, the **City of Mexico**, the **City of Raymore**, the **City of St. Joseph**, the **City of St. Louis**, the **City of Springfield**, the **City of Union**, the **City of Wentzville**, the **City of West Plains**, **Cape Girardeau 63 School District**, **Hannibal 60 School District**, **Malta Bend R-V School District**, **Mehlville School District**, **Wellsville-Middletown R-1 School District**, **State Technical College of Missouri**, **Metropolitan Community College**, **University of Missouri**, **St. Louis Community College**, the **St. Charles County Election Authority**, the **St. Louis County Board of Elections**, the **Board of Election Commissioners City of St. Louis**, the **Kansas City Board of Election Commissioners**, the **Platte County Board of Elections**, the **Jackson County Election Board**, and the **Clay County Board of Election Commissioners**.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact.

Officials from the **Department of Economic Development** indicated no fiscal impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated they have reviewed initiative petition 24-074 and determined there is no fiscal impact to their agency.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no anticipated cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipate no fiscal impact for this initiative petition proposing to amend Article III.

Officials from the **Department of Revenue** indicated no impact.

Officials from the **Department of Public Safety - Office of the Director** indicated no impact for their department/director's office.

Officials from the **Missouri Department of the National Guard** indicated no fiscal impact to their department.

Officials from the **Department of Social Services** indicated they do not anticipate any fiscal impact.

Officials from the **Governor's office** indicated this proposal relating to referendums does not financially impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated Initiative Petitioner 24-074 will have no fiscal impact on their department.

Officials from the **Department of Transportation** indicated no fiscal impact expected for their department or the Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal relating to referendums does not financially impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be \$10 million based on the cost of the 2022 primary and general election reimbursements.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

For the FY22 petitions cycle, they estimate publication costs at \$70,000 per page. This amount is subject to change based on number of petitions received, length of those petitions and rates charged by newspaper publishers.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of our publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated initiative petition 24-074 will have no fiscal impact on their office.

Officials from the **State Treasurer's office** indicated no fiscal impact to their office.

Officials from **Clay County** indicated they estimate no impact from this petition.

Officials from **Greene County** indicated in reviewing initiative petition 24-074 it has been determined there may be an increased cost to the County of Greene if voters vote to amend Article III. The language in the initiative petition amends Article III to allow the members of the legislature to vote for a referendum and states they may order a special election. It would also appear they can set the date of the election and if the date of the election is set outside of a statutory election date then there may be costs to the county if no funds are appropriated to hold the election.

The cost to wholly fund an election for the County of Greene if no state funds are appropriated is estimated to be \$342,002.07.

Officials from **St. Louis County** indicated this initiative petition has no fiscal impact on their county.

Officials from the **City of Jefferson City** indicated in their opinion, Initiative Petition 24-074 proposing to amend Article III, would have no direct fiscal impact on their city assuming their city would not be responsible for paying to conduct any such election.

Officials from the **City of Kansas City** indicated this proposed amendment has no fiscal impact on their city.

Officials from **Metropolitan Community College** indicated unknown fiscal impact to their college.

Officials from **St. Louis Community College** indicated they determined it does not have a cost savings or positive revenue impact on their District if passed.

Officials from the **St. Louis County Election Board** indicated this will have no fiscal impact on their Board of Elections.

Officials from the **City of St. Louis Board of Election Commissioners** indicated no fiscal impact.

Officials from the **Kansas City Board of Election Commissioners** indicated petition 24-074 has no fiscal impact on their operations.

Officials from **Platte County Board of Elections** indicated no fiscal impact to their Board.

Officials from the **Jackson County Election Board** indicated the initiative petition amending Article III – Initiative Petition 24-074 has no fiscal impact on their Board.

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County, the City of Cape Girardeau, the City of Columbia, the City of Joplin, the City of Kirksville, the City of Mexico, the City of Raymore, the City of St. Joseph, the City of St. Louis, the City of Springfield, the City of Union, the City of Wentzville, the City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, University of Missouri, the St. Charles County Election Authority, and the Clay County Board of Election Commissioners.**

Fiscal Note Summary

State and local governmental entities estimate no costs or savings for this proposal.

RE: Petition approval request from Winston Apple regarding a proposed constitutional amendment to Article III (2024-073)

Dear Auditor Fitzpatrick:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Winston Apple on February 22, 2023.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

My commission expires: _____

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Article IV of the Constitution is revised by repealing Sections 7, 8, 18, 25, and 26, and amending Sections 1 and 17 to read as follows:

Section 1. The [supreme] executive power shall be vested in a governor.

[Section 7. The governor shall have power to grant reprieves, commutations and pardons, after conviction, for all offenses except treason and cases of impeachment, upon such conditions and with such restrictions and limitations as he may deem proper, subject to provisions of law as to the manner of applying for pardons. The power to pardon shall not include the power to parole.]

[Section 8. Every resolution to which the concurrence of the senate and house of representatives may be necessary, except on questions of adjournment, going into joint session, and of amending this constitution, shall be presented to the governor, and before the same shall take effect, shall be proceeded upon in the same manner as in the case of a bill; provided, that no resolution shall have the effect to repeal, extend, or amend any law.]

Section 17. (a) Upon the expiration of the terms being served by the [The] governor, lieutenant governor, secretary of state, state treasurer, [and] attorney general [shall be elected at the presidential elections for terms of four years each. The] and state auditor at the time this amendment takes effect, the persons holding those offices shall be elected by the General Assembly. [for a term of two years at the general election in the year 1948, and his successors shall be elected for terms of four years. No person shall be elected governor or treasurer more than twice, and no person who has held the office of governor or treasurer, or acted as governor or treasurer, for more than two years of a term to which some other person was elected to the office of governor or treasurer shall be elected to the office of governor or treasurer more than once.]

(b) Elections for governor, lieutenant governor, secretary of state, state treasurer, attorney general, and state auditor may be called separately at any time by a majority vote of the members of either house. Any member of the General Assembly shall be able to nominate candidates for each office. If more than two candidates are nominated for an office the election shall be conducted using ranked choice voting, with each member of the General Assembly being able to rank as many of the candidates for each office as they wish to rank, in order of preference.

(c) Tabulation of the results shall proceed in sequential rounds. In the first round, only first-choice votes are tabulated. If a candidate receives a majority of the first-choice votes that candidate is elected. If no candidate receives a majority of the first-choice votes cast, the candidate with the lowest number of first-choice votes is eliminated and the candidates listed as the second choice on ballots cast for the candidate being eliminated are distributed among the "continuing candidates". In each subsequent round, the candidate who has the fewest "cumulative votes" is eliminated and the highest remaining choice for a continuing candidate on each ballot for the eliminated candidate shall be redistributed, in ranked order, as needed, among the continuing candidates. Ballots that do not rank any continuing candidate will be "exhausted ballots" and will not be counted in that round or subsequent rounds. This process shall be repeated for as many rounds as needed until one candidate wins election by receiving a majority of the total cumulative votes.

(d) A random selection algorithm shall be determined, prior to tabulation, to resolve ties between candidates. If a tie occurs at any point in the tabulation procedure and tabulation cannot proceed until the tie is resolved, then the random selection algorithm shall resolve the tie.

(e) The heads of all the executive departments shall be appointed by the governor, by and with the advice and consent of the General Assembly [senate]. All appointive officers may be removed by the governor and shall possess the qualifications required by this constitution or by law.

Section 18. The returns of every election for governor, lieutenant governor, secretary of state, state auditor, state treasurer and attorney general shall be sealed and transmitted by the returning officers to the secretary of state, who shall appoint two disinterested judges of a court of record of the state, and the three shall constitute a board of state canvassers. The board shall meet at the state capitol on, or at the call of the secretary of state before, the second Tuesday of December next after the election and forthwith open and canvass the returns of the votes cast and from the face thereof ascertain and proclaim the result of the election. The persons having the highest number of votes for the respective offices shall be declared elected, and if two or more persons have an equal and the highest number of votes for the same office, at its next regular session the general assembly, by joint vote and without delay, shall choose one of such persons for the office.]

Section 25. Until it acts on all the appropriations recommended in the budget, neither house of the general assembly shall pass any appropriation other than emergency appropriations recommended by the governor.]

Section 26. The governor may object to one or more items or portions of items of appropriation of money in any bill presented to him, while approving other portions of the bill. On signing it he shall append to the bill a statement of the items or portions of items to which he objects and such items or portions shall not take effect. If the general assembly be in session he shall transmit to the house in which the bill originated a copy of the statement, and the items or portions objected to shall be reconsidered separately. If it be not in session he shall transmit the bill within forty-five days to the office of the secretary of state with his approval or reasons for disapproval. The governor shall not reduce any appropriation for free public schools, or for the payment of principal and interest on the public debt.]

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Article I of the Constitution, which begins with the words “*In order to assert our rights, acknowledge our duties, and proclaim the principles on which our government is founded, we declare*”, is revised by amending Section 33 to read as follows:

Section 33. That the end of law is not to abolish or restrain, but to preserve and enlarge freedom; that our natural right to liberty includes the right to determine our gender identity for ourselves and our natural right to pursue happiness includes the freedom to express and act upon our sexual orientation, so long as our free exercise of these rights does not infringe upon the rights of others to do the same; that consenting adults have the right to form civil unions and/or join together in the sacred bonds of marriage; that persons not yet of the age of consent have the right, with the consent of a biological parent or legal guardian, to seek gender-affirming care or counselling with regard to gender identification and/or sexual orientation; and that health care providers, ministers and clergy, and educators may, at their own discretion, exercise their right to provide counsel to persons, including those not yet of the age of consent, seeking guidance and/or comfort with regard to matters relating to gender identification and sexual orientation. [to be valid and recognized in this state, a marriage shall exist only between a man and a woman.]

NOTICE: The proposed amendment revises Article III of the Constitution by amending Section 8.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article III of the Constitution is revised by amending Section 8 as follows:

Section 8.

1. The legislature shall propose no measure reducing voters' direct legislative power, notwithstanding any provision of this Constitution to the contrary.
2. The legislature shall not change any voter-initiated law without a referendum at a general election or three-quarters' consent in the House and in the Senate, unless more than seven years have passed since voters approved the law, notwithstanding any provision of this Constitution to the contrary.
3. No one shall be elected to serve more than eight years as a member of the House, nor more than eight years as a member of the Senate [total in any one house of the General Assembly nor more than sixteen years total in both houses of the General Assembly].
4. Legislators' term limit of eight years' membership in the House plus eight years' membership in the Senate is hereby replaced with a simplified term limit of sixteen years' total membership in the legislature, notwithstanding subsection 3 of this section to the contrary, so long as voters' direct legislative power is not reduced relative to 2022.
5. Voters' direct legislative power is defined as "reduced relative to 2022" if and only if:
 - (1) it is no longer the case that legal voters have the constitutional right to directly enact, by majority of votes cast thereon, laws and amendments proposed by initiative petition and relating to any of the subjects on which the legislature can propose laws and amendments, excluding any subject prohibited by this Constitution as of December 31, 2022, with signatures from five percent of the legal voters in each of two-thirds of Missouri's congressional districts sufficient to propose a law, and with signatures from eight percent of the legal voters in each of two-thirds of Missouri's congressional districts sufficient to propose an amendment, the signatures required calculated based on the most recent total general-election vote for governor; or
 - (2) it is no longer the case that legal voters have the constitutional right to order by petition a referendum on any act of the legislature (except as to laws necessary for the immediate preservation of the public peace, health or safety, and laws making appropriations for the current expenses of the state government, for the maintenance of state institutions and for the support of public schools), with signatures from five percent of the legal voters in each of two-thirds of Missouri's congressional districts sufficient to order such a referendum, the signatures required calculated based on the most recent total general-election vote for governor.
6. For the purposes of this section, a "voter-initiated law" is defined to be a law that the people have proposed and enacted by the initiative.
7. For the purposes of this section, the legislature is defined to "change" a voter-initiated law if it passes a bill which modifies, repeals, or overrides any part of said law, whether with or without the signature of the governor.
8. In applying subsections 3 and 4 of this section, service in the General Assembly resulting from an election prior to December 3, 1992, or service of less than one year, in the case of a member of the house of representatives, or two years, in the case of a member of the senate, by a person elected after December 5, 2002, [the effective date of this section] to complete the term of another person, shall not be counted.
9. If any provision of subsections 1, 2, 3, 4, 5, 6, 7, or 8 of this section or the application thereof to anyone or to any circumstance is held invalid, the remainder of those provisions and the application of such provisions to others or other circumstances shall not be affected thereby.

**MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (24-071)**

Subject

Initiative petition from Harry Cooper regarding a proposed constitutional amendment to Article III. (Received February 17, 2023)

Date

March 09, 2023

Description

This proposal would amend Article III of the Missouri Constitution.

The amendment is to be voted on in November 2024.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office**, the **Department of Agriculture**, the **Department of Economic Development**, the **Department of Elementary and Secondary Education**, the **Department of Higher Education and Workforce Development**, the **Department of Health and Senior Services**, the **Department of Commerce and Insurance**, the **Department of Mental Health**, the **Department of Natural Resources**, the **Department of Corrections**, the **Department of Labor and Industrial Relations**, the **Department of Revenue**, the **Department of Public Safety**, the **Missouri Department of the National Guard**, the **Department of Social Services**, the **Governor's office**, the **Missouri House of Representatives**, the **Department of Conservation**, the **Department of Transportation**, the **Office of Administration**, the **Office of State Courts Administrator**, the **Missouri Senate**, the **Secretary of State's office**, the **Office of the State Public Defender**, the **State Treasurer's office**, **Adair County**, **Boone County**, **Callaway County**, **Cass County**, **Clay County**, **Cole County**, **Greene County**, **Jackson County**, **Jasper County**, **St. Charles County**, **St. Louis County**, **Taney County**, the **City of Cape Girardeau**, the **City of Columbia**, the **City of Jefferson**, the **City of Joplin**, the **City of Kansas City**, the **City of Kirksville**, the **City of Mexico**, the **City of Raymore**, the **City of St. Joseph**, the **City of St. Louis**, the **City of Springfield**, the **City of Union**, the **City of Wentzville**, the **City of West Plains**, **Cape Girardeau 63 School District**, **Hannibal 60 School District**, **Malta Bend R-V School District**, **Mehlville School District**, **Wellsville-Middletown R-1 School District**, **State Technical College of Missouri**, **Metropolitan Community College**, **University of Missouri**, and **St. Louis Community College**.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated they do not anticipate any fiscal impact with the passage of this petition.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated there is no fiscal impact to their department.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no anticipated cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipated no fiscal impact for this initiative petition.

Officials from the **Department of Revenue** indicated no impact.

Officials from the **Department of Public Safety** indicated no impact for their department, Director's office.

Officials from the **Missouri Department of the National Guard** indicated no fiscal impact to their department.

Officials from the **Department of Social Services** indicated they do not anticipate a fiscal impact.

Officials from the **Governor's office** indicated this proposal relating to initiative petitions and term limits does not financially impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated this initiative petition will have no negative fiscal impact on their department.

Officials from the **Department of Transportation** indicated no fiscal impact expected for their department or the Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal relating to initiative petitions and term limits does not financially impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be \$10 million based on the cost of the 2022 primary and general election reimbursements.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

For the FY22 petitions cycle, their office estimates publication costs at \$70,000 per page. This amount is subject to change based on number of petitions received, length of those petitions and rates charged by newspaper publishers.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will have no fiscal impact on their office.

Officials from the **State Treasurer's office** indicated no fiscal impact to their office.

Officials from **Clay County** indicated they coordinated with the Election Board and estimate no costs or savings from this petition.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county.

Officials from **St. Louis County** indicated this has no fiscal impact to their county.

Officials from the **City of Jefferson** indicated this initiative petition would not have a direct fiscal impact to their city.

Officials from the **City of Kansas City** indicated this proposed amendment has no fiscal impact on their city.

Officials from **Metropolitan Community College** indicated no fiscal impact to their college.

Officials from the **St. Louis Community College** indicated they have reviewed the proposed initiative and do not believe there is a net cost or revenue to the college if it should pass.

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County, the City of Cape Girardeau, the City of Columbia, the City of Joplin, the City of Kirksville, the City of Mexico, the City of Raymore, the City of St. Joseph, the City of St. Louis, the City of Springfield, the City of Union, the City of Wentzville, the City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, and the University of Missouri.**

Fiscal Note Summary

State and local governmental entities estimate no costs or savings for this proposal.

STATE AUDITORS OFFICE

RE: Petition approval request from Harry Cooper regarding a proposed constitutional amendment to Article III, version 1 (2024-070)

Dear Auditor Fitzpatrick:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Harry Cooper on February 16, 2023.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

NOTICE: The proposed amendment revises Article III of the Constitution by amending Section 8.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article III of the Constitution is revised by amending Section 8 as follows:

Section 8.

1. The legislature shall propose no measure reducing voters' direct legislative power, notwithstanding any provision of this Constitution to the contrary.
2. The legislature shall not change any voter-initiated law without a referendum at a general election or three-quarters' consent in the House and in the Senate, unless more than seven years have passed since voters approved the law, notwithstanding any provision of this Constitution to the contrary.
- 3.[No one shall be elected to serve more than eight years total in any one house of the General Assembly nor more than sixteen years total in both houses of the General Assembly.] Each legislator shall be limited to sixteen years' overall service in the legislature, rather than eight years in the House plus eight years in the Senate, and the limit shall lower to twelve years if voters' direct legislative power is reduced relative to 2022. In applying this subsection, service in the General Assembly resulting from an election prior to December 3, 1992, or service of less than one year, in the case of a member of the house of representatives, or two years, in the case of a member of the senate, by a person elected after December 5, 2002,[the effective date of this section] to complete the term of another person, shall not be counted. This subsection shall not prevent any person from completing a term granted them by the voters at an election occurring prior to December 5, 2024.
4. It is defined to be the case that voters' direct legislative power "is reduced relative to 2022" if and only if:
 - (1) it is no longer the case that legal voters have the constitutional right to directly enact, by majority of votes cast thereon, laws and amendments proposed by initiative petition and relating to any of the subjects on which the legislature can propose laws and amendments, excluding any subject prohibited by this Constitution as of December 31, 2022, with signatures from five percent of the legal voters in each of two-thirds of Missouri's congressional districts sufficient to propose a law, and with signatures from eight percent of the legal voters in each of two-thirds of Missouri's congressional districts sufficient to propose an amendment, the signatures required calculated based on the most recent total general-election vote for governor; or
 - (2) it is no longer the case that legal voters have the constitutional right to order by petition a referendum on any act of the legislature (except as to laws necessary for the immediate preservation of the public peace, health or safety, and laws making appropriations for the current expenses of the state government, for the maintenance of state institutions and for the support of public schools), with signatures from five percent of the legal voters in each of two-thirds of Missouri's congressional districts sufficient to order such a referendum, the signatures required calculated based on the most recent total general-election vote for governor.
5. For the purposes of this section, a "voter-initiated law" is defined to be a law that the people have proposed and enacted by the initiative.
6. For the purposes of this section, the legislature is defined to "change" a voter-initiated law if it passes a bill which modifies, repeals, or overrides any part of said law, whether with or without the signature of the governor.
7. If any provision of subsections 1, 2, 3, 4, 5, or 6 of this section or the application thereof to anyone or to any circumstance is held invalid, the remainder of those provisions and the application of such provisions to others or other circumstances shall not be affected thereby.

**MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (24-070)**

Subject

Initiative petition from Harry Cooper regarding a proposed constitutional amendment to Article III. (Received February 17, 2023)

Date

March 09, 2023

Description

This proposal would amend Article III of the Missouri Constitution.

The amendment is to be voted on in November 2024.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office**, the **Department of Agriculture**, the **Department of Economic Development**, the **Department of Elementary and Secondary Education**, the **Department of Higher Education and Workforce Development**, the **Department of Health and Senior Services**, the **Department of Commerce and Insurance**, the **Department of Mental Health**, the **Department of Natural Resources**, the **Department of Corrections**, the **Department of Labor and Industrial Relations**, the **Department of Revenue**, the **Department of Public Safety**, the **Missouri Department of the National Guard**, the **Department of Social Services**, the **Governor's office**, the **Missouri House of Representatives**, the **Department of Conservation**, the **Department of Transportation**, the **Office of Administration**, the **Office of State Courts Administrator**, the **Missouri Senate**, the **Secretary of State's office**, the **Office of the State Public Defender**, the **State Treasurer's office**, **Adair County**, **Boone County**, **Callaway County**, **Cass County**, **Clay County**, **Cole County**, **Greene County**, **Jackson County**, **Jasper County**, **St. Charles County**, **St. Louis County**, **Taney County**, the **City of Cape Girardeau**, the **City of Columbia**, the **City of Jefferson**, the **City of Joplin**, the **City of Kansas City**, the **City of Kirksville**, the **City of Mexico**, the **City of Raymore**, the **City of St. Joseph**, the **City of St. Louis**, the **City of Springfield**, the **City of Union**, the **City of Wentzville**, the **City of West Plains**, **Cape Girardeau 63 School District**, **Hannibal 60 School District**, **Malta Bend R-V School District**, **Mehlville School District**, **Wellsville-Middletown R-1 School District**, **State Technical College of Missouri**, **Metropolitan Community College**, **University of Missouri**, and **St. Louis Community College**.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated they do not anticipate any fiscal impact with the passage of this petition.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated there is no fiscal impact to their department.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no anticipated cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipated no fiscal impact for this initiative petition.

Officials from the **Department of Revenue** indicated no impact.

Officials from the **Department of Public Safety** indicated no impact for their department, Director's office.

Officials from the **Missouri Department of the National Guard** indicated no fiscal impact to their department.

Officials from the **Department of Social Services** indicated they do not anticipate a fiscal impact.

Officials from the **Governor's office** indicated this proposal relating to initiative petitions and term limits does not financially impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated this initiative petition will have no negative fiscal impact on their department.

Officials from the **Department of Transportation** indicated no fiscal impact expected for their department or the Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal relating to initiative petitions and term limits does not financially impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be \$10 million based on the cost of the 2022 primary and general election reimbursements.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

For the FY22 petitions cycle, they estimate publication costs at \$70,000 per page. This amount is subject to change based on number of petitions received, length of those petitions and rates charged by newspaper publishers.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition has no fiscal impact on their office.

Officials from the **State Treasurer's office** indicated no fiscal impact to their office.

Officials from **Clay County** indicated they coordinated with the Election Board and estimate no costs or savings from this petition.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from **St. Louis County** indicated this has no fiscal impact to their county.

Officials from the **City of Jefferson** indicated this initiative petition would not have a direct fiscal impact to their city.

Officials from the **City of Kansas City** indicated this proposed amendment has no fiscal impact on their city.

Officials from **Metropolitan Community College** indicated no fiscal impact to their college.

Officials from the **St. Louis Community College** indicated they have reviewed the proposed initiative and do not believe there is a net cost or revenue to their college if it should pass.

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County, the City of Cape Girardeau, the City of Columbia, the City of Joplin, the City of Kirksville, the City of Mexico, the City of Raymore, the City of St. Joseph, the City of St. Louis, the City of Springfield, the City of Union, the City of Wentzville, the City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, and the University of Missouri.**

Fiscal Note Summary

State and local governmental entities estimate no costs or savings for this proposal.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Article III of the Constitution is revised by amending Section 52 (a) to read as follows:

Section 52(a). A referendum may be ordered (except as to laws necessary for the immediate preservation of the public peace, health or safety, and laws making appropriations for the current expenses of the state government, for the maintenance of state institutions and for the support of public schools) either by petitions signed by five percent of the legal voters in each of two-thirds of the congressional districts in the state, or by a one-third vote of the members of either house of the general assembly, as other bills are enacted. Referendum petitions shall be filed with the secretary of state not more than ninety days after the final adjournment of the session of the general assembly which passed the bill on which the referendum is demanded.

NOTICE: The proposed amendment revises Article VIII of the Constitution by adopting five new Sections to be known as Article VIII, Sections 8, 9, 10, 12, and 13.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article VIII of the Constitution is revised by adopting five new Sections to be known as Article VIII, Sections 8, 9, 10, 12, and 13 to read as follows:

Section 8. Ballot titles for ballot measures, whether proposed by the General Assembly, or through citizen initiative or referendum, shall be unbiased, fair, and sufficient and to the extent possible shall only include language found in the proposed measure.

Section 9. 1. Prior to the certification of the election results, each election authority shall, at a minimum, undertake a manual audit of randomly selected precincts which shall equal the greater of: 5% of all election precincts within the election authority's jurisdiction, one precinct, or any number required by law. No such audit shall be performed, conducted, or overseen by any non-governmental entity. All ballots cast at such election by qualified registered voters in such precincts shall be subject to the manual audit. The manual audit shall be open to the public, be completed within fourteen (14) days of the conclusion of the election, and results from the manual audit shall be publicly available within two (2) days after its completion. If, based on the manual audit, the election authority finds evidence of errors in the original tabulation that would change the result of any election or exceed a threshold established by law, the manual audit shall be converted to a full and binding manual recount of all ballots in that election. At least once every four years, each election authority shall file a written report, including documentation, with the secretary of state demonstrating that the election authority conducted at a minimum the manual audit required in this section. Such report shall be a public record.

Section 10. 1. All established political parties in the state shall have a right to have their designated nominees appear on the general election ballot. For purposes of this Section, "established political party" shall mean a political party which, at either of the last two general elections, polled for one of its candidates for any statewide office more than two percent of the entire vote cast for the office.

2. Any group of persons desiring to form a new political party throughout the state, which shall include being formed for all districts and counties in which the party may have nominations, shall file a petition with the secretary of state which shall be signed by at least ten thousand registered voters of the state obtained at large.

3. All established political parties in the state will retain their established political party status unless such party at any two consecutive general elections fails to poll for a candidate for any statewide office more than two percent of the entire vote cast for the office.

4. Any person desiring to be an independent candidate for any state or federal office to be filled by voters, shall file a petition with the secretary of state. Any person desiring to be an independent candidate for any county office shall file a petition with the election authority of the county. If an independent candidate is to be nominated for a statewide office, the petition shall be signed by at least ten thousand registered voters of the state. If the independent candidate is to be nominated for a district or county office, the petition shall be signed by the number of registered voters in the district or county which is equal to at least two percent of the total number of voters who voted at the last general election for candidates for the office being sought or is equal to ten thousand voters, whichever is less.

Section 12. In any party primary election, each registered voter shall be entitled to receive the ballot of one and only one political party. Each registered voter who participates in a party primary shall be entitled to vote on all questions and for any nonpartisan candidates submitted by political subdivisions and special districts at the primary election. Each registered voter who does not wish to participate in a party primary may vote on all questions and for any nonpartisan candidates submitted by a political subdivision or special district at the primary election. For purposes of this Section "nonpartisan candidate" shall mean a candidate who is not a candidate of any political party and who is running for an office for which party candidates may not run.

Section 13. If any portion, clause, or phrase of this Amendment is, for any reason, held to be invalid or unconstitutional in a final judgment of a court of competent jurisdiction, the remaining portions, clauses, and phrases shall not be affected, but shall remain in full force and effect.

**MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (24-068)**

Subject

Initiative petition from Frederic Steinbach regarding a proposed constitutional amendment to Article VIII. (Received January 30, 2023)

Date

February 17, 2023

Description

This proposal would amend Article VIII of the Missouri Constitution.

The amendment is to be voted on in November 2024.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office**, the **Department of Agriculture**, the **Department of Economic Development**, the **Department of Elementary and Secondary Education**, the **Department of Higher Education and Workforce Development**, the **Department of Health and Senior Services**, the **Department of Commerce and Insurance**, the **Department of Mental Health**, the **Department of Natural Resources**, the **Department of Corrections**, the **Department of Labor and Industrial Relations**, the **Department of Revenue**, the **Department of Public Safety**, the **Missouri Department of the National Guard**, the **Department of Social Services**, the **Governor's office**, the **Missouri House of Representatives**, the **Department of Conservation**, the **Department of Transportation**, the **Office of Administration**, the **Office of State Courts Administrator**, the **Missouri Senate**, the **Secretary of State's office**, the **Office of the State Public Defender**, the **State Treasurer's office**, **Adair County**, **Boone County**, **Callaway County**, **Cass County**, **Clay County**, **Cole County**, **Greene County**, **Jackson County**, **Jasper County**, **St. Charles County**, **St. Louis County**, **Taney County**, the **City of Cape Girardeau**, the **City of Columbia**, the **City of Jefferson**, the **City of Joplin**, the **City of Kansas City**, the **City of Kirksville**, the **City of Mexico**, the **City of Raymore**, the **City of St. Joseph**, the **City of St. Louis**, the **City of Springfield**, the **City of Union**, the **City of Wentzville**, the **City of West Plains**, **Cape Girardeau 63 School District**, **Hannibal 60 School District**, **Malta Bend R-V School District**, **Mehlville School District**, **Wellsville-Middletown R-1 School District**, **State Technical College of Missouri**, **Metropolitan Community College**, **University of Missouri**, **St. Louis Community College**, the **St. Louis County Board of Elections**, the **Board of Election Commissioners City of St. Louis**, the **Kansas City Board of Election Commissioners**, the **Platte County Board of Elections**, the **Jackson County Election Board**, the **Clay County Board of Election Commissioners**, and the **State Auditor's office**.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated their department does not foresee a fiscal impact with this petition.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated there is no fiscal impact to their agency.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no anticipated cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipate no fiscal impact for this initiative petition proposing to amend Article VIII.

Officials from the **Department of Revenue** indicated no impact to their department.

Officials from the **Department of Public Safety - Office of the Director** indicated no impact for their department, Director's Office.

Officials from the **Missouri Department of the National Guard** indicated no fiscal impact to their department.

Officials from the **Department of Social Services** indicated they do not anticipate a fiscal impact as a result of this petition.

Officials from the **Governor's office** indicated this proposal relating to ballot measures and elections does not financially impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated their department does not anticipate any fiscal impact from Initiative Petition 24-068.

Officials from the **Department of Transportation** indicated no fiscal impact expected from their department or the Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal relating to ballot measures and elections does not financially impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be \$10 million based on the cost of the 2022 primary and general election reimbursements.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

For the FY22 petitions cycle, their office estimates publication costs at \$70,000 per page. This amount is subject to change based on number of petitions received, length of those petitions and rates charged by newspaper publishers.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will have no fiscal impact on their office.

Officials from the **State Treasurer's office** indicated no impact to their office.

Officials from **Clay County** indicated they defer to the response provided by the Clay County Board of Election Commissioners.

Officials from **Greene County** indicated there will be an increased cost to their county if voters vote to amend Article VIII, version 5. Section 9 is the only section of the sections in Article VIII where a cost increase is anticipated.

Section 9:

Currently a manual hand-counting audit is performed after each election for no less than 5% of all voting precincts in any election. In a general election, five separate contests on the ballot are randomly selected to be manually counted. The language in Section 9 appears to require all contests on the ballot to be hand counted.

In analyzing the estimated cost for this petition, the county looked at the costs to complete a manual count for the August 2022 and November 2022. There was no significant cost increase for the April election with this measure.

August 2022

In August 2022, it took 10 election judges (5 bi-partisan teams) a total of seven hours (per team) to complete the manual recount for 5 precincts for 5 contests. This cost was approximately **\$857.50**.

The average Greene County ballot in August 2022 had a total of 12 contests and ballot issues on the ballot.

7 hours divided by 5 contests equals 1.4 hours per contest. 1.4 hours per contest multiplied by 12 contests equals 16.8 hours. 16.8 x 10 election judges equals 168 hours in total. It is important to note the hourly rate has now increased to **\$14.75** (effective January 1, 2023) from **\$12.25** (2022 hourly rate). Total estimated cost with this formula: **\$2,478**.

August Primary Estimated Cost Increase: \$1,620.50

November 2022

In November 2022, it took 10 election judges (5 bi-partisan teams) approximately 126 hours total to complete the manual recount for 5 precincts for 5 contests. This cost was **\$1,543.50**.

The average Greene County ballot in November 2022 had a total of 25 contests and ballot issues on the ballot.

126 hours divided by 5 contests equals 25.2 hours per contest. 25.2 hours per contest multiplied by 25 contests equals 630 hours. It is important to note the hourly rate has now increased to \$14.75 (effective January 1, 2023) from \$12.25 (November 2022 hourly rate). Total estimated cost with this formula: **\$9,292.50**

November General Estimated Cost Increase: \$7,749.00

The following total estimated cost increase is the sum of 3 elections during a general election year when a minimum of 3 public elections would be held.

Total General Election Year Estimated Cost Increase: \$9,369.50

Officials from **St. Louis County** indicated there is no anticipated fiscal impact for their county.

Officials from the **City of Kansas City** indicated this amendment would have no fiscal impact on their city.

Officials from **Metropolitan Community College** indicated no fiscal impact to their college.

Officials from the **St. Louis Community College** indicated they do not believe it has a cost or revenue impact to their college.

Officials from the **St. Louis County Board of Elections** indicated they predict no fiscal impact.

Officials from the **Board of Election Commissioners City of St. Louis** indicated no impact.

Officials from the **Kansas City Board of Election Commissioners** indicated this petition requires the checking of petitions which could cost an additional \$2,500 for elections conducted in even numbered years, (Primary \$1,250, General \$1,250).

This petition requires manual auditing of 5% of the election ballots cast. Since certification must be done within 14 days of election day and all questions and candidates would be audited (not a random sample), additional staff o/t and temporary expense totaling \$10,000 per election would be needed to audit all the races and questions in a large ballot. Smaller ballots with fewer candidates and questions would have a reduced cost. If for some reason, the audit results were above the acceptable tolerance, all ballots would need to be manually audited, the cost could be closer to \$50,000 to perform this task within the 14 day certification period.

Officials from the **Platte County Board of Elections** indicated no fiscal impact.

Officials from the **Jackson County Election Board** indicated that if a full manual recount of the entire election were required a massive number of part-time workers would need to be hired to conduct the manual recount. A separate place would need to be rented to accommodate those part-time workers and transportation and security for ballots arranged.

Section 10

Part-time Workers – Large Election	\$12,000.00
Rental for 6-7 days	\$ 5,000.00
Security & Transportation of Ballots	\$ 3,000.00

April, August & November Elections of Even-Numbered Years	
Should a full manual recount be needed	\$20,000.00 (per election)

Officials from the **Clay County Board of Election Commissioners** indicated most of this they already do. The 5% audit with a manual recount is something they have always done. The only costs they see that might come in to play would be if there was a discrepancy and they had to do a full hand recount of all ballots. The costs for that would be anywhere from \$3,500 to \$15,000 depending on how many bi-partisan teams to do the count. Those costs would depend on how many days it took at 8 hours a day with 10 teams. These figures range from 1 day to 5 days and could be more depending on how big election is and how many ballots were cast.

Officials from the **State Auditor's office** indicated no fiscal impact.

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County, the City of Cape Girardeau, the City of Columbia, the City of Jefferson, the City of Joplin, the City of Kirksville, the City of Mexico, the City of Raymore, the City of St. Joseph, the City of St. Louis, the City of Springfield, the City of Union, the City of Wentzville, the City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, and the University of Missouri.**

Fiscal Note Summary

State governmental entities estimate no costs or savings for this proposal. Local governmental entities estimate costs could increase by at least \$33,500 to \$85,000 each municipal general election, \$35,121 to \$86,621 each primary election, and \$41,249 to \$92,749 each general election.

STATE AUDITORS OFFICE

RE: Petition approval request from Frederic Steinbach regarding a proposed constitutional amendment to Article VIII, version 4 (2024-067)

Dear Auditor Fitzpatrick:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Frederic Steinbach on January 27, 2023.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

John R. Ashcroft
Secretary of State

NOTICE: The proposed amendment revises Article VIII of the Constitution by adopting six new Sections to be known as Article VIII, Sections 8, 9, 10, 12, 13, and 14.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article VIII of the Constitution is revised by adopting six new Sections to be known as Article VIII, Sections 8, 9, 10, 12, 13, and 14 to read as follows:

Section 8. Ballot titles for ballot measures, whether proposed by the General Assembly, or through citizen initiative or referendum, shall be unbiased, fair, and sufficient and to the extent possible shall only include language found in the proposed measure.

Section 9. Election authorities shall remove deceased individuals from all voter rolls which such election authorities have control over, upon the proper notification and documentation from a state or federal agency, subject to appropriation and federal law.

Section 10. 1. Prior to the certification of the election results, each election authority shall, at a minimum, undertake a manual audit of randomly selected precincts which shall equal the greater of: 5% of all election precincts within the election authority's jurisdiction, one precinct, or any number required by law. No such audit shall be performed, conducted, or overseen by any non-governmental entity. All ballots cast at such election by qualified registered voters in such precincts shall be subject to the manual audit. The manual audit shall be open to the public, be completed within fourteen (14) days of the conclusion of the election, and results from the manual audit shall be publicly available within two (2) days after its completion. If, based on the manual audit, the election authority finds evidence of errors in the original tabulation that would change the result of any election or exceed a threshold established by law, the manual audit shall be converted to a full and binding manual recount of all ballots in that election. At least once every four years, each election authority shall file a written report, including documentation, with the secretary of state demonstrating that the election authority conducted at a minimum the manual audit required in this section. Such report shall be a public record.

Section 12. 1. All established political parties in the state shall have a right to have their designated nominees appear on the general election ballot. For purposes of this Section, "established political party" shall mean a political party which, at either of the last two general elections, polled for one of its candidates for any statewide office more than two percent of the entire vote cast for the office.

2. Any group of persons desiring to form a new political party throughout the state, which shall include being formed for all districts and counties in which the party may have nominations, shall file a petition with the secretary of state which shall be signed by at least ten thousand registered voters of the state obtained at large.

3. All established political parties in the state will retain their established political party status unless such party at any two consecutive general elections fails to poll for a candidate for any statewide office more than two percent of the entire vote cast for the office.

4. Any person desiring to be an independent candidate for any state or federal office to be filled by voters, shall file a petition with the secretary of state. Any person desiring to be an independent candidate for any county office shall file a petition with the election authority of the county. If an independent candidate is to be nominated for a statewide office, the petition shall be signed by at least ten thousand registered voters of the state. If the independent candidate is to be nominated for a district or county office, the petition shall be signed by the number of registered voters in the district or county which is equal to at least two percent of the total number of voters who voted at the last general election for candidates for the office being sought or is equal to ten thousand voters, whichever is less.

Section 13. In any party primary election, each registered voter shall be entitled to receive the ballot of one and only one political party. Each registered voter who participates in a party primary shall be entitled to vote on all questions and for any nonpartisan candidates submitted by political subdivisions and special districts at the primary election. Each registered voter who does not wish to participate in a party primary may vote on all questions and for any nonpartisan candidates submitted by a political subdivision or special district at the primary election. For purposes of this Section "nonpartisan candidate" shall mean a candidate who is not a candidate of any political party and who is running for an office for which party candidates may not run.

Section 14. If any portion, clause, or phrase of this Amendment is, for any reason, held to be invalid or unconstitutional in a final judgment of a court of competent jurisdiction, the remaining portions, clauses, and phrases shall not be affected, but shall remain in full force and effect.

**MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (24-067)**

Subject

Initiative petition from Frederic Steinbach regarding a proposed constitutional amendment to Article VIII. (Received January 30, 2023)

Date

February 17, 2023

Description

This proposal would amend Article VIII of the Missouri Constitution.

The amendment is to be voted on in November 2024.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office**, the **Department of Agriculture**, the **Department of Economic Development**, the **Department of Elementary and Secondary Education**, the **Department of Higher Education and Workforce Development**, the **Department of Health and Senior Services**, the **Department of Commerce and Insurance**, the **Department of Mental Health**, the **Department of Natural Resources**, the **Department of Corrections**, the **Department of Labor and Industrial Relations**, the **Department of Revenue**, the **Department of Public Safety**, the **Missouri Department of the National Guard**, the **Department of Social Services**, the **Governor's office**, the **Missouri House of Representatives**, the **Department of Conservation**, the **Department of Transportation**, the **Office of Administration**, the **Office of State Courts Administrator**, the **Missouri Senate**, the **Secretary of State's office**, the **Office of the State Public Defender**, the **State Treasurer's office**, **Adair County**, **Boone County**, **Callaway County**, **Cass County**, **Clay County**, **Cole County**, **Greene County**, **Jackson County**, **Jasper County**, **St. Charles County**, **St. Louis County**, **Taney County**, the **City of Cape Girardeau**, the **City of Columbia**, the **City of Jefferson**, the **City of Joplin**, the **City of Kansas City**, the **City of Kirksville**, the **City of Mexico**, the **City of Raymore**, the **City of St. Joseph**, the **City of St. Louis**, the **City of Springfield**, the **City of Union**, the **City of Wentzville**, the **City of West Plains**, **Cape Girardeau 63 School District**, **Hannibal 60 School District**, **Malta Bend R-V School District**, **Mehlville School District**, **Wellsville-Middletown R-1 School District**, **State Technical College of Missouri**, **Metropolitan Community College**, **University of Missouri**, **St. Louis Community College**, the **St. Louis County Board of Elections**, the **Board of Election Commissioners City of St. Louis**, the **Kansas City Board of Election Commissioners**, the **Platte County Board of Elections**, the **Jackson County Election Board**, the **Clay County Board of Election Commissioners**, and the **State Auditor's office**.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated their department does not foresee a fiscal impact with this petition.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated there is no fiscal impact to their agency.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no anticipated cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipate no fiscal impact for this initiative petition proposing to amend Article VIII.

Officials from the **Department of Revenue** indicated no impact to their department.

Officials from the **Department of Public Safety - Office of the Director** indicated no impact for their department, Director's Office.

Officials from the **Missouri Department of the National Guard** indicated no fiscal impact to their department.

Officials from the **Department of Social Services** indicated they do not anticipate a fiscal impact as a result of this petition.

Officials from the **Governor's office** indicated this proposal relating to ballot measures and elections does not financially impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated their department does not anticipate any fiscal impact with Initiative Petitioner 24-067.

Officials from the **Department of Transportation** indicated no fiscal impact expected from their department or the Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal relating to ballot measures and elections does not financially impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be \$10 million based on the cost of the 2022 primary and general election reimbursements.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

For the FY22 petitions cycle, their office estimates publication costs at \$70,000 per page. This amount is subject to change based on number of petitions received, length of those petitions and rates charged by newspaper publishers.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will have no fiscal impact on their office.

Officials from the **State Treasurer's office** indicated no impact to their office.

Officials from **Clay County** indicated they defer to the response provided by the Clay County Board of Election Commissioners.

Officials from **Greene County** indicated there will be an increased cost to their county if voters vote to amend Article VIII, version 4. Section 10 is the only section of the sections in Article VIII where a cost increase is anticipated.

Section 10:

Currently a manual hand-counting audit is performed after each election for no less than 5% of all voting precincts in any election. In a general election, five separate contests on the ballot are randomly selected to be manually counted. The language in Section 10 appears to require all contests on the ballot to be hand counted.

In analyzing the estimated cost for this petition, the county looked at the costs to complete a manual count for the August 2022 and November 2022. There was no significant cost increase for the April election with this measure.

August 2022

In August 2022, it took 10 election judges (5 bi-partisan teams) a total of seven hours (per team) to complete the manual recount for 5 precincts for 5 contests. This cost was approximately **\$857.50**.

The average Greene County ballot in August 2022 had a total of 12 contests and ballot issues on the ballot.

7 hours divided by 5 contests equals 1.4 hours per contest. 1.4 hours per contest multiplied by 12 contests equals 16.8 hours. 16.8 x 10 election judges equals 168 hours in total. It is important to note the hourly rate has now increased to **\$14.75** (effective January 1, 2023) from **\$12.25** (2022 hourly rate). Total estimated cost with this formula: **\$2,478**.

August Primary Estimated Cost Increase: \$1,620.50

November 2022

In November 2022, it took 10 election judges (5 bi-partisan teams) approximately 126 hours total to complete the manual recount for 5 precincts for 5 contests. This cost was **\$1,543.50**.

The average Greene County ballot in November 2022 had a total of 25 contests and ballot issues on the ballot.

126 hours divided by 5 contests equals 25.2 hours per contest. 25.2 hours per contest multiplied by 25 contests equals 630 hours. It is important to note the hourly rate has now increased to \$14.75 (effective January 1, 2023) from \$12.25 (November 2022 hourly rate). Total estimated cost with this formula: **\$9,292.50**

November General Estimated Cost Increase: \$7,749.00

The following total estimated cost increase is the sum of 3 elections during a general election year when a minimum of 3 public elections would be held.

Total General Election Year Estimated Cost Increase: \$9,369.50

Officials from **St. Louis County** indicated there is no anticipated fiscal impact for their county.

Officials from the **City of Kansas City** indicated this amendment would have no fiscal impact on their city.

Officials from **Metropolitan Community College** indicated no fiscal impact to their college.

Officials from the **St. Louis Community College** indicated they do not believe it has a cost or revenue impact to their college.

Officials from the **St. Louis County Board of Elections** indicated they predict no fiscal impact.

Officials from the **Board of Election Commissioners City of St. Louis** indicated no impact.

Officials from the **Kansas City Board of Election Commissioners** indicated this petition requires the checking of petitions which could cost an additional \$2,500 for elections conducted in even numbered years, (Primary \$1,250, General \$1,250).

This petition requires manual auditing of 5% of the election ballots cast. Since certification must be done within 14 days of election day and all questions and candidates would be audited (not a random sample), additional staff o/t and temporary expense totaling \$10,000 per election would be needed to audit all the races and questions in a large ballot. Smaller ballots with fewer candidates and questions would have a reduced cost. If for some reason, the audit results were above the acceptable tolerance, all ballots would need to be manually audited, the cost could be closer to \$50,000 to perform this task within the 14 day certification period.

Officials from the **Platte County Board of Elections** indicated no fiscal impact.

Officials from the **Jackson County Election Board** indicated that if a full manual recount of the entire election were required a massive number of part-time workers would need to be hired to conduct the manual recount. A separate place would need to be rented to accommodate those part-time workers and transportation and security for ballots arranged.

Section 10

Part-time Workers – Large Election	\$12,000.00
Rental for 6-7 days	\$ 5,000.00
Security & Transportation of Ballots	\$ 3,000.00

April, August & November Elections of Even-Numbered Years	
Should a full manual recount be needed	\$20,000.00 (per election)

Officials from the **Clay County Board of Election Commissioners** indicated most of this they already do. The 5% audit with a manual recount is something they have always done. The only costs they see that might come in to play would be if there was a discrepancy and they had to do a full hand recount of all ballots. The costs for that would be anywhere from \$3,500 to \$15,000 depending on how many bi-partisan teams to do the count. Those costs would depend on how many days it took at 8 hours a day with 10 teams. These figures range from 1 day to 5 days and could be more depending on how big election is and how many ballots were cast.

Officials from the **State Auditor's office** indicated no fiscal impact.

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County, the City of Cape Girardeau, the City of Columbia, the City of Jefferson, the City of Joplin, the City of Kirksville, the City of Mexico, the City of Raymore, the City of St. Joseph, the City of St. Louis, the City of Springfield, the City of Union, the City of Wentzville, the City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, and the University of Missouri.**

Fiscal Note Summary

State governmental entities estimate no costs or savings for this proposal. Local governmental entities estimate costs could increase by at least \$33,500 to \$85,000 each municipal general election, \$35,121 to \$86,621 each primary election, and \$41,249 to \$92,749 each general election.

RE: Petition approval request from Frederic Steinbach regarding a proposed constitutional amendment to Article VIII, version 3 (2024-066)

Dear Auditor Fitzpatrick:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Frederic Steinbach on January 27, 2023.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

NOTICE: The proposed amendment revises Article VIII of the Constitution by adopting six new Sections to be known as Article VIII, Sections 8, 9, 10, 12, 13, and 14.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article VIII of the Constitution is revised by adopting six new Sections to be known as Article VIII, Sections 8, 9, 10, 12, 13, and 14 to read as follows:

Section 8. Ballot titles for ballot measures, whether proposed by the General Assembly, or through citizen initiative or referendum, shall be unbiased, fair, and sufficient and to the extent possible shall only include language found in the proposed measure.

Section 9. Election authorities shall remove deceased individuals from all voter rolls which such election authorities have control over, upon the proper notification and documentation from a state or federal agency, subject to appropriation and federal law.

Section 10. 1. The chair of the county committee, or the city committee of a city not within a county, of each established political party with a candidate on the ballot shall have the exclusive right to designate an observer for any polling place on any day in which votes are being cast who may be present until all ballots are cast, and an observer for each location at which absentee ballots or ballots cast on election day are counted, who may be present while the ballots are being prepared for counting and counted and may remain until all ballots are counted. No later than four business days before the election, the chair shall provide signed designation forms with the names of the designated observers to the local election authority for confirmation of eligibility to serve as an observer. The local election authority shall sign off on the designation forms, unless the observer is found not to have the qualifications established by subsection 3 of this section. If the election authority determines that an observer does not meet the qualifications of subsection 3 of this section, the election authority shall notify the designating party chair and such chair may designate a replacement observer and provide the local election authority with the name of the replacement observer before 5:00 p.m. of the Monday preceding the election. The designating chair may substitute observers, who meet the qualifications of subsection 3, at his or her discretion before 5:00 pm on the Monday preceding the election.

2. An independent candidate shall also have the right to designate an observer in the same manner as each political party, except should more than one independent candidate appear on the ballot the independent candidates shall agree on a single observer per polling place or location referenced in subsection 1 of this section.

3. All persons selected as observers shall only be required to have the same qualifications required by law for election judges.

4. In a nonpartisan election, each nonpartisan candidate on the ballot shall have the right to designate an observer in the same manner as each political party for each polling place or location at which such candidate appears on the ballot, except should more than three nonpartisan candidates appear on the ballot, the nonpartisan candidates shall agree on no more than two observers per polling place or location referenced in subsection 1 of this section. The General Assembly shall enact laws to provide for procedures to carry out this subsection.

5. For purposes of this section, "observer" shall mean a watcher, challenger, or observer of an election as provided by law.

Section 12. 1. All established political parties in the state shall have a right to have their designated nominees appear on the general election ballot. For purposes of this Section, "established political party" shall mean a political party which, at either of the last two general elections, polled for one of its candidates for any statewide office more than two percent of the entire vote cast for the office.

2. Any group of persons desiring to form a new political party throughout the state, which shall include being formed for all districts and counties in which the party may have nominations, shall file a petition with the secretary of state which shall be signed by at least ten thousand registered voters of the state obtained at large.

3. All established political parties in the state will retain their established political party status unless such party at any two consecutive general elections fails to poll for a candidate for any statewide office more than two percent of the entire vote cast for the office.

4. Any person desiring to be an independent candidate for any state or federal office to be filled by voters, shall file a petition with the secretary of state. Any person desiring to be an independent candidate for any county office shall file a petition with the election authority of the county. If an independent candidate is to be nominated for a statewide office, the petition shall be signed by at least ten thousand registered voters of the state. If the independent candidate is to be nominated for a district or county office, the petition shall be signed by the number of registered voters in the district or county which is equal to at least two percent of the total number of voters who voted at the last general election for candidates for the office being sought or is equal to ten thousand voters, whichever is less.

Section 13. In any party primary election, each registered voter shall be entitled to receive the ballot of one and only one political party. Each registered voter who participates in a party primary shall be entitled to vote on all questions and for any nonpartisan candidates submitted by political subdivisions and special districts at the primary election.

Each registered voter who does not wish to participate in a party primary may vote on all questions and for any nonpartisan candidates submitted by a political subdivision or special district at the primary election. For purposes of this Section “nonpartisan candidate” shall mean a candidate who is not a candidate of any political party and who is running for an office for which party candidates may not run.

Section 14. If any portion, clause, or phrase of this Amendment is, for any reason, held to be invalid or unconstitutional in a final judgment of a court of competent jurisdiction, the remaining portions, clauses, and phrases shall not be affected, but shall remain in full force and effect.

**MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (24-066)**

Subject

Initiative petition from Frederic Steinbach regarding a proposed constitutional amendment to Article VIII. (Received January 30, 2023)

Date

February 17, 2023

Description

This proposal would amend Article VIII of the Missouri Constitution.

The amendment is to be voted on in November 2024.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office**, the **Department of Agriculture**, the **Department of Economic Development**, the **Department of Elementary and Secondary Education**, the **Department of Higher Education and Workforce Development**, the **Department of Health and Senior Services**, the **Department of Commerce and Insurance**, the **Department of Mental Health**, the **Department of Natural Resources**, the **Department of Corrections**, the **Department of Labor and Industrial Relations**, the **Department of Revenue**, the **Department of Public Safety**, the **Missouri Department of the National Guard**, the **Department of Social Services**, the **Governor's office**, the **Missouri House of Representatives**, the **Department of Conservation**, the **Department of Transportation**, the **Office of Administration**, the **Office of State Courts Administrator**, the **Missouri Senate**, the **Secretary of State's office**, the **Office of the State Public Defender**, the **State Treasurer's office**, **Adair County**, **Boone County**, **Callaway County**, **Cass County**, **Clay County**, **Cole County**, **Greene County**, **Jackson County**, **Jasper County**, **St. Charles County**, **St. Louis County**, **Taney County**, the **City of Cape Girardeau**, the **City of Columbia**, the **City of Jefferson**, the **City of Joplin**, the **City of Kansas City**, the **City of Kirksville**, the **City of Mexico**, the **City of Raymore**, the **City of St. Joseph**, the **City of St. Louis**, the **City of Springfield**, the **City of Union**, the **City of Wentzville**, the **City of West Plains**, **Cape Girardeau 63 School District**, **Hannibal 60 School District**, **Malta Bend R-V School District**, **Mehlville School District**, **Wellsville-Middletown R-1 School District**, **State Technical College of Missouri**, **Metropolitan Community College**, **University of Missouri**, **St. Louis Community College**, the **St. Louis County Board of Elections**, the **Board of Election Commissioners City of St. Louis**, the **Kansas City Board of Election Commissioners**, the **Platte County Board of Elections**, the **Jackson County Election Board**, the **Clay County Board of Election Commissioners**, and the **State Auditor's office**.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated their department does not foresee a fiscal impact with this petition.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated there is no fiscal impact to their agency.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no anticipated cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipate no fiscal impact for this initiative petition proposing to amend Article VIII.

Officials from the **Department of Revenue** indicated no impact to their department.

Officials from the **Department of Public Safety - Office of the Director** indicated no impact for their department, Director's Office.

Officials from the **Missouri Department of the National Guard** indicated no fiscal impact to their department.

Officials from the **Department of Social Services** indicated they do not anticipate a fiscal impact as a result of this petition.

Officials from the **Governor's office** indicated this proposal relating to ballot measures and elections does not financially impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated their department does not anticipate any fiscal impact from Initiative Petition 24-066.

Officials from the **Department of Transportation** indicated no fiscal impact expected from their department or the Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal relating to ballot measures and elections does not financially impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be \$10 million based on the cost of the 2022 primary and general election reimbursements.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

For the FY22 petitions cycle, their office estimates publication costs at \$70,000 per page. This amount is subject to change based on number of petitions received, length of those petitions and rates charged by newspaper publishers.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will have no fiscal impact on their office.

Officials from the **State Treasurer's office** indicated no impact to their office.

Officials from **Clay County** indicated they defer to the response provided by the Clay County Board of Election Commissioners.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition proposing to amend Article VIII.

Officials from **St. Louis County** indicated there is no anticipated fiscal impact for their county.

Officials from the **City of Kansas City** indicated this amendment would have no fiscal impact on their city.

Officials from **Metropolitan Community College** indicated no fiscal impact to their college.

Officials from the **St. Louis Community College** indicated they do not believe it has a cost or revenue impact to their college.

Officials from the **St. Louis County Board of Elections** indicated they predict no fiscal impact.

Officials from the **Board of Election Commissioners City of St. Louis** indicated no impact.

Officials from the **Kansas City Board of Election Commissioners** indicated this petition requires the checking of petitions which could cost an additional \$2,500 for elections conducted in even numbered years, (Primary \$1,250, General \$1,250).

Officials from the **Platte County Board of Elections** indicated no fiscal impact.

Officials from the **Jackson County Election Board** indicated this petition has no fiscal impact to their Board.

Officials from the **Clay County Board of Election Commissioners** indicated they see no additional costs.

Officials from the **State Auditor's office** indicated no fiscal impact.

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County, the City of Cape Girardeau, the City of Columbia, the City of Jefferson, the City of Joplin, the City of Kirksville, the City of Mexico, the City of Raymore, the City of St. Joseph, the City of St. Louis, the City of Springfield, the City of Union, the City of Wentzville, the City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, and the University of Missouri.**

Fiscal Note Summary

State and local governmental entities estimate no costs or savings for this proposal.

STATE AUDITORS OFFICE

RE: Petition approval request from Frederic Steinbach regarding a proposed constitutional amendment to Article VIII, version 2 (2024-065)

Dear Auditor Fitzpatrick:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Frederic Steinbach on January 27, 2023.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

NOTICE: The proposed amendment revises Article VIII of the Constitution by adopting six new Sections to be known as Article VIII, Sections 8, 9, 10, 12, 13, and 14.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article VIII of the Constitution is revised by adopting six new Sections to be known as Article VIII, Sections 8, 9, 10, 12, 13, and 14 to read as follows:

Section 8. Ballot titles for ballot measures, whether proposed by the General Assembly, or through citizen initiative or referendum, shall be unbiased, fair, and sufficient and to the extent possible shall only include language found in the proposed measure.

Section 9. 1. The chair of the county committee, or the city committee of a city not within a county, of each established political party with a candidate on the ballot shall have the exclusive right to designate an observer for any polling place on any day in which votes are being cast who may be present until all ballots are cast, and an observer for each location at which absentee ballots or ballots cast on election day are counted, who may be present while the ballots are being prepared for counting and counted and may remain until all ballots are counted. No later than four business days before the election, the chair shall provide signed designation forms with the names of the designated observers to the local election authority for confirmation of eligibility to serve as an observer. The local election authority shall sign off on the designation forms, unless the observer is found not to have the qualifications established by subsection 3 of this section. If the election authority determines that an observer does not meet the qualifications of subsection 3 of this section, the election authority shall notify the designating party chair and such chair may designate a replacement observer and provide the local election authority with the name of the replacement observer before 5:00 p.m. of the Monday preceding the election. The designating chair may substitute observers, who meet the qualifications of subsection 3, at his or her discretion before 5:00 pm on the Monday preceding the election.

2. An independent candidate shall also have the right to designate an observer in the same manner as each political party, except should more than one independent candidate appear on the ballot the independent candidates shall agree on a single observer per polling place or location referenced in subsection 1 of this section.

3. All persons selected as observers shall only be required to have the same qualifications required by law for election judges.

4. In a nonpartisan election, each nonpartisan candidate on the ballot shall have the right to designate an observer in the same manner as each political party for each polling place or location at which such candidate appears on the ballot, except should more than three nonpartisan candidates appear on the ballot, the nonpartisan candidates shall agree on no more than two observers per polling place or location referenced in subsection 1 of this section. The General Assembly shall enact laws to provide for procedures to carry out this subsection.

5. For purposes of this section, "observer" shall mean a watcher, challenger, or observer of an election as provided by law.

Section 10. 1. Prior to the certification of the election results, each election authority shall, at a minimum, undertake a manual audit of randomly selected precincts which shall equal the greater of: 5% of all election precincts within the election authority's jurisdiction, one precinct, or any number required by law. No such audit shall be performed, conducted, or overseen by any non-governmental entity. All ballots cast at such election by qualified registered voters in such precincts shall be subject to the manual audit. The manual audit shall be open to the public, be completed within fourteen (14) days of the conclusion of the election, and results from the manual audit shall be publicly available within two (2) days after its completion. If, based on the manual audit, the election authority finds evidence of errors in the original tabulation that would change the result of any election or exceed a threshold established by law, the manual audit shall be converted to a full and binding manual recount of all ballots in that election. At least once every four years, each election authority shall file a written report, including documentation, with the secretary of state demonstrating that the election authority conducted at a minimum the manual audit required in this section. Such report shall be a public record.

Section 12. 1. All established political parties in the state shall have a right to have their designated nominees appear on the general election ballot. For purposes of this Section, "established political party" shall mean a political party which, at either of the last two general elections, polled for one of its candidates for any statewide office more than two percent of the entire vote cast for the office.

2. Any group of persons desiring to form a new political party throughout the state, which shall include being formed for all districts and counties in which the party may have nominations, shall file a petition with the secretary of state which shall be signed by at least ten thousand registered voters of the state obtained at large.

3. All established political parties in the state will retain their established political party status unless such party at any two consecutive general elections fails to poll for a candidate for any statewide office more than two percent of the entire vote cast for the office.

4. Any person desiring to be an independent candidate for any state or federal office to be filled by voters, shall file a petition with the secretary of state. Any person desiring to be an independent candidate for any county office shall file

a petition with the election authority of the county. If an independent candidate is to be nominated for a statewide office, the petition shall be signed by at least ten thousand registered voters of the state. If the independent candidate is to be nominated for a district or county office, the petition shall be signed by the number of registered voters in the district or county which is equal to at least two percent of the total number of voters who voted at the last general election for candidates for the office being sought or is equal to ten thousand voters, whichever is less.

Section 13. In any party primary election, each registered voter shall be entitled to receive the ballot of one and only one political party. Each registered voter who participates in a party primary shall be entitled to vote on all questions and for any nonpartisan candidates submitted by political subdivisions and special districts at the primary election. Each registered voter who does not wish to participate in a party primary may vote on all questions and for any nonpartisan candidates submitted by a political subdivision or special district at the primary election. For purposes of this Section "nonpartisan candidate" shall mean a candidate who is not a candidate of any political party and who is running for an office for which party candidates may not run.

Section 14. If any portion, clause, or phrase of this Amendment is, for any reason, held to be invalid or unconstitutional in a final judgment of a court of competent jurisdiction, the remaining portions, clauses, and phrases shall not be affected, but shall remain in full force and effect.

**MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (24-065)**

Subject

Initiative petition from Frederic Steinbach regarding a proposed constitutional amendment to Article VIII. (Received January 30, 2023)

Date

February 17, 2023

Description

This proposal would amend Article VIII of the Missouri Constitution.

The amendment is to be voted on in November 2024.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office**, the **Department of Agriculture**, the **Department of Economic Development**, the **Department of Elementary and Secondary Education**, the **Department of Higher Education and Workforce Development**, the **Department of Health and Senior Services**, the **Department of Commerce and Insurance**, the **Department of Mental Health**, the **Department of Natural Resources**, the **Department of Corrections**, the **Department of Labor and Industrial Relations**, the **Department of Revenue**, the **Department of Public Safety**, the **Missouri Department of the National Guard**, the **Department of Social Services**, the **Governor's office**, the **Missouri House of Representatives**, the **Department of Conservation**, the **Department of Transportation**, the **Office of Administration**, the **Office of State Courts Administrator**, the **Missouri Senate**, the **Secretary of State's office**, the **Office of the State Public Defender**, the **State Treasurer's office**, **Adair County**, **Boone County**, **Callaway County**, **Cass County**, **Clay County**, **Cole County**, **Greene County**, **Jackson County**, **Jasper County**, **St. Charles County**, **St. Louis County**, **Taney County**, the **City of Cape Girardeau**, the **City of Columbia**, the **City of Jefferson**, the **City of Joplin**, the **City of Kansas City**, the **City of Kirksville**, the **City of Mexico**, the **City of Raymore**, the **City of St. Joseph**, the **City of St. Louis**, the **City of Springfield**, the **City of Union**, the **City of Wentzville**, the **City of West Plains**, **Cape Girardeau 63 School District**, **Hannibal 60 School District**, **Malta Bend R-V School District**, **Mehlville School District**, **Wellsville-Middletown R-1 School District**, **State Technical College of Missouri**, **Metropolitan Community College**, **University of Missouri**, **St. Louis Community College**, the **St. Louis County Board of Elections**, the **Board of Election Commissioners City of St. Louis**, the **Kansas City Board of Election Commissioners**, the **Platte County Board of Elections**, the **Jackson County Election Board**, the **Clay County Board of Election Commissioners**, and the **State Auditor's office**.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated their department does not foresee a fiscal impact with this petition.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated there is no fiscal impact to their agency.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no anticipated cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipate no fiscal impact for this initiative petition proposing to amend Article VIII.

Officials from the **Department of Revenue** indicated no impact to their department.

Officials from the **Department of Public Safety - Office of the Director** indicated no impact for their department, Director's Office.

Officials from the **Missouri Department of the National Guard** indicated no fiscal impact to their department.

Officials from the **Department of Social Services** indicated they do not anticipate a fiscal impact as a result of this petition.

Officials from the **Governor's office** indicated this proposal relating to ballot measures and elections does not financially impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated their department does not anticipate any fiscal impact from Initiative Petition 24-065.

Officials from the **Department of Transportation** indicated no fiscal impact expected from their department or the Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal relating to ballot measures and elections does not financially impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be \$10 million based on the cost of the 2022 primary and general election reimbursements.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

For the FY22 petitions cycle, their office estimates publication costs at \$70,000 per page. This amount is subject to change based on number of petitions received, length of those petitions and rates charged by newspaper publishers.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will have no fiscal impact on their office.

Officials from the **State Treasurer's office** indicated no impact to their office.

Officials from **Clay County** indicated they defer to the response provided by the Clay County Board of Election Commissioners.

Officials from **Greene County** indicated there will be an increased cost to their county if voters vote to amend Article VIII. Section 10 is the only section of the sections in Article VIII where a cost increase is anticipated.

Section 10:

Currently a manual hand-counting audit is performed after each election for no less than 5% of all voting precincts in any election. In a general election, five separate contests on the ballot are randomly selected to be manually counted. The language in Section 10 appears to require all contests on the ballot to be hand counted.

In analyzing the estimated cost for this petition, the county looked at the costs to complete a manual count for the August 2022 and November 2022. There was no significant cost increase for the April election with this measure.

August 2022

In August 2022, it took 10 election judges (5 bi-partisan teams) a total of seven hours (per team) to complete the manual recount for 5 precincts for 5 contests. This cost was approximately **\$857.50**.

The average Greene County ballot in August 2022 had a total of 12 contests and ballot issues on the ballot.

7 hours divided by 5 contests equals 1.4 hours per contest. 1.4 hours per contest multiplied by 12 contests equals 16.8 hours. 16.8 x 10 election judges equals 168 hours in total. It is important to note the hourly rate has now increased to **\$14.75** (effective January 1, 2023) from **\$12.25** (2022 hourly rate). Total estimated cost with this formula: **\$2,478**.

August Primary Estimated Cost Increase: \$1,620.50

November 2022

In November 2022, it took 10 election judges (5 bi-partisan teams) approximately 126 hours total to complete the manual recount for 5 precincts for 5 contests. This cost was **\$1,543.50**.

The average Greene County ballot in November 2022 had a total of 25 contests and ballot issues on the ballot.

126 hours divided by 5 contests equals 25.2 hours per contest. 25.2 hours per contest multiplied by 25 contests equals 630 hours. It is important to note the hourly rate has now increased to \$14.75 (effective January 1, 2023) from \$12.25 (November 2022 hourly rate). Total estimated cost with this formula: **\$9,292.50**

November General Estimated Cost Increase: \$7,749.00

The following total estimated cost increase is the sum of 3 elections during a general election year when a minimum of 3 public elections would be held.

Total General Election Year Estimated Cost Increase: \$9,369.50

Officials from **St. Louis County** indicated there is no anticipated fiscal impact for their county.

Officials from the **City of Kansas City** indicated this amendment would have no fiscal impact on their city.

Officials from **Metropolitan Community College** indicated no fiscal impact to their college.

Officials from the **St. Louis Community College** indicated they do not believe it has a cost or revenue impact to their college.

Officials from the **St. Louis County Board of Elections** indicated they predict no fiscal impact.

Officials from the **Board of Election Commissioners City of St. Louis** indicated no impact.

Officials from the **Kansas City Board of Election Commissioners** indicated this petition requires the checking of petitions which could cost an additional \$2,500 for elections conducted in even numbered years, (Primary \$1,250, General \$1,250).

The petition requires manual auditing of 5% of the election ballots cast. Since certification must be done within 14 days of election day and all questions and candidates would be audited (not a random sample), additional staff o/t and temporary expense totaling \$10,000 per election would be needed to audit all the races and questions in a large ballot. Smaller ballots with fewer candidates and questions would have a reduced cost. If for some reason, the audit results were above the acceptable tolerance, all ballots would need to be manually audited, the cost could be closer to \$50,000 to perform this task within the 14 day certification period.

Officials from the **Platte County Board of Elections** indicated no fiscal impact.

Officials from the **Jackson County Election Board** indicated that if a full manual recount of the entire election were required a massive number of part-time workers would need to be hired to conduct the manual recount. A separate place would need to be rented to accommodate those part-time workers and transportation and security for ballots arranged.

Section 10

Part-time Workers – Large Election	\$12,000.00
Rental for 6-7 days	\$ 5,000.00
Security & Transportation of Ballots	\$ 3,000.00

April, August & November Elections of Even-Numbered Years	
Should a full manual recount be needed	\$20,000.00 (per election)

Officials from the **Clay County Board of Election Commissioners** indicated most of this they already do. The 5% audit with a manual recount is something they have always done. The only costs they see that might come in to play would be if there was a discrepancy and they had to do a full hand recount of all ballots. The costs for that would be anywhere from \$3,500 to \$15,000 depending on how many bi-partisan teams to do the count. Those costs would depend on how many days it took at 8 hours a day with 10 teams. These figures range from 1 day to 5 days and could be more depending on how big election is and how many ballots were cast.

Officials from the **State Auditor's office** indicated no fiscal impact.

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County, the City of Cape Girardeau, the City of Columbia, the City of Jefferson, the City of Joplin, the City of Kirksville, the City of Mexico, the City of Raymore, the City of St. Joseph, the City of St. Louis, the City of Springfield, the City of Union, the City of Wentzville, the City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, and the University of Missouri.**

Fiscal Note Summary

State governmental entities estimate no costs or savings for this proposal. Local governmental entities estimate costs could increase by at least \$33,500 to \$85,000 each municipal general election, \$35,121 to \$86,621 each primary election, and \$41,249 to \$92,749 each general election.

RE: Petition approval request from Frederic Steinbach regarding a proposed constitutional amendment to Article VIII, version 1 (2024-064)

Dear Auditor Fitzpatrick:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Frederic Steinbach on January 27, 2023.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

NOTICE: The proposed amendment revises Article VIII of the Constitution by adopting five new Sections to be known as Article VIII, Sections 8, 9, 10, 12, and 13.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article VIII of the Constitution is revised by adopting five new Sections to be known as Article VIII, Sections 8, 9, 10, 12, and 13 to read as follows:

Section 8. Ballot titles for ballot measures, whether proposed by the General Assembly, or through citizen initiative or referendum, shall be unbiased, fair, and sufficient and to the extent possible shall only include language found in the proposed measure.

Section 9. 1. The chair of the county committee, or the city committee of a city not within a county, of each established political party with a candidate on the ballot shall have the exclusive right to designate an observer for any polling place on any day in which votes are being cast who may be present until all ballots are cast, and an observer for each location at which absentee ballots or ballots cast on election day are counted, who may be present while the ballots are being prepared for counting and counted and may remain until all ballots are counted. No later than four business days before the election, the chair shall provide signed designation forms with the names of the designated observers to the local election authority for confirmation of eligibility to serve as an observer. The local election authority shall sign off on the designation forms, unless the observer is found not to have the qualifications established by subsection 3 of this section. If the election authority determines that an observer does not meet the qualifications of subsection 3 of this section, the election authority shall notify the designating party chair and such chair may designate a replacement observer and provide the local election authority with the name of the replacement observer before 5:00 p.m. of the Monday preceding the election. The designating chair may substitute observers, who meet the qualifications of subsection 3, at his or her discretion before 5:00 pm on the Monday preceding the election.

2. An independent candidate shall also have the right to designate an observer in the same manner as each political party, except should more than one independent candidate appear on the ballot the independent candidates shall agree on a single observer per polling place or location referenced in subsection 1 of this section.

3. All persons selected as observers shall only be required to have the same qualifications required by law for election judges.

4. In a nonpartisan election, each nonpartisan candidate on the ballot shall have the right to designate an observer in the same manner as each political party for each polling place or location at which such candidate appears on the ballot, except should more than three nonpartisan candidates appear on the ballot, the nonpartisan candidates shall agree on no more than two observers per polling place or location referenced in subsection 1 of this section. The General Assembly shall enact laws to provide for procedures to carry out this subsection.

5. For purposes of this section, "observer" shall mean a watcher, challenger, or observer of an election as provided by law.

Section 10. 1. All established political parties in the state shall have a right to have their designated nominees appear on the general election ballot. For purposes of this Section, "established political party" shall mean a political party which, at either of the last two general elections, polled for one of its candidates for any statewide office more than two percent of the entire vote cast for the office.

2. Any group of persons desiring to form a new political party throughout the state, which shall include being formed for all districts and counties in which the party may have nominations, shall file a petition with the secretary of state which shall be signed by at least ten thousand registered voters of the state obtained at large.

3. All established political parties in the state will retain their established political party status unless such party at any two consecutive general elections fails to poll for a candidate for any statewide office more than two percent of the entire vote cast for the office.

4. Any person desiring to be an independent candidate for any state or federal office to be filled by voters, shall file a petition with the secretary of state. Any person desiring to be an independent candidate for any county office shall file a petition with the election authority of the county. If an independent candidate is to be nominated for a statewide office, the petition shall be signed by at least ten thousand registered voters of the state. If the independent candidate is to be nominated for a district or county office, the petition shall be signed by the number of registered voters in the district or county which is equal to at least two percent of the total number of voters who voted at the last general election for candidates for the office being sought or is equal to ten thousand voters, whichever is less.

Section 12. In any party primary election, each registered voter shall be entitled to receive the ballot of one and only one political party. Each registered voter who participates in a party primary shall be entitled to vote on all questions and for any nonpartisan candidates submitted by political subdivisions and special districts at the primary election. Each registered voter who does not wish to participate in a party primary may vote on all questions and for any nonpartisan candidates submitted by a political subdivision or special district at the primary election. For purposes of this Section "nonpartisan candidate" shall mean a candidate who is not a candidate of any political party and who is running for an office for which party candidates may not run.

Section 13. If any portion, clause, or phrase of this Amendment is, for any reason, held to be invalid or unconstitutional in a final judgment of a court of competent jurisdiction, the remaining portions, clauses, and phrases shall not be affected, but shall remain in full force and effect.

**MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (24-064)**

Subject

Initiative petition from Frederic Steinbach regarding a proposed constitutional amendment to Article VIII. (Received January 30, 2023)

Date

February 17, 2023

Description

This proposal would amend Article VIII of the Missouri Constitution.

The amendment is to be voted on in November 2024.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office**, the **Department of Agriculture**, the **Department of Economic Development**, the **Department of Elementary and Secondary Education**, the **Department of Higher Education and Workforce Development**, the **Department of Health and Senior Services**, the **Department of Commerce and Insurance**, the **Department of Mental Health**, the **Department of Natural Resources**, the **Department of Corrections**, the **Department of Labor and Industrial Relations**, the **Department of Revenue**, the **Department of Public Safety**, the **Missouri Department of the National Guard**, the **Department of Social Services**, the **Governor's office**, the **Missouri House of Representatives**, the **Department of Conservation**, the **Department of Transportation**, the **Office of Administration**, the **Office of State Courts Administrator**, the **Missouri Senate**, the **Secretary of State's office**, the **Office of the State Public Defender**, the **State Treasurer's office**, **Adair County**, **Boone County**, **Callaway County**, **Cass County**, **Clay County**, **Cole County**, **Greene County**, **Jackson County**, **Jasper County**, **St. Charles County**, **St. Louis County**, **Taney County**, the **City of Cape Girardeau**, the **City of Columbia**, the **City of Jefferson**, the **City of Joplin**, the **City of Kansas City**, the **City of Kirksville**, the **City of Mexico**, the **City of Raymore**, the **City of St. Joseph**, the **City of St. Louis**, the **City of Springfield**, the **City of Union**, the **City of Wentzville**, the **City of West Plains**, **Cape Girardeau 63 School District**, **Hannibal 60 School District**, **Malta Bend R-V School District**, **Mehlville School District**, **Wellsville-Middletown R-1 School District**, **State Technical College of Missouri**, **Metropolitan Community College**, **University of Missouri**, **St. Louis Community College**, the **St. Louis County Board of Elections**, the **Board of Election Commissioners City of St. Louis**, the **Kansas City Board of Election Commissioners**, the **Platte County Board of Elections**, the **Jackson County Election Board**, the **Clay County Board of Election Commissioners**, and the **State Auditor's office**.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated their department does not foresee a fiscal impact with this petition.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated there is no fiscal impact to their agency.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no anticipated cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipate no fiscal impact for this initiative petition proposing to amend Article VIII.

Officials from the **Department of Revenue** indicated no impact to their department.

Officials from the **Department of Public Safety - Office of the Director** indicated no impact for their department, Director's Office.

Officials from the **Missouri Department of the National Guard** indicated no fiscal impact to their department.

Officials from the **Department of Social Services** indicated they do not anticipate a fiscal impact as a result of this petition.

Officials from the **Governor's office** indicated this proposal relating to ballot measures and elections does not financially impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated their department does not anticipate any fiscal impact associated with Initiative Petition 24-064.

Officials from the **Department of Transportation** indicated no fiscal impact expected from their department or the Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal relating to ballot measures and elections does not financially impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be \$10 million based on the cost of the 2022 primary and general election reimbursements.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

For the FY22 petitions cycle, their office estimates publication costs at \$70,000 per page. This amount is subject to change based on number of petitions received, length of those petitions and rates charged by newspaper publishers.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will have no fiscal impact on their office.

Officials from the **State Treasurer's office** indicated no impact to their office.

Officials from **Clay County** indicated they defer to the response provided by the Clay County Board of Election Commissioners.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition proposing to amend Article VIII.

Officials from **St. Louis County** indicated there is no anticipated fiscal impact for their county.

Officials from the **City of Kansas City** indicated this amendment would have no fiscal impact on their city.

Officials from **Metropolitan Community College** indicated no fiscal impact to their college.

Officials from the **St. Louis Community College** indicated they do not believe it has a cost or revenue impact on their college.

Officials from the **St. Louis County Board of Elections** indicated they predict no fiscal impact.

Officials from the **Board of Election Commissioners City of St. Louis** indicated they anticipate no fiscal impact.

Officials from the **Kansas City Board of Election Commissioners** indicated they estimate that this petition would cost them \$5,000 every primary and general election in temporary expense and staff overtime to check the required petition signatures.

The officials further commented that they estimated based on a worst case scenario. Labor costs for checking petitions adds up quickly. More than likely, they indicate they won't get

many and the estimate could be reduced substantially. Therefore, they changed the estimated cost to \$2,500, (\$1,250 for each election).

Officials from the **Platte County Board of Elections** indicated no fiscal impact.

Officials from the **Jackson County Election Board** indicated this petition has no fiscal impact to their Board.

Officials from the **Clay County Board of Election Commissioners** indicated they see no additional costs.

Officials from the **State Auditor's office** indicated no fiscal impact.

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County, the City of Cape Girardeau, the City of Columbia, the City of Jefferson, the City of Joplin, the City of Kirksville, the City of Mexico, the City of Raymore, the City of St. Joseph, the City of St. Louis, the City of Springfield, the City of Union, the City of Wentzville, the City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, and the University of Missouri.**

Fiscal Note Summary

State and local governmental entities estimate no costs or savings for this proposal.

NOTICE: The proposed amendment revises Article III of the Constitution by amending Section 8.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article III of the Constitution is revised by amending Section 8 as follows:

Section 8.

1. The legislature shall propose no measure restricting Missourians' power of initiative, notwithstanding any provision of this Constitution to the contrary.
2. The legislature shall not change any voter-initiated law without a referendum at a general election or three-quarters' consent in the House and in the Senate, unless more than seven years have passed since voters approved the law, notwithstanding any provision of this Constitution to the contrary.
3. No one shall be elected to serve more than eight years as a member of the House, nor more than eight years as a member of the Senate[total in any one house of the General Assembly nor more than sixteen years total in both houses of the General Assembly].
4. The term limits of eight years' membership in the House and eight years' membership in the Senate are hereby replaced with an overall term limit of sixteen years' total membership in the legislature, notwithstanding subsection 3 of this section to the contrary, so long as Missourians' power of initiative is not restricted.
5. Missourians' power of initiative is defined to be restricted if Missouri voters no longer can directly enact, by majority of votes cast thereon, laws and amendments proposed by initiative petition and relating to any of the subjects on which the legislature can propose laws and amendments, excluding any subject prohibited by this Constitution as of January 1, 2023, with signatures from five percent of the legal voters in each of two-thirds of Missouri's congressional districts sufficient to propose a law, and with signatures from eight percent of the legal voters in each of two-thirds of Missouri's congressional districts sufficient to propose an amendment, the signatures required calculated based on the most recent total general-election vote for governor.
6. For the purposes of this section, a "voter-initiated law" is defined to be a law that the people have proposed and enacted by the initiative.
7. For the purposes of this section, the legislature is defined to "change" a voter-initiated law if it passes a bill which modifies, repeals, or overrides any part of said law, whether with or without the signature of the governor.
8. In applying this section, service in the General Assembly resulting from an election prior to December 3, 1992, or service of less than one year, in the case of a member of the house of representatives, or two years, in the case of a member of the senate, by a person elected after the effective date of this section to complete the term of another person, shall not be counted.
9. If any provision of subsections 1, 2, 3, 4, 5, 6, 7, or 8 of this section or the application thereof to anyone or to any circumstance is held invalid, the remainder of those provisions and the application of such provisions to others or other circumstances shall not be affected thereby.

**MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (24-063)**

Subject

Initiative petition from Elad Gross regarding a proposed constitutional amendment to Article III. (Received January 24, 2023)

Date

February 10, 2023

Description

This proposal would amend Article III of the Missouri Constitution.

The amendment is to be voted on in November 2024.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office**, the **Department of Agriculture**, the **Department of Economic Development**, the **Department of Elementary and Secondary Education**, the **Department of Higher Education and Workforce Development**, the **Department of Health and Senior Services**, the **Department of Commerce and Insurance**, the **Department of Mental Health**, the **Department of Natural Resources**, the **Department of Corrections**, the **Department of Labor and Industrial Relations**, the **Department of Revenue**, the **Department of Public Safety**, the **Missouri Department of the National Guard**, the **Department of Social Services**, the **Governor's office**, the **Missouri House of Representatives**, the **Department of Conservation**, the **Department of Transportation**, the **Office of Administration**, the **Office of State Courts Administrator**, the **Missouri Senate**, the **Secretary of State's office**, the **Office of the State Public Defender**, the **State Treasurer's office**, **Adair County**, **Boone County**, **Callaway County**, **Cass County**, **Clay County**, **Cole County**, **Greene County**, **Jackson County**, **Jasper County**, **St. Charles County**, **St. Louis County**, **Taney County**, the **City of Cape Girardeau**, the **City of Columbia**, the **City of Jefferson**, the **City of Joplin**, the **City of Kansas City**, the **City of Kirksville**, the **City of Mexico**, the **City of Raymore**, the **City of St. Joseph**, the **City of St. Louis**, the **City of Springfield**, the **City of Union**, the **City of Wentzville**, the **City of West Plains**, **Cape Girardeau 63 School District**, **Hannibal 60 School District**, **Malta Bend R-V School District**, **Mehlville School District**, **Wellsville-Middletown R-1 School District**, **State Technical College of Missouri**, **Metropolitan Community College**, **University of Missouri**, and **St. Louis Community College**.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated their department has no fiscal impact.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated there is no fiscal impact to their department.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no anticipated cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipated no fiscal impact for this initiative petition proposing to amend Article III.

Officials from the **Department of Revenue** indicated no impact.

Officials from the **Department of Public Safety** indicated no impact for their department, Director's office.

Officials from the **Missouri Department of the National Guard** indicated no fiscal impact to their department.

Officials from the **Department of Social Services** indicated they do not anticipate a fiscal impact as a result of this initiative petition.

Officials from the **Governor's office** indicated this proposal relating to initiatives and term limits does not financially impact their office.

Officials from the **Missouri House of Representatives** indicated no direct fiscal impact.

Officials from the **Department of Conservation** indicated their department anticipates no fiscal impact related to this initiative petition.

Officials from the **Department of Transportation** indicated no fiscal impact expected for their department or the Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal relating to initiatives and term limits does not financially impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be \$10 million based on the cost of the 2022 primary and general election reimbursements.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

For the FY22 petitions cycle, their office estimates publication costs at \$70,000 per page. This amount is subject to change based on number of petitions received, length of those petitions and rates charged by newspaper publishers.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will have no fiscal impact on their office.

Officials from the **State Treasurer's office** indicated no impact to their office.

Officials from **Clay County** indicated they estimate no costs or savings from this initiative at this time.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition proposing to amend Article III.

Officials from **St. Louis County** indicated no anticipated fiscal impact for their county.

Officials from the **City of Kansas City** indicated this proposed amendment has no fiscal impact on their city.

Officials from **Metropolitan Community College** indicated no fiscal impact to their college.

Officials from the **St. Louis Community College** indicated they do not believe this initiative petition has a cost impact on their college or a revenue increase or decrease as worded.

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County, the City of Cape Girardeau, the City of Columbia, the City of Jefferson, the City of Joplin, the City of Kirksville, the City of Mexico, the City of Raymore, the City of St. Joseph, the City of St. Louis, the City of Springfield, the City of Union, the City of Wentzville, the City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, and University of Missouri.**

Fiscal Note Summary

State and local governmental entities estimate no costs or savings from this proposal.

NOTICE: The proposed amendment revises Article VIII of the Constitution by adopting five new Sections to be known as Article VIII, Sections 8, 9, 10, 12, 13.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article VIII of the Constitution is revised by adopting five new Sections to be known as Article VIII, Sections 8, 9, 10, 12, 13 to read as follows:

Section 8. Ballot titles for ballot measures, whether proposed by the General Assembly, or through citizen initiative or referendum, shall be unbiased, fair, and sufficient and to the extent possible shall only include language found in the proposed measure.

Section 9. Election authorities shall remove deceased individuals from all voter rolls which such election authorities have control over, upon the proper notification and documentation from a state or federal agency, subject to appropriation and federal law.

Section 10. 1. All established political parties in the state shall have a right to have their designated nominees appear on the general election ballot. For purposes of this Section, "established political party" shall mean a political party which, at either of the last two general elections, polled for one of its candidates for any statewide office more than two percent of the entire vote cast for the office.

2. Any group of persons desiring to form a new political party throughout the state, which shall include being formed for all districts and counties in which the party may have nominations, shall file a petition with the secretary of state which shall be signed by at least ten thousand registered voters of the state obtained at large.

3. All established political parties in the state will retain their established political party status unless such party at any two consecutive general elections fails to poll for a candidate for any statewide office more than two percent of the entire vote cast for the office.

4. Any person desiring to be an independent candidate for any state or federal office to be filled by voters, shall file a petition with the secretary of state. Any person desiring to be an independent candidate for any county office shall file a petition with the election authority of the county. If an independent candidate is to be nominated for a statewide office, the petition shall be signed by at least ten thousand registered voters of the state. If the independent candidate is to be nominated for a district or county office, the petition shall be signed by the number of registered voters in the district or county which is equal to at least two percent of the total number of voters who voted at the last general election for candidates for the office being sought or is equal to ten thousand voters, whichever is less.

Section 12. In any party primary election, each eligible registered voter shall be entitled to receive the ballot of one and only one political party. Each eligible registered voter who participates in a party primary shall be entitled to vote on all questions and for any nonpartisan candidates submitted by political subdivisions and special districts at the primary election. Each eligible registered voter who does not wish to participate in a party primary may vote on all questions and for any nonpartisan candidates submitted by a political subdivision or special district at the primary election. For purposes of this Section "nonpartisan candidate" shall mean a candidate who is not a candidate of any political party and who is running for an office for which party candidates may not run.

Section 13. If any portion, clause, or phrase of this Amendment is, for any reason, held to be invalid or unconstitutional in a final judgment of a court of competent jurisdiction, the remaining portions, clauses, and phrases shall not be affected, but shall remain in full force and effect.

FISCAL NOTE (24-062)**

Subject

Initiative petition from Frederic Steinbach regarding a proposed constitutional amendment to Article VIII. (Received January 23, 2023)

Date

February 10, 2023

Description

This proposal would amend Article VIII of the Missouri Constitution.

The amendment is to be voted on in November 2024.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office**, the **Department of Agriculture**, the **Department of Economic Development**, the **Department of Elementary and Secondary Education**, the **Department of Higher Education and Workforce Development**, the **Department of Health and Senior Services**, the **Department of Commerce and Insurance**, the **Department of Mental Health**, the **Department of Natural Resources**, the **Department of Corrections**, the **Department of Labor and Industrial Relations**, the **Department of Revenue**, the **Department of Public Safety**, the **Missouri Department of the National Guard**, the **Department of Social Services**, the **Governor's office**, the **Missouri House of Representatives**, the **Department of Conservation**, the **Department of Transportation**, the **Office of Administration**, the **Office of State Courts Administrator**, the **Missouri Senate**, the **Secretary of State's office**, the **Office of the State Public Defender**, the **State Treasurer's office**, **Adair County**, **Boone County**, **Callaway County**, **Cass County**, **Clay County**, **Cole County**, **Greene County**, **Jackson County**, **Jasper County**, **St. Charles County**, **St. Louis County**, **Taney County**, the **City of Cape Girardeau**, the **City of Columbia**, the **City of Jefferson**, the **City of Joplin**, the **City of Kansas City**, the **City of Kirksville**, the **City of Mexico**, the **City of Raymore**, the **City of St. Joseph**, the **City of St. Louis**, the **City of Springfield**, the **City of Union**, the **City of Wentzville**, the **City of West Plains**, **Cape Girardeau 63 School District**, **Hannibal 60 School District**, **Malta Bend R-V School District**, **Mehlville School District**, **Wellsville-Middletown R-1 School District**, **State Technical College of Missouri**, **Metropolitan Community College**, **University of Missouri**, **St. Louis Community College**, the **St. Louis County Board of Elections**, the **Board of Election Commissioners City of St. Louis**, the **Kansas City Board of Election Commissioners**, the **Platte County Board of Elections**, the **Jackson County Election Board**, the **Clay County Board of Election Commissioners**, and the **State Auditor's office**.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated their department has no fiscal impact.

Officials from the **Department of Economic Development** indicated no fiscal impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated there is no fiscal impact to their agency.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no anticipated cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipated no fiscal impact for this initiative petition.

Officials from the **Department of Revenue** indicated no impact.

Officials from the **Department of Public Safety** indicated no impact for their department, Director's Office.

Officials from the **Missouri Department of the National Guard** indicated no fiscal impact to their department.

Officials from the **Department of Social Services** indicated they do not anticipate a fiscal impact as a result of this petition.

Officials from the **Governor's office** indicated this proposal relating to elections does not financially impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated their department anticipates no fiscal impact related to this initiative petition.

Officials from the **Department of Transportation** indicated no fiscal impact expected for their department or the Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal relating to elections does not financially impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be \$10 million based on the cost of the 2022 primary and general election reimbursements.

The Secretary of State's office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

For the FY22 petitions cycle, the SOS estimates publication costs at \$70,000 per page. This amount is subject to change based on number of petitions received, length of those petitions and rates charged by newspaper publishers.

The Secretary of State's office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will have no fiscal impact on their office.

Officials from the **State Treasurer's office** indicated no impact to their office.

Officials from **Boone County** indicated the Boone County Clerk's Office expects no additional costs or savings.

Officials from **Clay County** indicated they estimate the cost of this petition as follows:

- ~\$5,000 per primary election to print extra ballots for non-partisan matters only under Section 12 (if amending the Constitution causes more interest and demand for unaffiliated ballots).
- No effect from the independent candidate petition provision in Section 10.4 as under the County Constitution all candidates are nonpartisan.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from **St. Louis County** indicated no expected fiscal impact for their county.

Officials from the **City of Kansas City** indicated this initiative petition would have no fiscal impact on their city.

Officials from **Metropolitan Community College** indicated no fiscal impact to their college.

Officials from the **St. Louis Community College** indicated they do not believe it has a cost impact on their college or a revenue increase or decrease as worded.

Officials from the **St. Louis County Board of Elections** indicated this will have no fiscal impact on their Board.

Officials from the **Board of Election Commissioners City of St. Louis** indicated there is no fiscal impact.

Officials from the **Kansas City Board of Election Commissioners** indicated if this petition were to become law, \$10,000 in staff overtime or temporary expense would be needed to check the associated petition signatures.

Officials from the **Platte County Board of Elections** indicated no impact.

Officials from the **Jackson County Election Board** indicated this petition has no fiscal impact to their Board.

Officials from the **State Auditor's office** indicated no fiscal impact.

The State Auditor's office did not receive a response from **Adair County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County, the City of Cape Girardeau, the City of Columbia, the City of Jefferson, the City of Joplin, the City of Kirksville, the City of Mexico, the City of Raymore, the City of St. Joseph, the City of St. Louis, the City of Springfield, the City of Union, the City of Wentzville, the City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, University of Missouri, and the Clay County Board of Election Commissioners.**

Fiscal Note Summary

State and local governmental entities estimate no costs or savings for this proposal.

Be it enacted by the people of the state of Missouri:

Chapter 290, RSMo, is amended by amending sections 290.502, 290.522, 290.525, 290.527, and 290.530 of the Revised Statutes of Missouri and enacting seventeen new sections to be known as sections 290.518, 290.519, 290.600, 290.603, 290.606, 290.609, 290.612, 290.615, 290.618, 290.621, 290.624, 290.627, 290.630, 290.633, 290.636, 290.639, and 290.642, to read as follows:

290.502. 1. Except as may be otherwise provided pursuant to sections 290.500 to 290.530, effective January 1, 2007, every employer shall pay to each employee wages at the rate of \$ 6.50 per hour, or wages at the same rate or rates set under the provisions of federal law as the prevailing federal minimum wage applicable to those covered jobs in interstate commerce, whichever rate per hour is higher.

2. The minimum wage shall be increased or decreased on January 1, 2008, and on January 1 of successive years, by the increase or decrease in the cost of living. On September 30, 2007, and on each September 30 of each successive year, the director shall measure the increase or decrease in the cost of living by the percentage increase or decrease as of the preceding July over the level as of July of the immediately preceding year of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) or successor index as published by the U.S. Department of Labor or its successor agency, with the amount of the minimum wage increase or decrease rounded to the nearest five cents.

3. Except as may be otherwise provided pursuant to sections 290.500 to 290.530, and notwithstanding subsection 1 of this section, effective January 1, [2019] 2025, every employer shall pay to each employee wages at the rate of not less than [\$8.60] \$13.50 per hour, or wages at the same rate or rates set under the provisions of federal law as the prevailing federal minimum wage applicable to those covered jobs in interstate commerce, whichever rate per hour is higher. Thereafter, the minimum wage established by this subsection shall be increased each year by [\$.85] \$.75 per hour, effective January 1 of each of the next [four] two years, until it reaches [\$12.00] \$15.00 per hour, effective January 1, [2023] 2027. Thereafter, the minimum wage established by this subsection shall be increased or decreased on January 1, [2024] 2028, and on January 1 of successive years, per the method set forth in subsection 2 of this section. If at any time the federal minimum wage rate is above or is thereafter increased above the minimum wage then in effect under this subsection, the minimum wage required by this subsection shall continue to be increased pursuant to this subsection 3, but the higher federal rate shall immediately become the minimum wage required by this subsection and shall be increased or decreased per the method set forth in subsection 2 for so long as it remains higher than the state minimum wage required and increased pursuant to this subsection.

4. For purposes of this section, the term "public employer" means an employer that is the state or a political subdivision of the state, including a department, agency, officer, bureau, division, board, commission, or instrumentality of the state, or a city, county, town, village, school district, or other political subdivision of the state. Subsection 3 of this section shall not apply to a public employer with respect to its employees. Any public employer that is subject to subsections 1 and 2 of this section shall continue to be subject to those subsections.

290.518. 1. Every employer shall provide employees who are to work for seven and one-half hours from the beginning of their shift a meal period of at least 30 continuous minutes. An employee who works in excess of seven and one-half hours shall be entitled to an additional 30 minute meal period for every additional seven and one-half hours worked. An employer shall schedule a meal period no earlier than two hours and no later than five hours from the beginning of a shift, and for employees entitled to a second meal period no earlier than two hours and no later than five hours from the beginning of the second period of seven and one-half hours worked.

2. Meal periods may be unpaid and not counted as time worked provided the employee is completely relieved of all duty. Meal periods shall be time worked and paid at the employee's regular rate of compensation when an employee is required to perform any duties, whether active or inactive, while taking the meal period. An employer is permitted to make the meal period on duty only when the nature of work or other circumstances exist that make it

infeasible for an employee to take a duty-free meal period. In such case, the employee shall be allowed to eat while on duty and shall be paid for the full 30 minutes on-duty meal period and further shall only be required to perform the limited duties during the meal period that make a fully duty-free meal period infeasible. It is the employer's burden to establish that a duty-free meal period is "infeasible" by demonstrating that the failure to provide a duty-free meal period was a business necessity, either because it was caused by exceptional and unanticipated circumstances that are temporary or because the provision of a duty-free meal period would prevent the employer from performing a vital function or pose a danger to the safety and health of other employees, patients, residents of a facility, service recipients of home and community-based services, clients, or the public.

3. If an employer fails to provide an employee a meal period in accordance with this section, the employer shall pay the employee an additional one hour of pay at the employee's regular rate of compensation for each shift that the meal period is not provided. There is a rebuttable presumption that an employee who did not take a meal period was not permitted to do so and that the employer failed to provide that employee a meal period in accordance with this section.

4. If an employer requires an employee to eat on premises, it shall provide a suitable place for that purpose, with adequate seating and tables.

5. This section shall not apply to a public employer, as defined in Section 290.502.4, with respect to its employees.

6. The provisions of this section shall become effective January 1, 2025.

290.519. 1. Every employer shall provide employees a rest break of at least 10 continuous minutes for each four hours worked or major fraction thereof, to be taken as near as practical to the midpoint of each work period of four hours worked or major fraction thereof. An employer need not provide a rest break to employees whose total daily work time is less than three and one-half hours.

2. An employer shall not require the employee to perform any work during a rest break. Employees shall receive rest breaks without deduction from wages and time on rest breaks shall be considered time worked. Rest breaks are in addition to any meal period to which an employee is entitled. An employer need not provide a duty-free rest break of 10 continuous minutes as near as practical to the midpoint of each work period of four hours worked or major fraction thereof only when the nature of work or other circumstances exist that make it infeasible. In such case, the employee shall be paid an extra 10 minutes of compensation at the employee's regular rate of compensation without being required to perform additional work for that time, for each rest break of 10 continuous minutes that an employee does not receive, and further the employee shall be permitted to use restroom facilities without unreasonable restriction. It is the employer's burden to establish that providing a duty-free rest break of 10 continuous minutes as near as practical to the midpoint of each work period of four hours worked or major fraction thereof is "infeasible" by demonstrating that the failure to provide such a rest break was a business necessity, either because it was caused by exceptional and unanticipated circumstances that are temporary or because the provision of a duty-free rest break would prevent the employer from performing a vital function or pose a danger to the safety and health of other employees, patients, residents of a facility, service recipients of home and community-based services, clients, or the public.

3. If an employer fails to provide an employee a rest break in accordance with the applicable provisions of this Section, the employer shall pay the employee an additional 30 minutes of pay at the employee's regular rate of compensation for each work period that a rest break is not provided. There is a rebuttable presumption that an employee who did not take a rest break was not permitted to do so and that the employer failed to provide that employee a rest break in accordance with this section.

4. This section shall not apply to a public employer, as defined in Section 290.502.4, with respect to its employees.

5. The provisions of this section shall become effective January 1, 2025.

290.522. Every employer subject to any provision of sections 290.500 to 290.530 or of any regulations issued under sections 290.500 to 290.530 shall keep a summary of sections 290.500 to 290.530, approved by the director, and copies of any applicable wage, meal period, and rest break regulations issued under sections 290.500 to 290.530, or a summary of the wage, meal period, and rest break regulations posted in a conspicuous and accessible place in or about the premises wherein any person subject thereto is employed. Employers shall be furnished copies of the summaries and regulations by the state on request without charge, except that the state may, but is not required to, furnish to employers copies of summaries and regulations relating to the provisions on meal periods and rest breaks without charge but regardless an employer shall keep a summary of those provisions posted consistent with this section.

290.525. Any employer who hinders the director in the performance of his duties in the enforcement of sections 290.500 to 290.530 by any of the following acts is guilty of a class C misdemeanor:

- (1) Refusing to admit the director to any place of employment;
- (2) Failing to make, keep and preserve any records as required under the provisions of sections 290.500 to 290.530;
- (3) Falsifying any record required under the provisions of sections 290.500 to 290.530;
- (4) Refusing to make any record required under the provisions of sections 290.500 to 290.530 accessible to the director;
- (5) Refusing to furnish a sworn statement of any record required under the provisions of sections 290.500 to 290.530 or any other information required for the proper enforcement of sections 290.500 to 290.530 to the director upon demand;
- (6) Failing to post a summary of sections 290.500 to 290.530 or a copy of any applicable regulation as required;
- (7) Discharging or in any other manner discriminating against any employee who has notified the director that he has not been paid wages in accordance with the provisions of sections 290.500 to 290.530, or who has caused to be instituted any proceeding under or related to sections 290.500 to 290.530, or who has testified or is about to testify in any such proceeding;
- (8) Paying or agreeing to pay wages at a rate less than the rate applicable under sections 290.500 to 290.530. Payment at such rate for any week or portion of a week constitutes a separate offense as to each employee;
- (9) Failing to provide meal periods and rest breaks in accordance with sections 290.500 to 290.530;
- ~~[(9)]~~ (10) Otherwise violating any provisions of sections 290.500 to 290.530.

Each day of violation constitutes a separate offense.

290.527. Any employer who pays any employee less wages than the wages to which the employee is entitled under or by virtue of sections 290.500 to 290.530 shall be liable to the employee affected for the full amount of the wage rate and an additional amount equal to twice the unpaid wages as liquidated damages, less any amount actually paid to the employee by the employer and for costs and such reasonable attorney fees as may be allowed by the court or jury. Any employer who fails to provide meal periods and rest breaks to an employee in accordance with sections 290.500 to 290.530 shall be liable to the employee for any additional wages for time worked if applicable, and in addition for the additional or extra pay due employees for failing to provide meal periods or rest breaks under section 290.518 and 290.519, respectively, and for costs and such reasonable attorney fees as may be allowed by the

court or jury. The employee may bring any legal action necessary to collect the claim. Any agreement between the employee and the employer to work for less than the wage rate or to relinquish requirements associated with meal periods and rest breaks shall be no defense to the action. All actions for the collection of any deficiency in wages or failure to provide meal periods or rest breaks in accordance with sections 290.500 to 290.530 shall be commenced within three years of the accrual of the cause of action.

290.530. Nothing in sections 290.500 to 290.530 shall be deemed to interfere with, impede, or in any way diminish the right of employees to bargain collectively with their employers through representatives of their own choosing in order to establish wages, meal periods, rest breaks, or other conditions of work in excess of the applicable minimum under the provisions of sections 290.500 to 290.530.

290.600. As used in sections 290.600 through 290.642:

(1) "Department", Department of Labor and Industrial Relations.

(2) "Director", Director of the Department of Labor and Industrial Relations.

(3) "Domestic violence", as such term is defined in section 455.010.

(4) "Earned paid sick time", time that is compensated at the same hourly rate and with the same benefits, including health care benefits, as the employee normally earns during hours worked and is provided by an employer to an employee for the purposes described in section 290.606, but in no case shall this hourly amount be less than that provided under section 290.502.

(5) "Employee", any individual employed in this state by an employer, but does not include:

(A) Any individual engaged in the activities of an educational, charitable, religious, or nonprofit organization where the employer-employee relationship does not, in fact, exist or where the services rendered to the organization are on a voluntary basis;

(B) Any individual standing in loco parentis to foster children in their care;

(C) Any individual employed for less than four months in any year in a resident or day camp for children or youth, or any individual employed by an educational conference center operated by an educational, charitable or not-for-profit organization;

(D) Any individual engaged in the activities of an educational organization where employment by the organization is in lieu of the requirement that the individual pay the cost of tuition, housing or other educational fees of the organization or where earnings of the individual employed by the organization are credited toward the payment of the cost of tuition, housing or other educational fees of the organization;

(E) Any individual employed on or about a private residence on an occasional basis for six hours or less on each occasion;

(F) Any individual employed on a casual basis to provide baby-sitting services;

(G) Any individual employed by an employer subject to the provisions of part A of subtitle IV of title 49, United States Code, 49 U.S.C. §§ 10101 et seq.;

(H) Any individual employed on a casual or intermittent basis as a golf caddy, newsboy, or in a similar occupation;

(I) Any individual who is employed in any government position defined in 29 U.S.C. §§ 203(e)(2)(C)(i)-(ii);

(J) Any individual employed by a retail or service business whose annual gross volume sales made or business done is less than five hundred thousand dollars;

(K) Any individual who is an offender, as defined in section 217.010, who is incarcerated in any correctional facility operated by the department of corrections, including offenders who provide labor or services on the grounds of such correctional facility pursuant to section 217.550; or,

(L) Any individual described by the provisions of section 29 U.S.C. 213(a)(8).

(6) "Employer", any person acting directly or indirectly in the interest of an employer in relation to an employee; provided, however, that for the purposes of sections 290.600 through 290.642 "employer" does not include the United States Government, the state, or a political subdivision of the state, including a department, agency, officer, bureau, division, board,

commission, or instrumentality of the state, or a city, county, town, village, school district, public higher education institution, or other political subdivision of the state.

(7) "Family member", any of the following individuals:

(A) Regardless of age, a biological, adopted or foster child, stepchild or legal ward, a child of a domestic partner, a child to whom the employee stands in loco parentis, or an individual to whom the employee stood in loco parentis when the individual was a minor;

(B) A biological, foster, stepparent or adoptive parent or legal guardian of an employee or an employee's spouse or domestic partner or an individual who stood in loco parentis when the employee or employee's spouse or domestic partner was a minor child;

(C) An individual to whom the employee is legally married under the laws of any state, or a domestic partner who is registered as such under the laws of any state or political subdivision, or an individual with whom the employee is in a continuing social relationship of a romantic or intimate nature;

(D) A grandparent, grandchild, or sibling (whether of a biological, foster, adoptive or step relationship) of the employee or the employee's spouse or domestic partner; or

(E) A person for whom the employee is responsible for providing or arranging health or safety-related care, including but not limited to helping that individual obtain diagnostic, preventative, routine, or therapeutic health treatment or ensuring the person is safe following domestic violence, sexual assault, or stalking.

(8) "Health care professional," any individual licensed under federal or any state law to provide medical or emergency services, including but not limited to doctors, nurses, certified nurse midwives, mental health professionals, and emergency room personnel.

(9) "Person", any individual, partnership, association, corporation, business, business trust, legal representative, or any organized group of persons.

(10) "Retaliatory personnel action", denial of any right guaranteed under sections 290.600 through 290.642, or any threat, discharge, suspension, demotion, reduction of hours, or any other adverse action against an employee for the exercise of any right guaranteed herein. "Retaliatory personnel action" shall also include interference with or punishment for in any manner participating in or assisting an investigation, proceeding, or hearing under sections 290.600 through 290.642.

(11) "Same hourly rate", means the following:

(A) For employees paid on the basis of a single hourly rate, the same hourly rate shall be the employee's regular hourly rate.

(B) For employees who are paid multiple hourly rates of pay from the same employer, the same hourly rate shall be either:

(i) the wages the employee would have been paid for the hours absent during use of earned paid sick time if the employee had worked; or,

(ii) the weighted average of all hourly rates of pay during the previous pay period.

Whatever method the employer uses, the employer must use a consistent method for each employee throughout a year.

(C) For employees who are paid a salary, the same hourly rate shall be determined by dividing the wages the employee earns in the previous pay period by the total number of hours worked during the previous pay period. For determining total number of hours worked during the previous pay period, employees who are exempt from overtime requirements under 29 U.S.C. § 213(a)(1), the Fair Labor Standards Act, shall be assumed to work 40 hours in each work week unless their normal work week is less than 40 hours, in which case earned paid sick time shall accrue and the same hourly rate shall be calculated based on the employee's normal work week. Regardless of the basis used, the same hourly rate shall not be less than the effective minimum wage specified in section 290.502.

(D) For employees paid on a piece rate or a fee-for-service basis, the same hourly rate shall be a reasonable calculation of the wages or fees the employee would have received for the piece work, service, or part thereof, if the employee had worked. Regardless of the basis used, the same hourly rate shall not be less than the effective minimum wage specified in section 290.502.

(E) For employees who are paid on a commission basis (whether base wage plus commission or commission only), the same hourly rate shall be the greater of the base wage or the effective minimum wage specified in section 290.502.

(F) For employees who receive and retain compensation in the form of gratuities in addition to wages, the same hourly rate shall be the greater of the employee's regular hourly rate or 100% of the effective minimum wage specified in section 290.502 without deduction of any tips as a credit.

(12) "Sexual assault", as such term is defined in section 455.010.

(13) "Stalking", as such term is defined in section 455.010.

(14) "Year", a regular and consecutive twelve-month period as determined by the employer; except that for the purposes of section 290.615 and section 290.627, "year" shall mean a calendar year.

290.603. 1. Employees of an employer with fifteen or more employees shall accrue a minimum of one hour of earned paid sick time for every thirty hours worked, but such employees shall not be entitled to use more than fifty-six hours of earned paid sick time per year, unless the employer selects a higher limit.

2. Employees of an employer with fewer than fifteen employees shall accrue a minimum of one hour of earned paid sick time for every thirty hours worked, but such employees shall not be entitled to use more than forty hours of earned paid sick time per year, unless the employer selects a higher limit.

3. In determining the number of employees of an employer, all employees performing work in the state for an employer for compensation on a full-time, part-time, or temporary basis shall be counted. In situations in which the number of employees performing work in the state for an employer for compensation per week fluctuates above and below 15 employees per week over the course of a year, an employer is required to provide earned paid sick time pursuant to subsection (1) of this section if it maintained fifteen or more employees in the state on the payroll for some portion of a working day in each of twenty or more different calendar weeks, including any periods of leave, and whether or not the weeks were consecutive, in either the current or the preceding year (irrespective of whether the same individuals were in employment in each working day).

4. All employees shall accrue earned paid sick time as follows:

(A) Earned paid sick time as provided in this section shall begin to accrue at the commencement of employment or May 1, 2025, whichever is later. An employee shall be entitled to use earned paid sick time as it is accrued. An employer may provide all earned paid sick time that an employee is expected to accrue in a year at the beginning of the year.

(B) Employees who are exempt from overtime requirements under 29 U.S.C. § 213(a)(1) of the Federal Fair Labor Standards Act will be assumed to work forty hours in each work week for purposes of earned paid sick time accrual unless their normal work week is less than forty hours, in which case earned paid sick time accrues based upon that normal work week.

(C) Up to 80 hours of earned paid sick time shall be carried over to the following year if the employee has any unused accrued earned paid sick time at the end of the year, but this law does not require an employer to permit an employee to use more than the applicable number of hours of earned paid sick time per year as set forth in subsection (1) and (2) of this section. Alternatively, in lieu of carryover of unused earned paid sick time from one year to the next, an employer may pay an employee for unused earned paid sick time at the end of a year which could be carried over and provide the employee with an amount of paid sick time that meets or exceeds the requirements of sections 290.600 through 290.642 that is available for the employee's immediate use at the beginning of the subsequent year.

(D) If an employee is transferred to a separate division, entity, or location, but remains employed by the same employer, the employee is entitled to all earned paid sick time accrued at the prior division, entity, or location and is entitled to use all earned paid sick time as provided in this section. When there is a separation from employment and the employee is rehired within nine months of separation by the same employer, previously accrued earned paid sick time that had not been used shall be reinstated. Further, the employee shall be entitled to use accrued earned paid sick time and accrue additional earned paid sick time at the re-commencement of employment.

(E) When a different employer succeeds or takes the place of an existing employer, all employees of the original employer who remain employed by the successor employer are entitled to all earned paid sick time they accrued when employed by the original employer, and are entitled to use earned paid sick time previously accrued.

(F) At its discretion, an employer may loan earned paid sick time to an employee in advance of accrual by such employee.

5. Any employer with a paid leave policy, such as a paid time off policy, who makes available an amount of paid leave sufficient to meet the accrual requirements of this section that may be used for the same purposes and under the same conditions as earned paid sick time under sections 290.600 through 290.642 is not required to provide additional paid sick time under this section.

6. Except as specifically provided in this section, nothing in this section shall be construed as requiring financial or other reimbursement to an employee from an employer upon the employee's termination, resignation, retirement, or other separation from employment for accrued earned paid sick time that has not been used.

7. Employees shall not accrue earned paid sick time before May 1, 2025. Employees who are employed or who commence employment on or after May 1, 2025 shall accrue earned paid sick time and be entitled to use earned paid sick time as it is accrued in accordance with sections 290.600 through 290.642. The Department may develop model posters and notices, engage in rule-making, initiate outreach programs, and engage in other activities for implementation of the provisions of sections 290.600 through 290.642 as authorized by those sections before May 1, 2025.

290.606. 1. Earned paid sick time shall be provided to an employee by an employer for:

(A) An employee's mental or physical illness, injury, or health condition; an employee's need for medical diagnosis, care, or treatment of a mental or physical illness, injury, or health condition; an employee's need for preventative medical care;

(B) Care of a family member with a mental or physical illness, injury, or health condition; care of a family member who needs medical diagnosis, care, or treatment of a mental or physical illness, injury, or health condition; care of a family member who needs preventative medical care;

(C) Closure of the employee's place of business by order of a public official due to a public health emergency, or an employee's need to care for a child whose school or place of care has been closed by order of a public official due to a public health emergency, or care for oneself or a family member when it has been determined by the health authorities having jurisdiction or by a health care provider that the employee's or family member's presence in the community may jeopardize the health of others because of his or her exposure to a communicable disease, whether or not the employee or family member has actually contracted the communicable disease; or

(D) Absence necessary due to domestic violence, sexual assault, or stalking, provided the leave is to allow the employee to obtain for the employee or the employee's family member:

(i) Medical attention needed to recover from physical or psychological injury or disability caused by domestic violence, sexual assault, or stalking;

(ii) Services from a victim services organization;

(iii) Psychological or other counseling;

(iv) Relocation or taking steps to secure an existing home due to the domestic violence, sexual assault, or stalking; or

(v) Legal services, including preparing for or participating in any civil or criminal legal proceeding related to or resulting from the domestic violence, sexual assault, or stalking.

2. Earned paid sick time shall be provided upon the request of an employee. Such request may be made orally, in writing, by electronic means, or by any other means acceptable to the employer. When possible, the request shall include the expected duration of the absence.

3. When the use of earned paid sick time is foreseeable, the employee shall make a good faith effort to provide notice of the need for such time to the employer in advance of the use of the earned paid sick time and shall make a reasonable effort to schedule the use of earned paid sick time in a manner that does not unduly disrupt the operations of the employer. Where such need is not foreseeable, an employer may require an employee to provide notice of the need for the use of earned paid sick time as soon as practicable.

4. An employer that requires notice of the need to use earned paid sick time where the need is not foreseeable shall provide a written policy that contains procedures for the employee to provide notice. An employer that has not provided to the employee a copy of its written policy for providing such notice shall not deny earned paid sick time to the employee based on non-compliance with such a policy.

5. An employer may not require, as a condition of an employee's taking earned paid sick time, that the employee search for or find a replacement worker to cover the hours during which the employee is using earned paid sick time.

6. Earned paid sick time may be used in the smaller of hourly increments or the smallest increment that the employer's payroll system uses to account for absences or use of other time.

7. For earned paid sick time of three or more consecutive work days, an employer may require reasonable documentation that the earned paid sick time has been used for a purpose covered by subsection (1) of this section.

(A) Documentation signed by a health care professional indicating that earned paid sick time is necessary shall be considered reasonable documentation for purposes of this section.

(B) In cases of domestic violence, sexual assault, or stalking, if the employer requests, one of the following types of documentation selected by the employee shall be considered reasonable documentation: (i) a police report indicating that the employee or the employee's family member was a victim of domestic violence, sexual assault, or stalking, (ii) a written statement from an employee or agent of a victim service provider affirming that the employee or employee's family member is or was receiving services from a victim service provider; (iii) documentation signed by a health care professional from whom the employee or employee's family member sought assistance relating to domestic violence, sexual assault, or stalking or the effects thereof; (vi) a court document indicating that an employee or employee's family member is or was involved in a legal action related to domestic violence, sexual assault, or stalking; or (v) a written statement from the employee affirming that the employee or employee's family member is taking or took earned paid sick time for a qualifying purpose of subsection (1) of this section.

(C) An employer may not require that the documentation explain the nature of the illness, details of the underlying health needs, or the details of the domestic violence, sexual assault, or stalking, unless otherwise required by law.

290.609. 1. It shall be unlawful for an employer or any other person to interfere with, restrain, or deny the exercise of, or the attempt to exercise, any right protected under sections 290.600 through 290.642.

2. An employer shall not take retaliatory personnel action or discriminate against an employee or former employee because the individual has exercised rights protected under sections 290.600 through 290.642. Such rights include, but are not limited to, the right to request or use earned paid sick time pursuant to sections 290.600 through 290.642; the right to file a complaint or inform any person about any employer's alleged violation of sections 290.600 through 290.642; the right to participate in any investigation, hearing, or proceeding or cooperate with or assist the Department in any investigations of alleged violations of sections 290.600 through 290.642; and the right to inform any person of his or her potential rights under sections 290.600 through 290.642.

3. It shall be unlawful for an employer's absence control policy to count earned paid sick time taken under sections 290.600 through 290.642 as an absence that may lead to or result in discipline, discharge, demotion, suspension, or any other adverse action.

4. Protections of this section shall apply to any individual who mistakenly but in good faith alleges violations of sections 290.600 through 290.642.

290.612. 1. Employers shall give employees a written notice about earned paid sick time within fourteen calendar days of the commencement of employment or on April 15, 2025, whichever is later, which must include the following information: (1) beginning May 1, 2025, employees accrue and are entitled to earned paid sick time at the rate one hour of earned paid sick time for every 30 hours of work, and may use earned paid sick time, subject to the limits and terms under sections 290.600 through 290.642 of Missouri law, (2) it is prohibited for an employer to take retaliatory personnel action against employees who request or use earned paid sick time as allowed by law, (3) each employee has the right to bring a civil action if earned paid sick time as required by sections 290.600 through 290.642 is denied by the employer or the employee is subjected to retaliatory personnel action by the employer for exercising the employee's rights under sections 290.600 through 290.642; and, (4) the contact information for the Department. Notice shall be provided by the Employer to the employee on a single piece of paper, at least 8.5 x 11, in no less than 14-point font.

2. Beginning April 15, 2025, employers shall display a poster that contains the information required in subsection (1) of this section in a conspicuous and accessible place in each establishment where such employees are employed, provided that such poster has been made available by the Department.

3. The Department may create and make available to employers, model notices and posters that contain the information required under subsection (1) of this section for employers' use in complying with subsections (1) and (2) of this section. Nothing in this subsection shall be interpreted or applied, either expressly or through practical necessity, to require the Department to create or make available notices or posters if it requires the appropriation of funds to cover the costs of such acts.

290.615. 1. Employers shall retain records documenting hours worked by employees and earned paid sick time taken by employees, for a period of not less than three years, and shall allow the Department access to such records, with appropriate notice and at a mutually agreeable time, to monitor compliance with the requirements of sections 290.600 through 290.642.

2. To the extent permitted by law, the Director may inspect such records, and the records shall be open for inspection by the Director by appointment. Where the records required under this section are kept outside the state, the records shall be made available to the Director upon demand. Every such employer shall furnish to the Director on demand a sworn statement of time records and information upon forms prescribed or approved by the Director. All the records and information obtained by the Department are confidential and shall be disclosed only on order of a court of competent jurisdiction.

3. Nothing in this section shall be interpreted or applied, either expressly or through practical necessity, to require the Department or Director to access or inspect records or to create forms relating to the inspection of records if it requires the appropriation of funds to cover the costs of such acts.

290.618. 1. The Department may, in accordance with chapter 536, promulgate rules for the implementation, enforcement, and administration of sections 290.600 through 290.642. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after November 5, 2024, shall be invalid and void.

2. Nothing in this section shall be interpreted or applied, either expressly or through practical necessity, to require the promulgation or adoption of rules if it requires the appropriation of funds to cover the costs of such acts.

290.621. 1. The Department may investigate and ascertain compliance with sections 290.600 through 290.642, establish and implement a system to receive complaints regarding non-compliance with sections 290.600 through 290.642 and to investigate and attempt to resolve complaints between the complainant and the subject of the complaint, and establish additional means of enforcement, including requiring by subpoena the testimony of witnesses and production of books, records, and other evidence relative to any matter under investigation or hearing, issuing notices of violation, holding hearings on notices of violation, making determinations, recovering unpaid earned sick time, and imposing fines for willful violations of up to \$500 per day of each day of a continuing violation. A final decision of the department is subject to review in accordance with the provisions of chapter 536.

2. The Department may develop and implement an outreach program to inform employees, parents, and persons who are under the care of a health care provider about the availability of earned paid sick time under sections 290.600 through 290.642. This program may include the distribution of notices and other written materials to child care and elder care providers, domestic violence shelters, schools, hospitals, community health centers and other health care providers in Missouri.

3. A municipality, county, city, town, or village may adopt ordinances, rules, and regulations to investigate and ascertain compliance with sections 290.600 through 290.642, establish and implement a system to receive complaints regarding non-compliance with sections 290.600

through 290.642 and to investigate and attempt to resolve complaints between the complainant and the subject of the complaint, and establish additional means of enforcement, with respect to employers within, or employees performing work while physically present in, the geographic boundaries of the municipality, county, city, town, or village. Any such ordinance, rule, or regulation shall be consistent with this law and any Department rules or regulations and system for compliance and enforcement. The municipality, county, city, town, or village may exercise such powers as allowed by any applicable charter or ordinance, including requiring by subpoena the testimony of witnesses and production of books, records, and other evidence relative to any matter under investigation or hearing, issuing notices of violation, holding hearings on notices of violation, making determinations, recovering unpaid earned sick time, and imposing fines for willful violations of up to the maximum allowed for an ordinance violation. Before investigating or seeking to resolve any complaint between the complainant and the subject of the complaint, the municipality, county, city, town, or village shall give notice to the Department with a copy of the complaint and, within 14 days of such notice, the Department may intervene as of right and participate in the matter to ensure that the complaint is being investigated and resolved in the interest of effective enforcement of sections 290.600 through 290.642 or, alternatively, the Department may institute its own proceedings in which case the municipality, county, city, town, or village shall refrain from acting on the matter so long as the complaint is being investigated and resolved in the interest of effective enforcement of sections 290.600 through 290.642. If the Department does not, within 14 days, intervene or instigate its own proceedings, the municipality, county, city, town, or village may, without the Department, investigate and attempt to resolve the complaint and take other additional means within its power to enforce sections 290.600 through 290.642 against the subject of the complaint. In no event shall an employer be subject to compliance proceedings arising out of a single set of facts after having already been subjected to a final compliance order by another governmental entity.

4. Nothing in this section shall be interpreted or applied, either expressly or through practical necessity, to require the Department, a municipality, county, city, town, or village to conduct investigations and ascertain compliance with sections 290.600 through 290.642, to establish and implement a system to receive or resolve complaints, to establish additional means of enforcement, or to conduct outreach and education, including the creation of notices and other written materials, concerning sections 290.600 through 290.642, if it requires the appropriation of funds to cover the costs of such acts.

290.624. 1. Any employer who willfully violates or fails to comply with any of the provisions and requirements of sections 290.600 through 290.642 shall be guilty of a class C misdemeanor; provided, however, that an employer who willfully violates the notice and posting requirements of section 290.612 shall be guilty of an infraction.

2. For purposes of this section, each day of violation or failure to comply and each employee affected shall constitute a separate offense.

290.627. 1. Any individual who claims to have been aggrieved by a failure of an employer to comply with any portion of sections 290.600 through 290.642, including but not limited to the failure to provide earned paid sick time or to allow employees to use such time consistent with sections 290.600 through 290.642, or who claims to have suffered a retaliatory personnel action, shall have a right of action and may commence a civil action in the appropriate court of jurisdiction within three years of the accrual of the cause of action, to obtain appropriate relief with respect to such unlawful violation. Such action may be brought without first filing an administrative complaint.

2. In a civil action under this section, if the court finds a violation has occurred, the court may grant as relief, as it deems appropriate and to the extent permitted by law, any permanent or temporary injunction, the full amount of any unpaid earned sick time plus any actual damages suffered as the result of the employer's violation of sections 290.600 through 290.642, an additional amount equal to twice any unpaid earned sick time as liquidated damages, costs, and reasonable attorney's fees as may be allowed by the court, and other legal or equitable relief as may be appropriate to remedy the violation, including, without limitation, reinstatement to employment and back pay.

290.630. 1. Except as otherwise required by law, an employer may not require disclosure of details relating to an employee's or an employee's family member's health information, domestic violence, sexual assault, or stalking as a condition of providing earned paid sick time under sections 290.600 through 290.642.

2. Unless as otherwise required by law, any health or safety information possessed by an employer regarding an employee or employee's family member must:

(A) be maintained on a separate form and in a separate file from other personnel information;

(B) be treated as confidential medical records; and

(C) not be disclosed except to the affected employee or with the express written permission of the affected employee.

290.633. 1. With respect to employees covered by a valid collective bargaining agreement in effect on November 5, 2024, no provisions of sections 290.600 through 290.642 shall apply until the stated expiration date in the collective bargaining agreement; however, further the provisions of sections 290.600 through 290.642 shall apply upon any such agreement's renewal, extension, amendment, or modification in any respect after November 5, 2024.

2. Nothing in sections 290.600 through 290.642 shall be deemed to interfere, impede, or otherwise diminish the right of employees to bargain collectively through representatives of their own choosing in order to establish earned paid sick time or other conditions of work in excess of the applicable minimum standards under the provisions of sections 290.600 through 290.642.

3. All or any portion of the earned paid sick time requirements of sections 290.600 through 290.642 shall not apply to employees covered by a bona fide collective bargaining agreement to the extent that such requirements are expressly waived in the collective bargaining agreement in clear and unambiguous terms.

4. With the exception noted in subsection 3, any waiver by an employee of rights under sections 290.600 through 290.642 shall be deemed contrary to public policy and shall be void.

290.636. 1. Nothing in sections 290.600 through 290.642 shall be construed to discourage or prohibit an employer from the adoption or retention of an earned paid sick time policy more generous than the one required herein.

2. Nothing in sections 290.600 through 290.642 shall be construed as diminishing the obligation of an employer to comply with any contract, collective bargaining agreement, employment benefit plan, or other agreement providing more generous paid sick time to an employee than required herein. Nothing in sections 290.600 through 290.642 shall be construed as diminishing the rights of public employees regarding paid sick time or use of paid sick time as provided in the laws of Missouri and ordinances of political subdivisions pertaining to public employees.

290.639. 1. Sections 290.600 through 290.642 provide minimum requirements pertaining to earned paid sick time and shall not be construed to preempt, limit, or otherwise affect the applicability of any other law, regulation, requirement, policy, or standard that provides for greater accrual or use by employees of earned paid sick time or that extends other protections to employees.

2. Nothing in sections 290.600 through 290.642 shall be interpreted or applied to create a power or obligation contrary to any federal law, rule, or regulation.

290.642. Except as detailed in section 290.618, all of the provisions of sections 290.600 through 290.642 are severable, and if any provision, including any section, subsection, subdivision, paragraph, sentence, or clause, or the application thereof to any person or circumstance, is found by a court of competent jurisdiction to be invalid, unconstitutional, or unconstitutionally enacted, such decision shall not affect other provisions or applications of sections 290.600 through 290.642 that can be given effect without the invalid, unconstitutional, or unconstitutionally enacted provision or application, and to this end the provisions of sections 290.600 through 290.642 are declared severable.

**MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (24-061)**

Subject

Initiative petition from Richard von Glahn regarding a proposed amendment to Chapter 290 of the Revised Statutes of Missouri. (Received January 18, 2023)

Date

February 7, 2023

Description

This proposal would amend Chapter 290 of the Revised Statutes of Missouri.

The amendment is to be voted on in November 2024.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office**, the **Department of Agriculture**, the **Department of Economic Development**, the **Department of Elementary and Secondary Education**, the **Department of Higher Education and Workforce Development**, the **Department of Health and Senior Services**, the **Department of Commerce and Insurance**, the **Department of Mental Health**, the **Department of Natural Resources**, the **Department of Corrections**, the **Department of Labor and Industrial Relations**, the **Department of Revenue**, the **Department of Public Safety**, the **Missouri Department of the National Guard**, the **Department of Social Services**, the **Governor's office**, the **Missouri House of Representatives**, the **Department of Conservation**, the **Department of Transportation**, the **Office of Administration**, the **Office of State Courts Administrator**, the **Missouri Senate**, the **Secretary of State's office**, the **Office of the State Public Defender**, the **State Treasurer's office**, **Adair County**, **Boone County**, **Callaway County**, **Cass County**, **Clay County**, **Cole County**, **Greene County**, **Jackson County**, **Jasper County**, **St. Charles County**, **St. Louis County**, **Taney County**, the **City of Cape Girardeau**, the **City of Columbia**, the **City of Jefferson**, the **City of Joplin**, the **City of Kansas City**, the **City of Kirksville**, the **City of Mexico**, the **City of Raymore**, the **City of St. Joseph**, the **City of St. Louis**, the **City of Springfield**, the **City of Union**, the **City of Wentzville**, the **City of West Plains**, **Cape Girardeau 63 School District**, **Hannibal 60 School District**, **Malta Bend R-V School District**, **Mehlville School District**, **Wellsville-Middletown R-1 School District**, **State Technical College of Missouri**, **Metropolitan Community College**, **University of Missouri**, **St. Louis Community College**, the **Missouri Lottery**, the **State Tax Commission**, the **Missouri Veterans Commission**, the **Missouri Ethics Commission**, the **Missouri Office of Prosecution Services**, the **Kansas City Board of Police Commissioners**, the **Metropolitan Police Department - City of St. Louis**, the **St. Louis County Board of Elections**, the **Board of Election Commissioners City of St.**

Louis, the Kansas City Board of Election Commissioners, the Platte County Board of Elections, the Jackson County Election Board, the Clay County Board of Election Commissioners, the Lieutenant Governor's office, the Children's Trust Fund of Missouri, the Missouri Joint Municipal Electric Utility Commission, the State Auditor's office, the Metropolitan Zoological Park and Museum District, the Missouri Municipal League, the Missouri Bar Association, the Missouri Gaming Commission, the Municipal League of Metro St. Louis, University of Central Missouri, Harris-Stowe State University, Lincoln University, Missouri State University, Missouri Southern State University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University, and Truman State University.

Lindsey Baker, Research Director, Missouri Budget Project provided information to the State Auditor's office.

Cassandra Gomez, Senior Staff Attorney, A Better Balance provided information to the State Auditor's office.

Richard von Glahn, Policy Director, Missouri Jobs with Justice provided information to the State Auditor's office.

Nina DiSalvo, Esq., Policy Director, Towards Justice provided information to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, their office may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact.

Officials from the **Department of Economic Development** indicated no fiscal impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated there is no fiscal impact to their agency.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no anticipated cost or savings to their department.

Officials from the **Department of Mental Health** indicated they assume no direct fiscal impact from the proposed statutory amendment to Chapter 290 as government employees are exempt from its provisions. However, employees of providers that receive DMH funding would be impacted, which would include all contracted DMH providers.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no impact.

Officials from the **Department of Labor and Industrial Relations** indicated:

This petition would amend provisions relating to the accumulation of sick time required for employees depending on how many employees are employed by the employer. It also has various requirements regarding how sick time can be used and procedures employers must use. Violations are deemed misdemeanors, and damages are allowed to be awarded in civil suits. It states that the DOLIR "may" create new notices, promulgate rules, and initiate outreach programs but that the DOLIR is not required to create notices if it requires the appropriation of funds. It also states that the DOLIR may inspect employment records and investigate complaints of noncompliance. Still, such inspection is not required if it requires the appropriation of funds, and the cost estimate would be zero.

The funding source will be from General Revenue if the DOLIR receives complaints to enforce it. Therefore the DOLIR estimates it would need two Regulatory Auditors and one Administrative Support Assistant person at an annual ongoing cost of \$255,975 by 2027, plus an initial information technology (IT) component of \$28,318 and office equipment of \$25,011.

Officials from the **Department of Revenue** indicated this initiative petition will not have an impact on their department.

Officials from the **Department of Public Safety** indicated no impact for their department, Director's office.

Officials from the **Missouri Department of the National Guard** indicated no fiscal impact to their office.

Officials from the **Department of Social Services** indicated they do not anticipate a fiscal impact as a result of this initiative petition.

Officials from the **Governor's Office** indicated this proposal relating to minimum wage and employee leave benefits does not financially impact their office.

Officials from the **House of Representatives** indicated no fiscal impact, as they believe they are excluded in the definition of employer and their employees are also excluded.

Officials from the **Department of Conservation** indicated this initiative petition will have no fiscal impact on their department because it exempts public employers, which include state commissions and agencies and exempts the state from the definition of employer.

Officials from the **Department of Transportation** indicated there is no fiscal impact to their department.

Officials from the **Office of Administration** indicated this proposal relating to minimum wage and employee leave benefits does not financially impact their office.

Officials from the **Office of State Courts Administrator** indicated beginning January 1, 2025, the minimum wage rate would be not less than \$13.50 per hour. This rate would increase by \$0.75 per hour each year of the next two years until reaching \$15.00 per hour by January 1, 2027.

The increase to wages would approximately have the fiscal impact below for each year:

Calendar Year	Annual Increase from the Current Wage
2025	\$ 2,351.00
2026	\$ 5,783.00
2027	\$ 9,215.00

This is an estimated impact if not exempt.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be \$7 million based on the cost of the 2020 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered

fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

In FY19, over \$5.8 million was spent to publish the full text of the measures for the August and November elections. Their office estimates \$75,000 per page for the costs of publications based on the actual cost incurred for the one referendum that was on the August 2018 ballot.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will have no fiscal impact on their office.

Officials from the **State Treasurer's office** indicated no impact to their office.

Officials from **Clay County** indicated this petition does not apply to counties as employers.

They do estimate additional costs from this petition of **\$2,000** a year between the Circuit Court and Prosecutor to enforce the misdemeanor and civil action provisions.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county.

Officials from **St. Louis County** indicated this initiative petition should have no fiscal impact on their county.

Officials from the **City of Kansas City** indicated this proposed amendment will have no fiscal impact on their city.

Officials from **Metropolitan Community College** indicated no fiscal impact to their college.

Officials from **St. Louis Community College** indicated the initiative increases to the minimum wage and benefits is currently lower than their actual experience so the petition should have no near term impact on cost.

Officials from the **Missouri Lottery** indicated no impact.

Officials from the **State Tax Commission** indicated there is no fiscal impact on their agency.

Officials from the **Missouri Veterans Commission** indicated this initiative petition creates no fiscal impact to their Commission. The proposed sections 290.502.4, 290.518.5, and 290.519.4 RSMo specifically exclude the state and its agencies. The definition of the term "employer" in the proposed section 290.600(8) RSMo specifically excludes the state and its agencies as well. Therefore, the requirements of the petition would not apply to the Commission.

Officials from the **Missouri Ethics Commission** indicated this initiative petition does not have fiscal impact on their Commission.

Officials from the **Kansas City Board of Police Commissioners** indicated per Section 290.502.4, the Kansas City, MO Police Department is exempt as a political subdivision of the state.

Officials from the **St. Louis County Board of Elections** indicated this will have no impact on their Board of Elections.

Officials from the **Kansas City Board of Election Commissioners** indicated this petition will have little to no material fiscal impact on their operations.

Officials from the **Platte County Board of Elections** indicated no impact.

Officials from the **Jackson County Election Board** indicated this petition has no fiscal impact to their board.

Officials from the **Children's Trust Fund** indicated no impact.

Officials from the **State Auditor's office** indicated no fiscal impact.

Lindsey Baker, Research Director, Missouri Budget Project indicated in summary, they estimate the fiscal impact of earned sick leave on state and local revenue is minimal because the increased revenue and decreased spending associated with a stronger workforce and healthier communities will more than offset the modest administrative expenses outlined in previous estimates. Further, earned sick leave has the potential to provide substantial societal savings and a significant boost to Missouri's economy. She also provided the following information:

Estimated Fiscal Impact of Earned Sick Leave Petitions 24-025-042

We estimate the fiscal impact of earned sick leave on state & local revenue is minimal because the increased revenue & decreased spending associated with a stronger workforce and healthier communities will more than offset the modest administrative expenses outlined in previous estimates. Further, earned sick leave has the potential to provide substantial societal savings and a significant boost to Missouri's economy.

In addition to helping employees by allowing them to address their health needs without losing their jobs or ability to pay their bills, paid sick leave has many benefits for employers, including a healthier workforce, reduced turnover, and increased productivity. The benefits of paid sick leave have been highlighted by the COVID-19 pandemic, illustrating the importance of workers being able to recover at home without lost wages and without risking spread of contagious disease in the workplace.

Several ballot measures have been filed (24-025-042) that would require employers to provide earned sick leave in Missouri. Though the measures vary slightly, each would require employers to provide a minimum of 3-7 days of paid leave to employees, depending on hours worked and size of business. If implemented, Missouri would join the seventeen states, plus the District of Columbia, who ensure employees can earn paid sick leave to care for themselves or family members.ⁱ

An estimated 211,000 Missourians and their families would benefit from the earned sick time provided through these initiatives, with low-wage workers disproportionately likely to benefit from this policy.ⁱⁱ Expanding earned sick leave in Missouri is estimated to provide a net savings to society of between \$612.4-\$774.1 million annually depending on the number of days provided.ⁱⁱⁱ

Societal Cost-Benefit of Earned Sick Leave in Missouri: Adapted from Dicke, Ohler, & Thorpe (2022)

	3-5 Scenario*	5-7 Scenario*
Estimated Cost Savings	\$1.26B	\$1.29B
- Employment Related Savings	\$436.73M	\$466.6M
- Health Related Savings	\$825.61M	\$825.61M
Estimated Costs (Employer & State Admin)	\$488.22M	\$679.77M
Estimated Net Societal Benefit*	\$774.11M	\$612.44M

**In the 3/5 scenario, small employers are required to offer at least three days of leave and large employers at least five days. The 5/7 scenario requires small employers to offer at least five days of paid sick leave and large employers to offer at least seven days of paid leave. A small employer defined as less than 15 employees.*

Societal Cost Savings from Earned Sick Leave in Missouri

Employment Related Savings. With earned sick leave, Missouri's workforce would become stronger, more stable, and more productive leading to economic growth.

- **Reduced Absenteeism.** Access to earned sick leave allows workers to stay home, reducing the overall spread of illness in the workplace; this leads to fewer illnesses among workers and fewer overall days off work.^{iv}
- **Reduced Turnover.** Access to earned sick leave gives workers the ability to address their health needs and those of their families, without having to quit a job or risk being fired. Access to paid sick leave is associated with reduced job turnover, which in turn creates significant savings for businesses.^v
- **Reduced Presenteeism.** Employers who do not offer paid sick leave have higher rates of "presenteeism" or lost productivity due to employees working while injured or sick.^{vi} Offering paid sick leave reduces the likelihood of working at reduced capacity and allows workers to recover from illness or injury more quickly.

Health Related Savings. With earned sick leave, Missouri would become a healthier state as workers would have the ability to care for themselves and their families, while simultaneously benefiting their communities.

- **Reduced Flu Contagion in Society.** Workers without paid sick leave are more likely to come to work sick, increasing the likelihood of spreading the illness.^{vii} Access to paid sick leave allows workers to stay home when ill, thus reducing the overall spread of influenza throughout the community.
- **Reduced Workers Compensation Costs.** Workers with access to paid leave are less likely to be injured on the job,^{viii} reducing overall workers comp claims and cost to employers.
- **Reduced ER Visits.** Paid sick leave is associated with fewer trips to the emergency room.^{ix} Access to paid sick leave allows workers to properly care for themselves and family members during an illness, preventing an escalation of the illness.
- **Improved Nursing Home Care.** Unpaid sick leave is especially problematic in nursing homes as the residents are especially vulnerable to the consequences of high turnover, absenteeism and presenteeism.^x Access to paid sick leave allows nursing home workers to take care of themselves so that they can better care for residents.

Estimated Fiscal Impact of Petitions 24-025-042

While previous estimates show a cost associated with state level administration and enforcement for earned sick leave of approximately \$1 million, we also expect that earned sick leave will be associated with a significant potential for increased revenue collections & decreased spending on services associated with the cost savings outlined above.

- **Increased revenue collections.** A stronger and more productive workforce is associated with economic growth. Economic growth is in turn associated with growth in both state and local revenue as both sales & income tax collections rise due to increased spending and wages.
- **Reductions in spending on services.** When workers are able to care for themselves and their families (and others in their community) they are less likely to have minor illnesses escalate into costly health problems. This reduces the overall cost of health care, particularly among low-wage workers who are disproportionately likely to lack access to paid leave. This in turn reduces state and local spending on health other related public services.

As a result, we estimate the fiscal impact on state & local revenue of earned sick leave will be minimal as the increased revenue & decreased spending associated with a stronger workforce and healthier communities will offset the modest expenses associated with state level administration. While we are confident that a net savings will be realized, the size of the savings is too speculative to estimate exact fiscal impact.

Submitted via e-mail to fiscalnote@auditor.mo.gov

Re: Proposals Related to Chapter 290, RSMo, Petition 2024-050 through 2024-061

Dear Auditor Fitzpatrick:

A Better Balance is writing to submit our fact sheet titled "Paid Sick Leave Is Good for Business" to accompany the paid sick leave provisions of petitions 24-050 through 2024-061 and to inform the fiscal note process. We thank you for considering our submission.

A Better Balance, a national nonprofit advocacy organization with four regional offices, uses the power of the law to ensure that working individuals can care for themselves and their loved ones without jeopardizing their economic security. Through legislative advocacy, policy, direct legal services, strategic litigation, and public education, our organization works around the country to advance policies like paid sick leave, paid family and medical leave, quality childcare and eldercare, and anti-discrimination protections for pregnant workers and caregivers. From Arizona and Colorado to Duluth (MN) and beyond, our organization has worked on the growing number of paid sick leave laws now in effect.

The enclosed fact sheet summarizes research and data on the resoundingly positive effect that paid sick leave has on business. When paid sick leave policies are in place, businesses financially benefit from increased worker productivity, reduced spread of contagious illness in the workplace, and lower employee turnover. Research has also underscored that workers and the larger community also have better health outcomes overall when there is access to paid sick leave. As documented in the attached fact sheet, paid sick leave has been shown to work well for businesses and workers throughout the country.

Thank you for giving us the opportunity to submit this information. Please do not hesitate to contact A Better Balance at cgomez@abetterbalance.org if we can provide any additional assistance.

Sincerely,
A Better Balance

Paid Sick Leave Is Good for Business

The research is clear: paid sick leave isn't just good for workers, it's good for business as well. Healthy workers are essential to a successful business and a strong economy. When workers have access to paid sick leave, they demonstrate increased job satisfaction, commitment, and morale, while employers—and their bottom lines—reap the benefits of increased worker performance and productivity and reduced worker turnover. And access to guaranteed paid sick leave is a vital component to keeping businesses open and safe through the COVID-19 pandemic and beyond.

Access to paid sick leave increases worker productivity and reduces the spread of contagious illness in the workplace, leading to direct savings for businesses.

- Workers with minor illnesses are less productive than their healthy co-workers.¹ Paid sick leave reduces presenteeism (when employees show up to work while sick), which costs businesses approximately \$207.6 billion annually in reduced productivity.² After Washington State implemented its paid sick leave law, for example, the percentage of workers that went to work while sick decreased significantly.³
- Paid sick leave also reduces the spread of contagion between co-workers—further increasing productivity and labor in the workplace.⁴ Absenteeism caused by the introduction of flu-like illness in the workplace is estimated to cost employers up to 111 million workdays per year.⁵ Even before the pandemic, states with paid sick leave requirements saw a 40% decrease in influenza rates.⁶

Paid sick leave has proven to be particularly crucial to keeping businesses open during the COVID-19 pandemic.

- As the country with the highest cumulative number of COVID-19 cases,⁷ and the only one of the thirteen G12 countries with no paid sick leave,⁸ it is undeniable that the U.S. will need paid sick leave to end this crisis, to save lives, and to minimize disruption to businesses struggling to avoid the spread of COVID-19 in the workplace.
- Paid sick leave has been critical to keeping businesses open throughout the pandemic. One study found that states in which workers gained temporary access to paid sick leave through the federal Families First Coronavirus Response Act⁹ had around 400 fewer confirmed COVID-19 cases per day as a result.¹⁰

Employers with paid sick leave benefit from reduced worker turnover and better relationships with their employees, saving employers the cost of recruiting, interviewing, and training new hires.

- In general, worker turnover is estimated to cost employers the equivalent of 21% of a worker's annual compensation.¹¹ However, providing paid sick leave only increases labor costs by an average of 2.7 cents per hour worked¹² and workers with paid sick leave are less

likely to leave their jobs,¹³ saving businesses money on turnover costs such as interviewing and training.¹⁴

- Paid sick leave also increases worker loyalty and job satisfaction—factors known to increase productivity and job retention.¹⁵ After Connecticut’s paid sick law went into effect, nearly 30% of surveyed employers reported improved employee morale, and over 20% reported increased employee motivation or loyalty.¹⁶
- Two years after paid sick leave went into effect in New York City, one employer reported that “the impact that I saw in my business was a much stronger bond between ourselves and our employees, higher productivity, and a *more* successful business, not a *less* successful business.”¹⁷

Paid sick leave also saves employers money by reducing the likelihood of workplace accidents.

- Throughout the country, direct and indirect costs associated with on-the-job injuries cost employers billions of dollars.¹⁸ Workers with paid sick leave are 28% less likely than workers without access to paid sick leave to be injured on the job.¹⁹

Lack of paid sick leave makes workers more likely to go to work while sick and puts co-workers and our communities at risk. With paid sick leave, our workplaces and communities are healthier, which improves the bottom line for employers.

- Access to sick leave will be essential to overcoming the COVID-19 pandemic, as evidenced by previous pandemics. For example, it is estimated that the lack of paid sick leave was responsible for 5 million incidents of flu-like illness during the H1N1 pandemic.²⁰
- In a simulated influenza epidemic, 72% of employees who caught the flu at work did so because of exposure to other employees attending work while sick; paid sick days would reduce flu incidences among workers by approximately 6% across all workplaces, and by over 7% in workplaces with 49 or fewer employees.²¹
- As explained above, access to paid sick leave reduces presenteeism (employees showing up to work while sick) and reduces overall contagion.²² Presenteeism is linked to the spread of harmful contagions to co-workers and customers.²³
- A study of data from the 2009 flu outbreak found that workers with paid sick leave were 30 percent more likely to be vaccinated and were more likely to seek treatment when they were sick with flu-like symptoms compared to those without paid sick leave.²⁴ This has proven true for COVID-19 as well—in June 2021, workers whose employers provided paid time off to get the vaccine or recover from any side effects were 24% more likely to have received at least one dose of the vaccine than workers whose employers provided no paid vaccine leave.²⁵
- A lack of access to paid sick days is particularly harmful for service industry workers. Nearly two-thirds of restaurant workers have cooked or served food while sick,²⁶ and in 2011, nearly one in five food service workers went to work vomiting or with diarrhea, creating dangerous health conditions.²⁷

- People without access to paid sick leave are 1.5x more likely to go to work while they have a contagious illness and are nearly twice as likely to send a sick child to school or daycare than those with access to it.²⁸
- States that have implemented paid sick leave laws had an 11% decrease of cases of flu-like illnesses in their first year after enactment.²⁹

Workers with paid sick leave are more likely to seek preventative care than workers without paid sick leave, leading to better health outcomes and less time away from work.

- People without paid sick days tend to be unable to make time for preventative health care, such as cancer screenings and flu shots, which makes it more likely that such workers will have more significant healthcare needs at later stages of an illness.³⁰
- Workers with access to paid sick days report better general health than workers without paid sick days and are less likely to delay preventive medical care for themselves or for their family.³¹

Paid sick leave has proven to work well for businesses all over the U.S., and experience shows that workers don't abuse paid sick leave.

- Business practices don't have to change to keep up with paid sick leave laws. In a survey of New York City employers after the city's paid sick law was implemented, 91% of employers reported no reduction in hiring, 97% indicated they did not reduce hours, about 94% did not raise prices, and nearly 85% of employers reported no change in their overall business costs.³²
 - In a similar survey of employers in Connecticut a year and a half after the state's paid sick law went into effect, nearly 90% of employers reported no reduction in hours, and about 85% did not raise prices.³³
- Paid sick leave laws stimulate economic growth. When San Francisco's paid sick law went into effect in 2007, the city's job growth actually exceeded that of nearby counties, despite unfounded fears that the law would cause an economic slowdown.³⁴
 - In comparison to other surrounding cities, Seattle saw greater increases in the number of employers in the city when its paid sick leave law was implemented,³⁵ and in general, job growth continued on an upward trend.³⁶
 - After New York City's paid sick days were implemented, the average wage for hourly workers increased and the average number of weekly absences declined.³⁷ On the law's first anniversary, the New York City government released a report touting its successful implementation and noting that since the law went into effect, "the city has had steady job growth and the lowest unemployment in six years."³⁸
- Workers don't abuse paid sick leave. After New York implemented its paid sick leave law, 98% of employers reported no cases of employee abuse of sick days.³⁹

- Employers know that paid sick leave laws work. Two years after New York City’s paid sick law was implemented, a staggering 86% of New York City employers polled supported the law.⁴⁰
- Studies in Washington, D.C. and Seattle also saw no negative economic effects following implementation of their paid sick leave laws in either job loss or movement of businesses out of the city. A report from the Washington D.C. Auditor, issued five years after passage of the District’s sick leave law, found that the law “did not have the economic impact of encouraging business owners to move a business from the District nor did the [law] have the economic impact of discouraging business owners to locate a business in the District of Columbia.”⁴¹ Likewise, a study of the economic impact of Seattle’s sick leave law found that a “preliminary look at available data shows no widespread negative economic impact as some opponents of the ordinance feared.”⁴²
- Recognizing the benefits of paid sick leave, San Francisco, Washington, D.C., and New York City—all among the earliest adopters of paid sick leave laws—later *expanded* their paid sick leave laws, underscoring how well these laws are working for workers, employers, and communities.

Richard von Glahn, Policy Director, Missouri Jobs with Justice indicated he was submitting a fiscal note regarding petitions 24-050 to 24-061. As the policy is identical to previously submitted versions, it is identical to previous material submitted regarding the minimum wage for petitions 24-016 to 24-019. They also provided the following information:

Summary of Minimum Wage Proposals			
Version number		Initiative summary	
Version number	Version number assigned by Secretary of State	Minimum wage level	Tipped credit change*
1	24-016	\$15 by '27 (\$.75/year)	no
2	24-017	\$16.25 by '27 (\$1.25/year)	no
3	24-018	\$15 by '26 (\$1.25/year)	no
4	24-019	\$16 by '27 (\$1/year)	no
5	24-020	\$15 by '27 (\$.75/year)	yes
6	24-021	\$16.25 by '27 (\$1.25/year)	yes
7	24-022	\$15 by '26 (\$1.25/year)	yes
8	24-023	\$16 by '27 (\$1/year)	yes

** in the case of a change in the tipped credit, all versions are the same with a gradual phase out of the tip credit at 5% of the total minimum wage rate per year.*

This letter is from Richard von Glahn and Missouri Jobs with Justice Voter Action, proponents of the above referenced minimum wage petitions. Pursuant to RsMO 116.175 we write to submit the following fiscal impact information to assist your office in the analysis of of the above mentioned eight minimum wage petitions.

Our analysis estimates the impact of the proposed petitions on state sales and personal income tax revenue in Missouri. Our analysis follows a process that has been used in the past to estimate the impact of minimum wage increases, with some updates. We are unable to provide calculations on local sales and income tax revenue, although it should be noted that impacted workers in Kansas City and St. Louis City are subject to a 1% earnings tax on income, so those municipalities will experience revenue gains from their constituents seeing wage increases. Local sales tax revenue will also increase, although the different taxing rates per jurisdiction made estimates overly cumbersome to predict. We also reference some economic literature on the impact of minimum wage laws on employment , social benefit spending and downstream impacts of wage increase in order to address some common claims made by opponents of similar initiatives in the past as well as provide a broader context of impact of wage increases.

As each of these petitions explicitly exclude public employers¹ from proposed increases, we do not include an analysis of payroll expenses to these employers.

¹ Section 290.502 (4)

I. Economic literature on the employment impact of increases in the minimum wage

With 30 states and numerous other municipalities having increased the minimum wage above the federal minimum, there is ample evidence of the impact of these increases. While opponents will undoubtedly cite individual studies that predict catastrophic job loss and resulting decline in state revenue, the most credible comprehensive review of empirical evidence comes from Hristos Doucouliagos and T.D. Stanley and shows no discernible impact on employment. Their study, “Publication Selection Bias in Minimum- Wage Research? A Meta-Regression Analysis²” combines over 1,500 estimates from 64 different studies. This peer reviewed article has the advantage of any single study in that it used a set of predetermined, objective criteria for weighing the validity of statistical findings across different studies that produced different results.

In addition to this comprehensive review, a recent publication “Are \$15 Minimum Wages too High” provides an analysis of California which has gradually increased the minimum wage from \$8 in 2014 to \$15 in 2022. Their analysis focuses on impacts of two groups of workers most exposed to minimum wage increases- teenagers and restaurant workers and finds that “substantial and ongoing pay increases throughout the treatment period and find no significant disemployment effects, even in relatively low-wage counties.³” This is the most recent study and is analyzing a similar level of increases and time period as the proposed initiatives.

There is ample empirical and theoretical evidence that corroborates these studies. First, relative to total wage and labor costs, minimum-wage increases are small. Second, employers and workers respond to minimum wage increases in many ways that reduce the actual costs to employers.

Probably the most important economic response to a higher minimum wage is a reduction in turnover. At higher wages, employers fill vacancies faster and retain employees longer, boosting total employment and average productivity per worker while reducing direct and indirect training costs. A 2017 study by employee benefits news found that turnover costs as high as 33% of a workers annual salary⁴. Avoiding these costs provides an obvious benefit to employers and research from Dube, Lester and Reich in 2012⁵ finds “striking evidence that separations, new hires, and turnover rates for teens and restaurant workers fall substantially following a minimum wage increase.”

Based on these empirical studies we feel confident in concluding that there is no evidence that increasing the minimum wage will reduce employment. Accordingly, we do not include any projections for impact on employment and the resulting effects on revenue in our analysis.

² Doucouliagos, Hristos and T.D. Stanley. 2009 “Publication Selection Bias in Minimum-Wage Research? A Meta - Regression Analysis.” *British Journal of Industrial Relations*, vol. 47, no. 2, pp. 406-428

³ <https://irle.berkeley.edu/are-15-minimum-wages-too-high/>

⁴ <https://www.benefitnews.com/news/avoidable-turnover-costing-employers-big>

⁵ <https://irle.berkeley.edu/files/2012/Minimum-Wage-Shocks-Employment-Flows-and-Labor.pdf>

II. Impact on state and federal spending on social safety net programs

One area where the state is likely to experience significant direct savings from an increase in the minimum wage is on state spending on social safety net programs. Research suggests that at least 44% of Missouri recipients of Medicaid, SNAP or the Federal EITC are members of working families who would be directly impacted by the proposed initiatives⁶. State and Federal spending for this share of the workers on these programs totals \$2,400,000.00 dollars. While programs such as SNAP are paid entirely by the federal government, medicaid has a percentage paid by state revenue and the state EITC going into effect this year will cost the state revenue. While individual circumstances often dictate the cost of these or similar programs to the state, it holds that as workers earn higher wages at work access to these benefits will decrease, saving the state potentially tens of millions of dollars.

III. Estimate of number of workers impacted statewide and impact on wages

Number of impacted workers				Total Wage Growth
	Direct impact	Indirectly impacted	Total	
Proposal 1	293,000	198,000	491,000	\$576,819,000
Proposal 2	382,000	235,000	616,000	\$1,076,047,000
Proposal 3	331,000	194,000	525,000	\$733,133,000
Proposal 4	394,000	241,000	635,000	\$1,222,991,000
Proposal 5	293,000	198,000	491,000	\$688,721,000
Proposal 6	382,000	235,000	616,000	\$1,213,236,000
Proposal 7	331,000	194,000	525,000	\$852,823,000
Proposal 8	394,000	241,000	635,000	\$1,346,386,000

Note: All wages in 2022 dollars

Source: Economic Policy Institute Minimum Wage Simulation Model; see Technical Methodology by Dave Cooper, Zane Mokhiber, and Ben Zipperer.

Across all eight version of the petitions estimates show a low of \$576 million and a high of over \$1.3 billion in wage growth for Missouri workers. These estimates include direct impacts to workers making under the minimum wage as well as secondary impacts to workers whose wages are predicted to rise as a result of the minimum wage increases.

IV. Estimate of state income and sales tax revenue

⁶ <https://laborcenter.berkeley.edu/the-public-cost-of-a-low-federal-minimum-wage/>

Based on the wage increase numbers above and the conclusion that minimum wage increases have no discernible impact on employment, we next calculate the impact of projected increases on state sales tax revenue and individual state income tax revenue for Missouri. As previously mentioned, we do not include estimates for local impacts, although we do project increased revenue there as local jurisdictions do capture sales tax revenue and in the case of the Kansas City and the City of St. Louis, increases in income are subject to the individual 1% earnings tax. We do not include any speculation of increased prices as a way to offset higher wages, although any such increase would result in higher sales tax revenue.

	Estimated sales tax revenue*	Estimated individual income tax revenue**	Total revenue
Proposal 1	\$8,738,808	\$24,367,615	\$33,106,423
Proposal 2	\$16,302,112	\$45,457,412	\$61,759,524
Proposal 3	\$11,712,965	\$32,660,864	\$44,373,829
Proposal 4	\$18,528,314	\$51,665,035	\$70,193,348
Proposal 5	\$10,434,123	\$29,094,895	\$39,529,018
Proposal 6	\$18,380,525	\$51,252,936	\$69,633,462
Proposal 7	\$12,920,268	\$36,027,354	\$48,947,623
Proposal 8	\$20,397,748	\$56,877,834	\$77,275,582

**State sales tax revenue is calculated by multiplying the estimated increase in wages by average annual Missouri General Revenue sales tax collections as a share of Missouri wages and salaries from 2015-2022 (or 1.515%)*

***Income tax is calculated by multiplying the estimated increase in wages by average Missouri net individual income tax collections as a share of Missouri wages and salaries from 2015-2022 (or 4.523%) less an expected 6.6% reduction in collections due to the recent reduction of Missouri's top income tax bracket to 4.95%.*

V. Other downstream impacts of higher wages

Countless studies have also demonstrated the negative health impacts on adults and children of low wages as well as the negative impacts on child development, including academic achievement, of low wages. These situations often contain confounding variables that can make ascertaining cause and effect difficult, recent research using natural experiments to measure the direction of causation of the impact of public policies offers guidance for consideration. The research makes clear that “increases in parental income are found to lead to higher test scores and better educational outcomes for children, greater likelihood of employment in young

adulthood, and improved earnings⁷.” While the exact impact on state or local revenue is difficult to predict, research shows that the impact of higher wages on student academic achievement were four times higher per dollar increase as the effects found in a study of class size reductions that cost around \$12,000 per student⁸.” Direct impacts on state and local revenue, especially in the short term, are difficult to predict, but the growing body of research shows definite positive long term impacts on human development resulting from wage increases.

VI. Conclusion

Overall we conclude that these petitions would generate a minimum net benefit to state general revenue of between thirty three and seventy seven million dollars with an undetermined net benefit for local revenue based on local considerations. This benefit is the direct result of the wage increases. Other savings are likely to accrue from a decrease in spending on safety net programs and a downstream benefit to the families of recipients of the wage increases. We submit this information in hopes that it can be useful in your determination of the fiscal impact of the proposed initiatives. Should you need any other information please do not hesitate to contact our office.

RE: Missouri IP 24-050 through 24-061

VIA EMAIL: fiscalnote@auditor.mo.gov

To Whom it May Concern:

Towards Justice is a non-profit law firm that represents workers in litigation and other advocacy in our home state of Colorado and across the country. We write pursuant to RsMO 116.175 to assist your office in analyzing the fiscal impact of a ballot measure regarding compensated breaks for Missouri employees that has been proposed to be submitted to the voters of the state of Missouri at the November 5, 2024 election. To that end, we offer an examination of the items in subsection (2) of section 23.140 of the governmental accounting standards board.

This analysis describes only the estimated fiscal impact of proposed meal and rest break requirements in Missouri IP 24-050 through 24-061. We understand that others will provide a fiscal analysis of the proposed increase in the Missouri minimum wage.

(1) The cost of the proposed legislation to the state for the next two fiscal years:

The proposed employee breaktime law requires private employers to provide 10-minute paid rest breaks and 30-minute, duty-free, uncompensated meal breaks to employees. The legislation does not impose these requirements on public employers, "including the state or a political subdivision of the state, including a department, agency, officer, bureau, division, board, commission, or instrumentality of the state, or a city, county, town, village, school district, or other political subdivision of the state." Therefore, any fiscal impact to the state will depend on the impact these new requirements have on the private sector.

We predict that state-mandated meal and rest break requirements will increase employee health and happiness in Missouri's private sector. Employee happiness positively impacts productivity

and task performance,¹ and improves employee energy levels at work over time.² Happiness is also associated with lower turnover rates, which reduce employer costs. In a study of turnover rates among nurses, researchers found that “implementing regularly scheduled rest breaks can be considered as an effective intervention for improving retention of nurses even in a situation of understaffing.”³

Breaks also offer mental and physical health benefits.⁴ Workers with fewer breaks suffer from poorer mental and physical health, including an “increased risk of reporting mental fatigue, physical fatigue, poor psychological detachment, inadequate rest, and poor sleep.”⁵ Meanwhile, rest breaks prevent workplace injuries, thereby reducing the cost on the state’s workers compensation fund.⁶ Increased overall health combined with the reduction in workplace injuries, reduce employee need to use sick or vacation time to deal with health issues.⁷

The increased productivity, lower turnover, better health, and reduced workplace injury rates associated with employee breaks would not only counteract any productivity loss associated with reduced on-duty time but would likely lead to an overall increase in private sector productivity in Missouri. Such a productivity increase would positively benefit the state through increased tax revenues.

(2) Whether or not the proposed legislation will establish a program or agency that will duplicate an existing program or agency:

This law will not create a program or agency. Instead, the legislation creates new rights for private sector employees in the state. The law would allow employees to use the existing court system to enforce these new rights. The law does not require the Missouri Department of Labor to participate in implementation or enforcement and would have no impact on the agency’s budget.

Stewart, Judith A. Ricchi, Isbeth Chee, and David Morganstein, *Lost Productive Work Time Costs From Health Conditions in the United States: Results from the American Productivity Audit*, *J Occup Environ Med*, Dec. 2003, <https://pubmed.ncbi.nlm.nih.gov/14665809/>.

(3) Whether or not there is a federal mandate for the program or agency:

There is no federal mandate requiring meal or rest break protections for Missouri workers. Instead, the federal government allows employers to design their own break-time policies, while requiring that breaks shorter than 20 minutes be paid and allowing duty-free breaks longer than 30 minutes to be unpaid.⁸ Given this relatively weak federal protection, at least 20 states have adopted their own meal break protections for employees.⁹ Absent a federal mandate, Missouri voters could choose to do the same.

(4) Whether or not the proposed program or agency will have significant direct fiscal impact upon any political subdivision of the state:

The proposed employee meal and rest break protections do not apply to public employers and therefore will not have a significant direct fiscal impact on any political subdivision of the state. It is possible that the reduced risk of on-the-job injuries correlated with regular rest breaks will reduce demand on Missouri's worker compensation program. It is also possible that meal and rest break requirements will increase overall private sector productivity in Missouri, and thereby increase state tax revenue.

(5) Whether or not any new physical facilities will be required:

No new physical facilities will be required.

(6) Whether or not the proposed legislation will have an economic impact on small businesses:

The proposed meal and rest break protections would require Missouri businesses with fewer than 50 employees to provide employee meal and rest breaks. We anticipate that the productivity benefits associated with those breaks will offset the reduction in on-duty time. Overall, we anticipate that the meal and rest break requirements proposed would positively impact both employees and small businesses in Missouri.

We hope this summary proves useful as you assess the fiscal impact of the proposed meal and rest break measure. If we can be of further assistance, please do not hesitate to contact our office.

Sincerely,
Towards Justice

Fiscal Note Summary

State governmental entities estimate one-time costs ranging from \$0 to \$53,000, and ongoing costs ranging from \$0 to at least \$256,000 per year by 2027. State and local government tax revenue could change by an unknown annual amount depending on business decisions.

STATE AUDITORS OFFICE

RE: Petition approval request from Richard von Glahn regarding a proposed statutory amendment to Chapter 290, version 11 (2024-060)

Dear Auditor Fitzpatrick:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Richard von Glahn on January 18, 2023.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it enacted by the people of the state of Missouri:

Chapter 290, RSMo, is amended by amending sections 290.502, 290.522, 290.525, 290.527, and 290.530 of the Revised Statutes of Missouri and enacting seventeen new sections to be known as sections 290.518, 290.519, 290.600, 290.603, 290.606, 290.609, 290.612, 290.615, 290.618, 290.621, 290.624, 290.627, 290.630, 290.633, 290.636, 290.639, and 290.642, to read as follows:

290.502. 1. Except as may be otherwise provided pursuant to sections 290.500 to 290.530, effective January 1, 2007, every employer shall pay to each employee wages at the rate of \$ 6.50 per hour, or wages at the same rate or rates set under the provisions of federal law as the prevailing federal minimum wage applicable to those covered jobs in interstate commerce, whichever rate per hour is higher.

2. The minimum wage shall be increased or decreased on January 1, 2008, and on January 1 of successive years, by the increase or decrease in the cost of living. On September 30, 2007, and on each September 30 of each successive year, the director shall measure the increase or decrease in the cost of living by the percentage increase or decrease as of the preceding July over the level as of July of the immediately preceding year of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) or successor index as published by the U.S. Department of Labor or its successor agency, with the amount of the minimum wage increase or decrease rounded to the nearest five cents.

3. Except as may be otherwise provided pursuant to sections 290.500 to 290.530, and notwithstanding subsection 1 of this section, effective January 1, [2019] 2025, every employer shall pay to each employee wages at the rate of not less than [~~\$8.60~~] \$13.50 per hour, or wages at the same rate or rates set under the provisions of federal law as the prevailing federal minimum wage applicable to those covered jobs in interstate commerce, whichever rate per hour is higher. Thereafter, the minimum wage established by this subsection shall be increased each year by [~~\$.85~~] \$.75 per hour, effective January 1 of each of the next [four] two years, until it reaches [~~\$12.00~~] \$15.00 per hour, effective January 1, [2023] 2027. Thereafter, the minimum wage established by this subsection shall be increased or decreased on January 1, [2024] 2028, and on January 1 of successive years, per the method set forth in subsection 2 of this section. If at any time the federal minimum wage rate is above or is thereafter increased above the minimum wage then in effect under this subsection, the minimum wage required by this subsection shall continue to be increased pursuant to this subsection 3, but the higher federal rate shall immediately become the minimum wage required by this subsection and shall be increased or decreased per the method set forth in subsection 2 for so long as it remains higher than the state minimum wage required and increased pursuant to this subsection.

4. For purposes of this section, the term "public employer" means an employer that is the state or a political subdivision of the state, including a department, agency, officer, bureau, division, board, commission, or instrumentality of the state, or a city, county, town, village, school district, or other political subdivision of the state. Subsection 3 of this section shall not apply to a public employer with respect to its employees. Any public employer that is subject to subsections 1 and 2 of this section shall continue to be subject to those subsections.

290.518. 1. Every employer shall provide employees who are to work for seven and one-half hours from the beginning of their shift a meal period of at least 30 continuous minutes. An employee who works in excess of seven and one-half hours shall be entitled to an additional 30 minute meal period for every additional seven and one-half hours worked. An employer shall schedule a meal period no earlier than two hours and no later than five hours from the beginning of a shift, and for employees entitled to a second meal period no earlier than two hours and no later than five hours from the beginning of the second period of seven and one-half hours worked.

2. Meal periods may be unpaid and not counted as time worked provided the employee is completely relieved of all duty. Meal periods shall be time worked and paid at the employee's regular rate of compensation when an employee is required to perform any duties, whether active or inactive, while taking the meal period. An employer is permitted to make the meal period on duty only when the nature of work or other circumstances exist that make it infeasible for an employee to take a duty-free meal period. In such case, the employee shall be

allowed to eat while on duty and shall be paid for the full 30 minutes on-duty meal period and further shall only be required to perform the limited duties during the meal period that make a fully duty-free meal period infeasible. It is the employer's burden to establish that a duty-free meal period is "infeasible" by demonstrating that the failure to provide a duty-free meal period was a business necessity, either because it was caused by exceptional and unanticipated circumstances that are temporary or because the provision of a duty-free meal period would prevent the employer from performing a vital function or pose a danger to the safety and health of other employees, patients, residents of a facility, service recipients of home and community-based services, clients, or the public.

3. If an employer fails to provide an employee a meal period in accordance with this section, the employer shall pay the employee an additional one hour of pay at the employee's regular rate of compensation for each shift that the meal period is not provided. There is a rebuttable presumption that an employee who did not take a meal period was not permitted to do so and that the employer failed to provide that employee a meal period in accordance with this section.

4. If an employer requires an employee to eat on premises, it shall provide a suitable place for that purpose, with adequate seating and tables.

5. This section shall not apply to a public employer, as defined in Section 290.502.4, with respect to its employees.

6. The provisions of this section shall become effective January 1, 2025.

290.519. 1. Every employer shall provide employees a rest break of at least 10 continuous minutes for each four hours worked or major fraction thereof, to be taken as near as practical to the midpoint of each work period of four hours worked or major fraction thereof. An employer need not provide a rest break to employees whose total daily work time is less than three and one-half hours.

2. An employer shall not require the employee to perform any work during a rest break. Employees shall receive rest breaks without deduction from wages and time on rest breaks shall be considered time worked. Rest breaks are in addition to any meal period to which an employee is entitled. An employer need not provide a duty-free rest break of 10 continuous minutes as near as practical to the midpoint of each work period of four hours worked or major fraction thereof only when the nature of work or other circumstances exist that make it infeasible. In such case, the employee shall be paid an extra 10 minutes of compensation at the employee's regular rate of compensation without being required to perform additional work for that time, for each rest break of 10 continuous minutes that an employee does not receive, and further the employee shall be permitted to use restroom facilities without unreasonable restriction. It is the employer's burden to establish that providing a duty-free rest break of 10 continuous minutes as near as practical to the midpoint of each work period of four hours worked or major fraction thereof is "infeasible" by demonstrating that the failure to provide such a rest break was a business necessity, either because it was caused by exceptional and unanticipated circumstances that are temporary or because the provision of a duty-free rest break would prevent the employer from performing a vital function or pose a danger to the safety and health of other employees, patients, residents of a facility, service recipients of home and community-based services, clients, or the public.

3. If an employer fails to provide an employee a rest break in accordance with the applicable provisions of this Section, the employer shall pay the employee an additional 30 minutes of pay at the employee's regular rate of compensation for each work period that a rest break is not provided. There is a rebuttable presumption that an employee who did not take a rest break was not permitted to do so and that the employer failed to provide that employee a rest break in accordance with this section.

4. This section shall not apply to a public employer, as defined in Section 290.502.4, with respect to its employees.

5. The provisions of this section shall become effective January 1, 2025.

290.522. Every employer subject to any provision of sections 290.500 to 290.530 or of any regulations issued under sections 290.500 to 290.530 shall keep a summary of sections 290.500 to 290.530, approved by the director, and copies of any applicable wage, meal period, and rest break regulations issued under sections 290.500 to 290.530, or a summary of the wage, meal period, and rest break regulations posted in a conspicuous and accessible place in or about the premises wherein any person subject thereto is employed. Employers shall be furnished copies of the summaries and regulations by the state on request without charge, except that the state may, but is not required to, furnish to employers copies of summaries and regulations relating to the provisions on meal periods and rest breaks without charge but regardless an employer shall keep a summary of those provisions posted consistent with this section.

290.525. Any employer who hinders the director in the performance of his duties in the enforcement of sections 290.500 to 290.530 by any of the following acts is guilty of a class C misdemeanor:

- (1) Refusing to admit the director to any place of employment;
- (2) Failing to make, keep and preserve any records as required under the provisions of sections 290.500 to 290.530;
- (3) Falsifying any record required under the provisions of sections 290.500 to 290.530;
- (4) Refusing to make any record required under the provisions of sections 290.500 to 290.530 accessible to the director;
- (5) Refusing to furnish a sworn statement of any record required under the provisions of sections 290.500 to 290.530 or any other information required for the proper enforcement of sections 290.500 to 290.530 to the director upon demand;
- (6) Failing to post a summary of sections 290.500 to 290.530 or a copy of any applicable regulation as required;
- (7) Discharging or in any other manner discriminating against any employee who has notified the director that he has not been paid wages in accordance with the provisions of sections 290.500 to 290.530, or who has caused to be instituted any proceeding under or related to sections 290.500 to 290.530, or who has testified or is about to testify in any such proceeding;
- (8) Paying or agreeing to pay wages at a rate less than the rate applicable under sections 290.500 to 290.530. Payment at such rate for any week or portion of a week constitutes a separate offense as to each employee;
- (9) Failing to provide meal periods and rest breaks in accordance with sections 290.500 to 290.530;
- ~~[(9)]~~ (10) Otherwise violating any provisions of sections 290.500 to 290.530.

Each day of violation constitutes a separate offense.

290.527. Any employer who pays any employee less wages than the wages to which the employee is entitled under or by virtue of sections 290.500 to 290.530 shall be liable to the employee affected for the full amount of the wage rate and an additional amount equal to twice the unpaid wages as liquidated damages, less any amount actually paid to the employee by the employer and for costs and such reasonable attorney fees as may be allowed by the court or jury. Any employer who fails to provide meal periods and rest breaks to an employee in accordance with sections 290.500 to 290.530 shall be liable to the employee for any additional wages for time worked if applicable, and in addition for the additional or extra pay due employees for failing to provide meal periods or rest breaks under section 290.518 and 290.519, respectively, and for costs and such reasonable attorney fees as may be allowed by the court or jury. The employee may bring any legal action necessary to collect the claim. Any

agreement between the employee and the employer to work for less than the wage rate or to relinquish requirements associated with meal periods and rest breaks shall be no defense to the action. All actions for the collection of any deficiency in wages or failure to provide meal periods or rest breaks in accordance with sections 290.500 to 290.530 shall be commenced within three years of the accrual of the cause of action.

290.530. Nothing in sections 290.500 to 290.530 shall be deemed to interfere with, impede, or in any way diminish the right of employees to bargain collectively with their employers through representatives of their own choosing in order to establish wages, meal periods, rest breaks, or other conditions of work in excess of the applicable minimum under the provisions of sections 290.500 to 290.530.

290.600. As used in sections 290.600 through 290.642:

(1) "Department", Department of Labor and Industrial Relations.

(2) "Director", Director of the Department of Labor and Industrial Relations.

(3) "Domestic violence", as such term is defined in section 455.010.

(4) "Earned paid sick time", time that is compensated at the same hourly rate and with the same benefits, including health care benefits, as the employee normally earns during hours worked and is provided by an employer to an employee for the purposes described in section 290.606, but in no case shall this hourly amount be less than that provided under section 290.502.

(5) "Employee", any individual employed in this state by an employer, but does not include:

(A) Any individual engaged in the activities of an educational, charitable, religious, or nonprofit organization where the employer-employee relationship does not, in fact, exist or where the services rendered to the organization are on a voluntary basis;

(B) Any individual standing in loco parentis to foster children in their care;

(C) Any individual employed for less than four months in any year in a resident or day camp for children or youth, or any individual employed by an educational conference center operated by an educational, charitable or not-for-profit organization;

(D) Any individual engaged in the activities of an educational organization where employment by the organization is in lieu of the requirement that the individual pay the cost of tuition, housing or other educational fees of the organization or where earnings of the individual employed by the organization are credited toward the payment of the cost of tuition, housing or other educational fees of the organization;

(E) Any individual employed on or about a private residence on an occasional basis for six hours or less on each occasion;

(F) Any individual employed on a casual basis to provide baby-sitting services;

(G) Any individual employed by an employer subject to the provisions of part A of subtitle IV of title 49, United States Code, 49 U.S.C. §§ 10101 et seq.;

(H) Any individual employed on a casual or intermittent basis as a golf caddy, newsboy, or in a similar occupation;

(I) Any individual who is employed in any government position defined in 29 U.S.C. §§ 203(e)(2)(C)(i)-(ii);

(J) Any individual employed by a retail or service business whose annual gross volume sales made or business done is less than five hundred thousand dollars;

(K) Any individual who is an offender, as defined in section 217.010, who is incarcerated in any correctional facility operated by the department of corrections, including offenders who provide labor or services on the grounds of such correctional facility pursuant to section 217.550; or,

(L) Any individual described by the provisions of section 29 U.S.C. 213(a)(8).

(6) "Employer", any person acting directly or indirectly in the interest of an employer in relation to an employee; provided, however, that for the purposes of sections 290.600 through 290.642 "employer" does not include the United States Government, the state, or a political subdivision of the state, including a department, agency, officer, bureau, division, board, commission, or instrumentality of the state, or a city, county, town, village, school district, public higher education institution, or other political subdivision of the state.

(7) "Family member", any of the following individuals:

(A) Regardless of age, a biological, adopted or foster child, stepchild or legal ward, a child of a domestic partner, a child to whom the employee stands in loco parentis, or an individual to whom the employee stood in loco parentis when the individual was a minor;

(B) A biological, foster, stepparent or adoptive parent or legal guardian of an employee or an employee's spouse or domestic partner or an individual who stood in loco parentis when the employee or employee's spouse or domestic partner was a minor child;

(C) An individual to whom the employee is legally married under the laws of any state, or a domestic partner who is registered as such under the laws of any state or political subdivision, or an individual with whom the employee is in a continuing social relationship of a romantic or intimate nature;

(D) A grandparent, grandchild, or sibling (whether of a biological, foster, adoptive or step relationship) of the employee or the employee's spouse or domestic partner; or

(E) A person for whom the employee is responsible for providing or arranging health or safety-related care, including but not limited to helping that individual obtain diagnostic, preventative, routine, or therapeutic health treatment or ensuring the person is safe following domestic violence, sexual assault, or stalking.

(8) "Health care professional," any individual licensed under federal or any state law to provide medical or emergency services, including but not limited to doctors, nurses, certified nurse midwives, mental health professionals, and emergency room personnel.

(9) "Person", any individual, partnership, association, corporation, business, business trust, legal representative, or any organized group of persons.

(10) "Retaliatory personnel action", denial of any right guaranteed under sections 290.600 through 290.642, or any threat, discharge, suspension, demotion, reduction of hours, or any other adverse action against an employee for the exercise of any right guaranteed herein. "Retaliatory personnel action" shall also include interference with or punishment for in any manner participating in or assisting an investigation, proceeding, or hearing under sections 290.600 through 290.642.

(11) "Same hourly rate", means the following:

(A) For employees paid on the basis of a single hourly rate, the same hourly rate shall be the employee's regular hourly rate.

(B) For employees who are paid multiple hourly rates of pay from the same employer, the same hourly rate shall be either:

(i) the wages the employee would have been paid for the hours absent during use of earned paid sick time if the employee had worked; or,

(ii) the weighted average of all hourly rates of pay during the previous pay period.

Whatever method the employer uses, the employer must use a consistent method for each employee throughout a year.

(C) For employees who are paid a salary, the same hourly rate shall be determined by dividing the wages the employee earns in the previous pay period by the total number of hours worked during the previous pay period. For determining total number of hours worked during the previous pay period, employees who are exempt from overtime requirements under 29 U.S.C. § 213(a)(1), the Fair Labor Standards Act, shall be assumed to work 40 hours in each work week unless their normal work week is less than 40 hours, in which case earned paid sick time shall accrue and the same hourly rate shall be calculated based on the employee's normal work week. Regardless of the basis used, the same hourly rate shall not be less than the effective minimum wage specified in section 290.502.

(D) For employees paid on a piece rate or a fee-for-service basis, the same hourly rate shall be a reasonable calculation of the wages or fees the employee would have received for the piece work, service, or part thereof, if the employee had worked. Regardless of the basis used, the same hourly rate shall not be less than the effective minimum wage specified in section 290.502.

(E) For employees who are paid on a commission basis (whether base wage plus commission or commission only), the same hourly rate shall be the greater of the base wage or the effective minimum wage specified in section 290.502.

(F) For employees who receive and retain compensation in the form of gratuities in addition to wages, the same hourly rate shall be the greater of the employee's regular hourly

rate or 100% of the effective minimum wage specified in section 290.502 without deduction of any tips as a credit.

(12) "Sexual assault", as such term is defined in section 455.010.

(13) "Stalking", as such term is defined in section 455.010.

(14) "Year", a regular and consecutive twelve-month period as determined by the employer; except that for the purposes of section 290.615 and section 290.627, "year" shall mean a calendar year.

290.603. 1. Employees of an employer with fifteen or more employees shall accrue a minimum of one hour of earned paid sick time for every thirty hours worked, but such employees shall not be entitled to use more than fifty-six hours of earned paid sick time per year, unless the employer selects a higher limit.

2. Employees of an employer with fewer than fifteen employees shall accrue a minimum of one hour of earned paid sick time for every thirty hours worked, but such employees shall not be entitled to use more than forty hours of earned paid sick time per year, unless the employer selects a higher limit.

3. In determining the number of employees of an employer, all employees performing work in the state for an employer for compensation on a full-time, part-time, or temporary basis shall be counted. In situations in which the number of employees performing work in the state for an employer for compensation per week fluctuates above and below 15 employees per week over the course of a year, an employer is required to provide earned paid sick time pursuant to subsection (1) of this section if it maintained fifteen or more employees in the state on the payroll for some portion of a working day in each of twenty or more different calendar weeks, including any periods of leave, and whether or not the weeks were consecutive, in either the current or the preceding year (irrespective of whether the same individuals were in employment in each working day).

4. All employees shall accrue earned paid sick time as follows:

(A) Earned paid sick time as provided in this section shall begin to accrue at the commencement of employment or May 1, 2025, whichever is later. An employee shall be entitled to use earned paid sick time as it is accrued. An employer may provide all earned paid sick time that an employee is expected to accrue in a year at the beginning of the year.

(B) Employees who are exempt from overtime requirements under 29 U.S.C. § 213(a)(1) of the Federal Fair Labor Standards Act will be assumed to work forty hours in each work week for purposes of earned paid sick time accrual unless their normal work week is less than forty hours, in which case earned paid sick time accrues based upon that normal work week.

(C) Up to 80 hours of earned paid sick time shall be carried over to the following year if the employee has any unused accrued earned paid sick time at the end of the year, but this law does not require an employer to permit an employee to use more than the applicable number of hours of earned paid sick time per year as set forth in subsection (1) and (2) of this section. Alternatively, in lieu of carryover of unused earned paid sick time from one year to the next, an employer may pay an employee for unused earned paid sick time at the end of a year which could be carried over and provide the employee with an amount of paid sick time that meets or exceeds the requirements of sections 290.600 through 290.642 that is available for the employee's immediate use at the beginning of the subsequent year.

(D) If an employee is transferred to a separate division, entity, or location, but remains employed by the same employer, the employee is entitled to all earned paid sick time accrued at the prior division, entity, or location and is entitled to use all earned paid sick time as provided in this section. When there is a separation from employment and the employee is rehired within nine months of separation by the same employer, previously accrued earned paid sick time that had not been used shall be reinstated. Further, the employee shall be entitled to use accrued earned paid sick time and accrue additional earned paid sick time at the re-commencement of employment.

(E) When a different employer succeeds or takes the place of an existing employer, all employees of the original employer who remain employed by the successor employer are entitled to all earned paid sick time they accrued when employed by the original employer, and are entitled to use earned paid sick time previously accrued.

(F) At its discretion, an employer may loan earned paid sick time to an employee in advance of accrual by such employee.

5. Any employer with a paid leave policy, such as a paid time off policy, who makes available an amount of paid leave sufficient to meet the accrual requirements of this section that may be used for the same purposes and under the same conditions as earned paid sick time under sections 290.600 through 290.642 is not required to provide additional paid sick time under this section.

6. Except as specifically provided in this section, nothing in this section shall be construed as requiring financial or other reimbursement to an employee from an employer upon the employee's termination, resignation, retirement, or other separation from employment for accrued earned paid sick time that has not been used.

7. Employees shall not accrue earned paid sick time before May 1, 2025. Employees who are employed or who commence employment on or after May 1, 2025 shall accrue earned paid sick time and be entitled to use earned paid sick time as it is accrued in accordance with sections 290.600 through 290.642. The Department may develop model posters and notices, engage in rule-making, initiate outreach programs, and engage in other activities for implementation of the provisions of sections 290.600 through 290.642 as authorized by those sections before May 1, 2025.

290.606. 1. Earned paid sick time shall be provided to an employee by an employer for:

(A) An employee's mental or physical illness, injury, or health condition; an employee's need for medical diagnosis, care, or treatment of a mental or physical illness, injury, or health condition; an employee's need for preventative medical care;

(B) Care of a family member with a mental or physical illness, injury, or health condition; care of a family member who needs medical diagnosis, care, or treatment of a mental or physical illness, injury, or health condition; care of a family member who needs preventative medical care;

(C) Closure of the employee's place of business by order of a public official due to a public health emergency, or an employee's need to care for a child whose school or place of care has been closed by order of a public official due to a public health emergency, or care for oneself or a family member when it has been determined by the health authorities having jurisdiction or by a health care provider that the employee's or family member's presence in the community may jeopardize the health of others because of his or her exposure to a communicable disease, whether or not the employee or family member has actually contracted the communicable disease; or

(D) Absence necessary due to domestic violence, sexual assault, or stalking, provided the leave is to allow the employee to obtain for the employee or the employee's family member:

(i) Medical attention needed to recover from physical or psychological injury or disability caused by domestic violence, sexual assault, or stalking;

(ii) Services from a victim services organization;

(iii) Psychological or other counseling;

(iv) Relocation or taking steps to secure an existing home due to the domestic violence, sexual assault, or stalking; or

(v) Legal services, including preparing for or participating in any civil or criminal legal proceeding related to or resulting from the domestic violence, sexual assault, or stalking.

2. Earned paid sick time shall be provided upon the request of an employee. Such request may be made orally, in writing, by electronic means, or by any other means acceptable to the employer. When possible, the request shall include the expected duration of the absence.

3. When the use of earned paid sick time is foreseeable, the employee shall make a good faith effort to provide notice of the need for such time to the employer in advance of the use of the earned paid sick time and shall make a reasonable effort to schedule the use of earned paid sick time in a manner that does not unduly disrupt the operations of the employer. Where such need is not foreseeable, an employer may require an employee to provide notice of the need for the use of earned paid sick time as soon as practicable.

4. An employer that requires notice of the need to use earned paid sick time where the need is not foreseeable shall provide a written policy that contains procedures for the employee to provide notice. An employer that has not provided to the employee a copy of its written policy for providing such notice shall not deny earned paid sick time to the employee based on non-compliance with such a policy.

5. An employer may not require, as a condition of an employee's taking earned paid sick time, that the employee search for or find a replacement worker to cover the hours during which the employee is using earned paid sick time.

6. Earned paid sick time may be used in the smaller of hourly increments or the smallest increment that the employer's payroll system uses to account for absences or use of other time.

7. For earned paid sick time of three or more consecutive work days, an employer may require reasonable documentation that the earned paid sick time has been used for a purpose covered by subsection (1) of this section.

(A) Documentation signed by a health care professional indicating that earned paid sick time is necessary shall be considered reasonable documentation for purposes of this section.

(B) In cases of domestic violence, sexual assault, or stalking, if the employer requests, one of the following types of documentation selected by the employee shall be considered reasonable documentation: (i) a police report indicating that the employee or the employee's family member was a victim of domestic violence, sexual assault, or stalking; (ii) a written statement from an employee or agent of a victim service provider affirming that the employee or employee's family member is or was receiving services from a victim service provider; (iii) documentation signed by a health care professional from whom the employee or employee's family member sought assistance relating to domestic violence, sexual assault, or stalking or the effects thereof; (vi) a court document indicating that an employee or employee's family member is or was involved in a legal action related to domestic violence, sexual assault, or stalking; or (v) a written statement from the employee affirming that the employee or employee's family member is taking or took earned paid sick time for a qualifying purpose of subsection (1) of this section.

(C) An employer may not require that the documentation explain the nature of the illness, details of the underlying health needs, or the details of the domestic violence, sexual assault, or stalking, unless otherwise required by law.

290.609. 1. It shall be unlawful for an employer or any other person to interfere with, restrain, or deny the exercise of, or the attempt to exercise, any right protected under sections 290.600 through 290.642.

2. An employer shall not take retaliatory personnel action or discriminate against an employee or former employee because the individual has exercised rights protected under sections 290.600 through 290.642. Such rights include, but are not limited to, the right to request or use earned paid sick time pursuant to sections 290.600 through 290.642; the right to file a complaint or inform any person about any employer's alleged violation of sections 290.600 through 290.642; the right to participate in any investigation, hearing, or proceeding or cooperate with or assist the Department in any investigations of alleged violations of sections 290.600 through 290.642; and the right to inform any person of his or her potential rights under sections 290.600 through 290.642.

3. It shall be unlawful for an employer's absence control policy to count earned paid sick time taken under sections 290.600 through 290.642 as an absence that may lead to or result in discipline, discharge, demotion, suspension, or any other adverse action.

4. Protections of this section shall apply to any individual who mistakenly but in good faith alleges violations of sections 290.600 through 290.642.

290.612. 1. Employers shall give employees a written notice about earned paid sick time within fourteen calendar days of the commencement of employment or on April 15, 2025, whichever is later, which must include the following information: (1) beginning May 1, 2025, employees accrue and are entitled to earned paid sick time at the rate one hour of earned paid sick time for every 30 hours of work, and may use earned paid sick time, subject to the limits and terms under sections 290.600 through 290.642 of Missouri law, (2) it is prohibited for an employer to take retaliatory personnel action against employees who request or use earned paid sick time as allowed by law, (3) each employee has the right to bring a civil action if earned paid sick time as required by sections 290.600 through 290.642 is denied by the employer or the employee is subjected to retaliatory personnel action by the employer for exercising the employee's rights under sections 290.600 through 290.642; and, (4) the contact information for the Department. Notice shall be provided by the Employer to the employee on a single piece of paper, at least 8.5 x 11, in no less than 14-point font.

2. Beginning April 15, 2025, employers shall display a poster that contains the information required in subsection (1) of this section in a conspicuous and accessible place in each establishment where such employees are employed, provided that such poster has been made available by the Department.

3. The Department may create and make available to employers, model notices and posters that contain the information required under subsection (1) of this section for employers' use in complying with subsections (1) and (2) of this section. Nothing in this subsection shall be interpreted or applied, either expressly or through practical necessity, to require the Department to create or make available notices or posters if it requires the appropriation of funds to cover the costs of such acts.

290.615. 1. Employers shall retain records documenting hours worked by employees and earned paid sick time taken by employees, for a period of not less than three years, and shall allow the Department access to such records, with appropriate notice and at a mutually agreeable time, to monitor compliance with the requirements of sections 290.600 through 290.642.

2. To the extent permitted by law, the Director may inspect such records, and the records shall be open for inspection by the Director by appointment. Where the records required under this section are kept outside the state, the records shall be made available to the Director upon demand. Every such employer shall furnish to the Director on demand a sworn statement of time records and information upon forms prescribed or approved by the Director. All the records and information obtained by the Department are confidential and shall be disclosed only on order of a court of competent jurisdiction.

3. Nothing in this section shall be interpreted or applied, either expressly or through practical necessity, to require the Department or Director to access or inspect records or to create forms relating to the inspection of records if it requires the appropriation of funds to cover the costs of such acts.

290.618. 1. The Department may, in accordance with chapter 536, promulgate rules for the implementation, enforcement, and administration of sections 290.600 through 290.642. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after November 5, 2024, shall be invalid and void.

2. Nothing in this section shall be interpreted or applied, either expressly or through practical necessity, to require the promulgation or adoption of rules if it requires the appropriation of funds to cover the costs of such acts.

290.621. 1. The Department may investigate and ascertain compliance with sections 290.600 through 290.642, establish and implement a system to receive complaints regarding non-compliance with sections 290.600 through 290.642 and to investigate and attempt to resolve complaints between the complainant and the subject of the complaint, and establish additional means of enforcement, including requiring by subpoena the testimony of witnesses and production of books, records, and other evidence relative to any matter under investigation or hearing, issuing notices of violation, holding hearings on notices of violation, making determinations, recovering unpaid earned sick time, and imposing fines for willful violations of up to \$500 per day of each day of a continuing violation. A final decision of the department is subject to review in accordance with the provisions of chapter 536.

2. The Department may develop and implement an outreach program to inform employees, parents, and persons who are under the care of a health care provider about the availability of earned paid sick time under sections 290.600 through 290.642. This program may include the distribution of notices and other written materials to child care and elder care providers, domestic violence shelters, schools, hospitals, community health centers and other health care providers in Missouri.

3. A municipality, county, city, town, or village may adopt ordinances, rules, and regulations to investigate and ascertain compliance with sections 290.600 through 290.642, establish and implement a system to receive complaints regarding non-compliance with sections 290.600

through 290.642 and to investigate and attempt to resolve complaints between the complainant and the subject of the complaint, and establish additional means of enforcement, with respect to employers within, or employees performing work while physically present in, the geographic boundaries of the municipality, county, city, town, or village. Any such ordinance, rule, or regulation shall be consistent with this law and any Department rules or regulations and system for compliance and enforcement. The municipality, county, city, town, or village may exercise such powers as allowed by any applicable charter or ordinance, including requiring by subpoena the testimony of witnesses and production of books, records, and other evidence relative to any matter under investigation or hearing, issuing notices of violation, holding hearings on notices of violation, making determinations, recovering unpaid earned sick time, and imposing fines for willful violations of up to the maximum allowed for an ordinance violation. Before investigating or seeking to resolve any complaint between the complainant and the subject of the complaint, the municipality, county, city, town, or village shall give notice to the Department with a copy of the complaint and, within 14 days of such notice, the Department may intervene as of right and participate in the matter to ensure that the complaint is being investigated and resolved in the interest of effective enforcement of sections 290.600 through 290.642 or, alternatively, the Department may institute its own proceedings in which case the municipality, county, city, town, or village shall refrain from acting on the matter so long as the complaint is being investigated and resolved in the interest of effective enforcement of sections 290.600 through 290.642. If the Department does not, within 14 days, intervene or instigate its own proceedings, the municipality, county, city, town, or village may, without the Department, investigate and attempt to resolve the complaint and take other additional means within its power to enforce sections 290.600 through 290.642 against the subject of the complaint. In no event shall an employer be subject to compliance proceedings arising out of a single set of facts after having already been subjected to a final compliance order by another governmental entity.

4. Nothing in this section shall be interpreted or applied, either expressly or through practical necessity, to require the Department, a municipality, county, city, town, or village to conduct investigations and ascertain compliance with sections 290.600 through 290.642, to establish and implement a system to receive or resolve complaints, to establish additional means of enforcement, or to conduct outreach and education, including the creation of notices and other written materials, concerning sections 290.600 through 290.642, if it requires the appropriation of funds to cover the costs of such acts.

290.624. 1. Any employer who willfully violates or fails to comply with any of the provisions and requirements of sections 290.600 through 290.642 shall be guilty of a class C misdemeanor; provided, however, that an employer who willfully violates the notice and posting requirements of section 290.612 shall be guilty of an infraction.

2. For purposes of this section, each day of violation or failure to comply and each employee affected shall constitute a separate offense.
